PROXY STATEMENT

These proxy materials are being furnished to you in connection with the solicitation of proxies by the Board of Directors (the "Board") of Goodrich Petroleum Corporation ("we" or "the Company" or "Goodrich"), a Delaware corporation, for use at the 2010 Annual Meeting of Stockholders and any adjournments or postponements of the meeting (the "Annual Meeting"). The Annual Meeting will be held at the Waldorf Astoria Hotel in the Morgan Suite located at 301 Park Avenue, New York, New York, on Thursday, May 20, 2010, at 11:00 a.m. Eastern time.

The Notice of Annual Meeting, this proxy statement, the enclosed proxy card and our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 (the "Annual Report") are being mailed to stockholders beginning on or about April 16, 2010.

GENERAL INFORMATION ABOUT THE ANNUAL MEETING

Why did I receive these proxy materials?

You received these proxy materials from us in connection with the solicitation by our Board of proxies to be voted at the Annual Meeting because you owned our common stock as of April 8, 2010. We refer to this date as the "record date."

This proxy statement contains important information for you to consider when deciding how to vote your shares at the Annual Meeting. Please read this proxy statement carefully.

What is the purpose of the Annual Meeting?

At the Annual Meeting, our stockholders will act upon the matters outlined in the notice of meeting on the cover of this proxy statement, including the election of four Class III directors to our Board and ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm.

How many votes must be present to hold the Annual Meeting?

There must be a quorum for the Annual Meeting to be held. A quorum is the presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the shares of common stock issued and outstanding and entitled to vote at the Annual Meeting on the record date. As of the record date, there were 37,536,826 shares of our common stock outstanding. Consequently, the presence of the holders of at least 18,768,414 shares of common stock is required to establish a quorum for the Annual Meeting. Proxies that are voted "FOR," "AGAINST" or "WITHHELD FROM" a matter are treated as being present at the Annual Meeting for purposes of establishing a quorum and also treated as shares "represented and voting" at the Annual Meeting with respect to such matter.

Abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum for the transaction of business. Abstentions occur when stockholders are present at the Annual Meeting but choose to withhold their vote for any of the matters upon which the stockholders are voting. "Broker non-votes" occur when other holders of record (such as banks and brokers) that hold shares on behalf of beneficial owners do not receive voting instructions from the beneficial owners before the Annual Meeting and do not have discretionary authority to vote those shares. The New York Stock Exchange's (the "NYSE") Rule 452 restricts when brokers who are record holders of shares may exercise discretionary authority to vote those shares. With respect to the Annual

Table of Contents

Meeting, Rule 452 prohibits such brokers from exercising discretionary authority in the election of our Class III directors, but such brokers may exercise discretionary authority with respect to the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm. The effect of abstentions and broker non-votes on each proposal is set forth in more detail under "What vote is required to approve each proposal discussed in this proxy statement and how are my votes counted?"

What is a proxy?

A proxy is your legal designation of another person to vote the shares that you own. That other person is called a proxy. If you designate someone as your proxy in a written document, that document is also called a proxy or a proxy card. The Board has appointed Walter G. Goodrich and Robert C. Turnham, Jr. (the "Proxy Holders") to serve as proxies for the Annual Meeting.

What does it mean if I receive more than one proxy card?

If you receive more than one proxy card, then you own our common stock through multiple accounts at the transfer agent and/or with stockbrokers. Please sign and return all proxy cards to ensure that all of your shares are voted at the Annual Meeting.

Who is participating in this proxy solicitation and who will pay for its cost?

We will bear the entire cost of soliciting proxies, including the cost of the preparation, assembly, printing and mailing of this proxy statement, the proxy card and any additional information furnished to our stockholders. In addition to this solicitation by mail, our directors, officers and other employees may solicit proxies by use of mail, telephone, facsimile, electronic means, in person or otherwise. These persons will not receive any additional compensation for assisting in the solicitation, but may be reimbursed for reasonable out-of-pocket expenses in connection with the solicitation. We have retained American Stock Transfer & Trust Company, LLC ("AST") to aid in the distribution of proxy materials and to provide voting and tabulation services for the Annual Meeting. In addition, we will reimburse brokerage firms, nominees, fiduciaries, custodians and other agents for their expenses in distributing proxy material to the beneficial owners of our common stock.

What are the recommendations of the Board?

Unless you give other instructions on your proxy card, the Proxy Holders will vote in accordance with the recommendations of our Board. Our Board recommends that you vote:

FOR the nominated slate of directors (see Proposal No. 1); and

FOR ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010 (see Proposal No. 2).

Could other matters be decided at the Annual Meeting?

At the time this proxy statement went to press, we did not know of any matters to be raised at the Annual Meeting other than those referred to in this proxy statement.

With respect to any other matter that properly comes before the Annual Meeting, the Proxy Holders will vote as recommended by our Board or, if no recommendation is given, in their own discretion.

Table of Contents

How many votes do I have?

You are entitled to one vote for each share of common stock that you owned on the record date on all matters considered at the Annual Meeting.

How do I vote my shares?

Shares held directly in your name as the stockholder of record can be voted in person at the Annual Meeting or you can provide a proxy to be voted at the Annual Meeting by signing and dating the enclosed proxy card and returning it in the enclosed postage-paid envelope.

If you plan to vote in person at the Annual Meeting, please bring proof of identification. Even if you currently plan to attend the Annual Meeting, we recommend that you also submit your proxy as described above so that your vote will be counted if you later decide not to attend the Annual Meeting.

If you hold your shares in "street name" (for example, at your brokerage account), please follow the instructions provided by your record holder to vote the enclosed proxy card by signing and dating the enclosed proxy card and returning it in the enclosed postage-paid envelope. Shares held in street name may be voted in person by you at the Annual Meeting only if you obtain a signed proxy from your bank, broker or other holder of record (the record holder) giving you the right to vote the shares. If you hold your shares in street name and wish to simply attend the Annual Meeting, please bring proof of ownership and proof of identification.

If you vote by granting a proxy, the Proxy Holders will vote the shares of which you are the stockholder of record in accordance with your instructions. If you submit a proxy without giving specific voting instructions, the Proxy Holders will vote those shares as recommended by our Board.

Can I change my vote after I return my proxy card?

Yes. Even after you have returned your proxy card, you may revoke your proxy at any time before it is exercised by (1) submitting a written notice of revocation to our Secretary by mail to Goodrich Petroleum Corporation, 801 Louisiana Street, Suite 700, Houston, Texas 77002 or by facsimile at 713-780-9254, (2) mailing in a new proxy card bearing a later date or (3) attending the Annual Meeting and voting in person, which suspends the powers of the Proxy Holders.

What vote is required to approve each proposal discussed in this proxy statement and how are my votes counted?

The presence of the holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting, in person or represented by proxy, is necessary to constitute a quorum. Abstentions and "broker non-votes" are counted as present and entitled to vote for purposes of determining a quorum.

Election of Directors. A plurality of the votes of the shares present in person or represented by proxy and entitled to vote on this proposal is required for the election of directors. This means that the four director nominees receiving the highest number of affirmative votes at the Annual Meeting will be elected to our Board. You may vote "FOR ALL NOMINEES," "WITHHOLD AUTHORITY FOR ALL NOMINEES" or "FOR ALL EXCEPT" for the director nominees. As described above, if you hold your shares in "street name" through a bank, broker or other holder of record and do not provide timely instructions, that record holder may not exercise discretionary authority and a broker non-vote will occur. Broker non-votes and votes marked "WITHHOLD AUTHORITY" will have no legal effect on the election of directors under Delaware law.

Ratification of Appointment of Independent Registered Accounting Firm. The affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on this

Table of Contents

proposal is required for approval. You may vote "FOR," "AGAINST" or "ABSTAIN" on our proposal to ratify the selection of our independent registered public accounting firm. As described above, if you hold your shares in "street name" through a bank, broker or other holder of record and do not provide timely instructions, that record holder may exercise discretionary authority, thereby avoiding a broker non-vote. Votes marked "ABSTAIN" will be counted for purposes of determining the presence or absence of a quorum and will have the same effect as a vote "AGAINST" the proposal.

What is the difference between holding shares as a "stockholder of record" and holding shares in "street name?"

If your shares are registered directly in your name with our transfer agent, AST, you are a "stockholder of record" of these shares, and you are receiving these proxy materials directly from us. As the stockholder of record, you have the right to mail your proxy directly to us or to vote in person at the Annual Meeting.

Most of our stockholders hold their shares in a stock brokerage account or by a bank or other holder of record rather than directly in their own name. If your shares are held in a brokerage account, by a bank or other holder of record (commonly referred to as being held in "street name"), you are the "beneficial owner" of these shares and these proxy materials are being forwarded to you by that custodian. As summarized below, there are distinctions between shares held of record and those held beneficially.

May I propose actions for consideration at the next annual meeting of stockholders or nominate individuals to serve as directors?

You may submit proposals for consideration at future stockholder meetings, including director nominations. Please see "Corporate Governance Director Nomination Process" and "Stockholder Proposals and Director Nominations for the 2011 Annual Meeting of Stockholders" for more details.

Whom should I contact with questions about the Annual Meeting?

If you have any questions about this proxy statement or the Annual Meeting, please contact our Secretary at Goodrich Petroleum Corporation, 801 Louisiana Street, Suite 700, Houston, Texas 77002.

Where may I obtain additional information about Goodrich Petroleum Corporation?

We refer you to our Annual Report filed with the Securities and Exchange Commission on February 26, 2010. Our Annual Report on Form 10-K, including financial statements, is also included with your proxy mailing. The Annual Report is not part of the proxy solicitation material.

If you would like to receive any additional information, please contact our Secretary at Goodrich Petroleum Corporation, 801 Louisiana Street, Suite 700, Houston, Texas 77002.

What is "householding" and how does it affect me?

The Securities and Exchange Commission has implemented rules regarding the delivery of proxy materials to households. This method of delivery, often referred to as "householding," permits us to send a single annual report and/or a single proxy statement to any household at which two or more different stockholders reside where we believe the stockholders are members of the same family or otherwise share the same address or where one stockholder has multiple accounts. In each case, the stockholder(s) must consent to the householding process. Under the householding procedure, each stockholder continues to receive a separate notice of any meeting of stockholders and proxy card. Householding reduces the volume of duplicate information our stockholders receive and reduces our

Table of Contents

expenses. We may institute householding in the future and will notify our registered stockholders who will be affected by householding at that time.

Many banks, brokers and other holders of record have instituted householding. If you or your family has one or more "street name" accounts under which you beneficially own our common stock, you may have received householding information from your bank, broker or other holder of record in the past. Please contact the holder of record directly if you have questions, require additional copies of this proxy statement or our annual report or wish to revoke your decision to household and thereby receive multiple copies. You should also contact the holder of record if you wish to institute householding. These options are available to you at any time.

CORPORATE GOVERNANCE

Governance Practices

General

Our Board believes that adherence to sound corporate governance policies and practices is important in ensuring that we are governed and managed with the highest standards of responsibility, ethics and integrity and in the best interests of our stockholders. As a result, our Board has adopted key governance documents, including Corporate Governance Guidelines, Corporate Code of Business Conduct and Ethics and committee charters, which are intended to reflect a set of core values that provide the foundation for our governance and management systems and our interactions with others.

Copies of these documents are available on our website at www.goodrichpetroleum.com/about.us/corporate.governance.htm and are also available in print, free of charge, to any stockholder who requests them.

Corporate Governance Guidelines

Our Board has adopted Corporate Governance Guidelines, which can be viewed on our website at www.goodrichpetroleum.com/pdf/CorporateGovernanceGuidelines.pdf.

Among other things, the Corporate Governance Guidelines address the following matters:

- director qualification standards,
- director responsibilities
- director access to management and independent advisors,
- director compensation,
- director orientation and continuing education,
- management succession, and
- annual performance evaluations of our Board

Corporate Code of Business Conduct and Ethics

Our Corporate Code of Business Conduct and Ethics, which is applicable to our directors, employees, agents and representatives, can be viewed on our website at www.goodrichpetroleum.com/pdf/CodeofBusinessConductandEthics.pdf.

Any change to, or waiver from, our Corporate Code of Business Conduct and Ethics may be made only by our independent directors and will be disclosed as required by applicable securities laws and listing standards.

Our Board

Board Size; Director Independence

Our Board is currently composed of 10 directors, of whom four are currently seeking reelection at the Annual Meeting.

In determining director independence, the Nominating and Corporate Governance Committee reviews the relationships between the Company and each director and reports the results of its review to the Board. The Board uses this information to aid it in making its determination of independence. The Board has determined that to be considered independent, an outside director may not have a direct or indirect material relationship with the Company. A material relationship is one which impairs or inhibits or has the potential to impair or inhibit a director's exercise of critical and disinterested

Table of Contents

judgment on behalf of the Company and its stockholders. In determining whether a material relationship exists, the Board considers, for example, any transactions between Goodrich and an entity with which a director is affiliated (as an executive officer, partner or substantial stockholder) and whether a director is a current or former employee or consultant of the Company. The Board consults with the Company's legal counsel to ensure that the Board's determinations are consistent with all relevant securities and other laws and regulations regarding the definition of "independent director," including but not limited to those set forth in pertinent listing standards of the NYSE as in effect from time to time.

Consistent with these considerations, the Board has reviewed all the relationships between the Company and the members of the Board and affirmatively has determined that all directors are independent directors except Mr. Walter G. Goodrich and Mr. Robert C. Turnham, Jr., who are employees of the Company; Mr. Henry Goodrich who is the father of Walter G. Goodrich and a consultant to the Company; and Mr. Patrick E. Malloy, III whose company is involved in several transactions with the Company.

The chart below describes the basis for the Board's determination that the Director is independent. Although service as a director of another company alone is not a material relationship that would impair a director's independence, those relationships have been reviewed and are set forth below.

Director	Relationships Considered	Determination Basis
Josiah T. Austin	Managing Member, El Coronado Holdings, L.L.C.	Independent
Geraldine A. Ferraro	Retired as Counsel to Blank Rome LLP and Principal of Blank Rome LLC	Independent

Board Meetings, Annual Meeting Attendance

Our Board held seven meetings during the fiscal year ended December 31, 2009. Each director attended at least 75% of the meetings. We do not have a formal policy regarding director attendance at Board meetings. However, our Board must consider a director's history of attendance at Board and committee meetings as well as the director's participation in such meetings when considering the director for re-nomination to our Board.

Table of Contents

We believe that there are benefits to having members of our Board attend the annual meetings of our stockholders. In 2009, all of our directors attended the annual meeting in person. From time to time, however, a member of our Board might have a compelling and legitimate reason for not attending an annual meeting. As a result, our Board has decided that director attendance at annual meetings should be strongly encouraged, but not required.

Executive Sessions and Presiding Director

To facilitate candid discussion by our non-management directors, the agenda for certain Board and committee meetings provides for a meeting of non-management directors in executive session without any members of management present. Mr. Austin has been designated as the director to preside over executive sessions of non-management directors. Our independent directors meet separately at least once a year in accordance with the listing standards of the NYSE.

Limitation on Public Company Board Service

To ensure that each director is able to devote sufficient time to performing his or her duties, the number of other public company boards on which a director may serve is subject to a case-by-case review by the Nominating and Corporate Governance Committee. In addition, the Audit Committee's Charter prohibits committee members from serving on the audit committee of more than two other public company boards unless our Board determines that such simultaneous service does not impair the ability of the director to effectively serve on the Audit Committee.

Chairman and Chief Executive Officer

We do not currently have a policy regarding the separation of the roles of the Chairman and Chief Executive Officer. We believe that companies should be allowed the discretion to determine based on the facts and circumstances when it may be appropriate to combine the roles with adequate justification. The Board regularly deliberates and discusses its appropriate leadership structure and the role and responsibilities of the Chairman. Currently, our Board has determined that it is most appropriate for us to separate the roles of Chairman and Chief Executive Officer.

Patrick E. Malloy, III serves as Chairman of the Board. Mr. Malloy possesses a deep understanding of the Company and our business and industry, which together with his independence from management puts him in the best position to lead our Board. The Chairman is charged primarily with:

presiding over meetings of our Board and stockholders;

serving as an ex-officio member of each Board committee and, upon invitation, attending committee meetings where possible;

establishing an agenda for each Board meeting in collaboration with our CEO and meeting with our CEO following each meeting to discuss any open issues and follow-up items;

facilitating and coordinating communication among the non-management directors and our CEO and an open flow of information between management and our Board;

in collaboration with the Nominating and Corporate Governance Committee, leading our Board's annual performance review;

providing assistance to our CEO by attending selected internal business management meetings and meeting with our CEO as necessary;

coordinating the periodic review of management's strategic plan;

Table of Contents

in collaboration with the Compensation Committee, leading our Board's review of the succession plans for our CEO and key senior management and coordinating such officers' annual performance reviews;

working with management on effective stockholder communication; and

performing such other duties and services as our Board may require.

Our Board's Role in Risk Oversight

Our Board generally administers its risk oversight function through the board as a whole. Our Chief Executive Officer, who reports to the Board, and the other executives named in this proxy statement, who report to our Chief Executive Officer, have day-to-day risk management responsibilities. Each of these executives attends the meetings of our Board, where the Board routinely receives reports on our financial results, the status of our operations and our safety performance, and other aspects of implementation of our business strategy, with ample opportunity for specific inquiries of management. The Audit Committee provides additional risk oversight through its quarterly meetings, where it receives a report from our Controller, who reports directly to the Audit Committee, and reviews our contingencies, significant transactions and subsequent events, among other matters, with management and our independent auditors.

Annual Board Evaluation

In years past, our Board has conducted an annual self-evaluation to determine whether it and its committees are functioning effectively. Following its creation in February 2008, the Nominating and Corporate Governance Committee has assumed responsibility for the Board evaluation process. Following the end of each fiscal year, the Nominating and Corporate Governance Committee requests that the Chairman of each committee report to the full Board about the committee's annual evaluation of its performance and evaluation of its charter. In addition, the Nominating and Corporate Governance Committee receives comments from all directors and reports to the full Board with an assessment of the Board's and management's performance at the end of each fiscal year.

Director Orientation and Continuing Education

Our Board takes measures as it deems appropriate to ensure that its members may act on a fully informed basis. The Nominating and Corporate Governance Committee develops and evaluates our general education and orientation program for our directors. Newly appointed directors are required to become knowledgeable (if not already) about the responsibilities of directors for publicly-traded companies. In addition, we regularly provide our directors with information regarding changes in our business and industry as well as the responsibilities of the directors in fulfilling their duties.

Director Nomination Process

Director Qualifications

When identifying prospective director nominees, our Board, with assistance from the Nominating and Corporate Governance Committee in its corporate governance role, considers the following:

the person's reputation, integrity and independence;

the person's skills and business, government or other professional experience and acumen, bearing in mind the composition of our Board and the current state of and the energy industry generally at the time of determination; and

the number of other public companies for which the person serves as a director and the availability of the person's time and commitment to us.

Table of Contents

Additionally, while the Board does not have a formal policy on diversity, the Board seeks candidates who, in addition to providing a range of talents and expertise, are sufficiently diverse as to provide a range of perspectives representative of the interests of constituencies served or to be considered from time to time by the Board, including our shareholders and our employees. Diversity, inclusive of, but not limited to, race, gender, ancestry and thought, is an important ingredient in the maintenance of an appropriate range of perspectives.

In the case of directors being considered for reelection, our Board also takes into account the director's history of attendance at Board and committee meetings, the director's tenure as a member of our Board and the director's participation at Board and committee meetings.

Review of Directors and Director Nominees

In addition to meeting the above criteria, each of our current directors and director nominees also bring a strong and unique background and set of skills to the Board, giving the Board as a whole competence and experience in a wide variety of areas. Set forth below are the conclusions reached by the Board with regard to its directors and director nominees.

Ms. Ferraro's experience as a member of the U.S. House of Representatives, including numerous committee memberships, gives her the leadership and consensus-building skills that are valuable to our the Board. She has extensive knowledge of the workings of government and politics. She also has public relations experience from running for, and serving in, elected office and serves on the boards of many political and non-profit organizations.

Mr. Perdue brings finance and business leadership skills from his career in the banking industry. Mr. Perdue qualifies as an audit committee financial expert under SEC guidelines.

Director Nominations

In connection with its governance function, the Nominating and Corporate Governance Committee identifies individuals qualified to become Board members and recommends those individuals for election as directors, either at the annual meeting of stockholders or to the Board to fill any vacancies. When the need to fill a vacancy arises, the Nominating and Corporate Governance Committee solicits recommendations from existing directors and from senior management. These recommendations are considered along with any recommendations made by stockholders.

The Board did not retain, and we did not pay a fee to, any third party to assist in the process of identifying or evaluating prospective director nominees for election at the Annual Meeting, nor did we receive any director nominees put forward by a stockholder or group of stockholders who beneficially own more than 5% of our common stock.

Submission of Stockholder Nominations to our Board

As discussed above, our Board considers prospective nominees for Board membership suggested by stockholders. For each individual that a stockholder proposes to nominate as a director, the stockholder must provide notice to our Secretary at Goodrich Petroleum Corporation, 801 Louisiana Street, Suite 700, Houston, Texas 77002. The notice must set forth all of the information required in solicitations of proxies under the Securities and Exchange Commission's rules and regulations and any other law. Please see "Stockholder Proposals and Director Nominations for the 2011 Annual Meeting of Stockholders" for more details.

Executive Committee

The Executive Committee is delegated the authority to approve any actions that our Board can approve, except to the extent restricted by law or by our Amended and Restated Certificate of Incorporation or Bylaws, as amended. The Executive Committee held four meetings during the fiscal year ended December 31, 2009. Each committee member attended at least 75% of the meetings.

Hedging Committee

The Hedging Committee's principle function is to assist management in establishing pricing and production guidelines to be used by management in entering into oil and gas hedging contracts in order to manage the commodity price risk for a portion of our oil and gas production. Although the Hedging Committee did not hold any formal meetings during the fiscal year ended December 31, 2009, it took action through unanimous written consent throughout the year.

Audit Committee

Pursuant to its charter, our Audit Committee functions in an oversight role and has the following purposes:

overseeing our compliance with legal and regulatory requirements;

overseeing the qualifications, independence and performance of the independent auditor engaged for the purpose of rendering or issuing an audit report or performing other audit, review or attest services for us;

overseeing the effectiveness and performance of our internal audit function;

overseeing our systems of internal controls regarding finance, accounting, legal compliance and ethics that our management and our Board has established;

None of the members of the Audit Committee serve on the audit committee of more than two other public companies.

COMPENSATION DISCUSSION AND ANALYSIS

The following Compensation Discussion and Analysis contains statements regarding future individual and company performance targets and goals. These targets and goals are disclosed in the limited context of our executive compensation program and should not be understood to be statements of management's expectations or estimates of results or other guidance. We specifically caution investors not to apply these statements to other contexts.

Overview of Our Executive Compensation Program

Our success is contingent on our ability to recruit, develop, motivate and retain top executive talent with the requisite skills and experience to develop, expand and execute our business strategy. As a result, we seek to deliver fair and competitive compensation for our executive officers by structuring our executive compensation program principally around two goals. First, we target compensation at competitive market levels. Second, we believe our executive officers should be rewarded for executing goals designed to generate returns for our stockholders but not for poor performance. As a result, we tie selected elements of our executive compensation program to individual and company performance goals.

The Chief Executive Officer ("CEO") of the Company annually reviews the performance of each member of our executive management team (other than his own performance, which is reviewed by the Compensation Committee of our Board of Directors, for purposes of this Compensation Discussion and Analysis, the "Committee"). The conclusions reached and recommendations based on these reviews, including base salary adjustments and annual cash incentive award amounts, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended adjustments or awards prior to presenting to the full Board for approval.

Throughout this proxy statement, the individuals who served as our CEO and Chief Financial Officer during the fiscal year ended December 31, 2009, as well as the other individuals included in the Summary Compensation Table on page 33, are referred to as "Named Executive Officers" or "NEOs".

Objectives of Our Executive Compensation Program

We have developed an executive compensation program that is designed to (1) recruit, develop and retain key executive officers responsible for our success and (2) motivate management to enhance long-term stockholder value. To that end, the Committee bases its executive compensation decisions on the following objectives:

Compensation should reflect the value of the officer's job in the marketplace. To recruit, develop and retain a highly skilled work force, we must remain competitive with the pay of other employers who compete with us for talent.

Compensation should be based on the level of job responsibility as well as individual and company performance. As employees progress to higher levels in our organization, an increasing proportion of their pay should be linked to company performance and stockholder returns because they are in a position to have greater influence on company results.

Compensation should reward performance. Our programs should deliver top-tier compensation given top-tier individual and company performance; likewise, where individual performance falls short of expectations and/or our performance lags the industry, our executive compensation program should deliver lower-tier compensation. In addition, the objectives of pay-for-performance and retention must be balanced. Even in periods of temporary downturns in company performance, our executive compensation program should continue to ensure that successful, high-achieving employees will remain motivated and committed to us.

Table of Contents

The Committee has established a number of processes to assist it in ensuring that our executive compensation program is achieving these objectives. Among those are:

Competitive Benchmarking. In order to compare our compensation program against others in our industry, senior management reviewed the 2009 Compensation Survey prepared by Effective Compensation Incorporated, which included compensation data, as of April 1, 2009, submitted from 119 companies in the exploration and production industry. Management further reviewed the public filings made in 2009 for each of the peer companies noted below to assess each company's executive compensation program. This market data was then summarized and provided to the Committee, allowing the Committee to compare our executive compensation program with a group of peer companies in the upstream exploration and production sector of the oil and gas industry with market capitalizations similar to ours, as well as geographic areas of operation, industry-specific operations, company size and corporate structure ("Peer Companies").

Our group of Peer Companies in 2009 included: ATP Oil & Gas Corp., Bill Barrett Corp., Cabot Oil & Gas Corp., Carrizo Oil & Gas Inc., Comstock Resources, Inc., Delta Petroleum Corp., Encore Acquisition Co., Parallel Petroleum Corp., Petrohawk Energy Corp., Penn Virginia Corp., Petroquest Energy, Inc., Quicksilver Resources, Inc., Stone Energy Corp. and Swift Energy Co.

The Committee uses the data on the Peer Companies primarily to ensure that our executive compensation program as a whole is competitive, meaning generally within the broad middle range of comparative pay of the Peer Companies when we achieve the targeted performance levels.

Assessment of Individual and Company Performance. The Committee has established specific company performance measures that determine the size of incentive payouts for our executive officers. In addition, a portion of the incentive payouts are based on evaluations of individual performance. These performance measures are discussed in more detail below.

Total Compensation Review. Historically, each December the Committee reviews each executive officer's base pay, annual cash incentive and long-term equity-based incentives. In December 2009, the Committee approved awarding long-term equity-based incentives in December with the annual cash incentive to be awarded in March 2010. In addition to these primary compensation elements, the Committee periodically reviews perquisites and other compensation as well as payments that would be required under the Company's severance agreements. Following the 2009 review, the Committee determined that these elements of compensation were reasonable in the aggregate.

Elements of Our Executive Compensation Program

The Committee evaluates both performance and compensation to ensure that we maintain our ability to attract and retain superior employees in key positions and that compensation provided to our key employees remains competitive relative to the compensation paid to similarly situated executive officers of our Peer Companies. In furtherance of these goals, our executive compensation program consists of six basic components:

base salaries;

bonus awards;

annual cash incentive;

long-term equity-based incentives;

severance benefits; and

health insurance, retirement and other perquisites.

Table of Contents

Base Salaries

We provide our executive officers and other employees with an annual base salary to compensate them for services rendered during the year. Our goal is to set base salaries for our executive officers at levels that are competitive with comparable companies for the skills and requirements of similar positions. To achieve this goal, the Committee uses benchmarking as previously discussed. In addition, the Committee considers the officer's responsibilities, experience, leadership, potential future contribution and demonstrated individual performance as well as our cash flow, operational performance and progress in implementing our business strategy in establishing increases in base salaries for our executive officers.

For 2009, the base salaries for Messrs. Goodrich, Turnham, Looney and Ferchau increased by approximately 5%. In making the determination to increase these base salaries, the Committee reviewed each executive officer's contribution toward achieving the 2008 corporate goals as well as the compensation market data summarized as part of our benchmarking process described above. These increases are meant to reflect the value of the officer's job in the marketplace and are based on the level of job responsibility as well as individual performance during 2008. Mr. Killelea joined us as Senior Vice President and General Counsel in January 2009 and his 2009 base salary was determined through negotiations with Mr. Killelea at the time of his employment.

For 2010, the base salaries for Messrs. Goodrich, Turnham, Looney and Ferchau were unchanged, and Mr. Killelea's base salary increased by 3%. While each NEO's individual performance during 2009 significantly contributed to the achievement of the Company's 2009 goals, taking into consideration the 2009 economic and market conditions, as well as the forecasts for 2010, the Committee determined it would be in the best interest of the shareholders to keep the base salaries of Messrs. Goodrich, Turnham, Looney and Ferchau at the same level as their respective 2009 base salaries. In making the determination to increase Mr. Killelea's base salary, the Committee reviewed his contributions toward achieving the 2009 corporate goals as well as the compensation market data.

Bonus Awards

From time to time, the Committee grants discretionary bonus awards in recognition of individual performance. No discretionary bonus awards were granted to our executive officers during 2009.

Annual Cash Incentive Awards

At the core of our executive compensation philosophy is a belief that pay should be linked directly to performance. Accordingly, we have adopted a set of performance measurements that are designed to provide specific goal-oriented incentives to our executive officers and to tie the annual cash incentive compensation of those officers to individual and company performance guidelines. In adopting the performance measures, the Committee and our Board determined that a majority of the annual cash incentive award should come from an objective or formula driven plan and a minority should come from subjective measures such as an individual's personal role in our performance as well as that individual's overall duties, responsibilities and expertise. Company performance metrics are based on metrics that management uses to evaluate the performance of the Company. Payment amounts and recommendations for our executive officers are presented to the Committee by the Chief Executive Officer along with the performance measures and results. Bonuses for all executive officers are determined by the Committee and presented to the Board for approval. Our Chief Executive Officer reviews the performance of each executive officer on an annual basis. The performance of our Chief Executive Officer is reviewed by the Committee and approved by our Board.

Each component of the performance guidelines is measured by its relative importance and a percentage of the executive officer's salary has been targeted based on the possible grades in each category. Possible grades are broken down into four categories: Exceptional, Very Good, Good and Poor, with specific performance targets identified for each grade. Annual performance with results of

Table of Contents

Poor for each performance component yields no annual cash incentive for the executive officer. Results of "Exceptional" for all components, plus an individual performance component of 10% yield a maximum possible annual cash incentive equal to 70% of target bonus, which for all of our NEO other than Mr. Killelea is 100% of salary. As a Senior Vice President, Mr. Killelea's target bonus percentage is equal to 50% of salary. In addition, the Committee may, in its discretion, recommend to the Board that our executive officers receive an additional annual cash incentive of up to 30% of base salary. This discretionary award recognizes performance and achievements that are more difficult to quantify, such as the successful supervision of major corporate projects and demonstrated leadership ability.

The following chart presents information about the specific performance targets established by the Compensation Committee at the maximum achievement level, the Company's actual performance results, the maximum incentive opportunities for our NEOs and the actual percentage amounts that were paid out:

Performance Measure	"Exceptional" Target	"Very Good" Target		Actual 2009 Company Performance	Maximum Incentive Opportunity (% of base salary)	Actual % of Target Bonus Awarded
Production Growth	>26%	20%	26%	24%	12.5%	10%
Reserve Replacement	>200%	161%	200%	254%	10%	10%
Finding & Development Costs	<\$3.01	\$3.01	\$3.50	\$2.99	15%	15%
Lease Operating Expense per Mcf	<\$1.01	\$1.01	\$1.20	\$1.00	12.5%	12.5%
Growth in EBITDAX	>100%	90%	100%	97%	10%	5%
Individual Performance	N/A	N/A	N/A	N/A	10%	10%
Discretionary Award	N/A	N/A	N/A	N/A	30%	25%
TOTAL					100%	87.5%

As reflected in the table above, the Company exceeded the "Exceptional" or maximum targets for the Reserve Replacement, Finding and Development Costs and Lease Operating Expense per Mcfe performance measures. Both the Production Growth and Growth in EBITDAX measures achieved "Very Good" levels of performance, which resulted in a payout of 10% and 5% of target bonus, respectively. The individual performance and contributions of each of our NEOs, which are discussed in greater detail below, were also determined to merit maximum payouts under the Individual Performance measure. Finally, based on the Compensation Committee's review of both the Company's actual performance against the financial performance targets established at the outset of the year and the individual performance of each of our NEOs, the Committee exercised its judgment and awarded 25% available under discretionary component of the program. Accordingly, each of our NEOs received a final incentive award payout equal to 87.5% of their respective bonus targets in 2009. In considering each NEO's individual performance, the Committee evaluated Mr. Goodrich's contributions to the success of the Company and concurred with Mr. Goodrich's assessment of the contributions of Messrs. Turnham, Looney, Ferchau and Killelea.

Specifically, the Committee determined (in the case of Mr. Goodrich) and concurred with Mr. Goodrich's conclusions (with respect to the other executive officers) that:

Mr. Goodrich continued his excellent leadership of the entire organization. He led a significant change in business strategy, transitioning the Company from a predominately vertical well drilling program to almost exclusively horizontal wells. While the Haynesville Shale accounted for only 1% of proved reserves a year ago, at year end, the Haynesville Shale represented 47% of proved reserves and 42% of fourth quarter production.

Table of Contents

Mr. Turnham continued his excellent leadership of the operations and land groups in the Company, sourcing and negotiating a number of transactions to build the Company's acreage position focused on Haynesville Shale and Cotton Valley Taylor sands in East Texas and Northern Louisiana, including an acquisition of 12,000 net acres in the Eastern portion of the Angelina River Trend area.

Mr. Looney continued to excel in his core responsibility of chief financial officer, managing a convertible notes offering in September 2009, which raised \$218.5 million in new capital, and putting the Company in a strong position as of year end with an undrawn credit facility of \$175 million and \$300 million of available capital.

Mr. Ferchau continued his excellent leadership of the engineering and operations functions, overseeing the drilling and completion of 45 gross (25 net) wells with a 100% success rate, and a 23% reduction in lease operating expenses before workovers to \$1.00 per mcfe.

Mr. Killelea joined us in January 2009 as our first General Counsel and provided valuable legal counsel to the management team. In addition, he assisted in various acreage transactions and land matters, managed numerous litigation matters, and helped negotiate and close certain financings.

In determining how much of the 30% discretionary component should be awarded, the Compensation Committee considered a variety of factors, including the strong cash position of the Company's balance sheet as of December 31, 2009, the Company's exceptional performance with respect to lowering finding and development costs, reducing lease operating expenses, reserve replacement, and the retention of its proven and experienced management team. Based on the Company's strong performance in spite of the challenges of difficult domestic economic conditions and the previously described contributions of each of our executive officers, the Committee determined to award 25% of the maximum 30% available under the discretionary component of our annual incentive program.

The plan and performance measures are reviewed and annually updated and amended as the Committee deems necessary. The Committee also determines whether the performance measures and standards are appropriate for us and whether the full range of possible payouts makes sense relative to each applicable performance measure, as well as our total compensation. Also, the Committee reviews potential results of the subjective performance measures and determines whether or not the guidelines being tied to an individual's annual salary are appropriate.

Long-Term Equity-Based Incentives

To align the compensation of our executive officers with the attainment of our business goals and an increase in stockholder value, we award grants of restricted (phantom) stock as part of our total compensation package. These grants are made pursuant to our 2006 Long-Term Incentive Plan. The specific objectives of our long-term equity-based compensation plan are to attract and retain the services of key employees and enhance a sense of ownership in us, as well as to encourage those persons to assist in our development, growth and financial success.

We consider the proportion of equity-based incentives to salary and cash incentives when determining the size of grants of restricted (phantom) stock. In 2009, this proportion was approximately 50% for all of our NEOs. We believe this proportion reflects a correlation between executive compensation and Company performance in both the short and long-term. The amount of equity incentive compensation granted for 2009 performance was determined such that total compensation would approximate the median range of companies in our compensation peer group. Existing ownership levels are not a factor in award determination, as we do not want to discourage executives from holding significant amounts of our common stock. As part of his initial negotiated compensation

Table of Contents

package, Mr. Killelea received an equity award in January, 2009 in conjunction with his appointment as Senior Vice President and General Counsel.

We have expensed stock option grants under the Share-Based Payments Topic of the Financial Accounting Standards Board's Accounting Standards Codification (the "Codification") beginning in 2006. Historically, we awarded a combination of stock option and restricted (phantom) stock grants to our executives. While we still have the ability under our 2006 Long-Term Incentive Plan, our Compensation Committee has favored awards of restricted (phantom) stock in recent years. Since our adoption of the Share-Based Payments Topic of the Codification in 2006, we have, during most market conditions, generally concluded that the value of stock options as perceived by the recipients was incongruent with the cost required to be recognized by the Company in its financial statements prepared in accordance with GAAP. As such, and unless market conditions suggest otherwise, the Company has granted restricted shares to its executive group in lieu of a combination of restricted shares and stock options.

We believe that providing grants of restricted (phantom) stock focuses the named executives on delivering long-term value to our stockholders, while providing value to the executives with the equity awards. Grants of restricted (phantom) stock offer executives the opportunity to receive shares of our common stock on the date the restriction lapses. In this regard, restricted (phantom) stock serves both to reward and retain executives, as the value of the restricted (phantom) stock is linked to the price of our common stock on the date the restrictions lapse.

Each of the NEOs received grants of restricted (phantom) stock in December 2009 based on performance and for services rendered during fiscal year-ended 2009. Our restricted (phantom) stock awards vest in three equal annual installments beginning one year after the grant date. We believe that these vesting schedules aid us in retaining executives and motivating longer-term performance.

Severance Benefits

We have severance agreements with Messrs. Goodrich, Turnham, and Ferchau. We believe that the severance payments and other benefits provided under these agreements are appropriate, accounting for the time that is expected to take a separated officer to find another job. Under the agreements, each officer is eligible for severance payments and other benefits if the officer's employment is terminated without cause or due to a change of control (each a "Triggering Event") as described below and under "Potential Payments Upon Termination or Change in Control" beginning on page 36 of this proxy statement.

Without Cause. Payments and other benefits are provided under the separation agreements if the officer is terminated without cause. The payments and other benefits provided upon this Triggering Event are intended to ease the consequences to the separated officer of an unexpected termination that under different circumstances would not have occurred and which is beyond the control of the officer.

Change of Control. Recognizing the importance of avoiding the distraction and loss of key management personnel that may occur in connection with rumored or actual fundamental corporate changes, we provide payments and other benefits under the separation agreements if an officer is terminated due to a change in control. We believe that use of this Triggering Event protects stockholder interests by enhancing employee focus during rumored or actual change in control activity through (1) providing incentives to our officers to remain employed by us despite uncertainties while a transaction is under consideration or pending and (2) assuring severance and benefits for terminated officers.

Other Benefits

In addition to base pay, annual cash incentive, long-term equity-based incentives and severance benefits, we provide the following forms of compensation:

401(k) Savings Plan. We have a defined contribution profit sharing 401(k) plan designed to assist our eligible officers and employees in providing for their retirement. We match the contributions of our employees to the plan in cash, up to a maximum of 6% of eligible deferrals. Employees are immediately 100% vested in company contributions.

Health and Welfare Benefits. Our executive officers are eligible to participate in medical, dental, vision, disability insurance and life insurance to meet their health and welfare needs. These benefits are provided so as to assure that we are able to maintain a competitive position in terms of attracting and retaining officers and other employees. This is a fixed component of compensation and the benefits are provided on a non-discriminatory basis to all employees.

Perquisites. We do not provide significant perquisites or personal benefits to our executive officers. To the extent perquisites or other personal benefits are provided, they are determined on an individual basis as appropriate in light of competitive standards and the performance of our executive officers.

Mr. Looney has also agreed to serve as a consultant for the Company for a period of six months following his resignation in order to assist the Company with its transition to his replacement. For more information about the terms of the Resignation Agreement, please see "Potential Payments Upon Termination or Change in Control Resignation Agreement with David R. Looney," below.

Other Matters

Stock Ownership Guidelines and Hedging Prohibition

Stock ownership guidelines have not been implemented by the Committee for our executive officers. In addition, we do not have a policy that restricts our executive officers from limiting their economic exposure to our stock. We will continue to periodically review best practices and re-evaluate our position with respect to stock ownership guidelines and hedging prohibitions.

Tax Treatment of Executive Compensation

Our Board has not yet adopted a policy with respect to the limitation under Section 162(m) of the Internal Revenue Code, which generally limits our ability to deduct compensation in excess of \$1,000,000 to a particular executive officer in any year.

- (1) The amounts included in the "Stock Awards" column reflects the full value at the grant date, assuming the completion of the service-based vesting conditions to which such awards are subject. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. These amounts reflect the company's accounting expense for these awards, and do not correspond to the actual value that will be recognized by our NEOs. Assumptions used in the calculation of these amounts are included in Note 2 to our audited financial statements for the fiscal year ended December 31, 2007, 2008, and 2009 included in our Annual Report on Form 10-K.
- (2) The amounts included in the "All Other Compensation" column represent Company matching contributions to the Named Executive Officer's 401(k) savings plan account. No Named Executive Officer received any perquisites for which the aggregate amount exceeded \$10,000.
- (3) Mr. Killelea joined us effective January 19, 2009.
- (4) Mr. Looney resigned effective March 31, 2010.

These amounts include stock awards granted for services rendered by each NEO for fiscal 2007 and 2008. Because awards for 2007 performance were granted on February 12, 2008, the grant date fair value of such awards is reflected in 2008 compensation.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

The following is a discussion of material factors necessary to an understanding of the information disclosed in the Summary Compensation Table and the Grants of Plan-Based Awards Table.

2006 Long-Term Incentive Plan.

Restricted (Phantom) Shares. The restricted (phantom) stock awards vest in one-third increments on each anniversary of the grant date, and will vest earlier upon the grantee's termination of employment due to his death or disability. In addition, the restricted (phantom) stock will vest on a change in control of the Company. Payment of vested restricted (phantom) stock may be made in cash, shares of our common stock or any combination thereof, as determined by the Compensation Committee in its discretion. Any payment to be made in cash will be based on the fair market value of a share of common

stock on the payment date.

Table of Contents**Non-Equity Incentive Plan Compensation.**

In May 2009, the Compensation Committee approved the 2009 performance criteria under our annual cash incentive compensation plan.

For a description of the plan, please see "Compensation Discussion and Analysis Annual Cash Incentive Awards."

Salary and Bonus in Proportion to Total Compensation. As noted in "Compensation Discussion and Analysis," we believe that a significant portion of each NEO's compensation should be in the form of equity awards. The percentage of each NEO's total compensation that was paid and awarded for 2009 in the form of base salary was approximately 25% for each of Messrs. Goodrich, Turnham, Looney and Ferchau and approximately 33% for Mr. Killelea. The Company did not award any bonuses, as such term is defined by the SEC, in 2009.

Risk Assessment Related to our Compensation Structure

We believe our compensation plans are appropriately structured and are not reasonably likely to result in material risk to Goodrich. We believe our approach to goal setting, setting of targets with payouts at multiple levels of performance, and evaluation of performance results assist in mitigating excessive risk-taking that could harm our value or reward poor judgment by our executives. Several features of our programs reflect sound risk management practices. We set performance goals that we believe are reasonable in light of past performance and market conditions. We also believe we have allocated our compensation among base salary and short and long-term compensation target opportunities in such a way as to not encourage excessive risk-taking. Further, with respect to our incentive compensation programs, the metrics that determine payouts for our employees are company-wide metrics only. This is based on our belief that applying Company-wide metrics encourages decision-making that is in the best long-term interests of Goodrich and our stockholders as a whole. We use restricted stock rather than stock options for equity awards because restricted stock units retain value even in a depressed market so that employees' are less likely to take unreasonable risks to get, or keep, options "in-the-money." Finally, the time-based vesting over three years for our long-term incentive awards, even after achievement of any performance criteria, ensures that our employees' interests align with those of our stockholders for the long-term performance of Goodrich.

Potential Payments Upon Termination or Change in Control

The discussion below discloses the amount of compensation and/or other benefits potentially due to Messrs. Goodrich, Turnham, Ferchau and Killelea in the event of their termination of employment, including, but not limited to, in connection with a change in control of the Company. The amounts shown assume that such termination was effective as of December 31, 2009, and thus includes amounts earned through such time and are estimates of the amounts which would be paid out to the executives upon their respective termination. The actual amounts to be paid out can only be determined at the time of such executive's separation from the Company. The discussion below regarding Mr. Looney

Table of Contents

also notes the compensation that he would have been entitled to receive upon a termination of employment as of December 31, 2009 under all applicable agreements as they were in effect as of that date, although Mr. Looney voluntarily resigned from his position as Executive Vice President and Chief Financial Officer effective March 31, 2010. In light of the fact that we now know the exact compensation and other benefits Mr. Looney received upon his resignation, we have also disclosed these amounts, along with a brief discussion of Mr. Looney's new consulting agreement with us.

Severance Agreements

Each of Messrs. Goodrich, Turnham, Looney, and Ferchau entered into a severance agreement with the Company providing for a cash lump sum payment to each of them in the event of their termination of employment without "cause" or due to a "change in duties," during the eighteen (18) month period immediately following a "change in control," each term as defined below. The amount to which each is entitled is equal to two (2) times his then "current annual rate of total compensation," to be paid within a ninety (90) day period following the applicable termination of employment, or in the event the executive is a "specified employee" as defined in Section 409A of the Code at the time of termination, on the first business day following the six (6) month period immediately following the executive's termination of employment. The severance agreement also provides for continued health and life insurance coverage under the Company plans (or the equivalent thereof) for each of them through the second anniversary of their respective termination of employment date, but only to the extent that the continuation of benefits is exempt from Section 409A of the Code. In the event that payments pursuant to the severance agreements create excise taxes for the executive pursuant to Section 4999 of the Code, we will provide the executive with an additional payment solely to compensate them for the additional excise tax payment; the additional payment is not intended to apply to the income, excise or other taxes that such an additional payment may create for the executive.

The severance agreements define "cause" as (1) a material failure to perform expected duties, (2) the commission of fraud, embezzlement, or misappropriation against us, (3) a material breach by the executive of his fiduciary duty, or (4) a conviction of a felony offense or a crime involving moral turpitude.

The executive's "current annual rate of total compensation" is comprised of the executive's annual base salary, the annual cash bonus last awarded to the executive prior to the change of control, and the value of the equity-based compensation awards granted to the executive during the twelve (12) months immediately prior to the change of control. All equity awards to be included in this calculation will be valued as of the date of grant.

A "change of control" of the company will be deemed to have occurred upon the occurrence of the following events: (1) a sale or other transfer of all or substantially all of our assets, (2) our liquidation or dissolution, (3) a person or group becomes the beneficial owner of fifty percent (50%) or more of our voting power, or (4) a merger or consolidation, unless for at least six (6) months after the transaction, we own fifty percent (50%) of the total voting power of all the voting securities.

The executives may voluntarily resign upon a "change in duties" upon (1) a reduction in the executive's duties or responsibilities, (2) a reduction in the executive's "current annual rate of total compensation" or (3) a change in location of the executive's principal place of business of more than fifty (50) miles.

The agreement we entered into with Mr. Looney in connection with his voluntary resignation fully supersedes any rights or benefits Mr. Looney would have been entitled to receive pursuant to his severance agreement.

Equity-Based Compensation Plans

In addition, each of Messrs. Goodrich, Turnham; and Ferchau hold unvested stock options or phantom shares granted under the Goodrich Petroleum Corporation 1995 Stock Option Plan ("1995 Plan"). Options granted under the 1995 Plan become fully exercisable upon the grantee's termination of employment with the Company due to death or disability. In addition, the 1995 Plan provides the administrative committee discretion to accelerate options upon a "change in control," as defined in the 1995 Plan. A "change in control" under the 1995 plan will be deemed to have occurred upon the occurrence of any of the following events: (1) a person or group of persons becomes the beneficial owner of fifty percent (50%) or more of our voting power, (2) a merger where we are not the surviving entity, (3) an election of directors in which more than one-half of our incumbent directors are not reelected, (4) the sale or other transfer of all or substantially all of our assets or (5) our liquidation or dissolution.

Phantom shares granted under the 1995 Plan fully vest upon a change of control of the Company, or upon the grantee's termination of employment with the Company due to death or disability.

The Company maintains the Goodrich Petroleum Corporation 2006 Long-Term Incentive Plan ("2006 Plan"), under which each of Messrs. Goodrich, Turnham, Looney, Ferchau and Killelea have received grants of stock options and/or phantom shares. The terms of the 2006 Plan and related award agreements provide for options to become fully vested and exercisable upon a "change of control" (as defined below) of the Company or upon the grantee's termination of employment due to death or disability. Phantom shares granted under the 2006 Plan become fully vested upon a change of control of the Company, or upon a grantee's termination of employment with the Company due to death or disability. A "change of control" of the Company is defined for purposes of the 2006 Plan as a change of control event as defined in the regulations and guidance issued under Section 409A of the Code. Our compensation committee has the authority to provide for alternative acceleration or exercise treatment for the awards granted pursuant to the 2006 Plan at its' discretion, but for purposes of the table below, we have assumed that the executives would receive the treatment of their equity awards as currently noted in the 2006 Plan and their award agreements.

As to the options granted under the 1995 Plan and the 2006 Plan, accelerated vesting results in an amount equal to the difference between the exercise price for each option and the market price per share, multiplied by the number of shares.

Table of Contents

A summary of the possible cash severance payments and continuation of health and life insurance coverage, as well as the accelerated vesting or settlement of the options and phantom shares, are detailed below for each of the named executive officers. The value of all equity awards is based upon the closing price of our stock on December 31, 2009, or \$24.35. For Mr. Looney, please note that such payments and benefits were not in fact paid to him upon his voluntary resignation; see the discussion following the table below for a detailed explanation of the compensation actually paid to Mr. Looney.

2. The amounts disclosed above for the continuation of health and life insurance were calculated by using the current cost for health and life insurance for each executive as of December 31, 2009 under our current health and life insurance plans. The continuation costs could be more or less than the amounts disclosed above depending on the time of the executive's actual termination of employment.
3. The acceleration of equity for each of the executives is comprised of both stock options under the 1995 Plan for Messrs. Goodrich, Turnham and Ferchau, as well as phantom shares for all of the executives pursuant to the 2006 Plan. Amounts disclosed in the table above reflect:
 - a. Mr. Goodrich: 70,000 stock options at an exercise price of \$16.46; 135,000 stock options at an exercise price of \$23.39; 69,657 restricted phantom shares

Resignation Agreement with David R. Looney

We entered into a resignation agreement with Mr. Looney on March 24, 2010 that governs both the compensation and benefits that he is entitled to received in connection with his voluntary resignation, as well as the consulting relationship we shall retain with Mr. Looney. Subject to his execution and non-revocation of a release in our favor, as well as his commitment not to reveal our confidential information, Mr. Looney received or will continue to receive certain benefits from us. We determined that Mr. Looney's phantom stock awards granted pursuant to the 2006 Plan would receive partial acceleration, and partial forfeiture (as provided for and allowed pursuant to the 2006 Plan); a total of 25,000 shares of his phantom stock awards were vested on April 1, 2010 and had a market value of \$406,500. The exercise period of the already vested by outstanding stock options that Mr. Looney held as of March 31, 2010 was maintained in order to allow him to exercise them until May 9, 2016, but no stock options received accelerated vesting. Mr. Looney was also paid a lump sum payment of \$303,188 as full payment of the bonus he would have received for the 2009 calendar year had he not resigned prior to the normal payment date for such bonuses. Mr. Looney was given the opportunity to elect continuation of coverage under our group medical plan pursuant to the Consolidated Omnibus Budget Reconciliation Act ("COBRA") for a period of 24 months (unless he becomes covered by a third party's group health plan prior to such date), and we will waive the monthly premium amount for the first 18 months. Mr. Looney will then be required to pay us his continuation coverage premium for the remaining 6 months, whereby we shall then pay him an amount equal to 150% of the premium he submitted. Utilizing a value of \$2,466 as Mr. Looney's monthly medical coverage costs at the time of his resignation, we calculate his continued medical benefits to equal \$66,582.

Mr. Looney's consulting agreement with us became effective as of April 1, 2010. The term of the agreement will last 6 months, and Mr. Looney shall make himself available to assist us in the transition to a new Chief Financial Officer (including an interim officer). For the month of April, we may request that Mr. Looney provide services for up to 40 hours per week, and thereafter, for a maximum of 8 hours in any given week through the remainder of the consulting term. In no event shall Mr. Looney provide services to us in excess of 20% of the average services he performed for us as an employee in order to ensure that Mr. Looney remains in compliance with the "separation from service" requirements of Section 409A of the Code. We will compensate Mr. Looney a total of \$173,259 for his services, payable in monthly installments over the term of the consulting period.

PROPOSAL NO. 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED ACCOUNTING FIRM

Although stockholder approval is not required for the appointment of Ernst & Young LLP, the Board and the Audit Committee have determined that it is desirable as a good corporate governance practice. Ratification requires the affirmative vote of a majority of the shares entitled to vote on, and voted for or against, the matter, represented in person or by proxy at the Annual Meeting. If our stockholders do not ratify the appointment, the Audit Committee may reconsider the appointment. However, even if the appointment is ratified, the Audit Committee, in its discretion, may select different independent auditors if it subsequently determines that such a change would be in the best interest of us and our stockholders.

A representative of Ernst & Young LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement if such representative desires to do so and will be available to respond to appropriate questions from stockholders at the Annual Meeting.

AUDIT COMMITTEE MATTERS

Audit Committee Report

The Audit Committee was established to implement and to support oversight function of the Board of Directors with respect to the financial reporting process, accounting policies, internal controls and independent registered public accounting firm of Goodrich Petroleum Corporation.

Each member of the Audit Committee is an "independent" director and "financially literate" as determined by the Board, based on the listing standards of the New York Stock Exchange. Each member of the Audit Committee also satisfies the Securities and Exchange Commission's additional independence requirements for members of audit committees. In addition, the Board has designated Mr. Perdue, the Chairman of the Audit Committee, as an "audit committee financial expert," as defined by the Securities and Exchange Commission's rules and regulations.

In fulfilling its responsibilities, the Audit Committee:

reviewed and discussed the audited financial statements with management and our independent auditors;

discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61;
