Report of Independent Registered Public Accounting Firm

To the Administrator of the Raytheon Savings and Investment Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Raytheon Savings and Investment Plan (the "Plan") at December 31, 2015 and December 31, 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The supplemental schedule of assets (held at end of year) at December 31, 2015 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the schedule of assets (held at end of year) is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ PricewaterhouseCoopers LLP Boston, Massachusetts June 14, 2016

Raytheon Savings and Investment Plan Notes to Financial Statements December 31, 2015 and 2014

1. Description of Plan

The following description of the Raytheon Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the majority of employees of Raytheon Company (the "Company" or the "Plan Sponsor"). Most employees are immediately eligible to enroll in the Plan on the first day of service. The purpose of the Plan is to provide participants with a tax-effective means of meeting both short-term and long-term investment objectives. The portion of the Plan that is invested in Raytheon Company common stock is an employee stock ownership plan ("ESOP") that is intended to constitute a stock bonus plan as defined in the Internal Revenue Code of 1986 (the "Code") and that includes a cash or deferred arrangement. The remaining portion of the Plan is a profit-sharing plan that includes a cash or deferred arrangement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan's investments are held in the Raytheon Savings and Investment Plan Trust (the "Trust").

Contributions and Deferrals

Eligible employees may contribute to the Plan up to 50% of their compensation, as defined in the Plan document. The Code limits eligible compensation the Plan may take into account to \$265,000 for the 2015 plan year. Employee contributions, including rollovers, are invested based on participant investment elections. For 2015, the annual employee pretax elective deferral contributions for a participant cannot exceed \$18,000, except for catch-up contributions. Participants also may make after tax contributions, but total employee (pretax and after tax) contributions and employer contributions may not exceed \$53,000 for the 2015 plan year, except for catch-up contributions. A participant who is eligible to make elective pretax contributions and is at least age 50 by the end of 2015 may make pretax catch-up contributions up to \$6,000. Participants may also make after tax Roth 401(k) contributions, which are aggregated with pretax contributions for purposes of the limits on contributions.

For most employees hired after December 31, 2009, for the first five consecutive years of service, the Company matches 100% of the first 3% of eligible compensation that a participant contributes to the Plan each pay period. After the first five consecutive years of service, the Company matches 100% of the first 4% of eligible compensation. For most employees hired before January 1, 2010, the Company matches 100% of the first 4% of eligible compensation that a participant contributes to the Plan each pay period. Matching Company contributions are made in cash and are invested based on the investment allocation elected by each participant.

Eligible employees hired or rehired on or after January 1, 2007 participate in the Retirement Income Savings Program ("RISP") (subject to the terms of any applicable collective bargaining agreements), in addition to having the right to participate in the other features of the Plan. Most employees hired after December 31, 2009 have a one-year waiting period for participation in RISP. Under RISP, the Company contributes a percentage of each RISP-eligible participant's compensation to the participant's RISP account in the Plan. The percentage contribution varies according to a schedule based on the participant's age at the most recent date of hire, years of service since the most recent date of hire and whether the participant was hired after December 31, 2009.

Participants may invest contributions in increments of 1% in any combination of investment options available, subject to percentage limitations applicable to some funds. The investment options range from investments with an emphasis

on preservation of capital to equity investments with an emphasis on capital gains. The underlying investments include investment contracts, registered investment companies, common collective trusts, Raytheon Company common stock, fixed income securities and other investments including a self-directed brokerage account.

Participant Accounts

Each participant account is credited with the participant's contributions, the Company's contributions and an allocation of Plan earnings (losses). The allocation of Plan earnings (losses) is based on the participant account's balance and investment option allocation. Expenses payable by the Plan are charged to participant accounts or paid from the forfeiture account.

Table of Contents

Raytheon Savings and Investment Plan Notes to Financial Statements December 31, 2015 and 2014

Participants are not permitted to make a direct exchange from the Raytheon Fixed Income Fund (the "Fixed Income Fund"), a stable value fund specifically managed for the Plan, into a "competing" fund (such as a money market fund). Investors who wish to move money from the Fixed Income Fund to a "competing" fund must first make an exchange from the Fixed Income Fund to a non-competing fund for 90 days. After 90 days, participants may exchange from a non-competing fund into a competing fund.

Vesting

With the exception of RISP participants and certain union groups, all employee and most employer contributions including ESOP contributions and earnings (losses) thereon are immediately 100% vested for each participant who performs an hour of service on or after January 1, 1999. Most RISP participants become 100% vested in the employer RISP contributions after three years of service. Forfeitures of the non-vested portions of terminated participants' accounts are available to reduce Company contributions and pay administrative expenses. At December 31, 2015 and 2014, unallocated Plan forfeitures were \$65,997 and \$148,362, respectively. During 2015, the total amount of forfeitures were \$2,725,845.

Notes Receivable from Participants

A participant may borrow a portion of the balance in the participant's account, other than the RISP account, subject to certain restrictions. The maximum amount of a loan is the lesser of one-half of the participant's vested account balance or \$50,000, minus the participant's highest outstanding loan balance over the previous 12 months. The minimum loan is \$500. Loans are secured by the balance in the participant's account and bear interest equal to the prime rate published in The Wall Street Journal on the last business day of the calendar quarter preceding the calendar quarter in which the loan is made. Loans must be repaid over a period of up to five years, except that if the loan is used to acquire the participant's principal residence, the repayment period may extend up to 15 years. Loan payments and interest payments are credited to the participant's account in the investment options according to the participant's current investment election. As of December 31, 2015 and 2014, the interest rates on the outstanding loans ranged from 3.25% to 9.50% and 3.25% to 10.00%, respectively.

Payment of Benefits

A participant may make certain in-service withdrawals including all or a portion of participant after tax contributions and related earnings at any time and all or a portion of participant contributions, employer contributions and related earnings upon attainment of age 59 1/2. For reasons of financial hardship, a participant may withdraw all or a portion of participant pretax contributions and related earnings subject to a reduction in the maximum participant pretax contribution rate for the next six months. Participants who have participated in the Plan for five years or more may take withdrawals of their company matching contributions. On termination of employment, a participant will receive a lump-sum distribution unless the vested account is valued in excess of \$1,000 and the participant elects to defer distribution. Otherwise, a terminated participant will receive statutory distributions on April 1 of the year following the year in which the participant reaches the age of 70 1/2 and may defer any remaining distributions until the participant's death.

Participants who have investments in the Raytheon Stock Fund which is primarily comprised of Raytheon Company common stock may elect to reinvest dividends within the Plan or, if vested, receive dividends in cash. Any dividends received in cash by participants will be subject to taxes in the year of receipt. Of the \$32,634,662 in dividends earned by the Plan in 2015, \$902,247 was received in cash by participants who elected the cash payment option.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from the estimates included in the financial statements.

Table of Contents

Raytheon Savings and Investment Plan Notes to Financial Statements December 31, 2015 and 2014

Investment Valuation and Income Recognition

Fully benefit-responsive investment contracts (FBRICs) are reported at contract value, which is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in FBRICs through the Fixed Income Fund.

Plan investments, other than FBRICs, are stated at fair value. See Note 3 for discussion of fair value measurements.

Security transactions are recorded on the trade date. Payables and receivables for outstanding purchases and sales represent trades which have occurred but have not yet settled and are recorded on the statements of net assets available for benefits.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, excluding FBRICs, which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. No allowance for credit losses have been recorded as of December 31, 2015 or 2014. Delinquent participant loans are classified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses of administering the Plan such as loan processing, legal fees and other administrative fees are charged directly or indirectly to participant accounts. Those expenses of administering the Plan that are not charged to participant accounts are paid by the forfeiture account or by the Company.

Subsequent Events

The Plan has evaluated subsequent events through the time of filing this Form 11-K with the Securities and Exchange Commission.

Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07 "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." For all investments for which fair value is measured using the net asset value per share practical expedient, ASU 2015-07 removes the requirement to make certain disclosures and to categorize them within the fair value hierarchy. These disclosure changes are required for annual reporting periods beginning after December 15, 2015, and interim periods within those annual periods. Management is currently evaluating the impact ASU 2015-07 will have on the Plan's financial statements and disclosures.

In July 2015, FASB issued ASU No. 2015-12 "I.Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, III. Measurement Date Practical Expedient." Under Part I of the update, fully benefit-responsive investment contracts are measured, presented and disclosed at contract value for defined contribution and health and welfare benefit plans. Part II of the update eliminates the requirement to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investment by general type. Additionally, Part II requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investment in multiple ways. Part III of the update provides a practical expedient to permit plans to measure investment and investment-related accounting as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

The update is effective for fiscal years beginning after December 15, 2015. The Plan's financial statements reflect the early adoption, including retrospective application, as allowed by the accounting standard. The adoption of the standard did not result in a material change to the presentation of the financial statements as a whole.

Table of Contents

Raytheon Savings and Investment Plan Notes to Financial Statements December 31, 2015 and 2014

3. Fair Value Measurements

The accounting standard for fair value measurements provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. This accounting standard established a fair value hierarchy, which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted

Level 2: prices in markets that are not active; or other inputs that are observable or that we corroborate with

observable market data for substantially the full term of the related assets or liabilities.

Level 3: Unobservable inputs supported by little or no market activity that are significant to the fair value of the

assets or liabilities.

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

Following is a description of valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Investments in registered investment companies are valued at the closing net asset value reported on the last business day of the year. Investments in securities (common stocks) traded on a national securities exchange are valued at the exchange traded close.

The Plan invests in common collective trusts ("CCT") which are valued at the net asset value ("NAV") of the CCT. The NAV, as provided by the investment manager or custodian, is net of fees and is based on the fair value of the underlying investments held by the CCT less its liabilities. Participant transactions (purchases and sales) may occur daily. If the Plan were to initiate a full redemption of the CCT, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth the investment assets of the Plan that were measured at fair value on a recurring basis by level within the fair value hierarchy. We classify assets measured at fair value in their entirety based on the lowest level of input that is significant to their fair value measurement.

Fair Value of Investment Assets as of 12/31/2015

	Total	Level 1	Level 2	Lev 3	el
Registered investment companies	\$5,613,215,935	\$5,613,215,935	5\$—	\$	
BrokerageLink	495,413,917	495,413,917	_		
Raytheon Company common stock	1,475,053,616	1,475,053,616	_		
Common collective trusts	5,377,555,847	_	5,377,555,847		
Total investments at fair value	\$12,961,239,315	5\$7,583,683,468	3\$5,377,555,847	7\$	_

During December 31, 2015, there were no transfers between levels.

During December 31, 2014, there were no transfers between levels.

4. Fully Benefit-Responsive Investment Contracts (FBRICs)

For the plan year ended December 31, 2015 and 2014, the Plan included the Fixed Income Fund, which holds four FBRICs issued by American General Life Insurance Company, JP Morgan Chase Bank, Prudential Insurance Company of America and State Street Bank and Trust Company (collectively the "FBRIC Providers").

The FBRICs make up the Synthetic Guaranteed Investment Contracts ("Synthetic GICs") and are designed to decrease volatility by providing the Fixed Income Fund with the ability to execute certain participant transactions at contract value through the use of FBRICs. Under the FBRICs, there is no immediate recognition of gains and losses on the Fixed Income Fund's investments. Instead gains and losses are recognized over time by periodically adjusting the interest rates credited to the Fixed Income Fund. This allows the Fixed Income Fund to credit a fixed interest rate for stated periods of time on investments which are subject to FBRICs.

Income from the FBRICs is reported net of administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value with certain restrictions related to the transfer of funds into a competing investment option. The Plan considers such factors as the benefit responsiveness of the investment contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by an issuer of an investment security in evaluating the components of the FBRICs.

The FBRICs accrue interest using a formula embedded in the contract called the "crediting rate." The FBRICs use the crediting rate formula to convert market value changes in the FBRICs assets into income distributions in order to minimize the difference between the market and contract value of the FBRICs assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the Fixed Income Fund's current market value at the Fixed Income Fund's current yield to maturity for a period equal to the Fixed Income Fund's duration. The crediting rate is the discount rate that equates estimated future market value with the Fixed Income Fund's current contract value. The crediting rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the wrapped investments. The difference is amortized over the duration of the investments. The magnitude of the impact of the contract value and the market value differential to the crediting rate is affected by the length of time between the reset period and the duration of the investments. Crediting rates are reset monthly. The FBRICs provide a guarantee that the crediting rate will not fall below 0%. Events disqualifying an underlying investment from being wrapped include, but are not limited to, bankruptcy, default or restricted liquidity of the security issuer.

The crediting rate, and hence the Fixed Income Fund's return, may be affected by many factors, including purchases and redemptions by participants. The precise impact on the Fixed Income Fund depends on whether the market value of the wrapped assets is higher or lower than the contract value of those assets. If the Fixed Income Fund experiences significant redemptions when the market value is below the contract value, the Fixed Income Fund's yield may be reduced significantly, to a level that is not competitive with other investment options. This may result in additional redemptions, which would tend to lower the crediting rate further. If redemptions continued, the Fixed Income Fund's yield could be reduced to zero. If redemptions continued thereafter, the Fixed Income Fund might have insufficient assets to meet redemption requests, at which point the Fixed Income Fund would require payments from the FBRICs Providers to pay further participant redemptions.

Table of Contents

Raytheon Savings and Investment Plan Notes to Financial Statements December 31, 2015 and 2014

The Fixed Income Fund and the FBRICs purchased by the Fixed Income Fund are designed to pay all participant-initiated transactions at contract value. Participant-initiated transactions are those transactions allowed by the Plan (typically this would include withdrawals for benefits, loans or transfers to non-competing investment options within the Plan). However, the FBRICs limit the ability of the Fixed Income Fund to transact at contract value upon the occurrence of certain events. At this time, management believes the occurrence of any of these events is not probable. These events include:

- 1. The Plan's failure to qualify under Section 401(a) or Section 401(k) of the Code.
- 2. The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- 3. Any substantive modification of the Plan or the administration of the Plan that is not consented to by the FBRIC Provider.
- 4. Complete or partial termination of the Plan.
- 5. Any known change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Fixed Income Fund's cash flow.
- 6. Any communication given to participants by the Plan Sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in the Fixed Income Fund or to transfer assets out of the Fixed Income Fund.
- 7. Exclusion of a material group of previously eligible employees from eligibility in the Plan.
- 8. Any material early retirement program, group termination, group layoff, facility closing or similar program.
- 9. Any transfer of assets from the Fixed Income Fund directly to a competing option.
- 10. Bankruptcy of the Plan Sponsor or other Plan Sponsor events which cause a significant withdrawal from the Plan.

A FBRIC Provider may terminate a FBRIC at any time. In the event that the market value of the Fixed Income Fund's wrapped assets is below their contract value at the time of such termination, the Trustee may elect to keep the FBRIC in place until such time as the market value of the Fixed Income Fund's wrapped assets is equal to their contract value. A FBRIC Provider may also terminate a FBRIC if Fidelity Management Trust Company's (FMTC) investment management authority over the Fixed Income Fund is limited or terminated as well as if all of the terms of the FBRIC fail to be met. In the event that the market value of the Fixed Income Fund's wrapped assets is below their contract value at the time of such termination, the terminating FBRIC Provider would not be required to make a payment to the Fixed Income Fund.

FBRICs generally impose conditions on both the Plan and the FBRIC Provider. If an event of default occurs and is not cured, the non-defaulting party may terminate the FBRIC. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan agreement. The FBRIC Provider may be in default if it breaches a material obligation under the FBRIC; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the FBRIC; or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. The FBRIC Providers' ability to meet their contractual obligations under the respective FBRICs may be affected by future economic and regulatory developments in the insurance and banking industries. If, in the event of default of a FBRIC Provider, the Plan was unable to obtain a replacement FBRIC, withdrawing participants may experience losses if the value of the Fixed Income Fund's assets no longer covered by the FBRIC is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance that the Plan will be able to do so. The combination of the default of a FBRIC Provider and an inability to obtain a replacement FBRIC could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of a FBRIC generally provide for settlement of payments only upon termination of the FBRIC or

total liquidation of the wrapped investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each FBRIC Provider. FBRIC termination occurs whenever the contract value or market value of the wrapped investments reaches zero or upon certain events of default. If the FBRIC terminates due to the default of the FBRIC Provider (other than a default occurring because of a decline in its rating), the FBRIC Provider will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If a FBRIC terminates due to a decline in the ratings of the FBRIC Provider, the FBRIC Provider may be required to pay to the Plan the cost of acquiring a replacement contract (i.e. replacement cost) within the meaning of the FBRIC. If the FBRIC terminates when the market value equals zero, the FBRIC Provider will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy participant initiated withdrawal requests. FBRIC termination also may occur by either party upon election and notice.

The FBRIC Provider may elect to terminate the FBRIC for no reason by giving certain notice to the Trustee. If, at any time, prior to dates agreed to in each FBRIC for the receipt of such notice, the Trustee objects to such election, the Trustee shall be

Table of Contents

Raytheon Savings and Investment Plan Notes to Financial Statements December 31, 2015 and 2014

deemed to have made an immunization election and the immunization provisions of the FBRIC apply. The immunization provision results in the wrapped portion of the Fixed Income Fund being managed according to more conservative immunization investment guidelines provided for in the FBRIC and the contract can terminate in segments over a period of time. In the event a FBRIC Provider sought to terminate its FBRIC or immunize its portion of the Fixed Income Fund, the Fund can seek to replace that FBRIC Provider with another financial institution.

Plans investing in FBRICs and fixed income securities are subject to a number of risks, including credit risk of underlying investments, risk associated with prepayment of collateralized mortgage obligations, risk that third parties will not perform under the FBRICs, risk associated with interest rate fluctuations and risk of losses caused by liquidation of contracts or investments to meet withdrawal demands.

5. Certain Transactions Involving Related Parties and Parties-In-Interest

The Trustee of the Plan, FMTC, is a party-in-interest with respect to the Plan. Certain Plan transactions involve FMTC or its affiliates. For example, certain Plan investments are shares of registered investment companies managed by affiliates of FMTC. The Plan also pays fees to the Trustee. In addition, the Plan has a revenue sharing agreement with the Trustee whereby certain revenue received by the Trustee from sponsors of some Plan investment options is paid to the Trust. For the year ended December 31, 2015, \$168,761 in such revenue sharing was allocated to participant accounts.

Subject to the terms of the Plan document, the Plan makes certain loans to participants who are employees of the Company, and who are therefore parties-in-interest with respect to the Plan.

The Plan Sponsor, Raytheon Company, is a party-in-interest with respect to the Plan. In accordance with the provisions of the Plan, the Trustee acts as the Plan's agent for purchases and sales of shares of Raytheon Company common stock. Purchases amounted to \$27,208,705 and sales amounted to \$106,711,791 for the year ended December 31, 2015. Dividend income from shares of Raytheon Company common stock amounted to \$31,732,415 for the year ended December 31, 2015.

All of these transactions either fall outside the scope of, or are exempt from, ERISA's prohibited transaction rules.

6. Plan Termination

Although it has not expressed any intention to do so, the Company reserves the right under the Plan at any time to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all participants become fully vested in their accounts. In the event of Plan termination, after payment of all expenses and adjustment of accounts to reflect such expenses, fund losses or profits, and reallocations, each participant shall be entitled to receive all amounts then in his or her account.

7. Federal Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated June 25, 2012, that the design of the Plan meets the requirements for qualification under Code section 401(a), on which the tax exemption of the Trust under Code section 501(a) is based. The Plan has been amended since receiving the determination letter. The Plan administrator and the Company's benefits counsel believe that the current design and operation of the Plan are consistent with preservation of the qualification of the Plan and exemption of the Trust in the context of applicable

IRS procedures.

The Plan follows the provisions of uncertain tax positions that provide criteria for the recognition, measurement, presentations and disclosure of uncertain tax positions. The Plan may, from time to time, hold investments that give rise to certain tax liabilities. Based upon management's assessment, the Plan has not recognized any tax liabilities at December 31, 2015 and 2014, respectively. The Plan is subject to examinations by taxing jurisdictions. On March 21, 2014, the IRS informed the Company that it completed its examinations of the Plan for 2009, 2010 and 2011 and accepted the Plan's Form 5500s as filed. The Plan administrator believes the Plan is no longer subject to federal tax examination for years prior to 2012.

Raytheon Savings and Investment Plan Notes to Financial Statements December 31, 2015 and 2014

8. Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment options of the Plan, it is reasonably possible that changes in the values of investment securities will occur and such change could materially affect participants' account balances and the Plan's financial statements.

Counterparty credit risk is the risk that a counterparty to a financial instrument will fail on a commitment that it has entered into with the Plan. The Plan minimizes concentrations of counterparty credit risk by undertaking transactions with multiple counterparties. The Plan's investment fiduciary has a credit policy in place and the exposure to counterparty credit risk, as well as the creditworthiness of these counterparties, is monitored on an ongoing basis.
