NOTES TO FINANCIAL STATEMENTS
(Unaudited)

Note 1

In the opinion of management, the unaudited consolidated financial statements include all adjustments (consisting of only normal, recurring adjustments) necessary to present fairly the financial position as of February 28, 2004 and the cash flows and the results of operations for the three months ended February 28, 2004 and March 1, 2003. However, management believes that the disclosures contained are adequate to make the information presented not misleading.

Note 2

The preparation of financial statements in conformity with accounting principles

Edgar Filing: MICROPAC INDUSTRIES INC - Form 10QSB

generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. Actual results could differ from those estimates.

Sales for the first quarter ended February 28, 2004 totaled \$3,510,000. Sales for the first quarter increased 13.7% or \$424,000 above sales for the same period of 2003. The increase in sales was due to higher demand for certain industrial products sold to customers in the semiconductor market, and solid state relay products.

Cost of sales for the first quarters 2004 versus 2003 totaled 68.3% and 70.4% of net sales. Cost of sales dollars increased \$233,000 in the first quarter of 2004, compared to 2003. The decrease in cost of goods sold as a percentage of sales resulted from lower material cost associated with improved yields and lower overhead expenses during the first quarter, as a result of continued cost controls.

Selling, general and administrative expenses for the first quarter of 2004 totaled 18.3%, compared to 23.8% for the same period in 2003. In actual dollars expensed, selling, general and administrative expenses decreased \$92,000 in the first quarter of 2004, compared to 2003 attributable to lower general and administrative salaries.

Net income in the first quarter of 2004 totaled \$268,000, compared to \$69,000 for the comparable period in 2003. Net income per share totaled \$.10 and \$.02 for the comparable three months of 2004 and 2003, respectively. The increase in net income is attributable to higher sales and lower operating and general and administrative costs.

8

New orders for the first quarter of 2004 totaled \$4,941,000 compared to \$1,884,000 for the comparable period of 2003.

Backlog totaled \$5,229,000 on February 28, 2004 compared to \$3,869,000 as of March 1, 2003. The majority of the backlog is shippable in the next twelve (12) months.

Total assets increased \$570,000 to \$8,844,000 as of February 28, 2004 from \$8,274,000 as of November 30, 2003 with an increase in cash and short-term investments of \$228,000, inventory increase of \$161,000, accounts receivable increase of \$243,000 and a decrease in net property, plant, and equipment of \$45,000.

Cash and short term investments totaled \$3,337,000 an increase of \$228,000.

Accounts receivable, net totaled \$2,120,000 as of February 28, 2004 representing an increase of \$243,000 since November 30, 2003, due to the higher sales level.

Inventories totaled \$1,950,000 at the end of the first quarter 2004 compared to \$1,789,000 on November 30, 2003, an increase of \$161,000. Raw materials inventories increased \$182,000 since November 30, 2003, while work-in-process inventories decreased \$22,000. The increase in inventory is consistent with the current business level.

Current liabilities totaled \$1,360,000 on February 28, 2004 representing an increase of \$431,000 from November 30, 2003; primarily associated with an increase in accounts payable of \$249,000 due to higher material purchases; an increase of \$117,000 in income taxes payable, an increase in other accrued liabilities of \$138,000 based on reserves for advance payments from customers. Accrued compensation decreased \$50,000 attributable to vacation taken by employees during plant shutdown in December, and accrued fees decreased \$23,000 with the final payment for audit services.

Shareholders' equity increased \$139,000 in the first three months of 2004. Earnings per share for the three month period totaled \$.10 per share.

Liquidity and Capital Resources

Cash and short-term investments as of February 28, 2004 totaled \$3,337,000 compared to \$3,149,000 on November 30, 2003 an increase of \$228,000. The increase in cash and short-term investments is attributable to \$367,000 net cash provided by operations, offset by the payment of a cash dividend of \$129,000 and the retirement of \$10,000 in equipment.

As of February 28, 2004 cash flows from operating activities were \$367,000 compared to \$160,000 as of March 1, 2003.

The line of credit requires that the Company maintain certain financial ratios. The Company has not, to date, used any of the available line of credit.

The Company expects to generate adequate amounts of cash from the sale of products and services and the collection thereof to meet its liquidity needs.

Edgar Filing: MICROPAC INDUSTRIES INC - Form 10QSB

Outlook

New orders for the first quarter totaled \$4,941,000 compared to \$1,814,000 for the comparable period of 2003. The increase in new orders in the first quarter is attributable to funding releases on military and space programs, and stronger demand from our Customers in the semiconductor, medical and harsh environment (high-temp) markets. Backlog totaled \$5,229,000 on February 28, 2004 compared to \$3,869,000 as of March 1, 2003 and \$3,799,000 on November 30, 2003 with a significant amount of the backlog expected to ship in fiscal 2004. The backlog represents a good mix of all the Company's products and technologies.

Based on the current backlog, we expect sales in the second quarter to be slightly over first quarter sales, and substantially more than the second quarter of 2003.
