These statements reflect all adjustments, which, in the opinion of management, are necessary for fair statement of the results for the interim period.

Edgar Filing: MICROPAC INDUSTRIES INC - Form 10QSB

In the opinion of management, the unaudited consolidated financial statements include all adjustments (consisting of only normal, recurring adjustments) necessary to present fairly the financial position as of August 28, 2004, the results of operations for the three months and nine months ended August 28, 2004 and August 30, 2003, and the cash flows for nine months ended August 28, 2004 and August 30, 2003. Unaudited financial statements are prepared on a basis substantially consistent with those audited for the year ended November 30, 2003. The results of operations for the interim periods presented may not be indicative of total results for the full year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to the rules and regulations promulgated by the Securities and Exchange Commission. However, management believes that the disclosures contained are adequate to make the information presented not misleading.

Note 2

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. Actual results could differ from those estimates.

Note 3

On January 28, 2003, the Board of Directors of Micropac Industries, Inc. approved the payment of a \$.10 per share dividend to all shareholders of record on February 10, 2003. The dividend payment was paid to shareholders on February 28, 2003.

Note 5

During fiscal 2004, the Company renewed an uncollateralized \$3,000,000 line of credit agreement with a bank. The interest rate is equal to the prime rate less 1/4%. The line of credit requires that the Company maintain certain financial ratios and management personnel requirements. The Company has not borrowed against the line of credit to date.

Note 6

Basic and diluted earnings per share are computed based upon the weighted average number of shares outstanding during the year. Diluted earnings per share gives effect to all dilutive potential common shares. For the nine months ended August 28, 2004 and August 30, 2003, the Company had no dilutive potential common stock.

Sales for the third quarter increased 25.8% or \$870,000 above sales for the same period of 2003, while sales for the first nine months of 2004 increased 23.5% or \$2,169,000 above the first nine months of 2003. The increase in sales is primarily attributable to improved business conditions in the company's major market segments, combined with the introduction of new products. Sales for the first nine months of 2004 compared to 2003 increased 24% in the commercial market, 19% in the military market, and 38% in the space market.

Cost of goods sold for the third quarter 2004 versus 2003 totaled 69.3% and 69.3% of net sales, respectively, while cost of goods sold for the nine months of the comparable period totaled 67.7% and 70.6%, respectively. The cost of goods sold decrease of 2.9% is attributable to higher sales volume, changes in product mix, and yield improvements on certain products.

Selling, general and administrative expenses for the third quarter and first

Edgar Filing: MICROPAC INDUSTRIES INC - Form 10QSB

nine months of 2004 totaled 16.2% and 17.2%, respectively, compared to 18.1% and 21.8% for the same period in 2003. In actual dollars expensed, selling, general and administrative expenses increased \$74,000 in the third quarter of 2004, compared to 2003, and decreased \$45,000 for the first nine months of 2004, versus 2003, attributable to lower general and administrative salaries.

Net income in the third quarter and year to date 2004 totaled \$311,000 and \$935,000, respectively, compared to \$256,000 and \$328,000 for the comparable periods in 2003. Net income per share totaled \$.36 and \$.11 for the comparable nine months of 2004 and 2003, respectively. The increase in net income is associated with higher sales, lower cost as a % of sales, and continued control of overhead and general and administrative expenses.

New orders for the third quarter and year-to-date 2004 totaled \$5,158,000 and \$15,456,000, respectively, compared to \$2,752,000 and \$8,346,000 for the comparable periods of 2003.

8

Backlog totaled \$7,809,000 on August 28, 2004 compared to \$4,203,000 as of August 30, 2003 and \$5,594,000 on November 30, 2003.

Accounts receivable, net totaled \$2,197,000 as of August 28, 2004 and represents an increase of \$320,000 since November 30, 2003, due to increased sales.

Inventories totaled \$2,437,000 at the end of the third quarter 2004 compared to \$1,789,000 on November 30, 2003, an increase of \$648,000. Raw materials inventories increased \$549,000 since November 30, 2003, while work-in-process inventories increased \$99,000. The increase in raw materials is attributable to the purchase and receipt of long lead-time material which was funded by the customer, and an increase of piece parts to support the higher sales volume.

Current liabilities totaled \$1,316,000 on August 28, 2004 representing an increase of \$387,000 from November 30, 2003; primarily associated with an increase in accounts payable of \$239,000 due to increased materials purchases to support the higher sales volume, an increase of \$31,000 in accrued payroll, a reduction of \$55,000 in provision for income taxes, an increase in other accrued liabilities of \$163,000 based on higher reserves associated with advance payments from customers, and an increase of \$10,000 accrued professional fees.

A special cash dividend of \$129,000 was paid on February 13, 2004 to all shareholders of record.

During fiscal 2004, the Company renewed an uncollateralized \$3,000,000 line of credit agreement with a bank. The interest rate is equal to the prime rate less 1/4%. The line of credit requires that the Company maintain certain financial ratios and management personnel requirements. The Company has not borrowed against the line of credit to date.

The Company expects to generate adequate amounts of cash from the sale of products and services and the collection thereof to meet its liquidity needs.

Outlook

New orders for the third quarter and year-to-date 2004 totaled \$5,158,000 and \$15,456,000, respectively, compared to \$2,752,000 and \$8,346,000 for the comparable periods of 2003. The Company's major new orders received in the third quarter of 2004 were for custom design assemblies and microcircuits for industrial applications, custom and new products for military and space applications and standard optoelectronics products sold through distribution channels.
