We are filing this Amendment to amend Part III of the Original Filing to include the information required by and not included in Part III of the Original Filing because we no longer intend to file our definitive proxy statement within 120 days of the end of our fiscal year ended December 31, 2008 and the cover page of the Amendment now reflects we will not be incorporating Part III disclosures by reference to our proxy statement. In connection with the filing of this Amendment and pursuant to the rules of the SEC, we are including with this Amendment certain new certifications by our principal executive officer and principal financial officer. Accordingly, Item 15 of Part IV has also been amended to reflect the filing of these new certifications.

Except as described above, no other changes have been made to the Original Filing. The Original Filing continues to speak as of the date of the Original Filing, and we have not updated the disclosures contained therein to reflect any events which occurred at a date subsequent to the filing of the Original Filing other than as expressly indicated in this Amendment. In this Amendment, unless the context indicates otherwise, the terms "Company," "we," "us," and "our" refer to Allegiant Travel Company. Code of Ethics

We have adopted a Corporate Code of Conduct and Ethics (the "Code of Ethics") that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, as well as to other directors, officers and employees of ours. The Code of Ethics is posted on our website (www.allegiant.com) and is available in print free of charge to any shareholder who requests a copy. Interested parties may address a written request for a printed copy of the Code of Ethics to our outside counsel: Robert B. Goldberg, Ellis Funk, P.C., 3490 Piedmont Road, Suite 400, Atlanta, Georgia 30305. We intend to satisfy the disclosure requirement regarding any amendment to, or a waiver of, a provision of the Code of Ethics for our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions by posting such information on our website.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and executive officers and persons who own more than 10% of our equity securities to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission. Such persons are required by the Exchange Act to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of such forms received by us with respect to transactions during 2008, or written representations from certain reporting persons, we believe that all filing requirements applicable to our directors, executive officers and persons who own more than 10% of our equity securities have been complied with, except for the following: Form 4 filed late on one occasion by each of Michael Baxter (executive officer stock option exercise and sale of shares), Scott Sheldon (executive officer stock option exercise and sale of shares), John Redmond (director grant of restricted stock), and PAR Investment Partners (more than 10% stockholder). None of the filings were more than one month late. In addition, the initial report by Gary Ellmer (director) on Form 3 was filed approximately one month late.

Item 11. Executive Compensation.

Compensation Discussion and Analysis

The primary objectives of the compensation committee of our board of directors with respect to executive compensation of current management are to retain the executive team that has been in place for several years, to provide annual cash incentives upon achievement of measurable corporate performance objectives, and to assure executives' incentives are aligned with stockholder value creation. To achieve these objectives, the compensation committee maintains compensation plans that tie a significant portion of executives' total compensation to our financial performance (including our operating margin). Overall, the total compensation opportunity is intended to create an executive compensation program: (i) providing for base compensation at reasonable levels, and (ii) rewarding our named executive officers for profitable performance and increased share value.

Our chief executive officer, Maurice J. Gallagher, Jr., has a substantial equity position. Historically, he has chosen to serve without any base salary whatsoever and expects to continue to serve without base salary into the future. Prior to 2007, Mr. Gallagher did not participate in our annual cash bonuses or stock option grants, but the compensation committee decided to have him participate in the cash bonus pool for 2007 and 2008 and grant him stock options in 2008 and 2009 to reward him for our company's industry leading profit margins in the face of extraordinarily volatile fuel costs and the recent economic downturn, factors which have resulted in substantial losses by other companies in the airline industry. Whether Mr. Gallagher will participate in future cash bonuses will be determined in the discretion of the compensation committee and will depend, among other factors, on our profitability in relation to our expectations.

Table of Contents

Mr. Gallagher makes recommendations to the compensation committee with respect to the portion of the cash bonus pool payable to our managing directors (Andrew Levy and Ponder Harrison) and also with respect to the granting of stock options to these executive officers. The compensation committee typically asks Mr. Gallagher to participate in its deliberations concerning approval of cash bonuses payable to and stock options granted to these executive officers.

Mr. Gallagher and the managing directors participate in making recommendations to the compensation committee with respect to the total amount of cash bonuses to be paid, the allocation of the bonus pool among other officers and key employees of the Company and the granting of stock options to other officers and key employees.

The compensation committee members consider the recommendations from management and also draw on the committee members' and the chief executive officer's substantial experience in managing companies in approving bonus levels and stock option grants.

Compensation Components

Compensation is broken out into the following components:

Base Salary. Base salaries for both of our managing directors have been set at the same amount per year, given the important contribution by each to our success in their respective areas of responsibility. The base salary was negotiated by the parties in advance of our initial public offering in 2006 and became effective in December 2006. It is currently our intention that base salary increases for executives will be limited to modest increases per year. The compensation committee expects to review base salaries during 2009 as there have been no base salary increases since December 2006.

Annual Discretionary Incentive Cash Bonus Program. We structure our annual cash bonus compensation program to reward named executive officers and other management employees (our vice presidents, director level employees and managers) for our successful performance and each individual's contribution to that performance. For 2008, our pilots were also included in the annual cash bonuses [per our agreement with them] and we decided to pay bonuses to all employees employed prior to October 2008 in light of our industry leading profitability for the year. Depending on our profitability, cash bonuses may constitute a significant portion of our employees' total compensation. No cash bonus is earned unless our operating income exceeds 5% of our revenue for the year and, in that event, the total bonus pool will not exceed 10% of operating income. The final annual bonus pool amount is determined by our compensation committee after consideration of management recommendations and after the completion of the audit of our financial statements. The allocation of the bonus pool among eligible employees is established by the compensation committee without regard to any objective, predetermined individual performance criteria. The compensation committee relies significantly on the recommendation of the chief executive officer with respect to the participation levels of the managing directors and on executive management recommendations with respect to the bonus allocations to other officers and managers.

For financial statement reporting purposes, the bonus is accrued throughout each year based on an estimated payment amount. Under our program, named executive officers are eligible to share in the bonus pool in an amount that is approved by the compensation committee after the end of each year. Payments under this cash bonus program are contingent upon continued employment through the actual date of payment.

Long-Term Incentive Program. We believe that long-term performance is achieved through an equity ownership culture that encourages long-term performance by our executive officers. Prior to 2007, we had not provided any long-term incentive compensation to our chief executive officer or our managing directors in light of their outright ownership of significant stock positions in our company. However, we recognize that some of our executive officers have sold shares through 10b5-1 trading

Table of Contents

plans for asset diversification and estate planning purposes and the compensation committee determined that stock option grants to these executive officers would help continue to motivate them to increase the share value of our company. Although the chief executive officer continues to maintain a substantial equity stake in our company, the compensation committee has decided to provide him with modest grants of options to reward him for the successful operating results of our company and to further incentivize him to seek additional stock price growth. The compensation committee now intends to consider stock option grants to its executive officers each year.

The stock options granted in 2008 and 2009 vest over a three year period to encourage continuing employment by the executive officers and have a five year term to further encourage the officers to seek stock value appreciation over a period of time.

The awards were set at amounts determined by the compensation committee to achieve a balance between meaningful incentives to our executive officers and reasonable compensation expense for our company. The compensation committee considers the current value of prior and newly granted awards, but does not target any particular weighting in comparison with the total compensation of each executive officer. Nor do we have a policy or target for the allocation between either cash and non-cash compensation or short-term and long-term incentive compensation.

The compensation committee also considers the impact each equity grant will have on the future earnings of our company.

Other Compensation. Employment agreements were entered into with our senior officers (other than our CEO) in anticipation of our initial public offering in December 2006. We expect these employment agreements to remain in effect into the future until the compensation committee and the individual officer determine that revisions to such employment agreements are advisable. In addition, our officers participate in employee benefits generally available to our full-time employees. We have no current plans to make changes to either the employment agreements or levels of benefits and perquisites provided for our named executive officers.

401(k) Plan. In 2000, we established a 401(k) retirement plan that qualifies as a defined contribution plan under Internal Revenue Code section 401(a) and includes a cash or deferred arrangement that qualifies under Code Section 401(k). The plan was established and is maintained for the exclusive benefit of our eligible employees and their beneficiaries. We make matching contributions for active participants equal to 50% of their permitted contributions, up to a maximum of 6% of the participant's annual salary. Eligible employees are immediately 100% vested in their individual contributions and are subject to a five-year vesting schedule for our matching contributions.

Compensation of Executive Officers and Other Information

The following table shows the cash compensation paid or to be paid by us, as well as certain other compensation paid or accrued, during the fiscal years ended December 31, 2008, 2007 and 2006 to our chief executive officer, chief financial officer, each of our two other executive officers serving at the end of the 2008 fiscal year, and one individual who served as an executive officer during a portion of the 2008 year, in all capacities in which they served.

- (1) The above tables do not include columns for non-equity incentive plan compensation or change in pension value and nonqualified deferred compensation earnings as none of the named executive officers received any such compensation in the years disclosed.
- (2) All Other Compensation consists of our matching contributions under the 401(k) plan. Of the amount for Mr. Baxter, \$122,148 represents a separation payment made in September 2008 in connection with the termination of his employment.
- (3) The value of the stock awards and stock options disclosed has been determined as set forth in Note 11 to our consolidated financial statements. The amount disclosed for each year is the portion of the value of the stock awards or options recognized for financial statement reporting during the year.
- (4) Mr. Baxter's employment with us terminated as of September 26, 2008. As such, the 2008 salary shown for him was paid for services rendered as an officer through September 26, 2008.
- (5) Mr. Sheldon served as our principal accounting officer beginning in October 2007. He served as our director of accounting prior to that. Compensation for the year ended December 31, 2006 is not shown for Mr. Sheldon as he did not serve as an executive officer during such period.

Mr. Gallagher serves without base compensation as a result of his substantial equity interest. The base salaries for Messrs. Harrison, Levy and Baxter were established under the employment agreements entered into with them in 2006. Mr. Sheldon's base salary was established upon the recommendation of executive management.

For 2008, each executive officer received bonuses under our annual discretionary incentive cash bonus program. No cash bonus is earned unless our operating income exceeds 5% of our revenue for the year and, in that event, the bonus pool will not exceed 10% of operating income. The final bonus pool amount is determined by our compensation committee after completion of the audit of the financial statements and after consideration of management recommendations. Each executive officer's allocation of the cash bonus pool is determined by the compensation committee without regard to any objective, predetermined individual performance criteria. The bonus allocation for any executive officer is not targeted at or limited to any particular percentage of base salary.

Edgar Filing: Allegiant Travel CO - Form 10-K/A

Table of Contents

Other compensation generally consists only of matching contributions under our 401(k) plan. The amount paid for each executive officer depends on his salary reductions and is subject to the plan's compliance with the annual testing rules for 401(k) plans.

No executive officer's salary and bonus is tied to any particular percentage of total compensation, but rather, bonus allocations are made based on our profitability and a subjective evaluation of each officer's performance.

Grants of Plan-Based Awards in 2008

The following table describes grants of plan-based awards to our named executive officers during 2008.

Scott Sheldon	04/24/08	15,000	20.42	84,106

(1)

As determined as set forth in Note 11 to our consolidated financial statements.

Our compensation committee considers restricted stock or option grants to our executive officers annually. The number of shares granted is not based on any particular percentage of the total compensation of the executive officer. Our compensation committee determines the amount of equity grants in an attempt to provide meaningful incentives for the officers, but with consideration to the financial impact on our operating results.

The options granted in 2008 have a three-year vesting schedule to encourage continued employment by the executive officers and have a five-year term to provide incentives to create stock price appreciation over that period.

Edgar Filing: Allegiant Travel CO - Form 10-K/A

Our Long-Term Incentive Plan (the "2006 Plan") was adopted by our board of directors and approved by the stockholders in April 2006. All outstanding options under the predecessor Allegiant Air 2004 Share Option Plan have been transferred to our 2006 Plan, and no further option grants will be made under that predecessor plan. The transferred options continue to be governed by their existing terms, unless our compensation committee elects to extend one or more features of our 2006 Plan to those options. Except as otherwise noted below, the transferred options have substantially the same terms as will be in effect for grants made under our 2006 Plan.

We have reserved 3,000,000 shares of our common stock for issuance under our 2006 Plan. Such share reserve includes 500,000 shares carried over from our predecessor plan, including the shares subject to outstanding options thereunder. In addition, no participant in our 2006 Plan may be granted stock options for more than 100,000 shares of our common stock per calendar year.

Table of Contents

The individuals eligible to participate in our 2006 Plan include our officers and other employees, our non-employee board members and any consultants we engage.

Our 2006 Plan is administered by the compensation committee. This committee determines which eligible individuals are to receive option grants, the time or times when such option grants are to be made, the number of shares subject to each such grant, the status of any granted option as either an incentive stock option or a non-statutory stock option under the federal tax laws, and the terms and conditions of each award including, without limitation, the vesting schedule to be in effect for the option grant or stock issuance and the maximum term for which any granted option is to remain outstanding, provided that no option term may exceed ten years measured from the date of grant.

Vesting of any option grant is contingent on continued service with us. Upon the cessation of an optionee's service, any unvested options will terminate and will be forfeited. Any vested, but unexercised options (i) will terminate immediately if the optionee is terminated for misconduct, or (ii) if the cessation of service is other than for misconduct, will remain exercisable for such period of time as determined by the compensation committee at the time of grant and set forth in the documents evidencing the option. The compensation committee has the discretion, however, at any time while the option remains outstanding to (i) extend the period of time that the option may be exercisable following the cessation of an optionee's service (but not beyond the term of the option) and (ii) permit the optionee to exercise following a cessation of service options that were not vested at the time of the cessation of service.

The exercise price for the shares of the common stock subject to option grants made under our 2006 plan may be paid in cash or in shares of common stock valued at fair market value on the exercise date.

The compensation committee has the authority to cancel outstanding options under our option plan, in return for the grant of new options for the same or a different number of option shares with an exercise price per share based upon the fair market value of our common stock on the new grant date.

In the event we are acquired by a merger, a sale by our stockholders of more than 50% of our outstanding voting stock or a sale of all or substantially all of our assets, each outstanding option under our option plan which will not be assumed by the successor corporation or otherwise continued in effect may accelerate in full. However, the compensation committee has complete discretion to structure any or all of the options under the option plan so those options will immediately vest in the event we are acquired, whether or not those options are assumed by the successor corporation or otherwise continued in effect. Alternatively, the compensation committee may condition such accelerated vesting upon the subsequent termination of the optionee's service with us or the acquiring entity.

We intend that any compensation deemed paid by us in connection with the exercise of options granted under our option plan for the disposition of the shares purchased under those options will be regarded as "performance-based," within the meaning of Section 162(m) of the Internal Revenue Code and that such compensation will not be subject to the annual \$1 million limitation on the deductibility of compensation paid to covered executive officers which otherwise would be imposed pursuant to Section 162(m).

For accounting purposes, compensation expense related to equity based awards under the 2006 Plan are measured and recognized in accordance with SFAS No. 123(R).

Our board may amend or modify the 2006 Plan at any time, subject to any required stockholder approval, or participant consent. The 2006 Plan will terminate no later than March 31, 2016.

Table of Contents**Director Compensation**

New members of our board of directors receive compensation of \$5,000 per quarter for their service on our board of directors or any committee of our board, and will also be reimbursed for their out-of-pocket expenses. Any new director who has not been in our prior employ will receive an initial grant of 1,000 shares of restricted stock on the date such individual joins the board. The restricted stock will vest over a period of two years upon the director's completion of each year of board service over the two-year period measured from the grant date. In addition, on the date of each annual stockholders meeting, each board member (other than executive officers) who is to continue to serve as a board member will automatically be granted 1,000 shares of restricted stock, provided such individual has served on our board for at least six months. The restricted shares subject to each annual automatic grant will vest upon the director's completion of one year of board service measured from the grant date. The director compensation policy described above was modified in July 2008. Prior to that time, Messrs. Flynn and Mason did not receive compensation as directors.

The following table illustrates the compensation earned or paid to our non-management directors during 2008:

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Since January 1, 2008, we have been a party to the following transactions in which the amount involved exceeded \$120,000 and in which any of our directors or executive officers, any holder of more than 5% of our capital stock or any member of their immediate families had a direct or indirect material interest.

The building in which we maintain our headquarters is under a lease agreement with an entity owned by a limited partnership in which certain of our officers and directors (Maurice J. Gallagher, Jr., Timothy P. Flynn, John Redmond and M. Ponder Harrison) own a 57% interest as limited partners. In June 2008, we obtained additional office in the leased building through an amendment to the existing lease agreement with the landlord. The amended lease agreement has a ten year term. In June 2008, we entered into a lease agreement for office space to be used as its training facility which is located in a building adjacent to the location of our headquarters. The second building is also owned by an entity owned by the same limited partnership. The lease agreement for the second building is for a ten year term. During 2008, we paid approximately \$763,000 to the landlords under those arrangements for base rent and common area maintenance charges related to the lease agreement entered into in June 2008. These total payments include a deposit for the second building under the new lease agreement. The disinterested members of our board and audit committee have determined that the terms for the lease agreements are at least favorable as we could receive in arms' length transactions.

We believe the transaction set forth above was made on terms no less favorable to us than could have been otherwise obtained from unaffiliated third parties. All future transactions, including loans, if any, between us and our officers, directors and principal stockholders and their affiliates and any transactions between us and any entity with which our officers, directors or five percent stockholders are affiliated, will be approved by a majority of the board of directors, including a majority of the independent and disinterested outside directors, and will be on terms no less favorable to us than could be obtained from unaffiliated third parties.

Audit-Related Fees

No fees were billed by Ernst & Young, LLP for assurance and related services that were reasonably related to the performance of the audit referred to above during 2008 or 2007.

All non-audit services require an engagement letter to be signed prior to commencing any services. The engagement letter must detail the fee estimates and the scope of services to be provided. The current policy of our audit committee requires pre-approval from our audit committee of the non-audit services in advance of the engagement and the audit committee's responsibilities in this regard may not be delegated to management. No non-audit services were rendered that were not in compliance with this policy.
