Hudson Technologies, Inc. and subsidiaries

Notes to the Consolidated Financial Statements

Note 1- Summary of significant accounting policies

Business

Hudson Technologies, Inc., incorporated under the laws of New York on January 11, 1991, together with its subsidiaries (collectively, "Hudson" or the "Company"), is a refrigerant services company providing innovative solutions to recurring problems within the refrigeration industry. The Company's products and services are primarily used in commercial air conditioning, industrial processing and refrigeration systems, including (i) refrigerant sales, (ii) RefrigerantSide® Services performed at a customer's site, consisting of system decontamination to remove moisture, oils and other contaminants and (iii) refrigerant management services consisting primarily of reclamation of refrigerants. The Company operates through its wholly-owned subsidiary, Hudson Technologies Company.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial statements and with the instructions of Regulation S-B. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. The financial information included in the quarterly report should be read in conjunction with the Company's audited financial statements and related notes thereto for the year ended December 31, 2006. Operating results for the nine month period ended September 30, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2007.

In the opinion of management, all estimates and adjustments considered necessary for a fair presentation have been included and all such adjustments were normal and recurring.

Consolidation

The consolidated financial statements represent all companies of which Hudson directly or indirectly has majority ownership or otherwise controls. Significant intercompany accounts and transactions have been eliminated. The Company's consolidated financial statements include the accounts of wholly-owned subsidiaries Hudson Holdings, Inc. and Hudson Technologies Company.

Fair value of financial instruments

The carrying values of financial instruments including trade accounts receivable, and accounts payable approximate fair value at September 30, 2007, because of the relatively short maturity of these instruments. The carrying value of short-and long-term debt approximates fair value, based upon quoted market rates of similar debt issues, as of September 30, 2007 and December 31, 2006.

Credit risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of temporary cash investments and trade accounts receivable. The Company maintains its temporary cash investments in highly-rated financial institutions and, at times, the balances exceed FDIC insurance coverage. The Company's trade accounts receivables are primarily due from companies throughout the United States. The Company reviews each customer's credit history before extending credit.

The Company establishes an allowance for doubtful accounts based on factors associated with the credit risk of specific accounts, historical trends, and other information. The carrying value of the Company's accounts receivable is reduced by the established allowance for doubtful accounts. The allowance for doubtful accounts includes any accounts receivable balances that are determined to be uncollectible, along with a general reserve for the remaining accounts receivable balances. The Company may adjust its general or specific reserves based on factors that affect the collectability of the accounts receivable balances.

For the nine month period ended September 30, 2007, one customer accounted for 13% of the Company's revenues. For the nine month period ended September 30, 2006, no customer accounted for 10% or more of the Company's revenues.

The loss of a principal customer or a decline in the economic prospects of and/or a reduction in purchases of the Company's products or services by any such customer could have an adverse effect on the Company's future financial position and results of operations.

Cash and cash equivalents

Temporary investments with original maturities of ninety days or less are included in cash and cash equivalents.

Inventories

Inventories, consisting primarily of refrigerant products available for sale, are stated at the lower of cost, on a first-in first-out basis, or market.

Property, plant, and equipment

Property, plant, and equipment are stated at cost, including internally manufactured equipment. The cost to complete equipment that is under construction is not considered to be material to the Company's financial position. Provision for depreciation is recorded (for financial reporting purposes) using the straight-line method over the useful lives of the respective assets. Leasehold improvements are amortized on a straight-line basis over the shorter of economic life or terms of the respective leases. Costs of maintenance and repairs are charged to expense when incurred.

Due to the specialized nature of the Company's business, it is possible that the Company's estimates of equipment useful life periods may change in the future.

Revenues and cost of sales

Revenues are recorded upon completion of service or product shipment and passage of title to customers in accordance with contractual terms. The Company evaluates each sale to ensure collectability. In addition, each sale is based on an arrangement with the customer and the sales price to the buyer is fixed. License fees are recognized over the period of the license based on the respective performance measurements associated with the license. Royalty revenues are recognized when earned. Cost of sales is recorded based on the cost of products shipped or services performed and related direct operating costs of the Company's facilities. To the extent that the Company charges its customers shipping fees such amounts are included as a component of revenue and the corresponding costs are included as a component of cost of sales.

The Company's revenues are derived from refrigerant and reclamation sales and RefrigerantSide® Services, including license and royalty revenues. The revenues for each of these lines are as follows:

Nine month period ended September 30, (in thousands, unaudited)	<u>2007</u>	<u>2006</u>
Refrigerant and reclamation sales	\$21,331	\$17,138
RefrigerantSide® Services	<u>2,831</u>	<u>3,542</u>
Total	\$24,162	\$20,680
	=====	=====

Income taxes

The Company utilizes the asset and liability method for recording deferred income taxes, which provides for the establishment of deferred tax asset or liability accounts based on the difference between tax and financial reporting bases of certain assets and liabilities. The tax benefit associated with the Company's net operating loss carry forwards ("NOL's") is recognized to the extent that the Company is expected to recognize future taxable income. During the nine months ended September 30, 2007, the Company assessed the valuation allowance for its deferred tax asset and has correspondingly recognized an increase in its deferred tax asset of approximately of \$1,268,000 and as of September 30, 2007, the total deferred tax asset is \$1,520,000. In addition, certain states either do not allow or limit NOL's and as such the Company will be liable for certain state taxes even though for federal tax purposes the Company has NOL's and will not pay federal taxes.

On June 28, 2007, Fleming U.S. Discovery Fund III, L.P. and Fleming U.S. Offshore Discovery Fund III, L.P. (individually and collectively "Fleming Funds") sold a total of approximately 14,900,000 shares of Hudson's common stock in a series of transactions involving the Company and certain members of the Company's management (the "Transactions"). Prior to the Transactions, the Fleming Funds owned in the aggregate approximately 19,100,000 shares, or 74% of the Company's outstanding common stock. Under Section 382 of the Internal Revenue Code of 1986, as amended, the sale by Fleming Funds of their shares resulted in a "change in control", which limits the Company's ability to utilize its existing NOL's to approximately \$1,300,000 annually.

Income (loss) per common and equivalent shares

If dilutive, common equivalent shares (common shares assuming exercise of options and warrants) utilizing the treasury stock method are considered in the presentation of dilutive earnings per share. For the nine month period ended September 30, 2007 and 2006, the number of common equivalent shares included and excluded in the calculation of dilutive income per common share was none and 2,246,700 and 1,639,250 and 1,030,152 respectively. In 2007, the effect on net income per share of equivalent shares was not dilutive.

Page 7

Estimates and risks

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect reported amounts of certain assets and liabilities, the disclosure of contingent assets and liabilities, and the results of operations during the reporting period. Actual results could differ from these estimates.

The Company participates in an industry that is highly regulated, changes in which could affect operating results. Currently the Company purchases virgin, non chlorofluorocarbon ("CFC") based, and reclaimable, primarily CFC based, refrigerants from suppliers and its customers. Effective January 1, 1996, the Clean Air Act (the "Act") prohibited the production of CFC refrigerants and limited the production of hydrochlorofluorocarbons ("HCFC") refrigerants. Additionally, effective January 2004, the Act further limited the production of HCFC refrigerants and federal regulations were enacted which impose limitations on the importation of certain virgin HCFC refrigerants. Under the Act, production of certain HCFC refrigerants is scheduled to be phased out by the year 2020, and production of all HCFC refrigerants is scheduled to be phased out by 2030. Notwithstanding the limitations under the Act, the Company believes that sufficient quantities of new and used refrigerants will continue to be available to it at a reasonable cost for the foreseeable future. To the extent that the Company is unable to source sufficient quantities of refrigerants or is unable to obtain refrigerants on commercially reasonable terms or experiences a decline in demand for refrigerants, the Company could realize reductions in refrigerant processing and possible loss of revenues, which would have a material adverse affect on operating results.

The Company is subject to various legal proceedings. The Company assesses the merit and potential liability associated with each of these proceedings. In addition, the Company estimates potential liability, if any, related to

these matters. To the extent that these estimates are not accurate, or circumstances change in the future, the Company could realize liabilities, which would have a material adverse effect on operating results and its financial position.

Impairment of long-lived assets and long-lived assets to be disposed of

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the assets to the future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less the cost to sell.

Recent accounting pronouncements

In July 2006, the FASB released Interpretation No. 48, Accounting for Uncertainty in Income Taxes (the "Interpretation"). The Interpretation significantly changes the previous guidance for establishing accruals for tax uncertainties. The Company adopted the Interpretation on January 1, 2007, which adoption did not have a material effect on either the results of operations or financial position of the Company.

In September 2006, the FASB issued FASB statement No. 157 ("SFAS 157"). SFAS 157 addresses defined fair value, establishes a framework for measuring fair value and expands disclosure for fair value measurements. SFAS 157 is effective for years beginning after November 15, 2007. The Company does not believe that the adoption of SFAS 157 will have a material effect on the Company's financial position and results of operations.

Note 2- Share-based compensation

Share-based compensation represents the cost related to share-based awards, typically stock options, granted to employees, non-employees, officers and directors. Share-based compensation is measured at grant date, based on the estimated fair value of the award, and such amount is charged to compensation expense on a straight-line basis (net of estimated forfeitures) over the requisite service period. For the nine month period ended September 30, 2007 and 2006, the share-based compensation expense of \$74,000 and \$208,000 respectively, is reflected in general and administrative expenses in the consolidated statements of operations.

Share-based awards have historically been stock options issued pursuant to the terms of the Company's 1994, 1997 and 2004 stock option plans (the "Plans"), described below. The Board of Directors administers the Plans. As of September 30, 2007, the Plans authorized the issuance of stock options to purchase 2,500,000 shares of the Company's Common Stock and, as of September 30, 2007, there were 1,550,000 shares of the Company's Common Stock available for issuance for future stock option grants.

Stock options are awards, which allow the recipient to purchase shares of the Company's Common Stock at a fixed price, are typically granted at an exercise price equal to the Company's stock price at the date of grant. Historically, the Company's stock option awards have generally vested from immediately to two years from the grant date and have had a contractual term ranging from five to ten years.

During the nine month period ended September 30, 2007, the Company issued no stock options. At September 30, 2007, total unrecognized compensation cost related to non-vested previously granted option awards was \$20,000 which is expected to be recognized over a period of less than one year.

Effective October 31, 1994, the Company adopted an Employee Stock Option Plan ("1994 Plan") pursuant to which 725,000 shares of Common Stock were reserved for issuance upon the exercise of options designated as either (i) options intended to constitute incentive stock options ("ISOs") under the Internal Revenue Code of 1986, as amended, ("Code") or (ii) nonqualified options. ISOs could be granted under the 1994 Plan to employees and officers of the Company. Non-qualified options could be granted to consultants, directors (whether or not they are employees), employees or officers of the Company. Effective November 1, 2004, the Company's ability to grant options under the 1994 Plan expired.

Effective July 25, 1997, the Company adopted its 1997 Employee Stock Option Plan, which was amended on August 19, 1999, ("1997 Plan") pursuant to which 2,000,000 shares of Common Stock were reserved for issuance upon the exercise of options designated as either (i) ISOs under the Code, or (ii) nonqualified options. ISOs could be granted under the 1997 Plan to employees and officers of the Company. Non-qualified options could be granted to consultants, directors (whether or not they are employees), employees or officers of the Company. Stock appreciation rights may also be issued in tandem with stock options. Effective September 11, 2007, the Company's ability to grant options or stock appreciation rights under the 1997 Plan expired.

Effective September 10, 2004, the Company adopted its 2004 Stock Incentive Plan ("2004 Plan") pursuant to which 2,500,000 shares of Common Stock are currently reserved for issuance upon the exercise of options, designated as either (i) ISOs under the Code or (ii) nonqualified options, restricted stock, deferred stock or other stock-based awards. ISOs may be granted under the 2004 Plan to employees and officers of the Company. Non qualified options, restricted stock, deferred stock or other stock-based awards may be granted to consultants, directors (whether or not they are employees), employees or officers of the Company. Stock appreciation rights may also be issued in tandem with stock options. Unless the 2004 Plan is sooner terminated, the ability to grant options or other awards under the 2004 Plan will expire on September 10, 2014.

ISO's granted under the 2004 Plan may not be granted at a price less than the fair market value of the Common Stock on the date of grant (or 110% of fair market value in the case of persons holding 10% or more of the voting stock of the Company). Non-qualified options granted under the 2004 Plan may not be granted at a price less than the fair market value of the Common Stock. Options granted under the 2004 Plan expire not more than ten years from the date of grant (five years in the case of ISOs granted to persons holding 10% or more of the voting stock of the Company).

All stock options have been granted to employees and non-employees at exercise prices equal to or in excess of the market value on the date of the grant.

The Company determines the fair value of shared based awards at the grant date by using the Black-Scholes option-pricing model, and is incorporating the simplified method to compute expected lives of share based awards with the following weighted-average assumptions used for grants since 1995.

Nine month period ended September 30,	<u>2007</u>	<u>2006</u>
<u>Assumptions</u>		
Dividend Yield	0 %	0 %
Risk free interest rate	4%	4 %
Expected volatility	68%	60%
Expected lives	5 years	6 years

Edgar Filing: HUDSON TECHNOLOGIES INC /NY - Form 10QSB

A summary of the status of options granted under the Company's 1994, 1997 and 2004 Plans are presented below:

<u>Stock Option Plan Grants</u>	<u>Shares</u>	<u>Weighted Average Exercise Price</u>
<u>Outstanding at December 31, 2005</u>	2,504,285	\$ 1.65
• Granted	206,700	\$ 1.08
• Forfeited	(401,352)	\$ 2.52
• Exercised	<u>(22,490)</u>	\$ 0.91
<u>Outstanding at December 31, 2006</u>	2,287,143	\$ 1.47
• Forfeited	(198,800)	\$ 3.46
• Exercised	<u>(5,000)</u>	\$ 0.85
<u>Outstanding at September 30, 2007</u>	2,083,343	\$ 1.29
	=====	

The following is the weighted average contractual life in years and the weighted average exercise price at September 30, 2007 of:

	<u>Number of Options</u>	<u>Weighted Average Remaining Contractual Life</u>	<u>Weighted Average Exercise Price</u>
Options outstanding	2,083,343	6.46 years	\$ 1.29

The following is the intrinsic value at September 30, 2007 of:

Options outstanding	\$ 96,000
Options vested	\$ 8,000

The following is the weighted average fair value for the nine month period ended September 30, 2007 of:

Options vested	\$ 1.19
----------------	---------

Note 3- Stock repurchase

On June 28, 2007, the Company purchased and retired approximately 5,700,000 shares of its common stock from the Fleming Funds at a purchase price of \$0.65 per share, for total consideration of approximately \$3,700,000. Additionally, certain members of the Company's management, in separate private transactions, purchased approximately 9,200,000 shares of the Company's common stock from the Fleming Funds at a purchase price of \$0.65 per share, for a total consideration of approximately \$6,000,000. The shares purchased by management are unregistered shares and management did not receive registration rights in connection with their purchase of their

shares.

On June 29, 2007 the Company commenced a tender offer to all of its common shareholders to purchase and retire up to approximately 1,200,000 shares of its common stock at a purchase price of \$1.12 per share. Upon completion of the tender offer, a total of approximately 55,000 shares of the Company's common stock, at an aggregate purchase price of approximately \$62,000, were tendered to and accepted for purchase by the Company, all of which were retired. On September 25, 2007 the Company utilized the unused tender offer funds to purchase and retire approximately 1,100,000 shares of its common stock from the Fleming Funds at a price of \$1.12 per share, for a total consideration of approximately \$1,200,000.

As a consequence of the shares purchased by the Company in the tender offer, and the shares purchased by the Company from the Fleming Funds, the Company has retired an aggregate of approximately 6,900,000 shares of its common stock and has increased its long-term debt by approximately \$5,000,000. The retirement of those shares represents more than a 26% reduction in the number of outstanding shares of the Company when compared to the total outstanding shares prior to the tender offer and the purchases from the Fleming Funds.

On June 26, 2007, the Company, entered into an Amended and Restated Loan Agreement with Keltic Financial Partners, LP, by which the term of the existing credit facility was extended for three years through June 2010, the total borrowing limit was increased from \$6,000,000 to \$10,000,000 (the "Credit Facility") and the interest rate under the Credit Facility was reduced to the Prime Rate plus 0.375% (from the Prime Rate plus 0.75 %).

Page 10

The sale on June 28, 2007, by the Fleming Funds to certain members of the Company's management of approximately 9,200,000 shares at a purchase price of \$0.65 per share required the Company to incur a non-cash, non-recurring compensation expense and a corresponding increase to additional paid-in capital of approximately \$4,338,000, which represents the difference between the market value of the Company's common stock on June 28, 2007 and the purchase price of the common stock. The Company's net worth was unaffected by the \$4,338,000 non-cash, non-recurring charge.

Page 11

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

Safe Harbor Statement Under The Private Securities Litigation Reform Act of 1995

Certain statements contained in this section and elsewhere in this Form 10-QSB constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve a number of known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, but are not limited to, changes in the demand and price for refrigerants (including unfavorable market conditions adversely affecting the demand for, and the price of refrigerants), the Company's ability to source CFC and non-CFC based refrigerants, regulatory and economic factors, seasonality, competition, litigation, the nature of supplier or customer arrangements that become available to the Company in the future, adverse weather conditions, possible technological obsolescence of existing products and services, possible reduction in the carrying value of long-lived assets, estimates of the useful life of its assets, potential environmental liability, customer concentration, the ability to obtain financing, and other risks detailed in this report and in the Company's other periodic reports filed with the Securities and Exchange Commission. The words "believe", "expect", "anticipate", "may", "plan", "should" and similar expressions identify

forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made.

Critical Accounting Policies

The Company's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Several of the Company's accounting policies involve significant judgments, uncertainties and estimations. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. To the extent that actual results differ from management's judgments and estimates, there could be a material adverse effect on the Company. On a continuous basis, the Company evaluates its estimates, including, but not limited to, those estimates related to its allowance for doubtful accounts, inventory reserves, valuation allowance for its NOL's and commitments and contingencies. With respect to accounts receivable, the Company estimates the necessary allowance for doubtful accounts based on both historical and anticipated trends of payment history and the ability of the customer to fulfill its obligations. For inventory, the Company evaluates both current and anticipated sales prices of its products to determine if a write down of inventory to net realizable value is necessary. In determining the Company's valuation allowance for its NOL's, the Company assesses its ability to generate taxable income in the future. The Company utilizes both internal and external sources to evaluate potential current and future liabilities for various commitments and contingencies. In the event that the assumptions or conditions change in the future, the estimates could differ from the original estimates.

Overview

The Company has created and developed a service offering known as RefrigerantSide® Services. RefrigerantSide® Services are sold to contractors and end-users whose refrigeration systems are applicable in commercial air conditioning and industrial processing. These services are offered in addition to refrigerant sales and the Company's traditional refrigerant management services, which consist primarily of reclamation of refrigerants. The Company has created a network of service depots that provide a full range of the Company's RefrigerantSide® Services to facilitate the growth and development of its service offerings.

The Company focuses its sales and marketing efforts for its RefrigerantSide® Services on customers who the Company believes most readily appreciate and understand the value that is provided by its RefrigerantSide® Services offering. In pursuing its sales and marketing strategy, the Company offers its RefrigerantSide® Services to customers in the following industries; petrochemical, pharmaceutical, industrial power, manufacturing, commercial facility and property management and maritime. Moreover, to maintain its current ability to quickly respond to customer service requests throughout the United States, the Company seeks to pursue the creation of strategic alliances with companies that service larger customers in targeted industries, which, when consummated, would enable the Company to (i) co-locate its equipment with these strategic partners and (ii) utilize these partners' sales and marketing resources to offer their customers the Company's RefrigerantSide® Services. In addition, the Company has expanded its service offering outside of the United States through a strategic alliance with The Linde Group. The Company may incur additional expenses as it develops its RefrigerantSide® Services offering.

Sales of refrigerants continue to represent a significant portion of the Company revenues. Certain of the Company's refrigerant sales are CFC based refrigerants, which are no longer manufactured. The demand for CFC based refrigerants has and will continue to decrease as equipment that utilizes non-CFC based refrigerants displaces those units that utilize CFC based refrigerants. The Company has increased its refrigerant sales from non-CFC based refrigerants, including HCFC refrigerants. The Act limits the production of HCFC refrigerants, which production was

further limited in January 2004. Federal regulations enacted in January 2004 also imposed

Page 12

limitations on the importation of certain HCFC refrigerants. Under the Act, production of certain HCFC refrigerants is scheduled to be phased out by the year 2020, and production of all HCFC refrigerants is scheduled to be phased out by the year 2030. To the extent that the Company is unable to source CFC based or non-CFC based refrigerants on commercially reasonable terms or at all, or the demand for CFC based or non-CFC based refrigerants decreases, the Company's financial condition and results of operations could be materially adversely affected.

Results of Operations

Three month period ended September 30, 2007 as compared to the three month period ended September 30, 2006

Revenues for the three month period ended September 30, 2007 were \$4,738,000 a decrease of \$233,000 or 5% from the \$4,971,000 reported during the comparable 2006 period. The decrease in revenues was primarily attributable to an increase in refrigerant revenues of \$166,000 offset by a decrease in RefrigerantSide® Services revenues of \$399,000. The increase in refrigerant revenues is related to an increase in the price of certain refrigerants sold offset by a slight reduction in the volume of refrigerants sold. The decrease in RefrigerantSide® Services was attributable to both a reduction in the number of jobs completed and the average price per job when compared to the same period of 2006.

Cost of sales for the three month period ended September 30, 2007 was \$3,131,000 a decrease of \$39,000 or 1% from the \$3,170,000 reported during the comparable 2006 period. The decrease in cost of sales was primarily due to a decrease in supply costs of RefrigerantSide® Services. As a percentage of sales, cost of sales was 66% of revenues for 2007, an increase from the 64% reported for the comparable 2006 period. The increase in cost of sales as a percentage of revenues was primarily attributable to an increase in the material costs of certain refrigerants sold when compared to the same period of 2006.

Operating expenses for the three month period ended September 30, 2007 were \$1,016,000 a decrease of \$43,000 or 4% from the \$1,059,000 reported during the comparable 2006 period. The decrease in operating expenses was primarily due to a reduction in non cash compensation charges related to employee stock options when compared to the same period of 2006.

Other income (expense) for the three month period ended September 30, 2007 was (\$231,000), compared to the (\$63,000) reported during the comparable 2006 period. Other income (expense) includes interest expense of \$235,000 and \$78,000 for the comparable 2007 and 2006 periods, respectively. The increase in interest expense is primarily attributable to an increase in outstanding indebtedness.

Income tax provision for the three month period ended September 30, 2007 and 2006 were \$3,000 and \$5,000 respectively. For the three month period ended September 30, 2007 and 2006, the income tax expense consisted of \$3,000 and \$5,000, respectively, for states that either do not allow or limit NOL's. During the 2006 period no federal or certain state income taxes were recognized on the income before taxes of \$679,000 due to the utilization of NOL's from prior periods. The tax benefits associated with the Company's NOL's are recognized to the extent that the Company is expected to recognize taxable income. The Company's NOL's are subject to annual limitations.

Net income for the three month period ended September 30, 2007 was \$357,000 a decrease of \$317,000 from the \$674,000 reported during the comparable 2006 period. The decrease in net income was primarily attributable to a reduction in gross profit and an increase in interest expense when compared to the same period of 2006.

Nine month period ended September 30, 2007 as compared to the nine month period ended September 30, 2006

Revenues for the nine month period ended September 30, 2007 were \$24,162,000 an increase of \$3,482,000 or 17%

from the \$20,680,000 reported during the comparable 2006 period. The increase in revenues was primarily attributable to an increase in refrigerant revenues of \$4,193,000 partially offset by a decrease in RefrigerantSide® Services revenues of \$711,000. The increase in refrigerant revenues is related to both an increase in the volume and price of certain refrigerants sold. The decrease in RefrigerantSide® Services was primarily attributable due to a reduction in the number of jobs completed when compared to the same period of 2006.

Cost of sales for the nine month period ended September 30, 2007 was \$18,048,000, an increase of \$3,483,000 or 24% from the \$14,565,000 reported during the comparable 2006 period. The increase in cost of sales was primarily due to the increase in volume and an increase in cost of certain refrigerants sold offset by a decrease in supply costs of RefrigerantSide® Services. As a percentage of sales, cost of sales was 75% of revenues for 2007, an increase from the 70% reported for the comparable 2006 period. The increase in cost of sales as a percentage of revenues was primarily attributable to an increase in the material costs of certain refrigerants sold when compared to the same period of 2006.

Operating expenses for the nine month period ended September 30, 2007 were \$7,815,000 an increase of \$4,181,000 from the \$3,634,000 reported during the comparable 2006 period. The increase was primarily attributable to a non-cash, non-recurring charge

Page 13

of \$4,338,000 to compensation expense, related to the purchase of common stock by certain members of management as part of the Transactions.

Other income (expense) for the nine month period ended September 30, 2007 was (\$525,000), compared to the (\$245,000) reported during the comparable 2006 period. Other income (expense) includes interest expense of \$540,000 and \$266,000 for the comparable 2007 and 2006 periods, respectively. The increase in interest expense is primarily attributed to an increase in outstanding indebtedness.

Income tax provision (benefit) for the nine month period ended September 30, 2007 and 2006 were (\$1,251,000) and \$18,000 respectively. For the nine month period ended September 30, 2007, the income tax benefit of \$1,251,000 consisted of the recognition of a deferred tax asset of \$1,268,000 offset by income tax expense of \$17,000 for states that either do not allow or limit NOL's. For the nine month period ended September 30, 2006 income tax expense of \$18,000 was recognized for states that either do not allow or limit NOL's. During the 2006 period no federal or certain state income taxes were recognized on the income before taxes of \$2,236,000 due to the utilization of NOL's from prior periods. The tax benefits associated with the Company's NOL's are recognized to the extent that the Company is expected to recognize taxable income. The Company's NOL's are subject to annual limitations.

Net loss for the nine month period ended September 30, 2007 was (\$975,000) a decrease of \$3,193,000 from the \$2,218,000 net income reported during the comparable 2006 period. The decrease in net income was primarily attributable to a non-cash, non-recurring charge to compensation expense of \$4,338,000, partially offset by the income tax benefit of \$1,268,000.

Liquidity and Capital Resources

At September 30, 2007, the Company had working capital, which represents current assets less current liabilities, of \$8,295,000, an increase of \$2,336,000 from the working capital of \$5,959,000 at December 31, 2006. The increase in working capital is primarily attributable to an increase in long-term debt offset by a reduction of short-term debt.

Inventory and trade receivables are principal components of current assets. At September 30, 2007 the Company had inventories of \$9,460,000, a decrease of \$2,933,000 or 24% from the \$12,393,000 at December 31, 2006. The decrease in the inventory balance is due to the timing and availability of inventory purchases and the sale of refrigerants. The Company's ability to sell and replace its inventory on a timely basis and the prices at which it can be

sold are subject, among other things, to current market conditions and the nature of supplier or customer arrangements and the Company's ability to source CFC based refrigerants, which are no longer being manufactured or non-CFC based refrigerants (see "Reliance on Suppliers and Customers" and "Seasonality and Fluctuations in Operating Results"). At September 30, 2007, the Company had trade receivables, net of allowance for doubtful accounts of \$2,944,000 an increase of \$1,713,000 from the \$1,231,000 at December 31, 2006. The Company's trade receivables are concentrated with various wholesalers, brokers, contractors and end-users within the refrigeration industry that are primarily located in the continental United States.

The Company has historically financed its working capital requirements through cash flows from operations, the issuance of debt and equity securities, and bank borrowings.

Net cash provided by operating activities for the nine month period ended September 30, 2007, was \$2,124,000 compared with net cash provided by operating activities of \$3,445,000 for the comparable 2006 period. Net cash provided by operating activities for the 2007 period was primarily attributable to the fact that the net loss reported for the period included a non-cash compensation charge of \$4,338,000 partially offset by a non-cash income tax benefit of \$1,268,000. In addition, net cash provided by operating activities for the 2007 period was also attributed to a reduction in inventory offset by an increase in accounts receivable and a reduction in accounts payable.

Net cash used by investing activities for the nine month period ended September 30, 2007 was \$348,000 compared with net cash used by investing activities of \$270,000 for the prior comparable 2006 period. The net cash used by investing activities for the 2007 period was primarily related to investment in general purpose equipment.

Net cash used by financing activities for the nine month period ended September 30, 2007, was \$1,895,000 compared with net cash used by financing activities of \$1,353,000 for the comparable 2006 period. The net cash used by financing activities for the 2007 period was due to repurchase of common stock of \$5,332,000 and repayment of debt of \$3,563,000 offset by an increase in long-term debt of \$7,000,000.

At September 30, 2007, the Company had cash and cash equivalents of \$474,000. The Company continues to assess its capital expenditure needs. The Company may, to the extent necessary, continue to utilize its cash balances to purchase equipment primarily for its operations. The Company estimates that the total capital expenditures for 2007 will be approximately \$500,000.

On May 30, 2003, Hudson entered into a credit facility with Keltic Financial Partners, LLP ("Keltic"). On June 26, 2007, the credit facility was amended and restated to provide for borrowings up to \$10,000,000. The facility consists of a revolving line of credit and term loans, which expires on June 26, 2010. Advances under the revolving line of credit may not exceed, except as permitted in the

Page 14

agreement governing the credit facility, \$3,000,000 and are limited to (i) 85% of eligible trade accounts receivable and (ii) 50% of eligible inventory. Advances available to Hudson under the A and B term loans may not exceed \$2,500,000 and \$4,500,000, respectively. At September 30, 2007, the facility bore interest at 8.125% of which was the prime rate, plus .375%. Substantially all of Hudson's assets are pledged as collateral for its obligations to Keltic under the credit facility. In addition, among other things, the agreement restricts Hudson's ability to declare or pay any cash dividends on its capital stock. As of September 30, 2007, Hudson had in the aggregate \$110,000 of borrowings outstanding and \$2,378,000 available for borrowing under the revolving line of credit. In addition, the Company had \$6,750,000 of borrowings outstanding under the A and B term loans with Keltic.

On March 31, 2004, the holders of the Company's then outstanding Series A Preferred Stock converted all of their shares of the Series A Preferred Stock (the "Conversion") into 16,397,468 shares of Common Stock (the "Conversion Shares"). In connection with the purchase of the Company's Series A Preferred Stock, the holders of the Preferred

Stock were provided certain registration, preemptive and tag along rights (the "Registration Rights"), and such rights continued to be held by the holders following the Conversion. In connection with the purchase of the Company's Series A Preferred Stock, the holders of the Preferred Stock were also provided certain rights to nominate individuals to become members of the Company's Board of Directors, or at their option, to designate advisors to the Company's Board of Directors to attend and observe meetings of the Board of Directors (the "Nomination Rights"), and such rights continued to be held by the holders following the Conversion. Effective June 28, 2007, all Registration Rights and Nomination Rights of the holders of the Conversion Shares have been terminated.

In May 2005, the Company purchased its Champaign, Illinois facility for a total purchase price of \$999,999. The Company financed the purchase with a 15 year amortizing loan in the amount of \$945,000 with a balloon payment due on September 1, 2012. The note bears interest at 7% for the first five years and then adjusts annually based on prime plus 2%.

The Company believes that it will be able to satisfy its working capital requirements for the next twelve months from anticipated cash flows from operations and available funds under its existing credit facility. Any unanticipated expenses, including, but not limited to, an increase in the cost of refrigerants purchased by the Company, an increase in operating expenses or failure to achieve expected revenues from the Company's RefrigerantSide® Services and/or refrigerant sales or additional expansion or acquisition costs that may arise in the future would adversely affect the Company's future capital needs. There can be no assurances that the Company's proposed or future plans will be successful, and as such, the Company may require additional capital sooner than anticipated, which capital may not be available.

Inflation

Inflation has not historically had a material impact on the Company's operations.

Reliance on Suppliers and Customers

The Company's financial performance and its ability to sell refrigerants is in part dependent on its ability to obtain sufficient quantities of virgin, non-CFC based refrigerants, and of reclaimable, primarily CFC based, refrigerants from manufacturers, wholesalers, distributors, bulk gas brokers, and from other sources within the air conditioning and refrigeration and automotive aftermarket industries, and on corresponding demand for refrigerants. The Company's refrigerant sales include CFC based refrigerants, which are no longer manufactured. Additionally, the Company's refrigerant sales include non-CFC based refrigerants, including HCFC refrigerants. Effective January 1, 1996, the Act limits the production of HCFC refrigerants, which production was further limited in January 2004. Federal regulations enacted in January 2004 also imposed limitations on the importation of certain HCFC refrigerants. Under the Act, production of certain HCFC refrigerants is scheduled to be phased out by the year 2020 and production of all HCFC refrigerants is scheduled to be phased out by the year 2030. Notwithstanding the limitations imposed by and under the Act, the Company believes that sufficient quantities of new and used refrigerants will continue to be available to it at a reasonable cost for the foreseeable future. To the extent that the Company is unable to source sufficient quantities of virgin or reclaimable refrigerants in the future, or resell refrigerants at a profit, the Company's financial condition and results of operations would be materially adversely affected.

For the nine month period ended September 30, 2007, one customer accounted for 13% of the Company's revenues. For the nine month period ended September 30, 2006, no customer accounted for 10% or more of the Company's revenues.

The loss of a principal customer or a decline in the economic prospects of and/or a reduction in purchases of the Company's products or services by any such customer could have a material adverse effect on the Company's financial position and results of operations.

Seasonality and Fluctuations in Operating Results

The Company's operating results vary from period to period as a result of weather conditions, requirements of potential customers, non-recurring refrigerant and service sales, availability and price of refrigerant products (virgin or reclaimable), changes in reclamation technology and regulations, timing in introduction and/or retrofit or replacement of CFC based refrigeration equipment, the rate of expansion of the Company's operations, and by other factors. The Company's business is seasonal in nature with peak sales of

Page 15

refrigerants occurring in the first half of each year. During past years, the seasonal decrease in sales of refrigerants has resulted in losses particularly in the fourth quarter of the year. Delays or inability in securing adequate supplies of refrigerants at peak demand periods, lack of refrigerant demand, increased expenses, declining refrigerant prices and a loss of a principal customer could result in significant losses. There can be no assurance that the foregoing factors will not occur and result in a material adverse effect on the Company's financial position and significant losses. The Company believes that there is a similar seasonal element to RefrigerantSide® Service revenues as refrigerant sales. The Company is continuing to assess its RefrigerantSide® Service revenues seasonal trend.

Item 3 - Controls and Procedures

An evaluation was carried out under the supervision and with the participation of the Company's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the Company's disclosure controls and procedures as of September 30, 2007. Based on that evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that: (i) information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 ("Exchange Act") is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure by the Company; and (ii) information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. During the quarter ended September 30, 2007, there were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

Page 16

PART II - OTHER INFORMATION

Item 1 - Legal Proceedings

For information regarding pending legal matters, refer to the Legal Proceedings Section in Part I, Item 3 of the Company's Form 10-KSB for the year ended December 31, 2006.

Item 2 - Unregistered Sales of Equity Securities and Use of Proceeds

The following table represents information with respect to purchases of Common Stock made by the Company during the three months ended September 30, 2007.

<u>Month of purchase</u>	Total number of shares purchased (1)	Average price paid per share
July 1- July 31, 2007	-	-
August 1 - August 31, 2007	-	-
September 1 - September 30, 2007	1,167,400	\$1.12
Total	1,167,400	\$1.12

(1) Represents 55,353 shares repurchased by the Company from certain of its shareholders in the tender offer, and 1,112,047 shares repurchased by the Company from the Fleming Funds. There are no shares available for purchase under a plan or program.

Item 5 - Other Information

On November 2, 2007, Robert M. Burr, a member of the Company's Board of Directors (the "Board"), advised the Board he will not stand for re-election to the Board at the expiration of his current term, which will expire at the Annual Meeting of Shareholders currently scheduled to be held on December 11, 2007.

Item 6 - Exhibits

The following exhibits are attached to this report:

- 3(ii) The Company's By-Laws as amended September 19, 2007
- 10.1 Stock Purchase Agreement between Hudson Technologies, Inc., Fleming US Discovery Fund III, L.P. and Fleming US Offshore Discovery Fund III, L.P. dated September 25, 2007 (Incorporated by reference to Exhibit 10.1 to the Company's Form 8-K filed September 25, 2007)
- 31.1 Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of Chief Executive Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

32.2

Certification of Chief Financial Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
