**APPROXIMATE DATE OF PROPOSED SALE TO THE PUBLIC:**

From time to time after this Registration Statement becomes effective.

If any securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, other than securities offered only in connection with dividend or interest reinvestment plans, check the following box:

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. \_\_\_\_\_

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. \_\_\_\_\_

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. \_\_\_\_\_

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a small reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer   
Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company

Note Regarding Registration Fees:

All fees for the registration of the shares registered on this Post-Effective Amendment No. 1 were paid upon the initial filing of the previously filed registration statement covering such shares. No additional shares are registered and accordingly, no additional fees are payable.

**The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.**

**This Registration Statement constitutes Post-Effective Amendment No. 1 to the Registrant's Registration Statement on Form S-1 (Registration No. 333-193296), and such post-effective amendment shall hereafter become effective concurrently with the effectiveness of this Registration Statement and in accordance with Section 8(c) of the Securities Act.**

**The information in this prospectus is not complete and may be changed. The selling stockholders may not sell these securities under this prospectus until the registration statement of which it is a part and filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.**

**SUBJECT TO COMPLETION, DATED DECEMBER 19, 2014**

**PRELIMINARY PROSPECTUS**

**DECISIONPOINT SYSTEMS, INC.**

**Up to 752,560 shares of Series E Preferred Stock and 15,869,200 Shares of Common Stock**

This prospectus relates to the offering by the selling stockholders of up to 752,560 shares of Series E Preferred Stock (including 409,000 shares sold under a purchase agreement and 343,560 shares issuable as dividends (“PIK Shares”) on shares of Series E Preferred Stock) and 15,869,200 shares of common stock (including 8,180,000 shares of common stock underlying the shares of Series E Preferred Stock sold under the purchase agreement, 6,871,200 shares of common stock underlying the PIK Shares and 818,000 shares of common stock underlying warrants) of DecisionPoint Systems Inc. (the “Company”, “we”, “us”, or “our”).

Our common stock is traded on the OTCQB marketplace under the symbol “DPSI.” On December 5, 2014, the closing price of our common stock was \$0.34 per share.

Our Series E Preferred Stock is not traded on any national securities exchange and is not quoted on any over-the-counter market.

Edgar Filing: DecisionPoint Systems, Inc. - Form POS AM

The selling stockholders may sell all or a portion of these shares from time to time in market transactions through any market on which our Series E Preferred Stock or common stock is then traded, in negotiated transactions or otherwise, and at prices and on terms that will be determined by the then prevailing market price or at negotiated prices directly or through a broker or brokers, who may act as agent or as principal or by a combination of such methods of sale. For additional information on the methods of sale, you should refer to the section entitled "Plan of Distribution."

We will bear all costs relating to the registration of these shares of our common stock and Series E Preferred Stock, other than any selling stockholders' legal or accounting costs or commissions.

We will not receive any proceeds from the sale of common stock and Series E Preferred Stock by the selling stockholders.

Investing in our Series E Preferred Stock and common stock involves a high degree of risk. Before making any investment in our Series E Preferred Stock or common stock, you should read and carefully consider the risks described in this prospectus under "Risk Factors" beginning on page 5 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus is dated \_\_\_\_\_, 2014

## PROSPECTUS SUMMARY

*This summary highlights information contained throughout this prospectus and is qualified in its entirety to the more detailed information and financial statements included elsewhere in this prospectus. This summary does not contain all of the information that should be considered before investing in our Series E Preferred Stock or our common stock. Investors should read the entire prospectus carefully, including the more detailed information regarding our business, the risks of purchasing our Series E Preferred Stock and our common stock discussed in this prospectus under “Risk Factors” and our financial statements and the accompanying notes beginning on page F-1 of this prospectus.*

*In this prospectus, we refer to DecisionPoint Systems, Inc. and its consolidated subsidiaries as the “Company,” “DecisionPoint”, “we”, “us” or “our”.*

### **Our Company**

DecisionPoint enables our clients to “move decisions closer to the customer” by “empowering the mobile worker”. We define the mobile worker as those individuals that are on the front line in direct contact with customers. These workers include field repair technicians, sales associates, couriers, public safety employees and millions of other workers that deliver goods and or services throughout the country. Whether they are blue or white collar, mobile workers have many characteristics in common. Mobile workers need information, access to corporate resources, decision support tools and the ability to capture and report information back to the organization.

DecisionPoint empowers these mobile workers through the implementation of various mobile technologies including specialized mobile business applications, wireless networks, mobile computers (for example, rugged, tablets, and smartphones) and a comprehensive suite of consulting, integration, deployment and support services.

We are focused on several commercial enterprise markets. These include retail, field sales/service, warehousing, distribution and transportation. With the continued growth of the mobile internet, we expect to see our current markets grow in addition to the emergence of new markets. We expect our customers to continue to embrace and deploy new technology to better enhance their own customers’ experiences and improve their own operations while lowering their operating costs. Our expertise and understanding of our customers’ operations and business operations in general, coupled with our expertise and understanding of mobile technology equipment and software offerings enables us to identify new trends and opportunities and provide these new solutions to our existing and potential customers.

At DecisionPoint, we deliver to our customers the ability to make better, faster and more accurate business decisions by implementing industry-specific, enterprise wireless and mobile computing systems for their front-line mobile workers, inside and outside of the traditional workplace. It is these systems that provide the information to improve the hundreds of individual business decisions made each day. Historically, critical information has remained locked away in the organization's enterprise computing systems, accessible only when employees were at their desk. Our solutions unlock this information and deliver it to employees when needed regardless of their location. As a result, our customers are able to move their business decision points closer to their customers which we believe in turn improves customer service levels, reduces cost and accelerates business growth.

We have several offices throughout North America which allows us to serve our multi-location clients and their mobile workforces. Additionally, we are always keenly aware of potential acquisition candidates that can provide complementary products and service offerings to our customer base.

We incurred net losses of \$696,000 and \$3,385,000 for the nine months ended September 30, 2014 and 2013, respectively. We incurred net losses of \$5,218,000 and \$3,866,000 for the years ended December 31, 2013 and 2012. As of September 30, 2014, we had a stockholders' deficit of \$1,926,000 and a working capital deficit of \$9,900,000. As of December 31, 2013, we had a stockholders' deficit of \$873,000 and a working capital deficit of \$9,875,000.

## Recent Developments

On July 2, 2014, the Company received a written “Wells Notice” from the staff of the Securities and Exchange Commission (the “SEC”) indicating that the staff has made a preliminary determination to recommend that the SEC bring an administrative proceeding against the Company. On the same day, Nicholas R. Toms, the Company’s then President and Chief Executive Officer and a then-serving member of the board of directors, also received a Wells Notice. The SEC staff has informed the Company that both Wells Notices relate to allegations that, from late 2009 to early 2011, Mr. Toms was the beneficial owner of shares of common stock of the Company that were held and traded by a Delaware corporation in which Mr. Toms was a 10% owner; that Mr. Toms exercised control over the corporation’s securities account; and that the corporation’s shareholding and trades should have been reflected at the relevant times in public disclosures of Mr. Toms’ other holdings of the Company’s common stock. A Wells Notice is neither a formal allegation of wrongdoing nor a finding that any violations of law have occurred. Rather, it provides the recipient with an opportunity to respond to issues raised by the staff and offer its perspective to the staff prior to any decision to institute proceedings. In response to the Wells Notice, the Company’s Audit Committee conducted an internal review, assisted by new outside legal counsel, and on August 8, 2014, we submitted to the SEC a response to the Wells Notice setting forth why no action should be commenced against us. As of the date of this filing, there have been no further developments in respect of the Wells Notice to the Company. On August 15, 2014, Mr. Toms resigned from his positions as Chief Executive Officer, President and member of the Company’s board of directors.

On September 10, 2014, our board of directors caused the Company to file a proxy statement with the SEC in preparation for notifying its shareholders of, and conducting, an annual meeting of shareholders. Our proxy statement proposed the reelection of the incumbent members of our board of directors and the election of a new, additional director, James F. DeSocio. On September 16, 2014, shareholders Michael N. Taglich and Robert F. Taglich filed a preliminary proxy statement contesting our director slate and proposing an alternative slate of directors to be elected at the meeting. Effective as of the close of business on October 3, 2014, our incumbent directors and Messrs. Michael and Robert Taglich reached a settlement of their differences. Pursuant to the settlement, five of the incumbent directors, board Chairman Lawrence Yelin and board members Jay B. Sheehy, David M. Rifkin, Marc Ferland and Donald Dalicandro, have resigned from our board of directors; James F. DeSocio has been appointed to our board of directors; and Donald Dalicandro has been authorized to serve as a board observer until the end of the term during which he is eligible, under his employment agreement with the Company, to remain as a member of the board of directors. Thereafter, remaining incumbent director Robert Schroeder and new director Mr. DeSocio appointed the following four additional individuals as directors (all of whom were members of the alternative director slate proposed by Messrs. Michael and Robert Taglich): Michael N. Taglich, John Guttilla, Stanley P. Jaworski and Paul A. Seid. As a result of the foregoing, our board of directors currently consists of Mr. Schroeder, who is serving as Chairman, and Messrs. DeSocio, Michael Taglich, Guttilla, Jaworski and Seid, with Mr. Dalicandro as an observer.

On November 10, 2014, our new board of directors appointed current director James F. DeSocio, to serve as Interim Chief Executive Officer of the Company, pending the selection of a permanent CEO pursuant to an executive search currently being conducted.

## Corporate Information

DecisionPoint Systems, Inc., formerly known as Comamtech, Inc., was incorporated on August 16, 2010, in Canada under the laws of the Ontario Business Corporations Act (“OCBA”). On June 15, 2011, we entered into a Plan of Merger (the “Merger Agreement”) among the Company, its wholly owned subsidiary, 2259736 Ontario Inc., incorporated under the laws of the Province of Ontario, Canada (the “Purchaser”) and DecisionPoint Systems, Inc., a Delaware corporation that had been publicly traded since June 2009 (“Old DecisionPoint”). Pursuant to the Merger Agreement, under Section 182 of the OCBA, on June 15, 2011 (the “Effective Date”) Old DecisionPoint merged (the “Merger”) into the Purchaser and became a wholly owned subsidiary of the Company. Prior to the Merger, Comamtech was a “shell company” (as such term is defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). In connection with the Merger, the Company changed its name to DecisionPoint Systems, Inc., and the Purchaser changed its name to DecisionPoint Systems International, Inc. (“DecisionPoint Systems International”). On June 15, 2011, both companies were reincorporated in the State of Delaware.

## About this Offering

### Series E Private Placement

On November 12, 2013, we entered into and closed a securities purchase agreement (the "Series E Purchase Agreement") with accredited investors (the "Series E Investors"), pursuant to which the Company sold an aggregate of 383,500 shares of Series E Preferred Stock (the "Series E Preferred Shares") for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$3,835,000 (the "Series E First Closing").

We retained Taglich Brothers, Inc. (the "Series E Placement Agent") as the placement agent for the Series E First Closing. We paid the Series E Placement Agent \$306,800 in commissions (equal to 8% of the gross proceeds), and issued to the Series E Placement Agent five-year warrants (the "Series E Placement Agent Warrants") to purchase 767,000 shares of common stock (equal to 10% of the number of shares of common stock underlying the Series E Preferred Shares sold under the Series E Purchase Agreement) at an exercise price of \$0.55 per share, in connection with the Series E First Closing. In addition, we paid Sigma Capital Advisors \$115,050 (equal to 3% of the gross proceeds from the Series E First Closing) as a finder's fee.

On November 22, 2013, we sold an additional 25,500 shares of Series E Preferred Stock to accredited investors for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$255,000 (the "Series E Second Closing", and together with the Series E First Closing, the "Series E Closings") pursuant to the Series E Purchase Agreement for an aggregate of 409,000 shares of Series E Preferred Stock sold. The Series E Placement Agent acted as the placement agent for the Series E Second Closing as well. We paid the Series E Placement Agent \$20,400 in commissions (equal to 8% of the gross proceeds), and issued to the Series E Placement Agent and its designees Series E Placement Agent Warrants to purchase 51,000 shares of common stock (equal to 10% of the number of shares of common stock underlying the Series E Preferred Shares sold under the Series E Purchase Agreement) at an exercise price of \$0.55 per share, in connection with the Series E Second Closing. In addition, the Company paid Sigma Capital Advisors \$7,650 (equal to 3% of the gross proceeds from the Series E Second Closing) as a finder's fee.

Our proceeds from the Series E Closings, before deducting placement agent fees, finder's fees and other expenses, were approximately \$4.1 million. Approximately \$0.6 million was used to pay fees and expenses of this offering, and \$3.5 million are funds available for general corporate purposes.

Pursuant to the Purchase Agreement, we agreed to, within 60 days of the final closing under the Purchase Agreement, (a) file a registration statement (the "Registration Statement") with the SEC covering the re-sale of the Series E Preferred Shares, the shares of common stock underlying the Series E Preferred Shares, the shares of Series E Preferred Stock issuable as dividends on the Series E Preferred Shares ("PIK Shares"), the shares of common stock

underlying the PIK Shares, and the shares of common stock underlying the Placement Agent Warrants, (b) file a registration statement under the Securities Exchange Act of 1934, as amended, with the SEC registering the class of Series E Preferred Stock, and (c) use our best efforts, including seeking and cooperating with one or more market makers, to cause the quotation of the Series E Preferred Stock on the OTC Bulletin Board and the OTCQB tier of the OTC Markets Group. We also agreed to use our best efforts to have the Registration Statement become effective as soon as possible after filing (and in any event within 90 days of the filing of such Registration Statement), and to keep such Registration Statement effective for a minimum of three years.

In connection with the Series E First Closing, on November 12, 2013, we filed a Certificate of Designation of Series E Preferred Stock (the "Series E Certificate of Designation") with the Secretary of State of Delaware. Pursuant to the Series E Certificate of Designation, we designated 2,000,000 shares of the Company's preferred stock as Series E Preferred Stock. The Series E Preferred Stock has a Stated Value of \$10.00 per share, does not have voting rights, and is convertible, at the option of the holder, into such number of shares of common stock equal to the number of shares of Series E Preferred Stock to be converted, multiplied by the Stated Value, divided by the Conversion Price in effect at the time of the conversion. The initial Conversion Price was \$0.50, subject to adjustment in the event of stock splits, stock dividends and similar transactions, and in the event of subsequent equity sales at a lower price per share, subject to certain exceptions.

The Series E Preferred Stock entitles the holder to cumulative dividends (subject to the prior dividend rights of the Company's Series D Preferred Stock), payable quarterly, at an annual rate of (i) 10% of the Stated Value during the three year period commencing on the date of issue, and (ii) 14% of the Stated Value commencing three years after the date of issue. We may, at our option (subject to certain conditions), pay dividends in PIK Shares, in which event the applicable dividend rate will be 14% and the number of such Series E PIK Shares issuable as a dividend will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective Conversion Price or (y) the average volume weighted average price of our common stock for the five prior consecutive trading days. On January 1, 2014, the Board of Directors declared a PIK dividend payable in the form of 7,533 shares of Series E Preferred Stock ("Issued Series E PIK Shares"). The dividends were payable to holders of record as of December 31, 2013 for accrued dividends for the period of inception to December 31, 2013. The 7,533 Issued Series E PIK Shares were issued in April 2014.

Pursuant to the Series E Certificate of Designation, upon any liquidation, dissolution or winding-up of our Company, holders of Series E Preferred Stock will be entitled to receive (following payment in full of amounts owed to in respect of the Company's Series D Preferred Stock), for each share of Series E Preferred Stock, an amount equal to the Stated Value of \$10.00 per share plus any accrued but unpaid dividends thereon before any distribution or payment may be made to the holders of any common stock, Series A Preferred Stock, Series B Preferred Stock, or subsequently issued preferred stock.

Pursuant to the Series E Certificate of Designation, commencing on the trading day on which the closing price of the common stock is greater than \$1.35 for thirty consecutive trading days with a minimum average daily trading volume of at least 10,000 shares for such period, and at any time thereafter, we, in our sole discretion, may effect the conversion of all of the outstanding shares of Series E Preferred Stock to common stock (subject to the condition that, all of the shares issuable upon such conversion may be re-sold without limitation under an effective registration statement or pursuant to Rule 144 under the Securities Act of 1933, as amended (the "Securities Act")).

In connection with the Series E First Closing, on November 12, 2013, we filed Amendment No. 2 to our Certificate of Designation of Series A Preferred Stock (the "Series A Amendment"), and Amendment No. 2 to our Certificate of Designation of Series B Preferred Stock (the "Series B Amendment"). Pursuant to the Series A Amendment and the Series B Amendment, the Series A Preferred Stock and the Series B Preferred Stock will be subordinate to the Series E Preferred Stock with respect to any distributions upon any liquidation, dissolution or winding-up of our Company, respectively.

In connection with the Series E First Closing, on November 12, 2013, we filed a Certificate of Elimination of Series C Preferred Stock (the "Series C Certificate of Elimination"), pursuant to which, the 5,000,000 shares of our preferred stock that had been designated as Series C Preferred Stock were returned to the status of blank check preferred stock.

## **RISK FACTORS**

*An investment in our securities has a high degree of risk. Before you invest you should carefully consider the risks and uncertainties described below and the other information in this prospectus. If any of the following risks actually occur, our business, operating results and financial condition could be harmed and the value of our stock could go down. This means you could lose all or a part of your investment.*

### **RISKS RELATED TO OUR BUSINESS**

*Our limited operating history as a public company makes it difficult for us to evaluate our future business prospects and make decisions based on those estimates of our future performance.*

Although our management team has been engaged in software development for an extended period of time and we began the operations of our current business in December 2003, we have only been operating as a public company with our current operations since June 2009. We have a limited operating history in our current combined form, which makes it difficult to evaluate our business on the basis of historical operations. As a consequence, it is difficult, if not impossible, to forecast our future results based upon our historical data. Reliance on our historical results may not be representative of the results we will achieve. Because of the uncertainties related to our lack of historical operations, we may be hindered in our ability to anticipate and timely adapt to increases or decreases in sales, product costs or expenses. If we make poor budgetary decisions as a result of unreliable historical data, we could be less profitable or incur losses, which may result in a decline in our stock price.

*Our working capital requirements may negatively affect our liquidity and capital resources.*

We have experienced negative working capital and minimal liquidity. If our working capital requirements vary significantly or if our short and long-term working capital needs exceed our cash flows from operations, we would look to our cash balances or other alternative sources of additional capital, which may not be available on satisfactory terms and in adequate amounts, if at all.

*Our independent registered public accountants have expressed that there is substantial doubt about our ability to continue as a going concern.*

Although our consolidated financial statements have been prepared assuming we will continue as a going concern, our independent registered public accounting firm, in its report accompanying our consolidated financial statements as of and for the year ended December 31, 2013, believes that our recurring net losses from operations, cash uses from operations, deficient working capital, minimal liquidity and other factors have raised substantial doubt as to our ability to continue as a going concern as of December 31, 2013.

***The mobile computing industry is characterized by rapid technological change, and our success depends upon the frequent enhancement of existing products and timely introduction of new products that meet our customers' needs.***

Customer requirements for mobile computing products are rapidly evolving and technological changes in our industry occur rapidly. To keep up with new customer requirements and distinguish us from our competitors, we must frequently introduce new products and enhancements of existing products. Enhancing existing products and developing new products is a complex and uncertain process. It often requires significant investments in research and development ("R&D") which we do not undertake. Even if we make significant investments in R&D, they may not result in products attractive or acceptable to our customers. Furthermore, we may not be able to launch new or improved products before our competition launches comparable products. Any of these factors could cause our business or financial results to suffer.

***Future business combinations and acquisition transactions, if any, as well as recently closed business combinations and acquisition transactions may not succeed in generating the intended benefits and may, therefore, adversely affect shareholder value or our financial results.***

Integration of new businesses or technologies into our business may have any of the following adverse effects:

- We may have difficulty transitioning customers and other business relationships.
- We may have problems unifying management following a transaction.
- We may lose key employees from our existing or acquired businesses.
- We may experience intensified competition from other companies seeking to expand sales and market share during the integration period.
- Our management's attention may be diverted to the assimilation of the technology and personnel of acquired businesses or new product or service lines.
- We may experience difficulties in coordinating geographically disparate organizations and corporate cultures and integrating management personnel with different business backgrounds.

The inability of our management to successfully integrate acquired businesses, and any related diversion of management's attention, could have a material adverse effect on our business, operating results and financial condition.

***Business combinations and other acquisition transactions may have a direct adverse effect on our financial condition, results of operations or liquidity, or on our stock price.***

To complete acquisitions or other business combinations, we may have to use cash, issue new equity securities with dilutive effects on existing stockholders, take on new debt, assume contingent liabilities or amortize assets or expenses in a manner that might have a material adverse effect on our balance sheet, results of operations or liquidity. We are required to record certain financing and acquisition-related costs and other items as current period expenses, which would have the effect of reducing our reported earnings in the period in which an acquisition is consummated. These and other potential negative effects of an acquisition transaction could prevent us from realizing the benefits of such transactions and have a material adverse impact on our stock price, revenues, revenue growth, balance sheet, results of operations and liquidity.

***We may need to raise additional funds, and these funds may not be available when we need them or the additional funds may not be obtained on favorable terms.***

We may need to raise additional monies in order to fund our growth strategy and implement our business plan. Specifically, we may need to raise additional funds in order to pursue rapid expansion, develop new or enhanced services and products, and acquire complementary businesses or assets. Additionally, we may need funds to respond to unanticipated events that require us to make additional investments in our business. There can be no assurance that additional financing will be available when needed, on favorable terms, or at all. If these funds are not available when we need them, then we may need to change our business strategy and reduce our rate of growth.

In the near term, our successful restructuring of our operations and reduction of operating costs and/or our ability to raise additional capital at acceptable terms is critical to our ability to continue to operate for the foreseeable future. If we continue to incur operating losses and/or do not raise sufficient additional capital, material adverse events may occur including, but not limited to, 1) a reduction in the nature and scope of our operations, 2) our inability to fully implement our current business plan and/or 3) continued defaults under the various loan agreements. A covenant default would give the bank the right to demand immediate payment of all outstanding amounts which we would not be able to repay out of normal operations. There are no assurances that we will successfully implement our plans with respect to these liquidity matters.

***Our revolving-line-of-credit agreements and our loan agreements may limit our flexibility in managing our business, and defaults of any financial and non-financial covenants in these agreements could adversely affect us.***

Our revolving-line-of-credit agreements as well as our term loan impose operating restrictions on us in the form of financial and non-financial covenants (see “Note 7 – Lines of Credit” along with Note 8 –Term Debt” in our accompanying Notes to Unaudited Condensed Consolidated Financial Statements for additional details). These restrictions limit the manner in which we can conduct our business and may restrict us from engaging in favorable business opportunities. These restrictions limit our ability, among other things, to incur further debt, make future acquisitions and other investments, restrict making certain payments such as dividend payments, and restrict disposition of assets.

At September 30, 2014, the outstanding balance on the line of credit with Silicon Valley Bank (“SVB”) is \$3.8 million and the interest rate is 6.5%. Availability under the line of credit is \$0.7 million as of September 30, 2014 and expires in February 2015. The line of credit has a certain financial covenant and other non-financial covenants. As of December 31, 2012, we were in compliance with all of our financial covenants with SVB. As of May 31, 2013 and June 30, 2013, we were not in compliance with the Tangible Net Worth covenant as defined in our loan agreement with SVB, as amended. As of September 30, 2014 and December 31, 2013, the Company was in compliance with the tangible Net Worth financial covenant and had available a \$0.6 million and \$0.8 million cushion over the requirement, respectively. The Company believes that at the time of this filing it is compliant with the terms and provisions of its SVB loan agreement. Should the Company continue to incur losses in a manner consistent with its recent historical financial performance, the Company will violate this covenant without additional net capital raises.

We are party to a credit agreement, dated June 4, 2012 (the “RBC Credit Agreement”) with Royal Bank of Canada (“RBC”). The RBC Term Loan has certain financial covenants and other non-financial covenants. On August 16, 2013 the RBC Credit Agreement was amended and certain financial covenants were modified. Pursuant to the amended credit agreement and commencing with the fiscal year ending December 31, 2013, we are required to maintain a fixed coverage ratio, calculated on a consolidated basis of not less than 1.15:1 with a step-up to 1.25:1 as of March 31, 2014, tested on a rolling four quarter basis thereafter and a ratio of funded debt to EBITDA, calculated on an annual consolidated basis of not greater than 3.0:1, tested on a rolling four quarter basis thereafter. We were not in compliance with the reset covenants at September 30, 2014 and December 31, 2013. Although our management believes it is improbable that RBC will exercise their rights up to, and including, acceleration of the outstanding debt, there can be no assurance that RBC will not exercise their rights pursuant to the provisions of the debt obligation. Accordingly, we have classified this debt obligation as current at December 31, 2013.

We were not in compliance with certain financial covenants under the agreements with the RBC Credit Agreement and our agreement with BDC, Inc. (“BDC”), dated as of June 4, 2012 (“BDC Credit Agreement”) as of December 31, 2012, March 31, 2013 and June 30, 2013. We have received waivers for non-compliance for past covenant violations. On August 22, 2013, the BDC Credit Agreement was amended and certain financial covenants were modified. Pursuant to the amended loan agreement, we are required to maintain, for the duration of the investment, a term debt to equity ratio not exceeding 1.1:1 (measured annually); and an adjusted current ratio of 0.40:1 (measured annually) and revised annually 120 days after each year end. We were in compliance with all of our BDC financial covenants as of September 30, 2014 and December 31, 2013. We expect to continue to meet the requirements of our BDC financial covenants over the short and long term.

On June 4, 2012, we entered into the BDC Loan Agreement as part of the Apex Purchase Agreement (see “Note 5 – Business Combinations” in our accompanying Notes to Unaudited Condensed Consolidated Financial Statements), pursuant to which BDC made available to Apex a term credit facility (“BDC Term Loan”) in the aggregate amount of CDN \$1,700,000 (USD \$1,632,000 at the Closing Date). The BDC Loan Agreement contains certain financial and non-financial covenants. On August 22, 2013, the BDC Term Loan was amended and certain financial covenants were modified. Pursuant to the amended loan agreement, the Company is required to maintain, for the duration of the investment, a term debt to equity ratio not exceeding 1.1:1 (measured annually); and an adjusted current ratio of

0.40:1 (measured annually) and revised yearly 120 days after each year end. The Company was in compliance with all of our BDC financial covenants as of December 31, 2013. We expect to continue to meet the requirements of our BDC financial covenants over the short and long term.

In connection with the BDC Credit Agreement, BDC executed a subordination agreement in favor of SVB, pursuant to which BDC agreed to subordinate any security interest in our assets granted in connection with the BDC Credit Agreement to SVB's existing security interest in our assets. The subordination agreement contains cross-default provisions which may materially impact our liquidity.

In the event either or both of the RBC Credit Agreement or the BDC Credit Agreement were deemed to be in default, RBC or BDC, as applicable, could, among other things (subject to the rights of SVB as our senior lender), terminate the facilities, demand immediate repayment of any outstanding amounts, and foreclose on our assets. Any such action would require us to curtail or cease operations. We do not have alternative sources of financing.

***Our competitors may be able to develop their business strategy and grow revenue at a faster pace than us, which would limit our results of operations and may force us to cease or curtail operations.***

The wireless mobile solutions marketplace, while highly fragmented, is very competitive and many of our competitors are more established and have greater resources. We expect that competition will intensify in the future. Some of these competitors also have greater market presence, marketing capabilities, technological and personnel resources than the Company. As compared with our company therefore, such competitors may:

- develop and expand their infrastructure and service/product offerings more efficiently or more quickly
- adapt more swiftly to new or emerging technologies and changes in client requirements
- take advantage of acquisition and other opportunities more effectively
- devote greater resources to the marketing and sale of their products and services; and
- leverage more effectively existing relationships with customers and strategic partners or exploit better recognized brand names to market and sell their services.

These current and prospective competitors include:

- other wireless mobile solutions companies such as Agilysis, Inc., International Business Machines (IBM), Accenture, Sedlak, Peak Ryzex, Stratix, Denali Advanced Integration, Group Mobile, Pariveda Solutions, and Barcoding Inc.;
- in certain areas our existing hardware suppliers, in particular Motorola Solutions but also Intermec, Zebra and others; and
- the in-house IT departments of many of our customers.

***A significant portion of our revenue is dependent upon a small number of customers and the loss of any one of these customers would negatively impact our revenues and our results of operations.***

We derived approximately 11% and 10% of our revenues from one customer for the nine months ended September 30, 2014 and 2013 respectively. We derived approximately 23 and 21% of our revenues from three customers, one of which was not the same, for the nine months ended September 30, 2014 and 2013, respectively. We derived approximately 24% of our revenues from our three largest customers, one of which was not the same, in 2013 and 2012. For the years ended December 31, 2013 and 2012, we had one customer within the healthcare industry that generated 10% and 13%, respectively, of our total sales.

Customer mix shifts significantly from year to year, but a concentration of the business with a few large customers is typical in any given year. A decline in our revenues could occur if a customer which has been a significant factor in one financial reporting period gives us significantly less business in the following period. Any one of our customers could reduce their orders for our products and services in favor of a more competitive price or different product at any

time. The loss of any one of these customers or reduced purchases by them would not have a material adverse effect on our business as we would adjust our personnel staffing levels accordingly.

Our contracts with these customers and our other customers do not include any specific purchase requirements or other requirements outside of the normal course of business. The majority of our customer contracts are on an annual basis for service support while on a purchase order basis for hardware purchases. Typical hardware sales are submitted on an estimated order basis with subsequent follow on orders for specific quantities. These sales are ultimately subject to the time that the units are installed at all of the customer locations as per their requirements. Service contracts are purchased on an annual basis generally and are the performance responsibility of the actual service provider as opposed to the Company. Termination provisions are generally standard clauses based upon non-performance, but a customer can cancel with a certain reasonable notice period anywhere from 30 to 90 days. General industry standards for contracts provide ordinary terms and conditions, while actual work and performance aspects are usually dictated by a Statement of Work which outlines what is being ordered, product specifications, delivery, installation and pricing.

***If wireless carriers were to terminate or materially reduce their business relationships with us, our operating results would be materially harmed.***

We have established key wireless carrier relationships with Sprint, T-Mobile and Verizon. We have an informal arrangement with these carriers pursuant to which they provide us referrals of end users interested in field mobility solutions, and we, in turn, provide solutions which require cellular data networks. We do not have any binding agreements with these carriers. If these carriers were to terminate or materially reduce, for any reason, their business relationships with us, our operating results would be materially harmed.

***Growth of and changes in our revenues and profits depend on the customer, product and geographic mix of our sales. Fluctuations in our sales mix could have an adverse impact on or increase the volatility of our revenues, gross margins and profits.***

Sales of our products to large enterprises tend to have lower prices and gross margins than sales to smaller firms. In addition, our gross margins vary depending on the product or service made. Growth in our revenues and gross margins therefore depends on the customer, product and geographic mix of our sales. If we are unable to execute a sales strategy that results in a favorable sales mix, our revenues, gross margins and earnings may decline. Further, changes in the mix of our sales from quarter-to-quarter or year-to-year may make our revenues, gross margins and earnings more volatile and difficult to predict.

***Our sales and profitability may be affected by changes in economic, business or industry conditions.***

If the economic climate in the U.S. or abroad deteriorates, customers or potential customers could reduce or delay their technology investments. Reduced or delayed technology investments could decrease our sales and profitability. In this environment, our customers may experience financial difficulty, cease operations and fail to budget or reduce budgets for the purchase of our products and professional services. This may lead to longer sales cycles, delays in purchase decisions, payment and collection, and can also result in downward price pressures, causing our sales and profitability to decline. In addition, general economic uncertainty and general declines in capital spending in the information technology sector make it difficult to predict changes in the purchasing requirements of our customers and the markets we serve. There are many other factors which could affect our business, including:

- the introduction and market acceptance of new technologies, products and services;
- new competitors and new forms of competition;
- the size and timing of customer orders;
- the size and timing of capital expenditures by our customers;
- adverse changes in the credit quality of our customers and suppliers;

- changes in the pricing policies of, or the introduction of, new products and services by us or our competitors;
- changes in the terms of our contracts with our customers or suppliers;
- the availability of products from our suppliers; and
- variations in product costs and the mix of products sold.

These trends and factors could adversely affect our business, profitability and financial condition and diminish our ability to achieve our strategic objectives.

*Use of third-party suppliers and service providers could adversely affect our product quality, delivery schedules or customer satisfaction, any of which could have an adverse effect on our financial results.*

We rely heavily on a number of privileged vendor relationships as a VAR for the Motorola Solutions Partner Pinnacle Club program, a manufacturer of bar code scanners and portable data terminals; as an Honors Solutions Provider for Intermec, a manufacturer of bar code scanners and terminals; as a Premier Partner with Zebra, a printer manufacturer, and O'Neil, the leading provider of 'ruggedized' handheld mobile printers. The loss of VAR status with any of these manufacturers could have a substantial adverse effect on our business.

***We have not sought to protect our proprietary knowledge through patents and, as a result, our sales and profitability could be adversely affected to the extent that competing products/services were to capture a significant portion of our target markets.***

We have generally not sought patent protection for our products and services, relying instead on our technical know-how and ability to design solutions tailored to our customers' needs. Our sales and profitability could be adversely affected to the extent that competing products/services were to capture a significant portion of our target markets. To remain competitive, we must continually improve our existing personnel skill sets and capabilities and the provision of the services related thereto. Our success will also depend, in part, on management's ability to recognize new technologies and services and make arrangements to license in, or acquire such technologies so as to always be at the leading edge.

***We must effectively manage the structure and size of our operations, or our company will suffer.***

Our ability to successfully implement our business plan requires an effective planning and management process. If funding is available, we intend to increase the scope of our operations and acquire complementary businesses. Implementing our business plan will require significant additional funding and resources. If we grow our operations, we will need to hire additional employees and make significant capital investments. If we grow our operations, it will place a significant strain on our existing management and resources. If we grow, we will need to improve our financial and managerial controls and reporting systems and procedures, and we will need to expand, train and manage our workforce. If we need to reduce the size of our infrastructure, we need to do it swiftly. Any failure to manage any of the foregoing areas efficiently and effectively would cause our business to suffer.

***If we fail to continue to introduce new products that achieve broad market acceptance on a timely basis, we will not be able to compete effectively and we will be unable to increase or maintain sales and profitability.***

Our future success depends on our ability to develop and introduce new products and product enhancements that achieve broad market acceptance. If we are unable to develop and introduce new products that respond to emerging technological trends and customers' mission critical needs, our profitability and market share may suffer. The process of developing new technology is complex and uncertain, and if we fail to accurately predict customers' changing needs and emerging technological trends, our business could be harmed.

We are active in the identification and development of new product and technology services and in enhancing our current products. However, in the enterprise mobility solutions industry, such activities are complex and filled with

uncertainty. If we expend a significant amount of resources and our efforts do not lead to the successful introduction of new or improved products, there could be a material adverse effect on our business, profitability, financial condition and market share.

We may also encounter delays in the manufacturing and production of new products from our principal suppliers. Additionally, new products may not be commercially successful. Demand for existing products may decrease upon the announcement of new or improved products. Further, since products under development are often announced before introduction, these announcements may cause customers to delay purchases of any products, even if newly introduced, until the new or improved versions of those products are available. If customer orders decrease or are delayed during the product transition, we may experience a decline in revenue and have excess inventory on hand which could decrease gross profit margins. Our profitability might decrease if customers, who may otherwise choose to purchase existing products, instead choose to purchase lower priced models of new products. Delays or deficiencies in the development, manufacturing, and delivery of, or demand for, new or improved products could have a negative effect on our business or profitability.

***We use a limited number of vendors, and disruption in our relationships with these vendors could adversely affect our business and financial results.***

Our ability to meet financial objectives depends on our ability to timely obtain an adequate delivery of hardware as well as services from our vendors. Certain supplies are available from a single source or limited sources for which we may be unable to provide suitable alternatives in a timely manner. In addition, we may experience increases in vendor prices that could have a negative impact on our business. Credit constraints by our vendors could cause us to accelerate payables by us, impacting our cash flow. Any unanticipated expense, or disruption in our business or operations relating to a limited number of suppliers could adversely affect our business, financial condition and results of operations.

***We face competition from numerous sources and competition may increase, leading to a decline in revenues.***

We compete primarily with well-established companies, many of which we believe have greater resources than us. We believe that barriers to entry are not significant and start-up costs are relatively low, so our competition may increase in the future. New competitors may be able to launch new businesses similar to ours, and current competitors may replicate our business model, at a relatively low cost. If competitors with significantly greater resources than ours decide to replicate our business model, they may be able to quickly gain recognition and acceptance of their business methods and products through marketing and promotion. We may not have the resources to compete effectively with current or future competitors. If we are unable to effectively compete, we will lose sales to our competitors and our revenues will decline.

***We are heavily dependent on our senior management, and a loss of a member of our senior management team could cause our stock price to suffer.***

If we lose members of our senior management, we may not be able to find appropriate replacements on a timely basis, and our business could be adversely affected. Our existing operations and continued future development depend to a significant extent upon the performance and active participation of certain key individuals, including our Interim Chief Executive Officer, Chief Financial Officer, Senior Vice Presidents and certain other senior management individuals. We cannot guarantee that we will be successful in retaining the services of these or other key personnel. If we were to lose any of these individuals, we may not be able to find appropriate replacements on a timely basis and our financial condition and results of operations could be materially adversely affected.

***We are increasingly dependent on information technology systems and infrastructure (cyber security).***

We increasingly rely upon technology systems and infrastructure. Our technology systems are potentially vulnerable to breakdown or other interruption by fire, power loss, system malfunction, unauthorized access and other events such as computer hackings, cyber-attacks, computer viruses, worms or other destructive or disruptive software. Likewise, data privacy breaches by employees and others with permitted access to our systems may pose a risk that sensitive data may be exposed to unauthorized persons or to the public. While we have invested heavily in the protection of data and information technology and in related training, there can be no assurance that our efforts will prevent significant breakdowns, breaches in our systems or other cyber incidents that could have a material adverse effect upon our reputation, business, operations or financial condition of the company. In addition, significant implementation issues may arise as we continue to consolidate and outsource certain computer operations and application support activities.

***If our goodwill or amortizable intangible assets become impaired we may be required to record a significant charge to earnings.***

We review our goodwill and amortizable intangible assets for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. Goodwill is required to be evaluated for impairment at least annually. Factors that may be considered a change in circumstances indicating that the carrying value of our goodwill or amortizable intangible assets may not be recoverable include a decline in stock price and market capitalization, decrease in future cash flows, and slower growth rates in our industry. We may be required to record a significant charge to earnings in our financial statements during the period in which any impairment of our goodwill or amortizable intangible assets is determined, resulting in a material adverse impact on our results of operations.

***Our inability to hire, train and retain qualified employees could cause our financial condition to suffer.***

The success of our business is highly dependent upon our ability to hire, train and retain qualified employees. We face competition from other employers for people, and the availability of qualified people is limited. We must offer a competitive employment package in order to hire and retain employees, and any increase in competition for people may require us to increase wages or benefits in order to maintain a sufficient work force, resulting in higher operation costs. Additionally, we must successfully train our employees in order to provide high quality services. In the event of high turnover or shortage of people, we may experience difficulty in providing consistent high-quality services. These factors could adversely affect our results of operations.

***If we are unable to maintain the effectiveness of our internal controls, our financial results may not be accurately reported.***

Management's assessment of the effectiveness of our disclosure controls and procedures as of June 30, 2012 and September 30, 2012 reported that such controls and procedures were ineffective as a result of a material weakness in our internal control over financial reporting related to the supervision and review of our financial closing and reporting process and in our ability to account for complex transactions as described in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2012 and September 30, 2012. The complex transactions related to purchase accounting for acquisitions made in 2012. During the fourth quarter of 2012, we devoted significant time and resources to the remediation of the material weakness that included, but was not limited to:

- Evaluating of Finance Department's management and staff qualifications, which resulted in us making certain personnel changes in the Accounting and Finance department;
- Implementation of further process and control procedures surrounding review of significant transactions within the financial closing process; and
- Implementing new control procedures over the utilization of external resources.

Although further and ongoing efforts will continue in 2014 and beyond to enhance our internal control over financial reporting, we believe that our remediation efforts now provide the foundation for compliance.

Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting in accordance with accounting principles generally accepted in the United States. Because the inherent limitations of internal control over financial reporting cannot guarantee the prevention or detection of a material weakness, we can never guarantee a material weakness over financial reporting will not occur, including with respect to any previously reported material weaknesses. Any future material weakness could result in material misstatements in our financial statements or cause us to fail to meet our reporting obligations. In addition, if we are unable to certify that our internal control over financial reporting is effective, we may be subject to sanctions or investigations by regulatory authorities such as the SEC, and we could lose investor confidence in the accuracy and completeness of our financial reports, which would materially harm our business, the price of our common stock and our ability to access the capital markets.

***Our Net Operating Loss Carryforwards may be limited.***

Pursuant to Internal Revenue Code (IRC) Section 382, annual use of our Federal net operating loss carryforwards may be limited in the event a cumulative change in ownership of our company of more than fifty percent occurs within a three-year period. In addition, IRC Section 382 may limit our built-in items of deduction, including capitalized start-up costs and research and development costs. We have completed an IRC 382 analysis regarding the limitation of our net operating loss carryforwards as of December 31, 2013. At December 31, 2013, we had Federal net

operating loss carryforwards of approximately \$10.7 million. Of this amount, approximately \$19.9 million is available after the application of IRC Section 382 limitations.

## **RISKS RELATED TO OUR SERIES E PREFERRED STOCK AND COMMON STOCK**

*There has been a limited trading market for our common stock.*

Currently, our common stock is available for quotation on the OTCQB marketplace under the symbol "DPSI." There is a limited trading market for the common stock in this marketplace. The lack of an active market may impair your ability to sell your shares at the time you wish to sell them or at a price that you consider reasonable. The lack of an active market may also reduce the fair market value of your shares. An inactive market may also impair our ability to raise capital by selling shares of capital stock and may impair our ability to acquire other companies or technologies by using common stock as consideration.

***Our Series E Preferred Stock is not traded on any national securities exchange and is not quoted on any over-the-counter market, and as a result you may not be able to sell our Series E Preferred Stock.***

Our Series E Preferred Stock is not traded on any national securities exchange and is not quoted on any over-the-counter market. There may never be an active market for our Series E Preferred Stock. In the absence of an active trading market, you may have difficulty buying and selling, there will be no market visibility for our Series E Preferred Stock and the lack of visibility for our Series E Preferred Stock may have a depressive effect on the price for our Series E Preferred Stock.

***We may pay dividends on our Series D Preferred Stock and Series E Preferred Stock in shares of Series D Preferred Stock and Series E Preferred Stock, respectively, valued based on the trading price of our common stock, which would result in dilution to current stockholders.***

Our Series D Preferred Stock entitles the holder to cumulative dividends, payable quarterly, at an annual rate of (i) 8% of the Stated Value during the three year period commencing on the date of issue, and (ii) 12% of the Stated Value commencing three years after the date of issue. We may, at our option, pay dividends in shares of Series D Preferred Stock (“Series D PIK Shares”), in which event the applicable dividend rate will be 12% and the number of such Series D PIK Shares issuable will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective conversion price (currently \$0.71) or (y) the average volume weighted average price (“VWAP”) of the Company’s common stock for the five prior consecutive trading days. Accordingly, if the VWAP of our common stock for the applicable measuring period is below \$0.71, the number of shares issuable as Series D PIK Shares will vary with such VWAP.

The following table sets forth, for illustrative purposes, the number of shares of Series D Preferred Stock we would issue if we were to elect to pay dividends on the Series D Preferred Stock in 2014, at different VWAP’s. The Series D PIK Shares are convertible into such number of shares of our common stock equal to the number of shares of Series D Preferred Stock to be converted, multiplied by the Stated Value, and divided by the conversion price in effect at the time of the conversion.

VWAP	<b>Number of PIK shares issuable in 2014</b>
\$ 0.60	108,472
\$ 0.50	130,166
\$ 0.40	162,708

Our Series E Preferred Stock entitle the holder to cumulative dividends, payable quarterly, at an annual rate of (i) 10% of the Stated Value during the three year period commencing on the date of issue, and (ii) 14% of the Stated Value commencing three years after the date of issue. We may, at our option, pay dividends in shares of Series E PIK Shares, in which event the applicable dividend rate will be 14% and the number of such Series E PIK Shares issuable will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective conversion price (currently \$0.50) or (y) VWAP of the Company's common stock for the five prior consecutive trading days. Accordingly, if the VWAP of our common stock for the applicable measuring period is below \$0.50, the number of shares issuable as PIK Shares will vary with such VWAP.

The following table sets forth, for illustrative purposes, the number of shares of Series E Preferred Stock we would issue if we were to elect to pay dividends on the Series E Preferred Stock in 2014, at different VWAP's. The Series E PIK Shares are convertible into such number of shares of our common stock equal to the number of shares of Series E Preferred Stock to be converted, multiplied by the Stated Value, and divided by the Conversion Price in effect at the time of the conversion.

	<b>Number of PIK shares issuable in 2014</b>
\$ 0.40	76,810
\$ 0.30	102,414
\$ 0.20	153,620

*If we issue common stock at a price less than the conversion price then in effect, the conversion prices of the Series D Preferred Stock and the Series E Preferred Stock will be reduced and will potentially cause additional common stock to be issued upon Series D Preferred Stock and the Series E Preferred Stock conversion.*

Our Series D Preferred Stock and the Series E Preferred Stock entitle the holder certain anti-dilution rights upon subsequent issuances of common stock which is less than the conversion price then in effect of the Series D Preferred Stock and the Series E Preferred Stock, respectively.

As a result of the sale in August 2013 of common stock, the conversion price of the Series D Preferred Stock was reduced from \$1.00 per share to \$0.90 per share. As a result of the sale of Series E Preferred Stock in November 2013, the Conversion Price of the Series D Preferred Stock was further reduced to \$0.71 per share. If all outstanding shares of Series D Preferred Stock and Series E Preferred are converted an additional 10,286,718 and 8,330,660 shares of common stock, respectively, will be issued further diluting existing common stockholders. If we issue additional shares of common stock (or securities convertible into common stock), at a price below the then-effective conversion price (subject to certain exceptions), the conversion price of the Series D and Series E Preferred Stock will be further reduced.

***Common Stock issued to investors contains certain price adjustment provisions.***

In connection with the closings on August 15, 2013 and August 21, 2013 (the “August 2013 Private Placement”), we granted certain price adjustments to the purchasers under the August 2013 Private Placement (the “August 2013 Investors”). For a period commencing on the initial closing under the August 2013 Private Placement and terminating on a date which is 24 months from the initial closing, in the event we issue or grant any shares of common Stock or securities convertible, exchangeable or exercisable for shares of common stock pursuant to which shares of common stock may be acquired at a price less than \$0.60 per share, then we shall promptly issue additional shares of common stock to the August 2013 Investors in an amount sufficient that the subscription price paid, when divided by the total number of shares issued (shares purchased under the August 2013 Purchase Agreement plus the additional shares issued under this provision), will result in an actual price paid by the subscriber per share of common stock equal to such lower price. As a result of the sale of Series E Preferred Stock in November 2013, we issued 585,467 additional shares of common stock to the August 2013 Investors. If in the future we are required to issue additional shares of common stock pursuant to these price adjustment rights, such issuances will result in further dilution to our then-current stockholders.

***The warrants issued to investors and the placement agent under the August 2013 Private Placement contain certain anti-dilution and price adjustment provisions.***

In connection with the August 2013 Private Placement, we issued warrants to the placement agent and investors that contained certain anti-dilution (“down-round”) protection. If at any time while the August 2013 Placement Agent Warrants or August 2013 Investor Warrants are outstanding, we shall sell or grant any option to purchase, or sell or grant any right to reprice, or otherwise dispose of or issue any common stock or common stock equivalent, at an effective price per share less than the exercise price then in effect of the August 2013 Placement Agent Warrants or August 2013 Investor Warrants, the exercise price of the Placement Agent Warrants and August 2013

Investor Warrants shall be reduced to such lower price. Such price adjustment provisions may result in further dilution to existing stockholders.

***The market price for our common stock may be volatile, and your investment in our common stock could decline in value.***

The market price of our common stock could fluctuate significantly in response to various factors and events, including:

- our ability to integrate operations, technology, products and services;
- our ability to execute its business plan;
- operating results below expectations;
- our issuance of additional securities, including debt or equity or a combination thereof, which will be necessary to fund our operating expenses;
- announcements of technological innovations or new products by us or our competitors;
- the loss of any strategic relationship;
- economic and other external factors;
- period-to-period fluctuations in our financial results; and
- whether an active trading market in the capital stock develops and is maintained.

In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our capital stock.

In the past, securities class action litigation has often been brought against companies that experience volatility in the market price of their securities. Whether or not meritorious, litigation brought against us could result in substantial costs and a diversion of management's attention and resources, which could adversely affect our business, operating results and financial condition.

***We expect that our quarterly results of operations will fluctuate, and this fluctuation could cause our stock price to decline.***

Our quarterly operating results are likely to fluctuate in the future. These fluctuations could cause our stock price to decline. The nature of our business involves variable factors, such as the timing of the research, development and regulatory pathways of our product candidates, which could cause our operating results to fluctuate.

Due to the possibility of fluctuations in our revenues and expenses, we believe that quarter-to-quarter comparisons of our operating results are not a good indication of our future performance.

***If we or our existing shareholders sell a substantial number of shares of our common stock in the public market, our stock price may decline.***

If we or our existing shareholders sell a large number of shares of our common stock, or the public market perceives that we or our existing shareholders might sell shares of common stock, particularly with respect to our affiliates, directors, executive officers or other insiders, the market price of our common stock could decline significantly.

In the future, we may issue additional shares to our employees, directors or consultants, in connection with corporate alliances or acquisitions, or to raise capital. Due to these factors, sales of a substantial number of shares of our common stock in the public market could occur at any time.

***Our common stock is subject to the "penny stock" rules of the SEC and the trading market in our securities is limited, which makes transactions in our stock cumbersome and may reduce the value of an investment in our***

*stock.*

The SEC has adopted Rule 15g-9 which establishes the definition of a “penny stock,” for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- that a broker or dealer approve a person’s account for transactions in penny stocks; and
- the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person’s account for transactions in penny stocks, the broker or dealer must:

- obtain financial information and investment experience objectives of the person; and
- make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the SEC relating to the penny stock market, which, in highlight form:

- sets forth the basis on which the broker or dealer made the suitability determination; and
- that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the “penny stock” rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

***FINRA sales practice requirements may also limit a shareholder’s ability to buy and sell our stock.***

In addition to the “penny stock” rules described above, FINRA has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer’s financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

***We do not anticipate paying dividends on our common stock.***

We have never declared or paid cash dividends on our common stock and do not expect to do so in the foreseeable future. The declaration of dividends is subject to the discretion of our board of directors and will depend on various factors, including our operating results, financial condition, future prospects and any other factors deemed relevant by our board of directors. You should not rely on an investment in our company if you require dividend income from your investment in our company. The success of your investment will likely depend entirely upon any future appreciation of the market price of our common stock, which is uncertain and unpredictable. There is no guarantee that our common stock will appreciate in value.

## **SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus contains “forward-looking statements”. Forward-looking statements reflect the current view about future events. When used in this prospectus, the words “anticipate,” “believe,” “estimate,” “expect,” “future,” “intend,” “plan,” negative of these terms and similar expressions, as they relate to us or our management, identify forward-looking statements. Such statements, include, but are not limited to, statements contained in this prospectus relating to our business strategy, our future operating results and liquidity and capital resources outlook. Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. They are neither statements of historical fact nor guarantees of assurance of future performance. We caution you therefore against relying on any of these forward-looking statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, without limitation, a continued decline in general economic conditions nationally and internationally; decreased demand for our products and services; market acceptance of our products and services; our ability to protect our intellectual property rights; the impact of any infringement actions or other litigation brought against us; competition from other providers and products; our ability to develop and commercialize new and improved products and services; our ability to raise capital to fund continuing operations; changes in government regulation; our ability to complete customer transactions and capital raising transactions; and other factors (including the risks contained in the section of this prospectus entitled “Risk Factors”) relating to our industry, our operations and results of operations and any businesses that may be acquired by us. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended or planned.

Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not undertake to update any of the forward-looking statements to conform these statements to actual results.

## **USE OF PROCEEDS**

We will not receive any proceeds from the sale of Series E Preferred Stock and common stock offered by the selling stockholders under this prospectus.

## **MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS**

Edgar Filing: DecisionPoint Systems, Inc. - Form POS AM

Our common stock is traded on the OTCQB marketplace under the symbol “DPSI.” The following table sets forth the high and low prices per share for our common stock for each period indicated. These quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions.

	High	Low
First Quarter of 2012	\$1.64	\$0.65
Second Quarter of 2012	\$1.54	\$0.90
Third Quarter of 2012	\$1.35	\$0.71
Fourth Quarter of 2012	\$1.25	\$0.55
First Quarter of 2013	\$1.26	\$0.81
Second Quarter of 2013	\$1.30	\$0.70
Third Quarter of 2013	\$1.00	\$0.49
Fourth Quarter of 2013	\$0.69	\$0.43
First Quarter of 2014	\$0.60	\$0.36
Second Quarter of 2014	\$0.58	\$0.26
Third Quarter of 2014	\$0.49	\$0.26
Fourth Quarter of 2014 (as of December 5, 2014)	\$0.48	\$0.26

Our Series E Preferred Stock is not traded on any national securities exchange and is not quoted on any over-the-counter market.

### **Number of Stockholders**

As of November 30, 2014, there were approximately 82 holders of record of our common stock and an undetermined number of beneficial owners.

### **Dividend Policy**

**Common Stock** – The holders of our common stock are entitled to receive dividends if and when declared by our Board of Directors out of funds legally available for distribution. Any such dividends may be paid in cash, property or shares of our common stock.

We have not paid any dividends on our common stock since our inception, and it is not likely that any dividends on our common stock will be declared in the foreseeable future. Any dividends will be subject to the discretion of our Board of Directors, and will depend upon, among other things, our operating and financial condition and our capital requirements and general business conditions.

**Preferred Stock** - The holders of the Series A and Series B Preferred Stock shall be entitled to receive, when, as and if declared by the Board of Directors, dividends at an annual rate of 8% of the stated value. Dividends shall be cumulative and shall accrue on each share of the outstanding Series A and B Preferred Stock from the date of its issue. Cumulative, undeclared dividends on our Series A Preferred and Series B Preferred Shares totaled \$422,000 and \$116,000 at September 30, 2014, respectively.

The Series D Preferred Stock entitles the holder to cumulative dividends, payable quarterly, at an annual rate of (i) 8% of the Stated Value during the three year period commencing on the date of issue, and (ii) 12% of the Stated Value commencing three years after the date of issue. We may, at our option, pay dividends in Series D PIK Shares, in which event the applicable dividend rate will be 12% and the number of such Series D PIK Shares issuable will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective Conversion Price or (y) the average volume weighted average price of our common stock for the five prior consecutive trading days. On April 16, 2013, we paid a cash dividend of \$154,186 on the Series D Preferred Stock for the period from the dates of issue to

March 31, 2013. On July 16, 2013, we paid a cash dividend of \$140,454 on the Series D preferred Stock for the period from April 1, 2013 to June 30, 2013. On October 15, 2013, we paid a cash dividend of \$142,000 on the Series D preferred Stock for the period from July 1, 2013 to September 30, 2013. On January 1, 2014, the Board of Directors declared a Series D PIK dividend payable in the form of 26,157 shares of Series D Preferred Stock. The dividends were payable to holders of record as of December 31, 2013 for accrued dividends for the period of October 1, 2013, to December 31, 2013. These shares were issued in April 2014. Additionally, on December 31, 2013, cash dividends of \$351 were accrued for fractional share dividends not paid-in-kind. On April 25, 2014, the Company paid a cash dividend of \$144,000 on the Series D Preferred Stock for the period from January 1, 2014 to March 31, 2014.

The Series E Preferred Stock entitles the holder to cumulative dividends, payable quarterly, at an annual rate of (i) 10% of the Stated Value during the three year period commencing on the date of issue, and (ii) 14% of the Stated Value commencing three years after the date of issue. We may, at our option, pay dividends in Series E PIK Shares, in which event the applicable dividend rate will be 14% and the number of such Series E PIK Shares issuable will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective Conversion Price or (y) the average volume weighted average price of the Company's common stock for the five prior consecutive trading days. On January 1, 2014, the Board of Directors declared a Series E PIK dividend payable in the form of 7,533 shares of Series E Preferred Stock. The dividends were payable to holders of record as of December 31, 2013 for accrued dividends for the period of October 1, 2013 to December 31, 2013. These shares were issued in April 2014. Additionally, on December 31, 2013, cash dividends of \$561 were accrued for fractional share dividends not paid-in-kind. On April 25, 2014, the Company paid a cash dividend of \$103,000 on the Series E Preferred Stock for the period from January 1, 2014 to March 31, 2014.

### **Securities Authorized for Issuance under Equity Compensation Plans**

In December 2010, the Company established the 2010 Stock Option Plan (the "2010 Plan"). The 2010 Plan authorizes the issuance of 1,000,000 shares of common stock.

Under the 2010 Plan, common stock incentives may be granted to officers, employees, directors, consultants, and advisors. As of September 30, 2014, incentives under the 2010 Plan may be granted only in the form of non-statutory stock options and all stock options of Old DecisionPoint that were assumed by the Company became non-statutory options on the date of the assumption.

The 2010 Plan is administered by our Board of Directors, or a committee appointed by the Board of Directors, which determines recipients and the number of shares subject to the awards, the exercise price and the vesting schedule. The term of stock options granted under the 2010 Plan cannot exceed ten years. Options shall not have an exercise price less than 100% of the fair market value of the Company's common stock on the grant date, and generally vest over a period of five years. If the individual possesses more than 10% of the combined voting power of all classes of stock of the Company, the exercise price shall not be less than 110% of the fair market of a share of common stock on the date of grant.

In October 2014, the Company established the 2014 Equity Incentive Plan (the "2014 Plan"). The 2014 Plan authorizes the issuance of 2,500,000 shares of common stock.

Edgar Filing: DecisionPoint Systems, Inc. - Form POS AM

Under the 2014 Plan, common stock incentives may be granted to officers, employees, directors, consultants, and advisors (and prospective directors, officers, managers, employees, consultants and advisors) of the Company and its affiliates can acquire and maintain an equity interest in the Company, or be paid incentive compensation, which may (but need not) be measured by reference to the value of our common stock. The 2014 Plan permits us to provide equity-based compensation in the form of stock options, stock appreciation rights, restricted stock, restricted stock units, unrestricted stock and other stock bonus awards and performance compensation awards. No awards have yet been granted under the 2014 Plan.

The 2014 Plan is administered by our Board of Directors, or a committee appointed by the Board of Directors, which determines recipients and the number of shares subject to the awards, the exercise price and the vesting schedule. The term of stock options granted under the 2014 Plan cannot exceed ten years. Options shall not have an exercise price less than 100% of the fair market value of the Company's common stock on the grant date, and generally vest over a period of five years. If the individual possesses more than 10% of the combined voting power of all classes of stock of the Company, the exercise price shall not be less than 110% of the fair market of a share of common stock on the date of grant.

A summary of the status of the 2010 Plan as of December 31, 2013, and information with respect to changes in options outstanding over the course of 2013, is as follows:

	Options Available for Grant	Options Outstanding	Weighted Average Exercise Price	Aggregate Intrinsic Value
January 1, 2013	455,495	544,505	\$ 1.82	
Granted	(260,000)	260,000	0.50	
Exercised	-	-	-	
Forfeited	-	-	-	
December 31, 2013	195,495	804,505	\$ 1.39	\$ -
Exercisable options at December 31, 2013		710,437	\$ 1.29	\$ -

The following table sets forth information with respect to compensation plans as of December 31, 2013 under which equity securities of ours are authorized for issuance, subject to our available authorized shares.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants, and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders	804,505	\$ 1.39	195,495
Equity compensation plans not approved by security holders	-	-	-
<b>Total</b>	<b>804,505</b>	<b>\$ 1.39</b>	<b>195,495</b>

The Company does not currently have any other equity compensation plans.

## **MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following Management’s Discussion and Analysis is intended to help the reader understand the results of operations and financial condition of the business of DecisionPoint Systems, Inc. (“DecisionPoint”, the “Company”, “we”, “us” or “our”). Management’s Discussion and Analysis is provided as a supplement to, and should be read in conjunction with, the financial statements and the related notes thereto included elsewhere in this prospectus.

### **Non-GAAP Financial Measures**

In the following discussion and analysis of results of operations and financial condition, certain financial measures may be considered “non-GAAP financial measures” under SEC rules. These rules require supplemental explanation and reconciliation, which is provided in this prospectus as applicable.

DecisionPoint’s management uses the non-GAAP financial measure, “Adjusted Working Capital”; in their evaluation of business cash flow and financial condition. We consider this measure to reflect our ‘cash’ working capital position. It is the equivalent of our U.S. GAAP working capital position, after removing the accrual effect of current deferred assets and liabilities. We believe this non-GAAP financial measure provides us, and investors with a better understanding of the operating results and financial condition of our company.

Non-GAAP disclosures have limitations as analytical tools, should not be viewed as a substitute for measures of cash flow, operating earnings or financial condition determined in accordance with U.S. GAAP, and should not be considered in isolation from or as a substitute for analysis of our results as reported under U.S. GAAP, nor are they necessarily comparable to non-GAAP financial measures that may be presented by other companies. Our supplemental presentation of Non-GAAP financial measures should not be construed as an inference that our future operating results or financial condition will be unaffected by any adjustments necessary to reconcile our Non-GAAP financial measures to measures determined in accordance with U.S. GAAP.

### **Overview**

DecisionPoint enables its clients to “move decisions closer to the customer” by “empowering the mobile worker”. We define the mobile workers as those individuals who are on the front line in direct contact with customers. These

workers include field repair technicians, sales associates, couriers, public safety employees and millions of other workers that deliver goods and or services throughout the country. Whether they are blue or white collar, mobile workers have many characteristics in common. Mobile workers need information, access to corporate resources, decision support tools and the ability to capture information and report it back to the organization.

DecisionPoint empowers these mobile workers through the implementation of various mobile technologies including specialized mobile business applications, wireless networks, mobile computers (for example, rugged, tablets, and smartphones) and a comprehensive suite of consulting, integration, deployment and support services.

At DecisionPoint, we deliver to our customers the ability to make better, faster and more accurate business decisions by implementing industry-specific, enterprise wireless and mobile computing systems for their front-line mobile workers, inside and outside of the traditional workplace. It is these systems that provide the information necessary for businesses to improve hundreds of the individual decisions made each day. Historically, critical information has remained locked away in the organization's enterprise computing systems, accessible only when employees are at their desks. Our solutions are designed to unlock this information and deliver it to employees when needed regardless of their location. As a result, our customers are able to move their business decision points closer to their customers which we believe in turn improves customer service levels, reduces cost and accelerates business growth.

Mobile computing capabilities and usage continue to grow. With choice comes complexity so helping our customers navigate the myriad options is what we aim to do best. The right choice may be an off-the-shelf application or a custom business application to fit a very specific business process. DecisionPoint has the specialized resources and support structure to help our customers make the right choices, and then to deliver to those customers the hardware, software, connectivity and follow-up maintenance and other services that they need. We address the mobile application needs of customers in the retail, manufacturing, transportation, warehousing, distribution, logistics and other market segments. We continue to invest in building out our capabilities to support these markets and business needs. For example, in July 2012, we invested in the expansion of our custom software development capabilities through the acquisition of Illume Mobile in Tulsa, OK, which specializes in the custom development of specialized mobile business applications for Apple, Android and Windows Mobile devices. Additionally, through the acquisition of Illume Mobile we acquired a cloud-based, horizontal software application “ContentSentral” which manages and distributes multiple types of corporate content (for example, PDF, video, images, and spreadsheets) on mobile tablets used by field workers. We also substantially increased our software products expertise with the acquisition in June 2012 of Apex in Canada. The APEXWare™ software suite significantly expanded our field sales/service software offerings. APEXWare™ is a purpose-built mobile application well suited to the automation of field sales/service and warehouse workers. Additionally, we continue to expand our deployment and MobileCare support offerings. In 2012 we moved our headquarters location to a larger facility in Irvine, CA in order to accommodate the expansion of our express depot and technical support organizations. In 2013 we consolidated our East Coast depot facility into our larger facility in Irvine, CA in order to provide our East Coast customers with later service hours and to gain some economies of scale. We also continue to invest in our “MobileCare EMM” enterprise mobility management offering. We are continuing to extend our mobile device management (“MDM”) offering from our historically ruggedized mobile computer customer base to address the growing use of consumer devices by clients and others to support the Bring Your Own Device (“BYOD”) and Bring Your Own Application (“BYOA”) movements affecting commerce and our industry in general. .

Recognizing that we cannot build every business application, we have developed an ‘ecosystem’ of partners to support the assembly and manufacturing provisions of our custom and off-the-shelf solutions. These partners include suppliers of mobile devices (Apple, Intermec and Motorola, among others), wireless carriers (AT&T, Sprint, T-Mobile, Verizon), mobile peripheral manufactures (Zebra Technologies Corporation, Datamax – O’Neil), and a large number of specialized independent software vendors such as AirWatch, VeriFone GlobalBay, XRS and Wavelink.

We have several offices throughout North America allowing us to serve multi-location clients and their mobile workforces. Additionally, we keep aware of potential acquisition candidates that could provide us with complementary products and service offerings and make acquisitions when we identify sufficiently valuable opportunities.

### **Results of Operations for the Three and Nine Months Ended September 30, 2014**

For comparison purposes, all dollar amounts have been rounded to nearest million while all percentages are actual. Due to rounding, totals in the tables presented may not sum to the total presented in the table.

	Three Months Ended			Nine Months Ended			
	September 30,		Increase	September 30,		Increase	
	2014	2013	(Decrease)	2014	2013	(Decrease)	
Net sales	\$14.1	\$17.6	(19.5 %)	\$47.4	\$46.1	2.8 %	
Gross profit	3.0	3.5	(12.8 %)	10.4	9.9	5.3 %	
Total operating expenses	3.0	3.7	(17.4 %)	10.2	13.2	(22.8 %)	
Operating income (loss)	(0.0)	(0.2)	(96.2 %)	0.2	(3.3)	(106.5 %)	
Net loss before income taxes	(0.2)	(0.3)	(39.7 %)	(0.2)	(3.9)	(95.4 %)	

**Total Revenue**

Revenues for the three and nine months ended September 30, 2014 and 2013 is summarized below:

	Three Months Ended			Nine Months Ended				
	September 30,		Increase	September 30,		Increase		
	2014	2013	(Decrease)	2014	2013	(Decrease)		
Hardware	\$8.8	\$11.9	(26.1 %)	\$30.7	\$28.8	6.4 %		
Professional services	4.3	4.3	(1.5 %)	12.9	12.7	1.9 %		
Software	0.8	0.9	(18.6 %)	2.7	3.5	(22.0 %)		
Other	0.3	0.4	(20.2 %)	1.1	1.1	(1.5 %)		
	\$14.1	\$17.6	(19.5 %)	\$47.4	\$46.1	2.8 %		

Net sales were \$14.1 million for the three months ended September 30, 2014, compared to \$17.6 million for the same period ended September 30, 2013, a decrease of \$3.5 million or 19.5%. The decrease was driven principally by our hardware category, where net sales declined by \$3.1 million, or 26.1% over the comparable period. The decrease in hardware revenue was partially due to significant orders by several large retail customers in the first and second quarters of 2014 not being repeated at the same level in the third quarter of 2014.

Net sales were \$47.4 million for the nine months ended September 30, 2014, compared to \$46.1 million for the same period ended September 30, 2013, an increase of \$1.3 million or 2.8%. The increase was driven principally by our hardware category, which grew by \$1.9 million, or 6.4% over the comparable period. The increase in hardware revenue was partially due to significant orders by several large retail customers in the first and second quarters of 2014. The increase in revenue was also due to the increased field mobility solution sales and increased professional services revenue from our CMAC subsidiary for the nine months ended September 30, 2014, compared to the period ended September 30, 2013. We also recognized higher revenues through the expansion of our customer base and continued ordering from customers acquired after the first quarter of 2013. The decrease in software revenue of \$0.8 million, or 22.0% for the nine months ended September 30, 2014 was primarily attributable to the decrease of \$0.4 million associated with the Apex business. Software revenue for Apex in the nine months ended September 30, 2013 received the benefit of a new customer and additional business opportunities not recognized at the same level in the nine months ended September 30, 2014.

Improved economic conditions in the U.S. have had a positive effect on our sales. In 2013, major retail chains deferred new technology implementation and delayed systems' refresh. Conversely, the economic environment in 2012 stabilized whereupon we benefitted from renewed interest and more importantly, fundamental need to implement new cost saving technology. While the slowly improving economic conditions in the U.S. have had a

positive effect generally, we have continued to experience greater competitive forces in the market place within our core traditional solutions business.

### *Cost of Sales*

Cost of sales for the three and nine months ended September 30, 2014 and 2013 is summarized below:

	<b>Three Months Ended</b>			<b>Nine Months Ended</b>				
	September 30,		Increase (Decrease)	September 30,		Increase (Decrease)		
	2014	2013			2014	2013		
Hardware	\$7.2	\$9.8	(26.1 %)	\$25.0	\$23.4	6.8 %		
Professional services	2.8	2.9	(6.1 %)	8.4	8.6	(2.6 %)		
Software	0.9	1.1	(18.6 %)	2.8	3.4	(17.8 %)		
Other	0.3	0.3	(19.6 %)	0.9	0.9	(0.1 %)		
	\$11.1	\$14.1	(21.2 %)	\$37.0	\$36.2	2.1 %		

The cost of sales line includes hardware costs, third party licenses, costs associated with third party professional services, salaries and benefits for project managers and software engineers, freight, consumables and accessories.

Cost of sales was \$11.1 million for the three months ended September 30, 2014, compared to \$14.1 million for the same period ended September 30, 2013, a decrease of \$3.0 million or 21.2%. The decrease in cost of sales for hardware of 26.1% for the three months ended September 30, 2014 compared to the same period in 2013 was consistent with the hardware revenue decrease. The decrease in cost of sales for professional services from the three months ended September 30, 2014 compared to the three months ended September 30, 2013 was 6.1%, more than the professional services revenue decline of 1.5% for the same period, which was due to reductions in professional service personnel that we achieved as a component of our operational improvement efforts. The decrease in cost of sales for software of 18.6% for the three months ended September 30, 2014 compared to the similar period in 2013 was consistent with the decrease in software revenues for the same period and related to professional service personnel reductions. The decrease in other cost of sales was approximately in proportion to the decrease in the other revenues.

Cost of sales was \$37.0 million for the nine months ended September 30, 2014, compared to \$36.2 million for the same period ended September 30, 2013, an increase of \$0.8 million or 2.1%. The increase in cost of sales for hardware of 6.8% for the nine months ended September 30, 2014 compared to the same period in 2013 was slightly higher than the hardware revenue increase due to fewer large orders which usually have reduced pricing and product mix. The decrease in cost of sales for professional services from the nine months ended September 30, 2014 to the nine months ended September 30, 2013 was 2.6% compared to the revenue growth rate of 1.9%, and was due to reductions in professional service personnel that we achieved as a component of our operational improvement efforts. The decrease in cost of sales for software of 17.8% for the nine months ended September 30, 2014 compared to the same period in 2013 was also related to professional service personnel reductions. The increase in other cost of sales was approximately in proportion to the increase on other revenues.

### ***Gross Profit***

	Three Months Ended			Nine Months Ended			
	September 30, 2014	2013	Increase (Decrease)	September 30, 2014	2013	Increase (Decrease)	
Hardware	\$1.6	\$2.2	(26.4 %)	\$5.7	\$5.4	4.5 %	
Professional services	1.5	1.4	8.4 %	4.5	4.1	11.3 %	
Software	(0.1 )	(0.2 )	(19.0 %)	(0.1 )	0.1	(187.2 %)	
Other	0.1	0.1	(22.7 %)	0.2	0.3	(6.2 %)	
	\$3.0	\$3.5	(12.8 %)	\$10.4	\$9.9	5.3 %	
As a percentage of sales	21.4%	19.7%	1.7 %	21.9%	21.4%	0.5 %	

Our gross profit was \$3.0 million for the three months ended September 30, 2014, compared to \$3.5 million for the same period ended September 30, 2013, a decrease of \$0.5 million or 12.6%. Our gross margin increased by 1,656 basis points to 21.4% in 2014, from 19.7% in the comparable period of 2013.

Our gross profit was \$10.4 million for the nine months ended September 30, 2014, compared to \$9.9 million for the same period ended September 30, 2013, an increase of \$0.5 million or 5.3%. Our gross margin increased by 524 basis points to 21.9% in 2014, from 21.4% in the comparable period of 2013.

We believe that we would have realized even better gross margins had it not been for the very competitive environment for hardware sales across our entire customer base, hardware sales carry a lower gross margin. We realized higher gross margins on our professional services, due to our increased emphasis on cost control and reductions in professional services personnel.

*Selling, General and Administrative Expenses*

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2014	2013	Increase (Decrease)	2014	2013	Increase (Decrease)
Selling, general and administrative expenses	\$3.0	\$4.5	(32.5 %)	\$10.2	\$14.0	(27.3 %)
As a percentage of sales	21.4%	25.5%	(4.1 %)	21.5%	30.3%	(8.9 %)
Adjustment to earn-out obligations	\$-	(0.8 )		\$-	(0.8 )	

Selling, general and administrative expenses were \$3.0 million for the three months ended September 30, 2014, compared to \$4.5 million for the same period in the prior year. This represents a decrease of \$1.5 million, or 32.5%.

Selling, general and administrative expenses were \$10.2 million for the nine months ended September 30, 2014, compared to \$14.0 million for the same period in the prior year. This represents a decrease of \$3.8 million, or 27.3%.

The decrease for the three and nine months ended September 30, 2014 compared to the similar periods in the prior year were due to significant efforts to streamline our business model. These efforts included, consolidation of our East Coast depot facility in to our larger California depot facility, reduction of outsourced consulting expertise where unnecessary and the replacement of certain service providers with lower cost providers. We have also consolidated administrative personnel and reduced total staffing levels by 29% from April 2013 through February 2014, constituting annual savings of \$3 million. These cost reduction measures have reduced the expense structure of our business significantly. We are focused on continuing to improve processes and reduce costs.

### *Depreciation and Amortization*

We account for a portion of our depreciation and amortization expense as cost of sales, and the remainder as selling, general and administrative expense. Depreciation and amortization for the three and nine month periods ended September 30, 2014 and 2013 is summarized below:

	Three Months Ended			Increase	Nine Months Ended			Increase
	September 30, 2014	September 30, 2013	(Decrease)		September 30, 2014	September 30, 2013	(Decrease)	
Depreciation and amortization								
In cost of sales	\$0.2	\$0.2	5.5	%	\$0.6	\$0.6	4.7	%
In operating expenses	0.2	0.3	(23.9	%)	0.7	0.9	(21.3	%)
Total depreciation and amortization	\$0.4	\$0.5	(12.0	%)	\$1.3	\$1.5	(10.6	%)
As a percentage of sales	3.1%	2.8%	0.3	%	2.8%	3.2%	(0.4	%)

The reduction in depreciation and amortization accounted for as selling, general and administrative expense was principally as a result of a decrease in the amortization of intangible assets.

***Interest Expense***

Interest expense arises from our outstanding balances under our lines of credit and from our outstanding subordinated debt.

Interest expense was \$229,000 for the three months ended September 30, 2014, compared to \$241,000 for the same period in the prior year. The \$12,000 decrease in interest expense reflected a decrease in our average outstanding general debt obligations during the three months ended September 30, 2014 compared to the similar period in the prior year.

Interest expense was \$658,000 for the nine months ended September 30, 2014, compared to \$723,000 for the same period in the prior year. The \$65,000 decrease in interest expense reflected a decrease in our average outstanding general debt obligations during the nine months ended September 30, 2014 compared to the similar period in the prior year.

**Results of Operations for the Year Ended December 31, 2013**

For comparison purposes, all dollar amounts have been rounded to nearest million while all percentages are actual.

	Year ended					
	December 31,		Increase/(Decrease)			
	2013	2012				
Total revenue	\$60.7	\$71.5	\$ (10.8 )	-15.1	%	
Gross profit	\$12.7	\$15.0	\$ (2.3 )	-15.4	%	
Total operating expenses	\$17.5	\$18.2	\$ (0.6 )	-3.5	%	
Loss from operations	\$(4.8)	\$(3.1)	\$ 1.7	54.1	%	
Loss before provision for income taxes	\$(5.4)	\$(4.0)	\$ 1.4	35.7	%	
Net loss attributable to common shareholders	\$(7.8)	\$(4.8)	\$ 3.0	61.9	%	

### ***Total Revenue***

Revenues for the years ended December 31, 2013 and 2012 is summarized below:

	Year ended		Increase	
	December 31,			
	2013	2012	(Decrease)	
Hardware	\$38.0	\$48.5	-21.8	%
Professional services	16.7	16.4	1.7	%
Software	4.4	4.5	-1.8	%
Other	1.6	2.1	-21.6	%
	\$60.7	\$71.5	-15.1	%

Revenues were \$60.7 million for the year ended December 31, 2013, compared to \$71.5 million for the same period ended December 31, 2012, a decrease of \$10.8 million or 15.1%. Revenues for Apex and Illume Mobile for the years ended 2013 and December 31, 2012 were \$2.5 million, \$1.0 million, and \$1.1 million, \$0.4 million, respectively. Excluding the impact of Apex and Illume Mobile acquisitions in 2012, revenues decreased by \$12.8 million, or 18.2% over the prior year with the largest decrease occurring in hardware sales where sales decreased by 21.8%.

The improved economic conditions in the U.S. which had begun in the first half of 2010, and continued improvement throughout 2011 and 2012 have had a positive effect on our sales. The economic environment in 2012 stabilized whereupon we benefitted from renewed interest and more importantly, fundamental need to implement new cost saving technology. As a result, the 20.4% increase in hardware revenues for the year ended December 31, 2012 compared to the same period in 2011 was due to the increase in system upgrades of mobile computing at the retail level for some of our largest customers. With respect to the substantial decrease of hardware sales of 21.8% in 2013 as compared to 2012, major retail chains are coming off 2012 where the improved economic environment in some

areas had driven refresh cycles by customers. Additionally, some customers have delayed purchases that we would have expected to be made in 2013 as they are evaluating various options for competing operating platforms. The increase in professional services for the year ended December 31, 2013 compared to the same period in 2012 of 1.7% relates to custom mobile application development, including deployment and staging services to support our customer's technology upgrades. Our software revenues for the year ended December 31, 2013 compared to the same period in 2012 was relatively stable. The decrease in other revenues relates to a reallocation of corporate resources away from the lower volume for consumables and towards the professional services business.

**Cost of Sales**

Cost of sales for the years ended December 31, 2013 and 2012 is summarized below:

	Year ended		Increase	
	December			
	31,			
	2013	2012	(Decrease)	
Hardware	\$31.0	\$40.2	-22.8	%
Professional services	11.3	11.3	0.4	%
Software	4.5	3.7	20.5	%
Other	1.2	1.3	-11.2	%
	\$48.0	\$56.5	-15.0	%

The types of expenses included in the cost of sales line are hardware costs, third party licenses, costs associated with third party professional services, salaries and benefits for project managers and software engineers, freight, consumables and accessories.

Cost of sales were \$48.0 million for the year ended December 31, 2013, compared to \$56.5 million for the same period ended December 31, 2012, a decrease of \$8.5 million or 15.0%. The decrease in cost of sales for hardware of 22.8% for the year ended December 31, 2013 compared to the same period in 2012 was slightly higher than the hardware revenue decrease due the change in product mix of hardware items. The cost of sales for professional services from the year ended December 31, 2013 was comparable to the year ended December 31, 2012 and increased by only 0.4%. The increase in cost of sales for professional services of 0.4% was 1.3% lower than the revenue decline of 1.7% and was due to increased professional service personnel costs associated with the carry-over of revenue growth from the prior year. The increase in cost of sales for software of 20.5% for the year ended December 31, 2013 compared to the same period in 2012 was related to amortization of intangible assets associated with the Apex and Illume Mobile acquisitions. The decrease in other cost of sales of 11.2% for the year ended December 31, 2013 relates to the decrease in the other revenues.

**Gross Profit**

	Year ended		Increase	
	December 31,			
	2013		2012	
			(Decrease)	

Edgar Filing: DecisionPoint Systems, Inc. - Form POS AM

Hardware	\$7.0	\$8.3	\$(1.3)	-15.7	%
Professional services	5.4	5.1	0.3	5.9	%
Software	(0.1)	0.8	(0.9)	-112.5	%
Other	0.4	0.8	(0.4)	-50.2	%
	\$12.7	\$15.0	\$(2.3)	-15.3	%

Our gross profit was \$12.7 million for the year ended December 31, 2013, compared to \$15.0 million for the same period ended December 31, 2012, a decrease of \$2.3 million or 15.3%. Our gross margin percentage of 21.0% in 2013 is comparable to the same period of 2012. The decrease in gross profit of \$2.3 million was driven by the decrease in overall revenue of \$10.8 million. In addition, the decrease in gross profit was partly due to the increase of \$300,000 in amortization of intangible assets associated with Apex and Illume Mobile acquisitions as 2013 reflected a full year of amortization for such intangibles. Additionally, we have continued to implement increased cost control for the products and services which we resell, our professional service costs were positively impacted by our better utilization associated with greater recognized revenue from these services in the current twelve months and therefore, we realized higher margins on those services. The gross profit for professional services increased by \$0.3 million, or 5.9% over the prior comparable period. The gross profit margin for software decreased by \$0.9 million, to (\$0.1) million for the year ended December 31, 2013. The gross profit for hardware decreased by \$1.3 million, or 15.7% over the prior year comparable period and was driven by a mix change.

*Selling, General and Administrative Expenses*

	Year ended		Increase/(Decrease)	
	December 31,			
	2013	2012		
Selling, general and administrative expenses	\$ 18.3	\$ 18.2	\$ 0.1	0.8 %
Adjustment to earn-out obligations	\$(0.8 )	\$-	(0.8 )	
Total operating expenses	\$ 17.5	\$ 18.2	(0.70 )	-3.7 %
As a percentage of sales	28.9%	25.4%		

Selling, general and administrative expenses, excluding the adjustment to earn-out obligations, were \$18.3 million for the year ended December 31, 2013, compared to \$18.2 million for the same period in the prior year. This represents an increase of \$0.1 million, or 0.8%. The change was due to the increase in sales salary related expenses of \$1.5 million over the prior year comparable period, of which part relates to the expansion of the sales force in the U.S. tasked with bringing the APEXWare™ product to the U.S. market. Warehouse related expenses increased by \$0.3 million over the prior year comparable period and was primarily associated with Apex and Illume Mobile acquisitions in 2013 reflected a full year of expenses. Offset to the increased selling, general and administrative expenses noted above were expense reduction measures to include, but not limited to, consolidation of information technology environments, consolidation of our east coast depot facility in to our larger California facility, reduction of outsourced consulting expertise where unnecessary and replacing certain service providers with lower cost providers. As a result of some of these measures, we recognized reductions in professional fees of \$0.9 million and legal expenses of \$0.4 million. We also recognized reductions in other miscellaneous expenses of \$0.4 million, of which approximately \$0.2 million related to personnel reductions. We consolidated administrative personnel and reduced staffing levels by 29% from April 2013 through February 2014, constituting annual future savings of \$3 million. The result of these activities has reduced the expense structure of the consolidated business significantly. The Company is focused on improving processes and continuing cost reduction efforts.

The adjustment to earn-out obligations were \$0.8 million for the year ended December 31, 2013. The fair value of the Apex earn-out was calculated to be approximately CDN\$1,076,000 (US\$1,033,000 at the closing date). At September 30, 2013, the calculated earn-out payment due under the Apex purchase agreement was CDN\$341,000 (\$US\$331,000). The adjustment of CDN\$735,000 (US\$713,000) was recorded as a separate component of operating expenses in the consolidated statement of operations and comprehensive loss as of December 31, 2013. The fair value of the Illume Mobile earn-out payment was calculated to be approximately \$107,000 at the closing date. At September 30, 2013, the calculated earn-out payment due under the Illume purchase agreement was zero. The adjustment of \$107,000 was recorded as a separate component of operating expenses in the consolidated statement of operations and comprehensive loss as of December 31, 2013.

Year ended  
December

	31, 2013	2012	Increase/(Decrease)		
Depreciation and amortization					
In cost of sales	\$0.8	\$0.5	\$ 0.3	59.9	%
In operating expenses	1.2	1.0	0.2	11.4	%
Total depreciation and amortization	\$2.0	\$1.6	\$ 0.4	27.3	%
As a percentage of sales	3.3%	2.2%			

Finance and administration expenses saw an increase in amortization of intangible assets as a result of the Apex and Illume acquisitions in 2012. Amortization expense of intangible assets for the years ended December 2013 and 2012, totaled \$1.9 million and \$1.5 million, respectively.

### ***Interest Expense***

Interest expense, which is related to our line of credit, subordinated debt and our obligations with related parties, was \$959,000 for the year ended December 31, 2013, compared to \$998,000 for the same period ended December 31, 2012. The \$39,000, or 3.9% decrease in interest expense was the result of decreased general debt obligations outstanding in 2013 compared to the prior year. In the second half of 2013, interest expense decreased by \$173,000, or 26.6% over the comparable period in the prior year.

### *Other (Income) Expense*

Other (income) expense for the years ended December 31, 2013 and 2012, totaled \$(38,000) and \$(116,000), respectively. During 2013, we recognized a \$296,000 favorable adjustment to the fair value of our warrant liabilities.

### **Liquidity and Capital Resources**

#### **Liquidity and Going Concern Matters**

Our consolidated financial statements were prepared on a going concern basis in accordance with GAAP. The going concern basis of presentation assumes that we will continue in operation for the next twelve months and will be able to realize our assets and discharge our liabilities and commitments in the normal course of business and do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from our inability to continue as a going concern. Our history of losses, working capital deficit, capital deficit, minimal liquidity and other factors raises substantial doubt about our ability to continue as a going concern. In order for us to continue operations beyond the next twelve months and be able to discharge our liabilities and commitments in the normal course of business, we must establish profitable operations through increased sales, successfully implement cost cutting measures, avoid further unforeseen expenses, potentially raise additional equity or debt capital, and successfully refinance our current debt obligations when they come due in February of 2015. There can be no assurance that we will be able achieve sustainable profitable operations or obtain additional funds when needed or that such funds, if available, will be obtainable on terms satisfactory to us.

If the Company continues to incur operating losses and/or does not raise sufficient additional capital, material adverse events may occur including, but not limited to, 1) a reduction in the nature and scope of the Company's operations, 2) the Company's inability to fully implement its current business plan and/or 3) continued defaults under the various loan agreements. A covenant default would give the bank the right to demand immediate payment of all outstanding amounts which the Company would not be able to repay out of normal operations. There are no assurances that the Company will successfully implement its plans with respect to these liquidity matters. The consolidated financial statements do not reflect any adjustment that may be required resulting from the adverse outcome relating to this uncertainty.

#### **Cash and Capital Resources**

Although we have historically experienced losses, a material part of those losses have been from non-cash transactions. In connection with these losses, we have accumulated substantial net operating loss carry-forwards to set off against future taxable income. In order to maintain normal operations for the foreseeable future, generate taxable income and make use of our net operating loss carry-forwards, we must continue to have access to our lines of credit, establish sustained positive operating results and access additional equity or debt capital. There can be no assurance that we will be able to achieve sustainable positive operating results or cost reductions or that we can obtain additional funds when needed to continue our normal operations.

Funds generated by operating activities and our credit facilities continue to be our most significant sources of liquidity. We believe that our strategic shift to higher margin field mobility solutions with additional APEXWare software and professional service revenues will improve our results as general economic conditions continue to improve.

In the quarter ended September 30, 2014, we experienced a decrease in revenue of \$3.4 million, or 19.5% compared to the quarter ended September 30, 2013, and a \$1.3 million, or 2.8% increase in revenue for the nine months ended September 30, 2014 over the comparable nine months of 2013. In the quarter ended September 30, 2014, we experienced net loss of \$563,000 compared to the net loss of \$167,000 for the quarter ended September 30, 2013, and a \$696,000 net loss for the nine months ended September 30, 2014 compared to a net loss of \$3.4 million for the comparable period in 2013. At September 30, 2014 and December 31, 2013, we had a substantial working capital deficit totaling \$9.9 million. Although a portion of this deficit is associated with deferred costs, unearned revenues and term debt that has been classified current due to expected future covenant violations (see further discussion at Note 8 – “*Term Debt*” of the Notes to the Unaudited Condensed Consolidated Financial Statements), our liabilities that we expect will be satisfied in the foreseeable future in cash substantially exceed the operating assets that are expected to be satisfied in cash. As a result of our historical operations, the availability under our credit line has contracted and our liquidity has been constrained.

To address liquidity constraints, we have reduced non-essential expenses. Such expense reductions have included, but have not been limited to, the consolidation of information technology environments, the consolidation of our East Coast depot facility in to our larger California depot facility, the reduction of outsourced consulting expertise where unnecessary and the replacement of certain service providers with lower cost providers. We have also consolidated administrative personnel and reduced total staffing levels by 29% from April 2013 through February 2014, constituting annual savings of approximately \$3 million. These cost reduction measures have reduced the expense structure of our business significantly. We are focused on continuing to improve processes and reduce costs. Currently, we have no plans to seek additional outside funding through the sale of our securities unless deemed necessary. Should additional outside financing be needed, there is no assurance that such amounts will be available on terms acceptable to us, or at all. If we raise additional funds by selling additional shares of our capital stock, or securities convertible into shares of our capital stock, the ownership interests of our existing common stockholders will be diluted.

During 2012, 2013 and the first nine months of 2014, all principal and interest payments on our term debt were made within payment terms.

As a matter of course, we do not maintain significant cash balances on hand because we have availability under our lines of credit. Typically, we use any excess cash to repay the then outstanding line of credit balance. As long as we continue to generate revenues and meet our financial covenants, we are permitted to draw down on our SVB line of credit to fund our normal working capital needs. Our line of credit has a borrowing capacity of up to \$10 million and is due February 2015. As of September 30, 2014 and December 31, 2013, the outstanding balance on our SVB line of credit was approximately \$3.8 and \$3.9 million, respectively, and the interest rate for September 30, 2014 and December 31, 2013 was 6.5% and 7.0%, respectively. As of September 30, 2014, there was \$0.7 million available under the SVB line of credit. The line of credit has a certain financial covenant and other non-financial covenants. The minimum Tangible Net Worth requirement of \$8.7 million deficit is to be reduced by one half of any funds raised through sales of common stock (as only 50% of additional capital raises are given credit in the Tangible Net Worth calculation). As of September 30, 2014 and December 31, 2013, we were in compliance with the Tangible Net Worth financial covenant and had available a \$0.6 million and \$0.8 million cushion over the requirement, respectively. We believe that at the time of this filing we are in compliance with the terms and provisions of its SVB lending agreement. Should our results fail to improve further or once more deteriorate in a manner consistent with its recent historical financial performance, we will violate the Tangible Net Worth financial covenant without additional net capital outside funding in amounts that are approximately twice the amount of the losses incurred.

We have \$0.6 million of term debt with the Royal Bank of Canada (the "RBC Term Loan"), \$1.5 million of term debt with the BDC (the "BDC Term Loan") and \$0.5 million of term debt with SVB (the "SVB Term Loan"). For more information regarding these Term Loans, please see our Annual Report on Form 10-K filed with the SEC on March, 31, 2014. All three Term Loans have financial covenants. We were in compliance with the covenants of these Term Loans except for the RBC Term Loan, for which we were not in compliance at September 30, 2014 and December 31, 2013. Although the Company believes it is not likely that RBC will exercise their rights up to, and including, acceleration of the outstanding debt, there can be no assurance that RBC will not exercise their rights pursuant to the provisions of the debt obligation. Accordingly, the Company has classified the term debt obligation as current at

September 30, 2014 and December 31, 2013.

As part of the Apex Purchase Agreement, from the Apex Closing Date up until the expiry of the bonus period, under that agreement we are obligated to escrow 25% of any Equity Capital raised in excess of \$500,000. The funds in the escrow are to be used to pay the 2013 EBITDA Basic Earn-Out, the 2013 EBITDA Additional Earn-Out and the additional bonus consideration. In December 2012, the Company raised \$7,042,000 as part of its Series D preferred stock offering. In August 2013, the Company raised \$1,756,000 issuing common stock. In November 2013, the Company raised \$4,090,000 as part of its Series E preferred stock offering. None of these funds have been placed into escrow pending agreement between the Company and the sellers of Apex regarding the financial institution that will escrow the funds, the amount of funds that are to be placed into escrow and the escrow agreement itself.

In the last five complete years of operations from 2009 through 2013, we have not experienced any significant effects of inflation on our product and service pricing, revenues or our income (loss) from continuing operations.

As referred to above under the heading “Non-GAAP Financial Measures,” we monitor our ‘cash’ working capital position after removing the accrual effect of current deferred assets and liabilities. We refer to this non-GAAP financial measure as our “Adjusted Working Capital”. We believe this non-GAAP financial measure provides us, and investors, with a better understanding of the operating results and financial condition of our company.

Adjusted Working Capital at September 30, 2014 and December 31, 2013 are computed as follows (in thousands):

	September 30, 2014	December 31, 2013
Current assets	\$ 13,150	\$ 16,912
Current liabilities	23,107	26,787
Working capital – U.S. GAAP	(9,957 )	(9,875 )
Deferred costs	(3,667 )	(3,809 )
Deferred revenue	5,824	7,481
Adjusted working capital – Non-GAAP measure	\$ (7,800 )	\$ (6,203 )

### **2014 Financing**

We have not engaged in any securities issuances or other material capital raising in the first nine months of 2014.

### **2013 Financing and Common Stock Private Placement**

#### *Silicon Valley Bank Financing*

On February 27, 2013, we entered into an Amendment (the “Amendment”) to Loan and Security Agreement, which amended the terms of the Loan and Security Agreement dated as of December 15, 2006 (as amended, the “Loan Agreement”). Pursuant to the Amendment, SVB made a new term loan to us on February 27, 2013, of \$1,000,000 (“Term Loan II”). Repayment of Term Loan II, together with accrued interest thereon, is due in 36 monthly installments

commencing on the first day of the month following the month in which the funding date of Term Loan II occurred.

Pursuant to the Amendment, the Loan Agreement was amended to provide that the revolving credit line thereunder will accrue interest at an annual rate equal to 3.75 percentage points above the Prime Rate, which may be further reduced to 3.25 percentage points above the Prime Rate after we achieve two consecutive fiscal quarters (beginning with any fiscal quarter ending on or after March 31, 2013) of profitability. In addition, the maturity date of the revolving credit line under the Loan Agreement was extended to February 28, 2015, the principal amount outstanding under the Term Loan under the Loan Agreement will accrue interest at a fixed annual rate equal to 9.0%, the principal amount outstanding under the Term Loan II will accrue interest at a fixed annual rate equal to 7.5%, and we agreed to pay an anniversary fee of \$100,000 on February 28, 2014.

The Amended SVB Loan Agreement includes various customary covenants, limitations and events of default. Financial covenants, among others, include liquidity and fixed charge coverage ratios, minimum tangible net worth requirements and limitations on indebtedness. As of December 31, 2012, we were in compliance with all of its financial covenants with SVB. As of May 31, 2013 and June 30, 2013, we were not in compliance with the Tangible Net Worth covenant as defined in the Amended SVB Loan Agreement. On August 16, 2013, we signed an agreement (“Forbearance Agreement”) where SVB agreed to temporarily forbear from exercising their rights and remedies under the facility until August 28, 2013 and agreed to waive the existing covenant violations if a gross capital raise of \$1.5 million is completed by such date. We completed the capital raise and were able to achieve compliance with the forbearance agreement prior to August 28, 2013. Except for any capital raises through August 28, 2013, the minimum Tangible Net Worth requirement of a \$(9.7) million deficit will be further reduced by one half of any funds raised through sales of common stock (as only 50% of additional capital raises are given credit in the Tangible Net Worth calculation). In November 2013, we entered into a definitive subscription agreement with accredited investors for the sale of Series E Preferred Stock, raising \$4.1 million in gross proceeds (exclusive of \$875,000 in costs). In November 2013, the SVB Loan Agreement was amended whereby the minimum Tangible Net Worth requirement of a \$(9.7) million deficit was reduced by 25% of funds raised in the sale of Series E Preferred stock to a \$(8.7) million deficit. As of December 31, 2013, we were in compliance with the Tangible Net Worth financial covenant and had available a \$0.8 million cushion over the requirement. We currently believe that at the time of this filing we are compliant with the terms and provisions of our SVB lending agreement and expect to continue to meet the requirements of our SVB financial covenants over the short and long term. Should we continue to incur losses in a manner consistent with our recent historical financial performance, we will violate this covenant without additional net capital raises in amounts that are approximately twice the amount of the losses incurred.

*Common Stock Private Placement*

On August 15, 2013, we entered into a Securities Purchase Agreement (the "Purchase Agreement") with multiple accredited investors relating to the issuance and sale of Common Stock in a private offering. On August 15, 2013, the initial closing date of the Purchase Agreement (the "Initial Closing"), we sold (i) an aggregate of 2,594,000 shares of our Common Stock for \$0.60 per share and (ii) Common Stock purchase warrants (the "Investor Warrants") for the purchase of an aggregate of 1,297,000 shares for aggregate gross proceeds of \$1,556,400. The Common Stock Purchase Warrants have a five-year term, an exercise price of \$1.00 and contain certain provisions for anti-dilution and price adjustments in the event of a future offering.

On August 21, 2013, the final closing date (the "Final Closing") of the Purchase Agreement, we sold (i) an aggregate of 333,333 shares of our Common Stock for \$0.60 per share and (ii) 166,667 Investor Warrants for aggregate gross proceeds of \$200,000.

For a period commencing on the Initial Closing and terminating on a date which is 24 months from the Initial Closing, in the event we issue or grant any shares of Common Stock or securities convertible, exchangeable or exercisable for shares of Common Stock pursuant to which shares of Common Stock may be acquired at a price less than \$0.60 per share, then we shall promptly issue additional shares of Common Stock to the investors under the Purchase Agreement in an amount sufficient that the subscription price paid, when divided by the total number of shares issued (shares purchased under the Purchase Agreement plus the additional shares issued under this provision), will result in an actual price paid by the investor per share of Common Stock equal to such lower price.

If we at any time while the Investor Warrants are outstanding, shall sell or grant an option to purchase, or sell or grant any right to reprice, or otherwise dispose of or issue any common stock or securities convertible, exchangeable or exercisable for shares of common stock, at an effective price per share less than the exercise price of the Investor Warrants then in effect, the exercise price of the Investor Warrants will be reduced to equal to such lower price.

As a result of the sale of Series E Preferred Shares, the exercise price of the August 2013 Investor Warrants was reduced to \$0.50 per share on November 12, 2013.

Pursuant to the August 2013 Purchase Agreement, we agreed to, within 30 days of August 21, 2013, file a registration statement (the "Common Stock Registration Statement") with the Securities and Exchange Commission covering the re-sale of the common shares and the shares of common stock underlying the August 2013 Investor Warrants. We also agreed to use our best efforts to have the Common Stock Registration Statement become effective as soon as possible after filing (and in any event within 120 days of the filing of such Common Stock Registration Statement. If the Common Stock Registration Statement is not declared effective within the requisite period of time, a partial

liquidated damage equal to 2% of the purchase price paid by each investor shall be payable on each monthly anniversary until it becomes effective. In no event shall the partial liquidated damage exceed 10% of the purchase price paid by each investor. On October 4, 2013, the Common Stock Registration Statement was declared effective by the SEC.

We paid the placement agent \$175,600 in commissions (equal to 10% of the gross proceeds), and issued to the placement agent five-year warrants (the "August 2013 Placement Agent Warrants") to purchase 292,733 shares of our common stock (equal to 10% of the number of shares of common stock sold under the August 2013 Purchase Agreement). The August 2013 Placement Agent Warrants have a five-year term, an initial exercise price of \$0.60 and contain provisions for anti-dilution and price adjustments in the event of a future offering.

If we at any time while the August 2013 Placement Agent Warrants are outstanding, shall sell or grant an option to purchase, or sell or grant any right to reprice, or otherwise dispose of or issue any common stock or securities convertible, exchangeable or exercisable for shares of common stock, at an effective price per share less than the exercise price of the August 2013 Placement Agent Warrants, the exercise price of the August 2013 Placement Agent Warrants then in effect will be reduced to equal to such lower price. As a result of the sale of Series E Preferred Shares described below, the conversion price of the August 2013 Placement Agent Warrants was reduced to \$0.50 per share on November 12, 2013.

We recorded the August 2013 Investor Warrants and August 2013 Placement Agent Warrants as a liability (see further disclosure at Note 4 – “*Warrant Liability*” in the accompanying Notes to the Consolidated Financial Statements). Accordingly, the net proceeds raised (\$1.7 million in gross offering proceeds, net of \$0.2 million in cost) were allocated to the fair value of the warrant liability of \$1.1 million and the remainder was recorded as equity (\$0.4 million).

As a result of the August 2013 Private Placement closed on August 15, 2013 and August 21, 2013, the Conversion Price of the Series D Preferred Stock was reduced to \$0.90. As a result of the Series E Purchase Agreement closed on November 12, 2013 and November 22, 2013, the Conversion Price of the Series D Preferred Stock was reduced to \$0.71. As a result of the reduction in conversion price, the Company recorded a contingent beneficial conversion feature dividend of \$1.3 million.

#### *Preferred Series E Private Placement*

On November 12, 2013, we entered into the Series E Purchase Agreement with the Series E Investors, pursuant to which the Company sold an aggregate of 383,500 shares of Series E Preferred Stock for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$3,835,000.

We retained Taglich Brothers, Inc. as the placement agent for the Series E First Closing. We paid the Series E Placement Agent \$306,800 in commissions (equal to 8% of the gross proceeds), and issued to the Series E Placement Agent Warrants to purchase 767,000 shares of common stock (equal to 10% of the number of shares of common stock underlying the Series E Preferred Shares sold under the Series E Purchase Agreement) at an exercise price of \$0.55 per share, in connection with the Series E First Closing. In addition, we will pay Sigma Capital Advisors \$115,050 (equal to 3% of the gross proceeds from the Series E First Closing) as a finder's fee.

On November 22, 2013, we sold an additional 25,500 shares of Series E Preferred Stock to accredited investors for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$255,000 pursuant to the Series E Purchase Agreement for an aggregate of 409,000 shares of Series E Preferred Stock sold. The Series E Placement Agent acted

as the placement agent for the Series E Second Closing as well. We paid the Series E Placement Agent \$20,400 in commissions (equal to 8% of the gross proceeds), and issued to the Series E Placement Agent and its designees Placement Agent Warrants to purchase 51,000 shares of common stock (equal to 10% of the number of shares of common stock underlying the Series E Preferred Shares sold under the Series E Purchase Agreement) at an exercise price of \$0.55 per share, in connection with the Series E Second Closing. In addition, the Company will pay Sigma Capital Advisors \$7,650 (equal to 3% of the gross proceeds from the Series E Second Closing) as a finder's fee.

Our proceeds from the Series E Closings, before deducting placement agent fees, finder's fees and other expenses, were approximately \$4.1 million. Approximately \$0.6 million was used to pay fees and expenses of this offering, and \$3.5 million are funds available for general corporate purposes.

Pursuant to the Series E Purchase Agreement, we agreed to, within 60 days of the final closing under the Purchase Agreement, (a) file a registration statement (the "Series E Registration Statement") with the SEC covering the re-sale of the Series E Preferred Shares, the shares of common stock underlying the Series E Preferred Shares, the shares of Series E Preferred Stock issuable as dividends on the Series E Preferred Shares ("Series E PIK Shares"), the shares of common stock underlying the Series E PIK Shares, and the shares of common stock underlying the Series E Placement Agent Warrants, (b) file a registration statement under the Securities Exchange Act of 1934, as amended, with the SEC registering the class of Series E Preferred Stock, and (c) use our best efforts, including seeking and cooperating with one or more market makers, to cause the quotation of the Series E Preferred Stock on the OTC Bulletin Board and the OTCQB tier of the OTC Markets Group. We also agreed to use our best efforts to have the Series E Registration Statement become effective as soon as possible after filing (and in any event within 90 days of the filing of such Series E Registration Statement), and to keep such Series E Registration Statement effective for a minimum of three years. The initial registration statement was filed on January 10, 2014. If the registration statement is not declared effective by January 21, 2014, a partial liquidated damage equal to 0.1% of the purchase price paid by each investor shall be payable on each monthly anniversary until the registration statement becomes effective. In no event shall the partial liquidated damage exceed 0.6% of the purchase price paid by each investor. On January 22, 2014, the registration statement was declared effective by the U.S. Securities and Exchange Commission.

In connection with the Series E First Closing, on November 12, 2013, we filed the Series E Certificate of Designation with the Secretary of State of Delaware. Pursuant to the Series E Certificate of Designation, we designated 2,000,000 shares of the Company's preferred stock as Series E Preferred Stock. The Series E Preferred Stock has a Stated Value of \$10.00 per share, does not have voting rights, and is convertible, at the option of the holder, into such number of shares of common stock equal to the number of shares of Series E Preferred Stock to be converted, multiplied by the Stated Value, divided by the conversion price in effect at the time of the conversion. The initial conversion price is \$0.50, subject to adjustment in the event of stock splits, stock dividends and similar transactions, and in the event of subsequent equity sales at a lower price per share, subject to certain exceptions. The Series E Preferred Stock entitles the holder to cumulative dividends (subject to the prior dividend rights of the Company's Series D Preferred Stock), payable quarterly, at an annual rate of (i) 10% of the Stated Value during the three year period commencing on the date of issue, and (ii) 14% of the Stated Value commencing three years after the date of issue. We may, at our option (subject to certain conditions), pay dividends in shares of Series E Preferred Stock, in which event the applicable dividend rate will be 14% and the number of shares issuable as a dividend will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective conversion price or (y) the average volume weighted average price of our common stock for the five prior consecutive trading days.

Pursuant to the Series E Certificate of Designation, upon any liquidation, dissolution or winding-up of our Company, holders of Series E Preferred Stock will be entitled to receive (following payment in full of amounts owed to in respect of the Company's Series D Preferred Stock), for each share of Series E Preferred Stock, an amount equal to the Stated Value of \$10.00 per share plus any accrued but unpaid dividends thereon before any distribution or payment may be made to the holders of any common stock, Series A Preferred Stock, Series B Preferred Stock, or subsequently issued preferred stock.

Pursuant to the Series E Certificate of Designation, commencing on the trading day on which the closing price of the common stock is greater than \$1.35 for thirty consecutive trading days with a minimum average daily trading volume

of at least 10,000 shares for such period, and at any time thereafter, we, in our sole discretion, may effect the conversion of all of the outstanding shares of Series E Preferred Stock to common stock (subject to the condition that, all of the shares issuable upon such conversion may be re-sold without limitation under an effective registration statement or pursuant to Rule 144 under the Securities Act.

In connection with the Series E First Closing, on November 12, 2013, we filed Amendment No. 2 to our Certificate of Designation of Series A Preferred Stock, and Amendment No. 2 to our Certificate of Designation of Series B Preferred Stock. Pursuant to the Series A Amendment and the Series B Amendment, the Series A Preferred Stock and the Series B Preferred Stock will be subordinate to the Series D and E Preferred Stock with respect to any distributions upon any liquidation, dissolution or winding-up of our Company, respectively.

In connection with the Series E First Closing, on November 12, 2013, we filed a Certificate of Elimination of Series C Preferred Stock, pursuant to which, the 5,000,000 shares of our preferred stock that had been designated as Series C Preferred Stock were returned to the status of blank check preferred stock.

## **2012 Financing and Preferred Series D Private Placement**

### *Royal Bank of Canada and BDC Capital, Inc. Financing*

On June 4, 2012, Apex entered into the RBC Credit Agreement with Royal Bank of Canada (“RBC”), pursuant to which RBC made available certain credit facilities in the aggregate amount of up to CDN\$2,750,000 (US\$2,641,000 at the Closing Date), including a revolving demand facility with an authorized limit of CDN\$200,000 (US\$192,000 at the Closing Date). The RBC Term Loan accrues interest at RBP plus 4% (7% at December 31, 2013). Principal and interest is payable over a three year period at a fixed principal amount of CDN\$69,444 a month beginning in July 2012 and continuing through June 2015. Apex paid approximately \$120,000 in financing costs, which has been recorded as deferred financing costs and is being amortized to interest expense over the term of the loan.

In addition, the RBC Term Loan calls for mandatory repayments based on 20% of Apex’s free cash flow as defined in the RBC Credit Agreement, before discretionary bonuses based on the annual year end audited financial statements of Apex, beginning with the fiscal year ended December 31, 2012, and payable within 30 days of the delivery of the annual audited financial statements, and continuing every six months through December 31, 2014. As of September 30, 2014, the Company estimates that the mandatory repayment based on 20% of Apex’s free cash flow will be \$0.

The RBC Term Loan has certain financial covenants and other non-financial covenants. As of June 30, 2013 and December 31, 2012, Apex was not in compliance with the Fixed Charge Coverage ratio covenant as defined in the RBC Credit Agreement. At June 30, 2013, Apex was not in compliance with the Maximum Funded Debt to EBITDA ratio covenant as defined in the RBC Credit Agreement. In March 2013, May 2013 and August 2013, we received waivers for noncompliance of these covenants at December 31, 2012, March 31, 2013 and June 30, 2013. On August 16, 2013 the RBC Credit Agreement was amended and certain financial covenants were modified. Pursuant to the amended credit agreement and commencing with the fiscal year ending December 31, 2013, we are required to maintain a fixed coverage ratio, calculated on a consolidated basis of not less than 1.15:1 with a step-up to 1.25:1 as of March 31, 2014, tested on a rolling four quarter basis thereafter and a ratio of funded debt to EBITDA, calculated on an annual consolidated basis of not greater than 3.0:1, tested on a rolling four quarter basis thereafter. As part of the revised financial covenants, covenant testing was waived by RBC for September 30, 2013. We are not in compliance with the reset covenants at March 31, 2014 or December 31, 2013. Although we believe it is improbable RBC will exercise their rights up to, and including, acceleration of the outstanding debt, there can be no assurance that RBC will not exercise their rights pursuant to the provisions of the debt obligation. Accordingly, we have classified the term debt obligation as current at December 31, 2013.

On June 4, 2012, Apex also entered into the BDC Loan Agreement with BDC, a wholly-owned subsidiary of Business Development Bank of Canada, pursuant to which BDC made available to Apex a term credit facility (“BDC Credit Facility”) in the aggregate amount of CDN \$1,700,000 (USD \$1,632,340 at the Closing Date). The BDC Term Loan initially accrued interest at the rate of 12% per annum, and matures on June 23, 2016, with an available one year

extension for a fee of 2%, payable at the time of extension. On April 29, 2013, the BDC Term Loan was amended to accrue interest at the rate of 12.5% per annum. In addition to the interest payable, consecutive quarterly payments of CDN\$20,000 as additional interest are due beginning on June 23, 2012, and subject to compliance with bank covenants, Apex will make a mandatory annual principal payment in the form of a cash flow sweep which will be equal to 50% of the Excess Available Funds (as defined by the BDC Loan Agreement) before discretionary bonuses based on the annual year end audited financial statements of Apex. The maximum annual cash flow sweep in any year will be CDN\$425,000. As of December 31, 2013, we estimate the cash sweep will be \$0. Such payments will be applied to reduce the outstanding principal payment due on the maturity date. In the event that Apex's annual audited financial statements are not received within 120 days of its fiscal year end, the full CDN\$425,000 becomes due and payable on the next payment date. Apex paid approximately \$70,000 in financing costs which \$35,000 has been recorded as deferred financing costs and \$35,000 recorded as a note discount in the accompanying consolidated balance sheet as of December 31, 2012, and is being amortized to interest expense over the term of the loan. As of December 31, 2013, there was \$22,000 in unamortized deferred financing costs and \$22,000 in unamortized note discount.

The BDC Loan Agreement contains certain financial and non-financial covenants which may materially impact our liquidity, including minimum working capital requirements, tangible net worth requirements and limitations on additional indebtedness. Under the BDC Loan Agreement, violation of this covenant is an Event of Default which grants BDC the right to demand immediate payment of outstanding balances. In March 2013, May 2013 and August 2013, we received waivers for non-compliance of these covenants at December 31, 2012, March 31, 2013 and June 30, 2013. On August 22, 2013, the BDC Term Loan was amended and certain financial covenants were modified. Pursuant to the amended loan agreement, the Company is required to maintain, for the duration of the investment, a term debt to equity ratio not exceeding 1.1:1 (measured annually); and an adjusted current ratio of 0.40:1 (measured annually) and revised yearly 120 days after each year end. We were in compliance with all of our BDC financial covenants as of December 31, 2013. Currently, we expect to continue to meet the requirements of our BDC financial covenants over the short and long term.

In connection with the BDC Loan Agreement, BDC executed a subordination agreement in favor of Silicon Valley Bank, pursuant to which BDC agreed to subordinate any security interest in assets of the Company granted in connection with the BDC Loan Agreement to Silicon Valley Bank's existing security interest in assets of the Company. The subordination agreement contains cross-default provisions which may materially impact our liquidity.

In the event either or both of the RBC Loan Agreement or the BDC Loan Agreement were deemed to be in default, RBC or BDC, as applicable, could, among other things (subject to the rights of SVB as the Company's senior lender), terminate the facilities, demand immediate repayment of any outstanding amounts, and foreclose on our assets. Any such action would require us to curtail or cease operations. The Company does not have alternative sources of financing.

#### *Preferred Series D Private Placement*

On December 20, 2012, we entered into and closed a securities purchase agreement (the "Series D Purchase Agreement") with accredited investors (the "Series D Investors"), pursuant to which we sold an aggregate of 633,600 shares of Series D Convertible Preferred Stock (the "Series D Preferred Shares") for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$6,336,000 (the "Series D First Closing").

We retained Taglich Brothers, Inc. (the "Series D Placement Agent") as the placement agent for the Series D First Closing. We paid the Series D Placement Agent \$506,880 in commissions (equal to 8% of the gross proceeds), and issued to the Placement Agent five-year warrants (the "Series D Placement Agent Warrants") to purchase 633,600 shares of our common stock (equal to 10% of the number of shares of common stock underlying the Series D Preferred Shares sold under the Purchase Agreement) at an initial exercise price of \$1.10 per share, in connection with the Series D First Closing. The Series D Investors included certain of our officers, directors and employees, who purchased an aggregate of 20,700 Series D Preferred Shares. We used \$4.7 million of the proceeds from the Series D Closing to redeem all of our outstanding shares of Series C Preferred Stock.

On December 31, 2012, we sold an additional 70,600 shares of Series D Preferred Stock for a purchase price of \$10.00 per share, for aggregate gross proceeds of \$706,000 (the "Series D Second Closing", and together with the Series D First Closing, the "Series D Closings") pursuant to the Series D Purchase Agreement for an aggregate of 704,200 shares of Series D Preferred Stock sold. The Series D Placement Agent acted as the placement agent for the Series D Second Closing as well. We paid the Series D Placement Agent \$56,480 in commissions (equal to 8% of the gross proceeds), and issued to the Series D Placement Agent Series D Placement Agent Warrants to purchase 70,600 shares of common stock (equal to 10% of the number of shares of common stock underlying the Series D Preferred Shares sold under the Series D Purchase Agreement) at an exercise price of \$1.10 per share, in connection with the Series D Second Closing for an aggregate of 704,200 such Series D Placement Agent Warrants. The Series D Investors included one of our officers who purchased an aggregate of 2,500 Series D Preferred Shares.

Our proceeds from the Series D Closings, before deducting placement agent fees and other expenses, were approximately \$7.0 million. We used \$4.7 million for redemption of all of our outstanding shares of Series C Preferred Stock. Approximately \$1.0 million was used to pay fees and expenses of the offering, and \$1.3 million are funds available for general corporate purposes. Pursuant to the Stock Purchase Agreement, we are required to place 25% of net offering proceeds, as defined, in an escrow account to satisfy our payment obligations of certain earn-out provisions. These funds have not been placed into escrow pending agreement between the Company and the sellers under the stock purchase agreement regarding the financial institution that will escrow the funds, the amount of funds that are to be placed in escrow and the escrow agreement itself.

In connection with the Series D First Closing, on December 20, 2012, we filed a Certificate of Designation of Series D Preferred Stock (the "Series D Certificate of Designation") with the Secretary of State of Delaware. Pursuant to the Series D Certificate of Designation, we designated 4,000,000 shares of our preferred stock as Series D Preferred Stock. The Series D Preferred Stock has a Stated Value of \$10.00 per share, votes on an as-converted basis with the common stock, and is convertible, at the option of the holder, into such number of shares of our common stock equal to the number of shares of Series D Preferred Stock to be converted, multiplied by the Stated Value, divided by the Conversion Price in effect at the time of the conversion. The initial Conversion Price is \$1.00, subject to adjustment in the event of stock splits, stock dividends and similar transactions, and in the event of subsequent equity sales at a lower price per share, subject to certain exceptions. As a result of the private placement closed on August 15, 2013 and August 21, 2013, the Conversion Price of the Series D Preferred Stock was reduced to \$0.90. The Series D Preferred Stock entitles the holder to cumulative dividends, payable quarterly, at an annual rate of (i) 8% of the Stated Value during the three year period commencing on the date of issue, and (ii) 12% of the Stated Value commencing three years after the date of issue. We may, at our option, pay dividends in PIK Shares, in which event the applicable dividend rate will be 12% and the number of such PIK Shares issuable will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective Conversion Price or (y) the average volume weighted average price of the Company's common stock for the five prior consecutive trading days.

Upon any liquidation, dissolution or winding-up of our Company, holders of Series D Preferred Stock will be entitled to receive, for each share of Series D Preferred Stock, an amount equal to the Stated Value of \$10.00 per share plus any accrued but unpaid dividends thereon before any distribution or payment may be made to the holders of any common stock, Series A Preferred Stock, Series B Preferred Stock, or subsequently issued preferred stock.

In addition, commencing on the trading day on which the closing price of the common stock is greater than \$2.00 for thirty consecutive trading days with a minimum average daily trading volume of at least 5,000 shares for such period, and at any time thereafter, we may, in our sole discretion, effect the conversion of all of the outstanding shares of Series D Preferred Stock to common stock (subject to the condition that, all of the shares issuable upon such conversion may be re-sold without limitation under an effective registration statement or pursuant to Rule 144 under the Securities Act).

The Series D Preferred Stock holders also were granted registration rights which required the Company to file a registration statement with the SEC within 60 days of the final closing date (December 31, 2012), and to have the registration statement declared effective within 90 days thereafter. The initial registration statement was filed on February 12, 2013. Failure of the registration statement to be declared effective by May 12, 2013, resulted in a partial liquidated damage equal to 0.1% of the purchase price paid by each investor to become payable on each monthly anniversary until the registration statement was declared effective. On July 30, 2013, the registration statement was declared effective by the U.S. Securities and Exchange Commission. On October 15, 2013, the Company paid liquidated damages of \$18,000.

### **Cash Flows from Operating, Investing and Financing Activities**

Information about our cash flows, by category, is presented in the accompanying unaudited Condensed Consolidated Statements of Cash Flows. The following table summarizes our cash flows for the nine months ended September 30, 2014 and 2013 (in millions):

	Nine Months Ended September 30,		Increase/(Decrease)		
	2014	2013			
Operating activities	\$2.2	\$(2.2)	\$ 4.4	202.8	%
Investing activities	(0.0)	(0.0)	0.0	27.1	%
Financing activities	(1.3)	1.4	(2.7 )	(198.6	%)

Net cash provided by operating activities during the first nine months of 2014 increased by \$4.4 million over the same period in the prior year. The increase in cash from operations was primarily driven by a decrease in net loss in the first nine months of 2014 of \$2.7 million. Our net loss was \$696,000 in the first nine months of 2014, a portion of which was the result of non-cash transactions during the year. Specifically, we had a \$0.1 million non-cash expense related to employee and non-employee stock based compensation and a net \$1.4 million of other non-cash transactions such as depreciation and amortization. Additionally, the changes in net working capital and other balance sheet changes contributed to a \$0.9 million increase in cash provided by operating activities, most notably from a \$4.1 million decrease in accounts receivable due to timing of receivable collections, a \$3.8 million decrease in accounts payable and a \$1.0 million decrease in inventory.

During the nine months ended September 30, 2013, net cash used in operating activities was \$2.2 million. Our net loss was \$3.5 million during the first nine months of 2013, most of which was the result of non-cash transactions during the quarter. Specifically, we had a \$0.8 million non-cash expense including depreciation and amortization, employee and non-employee stock-based compensation.

Net cash used in investing activities was negligible during the nine months ended September 30, 2014 and the comparable nine months of 2013.

During the nine months ended September 30, 2014, net cash used in financing activities was \$1.3 million, due to \$0.1 million in paid financing costs, \$0.8 million in repayments under our term loans, \$0.5 million in payments for the Series D and Series E Preferred Stock dividends and \$0.1 million for payment on contingent acquisition liability, offset by cash provided by an \$0.2 million in net amounts borrowed under our lines of credit.

During the nine months ended September 30, 2013, net cash provided by financing activities was \$1.4 million, primarily due to \$1.0 million in proceeds from the bank term loan, net of \$1.6 million in payments for term loans, a net \$0.8 million in borrowings under our lines of credit, payment of \$0.3 million for the Series D Preferred Stock dividend and \$1.5 million in net proceeds from a common stock private placement.

Information about our cash flows, by category, is presented in the accompanying Consolidated Statement of Cash Flows. The following table summarizes our cash flows for the years ended December 31, 2013 and 2012 (in millions):

	Year ended December 31,		Increase/(Decrease)		
	2013	2012			
Operating activities	\$(4.2)	\$1.7	\$ (5.9 )	-347.1	%
Investing activities	(0.0)	(5.1)	(5.1 )	-99.9	%
Financing activities	3.8	4.1	(0.3 )	-7.3	%

Cash used in operating activities for 2013 increased by \$5.9 million over the prior year. The decrease in cash from operations was primarily driven by the increase in net loss for the year ended December 31, 2013 of \$1.4 million. Additionally, the changes in net working capital and other balance sheet changes contributed to a \$4.6 million decrease in cash used in operating activities, most notably from \$2.2 million decrease in accounts payable due to timing of payables.

For the year ended December 31, 2012, net cash provided by operating activities was \$1.7 million. Our net loss was \$3.9 million in 2012, a portion of which was the result of non-cash transactions during the year. Specifically, we had a \$0.3 million non-cash expense related to employee and non-employee stock based compensation and \$1.3 million of other non-cash transactions such as depreciation and amortization. Additionally, our cash position was positively affected by the net change in our unearned revenue of \$0.1 million associated with increased deferred revenues and associated costs.

Net cash used in investing activities was \$45,000 for the year ended December 31, 2013 and was related to purchases of property and equipment.

Net cash used in investing activities was \$5.1 million for the year ended December 31, 2012, and was primarily related to the combined cash payment for the acquisition of Apex Systems Integrators, Inc. and Illume Mobile in June and July 2012, respectively, of \$5.0 million along with \$0.1 million for purchases of property and equipment.

During the year ended December 31, 2013, net cash provided by financing activities was \$3.8 million, primarily due to \$3.5 million related to the issuance of Series E Preferred (net of expenses), \$1.5 million related to the issuance of common stock (net of expenses), \$1 million in proceeds from the bank term loan, offset by payments on the lines of credit and term debt of \$1.6 million and payments of \$0.4 million for the Series D Preferred Stock dividend.

During the year ended December 31, 2012, net cash provided by financing activities was \$4.1 million, primarily due to \$4.0 million due to the issuance of term loans, \$6.0 million related to the issuance of Series D Preferred (net of expenses), and \$1.5 million in cash received in our reverse recapitalization (net of expenses). Cash used in financing activities was a result of \$4.5 million in Series C Preferred Stock retirement, \$0.6 million of net repayments on the line of credit, \$1.4 million of senior long-term debt repayment, \$0.6 million for the Series C Preferred Stock dividends and \$0.3 million in financing costs.

### **Critical Accounting Policies**

Our consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Critical accounting policies are those that require the application of management's most difficult, subjective, or complex judgments, often because of the need to make estimates about the effect of matters that are inherently uncertain and that may change in subsequent periods. In preparing the consolidated financial statements, management has utilized available information, including our past history, industry standards and the current economic environment, among other factors, in forming its estimates and judgments, giving due consideration to materiality. Actual results may differ from these estimates. In addition, other companies may utilize different estimates, which may impact the comparability of our results of operations to those of companies in similar businesses. We believe that the following critical accounting policies involve a high degree of judgment and estimation:

#### *Accounts Receivable and Allowance for Doubtful Accounts*

We have policies and procedures for reviewing and granting credit to all customer accounts, including:

- Credit reviews of all new customer accounts,
- Ongoing credit evaluations of current customers,
- Credit limits and payment terms based on available credit information,
- Adjustments to credit limits based upon payment history and the customer's current credit worthiness, and
- An active collection effort by regional credit functions, reporting directly to the corporate financial officers.

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. These allowances are highly judgmental and require assumptions based on both recent trends of certain customers estimated to be a greater credit risk, as well as historical trends of the entire customer pool. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to

make payments, additional allowances may be required. To mitigate this credit risk we perform periodic credit evaluations of our customers.

### *Inventory*

Inventory is stated at the lower of cost or market. Cost is determined under the first-in, first-out (FIFO) method. We periodically review our inventory and make provisions as necessary for estimated obsolete and slow-moving goods. We mark down inventory by an amount equal to the difference between cost of inventory and the estimated market value based upon assumptions about future demands, selling prices and market conditions. The creation of such provisions results in a write-down of inventory to net realizable value and a charge to cost of sales.

### *Goodwill and Long-Lived Assets*

Goodwill represents the excess purchase price paid over the fair value of the net assets of acquired companies. Goodwill is subject to impairment testing as necessary, (at least once annually at December 31) if changes in circumstances or the occurrence of certain events indicate potential impairment. In assessing the recoverability of our goodwill, identified intangibles, and other long-lived assets, significant assumptions regarding the estimated future cash flows and other factors to determine the fair value of the respective assets must be made, as well as the related estimated useful lives. The fair value of goodwill and long-lived assets is estimated using a discounted cash flow valuation model and observed earnings and revenue trading multiples of identified peer companies. If these estimates or their related assumptions change in the future as a result of changes in strategy or market conditions, we may be required to record impairment charges for these assets in the period such determination was made.

### *Intangible Assets*

We make judgments about the recoverability of purchased finite-lived intangible assets whenever events or changes in circumstances indicate that impairment may exist. Recoverability of finite-lived intangible assets is measured by comparing the carrying amount of the asset to the future undiscounted cash flows that the asset is expected to generate. If it is determined that an individual asset is impaired, the amount of any impairment is measured as the difference between the carrying value and the fair value of the impaired asset.

The assumptions and estimates used to determine future values and remaining useful lives of our intangible are complex and subjective. They can be affected by various factors, including external factors such as industry and economic trends, and internal factors such as changes in our business strategy and our forecasts.

### *Fair Value*

Financial assets and liabilities are measured at fair value, which is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's significant Level 3 inputs relate to derivative warrant liabilities and contingent consideration related to the Apex acquisition

### *Income Taxes*

We account for income taxes in accordance with the Financial Accounting Standards Board (“FASB”) guidance, which requires deferred tax assets and liabilities, be recognized using enacted tax rates to measure the effect of temporary differences between book and tax bases on recorded assets and liabilities. FASB guidance also requires that deferred tax assets be reduced by a valuation allowance, if it is more likely than not some portion or all of the deferred tax assets will not be recognized.

We evaluate on an annual basis its ability to realize deferred tax assets by assessing its valuation allowance and by adjusting the amount of such allowance, if necessary. The factors used to assess the likelihood of realization are forecasts of future taxable income and available tax planning strategies that could be implemented to realize the net deferred tax assets.

In accordance with FASB guidance on accounting for uncertainty in income taxes, we evaluate tax positions to determine whether the benefits of tax positions are more likely than not of being sustained upon audit based on the technical merits of the tax position. For tax positions that are more likely than not of being sustained upon audit, we recognize the largest amount of the benefit that is greater than 50% likely of being realized upon ultimate settlement. For tax positions that are not more likely than not of being sustained upon audit, we do not recognize any portion of the benefit. If the more likely than not threshold is not met in the period for which a tax position is taken, we may subsequently recognize the benefit of that tax position if the tax matter is effectively settled, the statute of limitations expires, or if the more likely than not threshold is met in a subsequent period.

### *Translation of Foreign Currencies*

The Company's functional currency is the U.S. dollar. The financial statements of the Company's foreign subsidiary is measured using the local currency, in this case the Canadian dollar (CDN\$), as its functional currency and is translated to U.S. dollars for reporting purposes. Assets and liabilities of the subsidiary are translated at exchange rates as of the balance sheet dates. Revenues and expenses of the subsidiary are translated at the rates of exchange in effect during the year.

### *Revenue recognition*

Revenues are generated through product sales, warranty and maintenance agreements, software customization, and professional services. Product sales are recognized when the following criteria are met (1) there is persuasive evidence that an arrangement exists; (2) delivery has occurred and title has passed to the customer, which generally happens at the point of shipment provided that no significant obligations remain; (3) the price is fixed and determinable; and (4) collectability is reasonably assured. The Company generates revenues from the sale of extended warranties on wireless and mobile hardware and systems. Revenue related to extended warranty and service contracts is recorded as unearned revenue and is recognized over the life of the contract as the Company maintains financial risk throughout the term of these contracts and may be liable to refund a customer for amounts paid in certain circumstances. Our policy is to classify shipping and handling costs billed to customers and the related expenses as cost of sales.

We also generate revenue from professional services and customer specified software customization on either a fee-for-service or fixed fee basis. Revenue from software customization and professional services that is contracted as fee-for-service is recognized in the period in which the services are performed or delivered. Adjustments to contract price and estimated labor costs are made periodically, and losses expected to be incurred on contracts in progress are charged to operations in the period such losses are determined. We record sales net of sales tax.

We enter into revenue arrangements that contain multiple deliverables. Judgment is required to properly identify the accounting units of the multiple deliverable transactions and to determine the manner in which revenue should be allocated among the accounting units. Moreover, judgment is used in interpreting the commercial terms and determining when all criteria of revenue recognition have been met for each deliverable in order for revenue recognition to occur in the appropriate accounting period. In an arrangement with multiple deliverables, the delivered item or items shall be considered a separate unit of accounting if both of the following criteria are met: (i) the delivered item or items have value to the customer on a standalone basis; (ii) if the arrangement includes a general right of return relative to the delivered item, delivery or performance of the undelivered item or items is considered probable and substantially in the control of the vendor. A delivered item or items that do not qualify as a separate unit of accounting within the arrangement shall be combined with the other applicable undelivered item(s) within the arrangement and the allocation of arrangement consideration and the recognition of revenue then shall be determined

for those combined deliverables as a single unit of accounting. While changes in the allocation of the arrangement consideration between the units of accounting will not affect the amount of total revenue recognized for a particular sales arrangement, any material changes in these allocations could impact the timing of revenue recognition, which could affect our results of operations. When we enter into an arrangement that includes multiple elements, we allocate revenue based on their relative selling prices. We use the following hierarchy to determine the selling price to be used for allocating revenue to deliverables: (i) vendor specific objective evidence of fair value (“VSOE”), (ii) third party evidence of selling prices (“TPE”) and (iii) best estimate of selling price (“ESP) as a proxy for VSOE. When both VSOE and TPE are unavailable, we use ESP. We determine ESP by considering all relevant factors in establishing the price, which is demonstrated as a gross margin model used.

Revenue from software licenses may contain arrangements with multiple deliverables, including post-contract customer support, that are subject to software revenue recognition guidance. The revenue for these arrangements is allocated to the software and non-software deliverable based on the relative selling prices of all components in the arrangement using the criteria above. Post-contract support is recognized ratably over the support period. When a contract contains multiple elements wherein the only undelivered element is post-contract customer support and VSOE of the fair value of post-contract customer support does not exist, revenue from the entire arrangement is recognized ratably over the support period. Software royalty revenue is recognized in arrears on a quarterly basis, based upon reports received from licensees during the period, unless collectability is not reasonably assured, in which case revenue is recognized when payment is received from the licensee.

### *Stock-based compensation*

We record the fair value of stock-based payments as an expense in our consolidated financial statements. We determine the fair value of stock options using the Black-Scholes option-pricing model. This valuation model requires us to make assumptions and judgments about the variables used in the calculation. These variables and assumptions include the weighted-average period of time that the options granted are expected to be outstanding, the volatility of our common stock, the risk-free interest rate and the estimated rate of forfeitures of unvested stock options. Additional information on the variables and assumptions used in our stock-based compensation are described in Note 11 of the accompanying notes to our unaudited condensed consolidated financial statements.

### **Off-Balance Sheet Arrangements**

There were no off-balance sheet arrangements as of September 30, 2014 or December 31, 2013.

### **Recently Issued Accounting Pronouncements**

In May 2014, the FASB issued Accounting Standards Update (“ASU”) No. 2014-09 Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Accounting Standard Codification (“ASC”) 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. For public entities, the effective date will be for reporting periods beginning after December 15, 2016, including interim periods, using one of two retrospective application methods. The Company is currently evaluating the impact of the adoption of this accounting standard update on its financial statements.

In August 2014, the FASB issued ASU No. 2014-15, “Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern” (Subtopic 205-40), which defines management’s responsibility to evaluate whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a going concern and to provide related disclosures. Currently, this evaluation has only been an auditor requirement. Specifically, the amendments (1) provide a definition of the term “substantial doubt,” (2) require an evaluation every reporting period, (3) provide principles for considering the mitigating effect of management’s plans, (4) require certain disclosures when substantial doubt is alleviated as a result of the consideration of management’s plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that financial statements are issued. This amended guidance will be effective for us beginning January 1, 2016.

The Company does not expect the adoption of this amended guidance to have a significant impact on its Consolidated Financial Statements.

## BUSINESS

### History

DecisionPoint Systems, Inc., formerly known as Comamtech, Inc. (the “Company”, “DecisionPoint”, “we”, “our” or “us”), was incorporated on August 16, 2010, in Canada under the laws of the Ontario Business Corporations Act (“OCBA”). On June 15, 2011, we entered into a Plan of Merger (the “Merger Agreement”) among the Company, its wholly owned subsidiary, 2259736 Ontario Inc., incorporated under the laws of the Province of Ontario, Canada (the “Purchaser”) and DecisionPoint Systems, Inc. (“Old DecisionPoint”). Pursuant to the Merger Agreement, under Section 182 of the OCBA, on June 15, 2011 (the “Effective Date”) Old DecisionPoint merged (the “Merger”) into the Purchaser and became a wholly owned subsidiary of the Company. Prior to the Merger, Comamtech was a “shell company” (as such term is defined in Rule 12b-2 under the Exchange Act). In connection with the Merger, the Company changed its name to DecisionPoint Systems, Inc., and the Purchaser changed its name to DecisionPoint Systems International, Inc. (“DecisionPoint Systems International”). On June 15, 2011, both companies were reincorporated in the State of Delaware.

DecisionPoint has two wholly owned subsidiaries, DecisionPoint Systems International and Apex Systems Integrators Inc. DecisionPoint Systems International has two wholly owned subsidiaries, DecisionPoint Systems Group Inc. (“DPS Group”) and CMAC, Inc. (“CMAC”). DecisionPoint Systems International acquired CMAC on December 31, 2010. CMAC was founded and incorporated in March 1996, and is a logistics consulting and systems integration provider focused on delivering operational and technical supply chain solutions, headquartered in Alpharetta, Georgia.

DPS Group has two wholly owned subsidiaries, DecisionPoint Systems CA, Inc. and DecisionPoint Systems CT, Inc. DecisionPoint Systems CA, Inc., formerly known as Creative Concepts Software, Inc. (“CCS”) was founded in 1995 and is a provider of Enterprise Mobility Solutions. Enterprise Mobility Solutions are those computer systems that give an enterprise the ability to connect to people, control assets, and transact business from any location by using mobile computers, tablet computers, and smartphones to securely connect the mobile worker to the back office software systems that run the enterprise. Technologies that support Enterprise Mobility Solutions include national wireless carrier networks, Wi-Fi, local area networks, mobile computers, smartphones and tablets, mobile software applications, middleware and device security and management software. DecisionPoint Systems CT, Inc. formerly known as Sentinel Business Systems, Inc. (“SBS”) was founded in 1976 and has developed over time a family of powerful enterprise data collection software solutions, products and services. The combined company is a data collection systems integrator that sells and installs mobile devices, software, and related bar coding equipment, radio frequency identification (“RFID”) systems technology and provides custom solutions and other professional services.

Following the Merger, the business conducted by us is now the business conducted by Old DecisionPoint prior to the Merger.

## Recent Developments

On July 2, 2014, the Company received a written “Wells Notice” from the staff of the Securities and Exchange Commission (the “SEC”) indicating that the staff has made a preliminary determination to recommend that the SEC bring an administrative proceeding against the Company. On the same day, Nicholas R. Toms, the Company’s then President and Chief Executive Officer and a then-serving member of the board of directors, also received a Wells Notice. The SEC staff has informed the Company that both Wells Notices relate to allegations that, from late 2009 to early 2011, Mr. Toms was the beneficial owner of shares of common stock of the Company that were held and traded by a Delaware corporation in which Mr. Toms was a 10% owner; that Mr. Toms exercised control over the corporation’s securities account; and that the corporation’s shareholding and trades should have been reflected at the relevant times in public disclosures of Mr. Toms’ other holdings of the Company’s common stock. A Wells Notice is neither a formal allegation of wrongdoing nor a finding that any violations of law have occurred. Rather, it provides the recipient with an opportunity to respond to issues raised by the staff and offer its perspective to the staff prior to any decision to institute proceedings. In response to the Wells Notice, the Company’s Audit Committee conducted an internal review, assisted by new outside legal counsel, and on August 8, 2014, we submitted to the SEC a response to the Wells Notice setting forth why no action should be commenced against us. As of the date of this filing, there have been no further developments in respect of the Wells Notice to the Company. On August 15, 2014, Mr. Toms resigned from his positions as Chief Executive Officer, President and member of the Company’s board of directors.

On September 10, 2014, our board of directors caused the Company to file a proxy statement with the SEC in preparation for notifying its shareholders of, and conducting, an annual meeting of shareholders. Our proxy statement proposed the reelection of the incumbent members of our board of directors and the election of a new, additional director, James F. DeSocio. On September 16, 2014, shareholders Michael N. Taglich and Robert F. Taglich filed a preliminary proxy statement contesting our director slate and proposing an alternative slate of directors to be elected at the meeting. Effective as of the close of business on October 3, 2014, our incumbent directors and Messrs. Michael and Robert Taglich reached a settlement of their differences. Pursuant to the settlement, five of the incumbent directors, board Chairman Lawrence Yelin and board members Jay B. Sheehy, David M. Rifkin, Marc Ferland and Donald Dalicandro, have resigned from our board of directors; James F. DeSocio has been appointed to our board of directors; and Donald Dalicandro has been authorized to serve as a board observer until the end of the term during which he is eligible, under his employment agreement with the Company, to remain as a member of the board of directors. Thereafter, remaining incumbent director Robert Schroeder and new director Mr. DeSocio appointed the following four additional individuals as directors (all of whom were members of the alternative director slate proposed by Messrs. Michael and Robert Taglich): Michael N. Taglich, John Guttilla, Stanley P. Jaworski and Paul A. Seid. As a result of the foregoing, our board of directors currently consists of Mr. Schroeder, who is serving as Chairman, and Messrs. DeSocio, Michael Taglich, Guttilla, Jaworski and Seid, with Mr. Dalicandro as an observer.

On November 10, 2014, our new board of directors appointed current director James F. DeSocio, to serve as Interim Chief Executive Officer of the Company, pending the selection of a permanent CEO pursuant to an executive search currently being conducted.

## **Overview**

DecisionPoint enables our clients to “move decisions closer to the customer” by “empowering the mobile worker”. We define the mobile worker as those individuals that are on the front line in direct contact with customers. These workers include field repair technicians, sales associates, couriers, public safety employees and millions of other workers that deliver goods and or services throughout the country. Whether they are blue or white collar, mobile workers have many characteristics in common. Mobile workers need information, access to corporate resources, decision support tools and the ability to capture and report information back to the organization.

DecisionPoint empowers these mobile workers through the implementation of various mobile technologies including specialized mobile business applications, wireless networks, mobile computers (for example, rugged, tablets, and smartphones) and a comprehensive suite of consulting, integration, deployment and support services.

Mobile computing capabilities and usage continue to grow. With choice comes complexity so helping our customers navigate the myriad of options is what we do best. The right choice may be an off-the-shelf application or a custom business application to fit a very specific business process. DecisionPoint has the specialized resources and support structure to address the needs of mobile applications in the retail, transportation, field workforce sales/service and the

warehousing market segments. We continue to invest in building out our capabilities to support these markets and business needs. For example, in July 2012, we invested in the expansion of our custom software development capabilities through the acquisition of Illume Mobile in Tulsa, OK, which specializes in the custom development of specialized mobile business applications for Apple, Android and Windows Mobile devices. Additionally, through the acquisition of Illume Mobile we acquired a cloud-based, horizontal software application “ContentSentral” which manages and distributes multiple types of corporate content (for example, PDF, video, images, and spreadsheets) on mobile tablets used by field workers. We also dramatically increased our software products expertise with the acquisition in June 2012 of APEX in Canada. The APEXWare™ software suite significantly expanded our field sales/service software offerings. APEXWare™ is a purpose-built mobile application suite ideally suited to the automation of field sales/service and warehouse workers. Additionally, we continue to expand our deployment and MobileCare support offerings. In 2012 we moved our headquarters location to a larger facility in Irvine, CA in order to accommodate the expansion of our express depot and technical support organizations. We also continue to invest in our “MobileCare EMM” enterprise mobility management offering. In 2013 we consolidated our east coast depot facility into our larger CA location in order to provide our east coast customers with later service hours and to gain some economies from scale. We are also continuing to extend our MDM offering from our historically ruggedized mobile computer customer base to address the growth of consumer devices in the enterprise and support the Bring Your Own Device (BYOD) and Bring Your Own Application (BYOA) movement.

Recognizing that we cannot build every business application, we have developed an ‘ecosystem’ of partners which support our custom and off-the-shelf solutions. These partners include suppliers of mobile devices (Apple, Intermec, Motorola, among others), wireless carriers (AT&T, Sprint, T-Mobile, Verizon), mobile peripheral manufactures (Zebra Technologies Corporation, Datamax – O’Neil), in addition to a host of specialized independent software vendors such as AirWatch, VeriFone GlobalBay, XRS and Wavelink.

We are focused on several commercial enterprise markets. These include retail, field sales/service, warehousing, distribution and transportation. With the continued growth of the mobile internet, we expect to see our current markets grow in addition to the emergence of new markets. We expect our customers to continue to embrace and deploy new technology to better enhance their own customers’ experiences and improve their own operations while lowering their operating costs. Our expertise and understanding of our customers’ operations and business operations in general, coupled with our expertise and understanding of mobile technology equipment and software offerings enables us to identify new trends and opportunities and provide these new solutions to our existing and potential customers.

At DecisionPoint, we deliver to our customers the ability to make better, faster and more accurate business decisions by implementing industry-specific, enterprise wireless and mobile computing systems for their front-line mobile workers, inside and outside of the traditional workplace. It is these systems that provide the information to improve the hundreds of individual business decisions made each day. Historically, critical information has remained locked away in the organization’s enterprise computing systems, accessible only when employees were at their desk. Our solutions unlock this information and deliver it to employees when needed regardless of their location. As a result, our customers are able to move their business decision points closer to their customers which we believe in turn improves customer service levels, reduces cost and accelerates business growth.

We have several offices throughout North America which allows us to serve our multi-location clients and their mobile workforces. Additionally, we are always keenly aware of potential acquisition candidates that can provide complementary products and service offerings to our customer base.

## **Marketplace**

### **Industry**

The Enterprise Mobile Computing industry continues to grow on many fronts. The industry’s early growth was fueled through the standardization of several key technologies such as the Windows Mobile operating system, 802.11 a/b/g “Wi-Fi” wireless local area networks, and robust nationwide wireless carrier data networks such as Sprint, T-Mobile and Verizon. The more recent advances in “consumer” class smartphones and tablets have enabled new applications and expanded the market’s reach to field worker applications that previously could not justify the cost of traditional rugged

mobile computers.

Since 2012, we continue to see an increase in the deployment of “consumer” smartphones and tablet computers in order to support a broadening set of mobile user needs. While a few of these deployments have been in response to reducing the deployment costs of traditional ruggedized mobile devices, the majority represent new deployments in markets which were previously under-served and thus represent new market opportunities.

The industry is comprised of companies that bring specific value to one or more elements of the overall customer solution. These specialized companies can be grouped into the following categories:

- Hardware manufacturers such as Apple Computer, Samsung, Motorola Solutions, Intermec Corporation and Zebra Technologies each provide specialized mobile computers and peripherals.
- Wireless Carriers such as Sprint, T-Mobile and Verizon provide robust data and voice networks.
- Specialized application providers (ISVs) that focus on providing mobile applications to meet specific industry and business requirements. Our APEXWare™ are solution set is one such example.
- Systems integrators such as DecisionPoint that work directly with the end user to define the business requirement and then design and develop the final solution using our existing intellectual property or components from other providers.

Determining which enterprise mobile solution we deliver to our customers depends on several key factors including the customer's industry, size and business objectives. Successful solution selection requires that providers possess industry domain expertise, business application expertise and mobile computing and wireless networking technical acumen. DecisionPoint possesses this knowledge and skillset in our target markets.

In addition to offering hardware and specialized mobile applications, we also provide a complete line of consulting, deployment and integration services, including site surveys, equipment configuration and staging, system installation, depot services, software support, training programs and project management.

### Current Market Environment

Over the last several years, we have been repositioning ourselves to move up the solution value chain by focusing on higher margin software and consulting services along with customer-driven mobile wireless solutions rather than providing simply hardware and customized software as a reseller. This is the key to increasing our profitability and is also a major point of differentiation. The acquisitions of CMAC, Apex and Illume Mobile are instrumental in this repositioning. Small resellers and large catalog resellers simply do not want to, or cannot, provide the hands-on services and mobile application needs to make these systems successful. Our major ecosystem partners recognize this and have come to depend more on us to deliver the business value that their products enable.

The result is that our partners are referring more end-user demand to DecisionPoint than ever before because they require our deep domain knowledge in our chosen markets, our mobile application solutions, consulting services and our deployment and support capabilities. Today, a majority of Motorola, Intermec and Zebra Technologies' product sales are through the sales channel in which we participate.

We benefit from other advantages by participating in this sales channel. The industry leaders have established program rewards, such as a favorable pricing structure and promotional incentives for their top-tier partners such as DecisionPoint. As a result, we invest in training for our personnel, which differentiate us from other potential competitors whose personnel may not have the same training or experience as ours. Within our enterprise markets, we believe there continues to be long-term opportunity for growth as the global workforce continues to become more mobile and the industries and markets that purchase our products and services continue to expand. The markets in which we compete include mobile computing products and services, enterprise wireless services, bar code scanning and mobile network management platforms. Organizations looking to increase productivity and derive benefits from empowering their mobile workforce are driving adoption of our solutions.

Our strategy in our target markets is to enable our customers to focus on their missions, not the technology. This is accomplished by providing mission-critical systems, seamless connectivity through highly reliable voice and data

networks and a suite of advanced and/or custom applications that provide real-time information to mobile workers.

#### DecisionPoint Target Markets

The markets for enterprise wireless and mobile computing are very fragmented and extremely complex, but generally they can be characterized by the following attributes:

1. Vertical market industries which require specific domain expertise.
2. Industries which track goods or deliver a service in the field (or both).
3. Industries which have a significant group of mobile workers, whether they operate primarily in one place or in the field.

In the commercial enterprise market, we seek to deliver products and services that are designed to empower the mobile workforce to increase productivity, expand sales, drive cost effectiveness and promote faster execution of critical business processes.

## Vertical Markets

The attractiveness of any vertical market depends directly on the size and nature of the problems which that market faces that can be addressed by enterprise wireless and mobile computing. Historically, retail, warehousing, and manufacturing were the largest industries. Each typically had large amounts of goods in constant motion which needed to be tracked. In addition, each had a workforce which primarily operated in one place (i.e. a retail store, a distribution center or a factory).

Although these markets are still attractive for us and comprise a sizeable portion of our business, we believe new markets are emerging which hold as great or even greater promise than our historical markets.

Transportation, logistics and field services such as repair and maintenance, delivery and inspections are now emerging as new markets. This is primarily due to the arrival of robust, national wireless carrier networks that can reach field-based mobile workers almost anywhere they are. The general term for this new group of markets is referred to as “Field Mobility”. Although it cuts across multiple industries and business applications, it has one common characteristic: goods are tracked or services are being performed by *field-based* workforces, not workers operating in a single location under one roof.

## Our Field Mobility Practice

We established our Field Mobility practice in 2008 with the express purpose of replicating our historical success with a new set of customers together with a new ecosystem of partners including Sprint, T-Mobile and Verizon. These partners provide referrals of end users that are interested in field mobility solutions. We, in turn, provide solutions which require cellular data networks. We have experienced year over year growth in this segment and believe this trend will continue due to the adoption of smartphones, tablet computers and the continued cost reductions and increased access of cellular data networks. The carriers not only bring potential new opportunities but also have attractive programs which allow us to earn additional revenue when we facilitate service of mobile computers and devices on their networks. We currently have active projects with Sprint, T-Mobile and Verizon clients.

Our acquisitions of APEX and Illume Mobile further demonstrate our belief in this market. The APEXWare™ product suite is ideally suited for empowering field based sales and service workers whereas ContentSentral provides a unique content delivery capability that enables a new class of mobile information empowerment to field workers that need real-time access to corporate content.

## Products and Services

### Mobile Applications

We deploy mobile applications to address a wide variety of business processes, depending on the industry. Below is a brief overview of some of those applications by industry:

- **Retail Store:** Stock locator, shelf price audit, markdowns, inventory control, physical inventory, merchandising, customer service and mobile point-of-sale (“MPOS”).
- **Warehousing and Distribution:** Order shipping, order picking and packing, stock move and replenishments, product receipt and put-away, labeling, physical inventory and cycle counts.
- **Transportation and Logistics:** Proof-of-delivery, commercial turn-by-turn directions, route optimization, cross-docking, returns and Department of Transportation driver hours of service and route logging.
- **Field Mobility:** Field service and repair, merchandising, field sales, work order management, asset management, inspection, preventative maintenance, surveys, rounds and readings.

### Software

Unlike the market for standardized business software such as email or accounting, the market for enterprise mobile software is more specialized. One size does not fit all. Enterprise mobile software systems must support industry-specific and customer-specific business processes. For this reason, we utilize several avenues to provide mobile software solutions to meet our customers’ unique requirements.

**DecisionPoint owned and delivered solutions:**

- APEXWare™ Field Service (FS) enables customers to capture lost revenue, provide proof of service delivery, reduce inventory shrinkage, and reduce back office administration. A field deployment of wireless handheld devices with integrated bar code scanners enables the business to run completely paperless. APEXWare™ FS is also offered as a hosted subscription service, thus eliminating the need for costly IT infrastructure (on-site server, IT resources).
- APEXWare™ Merchandising, Sales and Delivery (MSD) is a powerful solution that maintains and optimizes customers' efficiency in the field by automating processes that would otherwise be time consuming and error-prone. APEXWare™ MSD provides significant value by streamlining merchandising, sales and delivery business functions. Mobile devices with integrated bar code scanners enable workers to perform multiple job functions to help achieve new sales growth and reduce costs. The solution is ideally suited for business regardless of size or industry.
- APEXWare™ Warehouse Management System (WMS) transforms current warehouse operations to a paperless, real-time operation. With the use of wireless devices APEXWare™ WMS reduces errors, improves worker efficiencies and ensures greater transaction accuracy. Mobile devices such as handheld mobile computers and vehicle mounted computers with integrated bar code scanners ensure accurate and efficient pick and put-away functions. APEXWare™ WMS is a powerful warehouse management system that maintains accurate inventory throughout the warehouse to optimize efficiency.
- ContentSentral is a content delivery service that enables mobile workers in virtually any industry to access corporate information which enables better customer interaction and a more satisfying customer experience. It also provides the added benefit of allowing companies to closely manage versions of key documents used in the field. ContentSentral easily connects to corporate data sources and delivers multiple content formats including:
  - ◆ Video
  - ◆ PDF
  - ◆ PowerPoint™
  - ◆ Images
  - ◆ Word Documents™
  - ◆ Spread sheets

**DecisionPoint custom development:** When one of our off-the-shelf solutions or an ISV solution is not available, custom software can be created in-house using standardized programming platforms like Microsoft.NET® framework, Java™, Android and Apple iOS. These are used when there is simply no other “off-the-shelf” way to meet the customer’s requirements or when a client believes their business requirements are so unique that only a custom solution will work. An increasingly popular requirement for many corporate clients, which we are able to fulfill, is a custom application that is written once, but supports multiple mobile operating systems.

**Resold specialized ISV applications:** The software produced by specialized ISVs is designed to fit a particular vertical market and application. Even still, it must be tailored to meet the needs of each customer and often requires

integration to the customer's enterprise system(s). Depending on the requirements, this tailoring is provided by DecisionPoint or by the ISV themselves under contract to DecisionPoint. We have built a network of market and application focused ISVs specializing in Field Mobility applications for this purpose. In short, an ISV application, ruggedized mobile hardware, a wireless network, deployment services, and ongoing system support can be delivered by DecisionPoint more effectively and with less risk than with any other combination of providers.

## Professional Services

Our professional services offerings fall into one of three categories: business consulting, technical consulting and technical development. Business consulting is where we engage with our customer to help them understand the potential return on investment (ROI), of implementing mobile computing, or supply chain services as examples, for a particular business process. Technical consulting services help determine the technology to be used and how it is to be implemented to meet that ROI. We utilize our evaluation techniques, tools, and experience to recommend the optimal technology solution that provides organizational, operational and system improvements to our customers. We take advantage of our database and assessment methodology to quickly identify viable solutions for client operations. Once the solution is identified and selected, we apply our fast track “3D” (Define, Design, Deliver) implementation methodology to ensure project success. Technical development includes actual software programming and configuration of the mobile computing, WMS and TMS application solutions as well as interface software needed to connect to our customer’s existing back-office systems.

Our full suite of professional services allow for many “areas of engagement” with our customer base. We can initiate and engage on an opportunity in several areas of the project lifecycle. The professional services listed below allow us to provide value to organizations regardless of where the customer is in their project evaluation/implementation or rollout:

Engineering & Material Handling	Back office integration development
Facility Automation	Site Surveys & Installation
Supply Chain Strategy	Change Management
Six Sigma & Lean Six Sigma	Resource Augmentation
WMS/3PL Selection & Support	Temp-to-Perm
Call Center Outsourcing	Contract-to-Hire or Direct Hire
Project Management	Work Flow Management
WMS/ERP Implementation	Transportation Management

## Supply Chain Services

Supply Chain services include Pre-Contract, Pre Go-Live and Post Go-Live solutions. Our project team will engage and manage the project from end-to-end, allowing the customer resources to stay focused on their tasks. Many of the services that we provide are listed below:

### **Pre-Contract**

Project Management  
Solution Design

### **Pre Go-Live**

CRP Execution  
Training Documents

### **Post Go-Live**

Post implementation audit  
System re-configuration

Edgar Filing: DecisionPoint Systems, Inc. - Form POS AM

Application Study	Job Aid Development	Custom report design and development
CRP Script Development	Training Execution	EDI Interface design and development
CRP Configuration & Setup	Software Configuration	Issues documentation and management
Current State Design	Technical Support	Training and certification
Future State Design	System Interface	Satisfaction surveys/ process improvement
	Development/Programming	Enhancement management/ implementation
Mobility Readiness Evaluation	Implementation Support	Multi-site rollout
ROI Targets/Worksheet	Modification Specification & Design	Service Level Agreement
Proof of Concept Design	Testing	ROI Analysis
Host application requirements	Vendor Management	Ongoing Support
Device application requirements	Custom Reports	

## Deployment and Support Services

These services involve installing a solution into the customer's environment ("implementation") and then replicating that implementation to all their operating locations ("rollout"). The rollout is critical because unless the mobile computing solution is rolled out across all operating locations, the desired ROI will be limited.

We offer a wide range of services in this category. They include assembling kits of everything needed for the system on a per location basis ("kitting") to providing logistical services for rollout ("staging"), to advanced exchange services for broken units in the field, to help desk support and to a self-service portal where a customer can check the status of a service case or equipment repair ticket.

For Field Mobility projects, carrier activation is a key service. Activation is where we actually activate mobile computers and/or devices to run on the carrier networks. Not only is this a key service to complete projects, but it is also a source of revenue for us when the carriers pay us to activate mobile computers and/or devices to operate on the carrier networks.

In addition, we offer staff augmentation services to customers that allow for shorter term projects or implementations, workflow management teams for cyclical business customers, as well as contract-to-hire resources that engage on supply chain projects and can convert to a permanent position at the customer location, which helps significantly with the knowledge transfer as well as capital knowledge base. Contract-to-hire solutions have proven beneficial for customers to overcome workforce issues during hiring freezes by allowing them to deploy solutions and then convert resources to full-time status upon expiration of the hiring freeze.

Finally, we are continuing our investments in managed service offerings and software as a service, or SaaS categories. Increasingly, customers want to outsource various aspects of operating and maintaining their enterprise mobile systems. Our MobileCare™ EMM (enterprise mobility management) service offering allows us to remotely manage customers' mobile computers and applications on a SaaS subscription basis.

## Hardware

Our hardware reseller sales strategy is designed to avoid competing for hardware sales based solely on price. Throughout the sales cycle, we are diligent to point out to a customer that hardware is only one component of the complete solution they are looking for. By bundling the software and services with the hardware, we position

ourselves as the value-added solution provider. This positioning differentiates us from the low-price, 'discount' hardware resellers who do not have this capability.

We offer the following types of enterprise wireless and mobile computing hardware on a cost competitive basis:

- Handheld and vehicle mounted, ruggedized mobile computers
- 802.11 a/b/g/ wireless LAN ("Wi-Fi") infrastructure
- GPS receivers
- Two-way radios
- Handheld barcode scanners
- Barcode label and RFID printers and encoders
- Laptops and tablet computers for rugged environments
- Consumer smartphone and tablet computers

#### Consumables

We have extensive expertise in bar code consumables solutions. We offer a full line of high quality labels, RFID tags, and printer ribbons to meet the demands of every printing system. We select the right components from a wide range of products on the market from both independent and original equipment manufacturers of printers. Matching media to the unique application is what makes the system work. In addition, consumables are essentially a recurring revenue stream once a customer has their system up and running.

## Sales and Marketing

### Customer Base

Our historical success has largely followed the broad adoption of enterprise wireless and mobile computing technology industry by industry. As mentioned above, this adoption pattern started with retail stores and moved backward through the retail supply chain into distribution and then manufacturing. It also spread horizontally from the retail supply chain into the supply chain of industrial goods as well. Our products and services are sold nationwide to a diverse set of customers such as retail, utility, transportation and logistics, manufacturing, wholesale and distribution and other commercial customers.

Our customers include:

- Retailers in various categories and sizes.
- Manufacturing companies.
- Transportation, warehousing and distribution, including logistics companies.

Now that Field Mobility marketplace is starting to grow significantly, we are working with cellular data service providers such as Verizon Wireless to reach new users of mobile solutions. A common element of many customers is that they are new to mobile computing and thus have limited staff or expertise to deploy and support such programs. As such, DecisionPoint is an ideal partner for these customers in that our portfolio of development, deployment and support services ensure the success of their mobile and wireless projects.

We aim to deliver the ‘entire solution’ to our customers, from solution design through support. Our objective is to target markets that will permit the delivery of as many of these products and services as possible, so as to maximize the profit opportunity while minimizing the costs of sale and delivery.

Thus, we seek to classify the type of customer that we target in order to quickly and cost-effectively put the correct amount of resources on each opportunity. The three main customer classifications are:

- **Full Solution Customer** – This is a customer that wants us to provide not only the entire solution from initial consultation, design, development and deployment, but also the ongoing support of the system. Such an

end-user views the entire system as critical to its business and wants to outsource it to industry professionals. This is the ideal customer for us, one that understands and values the cost effectiveness of the entire solution and ongoing support of the system.

- **Customer as their own integrator** – The customer sources all the parts and pieces of the system, programs it, installs it, commissions it and supports it. In effect, the customer is their own integrator, and wants to buy products and services only in a transactional relationship. DecisionPoint limits its resources to provide these customers with competitive product and service pricing.
- **Hybrid Customer** – Such customers have some systems integration capability themselves but have also recognized that “they know what they don’t know” and are willing to contract for certain services as part of an enhanced transactional relationship. A Hybrid Customer is attractive on a case-by-case basis depending on the circumstances of the situation.

In each of the three scenarios above, we strive to position our software and professional services as a core value-added component to the customer. Our ability to reliably test, configure, kit, stage, and deploy large rollouts of mobile computers for specialized applications is a key service offering that enables our customers to maximize the benefits of mobile computing while minimizing the risks associated with implementation.

#### Sales and Sales Support

We support our business model using field-based teams of seasoned account executives with both pre- and post- sale systems architects who are experienced in all areas of enterprise mobile computing. Their focus is to develop customers’ enterprise mobile computing requirements in order to develop solutions for them and ultimately close business for our product and service set that fulfills those requirements.

We fulfill the need for application software both in-house and through ISVs depending on specific customer need. ISVs embrace this model because they are generally looking for sales, marketing and integration partners like us to expand their own reach.

We currently employ 65 people in our marketing, sales and professional services operation. They include 1 marketing professional and 21 sales people, all of whom are qualified in system technology design, installation and integration. They receive substantial technical support and assistance from 18 systems engineers and technicians and 22 software engineers. Supporting the sales and marketing effort are 4 sales administrators, who are responsible for the detailed order entry and for the inputting of the related data into our accounting system.

Geographically, the sales team is spread throughout North America and can handle projects on a national and international basis from its East and West coast facilities.

Sales System Support: [SalesForce.com](https://www.salesforce.com)

We make extensive use of the [salesforce.com](https://www.salesforce.com) customer relationship management (“CRM”) system to support our sales and marketing operations. All business processes from demand creation through closing orders are tracked using [salesforce.com](https://www.salesforce.com). This includes the following business processes: marketing campaign management, lead generation, sales opportunity and pipeline management, sales forecasting, sales territory and account management, and strategic account planning.

In addition, all professional services projects and time are tracked using [salesforce.com](https://www.salesforce.com). These tools allow us to get a better understanding of project profitability which helps us manage our key project resources.

#### Marketing Activities

We address our target markets through a combination of our own marketing activities, relationship selling and vendor-supplied leads. The common aim is to establish our credibility in the space, and then definitively demonstrate to the potential customer that we can tailor solutions to that customer’s needs.

Our seasoned sales team also provides many sales opportunities through past relationships and detailed domain knowledge of the operations of the top companies in the target market space. Given that enterprise wireless and

mobile computing systems are a complex sale, it is very beneficial to have knowledge of how individual companies actually operate, how they address IT systems issues, and how they buy and manage complex technology. Our sales teams use such information to their advantage against some of the commodity-type resellers in the space.

Vendor-supplied leads play a part in our success as well, in that vendors see it to their advantage to funnel sales opportunities to us thereby minimizing their selling costs. They are also willing to spend a sizeable portion of their discretionary marketing development budget for demand generation activities.

Our investment in our Field Mobility practice is generating sales and the establishment of a new sales channel. We have established key wireless carrier relationships with Sprint, T-Mobile and Verizon and are now seeing benefits from those relationships. These partners provide referrals of end users interested in field mobility solutions. We, in turn, provide solutions which require cellular data networks.

Realizing that statistics show that the vast majority of B2B activity today starts with an Internet search, we have invested in some forward-thinking tools and technologies to help meet our future customers there. We continue to invest in our website, [www.decisionpt.com](http://www.decisionpt.com), and we also have a complete online, closed-loop demand generation tool to track and manage leads to productively increase the sales pipeline. This includes email marketing with closed-loop feedback as well as email campaigns that track recipient behavior after their receipt in real time. This allows us to convert them into active prospects at the exact time they are investigating solutions for their particular problem.

## **Competition**

The business in which we operate is highly competitive. Continued evolution in the industry, as well as technological advancements, is opening up the market to increased competition. Other key competitive factors include: industry consolidation; price; availability of financing; product and system performance; product quality, availability and warranty; the quality and availability of service; company reputation; and time-to-market. We believe we are uniquely positioned in the industry due to our strong customer and vendor relationships, our consultative and technological leadership and capabilities and our comprehensive range of product and service offerings.

We compete with other value added resellers (“VAR”s) and System Integrators/engineering organizations (“SI”) in system design, integration and maintenance arenas. However, as a Tier-1 reseller for major equipment vendors including Motorola Solutions and Zebra, we encounter fewer than ten competitive Tier-1 VARs and SIs representing these manufacturers in the marketplace.

We typically win business from such competitors based on our turnkey software engineering skills and one-stop-shop technical capabilities. Recognizing us as a significant VAR within its universe of Tier-1 partners, Motorola Solutions has granted us variable pricing applicable to specific major customers. These price discounts give us an edge in the marketplace through greater margin flexibility. As a result, we do not typically lose contracts due to price sensitivity.

Large system integrators are seeking to move further into the segment in which we compete. Competitors in this segment may also serve as subcontractors to large system integrators and are selected based on a number of competitive factors and customer requirements. Where favorable to us, we may partner with other system integrators to make available our portfolio of advanced mission-critical services, applications and devices. Our MobileCare EMM offering is one such offering that we subcontract to leading IT outsourcing companies like HP.

We have identified the following ten companies as primary competitors in the VAR and SI spaces:

- **Agilysys, Inc. (Nasdaq: AGYS)** – Agilysys is a publicly traded NASDAQ company and is a leading developer and marketer of proprietary enterprise software, services and solutions to the hospitality industry. The company specializes in market-leading point-of-sale, property management, inventory & procurement & wireless solutions that are designed to streamline operations, improve efficiency and enhance the guest experience. Agilysys serves casinos, resorts, hotels, foodservice venues, stadiums and cruise lines. Agilysys operates extensively throughout North America, Europe and Asia, with corporate services located in Alpharetta, GA, EMEA headquarters in Chesire, UK, and APAC offices in Singapore, Hong Kong and Malaysia. Agilysys has one operating segment: Hospitality Solutions Group (“HSG”). In June 2013, Agilysys sold the Retail Solutions Group (“RSG”) to Clearlake Capital Group, the new company was named Kyrus Solutions, Inc. (“Kyrus”). In January 2014, Kyrus merged with Told Service Group to form Tolt Solutions, Inc. to offer innovative retail IT solutions, including retail point-of-sale, self-service and wireless mobility development and solutions along with deployment and maintenance services, network management solutions and other managed services.
- **International Business Machines Corp. (NYSE: IBM)** – Although significantly larger than us, IBM Mobility and Wireless Services seek to deliver the same type of value proposition to the market. IBM is a very large organization; enterprise wireless and mobile computing are just one of a large set of competencies and services they provide to the marketplace. To address growing needs of the mobile enterprise, IBM is expanding its software and services capabilities through acquisitions and organic innovation to provide customers with all the resources to develop a mobile computing strategy. In February 2012, IBM acquired Worklight, a privately held Israeli-based provider of mobile software for smartphones and tablets, an acquisitions that accelerates IBM’s mobile portfolio helping corporations leverage the proliferation of mobile

devices for B2C, B2E and B2B. In 2013, IBM launched “IBM MobileFirst”, a unified approach to help customers efficiently build and deploy mobile applications and maintain visibility and control over their mobile infrastructure. Also in 2013, IBM invested in core mobile enterprise capabilities with strategic acquisitions such as Fiberlink, Trusteer, Xtify and The Now Factory. In July 2014, IBM and Apple® announced a strategic partnership to deliver a new class of enterprise ready MobileFirst business application for iOS combining mobility and analytics. In the fourth quarter of 2014, the first dozen applications are expected to be launched.

- **Accenture plc (NYSE: ACN)** – Accenture is a global management consulting, technology consulting and technology outsourcing company. Their global headquarters are in Dublin, Ireland. It is the largest consulting firm in the world, as well as being a global player within the technology consulting industry.
- **Sedlak Management Consultants** – Sedlak is a supply chain consulting firm specializing in distribution consulting. They are a privately-held Cleveland, Ohio-based company, and have been in business for over 50 years.
- **Peak-Catalyst** – Maryland based Peak-Catalyst is an integrator of Automated Identification and Data Collection (“AIDC”) equipment including wireless RF, network and ERP integration solutions, enterprise printing, bar code scanning, mobile computing, and terminal and software technologies. Peak-Catalyst was originally built up by former DecisionPoint CEO Nicholas Toms and former DecisionPoint CFO Donald Rowley, and was then sold to Moore Corporation (now RR Donnelley) in 1997. RR Donnelley, as part of its strategy to focus on commercial printing, sold Peak to Platinum Equity in December 2005. Keystone Capital, Inc. acquired Peak in October 2011, from Platinum Equity. During December 2011, Peak Technologies acquired Washington based Ryzex, a mobile technology solutions company and subsequently changed their name to Peak-Ryzex in 2012. During August 2012, Peak-Ryzex acquired Catalyst from CDC Global Services and subsequently changed their name to Peak-Catalyst. Catalyst is a highly specialized SAP services partner and a leader in the design and implementation of SAP Supply Chain Management (SAP SCM) solutions.
- **Stratix, Inc.** – Georgia based Stratix is a substantial competitor of DecisionPoint, especially in the South Eastern part of the U.S. Their customer base includes large nationally based Tier-1 retailers, distributors, major commercial airlines and general manufacturers. In December 2011, Stratix announced that Grey Mountain Partners had acquired a majority interest in the company. In 2012, Stratix, Inc. announced a strategic partnership with PiiComm, Inc., a provider of wireless and mobile workforce solutions for enterprise and government in Canada specializing in transportation & logistics, field services, warehouse and healthcare. In 2013, Stratix, Inc. sold their software division to ServicePower Technologies Plc (AIM:SVR), the sale includes Stratix’ Field Service mobile application development team, intellectual property and existing Field Service Software contacts.
- **Denali Advanced Integration** – Washington based Denali Advanced Integration is a full system integration company with services ranging from IT Consulting, Managed Services and Enterprise Mobility Solutions. Denali is a substantial competitor of DecisionPoint in the North Western part of the U.S. Denali Advanced Integration partners with major mobility vendors Motorola, Intermec and Zebra.
- **Group Mobile** –Arizona based Group Mobile is exclusively focused on providing a total solution to customers within the area of rugged, mobile, and field-use computing products.
- **Pariveda Solutions** –Headquartered in Dallas Texas, Pariveda Solutions is an IT consulting company delivering both strategic consulting services and technical solutions to customers.
- **Barcoding, Inc.** – Maryland based Barcoding helps organizations streamline their operations with automatic identification and data collection systems (AIDC). Clients include manufacturing, distribution, healthcare and warehousing enterprises, as well as state, local and federal agencies.
- **Other Competitors in the U.S.** – Certain ‘catalog and online’ AIDC equipment resellers offer end-users deeply discounted, commodity oriented products; however, they typically offer limited or no maintenance support beyond the manufacturer’s warranty (which generally results in slower repair turnaround time). More

importantly, as end users have become increasingly dependent on VARs and Sis to provide platform design, integration and maintenance, end users typically do not place major purchase orders with such resellers.

## **Employees**

As of September 30, 2014, we have a total of 79 full time employees and 2 part time employees. We have not experienced any work disruptions or stoppages and we consider relations with our employees to be good.

## DESCRIPTION OF PROPERTIES

We lease our office and warehouse facilities and certain equipment under various operating leases which expire at various dates through fiscal 2020 and require us to pay a portion of the related operating expenses such as maintenance, property taxes, and insurance. Certain facilities contain renewal options for varying periods. In most cases, management expects that in the normal course of business, leases will be renewed or replaced by other leases. Certain facilities leases have free or escalating rent payment provisions. Rent expense under such leases is recognized on a straight-line basis over the lease term.

The corporate headquarters and sales operations, including sales administration, software development, depot operation and the financial management were located in Foothill Ranch, California where the Company leased 7,500 square feet of office space which expired in July 2012. In May 2012, we entered into a new office lease agreement for 10,325 square feet beginning in July 2012; the lease expires in July 2017. The property is located in Irvine, California. The current monthly rental expense is approximately \$13,000.

In addition, the Company leased 4,100 square feet in Shelton, Connecticut for its East coast sales and operations which expires in April 2015. In September 2012, the Company notified the landlord of its early termination of the lease as of April 2013. The Company also leased 6,800 square feet in Edison, New Jersey under a lease which expires in December 2014. In December 2013, the Company notified the landlord of its early termination of the lease as of March 2014. The Company has a sales and administrative office located in Alpharetta, Georgia where it leases 5,100 square feet for general office purposes under a lease which expires in July 2018. In addition, the Company has a lease for 4,800 square feet in Alpharetta, Georgia for its technology lab center which expired in April 2012. During April, the lease was extended for an additional 3 years until April 2015, under the same terms and conditions. The current monthly rental expense for the sales and administrative office and the technology lab is approximately \$13,000.

Effective upon the closing date of the purchase of Apex in June 2012, we assumed Apex's lease of 7,800 square feet in Burlington, Ontario, Canada, which expires in March 2016. The current monthly rental expense is approximately CDN\$10,000.

Effective upon the closing date of our purchase of Illume Mobile in July 2013, we assumed the Illume Mobile lease of 10,000 square feet in Tulsa, Oklahoma, with the same terms and conditions as the underlying lease. The lease expired in September 2013. In May 2013, we entered into a new office lease agreement for 6,358 square feet located in Tulsa, Oklahoma beginning September 2013. The lease expires in August 2020. The current monthly rental expense is approximately \$6,000.

We believe that our properties are in good condition, adequately maintained and suitable for the conduct of our business. Certain of our lease agreements provide options to extend the lease for additional specified periods.

## LEGAL PROCEEDINGS

On July 2, 2014, the Company received a written “Wells Notice” from the staff of the Securities and Exchange Commission (the “SEC”) indicating that the staff has made a preliminary determination to recommend that the SEC bring an administrative proceeding against the Company. On the same day, Nicholas R. Toms, the Company’s then President and Chief Executive Officer and a then-serving member of the board of directors, also received a Wells Notice. The SEC staff has informed the Company that both Wells Notices relate to allegations that, from late 2009 to early 2011, Mr. Toms was the beneficial owner of shares of common stock of the Company that were held and traded by a Delaware corporation in which Mr. Toms was a 10% owner; that Mr. Toms exercised control over the corporation’s securities account; and that the corporation’s shareholding and trades should have been reflected at the relevant times in public disclosures of Mr. Toms’ other holdings of the Company’s common stock. A Wells Notice is neither a formal allegation of wrongdoing nor a finding that any violations of law have occurred. Rather, it provides the recipient with an opportunity to respond to issues raised by the staff and offer its perspective to the staff prior to any decision to institute proceedings. In response to the Wells Notice, the Company’s Audit Committee conducted an internal review, assisted by new outside legal counsel, and on August 8, 2014, we submitted to the SEC a response to the Wells Notice setting forth why no action should be commenced against us. As of the date of this filing, there have been no further developments in respect of the Wells Notice to the Company. On August 15, 2014, Mr. Toms resigned from his positions as Chief Executive Officer, President and member of the Company’s board of directors.

In July of 2014, the Company settled an action brought against it by stockholder Michael N. Taglich., in the Delaware Chancery Court, seeking to compel the Company to hold an annual meeting of the Company's stockholders, pursuant to which the Company agreed to hold an annual meeting of stockholders on or before October 15, 2014. The Company held its annual meeting of stockholders on October 28, 2014. Because the October 15, 2014 date for the meeting was originally set as part of the settlement of a court action brought by Michael Taglich to compel the holding of the meeting, the Company and Mr. Taglich executed a stipulation that the meeting be rescheduled as indicated above, which the court thereafter ordered.

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business.

## MANAGEMENT

The names of our executive officers and directors and their respective ages and titles as of the date of this prospectus are set forth below:

<b>Name</b>	<b>Age</b>	<b>Title</b>
James F. DeSocio	59	Interim Chief Executive Officer and Director
Michael P. Roe	52	Chief Financial Officer
Gregory A. Henry	51	Senior Vice President, Operations and Software Services
Bryan E. Moss	48	Senior Vice President, Professional Services
Robert Schroeder	48	Director and Chairman
Michael N. Taglich	49	Director
John Guttilla	58	Director
Stanley P. Jaworski, Jr.	64	Director
Paul A. Seid	67	Director

On November 10, 2014, John Chis, Senior Vice President, Sales, resigned from his position, effective November 21, 2014.

Directors are elected annually and hold office until the next annual meeting of the stockholders of the Company and until their successors are elected. Officers are elected annually and serve at the discretion of the Board of Directors.

Set forth below is a brief description of the background and business experience of each of our executive officers and directors for the past five years.

### **James F. DeSocio, Interim Chief Executive Officer and Director**

Mr. DeSocio became a director as of the close of business on October 3, 2014 and became Interim CEO on November 10, 2014. He has more than 20 years of international enterprise software sales experience. As the Executive Vice President of Field Operations at XRS Corporation, he was responsible for enterprise license revenue, professional services sales and implementation and business development and partner programs. During his tenure, XRS successfully launched its new enterprise Fleet Management software, XRS (the product), and sold to and implemented product and service offerings for hundreds of new customers. Prior to XRS, Mr. DeSocio served as Executive Vice President of Global Sales and Business Development at Antenna Software. From Dec 2007 through June 2012, Mr.

DeSocio grew Antenna's annual bookings fourfold. Mr. DeSocio also served as Chief Executive Officer of Riskclick Inc., a venture-funded startup focused on developing a cloud-based underwriting solution for the property and casualty insurance market. Over a three-year period, Mr. DeSocio raised an \$8 million round of funding, solidified the company product and customer bases and in July 2007 led the sale of Riskclick to Skywire Software, which was subsequently sold to Oracle in June 2008. Mr. DeSocio also held various roles with Lawson, now Infor, over a twelve-year period, including Executive Vice President of Worldwide Field Operations, in which role he was responsible for all company revenue, and leader of its successful IPO. Mr. DeSocio holds a business administration degree from Rutgers University.

**Michael P. Roe, Chief Financial Officer**

Mr. Roe has been serving as the Company's Vice President, Finance since October 2012 and was named Principal Financial Officer in May 2013. On February 21, 2014, Mr. Roe was appointed to serve as Chief Financial Officer. Prior to starting with the Company, Mr. Roe spent approximately one year as an independent financial consultant. From October 2006 to October 2011, Mr. Roe served as the Chief Accounting Officer for Metagenics, Inc., a global life sciences company. Mr. Roe previously worked with KPMG LLP in Orange County, California and is an active, licensed Certified Public Accountant and a member of the American Institute of Certified Public Accountants.

**Gregory A. Henry, Senior Vice President, Operations and Software Services**

Mr. Henry joined DecisionPoint Systems in 2001 to lead the Professional Services organization. Since joining, he has held multiple management positions and led many of the Company's growth initiatives. Prior to joining DecisionPoint, Mr. Henry was with Symbol Technologies for 13 years and held positions in Professional Services, Product Marketing, Sales and Services Management. Mr. Henry attended California State University at Sacramento, receiving a Bachelor of Science degree in business administration/ marketing.

**Bryan E. Moss, Senior Vice President, Professional Services**

Mr. Moss joined DecisionPoint upon the consummation of the Company's acquisition of CMAC Inc. ("CMAC") on December 31, 2010. He has 21 years of information technology, logistics, sales, and engineering experience. Mr. Moss had been a principal, along with being the President, of CMAC for the past 15 years. Prior to his time with CMAC, he was Senior Manager of the Supply Chain Practice for Accenture, responsible for Alliances and Supply Chain Execution Systems Implementations. Mr. Moss served in a management capacity with UPS and Burnham Logistics in Information Technology, Engineering, and Operations. He attended Southern Tech, receiving a Bachelor of Science degree in Industrial Engineering with a Minor in Technical Sales and Distribution.

**Robert Schroeder, Director and Chairman**

Mr. Schroeder was elected to the Board of Directors on November 18, 2013, after being nominated to the board of directors by Taglich Brothers, Inc. ("Taglich"), in connection with the Company's previously disclosed sale of Series E Preferred Stock, for which Taglich acted as placement agent. He is Vice President of Investment Banking of Taglich and specializes in advisory services and capital raising for small public and private companies. Prior to that, Mr. Schroeder served as Senior Equity Analyst publishing sell-side research on publicly traded companies. Mr. Schroeder has been with Taglich since 1993. Prior to joining Taglich, Mr. Schroeder served in various positions in the brokerage and public accounting industries. Mr. Schroeder received a B.S. degree in accounting and economics from New York University. He currently serves on the board of directors of Air Industries Group, a publicly traded manufacturer of aerospace parts and assemblies. He also currently serves on the board of publicly traded Intellinetics, Inc., a provider of cloud-based enterprise content management solutions. He became Interim Chairman of the Board as of the close of business on October 3, 2014 and Chairman on November 10, 2014.

**Michael N. Taglich**

Michael N. Taglich became a director as of the close of business on October 3, 2014. He is the Chairman and President of Taglich Brothers, Inc., a New York City-based securities firm that he co-founded in 1992. Taglich Brothers, Inc. focuses on public and private micro-cap companies in a wide variety of industries. Mr. Taglich serves on the Board of Directors of Air Industries Group, an aerospace and defense company (NYSE MKT:AIRI), of which he is chairman of the board, and Bridgeline Digital, Inc., a technology company that enables its customers to maximize the performance of their mission-critical websites, intranets and online stores (NASDAQ Capital MKT:BLIN). He also serves as a director of a number of private companies, including BioVentrix, Inc., a privately owned medical device company whose products are directed at heart failure treatment, and Caldera Pharmaceuticals Inc., a drug screening company.

### **John Guttilla**

John Guttilla became a director as of the close of business on October 3, 2014. He is a Partner in the accounting firm of RotenbergMeril where he is a member of the firm's management committee and director of the firm's Financial Services Department. RotenbergMeril are the independent registered public accountants for Air Industries Group (NYSE MKT: AIRI) where Mr. Guttilla serves as the engagement partner. He is also a director and Chairman of the Audit Committee of Orchids Paper Products Company (NYSE MKT: TIS). Mr. Guttilla is a certified public accountant and holds a B.S. degree in Accounting from Fordham University and a Masters in Taxation from St. John's University.

**Stanley P. Jaworski, Jr.**

Stanley P. Jaworski, Jr. became a director as of the close of business on October 3, 2014. He is VP Marketing for the Comodo Group, an internet security company. He was Vice President Marketing for the Americas of Motorola Solutions, Inc. (NYSE:MSI) from 2009 until May 2014. From 2007 to 2009, Mr. Jaworski was Chief Marketing Officer of VBrick Systems, Inc., which provides enterprise Internet protocol (IP) video solutions for corporate, education, worship, media and government markets worldwide, and from 2005 to 2007, he was Vice President, Worldwide Channel Marketing, of NetApp, Inc., a computer storage and data management company.

**Paul A. Seid**

Paul A. Seid became a director as of the close of business on October 3, 2014. For the past fifteen years, he has been President of Strategic Data Marketing, a research and data collection company. For the last two years, he has also served as CEO of RST Automation, a hospital instrumentation automation developer. Mr. Seid is a director of BG Staffing, Inc. (OTCQB: BGSF), a national temporary staffing company, and BioVentrix, Inc., a privately owned medical device company whose products are directed at heart failure treatment.

**Committees of the Board**

The Audit Committee members are John Guttilla and Robert Schroeder. The Audit Committee Chairman is Mr. Guttilla. The Audit Committee assists our board in fulfilling its responsibility for the oversight of the quality and integrity of our accounting, auditing, and reporting practices, and such other duties as directed by the board. The committee's purpose is to oversee our accounting and financial reporting processes, the audits of our financial statements, the qualifications of our public accounting firm engaged by us as our independent auditor to prepare or issue an audit report on our financial statements. Mr. Guttilla is the "audit committee financial expert" within the meaning of SEC rules and regulations.

The Compensation and Governance and Nominating Committee members are Michael Taglich, Paul Seid and Robert Schroeder. The Compensation and Governance and Nominating Committee Chairman is Mr. Schroeder. The Compensation Committee's role is to discharge our board's responsibilities relating to compensation of our executives and to oversee and advise the board of directors on the adoption of policies that govern our compensation and benefit programs.

When considering whether directors and nominees have the experience, qualifications, attributes and skills, the Company and the Board focused primarily on the information discussed in each of the directors' individual biographies set forth above.

Except as otherwise reported above, none of our directors have held directorships in other reporting companies and registered investment companies at any time during the past five years.

### **Director Independence**

The Board of Directors has determined that that each of the Directors is independent under the director independence rules of the NASDAQ Stock Market, except for Mr. DeSocio, who is determined not to be independent as a result of his having become interim CEO.

### **Involvement in Certain Legal Proceedings**

To our knowledge, during the last ten years, none of our directors and executive officers has:

- Had a bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time.
- Been convicted in a criminal proceeding or been subject to a pending criminal proceeding, excluding traffic violations and other minor offenses.

- Been subject to any order, judgment or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities.
- Been found by a court of competent jurisdiction (in a civil action), the SEC, or the Commodities Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended or vacated.
- Been the subject to, or a party to, any sanction or order, not subsequently reverse, suspended or vacated, of any self-regulatory organization, any registered entity, or any equivalent exchange, association, entity or organization that has disciplinary authority over its members or persons associated with a member.

### **Employment Agreements**

We have an employment agreement with Bryan Moss, one of our executive officers identified above, as a result of the CMAC acquisition. The agreement calls for an annual bonus upon CMAC achieving certain results of operations. None of the other terms of the agreement are out of the ordinary course of business.

### **Family Relationships**

There are no family relationships between any of our directors or executive officers and any other directors or executive officers.

**EXECUTIVE COMPENSATION****Executive Officer Compensation***Executive Officer Compensation*

The following table summarizes all compensation recorded in each of the last two completed fiscal years for our principal executive officers and our three most highly compensated executive officers who were serving as executive officers as of the end of the last fiscal year. All such officers, collectively, are referred to herein as our “Named Officers”.

<b>Name</b>	<b>Year</b>	<b>Salary</b>	<b>Bonus</b>	<b>Stock Awards</b>	<b>Option Awards (1)</b>	<b>Non-Equity Incentive Plan</b>	<b>Change in Pension Value &amp; Nonqualified Deferred Comp</b>	<b>All Other</b>	<b>Total</b>

The stock option awards represent the aggregate grant date fair value of the awards granted during the year completed in accordance with ASC718 (see “Note 14 – Stock Option Plan” in the Notes to Consolidated Financial Statements in our annual report on Form 10-K for the year ended December 31, 2013). The Company grants stock (1) options periodically to members of management. The table reflects awards granted to each of the Named Executive Officers. Mr. Moss and Mr.

Dalicandro joined the Company in connection with acquisitions, in December 2010 and June 2012, respectively.

- (2) Mr. Rowley, former CFO, resigned from the Company effective July 23, 2012. The salary for Mr. Rowley includes \$187,000 in separation expenses under his employment contract and \$41,000 in vacation payout.
- Mr. Hubregsen, former Chief Operating Officer, left the Company on December 3, 2013. The salary for Mr. Hubregsen includes \$138,000 in separation expenses under his employment contract and \$22,000 in vacation payout.
- (3) Mr. Dalicandro and the Company agreed to terms for his separation as an officer as of July 31, 2013. The separation agreement provided for normal *pro rata* salary payments twice monthly and the receipt of various employee benefits, to cover the transition period August 1, 2013 through October 31, 2013, and the severance period November 1, 2013 through April 30, 2014.
- (4) Mr. Ross, former Interim CFO, was paid on a consulting basis at \$30,000 per month, which included a placement agency fee.
- (5) On August 15, 2014, Mr. Toms resigned from his position as Chief Executive Officer, President and member of the Board of Directors.
- (6) Mr. Moss earned a bonus for operations in 2012 as part of the acquisition of CMAC, Inc. on December 31, 2010. The bonus was paid in 2013 in cash and stock.
- (7) (8) Mr. Chis left the Company on November 10, 2014.

Dan Romanello served from August 2013 until July 2014 as the Executive Advisor to the CEO and upon the beginning of Mr. Toms' leave was assigned Mr. Toms' duties as an officer on an interim basis until the appointment of James F. DeSocio as Interim CEO on November 10, 2014. Mr. Romanello was paid since August 2013 on a consulting basis at \$20,000 per month.

On October 1, 2014, CFO Michael Roe was awarded 100,000 options to purchase Common Stock at the closing market price on that date of \$0.31 per share, with 34,000 of such options vesting immediately and 33,000 more of such options to vest on each of the first two one-year anniversaries of the grant. The options are exercisable through the five-year anniversary of the grant.

***Outstanding Executive Officer Equity Awards at Fiscal Year-End***

The following table sets forth certain information with respect to outstanding equity awards at December 31, 2013, for each of our Named Officers.

(1) On August 15, 2014, Mr. Toms resigned from his position as Chief Executive Officer, President and member of the Board of Directors.

(2) Mr. Hubregsen left the Company on December 3, 2013.

(3) Mr. Chis left the Company on November 10, 2014.

On October 1, 2014, CFO Michael Roe was awarded 100,000 options to purchase Common Stock at the closing market price on that date of \$0.31 per share, with 34,000 of such options vesting immediately and 33,000 more of such options to vest on each of the first two one-year anniversaries of the grant. The options are exercisable through the five-year anniversary of the grant.

Except as set forth above, no other Named Officer of DecisionPoint has received an equity award.

### Director Compensation

The following table sets forth with respect to the named director, compensation information inclusive of equity awards and payments made during the year ended December 31, 2013. The composition of our Board changed substantially as of October 3, 2014. See “Management”.

Name	Fees Earned Or Paid in Cash	Stock Awards	Option Awards	Non-Equity Incentive Plan Compensation	Change in Pension Value & Nonqualified Deferred Compensation Earnings	All Other Compensation	Total

Robert Schroeder	5,700	-	-	-	-	-	5,700

## **CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

Our Code of Ethics requires our employees to avoid, wherever possible, all related party transactions that could result in actual or potential conflicts of interest. Our employees are also responsible for disclosing to management any actual or perceived conflicts of interest.

We purchase and sell certain products and services from and to iTEK Services, Inc. (“iTEK”). iTEK was affiliated with us through limited overlapping management and Board representation by our former Chief Executive Officer, Nicholas Toms (“former CEO”) and our former Chief Financial Officer, Donald Rowley (“former CFO”).

Effective upon the resignation of the Company’s former CFO during July 2012, and the concurrent discontinuance of the former CEO’s iTEK Board representation, the parties have no further overlapping management and therefore are no longer considered related parties effective August 2012.

During the years ended December 31, 2013 and 2012, we purchased products and services for \$36,000 and \$20,000, respectively, from iTEK. Sales to iTEK during the years ended December 31, 2013 and 2012 were \$0. Purchases from iTEK were on similar terms that we would have received from an unrelated third-party.

Amounts receivable from iTEK included in accounts receivable in the consolidated balance sheets as of December 31, 2013 and 2012 were \$0. Amounts due to iTEK included in accounts payable in the consolidated balance sheets as of December 31, 2013 and 2012, were \$10,000 and \$39,000, respectively.

We had accounts payable, including accrued interest, to our former CFO of \$0, \$0 and \$855,000 at December 31, 2013, December 31, 2012 and December 31, 2011, respectively. The outstanding accounts payable balance accrued interest at a rate of 12% per annum, reduced from 25% in June 2011. The balance of the accounts payable consisted of purchases of products and services made by the former CFO on behalf of the Company, unreimbursed company travel expenses and interest on the accounts payable.

On June 30, 2011, the Company, Sigma Opportunity Fund II, LLC and the former CFO entered into an agreement under which the former CFO converted \$411,733 of the \$1,227,335 in accounts payable owed to him by the Company (the “AP Amount”) into 128,667 shares of the Company’s Series C Preferred Stock and 49,000 shares of Common Stock. Pursuant to this agreement, the former CFO also agreed that the interest rate of the balance of the AP Amount not covered by the agreement would be reduced to 12% per annum until such time as the annual dividend rate on the Series C Preferred Stock is increased to 12% per annum (month 17) and 20% per annum (month 31), at which times the interest rate on the AP Amount then outstanding would be 16% and 25%, respectively. On July 23, 2012, we

entered into a Separation Agreement and General Release (“Separation Agreement”) with the former CFO pursuant to which he resigned as our Chief Financial Officer and as an employee. Pursuant to the Separation Agreement, we agreed to pay the former CFO a total of \$205,592 in equal installments in accordance with our payroll cycle beginning on August 1, 2012 through December 31, 2012. Additionally, under the Separation Agreement, the Company acknowledged that it owed the former CFO \$890,633, which would be paid in accordance with an Accounts Payable Payment Plan agreement between the Company and the former CFO dated July 23, 2012 (“Accounts Payable Agreement”). Pursuant to the Account Payable Agreement, the Company agreed to pay interest monthly in arrears (starting on August 1, 2012) to the former CFO with interest computed daily on the outstanding balance at an annual interest rate of 25%. Under the Accounts Payable Agreement, the Company agreed to pay \$36,000 per month due on the first of each month to the former CFO towards the outstanding balance. In September 2012, the Company paid \$921,000 to the former CFO, including \$30,367 of accrued interest, in satisfaction of all amounts owed under the Accounts Payable Agreement.

On June 4, 2012 (the “Closing Date”), 2314505 Ontario Inc., a wholly owned subsidiary of ours (the “Purchaser”), Karen Dalicandro (“KD”), Donald Dalicandro and 2293046 Ontario Inc. (“KD Co” and together with KD, the “Vendors”) entered into a Share Purchase Agreement (“SPA”). Pursuant to the SPA, Purchaser purchased all of the issued and outstanding shares of Apex Systems Integrators Inc. (“Apex”), a corporation organized under the laws of the Province of Ontario, Canada. In consideration for the shares of Apex, on the Closing Date, the Purchaser paid CDN\$5,000,000 (the “Closing Amount”), of which CDN\$240,000 (the “Escrow Amount”) was placed in escrow with the Purchaser’s attorney and CDN\$10,000 was held by the Purchaser as a holdback. On the Closing Date, the Purchaser and Apex merged under the corporate name of Apex Systems Integrators Inc. (hereafter referred to as “Apex”). Mr. Dalicandro became a member of our Board of Directors on the Closing Date. Apex leases premises from an entity controlled by Mr. Dalicandro. For the years ended December 31, 2013 and December 31, 2012, rent expense included in our consolidated financial statements was \$130,000 and \$84,000, respectively. Additionally, at December 31, 2012, the Purchaser had a receivable of \$188,177 from the Vendors in connection with the Working Capital requirement as defined in the Purchase Agreement and described in “Note 5 – Business Combinations” in the Notes to Consolidated Financial Statements in our annual report on Form 10-K for the year ended December 31, 2013.

On November 15, 2012, the Company entered into an agreement (the “Sigma Agreement”) with Sigma Opportunity Fund II, LLC (“Sigma Opportunity Fund”) and Sigma Capital Advisors, LLC (“Sigma Advisors”). Pursuant to the Sigma Agreement, the parties agreed to amend the Certificate of Designation of our Series C Preferred Stock (the “Series C Certificate of Designation”) to modify the definition of Conversion Value such that effective as of January 1, 2013, if the Series C Preferred Stock has not been redeemed as of such date, the Conversion Value would be equal to the lower of the Conversion Value then in effect or \$0.61 per share (representing the closing price of our Common Stock on October 31, 2012) (subject to adjustments for stock splits, stock dividends, recapitalizations and the like). Pursuant to the Sigma Agreement, the Company paid to Sigma Advisors an administrative fee of \$150,000 (which was to be netted against amounts otherwise owed to Sigma Advisors by the Company in connection with any services provided or money owed to Sigma Advisors by the Company by December 31, 2012) and issued to the holders of the Series C Preferred Stock an aggregate of 175,364 shares of Common Stock as an anti-dilution adjustment. Pursuant to the Sigma Agreement, Sigma Opportunity Fund and Sigma Advisors agreed to a standstill with respect to securities of the Company for the period from November 15, 2012 through December 31, 2012.

On October 3, 2012, the Company, Sigma Opportunity Fund II, LLC, Sigma Capital Advisors and the former CFO entered into Amendment No. 1 to the Consent and Waiver Agreement dated as of June 4, 2012 (“Consent and Waiver Amendment”). Pursuant to the Consent and Waiver Amendment, the parties agreed to amend the Certificate of Designations of the Powers, Preferences, and Relative Participating, Optional and Other Special Rights of Preferred Stock and Qualifications, Limitations and Restrictions thereof of Series C Cumulative Convertible Preferred Stock of the Company which was filed with the Secretary of State of Delaware on July 1, 2011 (“Certificate of Designations”) to increase the Dividend Rate (as defined therein) to 20% on the Stated Value (as defined therein) for each dividend period beginning June 4, 2012. The parties also agreed to amend the Certificate of Designations to modify the definition of Breach Event.

Pursuant to the Consent and Waiver Amendment, the parties agreed that if the Company did not redeem on a *pro rata* basis for cash at least \$2,206,000, in Stated Value (as defined in the Certificate of Designations) of the Series C Preferred Stock on or before October 31, 2012, then the parties would negotiate in good faith until November 15, 2012, relating to changes to the Certificate of Designations and other related matters that the parties might wish to agree upon in order to protect the interests of the Series C Preferred Stock, and the Company would file the amended Certificate of Designations within two weeks thereafter. If the Company and a majority in interest of the Series C Preferred Stock were unable to agree upon revised terms by November 15, 2012, the Company would file an amendment to the Certificate of Designations no later than November 15, 2012, to provide that the Conversion Value (as defined in the Certificate of Designations) would be equal to the lower of (i) the Conversion Value then in effect, (ii) \$1.20 per share or (iii) the closing price of the Company’s Common Stock on October 31, 2012 (in each case subject to the continuing anti-dilution provisions contained in the Certificate of Designations). Pursuant to the Consent and Waiver Amendment, the Company also agreed to issue an aggregate of 175,364 shares of the Company’s Common Stock to the holders of the Series C Preferred Stock on November 15, 2012.

On December 20, 2012, all outstanding shares of Series C Preferred Stock were redeemed by the Company for an aggregate redemption price (including accrued dividends) of \$4,732,567.

Michael N. Taglich, who became a director as of the close of business on October 3, 2014, is the Chairman and President of Taglich Brothers, Inc., a New York City-based securities firm that he co-founded in 1992. Taglich Brothers, Inc. has in the past acted as a placement agent on Series D Preferred and Series E Preferred offerings of ours, for which it has received compensation customary in the market for acting in such capacity on offerings similar to such offerings of ours.

**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth certain information regarding our common stock, beneficially owned as of November 30, 2014, by (i) each person known to us to beneficially own more than 5% of our common stock, (ii) each executive officer and director, and (iii) all directors and executive officers as a group. We calculated beneficial ownership according to Rule 13d-3 of the Exchange Act as of that date. Shares issuable upon exercise of options or warrants that are exercisable or convertible within 60 days after the date of this prospectus are included as beneficially owned by the holder. Beneficial ownership generally includes voting and dispositive power with respect to securities. Unless otherwise indicated below, the persons and entities named in the table have sole voting and sole dispositive power with respect to all shares beneficially owned. Unless otherwise noted below, the address of each person listed is care of our company at 8697 Research Drive Irvine, CA 92618.

All beneficial ownership percentages as they relate to the ESOP plan are as of December 31, 2013, the latest date of the ESOP share allocation.

(1) Except as otherwise indicated, the address of each beneficial owner is 8697 Research Drive, Irvine, California 92618-4204.

(2) Includes, on an as-converted basis, securities that provide the right to acquire beneficial ownership of our Common Stock within 60 days, including our Series D Preferred.

(3) Applicable percentage ownership is based on 12,729,563 shares of Common Stock outstanding as of June 30, 2014, together with securities exercisable or convertible into shares of Common Stock within 60 days of June 30, 2014, for each stockholder. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Shares of Common Stock that are currently exercisable or exercisable within 60 days of June 30, 2014, are deemed to be beneficially owned by the person holding such securities for the purpose of computing the percentage of ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person.

- (4) Reserved
- (5) Includes 34,000 shares issuable upon the exercise of options.
- (6) Includes 64,721 shares of Common Stock held by the ESOP. The stockholder beneficially owns 3.8% of the ESOP. Also includes 22,685 shares issuable upon the exercise of options.
- (7) Includes 4,638 shares of Common Stock held by the ESOP. The stockholder beneficially owns 0.3% of the ESOP. Also includes 36,521 shares of Common Stock underlying 2,593 shares of series D Preferred stock. Includes 58,423 shares of Common Stock underlying 4,148 shares of Series D Preferred Stock, 40,740 shares (8) issuable upon conversion of Series E Preferred Stock and 247,450 are issuable upon the exercise of warrants. Also includes 44,104 shares issuable upon the exercise of options.
- Includes 1,059,789 shares issuable upon conversion of 75,245 shares of Series D Preferred Stock, 305,620 shares issuable upon conversion of 15,281 shares of Series E Preferred Stock and warrants to purchase 351,343 shares of Common Stock. Michael N. Taglich has sole voting power with respect to 393,227 shares of Common Stock and sole dispositive power with respect to 1,050,190 shares of Common Stock.
- (9) He has shared voting and dispositive power with respect to 935,647 shares of Common Stock, including 497,394 shares as to which he shares voting and dispositive power with his brother Robert F. Taglich and 438,253 shares as to which he shares voting and dispositive power with his wife. Mr. Taglich's address is 275 Madison Avenue, New York, New York 10016.
- (10) Includes 16,056 shares issuable upon conversion of 1,140 shares of Series D Preferred Stock.
- (11) Reserved
- Includes 496,676 shares issuable upon conversion of 35,264 shares of Series D Preferred Stock and 305,220 (12) shares issuable upon conversion of 15,261 shares of Series E Preferred Stock. Includes 225,649 shares held in trusts for which Mr. Seid serves as trustee.
- North Star Trust Company, the trustee of the ESOP, is deemed to have the dispositive and voting control over the (13) shares held by the ESOP. The North Star Trust Company is located at 500 W. Madison St., Suite 3150, Chicago, IL 60053.
- (14) Includes 35,311 shares as to which he shares voting and dispositive power with his brother, Michael N. Taglich. Mr. Taglich's address is 275 Madison Avenue, New York, New York 10016.

## **DESCRIPTION OF SECURITIES**

### **Common Stock**

The Company is authorized to issue 100,000,000 shares of common stock, each having a par value of \$0.001. The holders of our common stock are entitled to receive dividends if and when declared by our board of directors out of funds legally available for distribution. Any such dividends may be paid in cash, property or shares of our common stock. We have not paid any dividends since our inception, and it is not likely that any dividends on our common stock will be declared in the foreseeable future. Any dividends will be subject to the discretion of our board of directors, and will depend upon, among other things, our operating and financial condition and our capital requirements and general business conditions.

Holders of common stock are entitled to one vote for each share held of record. There are no cumulative voting rights in the election of directors. With respect to any matter, other than the election of directors or a matter for which the affirmative vote of the holders of a specified portion of the shares entitled to vote is required by Delaware General Corporate Law, the affirmative vote of the holders of a majority of the shares entitled to vote on that matter and represented in person or by proxy at a meeting of shareholders at which a majority is present shall be required to take action. Directors shall be elected by a plurality of the votes cast by the holders of shares entitled to vote in the election of directors at a meeting of shareholders at which a majority is present. Thus the holders of more than 50% of the outstanding shares of common stock can elect all of our directors if they choose to do so.

The holders of our common stock have no preemptive, subscription, conversion or redemption rights. Upon our liquidation, dissolution or winding-up, the holders of our common stock are entitled to receive our assets pro rata.

### **Preferred Stock**

The Company is authorized to issue 10,000,000 shares of preferred stock, each having a par value of \$0.001, of which 500,000 shares are designated as Series A Preferred Stock, of which 269,608 are issued and outstanding, 500,000 shares are designated as Series B Preferred Stock, of which 131,347 are issued and outstanding, 5,000,000 shares are designated as Series C Preferred Stock, of which 0 shares are issued and outstanding, 4,000,000 shares are designated as Series D Preferred Stock, of which 730,357 shares are issued and outstanding, and 2,000,000 shares are designated as Series E Preferred Stock, of which 416,533 shares are issued and outstanding.

#### ***Series A Preferred Stock and Series B Preferred Stock***

The holders of the Series A and Series B Preferred Stock shall be entitled to receive, when, as, and if declared by the Board of Directors, dividends at an annual rate of 8% of the stated value. The stated value of the Series A Preferred is \$4.00 per share and the stated value of the Series B Preferred is \$3.20 per share. Dividends shall be cumulative and shall accrue on each share of the outstanding preferred stock from the date of its issue. The holders of the Series A and Series B Preferred Stock have no voting rights except on matters affecting their rights or preferences.

Subject to the rights of the Series D Preferred Stock, upon any liquidation, dissolution or winding-up of the Company, the holders of the Series A (subject to the rights of the Series B Preferred) and Series B Preferred Stock shall be entitled to receive an amount equal to the stated value per share of \$4.00 and \$3.20, respectively, plus any accrued and unpaid dividends before any payments shall be made to the holders of any common stock or hereinafter issued preferred stock. The Series A Preferred Stock has preference over the Series B Preferred Stock in liquidation.

Each share of Series A Preferred Stock is convertible, at the option of the holder, at a conversion price of \$4.00 per share. Each share of Series B Preferred Stock is convertible, at the option of the holder, at a conversion price of \$3.20 per share.

### *Series C Preferred Stock*

On December 20, 2012, all issued and outstanding shares of Series C Preferred Stock were redeemed using the proceeds generated from the sale of the Series D Preferred Stock. On November 12, 2013, the Company filed a Certificate of Elimination of Series C Preferred Stock, pursuant to which, the 5,000,000 shares of the Company's preferred stock that had been designated as Series C Preferred Stock were returned to the status of blank check preferred stock.

### *Series D Preferred Stock*

On December 20, 2012, we filed the Series D Certificate of Designation with the Secretary of State of Delaware. Pursuant to the Series D Certificate of Designation, we designated 4,000,000 shares of our preferred stock as Series D Preferred Stock. The Series D Preferred Stock has a Stated Value of \$10.00 per share, votes on an as-converted basis with the common stock, and is convertible, at the option of the holder, into such number of shares of our common stock equal to the number of shares of Series D Preferred Stock to be converted, multiplied by the Stated Value, divided by the Conversion Price in effect at the time of the conversion. The initial Conversion Price was \$1.00, subject to adjustment in the event of stock splits, stock dividends and similar transactions, and in the event of subsequent equity sales at a lower price per share, subject to certain exceptions. As a result of the August 2013 Private Placement, the Conversion Price of the Series D Preferred Stock was reduced to \$0.90. As a result of the sale of Series E Preferred Stock, the Conversion Price of the Series D Preferred Stock was further reduced to \$0.71 on November 12, 2013. The Series D Preferred Stock entitles the holder to cumulative dividends, payable quarterly, at an annual rate of (i) 8% of the Stated Value during the three year period commencing on the date of issue, and (ii) 12% of the Stated Value commencing three years after the date of issue. We may, at our option, pay dividends in Series D PIK Shares, in which event the applicable dividend rate will be 12% and the number of such PIK Shares issuable will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective Conversion Price or (y) the average volume weighted average price of the Company's common stock for the five prior consecutive trading days.

Pursuant to the Series D Certificate of Designation, upon any liquidation, dissolution or winding-up of our Company, holders of Series D Preferred Stock will be entitled to receive, for each share of Series D Preferred Stock, an amount equal to the Stated Value of \$10.00 per share plus any accrued but unpaid dividends thereon before any distribution or payment may be made to the holders of any common stock, Series A Preferred Stock, Series B Preferred Stock, or subsequently issued preferred stock.

Pursuant to the Series D Certificate of Designation, commencing on the trading day on which the closing price of the common stock is greater than \$2.00 for thirty consecutive trading days with a minimum average daily trading volume of at least 5,000 shares for such period, and at any time thereafter, the Company in its sole discretion may cause the conversion of all of the outstanding shares of Series D Preferred Stock to common stock (subject to the condition that, all of the shares issuable upon such conversion may be re-sold without limitation under an effective registration statement or pursuant to Rule 144 under the Securities Act of 1933, as amended).

Pursuant to the Series D Certificate of Designation, commencing two years from the termination or expiration of the offering of the Series D Preferred Stock (which termination occurred on December 31, 2012), and at any time thereafter, the Company in its sole discretion may redeem all of the outstanding shares of Series D Preferred Stock at a purchase price of \$10.00 per share plus any accrued but unpaid dividends.

*Series E Preferred Stock*

In connection with the Series E First Closing, on November 12, 2013, we filed the Series E Certificate of Designation with the Secretary of State of Delaware. Pursuant to the Series E Certificate of Designation, we designated 2,000,000 shares of the Company's preferred stock as Series E Preferred Stock. The Series E Preferred Stock has a Stated Value of \$10.00 per share, does not have voting rights, and is convertible, at the option of the holder, into such number of shares of common stock equal to the number of shares of Series E Preferred Stock to be converted, multiplied by the Stated Value, divided by the Conversion Price in effect at the time of the conversion. The initial Conversion Price is \$0.50, subject to adjustment in the event of stock splits, stock dividends and similar transactions, and in the event of subsequent equity sales at a lower price per share, subject to certain exceptions. The Series E Preferred Stock entitles the holder to cumulative dividends (subject to the prior dividend rights of the Company's Series D Preferred Stock), payable quarterly, at an annual rate of (i) 10% of the Stated Value during the three year period commencing on the date of issue, and (ii) 14% of the Stated Value commencing three years after the date of issue. We may, at our option (subject to certain conditions), pay dividends in shares of Series E Preferred Stock, in which event the applicable dividend rate will be 14% and the number of shares issuable as a dividend will be equal to the aggregate dividend payable divided by the lesser of (x) the then effective Conversion Price or (y) the average volume weighted average price of our common stock for the five prior consecutive trading days.

Pursuant to the Series E Certificate of Designation, upon any liquidation, dissolution or winding-up of our Company, holders of Series E Preferred Stock will be entitled to receive (following payment in full of amounts owed to in respect of the Company's Series D Preferred Stock), for each share of Series E Preferred Stock, an amount equal to the Stated Value of \$10.00 per share plus any accrued but unpaid dividends thereon before any distribution or payment may be made to the holders of any common stock, Series A Preferred Stock, Series B Preferred Stock, or subsequently issued preferred stock.

Pursuant to the Series E Certificate of Designation, commencing on the trading day on which the closing price of the common stock is greater than \$1.35 for thirty consecutive trading days with a minimum average daily trading volume of at least 10,000 shares for such period, and at any time thereafter, we, in our sole discretion, may effect the conversion of all of the outstanding shares of Series E Preferred Stock to common stock (subject to the condition that, all of the shares issuable upon such conversion may be re-sold without limitation under an effective registration statement or pursuant to Rule 144 under the Securities Act. In addition, commencing on the later of (a) one year following the termination or expiration of the offering of the Series E Preferred Stock (which termination occurred November 12, 2013) and (b) the date on which all of the Company's Series D Preferred Stock is either redeemed or converted into Common Stock, and at any time thereafter, we may redeem all of the outstanding Series E Preferred Stock, at a purchase price of \$10.00 per share plus any accrued but unpaid dividends. There is no restriction upon our right to redeem the Series E Preferred Stock while there is any arrearage in the payment of any dividends on Series E Preferred Stock.

In connection with the Series E First Closing, on November 12, 2013, we filed Amendment No. 2 to our Certificate of Designation of Series A Preferred Stock, and Amendment No. 2 to our Certificate of Designation of Series B Preferred Stock. Pursuant to the Series A Amendment and the Series B Amendment, the Series A Preferred Stock and the Series B Preferred Stock will be subordinate to the Series E Preferred Stock with respect to any distributions upon any liquidation, dissolution or winding-up of our Company, respectively.

## **INDEMNIFICATION FOR SECURITIES ACT LIABILITIES**

Section 145 of the Delaware General Corporation Law, or the Delaware Law, provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement in connection with specified actions, suits or proceedings, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation — a "derivative action"), if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe their conduct was unlawful. A similar standard is applicable in the case of derivative actions, except that indemnification only extends to expenses (including attorneys' fees) incurred in connection with defense or settlement of such action, and the statute requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. Under Section 145 of the Delaware Law, a corporation shall indemnify an agent of the corporation for expenses actually and reasonably incurred if and to the extent such person was successful on the merits in a proceeding or in defense of any claim, issue or matter therein.

Section 145 of the Delaware Law authorizes a court to award, or a corporation's board of directors to grant, indemnity to directors and officers in terms sufficiently broad to permit such indemnification under certain circumstances for liabilities (including reimbursement for expenses incurred) arising under the Securities Act of 1933, as amended. Our amended and restated certificate of incorporation and bylaws provide for indemnification of our directors, officers, employees and other agents to the maximum extent permitted by the Delaware Law. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling our company pursuant to such provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

## **PLAN OF DISTRIBUTION**

We are registering the shares Series E Preferred Stock to permit the resale of these shares of stock by the holders thereof from time to time after the date of this prospectus. We will not receive any of the proceeds from the sale by the selling stockholders of the shares of stock. We will bear all fees and expenses incident to our obligation to register the shares. We have not retained any underwriter on our behalf or the behalf of the selling stockholders in connection with the offer and sale of the securities to be sold by them under this prospectus.

Our common stock is quoted on the OTCQB under the symbol “DPSI”. The selling stockholders may sell all or a portion of the shares held by them and offered hereby from time to time directly or through one or more underwriters, broker-dealers or agents. If the shares are sold through underwriters or broker-dealers, the selling stockholders will be responsible for underwriting discounts or commissions or agent’s commissions. The shares may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale or at negotiated prices. These sales may be effected in transactions, which may involve crosses or block transactions, pursuant to one or more of the following methods:

- on any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale;
- in the over-the-counter market;
- in transactions otherwise than on these exchanges or systems or in the over-the-counter market;
- through the writing or settlement of options, whether such options are listed on an options exchange or otherwise;
- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;
- in transactions through broker-dealers that agree with the Selling Stockholders to sell a specified number of such shares at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

In addition, the selling stockholders may transfer the shares by other means not described in this prospectus. If the selling stockholders effect such transactions by selling shares to or through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the selling stockholders or commissions from purchasers of the shares for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the shares or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the shares in the course of hedging in positions they assume. The selling stockholders may also sell shares short and deliver shares covered by this prospectus to close out short positions and to return borrowed shares in connection with such short sales. The selling stockholders may also

loan or pledge shares to broker-dealers that in turn may sell such shares.

The selling stockholders may pledge or grant a security interest in some or all of the shares owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares from time to time pursuant to this prospectus or any amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending, if necessary, the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

To the extent required by the Securities Act and the rules and regulations thereunder, the selling stockholders and any broker-dealer participating in the distribution of the shares of stock may be deemed to be “underwriters” within the meaning of the Securities Act, and any commission paid, or any discounts or concessions allowed to, any such broker-dealer may be deemed to be underwriting commissions or discounts under the Securities Act. At the time a particular offering of the shares is made, a prospectus supplement, if required, will be distributed, which will set forth the aggregate amount of shares being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling stockholders and any discounts, commissions or concessions allowed or re-allowed or paid to broker-dealers.

There can be no assurance that any selling stockholder will sell any or all of the shares registered pursuant to the registration statement, of which this prospectus forms a part.

The selling stockholders and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act, and the rules and regulations thereunder, including, without limitation, to the extent applicable, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the shares by the selling stockholders and any other participating person. To the extent applicable, Regulation M may also restrict the ability of any person engaged in the distribution of the shares to engage in market-making activities with respect to the shares. All of the foregoing may affect the marketability of the shares and the ability of any person or entity to engage in market-making activities with respect to the shares.

We will pay all expenses of the registration of the shares of Series E Preferred Stock and common stock.

Once sold under the registration statement, of which this prospectus forms a part, the shares of Series E Preferred Stock and common stock will be freely tradable in the hands of persons other than our affiliates.

**SELLING STOCKHOLDERS**

The following table sets forth, the name of each selling stockholder, the nature of any position, office or other material relationship, if any, which the selling stockholder has had, within the past three years, with us or with any of our predecessors or affiliates, and the number of shares of our stock beneficially owned by the stockholder before this offering. The number of shares owned are those beneficially owned, as determined under the rules of the SEC, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under these rules, beneficial ownership includes any shares of common stock as to which a person has sole or shared voting power or investment power and any shares of common stock which the person has the right to acquire within 60 days through the exercise of any option, warrant or right, through conversion of any security or pursuant to the automatic termination of a power of attorney or revocation of a trust, discretionary account or similar arrangement. Except as set forth below, none of the selling stockholders is a broker-dealer or affiliate of a broker-dealer.

We have assumed all shares of stock reflected on the table will be sold from time to time in the offering covered by this prospectus. Because the selling stockholders may offer all or any portions of the shares of stock listed in the table below, no estimate can be given as to the amount of those shares of stock covered by this prospectus that will be held by the selling stockholders upon the termination of the offering.

(1) Represents (i) 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.

- (2) Represents (i) 100,000 shares of common stock issuable upon conversion of the 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 84,000 shares of common stock issuable upon conversion of 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (3) Represents (i) 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (4) Represents (i) 60,000 shares of common stock issuable upon conversion of the 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 50,400 shares of common stock issuable upon conversion of 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (5) Represents (i) 33,095 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 27,800 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (6) Represents (i) 661,900 shares of common stock issuable upon conversion of the 33,095 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 556,000 shares of common stock issuable upon conversion of 27,800 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (7) Represents (i) 6,905 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 5,800 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (8) Represents (i) 138,100 shares of common stock issuable upon conversion of the 6,905 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 116,000 shares of common stock issuable upon conversion of 5,800 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (9) Represents (i) 12,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 10,080 PIK Shares issuable as dividends on the Series E Preferred Stock.
- (10) Represents (i) 240,000 shares of common stock issuable upon conversion of the 12,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 201,600 shares of common stock issuable

upon conversion of 10,080 PIK Shares issuable as dividends on the Series E Preferred Stock.

(11) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(12) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(13) Represents (i) 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.

(14) Represents (i) 100,000 shares of common stock issuable upon conversion of the 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 84,000 shares of common stock issuable upon conversion of 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.

(15) Represents (i) 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(16) Represents (i) 20,000 shares of common stock issuable upon conversion of the 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 16,800 shares of common stock issuable upon conversion of 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(17) Represents (i) 1,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 1,260 PIK Shares issuable as dividends on the Series E Preferred Stock.

(18) Represents (i) 30,000 shares of common stock issuable upon conversion of the 1,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 25,200 shares of common stock issuable upon conversion of 1,260 PIK Shares issuable as dividends on the Series E Preferred Stock.

(19) Represents (i) 7,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 6,300 PIK Shares issuable as dividends on the Series E Preferred Stock.

(20) Represents (i) 150,000 shares of common stock issuable upon conversion of the 7,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 126,000 shares of common stock issuable upon conversion of 6,300 PIK Shares issuable as dividends on the Series E Preferred Stock.

(21) Represents (i) 12,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 10,500 PIK Shares issuable as dividends on the Series E Preferred Stock.

(22) Represents (i) 250,000 shares of common stock issuable upon conversion of the 12,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 210,000 shares of common stock issuable upon conversion of 10,500 PIK Shares issuable as dividends on the Series E Preferred Stock.

(23) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(24) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(25) Represents (i) 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.

(26) Represents (i) 60,000 shares of common stock issuable upon conversion of the 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 50,400 shares of common stock issuable upon conversion of 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.

(27) Represents (i) 2,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 1,680 PIK Shares issuable as dividends on the Series E Preferred Stock.

(28) Represents (i) 40,000 shares of common stock issuable upon conversion of the 2,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 33,600 shares of common stock issuable upon conversion of 1,680 PIK Shares issuable as dividends on the Series E Preferred Stock.

(29) Represents (i) 1,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 1,260 PIK Shares issuable as dividends on the Series E Preferred Stock.

(30) Represents (i) 30,000 shares of common stock issuable upon conversion of the 1,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 25,200 shares of common stock issuable upon conversion of 1,260 PIK Shares issuable as dividends on the Series E Preferred Stock.

(31) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(32) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(33) Represents (i) 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.

(34) Represents (i) 60,000 shares of common stock issuable upon conversion of the 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 50,400 shares of common stock issuable upon conversion of 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.

(35) Represents (i) 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.

(36) Represents (i) 100,000 shares of common stock issuable upon conversion of the 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 84,000 shares of common stock issuable upon conversion of 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.

(37) Represents (i) 10,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 8,400 PIK Shares issuable as dividends on the Series E Preferred Stock.

(38) Represents (i) 200,000 shares of common stock issuable upon conversion of the 10,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 168,000 shares of common stock issuable upon conversion of 8,400 PIK Shares issuable as dividends on the Series E Preferred Stock.

(39) Represents (i) 10,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 8,400 PIK Shares issuable as dividends on the Series E Preferred Stock.

(40) Represents (i) 200,000 shares of common stock issuable upon conversion of the 10,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 168,000 shares of common stock issuable upon conversion of 8,400 PIK Shares issuable as dividends on the Series E Preferred Stock.

(41) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(42) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(43) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(44) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(45) Represents (i) 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(46) Represents (i) 20,000 shares of common stock issuable upon conversion of the 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 16,800 shares of common stock issuable upon conversion of 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(47) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(48) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(49) Represents (i) 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.

(50) Represents (i) 60,000 shares of common stock issuable upon conversion of the 3,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 50,400 shares of common stock issuable upon conversion of 2,520 PIK Shares issuable as dividends on the Series E Preferred Stock.

(51) Represents (i) 6,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 5,040 PIK Shares issuable as dividends on the Series E Preferred Stock.

(52) Represents 120,000 shares of common stock issuable upon conversion of the 6,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 100,800 shares of common stock issuable upon conversion of 5,040 PIK Shares issuable as dividends on the Series E Preferred Stock.

(53) Represents (i) 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(54) Represents (i) 20,000 shares of common stock issuable upon conversion of the 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 16,800 shares of common stock issuable upon conversion of 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(55) Represents (i) 6,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 5,040 PIK Shares issuable as dividends on the Series E Preferred Stock.

(56) Represents 120,000 shares of common stock issuable upon conversion of the 6,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 100,800 shares of common stock issuable upon conversion of 5,040 PIK Shares issuable as dividends on the Series E Preferred Stock.

(57) Represents (i) 4,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 3,360 PIK Shares issuable as dividends on the Series E Preferred Stock.

(58) Represents 80,000 shares of common stock issuable upon conversion of the 4,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 67,200 shares of common stock issuable upon conversion of 3,360 PIK Shares issuable as dividends on the Series E Preferred Stock.

(59) Represents (i) 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.

(60) Represents (i) 100,000 shares of common stock issuable upon conversion of the 5,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 84,000 shares of common stock issuable upon conversion of 4,200 PIK Shares issuable as dividends on the Series E Preferred Stock.

(61) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(62) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(63) Represents (i) 7,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 6,300 PIK Shares issuable as dividends on the Series E Preferred Stock.

(64) Represents (i) 150,000 shares of common stock issuable upon conversion of the 7,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 126,000 shares of common stock issuable upon conversion of 6,300 PIK Shares issuable as dividends on the Series E Preferred Stock.

(65) Represents (i) 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(66) Represents (i) 20,000 shares of common stock issuable upon conversion of the 1,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 16,800 shares of common stock issuable upon conversion of 840 PIK Shares issuable as dividends on the Series E Preferred Stock.

(67) Represents (i) 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(68) Represents (i) 50,000 shares of common stock issuable upon conversion of the 2,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 42,000 shares of common stock issuable upon conversion of 2,100 PIK Shares issuable as dividends on the Series E Preferred Stock.

(69) Represents (i) 10,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 8,400 PIK Shares issuable as dividends on the Series E Preferred Stock held directly.

(70) Represents (i) 200,000 shares of common stock issuable upon conversion of the 10,000 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 168,000 shares of common stock issuable upon conversion of 8,400 PIK Shares issuable as dividends on the Series E Preferred Stock held directly.

(71) Represents (i) 1,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 1,260 PIK Shares issuable as dividends on the Series E Preferred Stock.

(72) Represents (i) 30,000 shares of common stock issuable upon conversion of the 1,500 shares of Series E Preferred Stock purchased under the Series E Purchase Agreement and (ii) 25,200 shares of common stock issuable upon conversion of 1,260 PIK Shares issuable as dividends on the Series E Preferred Stock.
