**Subject to Completion
Preliminary Prospectus Supplement dated April 6, 2009**

**PROSPECTUS SUPPLEMENT
(To prospectus dated April 6, 2009)**

\$200,000,000

**Ventas Realty, Limited Partnership
Ventas Capital Corporation**

6¹/₂% Senior Notes due 2016

Ventas Realty, Limited Partnership and Ventas Capital Corporation, wholly owned subsidiaries of Ventas, Inc., are offering \$200 million aggregate principal amount of their 6¹/₂% senior notes due 2016. The notes offered by this prospectus supplement, which we refer to as the "notes," are substantially similar in all respects as the issuers' existing \$200 million principal amount of 6¹/₂% senior notes due 2016, except that these notes will be issued with original issue discount and thus will be a separate series from, and have a different CUSIP number than, the existing 6¹/₂% senior notes due 2016.

The notes will bear interest at a rate of 6.50% per annum. Interest on the notes will be payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2009. Interest will accrue from December 1, 2008. The notes will mature on June 1, 2016. The notes will be unconditionally guaranteed, jointly and severally, on a senior unsecured basis by Ventas, Inc. and each of Ventas, Inc.'s current and future Restricted Subsidiaries (other than Excluded Joint Ventures) until certain conditions are met.

The issuers may redeem the notes, in whole or from time to time in part, (1) before June 1, 2011 at a redemption price equal to 100% of their principal amount plus a make-whole premium and (2) on or after June 1, 2011 at the redemption prices described under "Description of Notes - Optional Redemption," in each case plus accrued and unpaid interest, if any, to the date of redemption. In addition, before June 1, 2009, the issuers may redeem up to 35% of the notes at a specified redemption price with the net cash proceeds from certain equity offerings (not including Ventas, Inc.'s separate common stock offering described herein) plus accrued and unpaid interest, if any, to the date of redemption. Holders of the notes may require the issuers to repurchase their notes upon a change of control of Ventas, Inc., unless certain conditions are met.

The notes are part of the issuers', Ventas, Inc.'s and the other guarantors' general unsecured obligations, ranking equal in right of payment with all of such entities' existing and future senior unsecured indebtedness and ranking senior in right of payment to all of such entities' existing and future subordinated indebtedness. However, the notes will be effectively subordinated to all secured borrowings to the extent of the assets securing those obligations. The notes will also be structurally subordinated to the indebtedness and other obligations of Ventas, Inc.'s Unrestricted Subsidiaries and any Excluded Joint Ventures with respect to the assets of such entities.

Investing in the notes involves risks. See "Risk Factors" beginning on page S-6 of this prospectus supplement.

Ventas

We are a real estate investment trust ("REIT") with a geographically diverse portfolio of seniors housing and healthcare properties in the United States and Canada. As of December 31, 2008, this portfolio consisted of 513 assets: 248 seniors housing communities, 192 skilled nursing facilities, 41 hospitals and 32 medical office buildings ("MOBs") and other properties in 43 U.S. states and two Canadian provinces. With the exception of our seniors housing communities that are managed by Sunrise pursuant to long-term management agreements and the majority of our MOBs, we lease our properties to healthcare operating companies under "triple-net" or "absolute net" leases, which require the tenants to pay all property related expenses. We also had real estate loan investments relating to seniors housing and healthcare companies as of December 31, 2008.

We conduct substantially all of our business through our wholly owned subsidiaries, Ventas Realty, PSLT OP, L.P. and Ventas SSL, Inc. Our primary business consists of acquiring, financing and owning seniors housing and healthcare properties and leasing those properties to third parties or operating those properties through independent third party managers.

Our business strategy is comprised of three principal objectives: (1) portfolio diversification; (2) stable earnings and growth; and (3) maintaining a strong balance sheet and liquidity. While current conditions in the capital markets persist, maintaining a strong balance sheet and liquidity will be our primary focus.

Our principal executive offices are located at 111 South Wacker Drive, Suite 4800, Chicago, Illinois, 60606, and our telephone number is (877) 483-6827. We maintain a website on the Internet at <http://www.ventasreit.com>. Information on our website is not incorporated by reference herein and our web address is included in this prospectus supplement as an inactive textual reference only.

As a result, you should not expect Ventas Capital to participate in servicing the interest on or principal of the notes.

Common Stock Offering

Ventas, Inc. is also offering 8,500,000 shares of its common stock in a separate offering (the "Common Stock Offering") pursuant to a separate prospectus supplement. The consummation of this offering of notes is not conditioned on the closing of the Common Stock Offering. We may not complete the Common Stock Offering. This prospectus supplement relates only to the offering of notes and not to the Common Stock Offering.

Tender Offers

On April 6, 2009, we commenced four separate offers (each, an "Offer" and collectively, the "Tender Offers") to purchase for up to \$310.0 million in cash the issuers' (1) 6³/₄% Senior Notes due 2010 (the "2010 Notes"), (2) 9% Senior Notes due 2012 (the "2012 Notes"), (3) 6⁵/₈% Senior Notes due 2014 (the "2014 Notes") and (4) 7¹/₈% Senior Notes due 2015 (the "2015 Notes" and, together with the 2010 Notes, 2012 Notes and 2014 Notes, the "Tender Offer Notes"), each subject to the relevant terms and conditions set forth in the Offer to Purchase related to the Tender Offers. Each Offer will expire at 12:00 midnight, New York City time, on May 1, 2009, unless any such Offer is extended or earlier terminated. As of April 6, 2009, there was approximately \$102.1 million aggregate principal amount of 2010 Notes outstanding, \$186.8 million aggregate principal amount of 2012 Notes outstanding, \$175.0 million aggregate principal amount of 2014 Notes outstanding and \$170.0 million aggregate principal amount of 2015 Notes outstanding.

Assuming the conditions of each Offer are satisfied, the maximum aggregate purchase price for the Tender Offer Notes that we accept for purchase will be \$310.0 million. If we complete the Tender Offers, the net proceeds of this offering, together with net proceeds from the Common Stock Offering, cash on hand and/or borrowings under our unsecured revolving credit facilities, will be used to fund purchases of the Tender Offer Notes pursuant to the Tender Offers. See "Use of Proceeds."

Our obligation to accept for payment, and to pay for, any notes validly tendered pursuant to each Offer is subject to, among other things, (1) our receiving aggregate proceeds of at least \$300.0 million from the Common Stock Offering and this offering and (2) the satisfaction of the customary general conditions described in the Offer to Purchase. The consummation of this offering is not conditioned on the completion of the Tender Offers.

The notes are a series of securities for which there is currently no established trading market. The underwriters have advised us that they presently intend to make a market in the notes. However, you should be aware that they are not obligated to make a market and may discontinue their market-making activities at any time without notice. Use of proceeds

The net proceeds of this offering are estimated to be approximately \$ million after deducting the underwriting discount and estimated expenses of this offering. See "Use of Proceeds."

Risk factors

See "Risk Factors" and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus for a discussion of factors you should carefully consider before deciding to invest in the notes.

Table of Contents

RISK FACTORS

Our business, operations and financial condition are subject to various risks. You should carefully consider the following factors as well as other information contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein before deciding to invest in the notes.

Risks Arising from Our Business

We depend on Kindred and Brookdale Senior Living for a significant portion of our revenues and operating income; Any inability or unwillingness by Kindred or Brookdale Senior Living to satisfy its obligations under its agreements with us could have a Material Adverse Effect on us.

We lease a substantial portion of our properties to Kindred Healthcare, Inc. (together with its subsidiaries, "Kindred") and Brookdale Senior Living Inc. (together with its subsidiaries, which include Brookdale Living Communities, Inc. ("Brookdale") and Alterra Healthcare Corporation ("Alterra"), "Brookdale Senior Living") and they are each a significant source of our total revenues and operating income. Since our master lease agreements with Kindred (the "Kindred Master Leases") and our leases with Brookdale Senior Living are triple-net leases, we depend on Kindred and Brookdale Senior Living not only for rental income, but also to pay insurance, taxes, utilities and maintenance and repair expenses in connection with the leased properties. Any inability or unwillingness by Kindred or Brookdale Senior Living to make rental payments to us or to otherwise satisfy its obligations under its agreements with us could have a material adverse effect on our business, financial condition, results of operations and liquidity, on our ability to service our indebtedness and other obligations and on our ability to make distributions to our stockholders, as required for us to continue to qualify as a REIT (a "Material Adverse Effect"). Any failure by Kindred or Brookdale Senior Living to effectively conduct its operations could adversely affect its business reputation and ability to attract and retain patients and residents in its properties and also could have a Material Adverse Effect on us. Moreover, Kindred and certain subsidiaries of Brookdale Senior Living, namely Brookdale and Alterra, have agreed to indemnify, defend and hold us harmless from and against various claims, litigation and liabilities arising in connection with their respective businesses. We cannot assure you that Kindred or such subsidiaries of Brookdale Senior Living will have sufficient assets, income, access to financing and insurance coverage to enable it to satisfy these indemnification obligations.

The properties managed by Sunrise account for a significant portion of our revenues and operating income; Adverse developments in Sunrise's business and affairs or financial condition could have a Material Adverse Effect on us.

Sunrise currently manages 79 of our seniors housing communities pursuant to long-term management agreements. These properties represent a substantial portion of our portfolio, based on their gross book value, and account for a significant portion of our revenues and operating income. Although we have various rights as owner under the Sunrise management agreements, we rely on Sunrise's personnel, good faith, expertise, historical performance, technical resources and information systems, proprietary information and judgment to manage our properties efficiently and effectively. We also rely on Sunrise to set resident fees, to provide accurate property-level financial results for our properties in a timely manner and to otherwise operate those properties in accordance with the terms of our management agreements and in compliance with all applicable laws and regulations. For example, we depend on Sunrise's ability to attract and retain skilled management personnel who are responsible for the day-to-day operations of our seniors housing communities. A shortage of nurses or other trained personnel or general inflationary pressures may force Sunrise to enhance its pay and benefits package to compete effectively for such personnel, and Sunrise may not be able to offset such added costs by increasing the rates charged to residents. Any increase in these costs, which are included in the operating budget for each property, any failure by Sunrise to attract and retain qualified

Table of Contents

personnel, or any change in Sunrise's senior management could adversely affect the income we receive from these properties and have a Material Adverse Effect on us.

In addition, any adverse developments in Sunrise's business and affairs, financial strength or ability to operate our properties efficiently and effectively could have a Material Adverse Effect on us. As a result of the current economic and credit crisis and Sunrise's weakened financial condition, as disclosed in Sunrise's filings with the Commission and other public announcements, Sunrise may experience significant financial, legal, accounting or regulatory difficulties, which could result in, among other adverse events, acceleration of its indebtedness, the inability to renew or extend its revolving credit facility, the enforcement of default remedies by its counterparties or the commencement of insolvency proceedings under the U.S. Bankruptcy Code by or against Sunrise. Any one or a combination of these events could have a Material Adverse Effect on us.

The severe weakening economy could adversely impact our operating income and earnings, as well as the results of operations of our tenants and operators, which could impair their ability to meet their obligations to us.

The United States is experiencing a recession which is nearing the longest duration since the Great Depression. Continued concerns about the uncertainty over whether our economy will be adversely affected by inflation, deflation or stagflation, and the systemic impact of increased unemployment, volatile energy costs, geopolitical issues, the availability and cost of credit, the U.S. mortgage market and a severely distressed real estate market have contributed to increased market volatility and weakened business and consumer confidence. This difficult operating environment could adversely affect our ability to generate revenues and/or increase our costs at our Sunrise-managed properties, thereby reducing our operating income and earnings. It could also have an adverse impact on the ability of our tenants and operators to maintain occupancy rates in our properties, which could harm their financial condition. If these economic conditions continue, we may experience operating deficiencies at our Sunrise-managed properties and/or our tenants and operators may be unable to meet their rental payments and other obligations due to us, which could have a Material Adverse Effect on us.

We face potential adverse consequences of bankruptcy or insolvency by our tenants, operators, borrowers, managers and other obligors.

We are exposed to the risk that our tenants, operators, borrowers, managers or other obligors could become bankrupt or insolvent. Although our lease, loan and management agreements provide us with the right to exercise certain remedies in the event of default on the obligations owing to us or upon the occurrence of certain insolvency events, the bankruptcy and insolvency laws afford certain rights to a party that has filed for bankruptcy or reorganization. For example, a debtor-lessee may reject its lease with us in a bankruptcy proceeding. In such a case, our claim against the debtor-lessee for unpaid and future rents would be limited by the statutory cap of the U.S. Bankruptcy Code. This statutory cap might be substantially less than the remaining rent actually owed under the lease, and it is quite likely that any claim we might have for unpaid rent would not be paid in full. In addition, a debtor-lessee may assert in a bankruptcy proceeding that its lease should be re-characterized as a financing agreement. If such a claim is successful, our rights and remedies as a lender, compared to a landlord, would generally be more limited. Similarly, if a debtor-manager seeks bankruptcy protection, the automatic stay provisions of the U.S. Bankruptcy Code would preclude us from enforcing our remedies against the manager unless relief is first obtained from the court having jurisdiction over the bankruptcy case. In the event of an obligor bankruptcy, we may also be required to fund certain expenses and obligations (e.g. real estate taxes, debt costs and maintenance expenses) to preserve the value of our properties, avoid the imposition of liens on a property and/or transition a property to a new tenant, operator or manager.

Table of Contents

We may be unable to reposition our properties on as favorable terms, or at all, if we have to replace any of our tenants or operators, and we may be subject to delays, limitations and expenses in repositioning our assets.

We cannot predict whether our tenants will renew existing leases upon the expiration of the terms thereof. If the Kindred Master Leases, our leases with Brookdale Senior Living or any of our other leases are not renewed, we would be required to reposition those properties with another tenant or operator. In certain circumstances, we could also exercise our right to replace any tenant or operator upon a default under the terms of the applicable lease. In case of non-renewal, our tenants are required to continue to perform all obligations (including the payment of all rental amounts) for any assets that are not renewed until expiration of the then current lease term. We generally have one year to arrange for the repositioning of non-renewed assets prior to the expiration of the lease term. If we exercise our right to replace a tenant upon a default under a lease, during any period that we are attempting to locate a suitable replacement tenant or operator, there could be a decrease or cessation of rental payments on those properties. We cannot assure you that we would be successful in identifying suitable replacements or entering into leases with new tenants or operators on terms as favorable to us as our current leases, if at all. In this event, we may be required to fund certain expenses and obligations (e.g. real estate taxes, debt costs and maintenance expenses) to preserve the value and avoid the imposition of liens on properties while they are being repositioned.

Our ability to reposition our properties with another suitable tenant or operator could be significantly delayed or limited by various state licensing receivership, certificate of need or other laws, as well as by the Medicare and Medicaid change-of-ownership rules. We could also incur substantial additional expenses in connection with any licensing, receivership or change-of-ownership proceedings. These delays, limitations and expenses could materially delay or impact our ability to reposition our properties, collect rent, obtain possession of leased properties or otherwise to exercise remedies for tenant default and could have a Material Adverse Effect on us.

Our counterparties may not be able to satisfy their obligations to us due to the continued turmoil and uncertainty in the capital markets.

As a result of current economic conditions, including turmoil and uncertainty in the capital markets, credit markets have tightened significantly such that the ability to obtain new capital has become more challenging and more expensive. In addition, several large financial institutions have either recently failed or become dependent on the assistance of the U.S. federal government to continue to operate as a going concern. Interest rate fluctuations, financial market volatility or credit market disruptions could limit the ability of our tenants, operators and managers to obtain credit to finance their businesses on acceptable terms, which could adversely affect their ability to satisfy their obligations to us. Similarly, if any of our other counterparties, such as letter of credit issuers, insurance carriers, banking institutions, title companies and escrow agents, experiences difficulty in accessing capital or other sources of funds or fails to remain a viable entity, it could have a Material Adverse Effect on us.

We may be unable to successfully foreclose on the collateral securing our real estate loan investments, and even if we are successful in our foreclosure efforts, we may be unable to successfully reposition the properties, which may adversely affect our ability to recover our investments.

If a borrower defaults under one of our mortgage loans, we may have to foreclose on the loan, as we are doing with respect to three outstanding first mortgage loans in the aggregate principal amount of \$20.0 million, or protect our interest by acquiring title to the property and thereafter making substantial improvements or repairs in order to maximize the property's investment potential. The borrower may contest enforcement of foreclosure or other remedies, seek bankruptcy protection against our exercise of enforcement or other remedies and/or bring claims for lender liability in response to

Table of Contents

actions to enforce mortgage obligations. If the borrower seeks bankruptcy protection, the automatic stay provisions of the U.S. Bankruptcy Code would preclude us from enforcing foreclosure or other remedies against the borrower unless relief is first obtained from the court having jurisdiction over the bankruptcy case. Foreclosure-related costs, high loan-to-value ratios or declines in the value of the property may prevent us from realizing an amount equal to our mortgage loans upon foreclosure, and we may be required to record valuation allowance for such losses. Even if we are able to successfully foreclose on the collateral securing our real estate loan investments, we may inherit properties that we are unable to expeditiously reposition with new tenants or operators, if at all, which would adversely affect our ability to recover our investment.

We are exposed to various operational risks, liabilities and claims with respect to our operating assets that may adversely affect our ability to generate revenues and/or increase our costs and could have a Material Adverse Effect on us.

We are exposed to various operational risks, liabilities and claims with respect to our operating assets, including our Sunrise-managed properties and our medical office buildings, that may adversely affect our ability to generate revenues and/or increase our costs, thereby reducing our profitability. These risks include fluctuations in occupancy levels, the inability to achieve economic resident fees (including anticipated increases in those fees), rent control regulations, increases in costs of materials, energy, labor and services, national and regional economic conditions, the imposition of new or increased taxes, capital expenditure requirements, professional and general liability claims and the availability and costs of professional and general liability insurance. Any one or a combination of these factors could result in operating deficiencies at our operating assets which could have a Material Adverse Effect on us.

We may encounter certain risks when implementing our business strategy to pursue investments in, and/or acquisitions or development of, additional seniors housing and/or healthcare assets.

We intend to continue to pursue investments in, and/or acquisitions or development of, additional seniors housing and/or healthcare assets domestically and internationally, subject to the contractual restrictions contained in our unsecured revolving credit facilities and the indentures governing our outstanding senior notes. Investments in and acquisitions of these properties entail general risks associated with any real estate investment, including risks that the investment will fail to perform in accordance with expectations, that the estimates of the cost of improvements necessary for acquired properties will prove inaccurate or that the tenant, operator or manager will fail to meet performance expectations. In addition, any new development projects that we pursue would be subject to risks of construction delays or cost overruns that may increase project costs, new project commencement risks such as receipt of zoning, occupancy and other required governmental approvals and permits and the risk of incurring development costs in connection with projects that are not pursued to completion. Investments in and acquisitions of properties outside the United States would also expose us to legal, economic and market risks associated with operating in foreign countries, such as currency and tax risks. If we incur additional debt or issue equity securities, or both, to finance future investments, acquisitions or development activity, our leverage could increase or our per share financial results may be reduced.

When we attempt to finance, acquire or develop properties, we compete with healthcare providers, other healthcare REITs, healthcare lenders, real estate partnerships, banks, insurance companies, private equity and other investors, some of whom are significantly larger and have substantially greater financial resources than we do. Our ability to compete successfully for investment and acquisition opportunities is affected by many factors, including our cost of obtaining debt and equity capital at rates comparable to or better than our competitors. Increased competition makes it more challenging for us to identify and successfully capitalize on opportunities that meet our business objectives and

Table of Contents

could improve the bargaining power of property owners seeking to sell, thereby impeding our investment, acquisition and development activities. See "Business Competition" included in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2008. Even if we succeed in identifying and competing for such opportunities, we could encounter unanticipated difficulties and expenditures relating to the properties or businesses we invest in or acquire, the investment or acquisition could divert management's attention from our existing business, or the value of such investment or acquisition could decrease substantially, some or all of which could have a Material Adverse Effect on us.

Furthermore, as we continue to implement our business strategy to pursue investments in, and/or acquisitions or development of, additional seniors housing and/or healthcare assets or businesses, we expect to increase the number of operators of our properties and, potentially, our business segments. We cannot assure you that we will have the capabilities to successfully monitor and manage a portfolio of properties with a growing number of operators and/or manage such businesses.

Our investments are concentrated in seniors housing and healthcare real estate, making us more vulnerable economically than if our investments were diversified.

We invest primarily in real estate in particular, seniors housing and healthcare properties. This concentration exposes us to all of the risks inherent in investments in real estate to a greater degree than if our portfolio was diversified, and these risks are magnified by the fact that our real estate investments are limited to properties used in the seniors housing or healthcare industries. If the current downturn in the real estate industry continues or intensifies, it could adversely affect the value of our properties and our ability to sell properties for a price or on terms acceptable to us. A downturn in the seniors housing or healthcare industries could negatively impact our operating income and earnings, as well as our operators' ability to make rental payments to us, which, in turn, could have a Material Adverse Effect on us.

Because real estate investments are relatively illiquid, our ability to quickly sell or exchange any of our properties in response to changes in economic or other conditions will be limited. We cannot give any assurances that we will recognize full value for any property that we are required to sell for liquidity reasons. This inability to respond quickly to changes in the performance of our investments could adversely affect our business, results of operations and financial condition.

Furthermore, the healthcare industry is highly regulated, and changes in government regulation and reimbursement in the past have had material adverse consequences on the industry in general, which consequences may not have been contemplated by lawmakers and regulators. We cannot assure you that future changes in government regulation of healthcare will not have a material adverse effect on the healthcare industry, including our seniors housing and healthcare operations, tenants and operators. Our ability to invest in non-seniors housing or non-healthcare properties is restricted by the terms of our unsecured revolving credit facilities, so these adverse effects may be more pronounced than if we diversified our investments outside of real estate or outside of seniors housing or healthcare.

Our tenants, operators and managers may be adversely affected by increasing healthcare regulation and enforcement.

Over the last several years, the regulatory environment surrounding the long-term healthcare industry has intensified both in the amount and type of regulations and in the efforts to enforce those regulations. This is particularly true for large for-profit, multi-facility providers like Kindred, Brookdale Senior Living and Sunrise. The extensive federal, state and local laws and regulations affecting the healthcare industry include those relating to, among other things, licensure, conduct of operations, ownership of facilities, addition of facilities and equipment, allowable costs, services, prices for services, qualified beneficiaries, quality of care, patient rights, fraudulent or abusive behavior, and financial and

Table of Contents

other arrangements which may be entered into by healthcare providers. Changes in enforcement policies by federal and state governments have resulted in a significant increase in the number of inspections, citations of regulatory deficiencies and other regulatory sanctions, including terminations from the Medicare and Medicaid programs, bars on Medicare and Medicaid payments for new admissions, civil monetary penalties and even criminal penalties. See "Governmental Regulation Healthcare Regulation" included in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2008.

If our tenants, operators and managers fail to comply with the extensive laws, regulations and other requirements applicable to their businesses and the operation of our properties, they could become ineligible to receive reimbursement from governmental and private third-party payor programs, face bans on admissions of new patients or residents, suffer civil and/or criminal penalties and/or be required to make significant changes to their operations. Our tenants, operators and managers also could be forced to expend considerable resources responding to an investigation or other enforcement action under applicable laws or regulations. In such event, the results of operations and financial condition of our tenants, operators and managers and the results of operations of our properties operated or managed by those entities could be adversely affected, which, in turn, could have a Material Adverse Effect on us. We are unable to predict the future course of federal, state and local regulation or legislation, including the Medicare and Medicaid statutes and regulations, and any changes in the regulatory framework could likewise have a material adverse effect on our tenants, operators and managers, which, in turn, could have a Material Adverse Effect on us.

Changes in the reimbursement rates or methods of payment from third-party payors, including the Medicare and Medicaid programs, could have a material adverse effect on certain of our tenants and operators.

Kindred and certain of our other tenants and operators rely on reimbursement from third-party payors, including the Medicare and Medicaid programs, for substantially all of their revenues. There continue to be various federal and state legislative and regulatory proposals to implement cost-containment measures that limit payments to healthcare providers. See "Governmental Regulation Healthcare Regulation" included in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2008. In addition, private third-party payors have continued their efforts to control healthcare costs. We cannot assure you that adequate reimbursement levels will be available for services to be provided by Kindred and our other tenants and operators which are currently being reimbursed by Medicare, Medicaid or private payors. Significant limits by governmental and private third-party payors on the scope of services reimbursed and on reimbursement rates and fees could have a material adverse effect on the liquidity, financial condition and results of operations of certain of our tenants and operators, which could affect adversely their ability to make rental payments under, and otherwise comply with the terms of, their leases with us.

We have only limited rights to terminate our management agreements with Sunrise, and we may be unable to replace Sunrise if our management agreements are terminated or not renewed.

We and Sunrise are parties to long-term management agreements pursuant to which Sunrise currently provides comprehensive property management services with respect to 79 of our seniors housing communities. Each management agreement has a term of 30 years, but may be terminated by us upon the occurrence of an event of default by Sunrise in the performance of a material covenant or term thereof (including the revocation of any licenses or certificates necessary for operation), subject in each case to Sunrise's rights to cure deficiencies. Each management agreement may also be terminated upon the occurrence of certain insolvency events relating to Sunrise. In addition, if a minimum number of properties fail to achieve a targeted net operating income level for a given period, then we may terminate the management agreement on each property in such pool. This targeted net operating income level for each property is based upon an expected operating income projection set at the

Table of Contents

commencement of the management agreement for the applicable property, with such projection escalating annually. However, various legal and contractual considerations may limit or delay our exercise of any or all of these termination rights.

In the event that our management agreements with Sunrise are terminated for any reason or are not renewed upon expiration of their terms, we will have to find another manager for the properties covered by those agreements. We believe there are a number of qualified national and regional seniors care providers that would be interested in managing our Sunrise-managed properties. However, we cannot assure you that we will be able to locate another suitable manager or, if we are successful in locating such a manager, that such manager will manage the properties effectively. Any such inability or lengthy delay in replacing Sunrise as manager following termination or non-renewal of our management agreements could have a Material Adverse Effect on us.

Our current and future investments in joint ventures could be adversely affected by our lack of sole decision-making authority, our reliance on our joint venture partners' financial condition, any disputes that may arise between us and our joint venture partners and our exposure to potential losses from the actions of our joint venture partners.

As of December 31, 2008, we had a 75% to 85% ownership interest in 61 of our seniors housing communities, with the minority interests in those communities being owned by affiliates of Sunrise. In addition, we owned eight medical office buildings through joint ventures with partners who typically provide management and leasing services for the properties. These joint ventures involve risks not present with respect to our wholly owned properties, including the following:

We may be prevented from taking actions that are opposed by our joint venture partners. As the managing member, we have authority to make all decisions for our Sunrise joint ventures except for a limited set of major decisions, which generally include: (a) the merger or disposition of substantially all the assets of the joint venture; (b) the sale of additional interests in the joint venture; (c) the dissolution of the joint venture; (d) the disposition of a property owned by the joint venture; and (e) the acquisition of any real property by the joint venture. Under our MOB joint venture arrangements we may share decision-making authority with our joint venture partners regarding major decisions affecting the ownership or operation of the joint venture and any property held jointly, such as the sale or financing of the property or the making of additional capital contributions for the benefit of the property;

Our ability to transfer our interest in a joint venture to a third party may be restricted. We can generally transfer our interest in the Sunrise joint ventures, without consent, to anyone other than large seniors housing operators or their majority investors. Prior consent of our MOB joint venture partners may be required for a sale or transfer to a third party of our interests in such joint ventures;

Our joint venture partners might become bankrupt or fail to fund their share of required capital contributions, which may delay construction or development of a property or increase our financial commitment to the joint venture. Generally, in our Sunrise joint ventures, if either member fails to make a required capital contribution to a joint venture after notice and a cure period, the non-defaulting member may (i) revoke the capital contribution funding notice, (ii) advance to the joint venture the amount of the required capital contribution on behalf of the defaulting member in the form of a loan to the defaulting member, with all of the defaulting member's subsequent distributions being applied to the loan until repayment in full, or (iii) advance the capital on behalf of the defaulting member with a recalculation of each member's proportionate interest in the joint venture pursuant to the applicable formula in the agreements. Many of our Sunrise joint venture agreements provide for a punitive reduction in

Table of Contents

the defaulting member's proportionate interest in the event of an advance of capital by a non-defaulting member pursuant to option (iii);

Our joint venture partners may have business interests or goals with respect to the property that conflict with our business interests and goals, which could increase the likelihood of disputes regarding the ownership, management or disposition of the property;

Disputes may develop with our joint venture partners over decisions affecting the property or the joint venture, which may result in litigation or arbitration that would increase our expenses and distract our officers and/or directors from focusing their time and effort on our business and possibly disrupt the day-to-day operations of the property, such as delaying the implementation of important decisions until the conflict or dispute is resolved; and

We may suffer losses as a result of the actions of our joint venture partners with respect to our joint venture investments.

We may be adversely affected by fluctuations in currency exchange rates.

We currently own twelve seniors housing communities in the Canadian provinces of Ontario and British Columbia. As a result, we are subject to fluctuations in U.S. and Canadian exchange rates which may, from time to time, have an impact on our financial condition and results of operations. Increases or decreases in the value of the Canadian dollar will impact the amount of our net income. In addition, if we increase our international presence through investments in, and/or acquisitions or development of, seniors housing and/or healthcare assets outside the United States, we may transact additional business in currencies other than U.S. or Canadian dollars. Although we may decide to pursue hedging alternatives, including borrowing in local currencies, to protect against foreign currency fluctuations, we cannot assure you that any such fluctuations will not have a Material Adverse Effect on us.

Our revenues from the seniors housing communities managed by Sunrise are dependent on private pay sources; Events which adversely affect the ability of seniors to afford our daily resident fees could cause our occupancy rates, resident fee revenues and results of operations to decline.

By and large, assisted and independent living services currently are not reimbursable under government reimbursement programs, such as Medicare and Medicaid. Hence, substantially all of the resident fee revenues generated by our Sunrise-managed properties are derived from private pay sources consisting of income or assets of residents or their family members. In general, due to the expense associated with building new properties and the staffing and other costs of providing services at these properties, only seniors with income or assets meeting or exceeding the comparable median in the regions where our properties are located typically can afford to pay the daily resident and care fees. The current economic downturn and decline in the housing market, as well as other events such as changes in demographics, could adversely affect the ability of seniors to afford these fees. If Sunrise is unable to attract and retain seniors with sufficient income, assets or other resources required to pay the fees associated with assisted and independent living services, our occupancy rates, resident fee revenues and results of operations could decline, which, in turn, could have a Material Adverse Effect on us.

Overbuilding in markets in which our seniors housing communities are located could adversely affect our future occupancy rates, operating margins and profitability.

Barriers to entry in the assisted living industry are not substantial. Consequently, the development of new seniors housing communities could outpace demand. If the development of new seniors housing communities outpaces demand for those communities in the markets in which our properties are located, those markets may become saturated. Overbuilding in our markets, therefore, could cause us to experience decreased occupancy, reduced operating margins and lower profitability.

Table of Contents

Termination of resident lease agreements could adversely affect our revenues and earnings.

Applicable regulations governing assisted living communities generally require written resident lease agreements with each resident. Most of these regulations also require that each resident have the right to terminate the resident lease agreement for any reason on reasonable notice. Consistent with these regulations, the resident lease agreements signed by Sunrise with respect to our properties managed by it generally allow residents to terminate their lease agreements on 30 days' notice. Thus, Sunrise cannot contract with residents to stay for longer periods of time, unlike typical apartment leasing arrangements with terms of up to one year or longer. In addition, the resident turnover rate in our seniors housing communities may be difficult to predict. If a large number of resident lease agreements terminate at or around the same time, and if our units remained unoccupied, then our revenues and earnings could be adversely affected, which, in turn, could have a Material Adverse Effect on us.

Significant legal actions could subject our tenants, operators and managers to increased operating costs and substantial uninsured liabilities, which could materially adversely affect their liquidity, financial condition and results of operation.

Although claims and costs of professional liability insurance seem to be growing at a slower pace, our tenants, operators and managers have experienced substantial increases in both the number and size of professional liability claims in recent years. In addition to large compensatory claims, plaintiffs' attorneys continue to seek significant punitive damages and attorneys' fees. Due to historically high frequency and severity of professional liability claims against healthcare providers, the availability of professional liability insurance has been restricted and the premiums on such insurance coverage remain very high. As a result, the insurance coverage of our tenants, operators and managers might not cover all claims against them or continue to be available to them at a reasonable cost. If our tenants, operators and managers are unable to maintain adequate insurance coverage or are required to pay punitive damages, they may be exposed to substantial liabilities.

Kindred insures its professional liability risks, in part, through a wholly owned, limited purpose insurance company. The limited purpose insurance company insures initial losses up to specified coverage levels per occurrence with no aggregate coverage limit. Coverage for losses in excess of those per occurrence levels is maintained through unaffiliated commercial insurance carriers up to an aggregate limit. The limited purpose insurance company then insures all claims in excess of the aggregate limit for the unaffiliated commercial insurance carriers. Kindred maintains general liability insurance and professional malpractice liability insurance in amounts and with deductibles which Kindred management has indicated that it believes are sufficient for its operations.

Our tenants, operators and managers, like Kindred, that insure any part of their general and professional liability risks through their own captive limited purpose entities generally estimate the future cost of general and professional liability through actuarial studies which rely primarily on historical data. However, due to the rise in the number and severity of professional claims against healthcare providers, these actuarial studies may underestimate the future cost of claims, and we cannot assure you that our tenants', operators' and managers' reserves for future claims will be adequate to cover the actual cost of those claims. If the actual cost of claims is significantly higher than the reserves, our tenants', operators' and managers' liquidity, results of operations and financial condition and the results of operations at our properties could be materially adversely affected, which could have a Material Adverse Effect on us.

Our operators may be sued under a federal whistleblower statute.

Our operators who engage in business with the federal government may be sued under a federal whistleblower statute designed to combat fraud and abuse in the healthcare industry. See

Table of Contents

"Governmental Regulation Healthcare Regulation" included in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2008. These lawsuits can involve significant monetary damages and award bounties to private plaintiffs who successfully bring these suits. If any of these lawsuits were to be brought against our operators, such suits combined with increased operating costs and substantial uninsured liabilities could have a material adverse effect on the operators' liquidity, financial condition and results of operation and on their ability to make rental payments to us, which, in turn, could have a Material Adverse Effect on us.

If any of our properties are found to be contaminated, or if we become involved in any environmental disputes, we could incur substantial liabilities and costs.

Under federal and state environmental laws and regulations, a current or former owner of real property may be liable for costs related to the investigation, removal and remediation of hazardous or toxic substances or petroleum that are released from or are present at or under, or that are disposed of in connection with such property. Owners of real property may also face other environmental liabilities, including government fines and penalties imposed by regulatory authorities and damages for injuries to persons, property or natural resources. Environmental laws and regulations often impose liability without regard to whether the owner was aware of, or was responsible for, the presence, release or disposal of hazardous or toxic substances or petroleum. In certain circumstances, environmental liability may result from the activities of a current or former operator of the property. Although we are generally indemnified by the current operators of our properties for contamination caused by them, these indemnities may not adequately cover all environmental costs. See "Governmental Regulation Environmental Regulation" included in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2008.

Our success depends, in part, on our ability to retain key personnel, and the loss of any one of them could adversely impact our business.

The success of our business depends, in part, on the leadership and performance of our executive management team and key employees. Our future performance will be substantially dependent on our ability to retain and motivate these individuals. Competition for these individuals is intense, and we cannot give any assurances that we will retain our key officers and employees or that we can attract or retain other highly qualified individuals in the future. Losing any one or more of these persons could have a Material Adverse Effect on us.

If the liabilities we have assumed in connection with acquisitions are greater than expected, or if there are unknown liabilities, our business could be materially and adversely affected.

We have assumed certain liabilities in connection with our past acquisitions, including, in some cases, contingent liabilities. As we integrate these acquisitions, we may learn additional information about the seller and liabilities that adversely affects us, such as:

Liabilities relating to the clean-up or remediation of undisclosed environmental conditions;

Unasserted claims of vendors or other persons dealing with the seller;

Liabilities, claims and litigation, whether or not incurred in the ordinary course of business, relating to periods prior to our acquisition;

Claims for indemnification by general partners, directors, officers and others indemnified by the seller; and

Liabilities for taxes relating to periods prior to our acquisition.

Table of Contents

As a result, we cannot assure you that our past acquisitions will be successful or will not, in fact, harm our business. Among other things, if the liabilities we have assumed are greater than expected, or if there are obligations relating to the acquired properties of which we were not aware at the time we completed the acquisition, our business could be materially adversely affected.

Risks Arising from Our Capital Structure

The recent and ongoing credit and liquidity crisis may limit our access to capital and have an adverse effect on our ability to meet our debt payments, make distributions to our stockholders or make future investments necessary to implement our business plan.

In order to meet our debt payments, make distribution to our stockholders or make future investments necessary to implement our business plan, we may need to raise additional capital. Recently, the global capital and credit markets have been experiencing a period of extraordinary turmoil and upheaval, characterized by the bankruptcy, failure or sale of various financial institutions and an unprecedented level of intervention from the U.S. federal government. This disruption in the credit markets, the repricing of credit risk and the deterioration of the financial and real estate markets have created increasingly difficult conditions for REITs and other companies to access capital or other sources of funds. These conditions include greater stock price volatility, significantly less liquidity, widening of credit spreads and a lack of price transparency. It is difficult to predict how long these conditions will persist and the extent to which our results of operation and financial condition may be adversely affected.

While we currently have no reason to believe that we will be unable to access our unsecured revolving credit facilities in the future, concern about the stability of the markets generally and the strength of borrowers specifically has led many lenders and institutional investors to reduce and, in some cases, cease funding to borrowers. In addition, the financial institutions that are parties to our unsecured revolving credit facilities might have incurred losses or might have reduced capital reserves on account of their prior lending to borrowers, their holdings of certain mortgage securities or their other financial relationships, in part because of the general weakening of the U.S. economy and the increased financial instability of many borrowers. As a result, these financial institutions might be or become capital constrained and might tighten their lending standards, or become insolvent. If they experience shortages of capital and liquidity, or if they experience excessive volumes of borrowing requests from other borrowers within a short period of time, these lenders might not be able or willing to honor their funding commitments to us, which would adversely affect our ability to draw on our unsecured revolving credit facilities and, over time, could negatively impact our ability to consummate acquisitions, repay indebtedness as it matures, fund capital expenditures or make distributions to our stockholders. Continued adverse conditions in the credit markets in future years could also adversely affect the availability and terms of future borrowings, renewals or refinancings.

Our options for addressing such capital constraints would include without limitation (i) obtaining commitments from the remaining banks in our lending group or from new banks to fund increased amounts under the terms of our unsecured revolving credit facilities, (ii) accessing the public capital markets, (iii) obtaining secured loans from government-sponsored entities, pension funds or similar sources, (iv) decreasing or eliminating our distributions to our stockholders or paying taxable stock dividends and/or (v) delaying or ceasing our acquisition and investment activity. As with other public companies, the availability of debt and equity capital depends, in part, on the trading levels of our bonds and the market price of our common stock, which, in turn, depends upon various market conditions that change from time to time. Among the market conditions and other factors that may affect our bond trading levels and the market price of our common stock is the market's perception of our financial condition, our growth potential and our current and future earnings and cash distributions. Our failure to meet the market's expectation with regard to future earnings and cash distributions would likely adversely affect our bond trading levels and the market price of our common

Table of Contents

stock. If we cannot access capital or we cannot access capital at an acceptable cost, we may be required to liquidate one or more investments in properties at times that may not permit us to realize the maximum return on those investments, which could also result in adverse tax consequences to us. Moreover, certain healthcare regulations may constrain our ability to sell assets. We cannot assure you that we will be able to raise the necessary capital to meet our debt service obligations, make distributions to our stockholders or make future investments necessary to implement our business plan, and the failure to do so could have a Material Adverse Effect on us.

We may become more leveraged.

As of December 31, 2008, we had approximately \$3.1 billion of indebtedness. Our unsecured revolving credit facilities and the indentures governing our outstanding senior notes permit us to incur substantial additional debt, and we may borrow additional funds, which may include secured borrowings. A high level of indebtedness would require us to dedicate a substantial portion of our cash flow from operations to the payment of debt service, thereby reducing the funds available to implement our business strategy and to make distributions to stockholders. A high level of indebtedness could also have the following consequences:

Potential limits on our ability to adjust rapidly to changing market conditions and vulnerability in the event of a downturn in general economic conditions or in the real estate and/or healthcare industries;

Potential impairment of our ability to obtain additional financing for our business strategy; and

Potential downgrade in the rating of our debt securities by one or more rating agencies, which could have the effect of, among other things, increasing our cost of borrowing.

In addition, from time to time we mortgage our properties to secure payment of indebtedness. If we are unable to meet our mortgage payments, then the encumbered properties could be foreclosed upon or transferred to the mortgagee with a consequent loss of income and asset value. A foreclosure on one or more of our properties could have a Material Adverse Effect on us.

We are exposed to increases in interest rates, which could reduce our profitability and adversely impact our ability to refinance existing debt, sell assets or engage in acquisition and investment activity, and our decision to hedge against interest rate risk might not be effective.

We receive a significant portion of our revenues by leasing our assets under long-term triple-net leases in which the rental rate is generally fixed with annual rent escalations, subject to certain limitations. Certain of our debt obligations are floating rate obligations with interest rate and related payments that vary with the movement of LIBOR, Bankers' Acceptance or other indexes. The generally fixed rate nature of our revenues and the variable rate nature of certain of our obligations create interest rate risk. Although our operating assets provide a partial hedge against interest rate fluctuations, if interest rates rise, our interest costs for our existing floating rate debt and any new debt we incur would also increase. This increased cost could have the effect of reducing our profitability or making our lease and other revenues insufficient to meet our obligations, and could make the financing of any acquisition or investment activity more costly. Further, rising interest rates could limit our ability to refinance existing debt when it matures or cause us to pay higher rates upon refinancing. An increase in interest rates may also decrease the amount third parties are willing to pay for our assets, thereby limiting our ability to reposition our portfolio promptly in response to changes in economic or other conditions.

We may seek to manage our exposure to interest rate volatility by using hedging arrangements that involve risk, including the risk that counterparties may fail to honor their obligations under these arrangements, that these arrangements may not be effective in reducing our exposure to interest rate

Table of Contents

changes, that the amount of income we may earn from hedging transactions may be limited by federal tax provisions governing REITs, and that these arrangements may result in higher interest rates than we would otherwise have. Moreover, no amount of hedging activity can completely insulate us from the risks associated with changes in interest rates. Failure to hedge effectively against interest rate risk, if we choose to engage in such activities, could adversely affect our results of operations and financial condition.

Covenants in our unsecured revolving credit facilities, the indentures governing our senior notes and other debt instruments limit our operational flexibility and a covenant breach could materially adversely affect our operations.

The terms of our unsecured revolving credit facilities, the indentures governing our outstanding senior notes and other debt instruments require us to comply with a number of customary financial and other covenants, such as maintaining debt service coverage, leverage ratios and net worth requirements. Our continued ability to incur indebtedness and operate in general is subject to compliance with these covenants, which limit our operational flexibility. Breaches of these covenants could result in defaults under the applicable debt instruments, in addition to any other indebtedness cross-defaulted against such instruments, even if we satisfy our payment obligations. Financial and other covenants that limit our operational flexibility, as well as defaults resulting from a breach of any of these covenants in our debt instruments, could have a Material Adverse Effect on us.

Risks Arising from Our Status as a REIT

Loss of our status as a REIT would have significant adverse consequences to us and the value of our common stock.

If we lose our status as a REIT, we will face serious tax consequences that will substantially reduce the funds available for satisfying our obligations and for distribution to our stockholders for each of the years involved because:

We would not be allowed a deduction for distributions to stockholders in computing our taxable income and would be subject to federal income tax at regular corporate rates;

We also could be subject to the federal alternative minimum tax and possibly increased state and local taxes; and

Unless we are entitled to relief under statutory provisions, we could not elect to be subject to tax as a REIT for four taxable years following the year during which we were disqualified.

In addition, in such event we would no longer be required to pay dividends to maintain REIT status. As a result of all these factors, our failure to qualify as a REIT also could impair our ability to implement our business strategy and would adversely affect the value of our common stock.

Qualification as a REIT involves the application of highly technical and complex provisions of the Internal Revenue Code of 1986, as amended (the "Code") for which there are only limited judicial and administrative interpretations. The determination of various factual matters and circumstances not entirely within our control may affect our ability to remain qualified as a REIT. In addition, new legislation, regulations, administrative interpretations or court decisions may adversely affect our investors or our ability to remain qualified as a REIT for tax purposes. Although we believe that we qualify as a REIT, we cannot assure you that we will continue to qualify or remain qualified as a REIT for tax purposes.

Table of Contents

The 90% distribution requirement will decrease our liquidity and may limit our ability to engage in otherwise beneficial transactions.

To comply with the 90% distribution requirement applicable to REITs and to avoid the nondeductible excise tax, we must make distributions to our stockholders. See "Certain U.S. Federal Income Tax Consequences Requirements for Qualification as a REIT Annual Distribution Requirements" included in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2008. The indentures governing our outstanding senior notes permit us to make annual distributions to our stockholders in an amount equal to the minimum amount necessary to maintain our REIT status so long as the ratio of our Debt to Adjusted Total Assets (as each term is defined in the indentures) does not exceed 60% and to make additional distributions if we pass certain other financial tests. However, distributions may limit our ability to rely upon rental payments from our properties or subsequently acquired properties to finance investments, acquisitions or new developments.

Although we anticipate that we generally will have sufficient cash or liquid assets to enable us to satisfy the REIT distribution requirement, it is possible that, from time to time, we may not have sufficient cash or other liquid assets to meet the 90% distribution requirement. This may be due to the timing differences between the actual receipt of income and actual payment of deductible expenses, on the one hand, and the inclusion of that income and deduction of those expenses in arriving at our taxable income, on the other hand. In addition, non-deductible expenses such as principal amortization or repayments or capital expenditures in excess of non-cash deductions also may cause us to fail to have sufficient cash or liquid assets to enable us to satisfy the 90% distribution requirement.

In the event that timing differences occur or we decide to retain cash or to distribute such greater amount as may be necessary to avoid income and excise taxation, we may borrow funds, issue additional equity securities (although we cannot assure you that we will be able to do so), pay taxable stock dividends, if possible, distribute other property or securities or engage in a transaction intended to enable us to meet the REIT distribution requirements. This may require us to raise additional capital to meet our obligations; however, see "Risks Arising from Our Capital Structure The recent and ongoing credit and liquidity crisis may limit our access to capital and have an adverse effect on our ability to meet our debt payments, make distributions to our stockholders or make future investments necessary to implement our business plan" in this prospectus supplement. The terms of our unsecured revolving credit facilities and the indentures governing our outstanding senior notes restrict our ability to engage in some of these transactions.

If we decide to pay taxable stock dividends to meet the REIT distribution requirements, your tax liability may be greater than the amount of cash you receive.

The Internal Revenue Service ("IRS") has recently issued Revenue Procedure 2009-15. Under this Revenue Procedure, the IRS will treat stock dividends as distributions for purposes of satisfying the REIT distribution requirements for calendar year 2009 if each stockholder can elect to receive the distribution in cash, even if the aggregate cash amount paid to all stockholders is limited, provided certain requirements are met. Accordingly, if we decide to pay a stock dividend in accordance with Revenue Procedure 2009-15, your tax liability with respect to such dividend may be significantly greater than the amount of cash you receive.

Risks Relating to the Notes

The notes will be issued with OID for U.S. federal income tax purposes. U.S. Holders of notes will be required to include OID in income in advance of the receipt of cash attributable to such income.

The notes will be issued with original issue discount ("OID") for U.S. federal income tax purposes. U.S. Holders generally must include OID in income for U.S. federal income tax purposes under a

constant yield accrual method regardless of their regular method of tax accounting. As a result, U.S. Holders will be required to include OID in income in advance of the receipt of cash attributable to such income. See "Certain United States Federal Income and Estate Tax Consequences Tax Consequences Applicable to U.S. Holders Original issue discount."

If a bankruptcy petition were filed by or against us, holders of notes may receive a lesser amount for their claim than they would have been entitled to receive under the indenture governing the notes.

If a bankruptcy petition were filed by or against us under the U.S. Bankruptcy Code after the issuance of the notes, the claim by any holder of the notes for the principal amount of the notes may be limited to an amount equal to the sum of:

the original issue price for the notes; and

that portion of the original issue discount that does not constitute "unmatured interest" for purposes of the U.S. Bankruptcy Code.

Any original issue discount that was not amortized as of the date of the bankruptcy filing may constitute unamortized interest. Accordingly, holders of the notes under these circumstances may receive a lesser amount than they would be entitled to receive under the terms of the indenture governing the notes, even if sufficient funds are available.

Because the notes will be structurally subordinated to the obligations of our subsidiaries that are not guarantors, you may not be fully repaid if we become insolvent.

Of our subsidiaries, only the Restricted Subsidiaries (other than Excluded Joint Ventures) will be directly obligated on the notes. Holders of the notes will have no claims against the assets of the Unrestricted Subsidiaries and any current or future Excluded Joint Ventures. As of December 31, 2008, the Unrestricted Subsidiaries and Excluded Joint Ventures had aggregate outstanding indebtedness of \$1.1 billion, secured by 108 of our healthcare-related facilities. Our Unrestricted Subsidiaries and Excluded Joint Ventures had assets of \$2.4 billion, or 41.1% of our total assets, as of December 31, 2008. We may, subject to the limitations contained in our existing indentures, including the indenture governing the notes, form or designate additional Unrestricted Subsidiaries and Excluded Joint Ventures in the future. All obligations of the Unrestricted Subsidiaries and any Excluded Joint Ventures, including indebtedness to trade creditors, will have to be paid, in full, before you will have any claims against the current and future Unrestricted Subsidiaries and Excluded Joint Ventures.

Because the notes that you hold are unsecured, you may not be fully repaid if we become insolvent.

Neither the notes nor the guarantees will be secured by any of our assets or our subsidiaries' assets, and therefore will be effectively subordinated to any secured indebtedness we, or our subsidiaries, may incur to the extent of the assets securing such indebtedness. The indenture governing the notes permits us to incur secured debt that is secured by certain of our assets. As of December 31, 2008, we had \$1.8 billion principal amount of outstanding secured debt, secured by 160 of our healthcare-related facilities, including \$1.1 billion of secured debt of the Unrestricted Subsidiaries and Excluded Joint Ventures which is non-recourse to us. If we were to become insolvent, the holders of any secured debt would receive payments from the assets pledged as security before you would receive payments on the notes.

If we experience a change in control, we may be unable to purchase the notes you hold as required under the indenture governing the notes.

Upon the occurrence of certain change of control events and unless certain conditions are met, we must make an offer to purchase all outstanding notes at a purchase price equal to 101% of the

Table of Contents

principal amount of the notes, plus accrued and unpaid interest, if any, to the date of purchase. We may not have sufficient funds to pay the purchase price for all notes tendered by holders seeking to accept the offer to purchase. In addition, our revolving credit facilities, our other existing indentures and our other debt agreements may require us to repurchase other debt upon a change in control or may prohibit us from purchasing all validly tendered notes, which would result in an event of default under the indenture governing the notes. See "Description of Notes Repurchase of Notes Upon a Change of Control."

Federal and state statutes allow courts, under specific circumstances, to void guarantees and require noteholders to return payments received from the issuers or the guarantors.

The guarantors' guarantees of the notes may be subject to review under U.S. federal bankruptcy law or relevant state fraudulent conveyance laws if a bankruptcy lawsuit is commenced by or on behalf of our or our guarantors' unpaid creditors. Under these laws, if in such a lawsuit a court were to find that, at the time a guarantor incurred debt (including debt represented by the guarantee), such guarantor:

incurred this debt with the intent of hindering, delaying or defrauding current or future creditors; or

received less than reasonably equivalent value or fair consideration for incurring this debt and the guarantor;

was insolvent or was rendered insolvent by reason of the related financing transactions;

was engaged, or about to engage, in a business or transaction for which its remaining assets constituted unreasonably small capital to carry on its business; or

intended to incur, or believed that it would incur, debts beyond its ability to pay these debts as they mature, as all of the foregoing terms are defined in or interpreted under the relevant fraudulent transfer or conveyance statutes;

then the court could void the guarantee or subordinate the amounts owing under the guarantee to the guarantor's presently existing or future debt, including trade payables, or take other actions detrimental to the holders of the notes.

In addition, the guarantors may be subject to the allegation that since they incurred their guarantees for our benefit, they incurred the obligations under the guarantees for less than reasonably equivalent value or fair consideration. Each guarantee will contain a provision intended to limit the guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its guarantee to be a fraudulent transfer or conveyance. This provision may not be effective to protect the guarantees from being voided under fraudulent transfer law.

The guarantees provided by us and our subsidiaries are subject to certain defenses that may limit your right to receive payment on the notes.

Although the guarantees provide the holders of the notes with a direct claim against the assets of the guarantors, enforcement of the guarantees against any guarantor would be subject to certain "suretyship" defenses available to guarantors generally. Enforcement could also be subject to other defenses available to the guarantors in certain circumstances. To the extent that the guarantees are not enforceable, you would not be able to assert a claim successfully against such guarantors.

There is no public market for the notes, so you may be unable to sell the notes.

The notes offered hereby are a new series of securities for which there is currently no public market. Consequently, the notes may be relatively illiquid, and you may be unable to sell your notes, or

if you are able to sell your notes, there can be no assurance as to the price at which you will be able to sell them. Future trading prices of the notes will depend on many factors, including, among other things, prevailing interest rates, economic conditions, our financial condition and the market for similar securities. We do not intend to apply for listing of the notes on any securities exchange or for the inclusion of the notes in any automated quotation system. Although the issuers' other 6¹/₂% senior notes due 2016 are traded, the notes offered hereby do not currently have a public market.

These forward-looking statements are inherently uncertain, and security holders must recognize that actual results may differ from our expectations. We do not undertake a duty to update these forward-looking statements, which speak only as of the date on which they are made.

Our actual future results and trends may differ materially from expectations depending on a variety of factors discussed in our filings with the Commission. These factors include without limitation:

The ability and willingness of our operators, tenants, borrowers, managers and other third parties to meet and/or perform their obligations under their respective contractual arrangements with us, including, in some cases, their obligations to indemnify, defend and hold us harmless from and against various claims, litigation and liabilities;

Our success in implementing our business strategy and our ability to identify, underwrite, finance, consummate and integrate diversifying acquisitions or investments, including those in different asset types and outside the United States;

The nature and extent of future competition;

The extent of future or pending healthcare reform and regulation, including cost containment measures and changes in reimbursement policies, procedures and rates;

Increases in our cost of borrowing as a result of changes in interest rates and other factors;

The ability of our operators and managers, as applicable, to deliver high quality services, to attract and retain qualified personnel and to attract residents and patients;

The results of litigation affecting us;

Changes in general economic conditions and/or economic conditions in the markets in which we may, from time to time, compete, and the effect of those changes on our revenues and our ability to access the capital markets or other sources of funds;

Our ability to pay down, refinance, restructure and/or extend our indebtedness as it becomes due;

The ability and willingness of our tenants to renew their leases with us upon expiration of the leases and our ability to reposition our properties on the same or better terms in the event such leases expire and are not renewed by our tenants or in the event we exercise our right to replace an existing tenant upon a default;

Risks associated with our senior living operating portfolio, such as factors causing volatility in our operating income and earnings generated by our properties, including without limitation national and regional economic conditions, costs of materials, energy, labor and services, employee benefit costs, insurance costs and professional and general liability claims, and the timely delivery of accurate property-level financial results for those properties;

The movement of U.S. and Canadian exchange rates;

Year-over-year changes in the Consumer Price Index and the effect of those changes on the rent escalators, including the rent escalator for Master Lease 2 with Kindred, and our earnings;

Our ability and the ability of our operators, tenants, borrowers and managers to obtain and maintain adequate liability and other insurance from reputable and financially stable providers;

Many of these factors are beyond our control and the control of our management.

We describe some of these risks and uncertainties in greater detail above under "Risk Factors." These risks could cause actual results of our industry, or our actual results for the year 2009 and beyond, to differ materially from those expressed in any forward-looking statement we make. Our future financial performance is dependent upon factors discussed elsewhere in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein. For a discussion of factors that could cause actual results to differ, see "Risk Factors" and the information contained in our filings with the Commission that are incorporated or deemed to be incorporated by reference in this prospectus supplement. These filings are described under "Where You Can Find More Information and Incorporation by Reference."

USE OF PROCEEDS

The net proceeds of this offering are estimated to be approximately \$ million, after deducting the underwriting discount and estimated expenses of this offering.

We intend to use the net proceeds from this offering, together with the net proceeds of the Common Stock Offering, cash on hand and/or borrowings under our unsecured revolving credit facilities, to purchase Tender Offer Notes pursuant to the Tender Offers described under "Prospectus Supplement Summary Recent Developments." The consummation of this offering of notes is not conditioned on the completion of the Tender Offers or the Common Stock Offering. If the net proceeds of this offering and the Common Stock Offering are greater than the amount required to purchase Tender Offer Notes in the Tender Offers, we anticipate that we will use the excess net proceeds to repay indebtedness outstanding under our unsecured revolving credit facilities and for working capital and other general corporate purposes, including to fund future acquisitions or investments, if any.

As of April 3, 2009, we had \$202.7 million of outstanding indebtedness under our unsecured revolving credit facilities (excluding outstanding letters of credit of \$3.7 million), and the weighted average interest rate for the outstanding balance was 3.157%. Our unsecured revolving credit facilities mature on April 26, 2012. In the future, we expect to reborrow under our unsecured revolving credit facilities for working capital and other general corporate purposes, including to fund future acquisitions or investments, if any. Affiliates of the underwriters act as lenders and/or as agents under our unsecured revolving credit facilities and therefore may receive a portion of the proceeds from this offering.

DESCRIPTION OF NOTES

You can find the definitions of certain terms used in this description under "Certain Definitions." In this description, the word "Partnership" refers only to Ventas Realty, Limited Partnership and not to any of its subsidiaries. The term "Issuers" refers to the Partnership and Ventas Capital, collectively. The terms "we," "us" and "our" refer to Ventas, Inc. and not to any of its subsidiaries.

The 6¹/₂% Senior Notes due 2016 offered by this prospectus supplement (the "Notes") will be issued under an indenture dated as of September 19, 2006 (the "Base Indenture"), among the Issuers, the Guarantors and U.S. Bank National Association, as trustee (the "Trustee"), as supplemented by the Second Supplemental Indenture to be dated as of April 1, 2009 (the "Second Supplemental Indenture"). In this prospectus supplement, we refer to the Base Indenture, as supplemented by the Second Supplemental Indenture, as the "Indenture." The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended.

The following description is a summary of the material provisions of the Indenture. It does not restate the Indenture in its entirety. We urge you to read the Indenture because it, and not this description, defines your rights as holders of the Notes. A copy of the Indenture is available as set forth below under "Additional Information." Certain defined terms used in this description but not defined below under "Certain Definitions" have the meanings assigned to them in the Indenture.

The registered holder of a Note will be treated as the owner of it for all purposes. Only registered holders will have rights under the Indenture.

Brief Description of the Notes and the Guarantees

The Notes

The Notes will be:

general unsecured obligations of the Issuers;

equal in right of payment with all other existing and future unsecured senior Debt of the Issuers;

senior in right of payment to any future subordinated Debt of the Issuers; and

unconditionally guaranteed by the Guarantors.

However, the Notes will be effectively subordinated to all secured borrowings to the extent of the assets pledged to secure those borrowings. The Notes will also be structurally subordinated to the indebtedness and other obligations of our Unrestricted Subsidiaries and any Excluded Joint Ventures with respect to the assets of such entities. As of December 31, 2008, the Unrestricted Subsidiaries and Excluded Joint Ventures had aggregate outstanding indebtedness of \$1.1 billion, secured by 108 of our healthcare-related facilities. The Unrestricted Subsidiaries and Excluded Joint Ventures had assets of \$2.5 billion, or 41.1% of our total assets, as of December 31, 2008. See "Risk Factors Risks Relating to the Notes Because the notes will be structurally subordinated to the obligations of our subsidiaries that are not guarantors, you may not be fully repaid if we become insolvent" and "Risk Factors Risks Relating to the Notes Because the notes that you hold are unsecured, you may not be fully repaid if we become insolvent."

The Guarantees

The Notes will be guaranteed by Ventas, Inc. and each of Ventas, Inc.'s current and future Restricted Subsidiaries (other than Excluded Joint Ventures) until certain conditions are met.

Table of Contents

Each guarantee of the Notes will be:

a general unsecured obligation of the Guarantor; and

equal in right of payment with all other existing and future unsecured senior Debt of that Guarantor.

See "Risk Factors Risks Relating to the Notes The guarantees provided by us and our subsidiaries are subject to certain defenses that may limit your right to receive payment on the notes."

Ventas Capital

Ventas Capital is a wholly owned subsidiary of the Partnership that was incorporated in Delaware for the purpose of serving as a co-issuer of debt securities, including the Notes, in order to facilitate the offering of such debt securities. The Partnership believes that certain prospective purchasers of the Notes may be restricted in their ability to purchase debt securities of partnerships, such as the Partnership, unless such debt securities are jointly issued by a corporation. Ventas Capital does not and will not have any substantial operations, assets or revenues. As a result, prospective purchasers of the Notes should not expect Ventas Capital to participate in servicing the interest and principal obligations on the Notes. See " Certain Covenants."

Unrestricted Subsidiaries and Excluded Joint Ventures

Certain of our subsidiaries will be Unrestricted Subsidiaries or Excluded Joint Ventures as of the date of the Second Supplemental Indenture.

Principal, Interest and Maturity

The Second Supplemental Indenture provides that Issuers will initially issue the Notes in the principal amount of \$200.0 million. The Base Indenture does not limit the amount of Notes that the Issuers may issue and in the future the Issuers may, without the consent of the holders, increase the principal amount of the Notes on the same terms and conditions as the Notes being offered hereby. Any offering of additional Notes is subject to the covenants of the Indenture described below, including the covenant described under " Certain Covenants Limitations on Incurrence of Debt." The Notes and any additional Notes subsequently issued under the Indenture may be treated as a single class for all purposes under the Indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase. The Issuers will issue Notes in denominations of \$1,000 and integral multiples of \$1,000.

The Notes are a series of senior debt securities the Issuers may issue under the Base Indenture. Under certain circumstances, all outstanding senior debt securities issued under the Base Indenture vote as a single class. See " Modification of the Indenture."

The Notes will mature on June 1, 2016. The Notes will bear interest at the rate per annum set forth on the cover page of this prospectus supplement from December 1, 2008, or from the immediately preceding Interest Payment Date to which interest has been paid. Interest on the Notes is payable semi-annually in arrears on June 1 and December 1 of each year, commencing June 1, 2009, to the persons in whose names the Notes are registered at the close of business on May 15 and November 15, as the case may be, immediately prior to the respective Interest Payment Date. Accrued interest will also be payable on the date of maturity or any earlier redemption or repurchase of the Notes. Interest on the Notes will be computed on the basis of a 360-day year of twelve 30-day months.

Table of Contents

Guarantees

The Notes will be guaranteed by Ventas, Inc. and each of Ventas, Inc.'s current and future Restricted Subsidiaries (other than Excluded Joint Ventures). These Guarantees will be joint and several obligations of the Guarantors. The obligations of each Guarantor under its Guarantee will be limited as necessary to prevent that Guarantee from constituting a fraudulent conveyance under applicable law. See "Risk Factors Risks Relating to the Notes Federal and state statutes allow courts, under specific circumstances, to void the guarantees and require noteholders to return payments received from the issuers or the guarantors."

A Guarantor may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge with or into (whether or not such Guarantor is the surviving Person), another Person, other than any Issuer or another Guarantor, unless:

- (1) immediately after giving effect to that transaction, no Default or Event of Default exists under the Indenture; and
- (2) subject to the provisions of the following paragraph, the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger assumes all the obligations of that Guarantor under the Indenture and its Guarantee pursuant to a supplemental indenture satisfactory to the Trustee.

The Guarantee of a Guarantor will be released, and any Person acquiring assets (including by way of merger or consolidation) or Capital Stock of a Guarantor in accordance with the provisions of (1) or (2) below shall not be required to assume the obligations of any such Guarantor:

- (1) in connection with any sale or other disposition of all or substantially all of the assets of that Guarantor (including by way of merger or consolidation) to a Person that is not (either before or after giving effect to such transaction) a Restricted Subsidiary (other than a Permitted Joint Venture) of Ventas, Inc., if the sale or other disposition complies with the "Asset Sale" provisions of the Indenture;
- (2) in connection with any sale of all of the Capital Stock of a Guarantor to a Person that is not (either before or after giving effect to such transaction) a Restricted Subsidiary (other than a Permitted Joint Venture) of Ventas, Inc., if the sale complies with the "Asset Sale" provisions of the Indenture;
- (3) if the Issuers or Ventas, Inc. designate any Restricted Subsidiary that is a Guarantor to be an Excluded Joint Venture or an Unrestricted Subsidiary in accordance with the applicable provisions of the Indenture; or
- (4) in the event that the Issuers exercise their discharge or full defeasance options as described under " Discharge, Defeasance and Covenant Defeasance."

In addition, if on any date following the date of the Second Supplemental Indenture:

- (1) the Notes are rated both Baa3 or better by Moody's and BBB- or better by S&P (or, if either such entity ceases to rate the Notes for reasons outside of the control of Ventas, Inc., the equivalent investment grade credit rating from any other "nationally recognized statistical rating organization" as that term is used in Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by Ventas, Inc. as a replacement agency);
- (2) each rating agency specified in clause (1) above provides written notice to the Issuers and the Trustee stating that the release of all of the Guarantees will not cause the rating assigned by such rating agency to decline to below Baa3 or BBB-, as applicable; and
- (3) no Default or Event of Default shall have occurred and be continuing under the Indenture,

Table of Contents

then, beginning on that date, the Guarantors will be released from their obligations under the Guarantees.

Optional Redemption

The Issuers may redeem the Notes at any time prior to June 1, 2011, in whole or from time to time in part, at a redemption price equal to the sum of (i) the principal amount of the Notes being redeemed, (ii) accrued and unpaid interest thereon to the redemption date and (iii) the Make-Whole Amount, if any, upon terms and conditions described in the Indenture (subject to the right of holders of record on the relevant record date to receive interest due on the relevant Interest Payment Date). On or after June 1, 2011, the Issuers may redeem the Notes in whole or from time to time in part, at the redemption prices (expressed as percentages of the principal amount thereof) set forth below, plus accrued and unpaid interest thereon to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant Interest Payment Date), if redeemed during the 12-month period beginning on June 1 of each of the years indicated below:

Year	Percentage
2011	103.250%
2012	102.167%
2013	101.083%
2014 and thereafter	100.000%

In addition, at any time prior to June 1, 2009, the Issuers may redeem, on any one or more occasions (each, an "Equity Claw-back Redemption"), with all or a portion of the net cash proceeds of one or more Equity Offerings (within 60 days of the consummation of any such Equity Offering), up to 35% of the aggregate principal amount of the Notes at a redemption price (expressed as a percentage of the aggregate principal amount of the Notes so redeemed) equal to 106.500% plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant Interest Payment Date); *provided, however*, that at least 65% of the original aggregate principal amount of the Notes so redeemed must remain outstanding immediately after each such redemption.

After notice of optional redemption has been given as provided in the Indenture, if funds for the redemption of any Notes called for redemption have been made available on the redemption date, such Notes called for redemption will cease to bear interest on the date fixed for the redemption specified in the redemption notice and the only right of the holders of such Notes will be to receive payment of the redemption price.

Notice of any optional redemption of any Notes will be given to holders at their addresses, as shown in the Notes register, not more than 60 nor less than 30 days prior to the date fixed for redemption. The notice of redemption will specify, among other items, the redemption price and the principal amount of the Notes held by the holder to be redeemed.

The Issuers will notify the Trustee at least 45 days prior to the redemption date (or such shorter period as is satisfactory to the Trustee) of the aggregate principal amount of the Notes to be redeemed and the redemption date. If less than all the Notes are to be redeemed, the Trustee shall select, *pro rata* or by lot or by any other method that the Trustee considers fair and appropriate under the circumstances, the Notes to be redeemed. Notes may be redeemed in part in the minimum authorized denomination for the Notes or in any integral multiple thereof.

Certain Covenants

Changes in Covenants When Notes Rated Investment Grade

- (a) *Suspension of certain covenants:* If on any date following the date of the Second Supplemental Indenture:
- (i) the Notes are rated either Baa3 or better by Moody's or BBB- or better by S&P (the "Investment Grade Rating") (or, if either such entity ceases to rate the Notes for reasons outside of the control of Ventas, Inc., the equivalent investment grade credit rating from any other "nationally recognized statistical rating organization" as that term is used in Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by Ventas, Inc. as a replacement agency); and
 - (ii) no Default or Event of Default shall have occurred and be continuing under the Indenture,

then, beginning on that date and subject to the provisions of the following paragraph, the covenants specifically listed under the following captions in this prospectus supplement will no longer be applicable to the Notes (subject to reinstatement as described below):

- (1) " Limitations on Incurrence of Debt";
- (2) " Limitations on Restricted Payments";
- (3) " Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries";
- (4) " Transactions with Affiliates";
- (5) " Repurchase of Notes Upon a Change of Control"; and
- (6) " Repurchase of Notes Upon an Asset Sale."

Notwithstanding the foregoing, if the Investment Grade Rating should subsequently decline to below Baa3 or BBB-, respectively, the foregoing covenants shall be reinstated as of and from the date of such rating decline. The " Limitations on Restricted Payments" covenant will be interpreted as if it had been in effect since December 9, 2005 except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. There can be no assurance that the Notes will ever achieve an investment grade rating or that any such rating will be maintained.

Notwithstanding the foregoing, neither (x) the continued existence following the reinstatement of the foregoing covenants of facts and circumstances or obligations that were incurred or otherwise came into existence while the foregoing covenants were suspended nor (y) the performance of any such obligations, including the consummation of any transaction pursuant to, and on materially the same terms as, a contractual agreement in existence prior to the reinstatement of the foregoing covenants, shall constitute a breach of any such covenants or cause a Default or Event of Default thereunder, *provided, however*, that (A) Ventas, Inc. and its Restricted Subsidiaries did not incur or otherwise cause such facts and circumstances or obligations to exist in anticipation of the reinstatement of the foregoing covenants and (B) Ventas, Inc. and its Restricted Subsidiaries did not reasonably believe that such incurrence or actions would result in such reinstatement. For purposes of clause (y) above, any increase in the consideration to be paid prior to such amendment or modification to the terms of an existing obligation following the reinstatement of the foregoing covenants that does not exceed 10% of the consideration that was to be paid prior to such amendment or modification shall not be deemed a "material" amendment or modification. For purposes of clauses (A) and (B) above, anticipation and reasonable belief may be determined by Ventas, Inc. and shall be conclusively evidenced by a board resolution to such effect adopted by the Board of Directors of Ventas, Inc. The Board of Directors of Ventas, Inc. in making its determination may, but need not, consult with Moody's or S&P, as applicable.

Table of Contents

- (b) *Fall-away of certain covenants:* If on any date following the date of the Second Supplemental Indenture:
- (i) the Notes are rated both Baa3 or better by Moody's and BBB- or better by S&P (or, if either such entity ceases to rate the Notes for reasons outside of the control of Ventas, Inc., the equivalent investment grade credit rating from any other "nationally recognized statistical rating organization" as that term is used in Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by Ventas, Inc. as a replacement agency); and
- (ii) no Default or Event of Default shall have occurred and be continuing under the Indenture,

then, beginning on that date and subject to the provisions of the following paragraph, the six covenants specifically listed in paragraph (a) above will no longer be applicable to the Notes (subject to reinstatement of the " Limitation on Incurrence of Debt" covenant as described below).

Notwithstanding the foregoing, if the rating assigned by both rating agencies specified in section (b)(i) above should subsequently decline to below Baa3 and BBB-, respectively, the " Limitation on Incurrence of Debt" covenant shall be reinstated as of and from the date of such ratings decline.

Notwithstanding the foregoing, neither (x) the continued existence following the reinstatement of the foregoing covenant of facts and circumstances or obligations that were incurred or otherwise came into existence while the foregoing covenant was suspended nor (y) the performance of any such obligations, including the consummation of any transaction pursuant to, and on materially the same terms as, a contractual agreement in existence prior to the reinstatement of the foregoing covenant, shall constitute a breach of such covenant or cause a Default or Event of Default thereunder, *provided, however*, that (A) Ventas, Inc. and its Restricted Subsidiaries did not incur or otherwise cause such facts and circumstances or obligations to exist in anticipation of the reinstatement of the foregoing covenant and (B) Ventas, Inc. and its Restricted Subsidiaries did not reasonably believe that such incurrence or actions would result in such reinstatement. For purposes of clause (y) above, any increase in the consideration to be paid prior to such amendment or modification to the terms of an existing obligation following the reinstatement of the foregoing covenant that does not exceed 10% of the consideration that was to be paid prior to such amendment or modification shall not be deemed a "material" amendment or modification. For purposes of clauses (A) and (B) above, anticipation and reasonable belief may be determined by Ventas, Inc. and shall be conclusively evidenced by a board resolution to such effect adopted by the Board of Directors of Ventas, Inc. The Board of Directors of Ventas, Inc. in making its determination may, but need not, consult with Moody's and S&P.

Limitations on Incurrence of Debt

Ventas, Inc. will not, and will not permit any Restricted Subsidiary to, incur any additional Debt (other than Permitted Debt) if, immediately after giving effect to the incurrence of such additional Debt and the application of the proceeds thereof, the aggregate principal amount of all of Ventas, Inc.'s and its Restricted Subsidiaries' outstanding Debt on a consolidated basis determined in accordance with GAAP would be greater than 60% of the sum of (without duplication):

- (1) the Total Assets of Ventas, Inc. and its Restricted Subsidiaries as of the end of the calendar quarter covered by Ventas, Inc.'s Annual Report on Form 10-K or Quarterly Report on Form 10-Q, as the case may be, most recently filed with the Commission (or, if such filing is not permitted under the Exchange Act, as of the end of the calendar quarter covered by Ventas, Inc.'s most recent report filed with the Trustee) prior to the incurrence of such additional Debt (the "Measurement Date"); and
- (2) the purchase price of any Real Estate Assets or mortgages receivable acquired, and the amount of any securities offering proceeds received (to the extent that such proceeds were not

used to acquire Real Estate Assets or mortgages receivable or used to reduce Debt), by Ventas, Inc. or any of its Restricted Subsidiaries on a consolidated basis since the Measurement Date (such sum of clauses (1) and (2) being collectively referred to as "Adjusted Total Assets").

In addition to the above limitations on the incurrence of Debt, Ventas, Inc. will not, and will not permit any Restricted Subsidiary to, incur any Secured Debt (other than Permitted Debt) if, immediately after giving effect to the incurrence of such additional Secured Debt and the application of the proceeds thereof, the aggregate principal amount of all of Ventas, Inc.'s and its Restricted Subsidiaries' outstanding Secured Debt on a consolidated basis in accordance with GAAP is greater than 40% of Adjusted Total Assets.

In addition to the above limitations on the incurrence of Debt, Ventas, Inc. will not, and will not permit any Restricted Subsidiary to, incur any Debt (other than Permitted Debt) if the ratio of Consolidated Income Available for Debt Service to the Annual Debt Service for the four consecutive fiscal quarters ended on the Measurement Date shall have been less than 2.0x, on a pro forma basis after giving effect thereto and to the application of the proceeds therefrom, and calculated on the assumption that:

- (1) such Debt and any other Debt incurred by Ventas, Inc. and any of its Restricted Subsidiaries on a consolidated basis since the first day of such four-quarter period and the application of the proceeds therefrom, including to refinance other Debt, had been incurred at the beginning of such period;
- (2) the repayment or retirement of any other Debt by Ventas, Inc. and any of its Restricted Subsidiaries on a consolidated basis since the first day of such four-quarter period had been repaid or retired at the beginning of such period (except that, in making such computation, the amount of Debt under any revolving credit facility shall be computed based upon the average daily balance of such Debt during such period);
- (3) in the case of Acquired Debt or Debt incurred in connection with any acquisition since the first day of such four-quarter period, the related acquisition had occurred as of the first day of such period with appropriate pro forma adjustments to, among other things Consolidated Income Available for Debt Service, with respect to such acquisition being included in such pro forma calculation; and
- (4) in the case of any acquisition or disposition by Ventas, Inc. or any of its Restricted Subsidiaries on a consolidated basis of any asset or group of assets since the first day of such four-quarter period, whether by merger, stock purchase or sale, or asset purchase or sale, such acquisition or disposition or any related repayment of Debt had occurred as of the first day of such period with the appropriate pro forma adjustments with respect to such acquisition or disposition being included in such pro forma calculation.

If the Debt giving rise to the need to make the foregoing calculation or any other Debt incurred after the first day of the relevant four-quarter period bears interest at a floating rate then, for purposes of calculating the Annual Debt Service, the interest rate on such Debt will be computed on a pro forma basis as if the average interest rate in effect during the entire such four-quarter period had been the applicable rate for the entire such period; *provided, however*, that for purposes of calculating Annual Debt Service for Debt for which there is a corresponding Hedging Obligation, Annual Debt Service shall be calculated after giving effect to the Hedging Obligation.

Maintenance of Total Unencumbered Assets

Ventas, Inc. and its Restricted Subsidiaries will maintain Total Unencumbered Assets as of the end of each fiscal quarter of not less than 150% of the aggregate outstanding principal amount of

Limitations on Restricted Payments

- (2) purchase, redeem or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving the Partnership) any Equity Interests of (a) the Partnership or any direct or indirect parent of the Partnership or (b) any Restricted Subsidiary, including a Permitted Joint Venture (in either case other than Equity Interests owned by Ventas, Inc. or any of its Restricted Subsidiaries);
- (3) make any payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Subordinated Debt, except a payment of interest or principal at the stated maturity thereof; or
- (4) make any Restricted Investment (all such payments and other actions set forth in these clauses (1) through (4) above being collectively referred to as "Restricted Payments"),

unless, at the time of and after giving effect to such Restricted Payment:

- (1) no Default shall have occurred and be continuing under the Indenture;
- (2) Ventas, Inc. and its Restricted Subsidiaries could incur at least \$1.00 of Debt (other than Permitted Debt) under the terms of the Indenture; and
- (3) the aggregate sum of all Restricted Payments made after December 9, 2005, excluding Restricted Payments made pursuant to the following paragraph, shall not exceed the sum of:
 - (a) 95% of Ventas, Inc.'s and its Restricted Subsidiaries' aggregate cumulative Funds from Operations accrued on a cumulative basis from April 1, 2002;
 - (b) the aggregate proceeds or values received after April 17, 2002 from the issuance or sale of Ventas, Inc.'s or the Partnership's Equity Interests (other than Disqualified Stock and Equity Interests sold to a Subsidiary of Ventas, Inc.), net of underwriting discounts, commissions, legal fees and similar offering expenses;
 - (c) any dividends or other distributions received by Ventas, Inc. or any of its Restricted Subsidiaries after April 17, 2002 from an Unrestricted Subsidiary of Ventas, Inc., to the extent that such dividends were not otherwise included in Earnings from Operations of Ventas, Inc. for such period; and
 - (d)

to the extent that any Unrestricted Subsidiary of Ventas, Inc. is or was redesignated as a Restricted Subsidiary after April 17, 2002, the lesser of (i) the Fair Market Value of Ventas, Inc.'s Investment in such Subsidiary as of the date of such redesignation or (ii) such Fair Market Value as of the date on which such Subsidiary was originally designated as an Unrestricted Subsidiary.

- (6) repurchases of Capital Stock deemed to occur upon the exercise of stock options if such Capital Stock represents a portion of the exercise price thereof and repurchases of Capital Stock deemed to occur upon the withholding of a portion of the Capital Stock granted or awarded to an employee to pay for the taxes payable by such employee upon such grant or award;
- (7) pro rata dividends and other distributions on the Capital Stock of any Restricted Subsidiary by such Restricted Subsidiary to a Person other than Ventas, Inc. or any of its Restricted Subsidiaries;
- (8) the redemption, repurchase or other acquisition or retirement of any Capital Stock of Ventas, Inc. or any Restricted Subsidiary from any director, officer or employee of Ventas, Inc. or any Restricted Subsidiary, or from such person's estate, (a) pursuant to any agreement with such director, officer or employee or (b) upon the death or termination of directorship or employment of such person, in an aggregate amount under this clause (8) not to exceed \$1.5 million in any twelve-month period;

Transactions with Affiliates

Ventas, Inc. will not, and will not permit its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of their properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate or 10% Stockholder (each, an "Affiliate Transaction"), unless the Affiliate Transaction is on terms that are no less favorable to Ventas, Inc. or the relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by Ventas, Inc. or such Restricted Subsidiary with an unrelated Person; *provided, however*, that for an Affiliate Transaction with an aggregate value of \$10.0 million or more, at Ventas, Inc.'s option, either:

- (1) a majority of the members of the Board of Directors of Ventas, Inc. who have no conflicting financial interest in the Affiliate Transaction shall determine in good faith that such Affiliate Transaction is on terms that are not materially less favorable than those that might reasonably have been obtained in a comparable transaction at such time on an arm's-length basis from a Person that is not an Affiliate of Ventas, Inc.; or
- (2) the Board of Directors of Ventas, Inc. shall obtain an opinion from a nationally recognized investment banking, appraisal or accounting firm that such Affiliate Transaction is fair to Ventas, Inc. or the applicable Restricted Subsidiary from a financial point of view.

The following items will not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of the prior paragraph:

- (4) transactions between or among Ventas, Inc. and/or its Restricted Subsidiaries (other than any Permitted Joint Venture);

- (7) Restricted Payments that are permitted by the provisions of the Indenture described above under " Limitations on Restricted Payments."

Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

Ventas, Inc. will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary (other than the Partnership or any Excluded Joint Venture) to:

- (1) pay dividends or make any other distributions on their Capital Stock to Ventas, Inc. or any of its Restricted Subsidiaries, or with respect to any other interest or participation in, or measured by, their profits, or pay any indebtedness owed to Ventas, Inc. or any of its Restricted Subsidiaries;
- (2) make loans or advances to Ventas, Inc. or any of its Restricted Subsidiaries; or
- (3) transfer any of their properties or assets to Ventas, Inc. or any of its Restricted Subsidiaries.

However, the preceding restrictions will not apply to encumbrances or restrictions existing under or by reason of:

- (1) agreements governing Existing Debt and Credit Facilities as in effect on December 9, 2005 and any amendments, modifications, restatements, extensions, renewals, increases, supplements, refundings, replacements or refinancings of those agreements, *provided, however*, that the amendments, modifications, restatements, extensions, renewals, increases, supplements, refundings, replacement or refinancings are no more restrictive, taken as a whole, with respect to such dividend and other payment restrictions than those contained in those agreements on December 9, 2005;
- (2) the Indenture, the Notes and the Guarantees;
- (3) applicable law;
- (4) any instrument governing Debt or Capital Stock of a Person acquired by Ventas, Inc. or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Debt or Capital Stock was incurred in connection with or in contemplation of such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person; so acquired, *provided, however*, that, in the case of Debt, such Debt was permitted by the terms of the Indenture to be incurred;
- (5) customary non-assignment provisions in leases entered into in the ordinary course of business and consistent with past practices;
- (6) purchase money obligations for property acquired in the ordinary course of business that impose restrictions on that property of the nature described in clause (3) of the preceding paragraph;
- (7) any agreement for the sale or other disposition of the stock or assets of a Subsidiary that restricts distributions by that Subsidiary pending its sale or other disposition;
- (8) Liens securing Debt otherwise permitted to be incurred by the Indenture or negative covenants with respect to Debt permitted to be secured by Liens that limit the right of the debtor to dispose of the assets subject to such Liens or permitted to be subject to such Liens;

Restrictions on Activities of Ventas Capital

In addition to the other restrictions set forth in the Indenture, the Indenture will provide that Ventas Capital may not hold any material assets, become liable for any material obligations or engage in any significant business activities; *provided, however*, that Ventas Capital may be a co-obligor with respect to Debt if the Partnership is a primary obligor of such Debt and the net proceeds of such Debt are received by the Partnership or one or more of its Restricted Subsidiaries other than Ventas Capital.

Additional Guarantees

If Ventas, Inc. acquires or creates another Subsidiary after the date of the Second Supplemental Indenture, other than an Excluded Joint Venture or a Subsidiary that has properly been designated as an Unrestricted Subsidiary in accordance with the Indenture for so long as it continues to constitute an Excluded Joint Venture or an Unrestricted Subsidiary, then that newly acquired or created Subsidiary will become a Guarantor and execute a supplemental indenture and deliver a customary opinion of counsel satisfactory to the Trustee within ten Business Days of the date on which it was acquired or created.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors of Ventas, Inc. may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if that designation would not cause a Default under the Indenture. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, the aggregate Fair Market Value of all outstanding Investments owned by Ventas, Inc. and its Restricted Subsidiaries in the Subsidiary properly designated will be deemed to be an Investment made as of the time of the designation and will reduce the amount available for Restricted Payments under the covenant described above under " Limitations on Restricted Payments" or Permitted Investments, as determined by Ventas, Inc. That designation will only be permitted if the Investment would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. The Board of Directors of Ventas, Inc. may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided, however*, that such designation will be deemed to be an incurrence of Debt by a Restricted Subsidiary of Ventas, Inc. of any outstanding Debt of such Unrestricted Subsidiary and such designation will only be permitted if (1) such Debt is permitted under the covenant described under " Limitations on Incurrence of Debt," calculated on a pro forma basis as if such designation had occurred at the beginning of the four-quarter reference period; and (2) no Default or Event of Default would be in existence under the Indenture following such designation.

Existence

Except as permitted as described below under " Merger, Consolidation or Sale," Ventas, Inc. and its Restricted Subsidiaries will agree to do all things necessary to preserve and keep their existence, rights and franchises; *provided, however*, that the existence of a Restricted Subsidiary may be terminated if the Board of Directors of Ventas, Inc. determines that it is in the best interests of Ventas, Inc. to do so.

Provision of Financial Information

Whether or not required by the Commission, so long as any Notes are outstanding, Ventas, Inc. will furnish to the holders of Notes, within the time periods specified in the Commission's rules and regulations:

- (1) all quarterly and annual financial information that would be required to be contained in a filing with the Commission on Forms 10-Q and 10-K if Ventas, Inc. were required to file such Forms, including a 'Management's Discussion and Analysis of Financial Condition and Results

of Operations' and, with respect to the annual information only, a report on the annual financial statements by Ventas, Inc.'s certified independent accountants; and

(2)

all current reports that would be required to be filed with the Commission on Form 8-K if Ventas, Inc. were required to file such reports.

Ventas, Inc. has also agreed that, for so long as any Notes remain outstanding, it will furnish to the holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

The availability of the foregoing materials on the Commission's website or on Ventas, Inc.'s website shall be deemed to satisfy the foregoing delivery obligations.

In addition, whether or not required by the Commission, Ventas, Inc. will file a copy of all of the information and reports referred to in clauses (1) and (2) above with the Commission for public availability within the time periods specified in the Commission's rules and regulations (unless the Commission will not accept such a filing) and make such information available to securities analysts and prospective investors upon request.

If Ventas, Inc. has designated any of its Subsidiaries as Unrestricted Subsidiaries, then the quarterly and annual financial information required by the preceding paragraph will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, and in Management's Discussion and Analysis of Financial Condition and Results of Operations, of the financial condition and results of operations of Ventas, Inc., as applicable, and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of Ventas, Inc.

Merger, Consolidation or Sale

Ventas, Inc. may not, directly or indirectly: (1) consolidate or merge with or into another Person (whether or not Ventas, Inc. is the surviving corporation); or (2) sell, assign, transfer, convey, lease (other than to an unaffiliated operator in the ordinary course of business) or otherwise dispose of all or substantially all of the properties or assets of Ventas, Inc. and its Restricted Subsidiaries taken as a whole, in one or more related transactions, to another Persons; unless:

(1)

either: (a) Ventas, Inc. is the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if other than Ventas, Inc.) or to which such sale, assignment, transfer, conveyance or other disposition has been made is a corporation organized or existing under the laws of the United States, any state of the United States or the District of Columbia;

(2)

the Person formed by or surviving any such consolidation or merger (if other than Ventas, Inc.) or the Person to which such sale, assignment, transfer, conveyance or other disposition has been made assumes all the obligations of Ventas, Inc. under the Notes and the Indenture pursuant to agreements reasonably satisfactory to the Trustee;

(3)

immediately after such transaction, on a pro forma basis giving effect to such transaction or series of transactions (and treating any obligation of Ventas, Inc. or any Restricted Subsidiary incurred in connection with or as a result of such transaction or series of transactions as having been incurred at the time of such transaction), no Default or Event of Default exists under the Indenture; and

(4)

Ventas, Inc. or the Person formed by or surviving any such consolidation or merger (if other than Ventas, Inc.), or to which such sale, assignment, transfer, conveyance or other disposition has been made will, on the date of such transaction after giving pro forma effect thereto and any related financing transactions as if the same had occurred at the beginning of the

Table of Contents

applicable four-quarter period, be permitted to incur at least \$1.00 of additional Debt (other than Permitted Debt) pursuant to the covenant described above under " Limitations on Incurrence of Debt."

In addition, in the case of any lease of all or substantially all of its properties or assets (other than to an unaffiliated operator in the ordinary course of business), in one or more related transactions, to any other Person the terms of the lease must be reasonably acceptable to the Trustee or to the holders of a majority in principal amount of the Notes. This "Merger, Consolidation or Sale" covenant will not apply to a sale, assignment, transfer, conveyance or other disposition of assets between or among Ventas, Inc. and its Restricted Subsidiaries.

Upon any consolidation or merger, or any sale, assignment, transfer, conveyance, transfer or other disposition of all or substantially all of the properties or assets of Ventas, Inc. in accordance with the foregoing provisions, the successor Person formed by such consolidation or into which Ventas, Inc. is merged or to which such sale, assignment, transfer, conveyance or other disposition is made, shall succeed to, and be substituted for, and may exercise every right and power of, Ventas, Inc. under the Indenture with the same effect as if such successor initially had been named as Ventas, Inc. therein. When a successor assumes all the obligations of its predecessor under the Indenture and the Notes following a consolidation or merger, or any sale, assignment, transfer, conveyance, transfer or other disposition of 90% or more of the assets of the predecessor in accordance with the foregoing provisions, the predecessor shall be released from those obligations.

Repurchase of Notes Upon a Change of Control

If a Change of Control occurs, each holder of Notes will have the right to require the Issuers to purchase some or all (in principal amounts of \$1,000 or an integral multiple of \$1,000) of such holder's Notes pursuant to the offer described below (the "Change of Control Offer"), unless, after giving pro forma effect to the Change of Control, (i) Moody's and S&P shall have confirmed their ratings of the Notes at Ba3 or higher and BB- or higher, respectively, (ii) the ratio of Consolidated Income Available for Debt Service to Annual Debt Service for the four consecutive fiscal quarters ended on the most recent Measurement Date prior to the date of such Change of Control after such Change of Control is at least equal to the ratio of Consolidated Income Available for Debt Service to Annual Debt Service prior to such Change of Control and (iii) the Person formed by or surviving any consolidation or merger (if other than the Partnership) or to which any sale, assignment, transfer, conveyance or other disposition has been made forming the basis of the Change of Control is principally engaged in a Permitted Business.

Any Change of Control Offer will include a cash offer price of 101% of the principal amount of any Notes purchased plus accrued and unpaid interest, if any, to the date of purchase (the "Change of Control Payment"). If a Change of Control Offer is required, within ten Business Days following a Change of Control, the Issuers will mail a notice to each holder describing the Change of Control and offering to repurchase Notes on a specified date (the "Change of Control Payment Date"). The Change of Control Payment Date will be no earlier than 30 days and no later than 60 days from the date the notice is mailed.

On the Change of Control Payment Date, the Issuers will, to the extent lawful:

- (1) accept for payment all Notes properly tendered and not withdrawn pursuant to the Change of Control Offer;
- (2) deposit the Change of Control Payment with the paying agent in respect of all Notes so accepted; and
- (3) deliver to the Trustee the Notes accepted and an officers' certificate stating the aggregate principal amount of all Notes purchased by the Issuers.

Table of Contents

The paying agent will promptly mail to each holder of Notes properly tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail, or cause to be transferred by book entry, to each holder a new Note in principal amount equal to any unpurchased portion of the Notes surrendered.

The Issuers will comply with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations to the extent those laws and regulations are applicable to any Change of Control Offer. If the provisions of any of the applicable securities laws or securities regulations conflict with the provisions of the covenant described above, the Issuers will comply with the applicable securities laws and regulations and will not be deemed to have breached their obligations under the covenant described above by virtue of that compliance.

A third party, instead of the Issuers, may make the Change of Control Offer in compliance with the requirements set forth in the Indenture and purchase all Notes properly tendered and not withdrawn. In addition, the Issuers will not be obligated to make or consummate a Change of Control Offer with respect to the Notes, if they have irrevocably elected to redeem all of the Notes under provisions described under " Optional Redemption" and have not defaulted in their redemption obligations. The provisions under the Indenture relating to the Issuers' obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of the holders of a majority in principal amount of the Notes then outstanding.

Some change of control events may constitute a default under the Credit Agreement. Future indebtedness of the Partnership or the Guarantors may contain prohibitions on the events that constitute a Change of Control. Certain Existing Debt requires and future indebtedness may require the indebtedness to be purchased or repaid if a Change of Control occurs. Moreover, the exercise by the holders of their right to require the Issuers to repurchase the Notes could cause a default under such indebtedness, even if the Change of Control itself does not. Finally, the Issuers' ability to pay cash to the holders of Notes, if required to do so, may be limited by their then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases. See "Risk Factors Risks Relating to the Notes If we experience a change in control, we may be unable to purchase the notes you hold as required under the indenture governing the notes."

Repurchase of Notes Upon an Asset Sale

Ventas, Inc. will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

- (1) Ventas, Inc. (or the Restricted Subsidiary, as the case may be) receives consideration at the time of the Asset Sale at least equal to the Fair Market Value of the assets or Equity Interests issued or sold or otherwise disposed of;
- (2) the Fair Market Value is set forth in an officers' certificate delivered to the Trustee, *provided, however* that this clause (2) will not apply to sales of assets pursuant to contracts in effect on December 9, 2005; and
- (3) at least 75% of the consideration received in the Asset Sale by Ventas, Inc. or such Restricted Subsidiary is in the form of cash, Cash Equivalents and/or Replacement Assets. For purposes of this provision, each of the following will be deemed to be cash:
 - (a) any liabilities, as shown on Ventas, Inc.'s or such Restricted Subsidiaries' most recent balance sheet, of Ventas, Inc. or any such Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Guarantee) that are assumed by the transferee of any such assets but, except in the case of an Asset Sale to a Restricted Subsidiary of Ventas, Inc., only to the extent of the reduction in the amount of such liabilities on Ventas, Inc.'s consolidated balance sheet;

Edgar Filing: Ventas Capital Corp - Form 424B5

Table of Contents

- (b) any securities, Notes or other obligations received by Ventas, Inc. or any such Restricted Subsidiary from such transferee that are contemporaneously, subject to ordinary settlement periods, converted by Ventas, Inc. or such Restricted Subsidiary into cash, to the extent of the cash received in that conversion;
- (c) the cash amount drawable by Ventas, Inc. under any irrevocable letter of credit provided to Ventas, Inc. as consideration for such Asset Sale (provided that such amount is drawn before the expiration of such irrevocable letter of credit); and
- (d) any other consideration received in Asset Sales since December 9, 2005 that is designated by Ventas, Inc. as "Designated Cash Consideration"; *provided, however*, that the aggregate Fair Market Value of all Designated Cash Consideration does not exceed 10% of Consolidated Net Tangible Assets.

Within 365 days after the receipt of any Net Proceeds from an Asset Sale or Qualified CMBS Transaction, Ventas, Inc. may apply those Net Proceeds:

- (1) to repay Debt and other Obligations under a Credit Facility;
- (2) to acquire all or substantially all of the assets of, or a majority of the Voting Stock of, another Permitted Business;
- (3) to make a capital expenditure;
- (4) to acquire or enter into a legally binding obligation to acquire Replacement Assets; or
- (5) to acquire other long-term assets that are used or useful in a Permitted Business.

Pending the final application of any Net Proceeds, Ventas, Inc. may temporarily reduce revolving credit borrowings or otherwise invest the Net Proceeds in any manner that is not prohibited by the Indenture.

Any Net Proceeds from Asset Sales or Qualified CMBS Transactions that are not applied or invested as provided in the preceding paragraph will constitute "Excess Proceeds." When the aggregate amount of Excess Proceeds exceeds \$35.0 million, the Issuers will make an Asset Sale Offer or Qualified CMBS Transaction Offer, as applicable, to all holders of Notes and all holders of other Debt that is *pari passu* with the Notes containing provisions similar to those set forth in the Indenture (including without limitation the holders of notes outstanding under the Issuers' existing indentures) with respect to offers to purchase or redeem with the proceeds of sales of assets or in connection with securitizations to purchase the maximum principal amount of Notes and such other *pari passu* Debt that may be purchased out of the Excess Proceeds. The offer price in any Asset Sale Offer or Qualified CMBS Transaction Offer will be equal to 100% of principal amount plus accrued and unpaid interest to the date of purchase, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer or a Qualified CMBS Transaction Offer, the Issuers may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes and other *pari passu* Debt tendered into such Asset Sale Offer or Qualified CMBS Transaction Offer, as applicable, exceeds the amount of Excess Proceeds, the Trustee will select the Notes and such other *pari passu* Debt to be purchased on a pro rata basis. Upon completion of each Asset Sale Offer and Qualified CMBS Transaction Offer, the amount of Excess Proceeds will be reset at zero.

The Issuers will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with each repurchase of Notes pursuant to an Asset Sale Offer or Qualified CMBS Transaction Offer. To the extent that the provisions of any securities laws or regulations conflict with the Asset Sale or Qualified CMBS Transaction provisions of the Indenture, the Issuers will comply with

Table of Contents

the applicable securities laws and regulations and will not be deemed to have breached their obligations under the Asset Sale or Qualified CMBS Transaction provisions of the Indenture by virtue of such conflict.

Some Asset Sales and Qualified CMBS Transactions may constitute a default under the Credit Agreement. Future indebtedness of the Partnership or the Guarantors may contain prohibitions on Asset Sales or Qualified CMBS Transactions. Certain Existing Debt requires and future indebtedness may require the indebtedness to be purchased or repaid if an Asset Sale or Qualified CMBS Transaction occurs. Moreover, the exercise by the holders of their right to require the Issuers to repurchase the Notes could cause a default under such indebtedness, even if the Assets Sale or Qualified CMBS Transaction themselves do not. Finally, the Issuers' ability to pay cash to the holders of Notes, if required to do so, may be limited by their then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases.

Events of Default, Notice and Waiver

The Indenture provides that the term "Event of Default" with respect to the Notes means any of the following:

- (1) Ventas, Inc. or its Restricted Subsidiaries do not pay the principal or any premium on the Notes when due and payable;
- (2) Ventas, Inc. or its Restricted Subsidiaries do not pay interest on the Notes within 30 days after the applicable due date;
- (3) Ventas, Inc. or its Restricted Subsidiaries fail to make or consummate a Change of Control Offer following a Change of Control when required as described under " Repurchase of Notes Upon a Change of Control";
- (4) Ventas, Inc. or its Restricted Subsidiaries remain in breach of any other term of the Indenture for 60 days after they receive a notice of Default stating they are in breach. Either the Trustee or the holders of more than 25% in principal amount of the then outstanding Notes may send the notice;
- (5) Final judgments aggregating in excess of \$50.0 million (exclusive of amounts covered by insurance) are entered against Ventas, Inc. and its Restricted Subsidiaries and are not paid, discharged or stayed for a period of 60 days;
- (6) Ventas, Inc. or its Restricted Subsidiaries default under any of their indebtedness in an aggregate principal amount exceeding \$50.0 million after the expiration of any applicable grace period, which default results in the acceleration of the maturity of such indebtedness. Such default is not an Event of Default if the other indebtedness is discharged, or the acceleration is rescinded or annulled, within a period of 10 days after Ventas, Inc. or its Restricted Subsidiaries receives notice specifying the default and requiring that they discharge the other indebtedness or cause the acceleration to be rescinded or annulled. Either the Trustee or the holders of more than 25% in principal amount of the then outstanding Notes may send the notice; or
- (7) Ventas, Inc. or any of its Significant Subsidiaries or any group of Subsidiaries that, taken as a whole, would constitute a Significant Subsidiary files for bankruptcy or certain other events in bankruptcy, insolvency or reorganization occur.

Remedies If an Event of Default Occurs

If an Event of Default with respect to the Notes has occurred and has not been cured, either the Trustee or the holders of at least 25% in principal amount of the then outstanding Notes may declare

Table of Contents

the entire principal amount of the Notes to be due and immediately payable by written notice to the Partnership, Ventas, Inc. and the Trustee. If an Event of Default occurs because of certain events in bankruptcy, insolvency or reorganization, the principal amount of all the Notes will be automatically accelerated, without any action by the Trustee or any holder. At any time after the Trustee or the holders have accelerated the Notes, but before a judgment or decree for payment of the money due has been obtained, the holders of at least a majority in principal amount of the then outstanding Notes may, under certain circumstances, rescind and annul such acceleration.

The Trustee will be required to give notice to the holders of Notes within 90 days after a Default under the Indenture unless the Default has been cured or waived. The Trustee may withhold notice to the holders of the Notes of any Default, except a Default in the payment of the principal of or interest on the Notes, if specified responsible officers of the Trustee in good faith determine that withholding the notice is in the interest of the holders.

Except in cases of Default, where the Trustee has some special duties, the Trustee is not required to take any action under either Indenture at the request of any holders of Notes unless such holders offer the Trustee reasonable protection from expenses and liability. We refer to this as an "indemnity." If reasonable indemnity is provided, the holders of a majority in principal amount of the then outstanding Notes may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the Trustee. These majority holders may also direct the Trustee in performing any other action under the Indenture, subject to certain limitations.

Before a holder bypasses the Trustee and brings its own lawsuit or other formal legal action or takes other steps to enforce its rights or protect its interests relating to the Notes, the following must occur:

- (1) The holder must give the Trustee written notice that an Event of Default with respect to the Notes has occurred and remains uncured;
- (2) The holders of at least a majority in principal amount of all outstanding Notes must make a written request that the Trustee take action because of the Default, and must offer reasonable indemnity to the Trustee against the cost and other liabilities of taking that action;
- (3) The Trustee must have not taken action for 60 days after receipt of the notice and offer of indemnity; and
- (4) The holders of at least a majority in principal amount of all outstanding Notes must not have given the Trustee a direction inconsistent with such request within such 60-day period.

However, a holder is entitled at any time to bring a lawsuit for the payment of money due on any Note after its due date.

Within 120 days after the end of each fiscal year, Ventas, Inc. will furnish to the Trustee a written statement by certain of Ventas, Inc.'s officers certifying that to their knowledge Ventas, Inc. and its Restricted Subsidiaries are in compliance with the Indenture and the Notes, or else specifying any Default.

No Liability for Certain Persons

No director, officer, employee or stockholder of Ventas, Inc. or any of its Subsidiaries, as such, will have any liability for any obligations of Ventas, Inc. or any of its Subsidiaries under the Notes or the Indenture based on, in respect of, or by reason of such obligations or their creation. Each holder by accepting a Note waives and releases all such liability. The foregoing waiver and release are an integral part of the consideration or the issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws.

Modification of the Indenture

Except as provided in the next two succeeding paragraphs, the Indenture and/or the Notes may be amended or supplemented with the written consent of the holders of at least a majority in principal amount of the then outstanding debt securities issued under the Base Indenture affected by such amendment or supplement voting as a single class (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, such Notes) and any existing Default, Event of Default (other than a Default or Event of Default in the payment of the principal or premium, if any, of or interest on the debt securities, except a payment default resulting from an acceleration that has been rescinded) or compliance with any provision of the Indenture or the Notes may be waived with the consent of the holders of a majority in principal amount of the then outstanding debt securities issued under the Base Indenture affected thereby voting as a single class (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, the Notes).

Without the consent of each holder affected, an amendment or waiver may not (with respect to any Notes held by a non-consenting holder):

- (1) reduce the principal amount of Notes whose holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed maturity of any Note or alter the provisions with respect to the redemption of the Notes (other than provisions relating to the covenants described above under " Repurchase of Notes Upon a Change of Control" and " Repurchase of Notes Upon an Asset Sale");
- (3) reduce the rate of or change the time for payment of interest on any Note;
- (4) waive a Default or Event of Default in the payment of principal of, or interest or premium on, the Notes (except a rescission of acceleration of the Notes by the holders of at least a majority in aggregate principal amount of the then outstanding Notes and a waiver of the payment Default that resulted from such acceleration);
- (5) make any Note payable in money other than that stated in the Notes;
- (6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of holders of Notes to receive payments of principal of, or interest or premium on, the Notes;
- (7) waive a redemption payment with respect to any Note (other than provisions relating to the covenants described above under " Repurchase of Notes Upon a Change of Control" and " Repurchase of Notes Upon an Asset Sale");
- (8) release any Guarantor from any of its obligations under its Guarantee of the Notes or the Indenture, except in accordance with the terms of the Indenture; or
- (9) make any change in the amendment and waiver provisions set forth in clauses (1) through (8).

Notwithstanding the preceding, without the consent of any holder of Notes, the Issuers, the Guarantors and the Trustee may amend or supplement the Indenture or the Notes issued thereunder:

- (1) to cure any ambiguity, defect or inconsistency;
- (2) to provide for uncertificated Notes in addition to or in place of certificated Notes;
- (3) to provide for the assumption of the Issuers' obligations to holders of Notes in the case of a merger or consolidation or sale of all or substantially all of the Issuers' assets;
- (4) to add additional Guarantees with respect to the Notes;
- (5) to secure the Notes;
- (6) to make any other change that would provide any additional rights or benefits to the holders of Notes or that does not adversely affect the legal rights under the Indenture of any such holder; or
- (7) to comply with requirements of the Commission in order to effect or maintain the qualification of the Indenture under the Trust Indenture Act.

Any such consent need only approve the substance, rather than the particular form, of the proposed amendment.

Notes are not considered outstanding, and therefore the holders thereof are not eligible to vote, if the Issuers have deposited or set aside in trust for the holders money for their payment or redemption or if the Issuers or one of their affiliates own them. The holders of Notes are also not eligible to vote if they have been fully defeased as described below under " Discharge, Defeasance and Covenant Defeasance Full Defeasance."

Sinking Fund

The Notes are not entitled to any sinking fund payments.

The Trustee; Registrar and Paying Agent

U.S. Bank National Association is the Trustee under the Indenture. The Issuers have initially designated the Trustee as the registrar and paying agent for the Notes. Payments of interest and principal will be made, and the Notes will be transferable, at the office of the paying agent, or at such other place or places as may be designated pursuant to the Indenture. For Notes that are issued in book-entry form represented by a global security, payments will be made to a nominee of the depository. The Trustee is also the trustee under each of the indentures relating to the Existing Notes.

Discharge, Defeasance and Covenant Defeasance

Discharge

The Issuers may discharge all of their obligations to the holders of Notes (other than the obligation to register transfers and exchanges) that either have become due and payable or will become due and payable within one year, or scheduled for redemption within one year, by irrevocably depositing with the Trustee, in trust, cash in U.S. dollars, non-callable U.S. government agency notes or bonds or a combination thereof, in such amounts as will be sufficient to pay all of the Notes, including any premium, and interest payable thereon.

Full Defeasance

Edgar Filing: Ventas Capital Corp - Form 424B5

The Issuers can, under particular circumstances, effect a full defeasance of the Notes. This means the Issuers can legally release themselves and the Guarantors from any payment or other obligations on the Notes (other than the obligation to register transfers and exchanges) if, among other things, the

S-45

Table of Contents

Issuers put in place the arrangements described below to repay the holders of the Notes and deliver certain certificates and legal opinions to the Trustee:

- (1) The Issuers must irrevocably deposit in trust for the benefit of all direct holders of the Notes money or U.S. government or U.S. government agency notes or bonds (or, in some circumstances, depositary receipts representing these notes or bonds), or any combination thereof, that will generate enough cash to make interest, principal and any other payments on the Notes on their due date;
- (2) The current federal tax law must be changed or an IRS ruling must be issued permitting the above deposit without causing holders of the Notes to be taxed on the Notes any differently than if the Issuers did not make the deposit and just repaid the Notes themselves. Under current federal income tax law, the deposit and the Issuers' legal release from the Notes would be treated as though the Issuers took back the Notes and gave each holder of the Notes such holder's share of the cash and notes or bonds deposited in trust. In that event, the holders of the Notes could recognize gain or loss on the Notes such holder gives back to the Issuers; and
- (3) The Issuers must deliver to the Trustee a legal opinion confirming the tax law change or IRS ruling described above.

If the Issuers did accomplish full defeasance, the holders of the Notes would have to rely solely on the trust deposit for repayment on the Notes. The holders of the Notes could not look to the Issuers or the Guarantors for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of the Issuers' lenders and other creditors if the Issuers ever became bankrupt or insolvent.

Covenant Defeasance

Under current federal income tax law, the Issuers can make the same type of deposit described above and be released from some of the restrictive covenants in the Indenture and the Notes. This is called "covenant defeasance." In that event, the holders of the Notes would lose the protection of those restrictive covenants but would gain the protection of having money and securities set aside in trust to repay their Notes.

If the Issuers accomplish covenant defeasance, the following provisions of the Indenture and the Notes would no longer apply:

- (1) any covenants applicable to the Notes and described in this prospectus supplement; and
- (2) certain Events of Default relating to breach of covenants, material unsatisfied judgments and acceleration of the maturity of other debt set forth in this prospectus supplement.

If the Issuers accomplish covenant defeasance with respect to the Notes, the holders of the Notes can still look to the Issuers for repayment of their Notes if a shortfall in the trust deposit occurred. If one of the remaining Events of Default occurs, for example, the Issuers' bankruptcy, and the Notes become immediately due and payable, there may be a shortfall. Depending on the event causing the Default, the holders of the Notes may not be able to obtain payment of the shortfall.

The Issuers may exercise their full defeasance option notwithstanding any prior exercise of their covenant defeasance option.

Book-Entry System and Form of Notes

The Notes will be issued in the form of one or more fully registered global notes without coupons that will be deposited with The Depository Trust Company, New York, New York, which we refer to in this prospectus supplement as DTC, and registered in the name of its nominee, Cede & Co. This means that the Issuers will not issue certificates to each owner of Notes. The global notes will be issued to DTC, which will keep a computerized record of its participants (for example, your broker) whose clients have purchased the Notes. The participant will then keep a record of its clients who purchased the Notes. Unless it is exchanged in whole or in part for a certificated note, a global note may not be transferred, except that DTC, its nominees, and their successors may transfer a global note as a whole to one another.

DTC has provided the following information to us. DTC, the world's largest securities depository, is a:

limited-purpose trust company organized under the New York Banking Law;

"banking organization" within the meaning of the New York Banking Law;

member of the U.S. Federal Reserve System;

"clearing corporation" within the meaning of the New York Uniform Commercial Code; and

"clearing agency" registered under the provisions of Section 17A of the Securities Exchange Act.

DTC holds and provides asset servicing for over 3.5 million of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that its direct participants deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants' accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by users of its regulated subsidiaries. Access to DTC's book-entry system is also available to indirect participants such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. DTC has Standard & Poor's highest rating: AAA. The rules applicable to DTC and its direct and indirect participants are on file with the Commission.

Principal and interest payments on global notes registered in the name of DTC's nominee will be made in immediately available funds to DTC's nominee as the registered owner of the global notes. We and the Trustee will treat DTC's nominee as the owner of the global notes for all other purposes as well. Accordingly, we, the Trustee and any paying agent will have no direct responsibility or liability to pay amounts due on the global notes to owners of beneficial interests in the global notes. DTC's practice is to credit direct participants' accounts upon receipt of any payment of principal or interest on the payment date in accordance with their respective holdings of beneficial interests in the global notes as shown on DTC's records. Payments by direct and indirect participants to owners of beneficial interests in the global notes will be governed by standing instructions and customary practices. These payments will be the responsibility of the direct and indirect participants and not of DTC, the Trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time.

Table of Contents

The Notes, which are represented by a global note, will be exchangeable for certificated Notes with the same terms in authorized denominations only if:

DTC notifies the Issuers that it is unwilling or unable to continue as depositary;

DTC ceases to be a registered clearing agency and a successor depositary is not appointed by the Issuers within 120 days; or

the Issuers determine not to require all of the Notes to be represented by a global note and notify the Trustee of that decision.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Same Day Settlement and Payment

The underwriters will make settlement for the Notes in immediately available funds. The Issuers will make all payments of principal and interest in respect of the Notes in immediately available funds. The Notes will trade in DTC's Same-Day Funds Settlement System until maturity or until the Notes are issued in certificated form, and secondary market trading activity in the Notes will therefore be required by DTC to settle in immediately available funds. We expect that secondary trading in the certificated securities, if any, will also be settled in immediately available funds. No assurance can be given as to the effect, if any, of settlement in immediately available funds on trading activity in the Notes.

Governing Law

The Indenture and the Notes will be governed by, and construed in accordance with, the laws of the State of New York without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

CERTAIN UNITED STATES FEDERAL INCOME AND ESTATE TAX CONSEQUENCES

IRS Circular 230 Disclosure

To ensure compliance with requirements imposed by the Internal Revenue Service ("IRS"), we inform you that the following discussion of U.S. federal income and estate tax consequences (a) was not intended or written to be used, and it cannot be used, for the purposes of avoiding tax-related penalties and (b) was written in connection with the promotion or marketing of the transactions or matters addressed in this prospectus supplement. You should seek tax advice based on your particular circumstances from an independent tax advisor.

Introduction

The following is a general discussion of certain U.S. federal income and, in the case of Non-U.S. Holders (as defined below), estate tax consequences relating to the purchase, ownership and disposition of the notes. This discussion is based upon the Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations, IRS rulings, and judicial decisions now in effect, all of which are subject to change (possibly with retroactive effect) or different interpretations.

This discussion neither addresses all aspects of U.S. federal taxation that may be important to holders of the notes nor the tax consequences arising under the laws of any foreign, state or local jurisdiction. This discussion is for general information only, and does not purport to address all U.S. federal income and estate tax consequences that may be important to particular purchasers in light of their personal circumstances, or to certain types of purchasers (such as certain financial institutions, insurance companies, controlled foreign corporations, passive foreign investment companies, tax-exempt entities, partnerships or other pass-through entities, dealers in securities or currencies, U.S. expatriates, persons who hold the notes in connection with a straddle, hedge, conversion transaction or any similar or hybrid financial instrument, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, or persons liable for the alternative minimum tax) that may be subject to special rules. In addition, this discussion is limited to persons purchasing the notes for cash pursuant to this prospectus supplement at the offering price on the cover page of this prospectus supplement. Finally, this discussion assumes that each holder holds the notes as a capital asset within the meaning of Section 1221 of the Code.

There can be no assurance that the IRS will not take a different position concerning the tax consequences of the purchase, ownership or disposition of the notes or that any such position would not be sustained.

For the purpose of this discussion, a "Non-U.S. Holder" refers to any beneficial owner of the notes who is an individual, corporation, estate or trust for U.S. federal income tax purposes and is not a U.S. Holder. The term "U.S. Holder" means any beneficial owner of the notes who is an individual who is a citizen or resident of the United States, a corporation organized in the United States or any state thereof or the District of Columbia, an estate, the income of which is includible in income for U.S. federal income tax purposes regardless of its source or a trust if (i) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) such trust has elected under applicable Treasury Regulations to retain its pre-August 20, 1996 classification as a U.S. person. For the purposes of this discussion, neither the term "Non-U.S. Holder" nor the term "U.S. Holder" includes a partnership for U.S. federal income tax purposes. If a partnership holds the notes, the tax treatment of a partner in the partnership will generally depend upon the status and activities of the partnership and the partner. Prospective holders that are partnerships for U.S. federal income tax purposes should consult their own tax advisors regarding the U.S. federal income tax consequences to them and their partners of holding the notes.

Table of Contents

In certain circumstances, we may be obligated to pay holders amounts in excess of the stated interest and principal payable on the notes. The obligation to make such payments may be subject to the provisions of Treasury Regulations relating to "contingent payment debt instruments." If the notes were deemed to be contingent payment debt instruments, holders might, among other things, be required to treat any gain recognized on the sale or other disposition of a note as ordinary income rather than as capital gain, and the timing and amount of income inclusion may be different from the consequences discussed herein. We intend to take the position that the likelihood that such payments will be made is remote and/or that such payments are incidental, and therefore the notes are not subject to the rules governing contingent payment debt instruments. This determination will be binding on a holder unless such holder explicitly discloses on a statement attached to such holder's timely filed U.S. federal income tax return for the taxable year that includes the acquisition date of the note that such holder's determination is different. It is possible, however, that the IRS may take a contrary position from that described above, in which case the tax consequences to a holder could differ materially and adversely from those described below. The remainder of this disclosure assumes that the notes will not be treated as contingent payment debt instruments.

Persons considering the purchase of notes should consult their own advisors concerning the application of U.S. federal income, estate and gift tax laws, as well as the laws of any state, local or foreign taxing jurisdiction which may be relevant to their particular situations.

Tax Consequences Applicable to U.S. Holders

Stated interest. Payments of stated interest on a note generally will be taxable to a U.S. Holder as ordinary income at the time such payments are accrued or are received, in accordance with the U.S. Holder's regular method of tax accounting.

Original issue discount. The notes will be treated as being issued with OID for U.S. federal income tax purposes. The amount of OID on a note will equal the excess of the "stated redemption price at maturity" of the note over its "issue price." Generally, the "issue price" of a note is the first price at which a substantial amount of the notes is sold to purchasers other than bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers. The "stated redemption price at maturity" of a note is the total of all payments to be made under the note other than "qualified stated interest" (generally, stated interest that is unconditionally payable in cash or property at least annually at a single fixed rate or at certain floating rates that properly take into account the length of the interval between stated interest payments) and, in this case, is expected to equal the principal amount of the note.

Each U.S. Holder must include in income for a given taxable year the daily portion of the OID that accrues on the note for each day during the taxable year on which such U.S. Holder holds the note. Thus, a U.S. Holder of a note will be required to include amounts in income in advance of the receipt of cash to which the OID is attributable. A daily portion of OID is determined by allocating to each day in any "accrual period" a pro rata portion of the OID that accrued during such period. Applicable Treasury Regulations permit a U.S. Holder to use accrual periods of any length from one day to one year to compute accruals of OID, provided that the yield to maturity is adjusted to reflect the accrual period selected, and further provided that each scheduled payment of principal or interest occurs either on the first or the last day of an accrual period.

The amount of OID that accrues with respect to any accrual period is the product of the note's "adjusted issue price" at the beginning of the accrual period and the note's "yield to maturity" less the amount of any qualified stated interest allocable to the accrual period. The adjusted issue price of each note at the start of any accrual period equals the sum of the issue price of such note and the aggregate amount of previously accrued OID, less any prior payments on the note other than payments of qualified stated interest. The yield to maturity of the notes generally is the discount rate that, when

Table of Contents

applied to all payments to be made on the notes, produces a present value equal to the issue price of the notes.

Sale or other disposition of the notes. In general, a U.S. Holder of the notes will recognize gain or loss upon the sale, retirement, redemption or other disposition of the notes measured by the difference between the amount of cash and the fair market value of any property received (except to the extent attributable to accrued and unpaid stated interest, which will be taxable as interest income) and the U.S. Holder's adjusted tax basis in the notes. A U.S. Holder's adjusted tax basis in the notes generally will equal the cost of the notes to the holder, increased by any OID previously taken into income by the holder and decreased by the amount of pre-issuance accrued interest after it is paid on June 1, 2009. The gain or loss on the disposition of the notes will be capital gain or loss and will be long-term gain or loss if the notes have been held for more than one year at the time of such disposition (in the case of a non-corporate taxpayer, currently at a maximum rate of 15% for long-term capital gains, but scheduled to increase to 20% for any taxable year beginning on or after January 1, 2011). A U.S. Holder's ability to deduct capital losses may be limited.

Tax Consequences Applicable to Non-U.S. Holders

A Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on payments of interest (including OID) on a note if such payments are not effectively connected with the conduct of a U.S. trade or business, unless such Non-U.S. Holder (i) owns (actually or constructively) (A) 10% or more of the total combined voting power of all classes of Ventas Capital Corporation's voting stock within the meaning of the Code and applicable Treasury Regulations or (B) 10% or more of the capital or profits interest of Ventas Realty, Limited Partnership, (ii) is a controlled foreign corporation that is related to us, or (iii) is a bank as to which the interest represents interest received on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business, in which case such interest will be subject to a 30% withholding tax (unless reduced or eliminated by an applicable treaty). To qualify for the exemption from the withholding tax (or to claim the elimination or reduction of the withholding tax under a treaty), the last U.S. payor in the chain of payment prior to payment to a Non-U.S. Holder, which we refer to in this prospectus supplement as the Withholding Agent, must have received, before payment, a statement that:

is signed by the Non-U.S. Holder under penalties of perjury;

certifies that the Non-U.S. Holder is not a U.S. person; and

provides the name and address of the Non-U.S. Holder.

Certain additional information may be required to claim the elimination or reduction in withholding tax under a treaty.

The statement may be made on an IRS Form W-8BEN or a substantially similar form, and the Non-U.S. Holder must inform the Withholding Agent of any change in the information on the statement within 30 days of such change. If a note is held through a securities clearing organization or certain other financial institutions, the beneficial owner of the note must provide the above statement to such organization or institution.

Subject to the discussion of backup withholding below, a Non-U.S. Holder generally will not be subject to U.S. federal withholding tax on any amount which constitutes gain upon sale, retirement, redemption or other disposition of the notes. Such gain generally will also not be subject to U.S. federal income tax unless (i) the gain is effectively connected with the conduct of a trade or business in the United States by the Non-U.S. Holder (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment) in which case the Non-U.S. Holder will be taxed as discussed below or (ii) in the case of a Non-U.S. Holder who is an individual, the Non-U.S. Holder is present in the United States for 183 days or more in the taxable year of the sale and certain

Table of Contents

other conditions are met, in which case the Non-U.S. Holder will be subject to a flat 30% U.S. federal income tax on any gain recognized (except as otherwise provided by an applicable income tax treaty), which may be offset by certain U.S. source losses.

If interest (including OID) and other payments received by a Non-U.S. Holder with respect to the notes (including proceeds from a sale, retirement, redemption or other disposition of the notes) are effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a United States permanent establishment), such Non-U.S. Holder will generally be subject to the rules described above for a U.S. Holder (subject to any modification provided under an applicable income tax treaty). Such Non-U.S. Holder may also be subject to the "branch profits tax" (equal to 30% of its effectively connected earnings and profits for the taxable year, subject to certain adjustments, unless it qualifies for a lower rate under an applicable income tax treaty) if such holder is a corporation. If interest (including OID) received with respect to the notes is effectively connected income (whether or not a treaty applies), the 30% withholding tax described above will not apply (assuming an appropriate certification is provided).

U.S. Federal Estate Tax

A note held or beneficially owned by an individual who is not a citizen or resident of the United States at the time of death for U.S. federal estate tax purposes (whose classification may differ for income tax purposes) will not be includible in the decedent's gross estate for such purposes, provided (1) such holder or beneficial owner did not, at the time of death, actually or constructively own (A) 10% or more of the total combined voting power of all classes of Ventas Capital Corporation's voting stock within the meaning of the Code and applicable Treasury Regulations or (B) 10% or more of the capital or profits interest of Ventas Realty, Limited Partnership; and (2) at the time of death, payments with respect to such note would not have been effectively connected with the conduct by such holder of a trade or business in the United States. In addition, the U.S. federal estate tax law may not apply with respect to such note under the terms of an applicable estate tax treaty.

Information Reporting and Backup Withholding

U.S. Holders. Certain non-corporate U.S. Holders may be subject to backup withholding (currently at a rate of 28%) on payments of interest on, and the proceeds of the disposition (including a retirement or redemption) of, the notes, if the U.S. Holder:

fails to furnish on a properly completed IRS Form W-9 (or a substantially similar form) its taxpayer identification number, or TIN, which, for an individual, would be his or her Social Security number;

furnishes an incorrect TIN and we or our paying agent has received notice from the IRS of such incorrect TIN;

is notified by the IRS that it is subject to backup withholding because it has failed to report all payments of interest or dividends; or

under certain circumstances, fails to certify, under penalty of perjury, that it has furnished a correct TIN and has not been notified by the IRS that it is subject to backup withholding tax for failure to report interest or dividend payments.

In addition, such payments of interest and disposition proceeds to U.S. Holders will generally be subject to information reporting. U.S. Holders should consult their tax advisors regarding their qualification for exemption from backup withholding and the procedure for obtaining such an exemption, if applicable.

Any amounts withheld under the backup withholding rules from a payment to a U.S. Holder would be allowed as a refund or a credit against such holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Non-U.S. Holders. We must report annually to the IRS and to each Non-U.S. Holder any interest (including OID) on the notes that is subject to withholding or that is exempt from U.S. withholding tax pursuant to a tax treaty or the "portfolio interest" exemption. Copies of these information returns may also be made available under the provisions of a specific treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides.

Backup withholding and other information reporting generally will not apply to payments of interest (including OID) made to a Non-U.S. Holder of the notes who timely provides a properly completed IRS Form W-8BEN (or a substantially similar form) or otherwise establishes an exemption from backup withholding. Payments of the proceeds of a disposition (including a retirement or redemption) of the notes by or through a U.S. office of a broker, domestic or foreign, generally will be subject to backup withholding and information reporting unless the Non-U.S. Holder timely certifies its status as a Non-U.S. Holder under penalties of perjury (and certain other conditions are met) or otherwise establishes an exemption, provided that the broker does not have actual knowledge or reason to know that such holder is a U.S. person or that the conditions for exemption are not, in fact, satisfied. Payments of the proceeds of a disposition (including a retirement or redemption) of the notes by or through a foreign office of a U.S. broker or foreign broker with certain relationships to the United States generally will be subject to information reporting (but not backup withholding), unless such broker has documentary evidence in its files that such Non-U.S. Holder is not a U.S. person and the broker has no knowledge to the contrary, or the Non-U.S. Holder establishes an exemption.

Any amounts withheld under the backup withholding rules from a payment to a Non-U.S. Holder would be allowed as a refund or a credit against such holder's U.S. federal income tax liability provided the required information is timely furnished to the IRS.

Underwriters	Principal Amount
Banc of America Securities LLC	\$
Citigroup Global Markets Inc.	
UBS Securities LLC

BMO Capital Markets Corp.	
KeyBanc Capital Markets Inc.

The underwriting agreement provides that the underwriters' obligations to purchase the notes are subject to certain conditions precedent and that the underwriters are committed to take and pay for all of the notes, if any are taken.

Each of the Ventas Entities has agreed to indemnify the underwriters and their respective controlling persons against specified liabilities in connection with this offering, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The notes will be a new issue of securities with no established trading market. The underwriters have advised us that they presently intend to make a market in the notes. However, you should be aware that they are not obligated to make a market and may discontinue their market-making activities at any time without notice. As a result, a liquid market for the notes may not be available if you try to sell your notes. We do not intend to apply for a listing of the notes on any securities exchange or any automated dealer quotation system.

Underwriting Discounts and Commissions

The following table shows the underwriting discounts to be paid to the underwriters by the issuers in connection with this offering. This underwriting discount is the difference between the public offering price and the amount the underwriters pay to us to purchase the notes. The underwriting discount is % of the principal amount:

Per \$1,000 note	\$
Total	\$

We have been advised by the underwriters that they initially propose to offer and sell the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement. After the offering, the underwriters may change the offering price and other selling terms at any time without notice.

Because we expect that more than 10% of the net proceeds of this offering may be used to reduce outstanding indebtedness under our unsecured revolving credit facilities, and the underwriters or affiliates of the underwriters are lenders under our unsecured revolving credit facilities, this offering is being conducted in accordance with the applicable requirements of Rule 5110(h)(1) and NASD

Table of Contents

Conduct Rule 2720 of the Financial Industry Regulatory Authority, Inc. regarding the underwriting of securities of a company with a member that has a conflict of interest within the meaning of those rules. Conduct Rule 2720(c)(3) requires that the initial yield at which a debt issue is to be distributed to the public can be no lower than that recommended by a qualified independent underwriter which has participated in the preparation of the registration statement and performed its usual standard of due diligence in connection with that preparation. Citigroup Global Markets Inc. has agreed to act as the qualified independent underwriter with respect to this offering, but will not receive any compensation for acting in this capacity in connection with this offering. However, we have agreed to indemnify Citigroup Global Markets Inc. in its capacity as qualified independent underwriter against certain liabilities under the Securities Act.

The expenses of the offering, exclusive of the underwriting discounts, are estimated at approximately \$250,000 and are payable by us.

Price Stabilization and Short Positions

In connection with this offering, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, the underwriters may overallocate this offering, creating a syndicate short position. The underwriters may bid for and purchase the notes in the open market to stabilize the price of the notes and may impose "penalty bids" under contractual arrangements whereby they may reclaim from dealers participating in this offering for the account of the underwriters, the selling concession with respect to the notes that are distributed in this offering but subsequently purchased for the account of the underwriters in the open market. These activities may stabilize or maintain the market price of the notes above independent market levels. The underwriters are not required to engage in these activities and may discontinue them at any time.

Electronic Offer, Sale and Distribution of Securities

In connection with this offering, the underwriters or securities dealers may distribute this prospectus supplement and the accompanying prospectus by electronic means, such as e-mail. In addition, the underwriters will be facilitating Internet distribution for this offering to certain of their Internet subscription customers. The underwriters may agree with us to allocate a limited number of the notes for sale to their online brokerage customers. An electronic prospectus supplement and the accompanying prospectus is available on the Internet website maintained by the underwriters for their subscription customers. Other than the prospectus supplement and accompanying prospectus in electronic format, the information on websites is not part of this prospectus supplement or the accompanying prospectus.

Compliance with Non-U.S. Laws and Regulations

The underwriters intend to comply with all applicable laws and regulations in each jurisdiction in which they acquire, offer, sell or deliver the notes or have in their possession or distribute this prospectus supplement or the accompanying prospectus.

The underwriters and their respective affiliates have engaged in, and may in the future engage in, investment banking, commercial banking and other commercial dealings in the ordinary course of business with us and our affiliates, for which they have received and may continue to receive customary fees and commissions. All statements regarding our or our tenants', operators', managers' or borrowers' expected future financial position, results of operations, cash flows, funds from operations, dividends and dividend plans, financing plans, business strategy, budgets, projected costs, capital expenditures, competitive positions, acquisitions, investment opportunities, dispositions, merger integration, growth opportunities, expected lease income, continued qualification as a real estate investment trust ("REIT"), plans and objectives of management for future operations and statements that include words such as "anticipate," "if," "believe," "plan," "estimate," "expect," "intend," "may," "could," "should," "will" and other similar expressions are forward-looking statements. These forward-looking statements are inherently uncertain, and security holders must recognize that actual results may differ from our expectations. We do not undertake a duty to update these forward-looking statements, which speak only as of the date on which they are made.

Our actual future results and trends may differ materially from expectations depending on a variety of factors discussed in our filings with the Commission and under "Risk Factors." These factors include without limitation:

The ability and willingness of our operators, tenants, borrowers, managers and other third parties to meet and/or perform their obligations under their respective contractual arrangements with us, including, in some cases, their obligations to indemnify, defend and hold us harmless from and against various claims, litigation and liabilities;

The ability of our operators, tenants, borrowers and managers to maintain the financial strength and liquidity necessary to satisfy their respective obligations and liabilities to third parties, including without limitation obligations under their existing credit facilities and other indebtedness;

Our success in implementing our business strategy and our ability to identify, underwrite, finance, consummate and integrate diversifying acquisitions or investments, including those in different asset types and outside the United States;

The nature and extent of future competition;

The extent of future or pending healthcare reform and regulation, including cost containment measures and changes in reimbursement policies, procedures and rates;

Increases in our cost of borrowing as a result of changes in interest rates and other factors;

The ability of our operators and managers, as applicable, to deliver high quality services, to attract and retain qualified personnel and to attract residents and patients;

The results of litigation affecting us;

Changes in general economic conditions and/or economic conditions in the markets in which we may, from time to time, compete, and the effect of those changes on our revenues and our ability to access the capital markets or other sources of funds;

Edgar Filing: Ventas Capital Corp - Form 424B5

Our ability to pay down, refinance, restructure and/or extend our indebtedness as it becomes due;

Our ability and willingness to maintain our qualification as a REIT due to economic, market, legal, tax or other considerations;

Final determination of our taxable net income for the year ended December 31, 2008 and for the year ending December 31, 2009;

The ability and willingness of our tenants to renew their leases with us upon expiration of the leases and our ability to reposition our properties on the same or better terms in the event such leases expire and are not renewed by our tenants or in the event we exercise our right to replace an existing tenant upon a default;

Risks associated with our senior living operating portfolio, such as factors causing volatility in our operating income and earnings generated by our properties, including without limitation national and regional economic conditions, costs of materials, energy, labor and services, employee benefit costs, insurance costs and professional and general liability claims, and the timely delivery of accurate property-level financial results for those properties;

The movement of U.S. and Canadian exchange rates;

Year-over-year changes in the Consumer Price Index and the effect of those changes on the rent escalators, including the rent escalator for Master Lease 2 with Kindred, and our earnings;

Our ability and the ability of our operators, tenants, borrowers and managers to obtain and maintain adequate liability and other insurance from reputable and financially stable providers;

The impact of increased operating costs and uninsured professional liability claims on the liquidity, financial condition and results of operations of our operators, tenants, borrowers and managers and the ability of our operators, tenants, borrowers and managers to accurately estimate the magnitude of those claims;

The ability and willingness of the lenders under our unsecured revolving credit facilities to fund, in whole or in part, borrowing requests made by us from time to time;

The impact of market or issuer events on the liquidity or value of our investments in marketable securities; and

The impact of any financial, accounting, legal or regulatory issues that may affect our major tenants, operators or managers.

Many of these factors are beyond our control and the control of our management.

ABOUT THE REGISTRANTS

It is not complete and does not contain all of the information that you should consider before investing in any of our securities. To fully understand our business, you should carefully read this prospectus together with the more detailed information incorporated by reference in this prospectus.

Ventas

We are a REIT with a geographically diverse portfolio of seniors housing and healthcare properties in the United States and Canada. As of December 31, 2008, this portfolio consisted of 513 assets: 248 seniors housing communities, 192 skilled nursing facilities, 41 hospitals and 32 medical office buildings ("MOBs") and other properties in 43 U.S. states and two Canadian provinces. With the exception of our seniors housing communities that are managed by Sunrise pursuant to long-term management agreements and the majority of our MOBs, we lease our properties to healthcare operating companies under "triple-net" or "absolute net" leases, which require the tenants to pay all property-related expenses. We also had real estate loan investments relating to seniors housing and healthcare companies as of December 31, 2008.

We conduct substantially all of our business through our wholly owned subsidiaries, Ventas Realty, ElderTrust, PSLT OP, L.P. and Ventas SSL, Inc. Our primary business consists of acquiring, financing and owning seniors housing and healthcare properties and leasing those properties to third parties or operating those properties through independent third party managers.

Our business strategy is comprised of three principal objectives: (1) portfolio diversification; (2) stable earnings and growth; and (3) maintaining a strong balance sheet and liquidity. While current conditions in the capital markets persist, maintaining a strong balance sheet and liquidity will be our primary focus.

Our principal executive offices are located at 111 S. Wacker Drive, Suite 4800, Chicago, Illinois, 60606, and our telephone number is (877) 483-6827. We maintain a website on the Internet at <http://www.ventasreit.com>. Information on our website is not incorporated by reference herein and our web address is included in this prospectus as an inactive textual reference only.

RISK FACTORS

Before you invest in our securities, you should carefully consider the risks involved. These risks include, but are not limited to:

the risks described in Ventas, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2008, which is incorporated by reference in this prospectus; and

any risks that may be described in other filings we make with the Commission or in the prospectus supplements relating to specific offerings of securities.

USE OF PROCEEDS

Unless otherwise described in a prospectus supplement, we intend to use our net proceeds from the sale of any securities under this prospectus for general corporate purposes, which may include acquiring and investing in additional properties and businesses and the repayment of borrowings under our unsecured revolving credit facilities or other debt. Until we apply the proceeds from a sale of securities to their intended purposes, we may invest those proceeds in short-term investments, including repurchase agreements, some or all of which may not be investment grade.

RATIO OF EARNINGS TO FIXED CHARGES

The following table shows our ratios of (1) earnings to fixed charges and (2) earnings to combined fixed charges and preferred stock dividends for each of the periods indicated. We do not currently have any preferred stock outstanding.

	Year Ended December 31,				
	2004	2005	2006	2007	2008
Ratio of earnings to fixed charges	2.59x	2.24x	1.93x	1.59x	1.71x
Ratio of earnings to combined fixed charges and preferred stock dividends	2.59x	2.24x	1.93x	1.57x	1.71x

For these ratios, earnings consist of earnings before net loss on real estate disposals, reversal of contingent liability, income taxes, minority interest, discontinued operations and preferred stock dividends and issuance costs, plus fixed charges excluding capitalized interest. Fixed charges consist of interest expensed and capitalized, plus the portion of rent expense under operating leases deemed by us to be representative of the interest factor.

DESCRIPTION OF VENTAS, INC. COMMON STOCK

This section describes the general terms and provisions of Ventas, Inc.'s common stock. The prospectus supplement relating to any offering of common stock, or other securities convertible into or exchangeable or exercisable for common stock, will describe more specific terms of the offering of common stock or other securities, including the number of shares offered, the initial offering price, and market price and dividend information.

The summary set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to Ventas, Inc.'s Amended and Restated Certificate of Incorporation, as amended (the "Certificate of Incorporation"), and Ventas, Inc.'s Third Amended and Restated Bylaws, as amended (the "Bylaws"), each of which is filed or incorporated by reference as an exhibit to the registration statement, of which this prospectus is a part, and incorporated by reference herein. You should read Ventas, Inc.'s Certificate of Incorporation and Bylaws for additional information before you purchase any shares of Ventas, Inc. common stock.

General

Ventas, Inc.'s Certificate of Incorporation provides that Ventas, Inc. may issue up to 300,000,000 shares of common stock, par value \$0.25 per share. As of March 31, 2009, 143,450,169 shares of common stock were issued and outstanding.

All shares of common stock offered hereby, when issued, will be duly authorized, fully paid and nonassessable. Subject to the preferential rights of any other shares of capital stock and to certain provisions of Ventas, Inc.'s Certificate of Incorporation, holders of shares of common stock are entitled to receive distributions if, as and when authorized and declared by the Board of Directors out of assets legally available therefor and to share ratably in our assets legally available for distribution to our stockholders in the event of our liquidation, dissolution or winding-up after payment of, or adequate provision for, all of our known debts and liabilities. We currently expect to continue to make quarterly distributions, and from time to time we may make additional distributions.

Holders of shares of common stock are entitled to one vote per share on all matters on which the holders of common stock are entitled to vote. Holders of shares of common stock have no conversion, sinking fund, redemption or preemptive rights to subscribe for any of our securities. Subject to certain provisions of Ventas, Inc.'s Certificate of Incorporation, shares of common stock have equal distribution, liquidation and other rights.

Certain Anti-Takeover Provisions

In order to preserve our ability to maintain REIT status, Ventas, Inc.'s Certificate of Incorporation provides that if a person acquires beneficial ownership of greater than 9% of our outstanding common stock, the shares that are beneficially owned in excess of such 9% limit are considered to be "excess shares." Excess shares are automatically deemed transferred to a trust for the benefit of a charitable institution or other qualifying organization selected by our Board of Directors. The trust is entitled to all dividends with respect to the excess shares and the trustee may exercise all voting power over the excess shares. We have the right to buy the excess shares for a purchase price equal to the lesser of (1) the price per share in the transaction that created the excess shares, or (2) the market price on the date we buy the shares, and we may defer payment of the purchase price for up to five years. If we do not purchase the excess shares, the trustee of the trust is required to transfer the excess shares at the direction of the Board of Directors. The owner of the excess shares is entitled to receive the lesser of the proceeds from the sale of the excess shares or the original purchase price for such excess shares, and any additional amounts are payable to the beneficiary of the trust. The Board of Directors may grant waivers from the excess share limitations.

DESCRIPTION OF VENTAS, INC. PREFERRED STOCK

This section describes the general terms and provisions of Ventas, Inc.'s preferred stock. The prospectus supplement relating to any offering of preferred stock, or other securities convertible into or exchangeable or exercisable for preferred stock, will describe more specific terms of the preferred stock being offered, including the designation of the series, the number of shares offered, the initial offering price and any voting, dividend and liquidation preference rights, and any general terms described in this section that will not apply to those shares of preferred stock.

The summary set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to Ventas, Inc.'s Certificate of Incorporation, as amended, and the certificate of designation relating to the applicable series of preferred stock that we will file with the Commission, each of which is or will be filed or incorporated by reference as an exhibit to the registration statement of which this prospectus is a part and incorporated herein by reference. You should read Ventas, Inc.'s Certificate of Incorporation and such certificate of designation for additional information before you buy any shares of Ventas, Inc. preferred stock.

General

Ventas, Inc.'s Certificate of Incorporation provides that Ventas, Inc. may issue up to 10,000,000 shares of preferred stock, par value \$1.00 per share. As of March 31, 2009, no shares of preferred stock were issued or outstanding.

Our Board of Directors has authority, without approval of the stockholders, to issue preferred stock in one or more series having the powers, preferences and other rights as it may determine from time to time. The preferred stock will have the rights described in this section unless the applicable prospectus supplement provides otherwise. You should read the prospectus supplement relating to the particular series of the preferred stock being offered for specific terms, including some or all of the following:

the description of the shares of preferred stock;

the number of shares of preferred stock offered;

the voting rights, if any, of the holders of the shares of preferred stock;

the offering price of the shares of preferred stock;

the distribution rate, when distributions will be paid, or the method of determining the distribution rate if it is based on a formula or not otherwise fixed;

the date from which distributions on the shares of preferred stock shall accumulate;

the provisions for any auctioning or remarketing, if any, of the shares of preferred stock;

the provision, if any, for redemption or a sinking fund;

the liquidation preference per share;

any listing of the shares of preferred stock on a securities exchange;

Edgar Filing: Ventas Capital Corp - Form 424B5

whether the shares of preferred stock will be convertible or exchangeable and, if so, the security into which they are convertible or exchangeable and the terms and conditions of conversion or exchange, including the conversion price or exchange rate or the manner of determining it;

whether interests in the shares of preferred stock will be represented by depositary shares as more fully described below under "Description of Ventas, Inc. Depositary Shares";

the federal income tax consequences of owning the preferred stock;

Table of Contents

the relative ranking and preferences of the shares of preferred stock as to distribution and liquidation rights;

any limitations on issuance of any shares of preferred stock ranking senior to or on a parity with the series of preferred stock being offered as to distribution and liquidation rights;

any limitations on direct or beneficial ownership and restrictions on transfer, in each case as may be appropriate to preserve our status as a REIT; and

any other terms of the preferred stock.

As described under "Description of Ventas, Inc. Depositary Shares," Ventas, Inc. may, at its option, elect to offer depositary shares evidenced by depositary receipts. If Ventas, Inc. elects to do this, each depositary receipt will represent a fractional interest in a share of the particular series of preferred stock issued and deposited with a depositary. The applicable prospectus supplement will specify that fractional interest.

Ranking

Unless our Board of Directors otherwise determines and we so specify in the applicable prospectus supplement, we expect that the shares of preferred stock will, with respect to distribution rights and rights upon liquidation or dissolution, rank senior to all shares of Ventas, Inc. common stock.

Dividends

Holders of shares of preferred stock of each series will be entitled to receive dividends at the rates and on the dates shown in the applicable prospectus supplement if, as and when authorized and declared by our Board of Directors out of assets legally available therefor. We will pay each dividend to holders of record as they appear on our share transfer books on the record dates fixed by our Board of Directors. In the case of shares of preferred stock represented by depositary receipts, the records of the depositary referred to under "Description of Ventas, Inc. Depositary Shares" will determine the persons to whom dividends are payable.

Dividends on any series of preferred stock may be cumulative or noncumulative, as provided in the applicable prospectus supplement. We refer to each particular series, for ease of reference, as the applicable series. Cumulative dividends will be cumulative from and after the date shown in the applicable prospectus supplement. If our Board of Directors fails to authorize a dividend on any applicable series that is noncumulative, the holders will have no right to receive, and we will have no obligation to pay, a dividend in respect of the applicable dividend period, whether or not dividends on that series are declared payable in the future.

If the applicable series is entitled to a cumulative dividend, we may not declare, or pay or set aside for payment, a dividend on any other series of preferred stock ranking, as to dividends on a parity with or junior to the applicable series, unless we declare, and either pay or set aside for payment, full cumulative dividends on the applicable series for all past dividend periods and the then current dividend period. If the applicable series does not have a cumulative dividend, we must declare, and pay or set aside for payment, full dividends for the then current dividend period only. When dividends are not paid, or set aside for payment, in full on any applicable series and the shares of any other series ranking on a parity as to dividends with the applicable series, we must declare, and pay or set aside for payment, all dividends upon the applicable series and any other parity series proportionately, in accordance with accrued and unpaid dividends of the several series. For these purposes, accrued and unpaid dividends do not include unpaid dividend periods on noncumulative shares of preferred stock. No interest will be payable in respect of any dividend payment that may be in arrears.

Table of Contents

Except as provided in the immediately preceding paragraph, unless we declare, and pay or set aside for payment, full cumulative dividends, including for the then current period, on any applicable series entitled to a cumulative dividend, we may not declare, or pay or set aside for payment, any dividends on common stock or any other equity securities ranking junior to or on a parity with the applicable series as to dividends or upon liquidation. The foregoing restriction does not apply to dividends paid in common stock or other equity securities ranking junior to the applicable series as to dividends and upon liquidation. If the applicable series does not have cumulative dividends, we need only declare, and pay or set aside for payment, the dividend for the then current period before declaring dividends on shares of common stock or junior or parity securities. In addition, under the circumstances in which we could not declare a dividend, we may not redeem, purchase or otherwise acquire for any consideration any shares of common stock or other parity or junior equity securities, except upon conversion into or exchange for shares of common stock or other junior equity securities. We may, however, make purchases and redemptions otherwise prohibited pursuant to certain redemptions or pro rata offers to purchase the outstanding shares of the applicable series and any other parity series of preferred stock.

We will credit any dividend payment made on an applicable series first against the earliest accrued but unpaid dividend due with respect to the series.

Redemption

We may have the right or may be required to redeem the applicable series, as a whole or in part, in each case upon the terms, if any, and at the times and at the redemption prices shown in the applicable prospectus supplement.

If the applicable series is subject to mandatory redemption, we will specify in the applicable prospectus supplement the number of shares we are required to redeem, when those redemptions start, the redemption price, and any other terms and conditions affecting the redemption. The redemption price will include all accrued and unpaid dividends, except in the case of noncumulative preferred stock. The redemption price may be payable in cash or other property, as specified in the applicable prospectus supplement. If the redemption price for the applicable series is payable only from the net proceeds of our issuance of capital stock, the terms of the preferred stock may provide that, if no shares of capital stock shall have been issued or to the extent the net proceeds from any issuance are insufficient to pay in full the aggregate redemption price then due, the shares of preferred stock will automatically and mandatorily be converted into shares of capital stock pursuant to conversion provisions specified in the applicable prospectus supplement.

Liquidation Preference

The applicable prospectus supplement will describe the liquidation preference of the applicable series. Upon the voluntary or involuntary liquidation of Ventas, Inc., before any distribution may be made to the holders of shares of Ventas, Inc. common stock or any other shares of capital stock ranking junior to the applicable series in the distribution of assets upon liquidation, the holders of that series will be entitled to receive, out of assets legally available therefor, liquidating distributions in the amount of the liquidation preference, plus an amount equal to all accrued and unpaid distributions. If the applicable series does not have a cumulative dividend, accrued and unpaid dividends include only the then current dividend period. After payment of the full amount of the liquidating distributions to which they are entitled, the holders of shares of the applicable series will have no right or claim to any of our remaining asset, and our remaining assets will be distributed among the holders of any other shares of capital stock ranking junior to the applicable series upon liquidation, according to their rights and preferences.

Table of Contents

If, upon any voluntary or involuntary liquidation, our available assets are insufficient to pay the amount of the liquidating distributions on all outstanding shares of any series and the corresponding amounts payable on all shares of capital stock ranking on a parity in the distribution of assets with that series, then the holders of that series and all other equally ranking shares of capital stock shall share ratably in the distribution in proportion to the full liquidating distributions to which they would otherwise be entitled.

Voting Rights

Holders of shares of the applicable series will not have any voting rights, except as otherwise from time to time required by law or as specified in the applicable prospectus supplement.

As more fully described under "Description of Ventas, Inc. Depositary Shares" below, if Ventas, Inc. elects to issue depositary shares, each representing a fraction of a share of a series of preferred stock, each depositary will in effect be entitled to a fraction of a vote per depositary share.

Conversion Rights

We will describe in the applicable prospectus supplement the terms and conditions, if any, upon which you may, or we may require you to, convert shares of the applicable series into shares of common stock or any other class or series of shares of capital stock. The terms will include the number of shares of common stock or other securities into which the shares of the applicable series are convertible, the conversion price (or the manner of determining it), the conversion period, provisions as to whether conversion will be at the option of the holders of the series or at our option, the events requiring an adjustment of the conversion price, and provisions affecting conversion upon the redemption of shares of the series.

Our Exchange Rights

We will describe in the applicable prospectus supplement the terms and conditions, if any, upon which we can require you to exchange shares of the applicable series for debt securities. If an exchange is required, you will receive debt securities with a principal amount equal to the liquidation preference of the applicable series. The other terms and provisions of the debt securities will not be materially less favorable to you than those of the series of preferred stock being exchanged.

Certain Anti-Takeover Provisions

In order to preserve our ability to maintain REIT status, Ventas, Inc.'s Certificate of Incorporation provides that if a person acquires beneficial ownership of greater than 9.9% of our outstanding preferred stock, the shares that are beneficially owned in excess of such 9.9% limit are considered to be "excess shares." Excess shares are automatically deemed transferred to a trust for the benefit of a charitable institution or other qualifying organization selected by our Board of Directors. The trust is entitled to all dividends with respect to the excess shares and the trustee may exercise all voting power over the excess shares. We have the right to buy the excess shares for a purchase price equal to the lesser of (1) the price per share in the transaction that created the excess shares, or (2) the market price on the date we buy the shares, and we may defer payment of the purchase price for up to five years. If we do not purchase the excess shares, the trustee of the trust is required to transfer the excess shares at the direction of the Board of Directors. The owner of the excess shares is entitled to receive the lesser of the proceeds from the sale of the excess shares or the original purchase price for such excess shares, and any additional amounts are payable to the beneficiary of the trust. The Board of Directors may grant waivers from the excess share limitations.

DESCRIPTION OF VENTAS, INC. DEPOSITARY SHARES

This section describes the general terms and provisions of shares of Ventas, Inc. preferred stock represented by depositary shares. The prospectus supplement relating to the offering of depositary shares will describe more specific terms of the depositary shares being offered, including the number of shares offered, the initial offering price and the powers, preferences and other rights of the underlying preferred stock and any general terms outlined in this section that will not apply to those depositary shares.

The summary set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to the applicable deposit agreement (including the depositary receipt), the form of which is or will be filed or incorporated by reference as an exhibit to the registration statement of which this prospectus is a part and incorporated herein by reference. You should read the form of deposit agreement (including the depositary receipt) for additional information before you buy any Ventas, Inc. depositary shares.

General

Ventas, Inc. may, at its option, elect to offer fractional interests in shares of preferred stock, rather than shares of preferred stock. If we exercise this option, we will appoint a depositary to issue depositary receipts representing those fractional interests. Shares of preferred stock of each series represented by depositary shares will be deposited under a separate deposit agreement between us and the depositary. The applicable prospectus supplement will provide the name and address of the depositary. Subject to the terms of the applicable deposit agreement, each owner of depositary shares will be entitled to all of the dividend, voting, conversion, redemption, liquidation and other rights and preferences of the shares of preferred stock represented by those depositary shares.

Depositary receipts issued pursuant to the applicable deposit agreement will evidence ownership of depositary shares. Upon surrender of depositary receipts at the office of the depositary, and upon payment of the charges provided in and subject to the terms of the deposit agreement, a holder of depositary shares will be entitled to receive the shares of preferred stock underlying the surrendered depositary receipts.

Dividends and Other Distributions

The depositary will be required to distribute all dividends or other cash distributions received in respect of the applicable shares of preferred stock to the record holders of depositary receipts evidencing the related depositary shares in proportion to the number of depositary receipts owned by the holders. Fractions will be rounded down to the nearest whole cent.

If the distribution is other than in cash, the depositary will be required to distribute property received by it to the record holders of depositary receipts entitled thereto, unless the depositary determines that it is not feasible to make the distribution. In that case, the depositary may, with our approval, sell the property and distribute the net proceeds from the sale to the holders of depositary shares.

Depositary shares that represent shares of preferred stock that have been converted or exchanged will not be entitled to distributions. The deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights we offer to holders of shares of preferred stock will be made available to holders of depositary shares. All distributions will be subject to obligations of holders to file proofs, certificates and other information and to pay certain charges and expenses to the depositary.

Table of Contents

Withdrawal of Shares of Preferred Stock

You may receive the number of whole shares of the applicable series of preferred stock and any money or other property represented by your depositary receipts after surrendering your depositary receipts at the corporate trust office of the depositary. Partial shares of preferred stock will not be issued. If the depositary shares that you surrender exceed the number of depositary shares that represent the number of whole shares of preferred stock you wish to withdraw, then the depositary will deliver to you at the same time a new depositary receipt evidencing the excess number of depositary shares. Once you have withdrawn your shares of preferred stock, you will not be entitled to re-deposit those shares of preferred stock under the deposit agreement in order to receive depositary shares. We do not expect that there will be any public trading market for withdrawn shares of preferred stock.

Redemption of Depositary Shares

If we redeem shares of the applicable series of preferred stock underlying the depositary shares, the depositary will redeem the depositary shares from the proceeds it receives. The redemption price per depositary share will be equal to the applicable fraction of the redemption price per share payable with respect to the applicable series of preferred stock. The redemption date for depositary shares will be the same as that of the preferred stock. If we are redeeming less than all of the depositary shares, the depositary will select the depositary shares we are redeeming by lot or pro rata as the depositary may determine.

After the date fixed for redemption, the depositary shares called for redemption will no longer be deemed outstanding. All rights of the holders of the depositary shares and the related depositary receipts will cease at that time, except the right to receive the money or other property to which the holders of depositary shares were entitled upon redemption. Receipt of the money or other property is subject to surrender to the depositary of the depositary receipts evidencing the redeemed depositary shares.

Voting of the Underlying Shares of Preferred Stock

Upon receipt of notice of any meeting at which the holders of the applicable series of preferred stock are entitled to vote, a depositary will be required to mail the information contained in the notice of meeting to the record holders of the depositary shares representing such preferred stock. Each record holder of depositary receipts on the record date will be entitled to instruct the depositary as to how the holder's depositary shares will be voted. The record date for the depositary shares will be the same as the record date for the preferred stock. The depositary will vote the shares as you instruct. We will agree to take all reasonable action that the depositary deems necessary in order to enable it to vote the preferred stock in that manner. If you do not instruct the depositary how to vote your shares, the depositary will abstain from voting those shares. The depositary will not be responsible for any failure to carry out any voting instruction, or for the manner or effect of any vote, as long as its action or inaction is in good faith and does not result from its negligence or willful misconduct.

Liquidation Preference

Upon the voluntary or involuntary liquidation of Ventas, Inc., each holder of depositary shares will be entitled to the fraction of the liquidation preference accorded each share of preferred stock represented by the depositary shares, as described in the applicable prospectus supplement.

Conversion or Exchange of Shares of Preferred Stock

The depositary shares will not themselves be convertible into or exchangeable for shares of Ventas, Inc. common stock or preferred stock or any of our other securities or property. Nevertheless, if so specified in the applicable prospectus supplement, the depositary receipts may be surrendered by

Table of Contents

holders to the applicable depositary with written instructions for the depositary to instruct us to cause the conversion of the preferred stock represented by the depositary shares. Similarly, if so specified in the applicable prospectus supplement, we may require you to surrender all of your depositary receipts to the applicable depositary upon our requiring the conversion or exchange of the preferred stock represented by the depositary shares into our debt securities. We will agree that, upon receipt of the instruction and any amounts payable in connection with the conversion or exchange, we will cause the conversion or exchange using the same procedures as those provided for delivery of shares of preferred stock to effect the conversion or exchange. If you are converting only a part of the depositary shares, the depositary will issue you a new depositary receipt for any unconverted depositary shares.

Taxation

As an owner of depositary shares, you will be treated for U.S. federal income tax purposes as if you were an owner of the series of preferred stock represented by the depositary shares. Therefore, you will be required to take into account for U.S. federal income tax purposes income and deductions to which you would be entitled if you were a holder of the underlying series of preferred stock. In addition:

you will not recognize any gain or loss for U.S. federal income tax purposes upon the withdrawal of shares of preferred stock in exchange for depositary shares provided in the deposit agreement;

your tax basis in each share of preferred stock received upon exchange of depositary shares will be the same as the aggregate tax basis of the depositary shares so exchanged; and

if you held the depositary shares as a capital asset at the time of the exchange for shares of preferred stock, the holding period for shares of the preferred stock will include the period during which you owned the depositary shares.

Amendment and Termination of a Deposit Agreement

We and the applicable depositary are permitted to amend the provisions of the depositary receipts and the deposit agreement. However, the holders of at least a majority of the applicable depositary shares then outstanding must approve any amendment that adds or increases fees or charges or prejudices an important right of holders. Every holder of an outstanding depositary receipt at the time any amendment becomes effective, by continuing to hold the receipt, will be bound by the applicable deposit agreement, as amended.

Any deposit agreement may be terminated by us upon not less than 30 days' prior written notice to the applicable depositary if (1) the termination is necessary to preserve our status as a REIT or (2) a majority of each series of preferred stock affected by the termination consents to the termination. When either event occurs, the depositary will be required to deliver or make available to each holder of depositary receipts, upon surrender of the depositary receipts held by the holder, the number of whole or fractional shares of preferred stock as are represented by the depositary shares evidenced by the depositary receipts, together with any other property held by the depositary with respect to the depositary receipts. In addition, a deposit agreement will automatically terminate if:

all depositary shares have been redeemed;

there shall have been a final distribution in respect of the related preferred stock in connection with a liquidation of Ventas, Inc. and the distribution has been made to the holders of depositary receipts evidencing the depositary shares underlying the preferred stock; or

each related share of preferred stock shall have been converted or exchanged into securities not represented by depositary shares.

Charges of a Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of a deposit agreement. In addition, we will pay the fees and expenses of the depositary in connection with the initial deposit of the preferred stock and any redemption of preferred stock. However, holders of depositary receipts will pay any transfer or other governmental charges and the fees and expenses of the depositary for any duties the holders request to be performed that are outside of those expressly provided for in the applicable deposit agreement.

Resignation and Removal of Depositary

A depositary may resign at any time by delivering to us notice of its election to do so. In addition, we may at any time remove a depositary. Any resignation or removal will take effect when we appoint a successor depositary and it accepts the appointment. We must appoint a successor depositary within 60 days after delivery of the notice of resignation or removal. A depositary must be a bank or trust company having its principal office in the United States that has a combined capital and surplus of at least \$50 million.

Miscellaneous

A depositary will be required to forward to holders of depositary receipts any reports and communications it receives from us with respect to the related shares of preferred stock. Holders of depositary receipts will be able to inspect the transfer books of the depositary and the list of holders of receipts upon reasonable notice.

Neither we nor the depositary will be liable if the depositary is prevented from or delayed in performing its obligations under a deposit agreement by law or any circumstances beyond its control. Our obligations and those of the depositary under a deposit agreement will be limited to performing duties in good faith and without gross negligence or willful misconduct. Neither we nor the depositary will be obligated to prosecute or defend any legal proceeding in respect of any depositary receipts, depositary shares or related shares of preferred stock unless satisfactory indemnity is furnished. We and each depositary will be permitted to rely on written advice of counsel or accountants, on information provided by persons presenting shares of preferred stock for deposit, by holders of depositary receipts, or by other persons believed in good faith to be competent to give the information, and on documents believed in good faith to be genuine and signed by a proper party.

If a depositary receives conflicting claims, requests or instructions from any holder of depositary receipts, on the one hand, and us, on the other hand, the depositary shall be entitled to act on the claims, requests or instructions received from us.

DESCRIPTION OF VENTAS, INC. WARRANTS

This section describes the general terms and provisions of Ventas, Inc.'s warrants. The prospectus supplement relating to the offering of the warrants will describe more specific terms of the warrants being offered, including the number of warrants offered, the initial offering price and the terms of the underlying securities and any general terms outlined in this section that will not apply to those warrants.

The summary set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to the applicable warrant agreement (including the warrant certificate), the form of which is or will be filed or incorporated by reference as an exhibit to the registration statement of which this prospectus is a part and incorporated herein by reference. You should read the form of warrant agreement (including the warrant certificate) for additional information before you buy any Ventas, Inc. warrants.

Ventas, Inc. may issue, together with any other securities being offered or separately, warrants entitling the holder to purchase from or sell to us, or to receive from us the cash value of the right to purchase or sell, debt securities, preferred stock, depositary shares or common stock. We will enter a warrant agreement governing the issuance of the warrants with a warrant agent, who will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

The applicable prospectus supplement will describe the terms of each series of warrants being offered including some or all of the following:

the offering price;

the number of warrants offered;

the securities underlying the warrants;

the exercise price, the procedures for exercise of the warrants and the circumstances, if any, that will cause the warrants to be automatically exercised;

the date on which the warrants will expire;

the federal income tax consequences of owning the warrants;

the rights, if any, we have to redeem the warrants;

the name of the warrant agent; and

any other terms of the warrants.

Warrants may be exercised at the appropriate office of the warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of warrants, holders will not have any of the rights of holders of the securities underlying the warrants and will not be entitled to payments made to holders of those securities.

We and the applicable warrant agent may amend or supplement the warrant agreement without the consent of the affected holders of warrants to effect changes that are not inconsistent with the provisions of the warrants and that do not adversely affect the interests of the holders of the warrants. However, any amendment that materially and adversely alters the rights of the holders of warrants will not be effective unless the holders of at least a majority of the applicable warrants then outstanding approve the amendment. Every holder of an outstanding warrant at

the time any amendment becomes effective, by continuing to hold the warrant, will be bound by the applicable warrant agreement, as amended thereby. The applicable prospectus supplement may provide that certain provisions of the warrants, including the securities for which they may be exercisable, the exercise price and the expiration date, may not be altered without the consent of the holder of each warrant.

DESCRIPTION OF DEBT SECURITIES

This section describes the general terms and provisions of the debt securities of Ventas Realty and Ventas Capital and the debt securities of Ventas, Inc. For purposes hereof, references to the issuer(s) means either Ventas, Inc. or Ventas Realty and Ventas Capital, as applicable. The prospectus supplement relating to any offering of debt securities will describe more specific terms of the debt securities being offered, including the designation of the series, the aggregate principal amount being offered, the initial offering price, the interest rate and any redemption, purchase or conversion rights and any general terms described in this section that will not apply to those debt securities.

The summary set forth below does not purport to be complete and is subject to and qualified in its entirety by reference to the applicable base indenture referred to below and the supplemental indenture (including the form of debt security) relating to the applicable series of debt securities, the form of each of which is or will be filed or incorporated by reference as an exhibit to the registration statement of which this prospectus is a part and incorporated herein by reference. You should read the applicable base indenture and such supplemental indenture (including the applicable form of debt security) for additional information before you buy any debt securities of the issuer(s).

The debt securities will be direct unsecured general obligations of the issuer(s) and may include debentures, notes, bonds and/or other evidences of indebtedness. The debt securities may be senior or subordinated and will be issued under one or more indentures among the issuer(s), the guarantors named therein and U.S. Bank National Association, as the initial trustee, which we refer to herein as base indentures. The base indentures do not limit the aggregate principal amount of debt securities that may be issued thereunder.

Senior debt securities will be issued under a senior indenture, in one or more series established pursuant to a supplemental indenture or a resolution duly adopted by the Board of Directors of the issuer(s) or a duly authorized committee thereof. Subordinated debt securities will be issued under a subordinated indenture, in one or more series established pursuant to a supplemental indenture or a resolution duly adopted by the Board of Directors of the issuer(s) or a duly authorized committee thereof. We refer to the senior indenture and the subordinated indenture (together with each applicable supplemental indenture or resolution establishing the applicable series of debt securities) collectively in this prospectus as the indentures. The indentures will be subject to and governed by the Trust Indenture Act of 1939, as amended.

General

Each indenture provides that there may be more than one trustee under that indenture, each with respect to one or more series of debt securities. Any trustee under an indenture may resign or be removed with respect to one or more series of debts securities issued under that indenture, and a successor trustee may be appointed to act with respect to that series.

If two or more persons are acting as trustee with respect to different series of debts securities issued under the same indenture, each of those trustees will be a trustee of a trust under that indenture separate and apart from the trust administered by any other trustee. In that case, except as otherwise indicated in this prospectus, any action described in this prospectus to be taken by the trustee may be taken by each of those trustees only with respect to the one or more series of debt securities for which it is trustee.

The applicable prospectus supplement will describe the specific terms of each series of debt securities being offered, including some or all of the following:

the title of the debt securities;

the issuer(s) of the debt securities;

the place or places where payments on the debt securities will be made and the debt securities may be surrendered for registration of transfer or exchange;

if the issuer(s) will have the option to redeem all or any portion of the debt securities, the terms and conditions upon which the debt securities may be redeemed;

the terms and conditions of any sinking fund or any similar provisions obligating us or permitting a holder to require us to redeem or purchase all or any portion of the debt securities prior to final maturity;

the currency or currencies in which the debt securities are denominated and payable if other than U.S. dollars and the manner of determining the equivalent of those amounts in U.S. dollars;

the guarantors, if any, who will guarantee the debt securities and the methods of determining, and releasing, such guarantors, if any;

the trustee for that series of debt securities, if other than U.S. Bank National Association; and

Table of Contents

Debt securities may be issued as original issue discount securities to be offered and sold at substantial discount from their stated principal amount. Special U.S. federal income tax, accounting and other considerations applicable to original issue discount securities will be described in the applicable prospectus supplement.

Unless otherwise provided with respect to a series of debt securities, the debt securities will be issued only in registered form, without coupons, in denominations of \$1,000 and integral multiples of \$1,000.

Certificated Debt Securities

Except as otherwise provided in the applicable prospectus supplement, debt securities will not be issued in certificated form. If, however, debt securities are to be issued in certificated form, no service charge will be made for any transfer or exchange of any of those debt securities, but we may require payment of a sum sufficient to cover any tax or governmental charge payable in connection therewith.

Book-Entry Debt Securities

The debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with the depository identified in the applicable prospectus supplement. Unless it is exchanged in whole or in part for debt securities in definitive form, a global security may not be transferred. However, transfers of the whole security between the depository for that global security and its nominees or their respective successors are permitted.

Unless otherwise provided in the applicable prospectus supplement, The Depository Trust Company, New York, New York, which we refer to in this prospectus as DTC, will act as depository for each series of global securities. Beneficial interests in global securities will be shown on, and transfers of global securities will be effected only through, records maintained by DTC and its participants.

DTC has provided the following information to us. DTC, the world's largest securities depository, is a:

limited-purpose trust company organized under the New York Banking Law;

"banking organization" within the meaning of the New York Banking Law;

member of the U.S. Federal Reserve System;

"clearing corporation" within the meaning of the New York Uniform Commercial Code; and

"clearing agency" registered under the provisions of Section 17A of the Securities Exchange Act.

DTC holds and provides asset servicing for over 3.5 million of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that its direct participants deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants' accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by users of its regulated subsidiaries. Access to DTC's book-entry system is also available to indirect participants such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. DTC has

Edgar Filing: Ventas Capital Corp - Form 424B5

Table of Contents

Standard & Poor's highest rating: AAA. The rules applicable to DTC and its direct and indirect participants are on file with the Commission.

Principal and interest payments on global securities registered in the name of DTC's nominee will be made in immediately available funds to DTC's nominee as the registered owner of the global securities. We and the trustee will treat DTC's nominee as the owner of the global securities for all other purposes as well. Accordingly, we, the trustee and any paying agent will have no direct responsibility or liability to pay amounts due on the global securities to owners of beneficial interests in the global securities. DTC's practice is to credit direct participants' accounts upon receipt of any payment of principal or interest on the payment date in accordance with their respective holdings of beneficial interests in the global securities as shown on DTC's records. Payments by direct and indirect participants to owners of beneficial interests in the global securities will be governed by standing instructions and customary practices. These payments will be the responsibility of the direct and indirect participants and not of DTC, the trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time.

Debt securities represented by a global security will be exchangeable for debt securities in definitive form of like amount and terms in authorized denominations only if:

DTC notifies us that it is unwilling or unable to continue as depository;

DTC ceases to be a registered clearing agency and a successor depository is not appointed by us within 120 days; or

we determine not to require all of the debt securities of a series to be represented by a global security and notify the applicable trustee of our decision.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Merger

Ventas, Inc. generally may not consolidate with, or sell, assign, transfer, convey, lease (other than to an unaffiliated operator in the ordinary course of business) or otherwise dispose of all or substantially all of the properties or assets of Ventas, Inc. and its restricted subsidiaries taken as a whole to, or merge with or into, any other person or entity unless:

either:

Ventas, Inc. is the surviving corporation; or

if Ventas, Inc. is not the surviving corporation, the successor person or entity is a corporation organized or existing under the laws of the United States, any state of the United States or the District of Columbia and such successor person or entity expressly assumes all payments on all of the debt securities and the performance and observance of all the covenants and conditions of the applicable indenture; and

neither Ventas, Inc. nor the successor person or entity is in default immediately after the transaction under the applicable indenture.

The restrictions on Ventas, Inc.'s ability to sell, assign, transfer, convey or otherwise dispose of all or substantially all of its properties or assets does not apply to sales, assignments, transfers, conveyances or dispositions between Ventas, Inc. and its restricted subsidiaries. If and when a successor person or entity were to assume all the obligations of the issuer(s) and the guarantors under the applicable indenture and the debt securities following a consolidation or merger, or any sale, assignment, transfer, conveyance, transfer or other disposition of 90% or more of the assets of the Ventas, Inc. in

Table of Contents

accordance with the foregoing provisions, the issuer(s) and the guarantors shall be released from those obligations.

Events of Default, Notice and Waiver

Each base indenture provides that the following are events of default with respect to any series of debt securities issued thereunder unless the applicable prospectus supplement states otherwise:

default for 30 days in the payment of any interest on any debt security of that series;

default in the payment of the principal or premium, if any, on any debt security of that series when due and payable;

default in the making of any sinking fund payment required for any debt security of that series when due;

default in the performance of any of our other covenants in the applicable indenture that continues for 60 days after written notice, other than default in a covenant included in that indenture solely for the benefit of another series of debt securities;

the acceleration of the maturity of more than \$50,000,000 in the aggregate of any of our other indebtedness, where that indebtedness is not discharged or that acceleration is not rescinded or annulled after written notice;

certain events of bankruptcy, insolvency or reorganization of Ventas, Inc. or its properties;

any guarantees of the debt securities cease to be in full force and effect or the guarantors disaffirm or deny their obligations with respect to any guarantees of the debt securities; and

any other event of default provided with respect to that particular series of debt securities and described in the applicable prospectus supplement.

The applicable trustee generally may withhold notice to the holders of any series of debt securities of any default with respect to that series if it considers the withholding to be in the interest of those holders. However, the applicable trustee may not withhold notice of any default in the payment of the principal of, or premium, if any, or interest on any debt security of that series or in the payment of any sinking fund installment in respect of any debt security of that series.

If an event of default with respect to any series of debt securities occurs and is continuing, the applicable trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may declare the entire principal amount of all of the debt securities of that series immediately due and payable. Subject to certain conditions, the holders of a majority in principal amount of outstanding debt securities of that series may rescind and annul that acceleration. However, they may only do so if all events of default, other than the non-payment of accelerated principal or a specified portion of accelerated principal, with respect to debt securities of that series have been cured or waived.

Holders of a majority in principal amount of any series of outstanding debt securities may, subject to some limitations, waive any past default with respect to that series and the consequences of the default (including without limitation waivers obtained in connection with the purchase of, or tender offer or exchange offer for, such debt securities). The prospectus supplement relating to any series of debt securities which are original issue discount securities will describe the particular provisions relating to acceleration of a portion of the principal amount of those original issue discount securities upon the occurrence and continuation of an event of default. Within 120 days after the close of each fiscal year, Ventas, Inc. must file with the applicable trustee a statement, signed by certain of its officers, certifying that to their knowledge Ventas, Inc. and any applicable subsidiaries are in compliance with the applicable indenture and related debt securities, or else specifying any default.

Table of Contents

Except with respect to its duties in case of default, the applicable trustee is not obligated to exercise any of its rights or powers at the request or direction of any holders of any series of outstanding debt securities, unless those holders have offered the trustee reasonable security or indemnity. Subject to those indemnification provisions and limitations contained in each indenture, the holders of a majority in principal amount of any series of the outstanding debt securities issued thereunder may direct any proceeding for any remedy available to the applicable trustee, or the exercising of any of the trustee's trusts or powers.

Modification of the Indentures

Modifications and amendments of each indenture may be made only, subject to some exceptions, with the consent of the holders of a majority in aggregate principal amount of all outstanding debt securities issued under that indenture which are affected by the modification or amendment (including without limitation consents obtained in connection with the purchase of, or tender offer or exchange offer for, such debt securities). However, unless the applicable prospectus supplement states otherwise, the holder of each affected debt security must consent to any modification or amendment of the applicable indenture that:

reduces the principal amount of debt securities of that series whose holders must consent to a modification or an amendment;

reduces the principal of or changes the fixed maturity of that debt security or alters the provisions with respect to the redemption of that debt security;

reduces the rate of or changes the time for payment of interest on that debt security;

reduces the amount of principal of an original issue discount security that would be due and payable upon declaration of acceleration of its maturity or would be provable in bankruptcy;

waives a default or event of default in the payment of principal of, or interest or premium, or additional amounts, if any, on the debt securities (except a rescission of acceleration of the debt securities by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities affected thereby and a waiver of the payment default that resulted from such acceleration);

makes that debt security payable in a currency other than that stated in that debt security;

makes any change in the provisions of that indenture relating to waivers of past defaults or the rights of holders of debt securities to receive payments of principal of, or interest or premium, or additional amounts, if any, on the debt securities;

releases any guarantor from any of its obligations under its guarantee of the debt securities or under that indenture except in accordance with the terms of that indenture;

makes any change in the amendment and waiver provisions set forth above; or

in the case of subordinated debt securities, subordinates the indebtedness evidenced by that debt security to any of our other indebtedness other than the senior indebtedness.

The issuer(s) and the applicable trustee may amend each indenture without the consent of the holders of any debt securities in certain limited circumstances, such as:

Edgar Filing: Ventas Capital Corp - Form 424B5

to evidence the succession of another entity to Ventas, Inc. and the assumption by the successor of the covenants of Ventas, Inc. contained in the applicable indenture;

to secure the debt securities issued under the applicable indenture; and

to cure any ambiguity or defect or to correct or supplement any provision in the applicable indenture which may be inconsistent with any other provision of that indenture.

Defeasance and Covenant Defeasance

When the issuer(s) establish a series of debt securities, they may provide that the debt securities of that series are subject to the defeasance and discharge provisions of the applicable indenture. If those provisions are made applicable, the issuer(s) may elect either:

to defease and, together with all guarantors (if any), be legally released from, subject to some limitations, all of their respective obligations with respect to the debt securities of that series; or

to be released from the obligations to comply with specified covenants and eliminate certain events of default relating to the debt securities of that series as described in the applicable prospectus supplement.

To effect defeasance or covenant defeasance, the issuer(s) must irrevocably deposit in trust with the applicable trustee an amount in any combination of funds or government obligations, which, through the payment of principal and interest in accordance with their terms, will provide money sufficient to make payments on the debt securities of that series and any mandatory sinking fund or analogous payments on the debt securities of that series.

Upon such defeasance, the issuer(s) will not be released from obligations:

to pay additional amounts, if any, on the debt securities of that series upon the occurrence of some events;

to register the transfer or exchange of the debt securities of that series;

to replace some of the debt securities of that series;

to maintain an office relating to the debt securities of that series; or

to hold moneys for payment in trust.

To establish such a trust the issuer(s) must, among other things, deliver to the applicable trustee an opinion of counsel to the effect that the holders of the debt securities of that series:

will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance or covenant defeasance; and

will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance or covenant defeasance had not occurred. In the case of defeasance, the opinion of counsel must be based upon a ruling of the Internal Revenue Service or a change in applicable U.S. federal income tax law occurring after the date of the applicable indenture.

Government obligations generally mean securities which are:

Edgar Filing: Ventas Capital Corp - Form 424B5

direct obligations of the U.S. or of the government which issued the foreign currency in which the debt securities of a particular series are payable, in each case, where the issuer has pledged its full faith and credit to pay the obligations; or

obligations of an agency or instrumentality of the U.S. or of the government which issued the foreign currency in which the debt securities of that series are payable, the payment of which is unconditionally guaranteed as a full faith and credit obligation by the U.S. or that other government.

Table of Contents

In any case, the issuer of government obligations cannot have the option to call or redeem the obligations. In addition, government obligations include, subject to certain qualifications, a depository receipt issued by a bank or trust company as custodian with respect to any government obligation or a specific payment of interest on or principal of any such government obligation held by the custodian for the account of a depository receipt holder.

If the issuer(s) effect covenant defeasance with respect to the debt securities of any series, the amount on deposit with the applicable trustee will be sufficient to pay amounts due on the debt securities of that series at the time of their stated maturity. However, the debt securities of that series may become due and payable prior to their stated maturity if there is an event of default with respect to a covenant from which the issuer(s) have not been released. In that event, the amount on deposit may not be sufficient to pay all amounts due on the debt securities of that series at the time of the acceleration and the holders of those debt securities will be required to look to the issuer(s) and the guarantors, if any, for repayment of any shortfall.

The applicable prospectus supplement may further describe the provisions, if any, permitting defeasance or covenant defeasance, including any modifications to the provisions described above.

Ranking

Each series of senior debt securities will constitute senior indebtedness and will rank equally with each other series of senior debt securities and other senior indebtedness and senior to all subordinated indebtedness, including, but not limited to, all subordinated debt securities. Each series of subordinated debt securities will constitute subordinated indebtedness and will rank equally with each other series of subordinated debt securities but subordinate to all senior indebtedness.

Payments on the subordinated debt securities will be subordinated to the senior indebtedness of the issuer(s) and the guarantors, if any, described under "Guarantees" below, whether outstanding on the date of the subordinated indenture or incurred after that date. At December 31, 2008, we had \$3.1 billion of senior indebtedness outstanding. The prospectus supplement relating to each issuance of subordinated debt securities will specify the aggregate amount of our outstanding indebtedness as of the most recent practicable date that would rank senior to the subordinated debt securities.

If any of the following events occur, the holders of senior indebtedness must receive payment of the full amount due on the senior indebtedness, or that payment must be duly provided for, before the issuer(s) may make payments on the subordinated debt securities:

any distribution of our assets upon our liquidation, reorganization or other similar transaction except for a distribution in connection with a merger or other transaction complying with the covenant described above under "Merger";

the occurrence and continuation of a payment default on any senior indebtedness; or

a declaration of the principal of any series of subordinated debt securities, or, in the case of original issue discount securities, the portion of the principal amount specified under their terms, as due and payable, that has not been rescinded and annulled.

However, if the event is the acceleration of any series of subordinated debt securities, only the holders of senior indebtedness outstanding at the time of the acceleration of those subordinated debt securities, or, in the case of original issue discount securities, that portion of the principal amount specified under their terms, must receive payment of the full amount due on that senior indebtedness, or such payment must be duly provided for, before the issuer(s) make payments on the subordinated debt securities.

Table of Contents

As a result of the subordination provisions, some of our general creditors, including holders of senior indebtedness, may recover more, ratably, than the holders of the subordinated debt securities in the event of insolvency.

For purposes of the subordinated indenture, "senior indebtedness" of the issuer(s) and the guarantors means the following indebtedness or obligations:

the principal of and premium, if any, and unpaid interest on indebtedness for money borrowed;

purchase money and similar obligations;

obligations under capital leases;

guarantees, assumptions or purchase commitments relating to, or other transactions as a result of which the issuer(s) or the guarantors are responsible for the payment of, the indebtedness of others;

renewals, extensions and refundings of the foregoing indebtedness;

interest or obligations in respect of the foregoing indebtedness accruing after the commencement of any insolvency or bankruptcy proceedings; and

obligations associated with derivative products.

However, indebtedness or obligations do not constitute senior indebtedness if the instrument by which the issuer(s) or the guarantors become obligated for that indebtedness or those obligations expressly provides that that indebtedness or those obligations are junior in right of payment to any other indebtedness or obligations of the issuer(s) or the guarantors, as applicable.

Convertible Debt Securities

Unless otherwise provided in the applicable prospectus supplement, the following provisions will apply to debt securities of Ventas, Inc. that will be convertible into Ventas, Inc. common stock.

The holder of unredeemed convertible debt securities may, at any time during the period specified in the applicable prospectus supplement, convert those convertible debt securities into shares of Ventas, Inc. common stock. The conversion price or rate for each \$1,000 principal amount of convertible debt securities will be specified in the applicable prospectus supplement. The holder of a convertible debt security may convert a portion of the convertible debt security which is \$1,000 principal amount or any integral multiple of \$1,000. In the case of convertible debt securities called for redemption, conversion rights will expire at the close of business on the date fixed for the redemption. However, in the case of repayment at the option of the applicable holder, conversion rights will terminate upon receipt of written notice of the holder's exercise of that option.

The conversion price or rate may be subject to adjustment in certain events, as specified in the applicable indenture, including:

the issuance of shares of Ventas, Inc. common stock as a dividend on the common stock;

subdivisions and combinations of Ventas, Inc. common stock;

Edgar Filing: Ventas Capital Corp - Form 424B5

the issuance to all holders of Ventas, Inc. common stock of rights or warrants entitling such holders for a period not exceeding 45 days to subscribe for or purchase shares of common stock at a price per share less than its current per share market price; and

the distribution to all holders of Ventas, Inc. common stock of:

- (1) shares of Ventas, Inc. capital stock, other than common stock;

Table of Contents

- (2) evidence of our indebtedness or assets excluding cash dividends or distributions paid from our retained earnings;
or
- (3) subscription rights or warrants other than those referred to above.

However, we will not be required to make any adjustment of the conversion price or rate of less than 1%. Fractional shares of common stock will not be issued upon conversion. In place of fractional shares, we will pay a cash adjustment. Unless otherwise specified in the applicable prospectus supplement, debt securities surrendered for conversion between any record date for an interest payment and the related interest payment date must be accompanied by payment of an amount in cash equal to the interest payment on the surrendered debt security. However, that payment does not have to accompany debt securities surrendered for conversion if those debt securities have been called for redemption during that period. Furthermore, upon conversion of any original issue discount security, the fixed number of shares of common stock into which such original issue discount security is convertible will first be applied to the portion attributable to the accrued original issue discount relating to the period from the date of issuance to the date of conversion of the original issue discount security, and, second, to the portion attributable to the balance of the principal amount of such debt securities.

Guarantees

If the applicable prospectus supplement relating to a series of debt securities provides that those debt securities will have the benefit of a guarantee by Ventas, Inc., Ventas Realty and/or any of Ventas, Inc.'s then existing or future subsidiaries, then the debt securities will be fully and unconditionally guaranteed by Ventas, Inc., Ventas Realty and/or such guarantor subsidiaries, as applicable. In the event of a bankruptcy, liquidation or reorganization of any of the non-guarantor subsidiaries, the non-guarantor subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to us. The guarantees will be general obligations of each guarantor. The guarantees will be joint and several obligations of the guarantors. If a series of debt securities is so guaranteed, a supplemental indenture to the applicable base indenture will be executed by each guarantor. Ventas, Inc. and the Subsidiary Guarantors are guarantors under the indentures governing our existing senior notes. The obligations of each guarantor under its guarantee will be limited as necessary to prevent that guarantee from constituting a fraudulent conveyance under applicable law. A guarantor may not sell or otherwise dispose of all or substantially all of its assets to, or consolidate with or merge into another company, other than an issuer or another guarantor, unless the person acquiring the property in any such sale or disposition or the person formed by or surviving any such consolidation or merger assumes all of the obligations of that guarantor pursuant to a supplemental indenture satisfactory to the applicable trustee, and only if immediately after giving effect to the transaction, no default or event of default would exist. The terms of any guarantee and the conditions upon which any guarantor may be released from its obligations under that guarantee will be set forth in the applicable prospectus supplement.

PLAN OF DISTRIBUTION

We may sell the offered securities in and outside the United States (1) through underwriters or dealers, (2) directly to purchasers, including to a limited number of institutional purchasers, to a single purchaser or to our affiliates and stockholders, (3) through agents or (4) through a combination of any of these methods. The prospectus supplement relating to any offering will set forth the following information:

the terms of the offering;

the names of any underwriters, dealers or agents;

the name or names of any managing underwriter or underwriters;

the purchase price or initial public offering price of the securities;

the net proceeds from the sale of the securities;

any delayed delivery arrangements;

any underwriting discounts, commissions and other items constituting underwriters' compensation;

any initial public offering price;

any discounts or concessions allowed or reallocated or paid to dealers; and

any commissions paid to agents.

Sale through Underwriters or Dealers

If any securities are offered through underwriters, the underwriters will acquire the securities for their own account and may resell them from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Underwriters may offer and sell securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless otherwise provided in the applicable prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all of the offered securities if they purchase any of them. In connection with the sale of securities, underwriters may be deemed to have received compensation from us in the form of underwriting discounts or commissions and dealers may receive compensation from the underwriters in the form of discounts or concessions. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

In order to facilitate the offering of securities, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the securities. Specifically, the underwriters may over-allot in connection with the offering, creating a short position in the securities for their account. In addition, to cover over-allotments or to stabilize the price of the shares, the underwriters may bid for, and purchase, shares in the open market. Finally, an underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the securities in the offering if the syndicate repurchases previously distributed shares in transactions to cover syndicate short positions, in stabilization transactions, or otherwise. Any of these activities may stabilize or maintain the market price of the offered securities above independent market levels. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

Edgar Filing: Ventas Capital Corp - Form 424B5

Some or all of the securities that we offer through this prospectus may be new issues of securities with no established trading market. Any underwriters to whom we sell securities for public offering and sale may make a market in those securities, but they will not be obligated to do so and they may

discontinue any market making at any time without notice. Accordingly, we cannot assure you of the liquidity of, or continued trading markets for, any securities offered pursuant to this prospectus.

If any securities are offered through dealers, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale.

Direct Sales and Sales through Agents

We may sell the securities directly to purchasers. If the securities are sold directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities, we will describe the terms of any such sales in the applicable prospectus supplement. We may also sell the securities through agents designated from time to time. Sales may be made by means of ordinary brokers' transactions on the New York Stock Exchange at market prices, in block transactions and such other transactions as agreed by us and any agent. In the prospectus supplement, we will name any agent involved in the offer or sale of the offered securities, and we will describe any commissions payable to the agent. Unless otherwise provided in the applicable prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

Remarketing Arrangements

Offered securities may also be offered and sold, if we so indicate in the applicable prospectus supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more remarketing firms, acting as principals for their own accounts or as our agents. Any remarketing firm will be identified and the terms of its agreements, if any, with us and its compensation will be described in the applicable prospectus supplement. Remarketing firms may be deemed to be underwriters of the offered securities under the Securities Act.

Delayed Delivery Contracts

If we so indicate in the applicable prospectus supplement, we may authorize agents, underwriters or dealers to solicit offers by certain institutions to purchase securities from us pursuant to contracts providing for payment and delivery on a specified future date. The applicable prospectus supplement will describe the conditions to those contracts and the commission payable for solicitation of those contracts.

General Information

We may have agreements with the agents, dealers, underwriters and remarketing firms to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments that the agents, dealers or underwriters may be required to make. Agents, dealers, underwriters and remarketing firms may be customers of, engage in transactions with or perform services for us in the ordinary course of their businesses.

Each underwriter, dealer and agent participating in the distribution of any of the securities that are issuable in bearer form will agree that it will not offer, sell or deliver, directly or indirectly, securities in bearer form in the United States or to United States persons, other than qualifying financial institutions, during the restricted period, as defined in United States Treasury Regulations Section 1.163-5(c)(2)(i)(D)(7).
