PROPOSALS BY SECURITY HOLDERS

No security holder has requested the Company to include any additional proposals in this Information Statement.

DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of 50,000,000 shares of common stock, par value \$0.01 per share and 5,000,000 shares of preferred stock, par value \$0.01 per share. As of October 20, 2009, there were 35,496,650 shares of common stock outstanding and no shares of preferred stock outstanding. The following description is a summary of our securities and contains the material terms of our securities. Additional information can be found in our articles of incorporation, bylaws and other documents discussed below.

Common stock

Holders of our common stock are entitled to one vote per share with respect to each matter presented to our stockholders on which, the holders of common stock are entitled to vote. Subject to the rights of the holders of any

preferred stock we may designate or issue in the future, or as may otherwise be required by law or our articles of incorporation, our common stock is our only common stock entitled to vote in the election of directors and on all other matters presented to our stockholders. The common stock does not have cumulative voting rights or preemptive rights. Subject to the prior rights of holders of preferred stock, if any, holders of our common stock are entitled to receive dividends as may be lawfully declared from time to time by our board of directors. Upon our liquidation, dissolution or winding up, whether voluntary or involuntary, holders of our common stock will be entitled to receive such assets as are available for distribution to our stockholders after there shall have been paid, or set apart for payment, the full amounts necessary to satisfy any preferential or participating rights to which the holders of any outstanding series of preferred stock are entitled.

As of October 20, 2009, there are 35,496,650 shares of common stock issued and outstanding.

Preferred Stock

Our board of directors is authorized to issue preferred stock in one or more series and, with respect to each series, to determine the preferences, rights, qualifications, limitations and restrictions thereof, including the dividend rights, conversion rights, voting rights, redemption rights and terms, liquidation preferences, sinking fund provisions, the number of shares constituting the series and the designation of such series.

We had previously authorized and issued a Series A Preferred Stock. All shares issued under the series A preferred stock were subsequently converted into shares of common stock and there are no shares of preferred stock outstanding.

Dividends

The Company has not declared or paid cash dividends on the common stock since its inception and does not anticipate paying such dividends in the foreseeable future. The payment of dividends may be made at the discretion of the Board of Directors at that time and will depend upon, among other factors, on the Company's operations.

Authorized but Unissued Stock. Authorized but unissued shares of common stock would be available for future issuance without our stockholders' approval. These additional shares may be utilized for a variety of corporate purposes including, but not limited to, future public or direct offerings to raise additional capital, corporate acquisitions and employee incentive plans. The issuance of such shares may also be used to deter a potential takeover of the Company that may otherwise be beneficial to stockholders by diluting the shares held by a potential suitor or issuing shares to a stockholder that will vote in accordance with the desire of the Board of Directors. A takeover may be beneficial to stockholders because, among other reasons, a potential suitor may offer stockholders a premium for their shares of stock compared to the then-existing market price.

Transfer Agent and Registrar

Interwest Stock Transfer Company is the transfer agent and registrar of our common stock. Its address is 1981 Murray Holiday Road, Salt Lake City, Utah 84117, and its telephone number is (801) 272-9294.

INTEREST OF CERTAIN PERSONS IN OR OPPOSITION TO MATTERS TO BE ACTED UPON

No officer or director of the Company has any substantial interest in the matters to be acted upon, other than his role as an officer or director of the Company.

No director of the Company has informed the Company that he intends to oppose the proposed actions to be taken by the Company as set forth in this Information Statement.

PROPOSAL 1

**AMENDMENT TO THE ARTICLES OF INCORPORATION TO
INCREASE THE AUTHORIZED SHARES OF COMMON STOCK**

The Board of Directors has recommended the Articles of Incorporation of the Company be amended to increase the common stock of the Company from fifty million (50,000,000) shares to one hundred (100,000,000) shares. There would be no change to the preferred stock of the company. As such following the amendment to the Articles of Incorporation there would be one hundred million (100,000,000) shares of common stock authorized and five million (5,000,000) shares of preferred stock both with a par value of \$0.01 per share.

Purpose

The Company has been working on the development of its products and has had to rely on the sale of its equity securities to fund operation and for acquisitions. With the economy in general still in a recession and the Company needing additional capital, management believed it may be necessary to issue additional shares of capital stock. As the Company already has over 35,000,000 shares issued and outstanding debt that can be converted into additional shares of common stock, management believed it needed more shares to potentially be able to issue. The Company has also had to rely on the use of its equity securities to help attract management and consultants to assist the Company with its operation and product development. Accordingly, management has recommended that the Company increase the number of shares of common stock available to provide needed flexibility for future acquisitions, employee compensation and capital raising.

Effect

After the effective date of the proposed amendment to the articles of incorporation and increase in number of shares of common stock, the Company will be able to issue a greater number of shares of common stock which could dilute current shareholders. The increase in capitalization will affect all common stockholders uniformly and will not affect any shareholders' percentage interest in the Company.

The Company cannot predict the effect of the increase in capitalization upon the market price over an extended period. By increasing the authorized shares of common stock, the Company will be able to issue an additional 64,503,350 shares of common stock. This does not include the additional shares of preferred stock the Company will be authorized to issue. Current shareholder could suffer substantial dilution in the future if the Company decides to issue further shares of common stock or preferred stock.

Although the Company has no current plans to issue any shares of common stock, it is likely the Company would issue shares in the future to fund operations or hire additional employees or consultants. Shareholders are likely to be diluted in the future based on subsequent share issuances. Shares of common stock can be issued without shareholder approval. As such, shareholders may not have a vote on future stock issuances and will be relying on the judgment of the board of directors which has authority to issue shares of common and preferred stock without shareholder approval.

Recommendation of the Board of Directors

Our Board unanimously recommended a vote **FOR** the approval of the amendment to the articles of incorporation to increase the authorized shares of common stock from fifty million (50,000,000) shares to one hundred million (100,000,000) shares.

Majority of Shareholders have Approved-Your Vote is not Required

We are not soliciting any votes with regard to the proposal to amend the articles of incorporation to increase the authorized shares of common stock from fifty million (50,000,000) shares to one hundred million (100,000,000) shares. The principal shareholders that consented in writing to this Proposal holds 57% of the total issued and outstanding shares of voting stock and accordingly, these principal shareholders have sufficient shares to approve the Proposal.
