URGENT SHAREHOLDER ALERT

RETURN YOUR WHITE PROXY CARD TODAY TO
PROTECT YOUR INVESTMENT IN ZWEIG TOTAL RETURN FUND

April 29, 2004

Dear Fellow ZTR Shareholder:

In a desperate attempt to get your vote, Phillip Goldstein has distributed misleading and inaccurate information about your Fund and its management. Mr. Goldstein has had a short-lived career of waging expensive and disruptive proxy contests against closed-end funds for his personal benefit. By our count, your Fund is Mr. Goldstein's fifteenth proxy fight in the past few years. He is adept at misrepresenting facts in order to sway shareholders to support his personal agenda. DO NOT BE MISLED!

DO NOT SUPPORT THE SELF-SERVING PROPOSALS
OF GOLDSTEIN AND HIS BAND OF RAIDERS

- Who do you want to be responsible for the management of your Fund - Dr. Marty Zweig and the Phoenix companies, who together have a proven track record of investment success for over a century, or Goldstein who has virtually no experience in fund management?
- The Board adopted the Fund's new distribution policy because it is the right policy for shareholders. It provides for substantial cash distributions to shareholders while preserving benefits from your Fund's capital loss carryover that would be lost by the dissidents' proposals. The dissidents are not interested in these benefits since their only interest is in obtaining short-term gains for themselves and their band of raiders.
- Do you want to convert your Fund to a junk bond fund? The dissidents' proposals would subject your Fund to unnecessary risks by encouraging speculative investments in junk bonds, derivatives and other high risk securities in an effort to reach a mandatory 10% cash dividend. These investment strategies are ill-advised, unrealistic and would not utilize your Fund's tax benefits.
- The dissidents' distribution policy will force you to pay additional

Edgar Filing: ZWEIG TOTAL RETURN FUND INC - Form DEFA14A

taxes that you would otherwise not have to pay under the Board's distribution policy of 7% cash and 3% Fund stock.

- Goldstein has sent you information that is full of inaccuracies and demonstrates a total lack of understanding of the operation and taxation of closed-end funds.

- The facts speak for themselves - since the Fund's April 8 announcement of a change in distribution policy, the discount on your Fund's shares has decreased from 9.7% to 6.9% as of April 23 while the average discount on closed-end bond funds has increased by approximately 7% during the same period as a result of rising interest rates. As anyone familiar with closed-end funds understands, they trade from time to time at discounts and premiums based on market conditions and other factors.

- To further their cause, the dissident shareholders have withheld from you the negative impact that open-ending your Fund could have, such as lower overall returns, significantly increased expenses and loss of NYSE listing. In addition, as short-term speculators like Goldstein exit and redeem their shares, your Fund may be forced to pay for redemptions by selling portfolio securities at inopportune times and incurring increased transaction costs. Your Board's decision to recommend against open-ending your Fund was a unanimous decision by the Fund's six directors, five of whom are totally independent. On the other hand, Goldstein and his cohorts are driven by self-interest and desire for short-term profits.

TIME IS SHORT TO CAST YOUR VOTE
