SSP SOLUTIONS, INC. ANNOUNCES FIRST QUARTER 2004 RESULTS

IRVINE, Calif., May 21, 2004 - SSP Solutions, Inc. (Nasdaq: SSPX), a leading provider of identity and information assurance products and services, today announced financial results for the first quarter ended March 31, 2004.

The Company reported total revenues of \$1.9 million for the first quarter ended March 31, 2004, versus \$3.3 million in the same quarter last year, which represents a 43% decrease in core business revenues. The Company reported an operating loss of \$1.6 million for the quarter ended March 31, 2004, versus an operating loss of \$451,000 in the same quarter of 2003. The loss from continuing operations for the quarter was \$2.0 million, or \$0.06 per basic and diluted share, versus a loss from continuing operations of \$1.5 million, or \$0.06 per basic and diluted share, in the same quarter of 2003. The net loss for the quarter was \$2.0 million, or \$0.06 per basic and diluted share, versus a net loss of \$1.6 million, or \$0.06 per basic and diluted share, in the same quarter last year.

Service revenues decreased 37.1% from \$1.1 million to \$667,000, and license revenues decreased by 16.7% from \$1.2 million to \$1.0 million for the quarter ended March 31, 2004 versus the same quarter in 2003. Product revenues decreased 79.8% from \$1.0 million to \$208,000 during the quarters ended March 31, 2004 and March 31, 2003, respectively. The large decrease in product revenues was partly due to the re-engineering and re-certification of the Argus 300 product that interrupted the shipment of product orders on hand. The company resumed shipping Argus 300 in May 2004. Product revenues were also impacted by

the delay of government purchase commitments due to diversion of funding for many programs resulting from increased government expenditures to support current military actions overseas, which also impacted service and license

revenues.

Total gross margin dollars decreased from \$2.2 million to 1.3 million, a decrease of 40.0% for the quarter ended March 31, 2004 from the same quarter in 2003. Gross margin percentage, however, increased to 71.3% for the quarter ended March 31, 2004 from 67.8% during the same quarter in 2003. During the same time periods, the Company increased operating expenses by \$244,000 or 9.1%, with a \$216,000, or 14.0%, increase in selling, general and administrative (SG&A) expenses and a \$28,000, or 2.5%, increase in research and development expenses. Included in the SG&A expenses were \$517,000 of costs related to the previously announced merger with SAFLINK Corporation (SAFLINK, Nasdaq: SFLK), and a \$373,000 benefit from the reduction in charges accrued relative to the previously recorded settlement of facility leases.

In March 2004, the Company announced the signing of a definitive merger agreement with SAFLINK. Pending stockholder and regulatory approval, SAFLINK will acquire all outstanding shares of the Company in a stock-for-stock transaction. Under terms of the merger agreement, the Company's security holders would receive approximately 49% of the combined company's fully-converted shares at closing and the security holders of SAFLINK would continue to hold shares that constitute the remaining 51% of the combined company's fully-converted shares at closing. The merger agreement approved by the boards of directors of each company calls for each share of the Company's common stock to be exchanged for 0.60 shares of SAFLINK common stock.

The shares outstanding increased in 2004 versus 2003 due to the issuance of approximately: 7.3 million shares for conversion of Series A Preferred stock into common stock and payment of related dividends; the issuance of 2.8 million shares for the conversion of various notes into common stock; 2.4 million shares for the exercise of warrants related to various financings; 710,000 shares for the payment of interest and financing costs; and the issuance of 472,000 shares related to the settlement of facility leases; and 123,000 shares for employee stock purchases and the exercise of stock options. Each of these transactions occurred after the first quarter of 2003.
