\$500,000,000

O'Reilly Automotive, Inc.
3.550% Senior Notes due 2026

This is an offering by O'Reilly Automotive, Inc. of an aggregate of \$500 million of 3.550% Senior Notes due 2026, or the notes.

The notes will be guaranteed, jointly and severally, on a senior unsecured basis by each of our subsidiaries that incurs indebtedness or guarantees our credit facility and our existing notes or any other credit facility debt or capital markets debt of us or any of our subsidiary guarantors. On the issue date, all of our subsidiaries, except for certain immaterial subsidiaries, will guarantee the notes.

The notes are a new issue of securities with no established trading market. We do not intend to list the notes on any securities exchange or arrange for the quotation of the notes in any automated dealer quotation system.

SUMMARY

This summary highlights material information contained elsewhere in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein but does not contain all of the information you need to consider in making your decision to invest in the notes. This summary is qualified in its entirety by the more detailed information and consolidated financial statements and notes thereto included in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein. You should read carefully this entire prospectus supplement and the accompanying prospectus and should consider, among other things, the matters set forth in the section entitled "Risk Factors" before deciding to invest in the notes. Except where otherwise noted, the words "company," "the Company," "we," "our," "ours" and "us" refer to O'Reilly Automotive, Inc. and all of its subsidiaries. With respect to the discussion of the terms of the notes on the cover page, in the section entitled "Summary The Offering" and in the section entitled "Description of Notes," "we," "our," "us" and "O'Reilly" refer only to O'Reilly Automotive, Inc.

The Company

We are one of the largest specialty retailers of automotive aftermarket parts, tools, supplies, equipment and accessories in the United States, selling our products to both do-it-yourself, or DIY, and professional service provider customers, our "dual market strategy." The business was founded in 1957 by Charles F. O'Reilly and his son, Charles H. "Chub" O'Reilly, Sr., and initially operated from a single store in Springfield, Missouri.

At December 31, 2015, we operated 4,571 stores in 44 states. Our stores carry an extensive product line, including

new and remanufactured automotive hard parts, such as alternators, starters, fuel pumps, water pumps, brake system components, batteries, belts, hoses, temperature control, chassis parts, driveline parts and engine parts;

maintenance items, such as oil, antifreeze, fluids, filters, wiper blades, lighting, engine additives and appearance products; and

accessories, such as floor mats, seat covers and truck accessories.

Our stores offer many enhanced services and programs to our customers, such as

used oil, oil filter and battery recycling;

battery, wiper and bulb replacement;

battery diagnostic testing;

electrical and module testing;

check engine light code extraction;

loaner tool program;

drum and rotor resurfacing;

custom hydraulic hoses;

professional paint shop mixing and related materials; and

machine shops.

Our goal is to continue to achieve growth in sales and profitability by capitalizing on our competitive advantages and executing our growth strategy. We remain confident in our ability to continue to gain market share in our existing markets and grow our business in new markets by

focusing on our dual market strategy and the core O'Reilly values, including superior customer service and expense control. Our intent is to be the dominant auto parts provider in all the markets we serve, by providing a higher level of customer service and a better value proposition than our competitors to both DIY and professional service provider customers.

We believe our effective dual market strategy, superior customer service, technically proficient store personnel, strategic distribution network and experienced management team make up our key competitive advantages, which cannot be easily duplicated.

For more than 35 years, we have established a track record of effectively serving, at a high level, both DIY and professional service provider customers. We believe our proven ability to effectively execute a dual market strategy is a unique competitive advantage. The execution of this strategy enables us to better compete by targeting a larger base of consumers of automotive aftermarket parts, capitalizing on our existing retail and distribution infrastructure, operating profitably in both large markets and less densely populated geographic areas that typically attract fewer competitors, and enhancing service levels offered to DIY customers through the offering of a broad inventory and the extensive product knowledge required by professional service providers.

In 2015, we derived approximately 58% of our sales from our DIY customers and approximately 42% of our sales from our professional service provider customers. Historically, we have increased our sales to professional service provider customers at a faster pace than the increase in our sales to DIY customers due to the more fragmented nature of the professional service provider business, which offers a greater opportunity for consolidation. We believe we will continue to have a competitive advantage on the professional service provider portion of our business due to our systems, knowledge and experience serving the professional service provider side of our business, supported by our approximately 700 full-time sales staff dedicated solely to calling upon and servicing the professional service provider customer. We will also continue to expand and enhance the level of offerings focused on the growth of our DIY business and will continue to execute our proven dual market strategy in both existing and new markets.

We seek to provide our customers with an efficient and pleasant in-store experience by maintaining attractive stores in convenient locations with a wide selection of automotive products. We believe that the satisfaction of DIY and professional service provider customers is substantially dependent upon our ability to provide, in a timely fashion, the specific automotive products needed to complete their repairs. Accordingly, each O'Reilly store carries, or has same or next day availability to carry, a broad selection of automotive products designed to cover a wide range of vehicle applications. We continuously refine the inventory levels and assortments carried in each of our stores and within our network based in large part on the sales movement tracked by our inventory control system, market vehicle registration data, failure rates and management's assessment of the changes and trends in the marketplace. We have no material backorders for the products we sell.

We seek to attract new DIY and professional service provider customers and to retain existing customers by offering superior customer service, the key elements of which are identified below:

superior in-store service through highly-motivated, technically-proficient store personnel ("Professional Parts People");

an extensive selection and availability of products;

attractive stores in convenient locations;

competitive pricing, supported by a good, better, best product assortment designed to meet all of our customers' quality and value preferences; and

Table of Contents

a robust point-of-sale system integrated with our proprietary electronic catalog, which contains a wide variety of product images, schematics and technical specifications, and equips our Team Members with highly effective tools to source products in our extensive supply network.

Our highly-motivated, technically-proficient Professional Parts People provide us with a significant competitive advantage, particularly over less specialized retail operators. We require our Professional Parts People to undergo extensive and ongoing training and to be knowledgeable, particularly with respect to hard part repairs, in order to better serve the technically-oriented professional service provider customers with whom they interact on a daily basis. Such technical proficiency also enhances the customer service we provide to our DIY customers who value the expert assistance provided by our Professional Parts People.

We believe our commitment to a robust, regional, tiered distribution network provides superior replenishment and access to hard-to-find parts and enables us to optimize product availability and inventory levels throughout our store network. Our strategic, regional, tiered distribution network includes DCs and Hub stores. Our inventory management and distribution systems electronically link each of our stores to one or more DCs, which provides for efficient inventory control and management. We currently operate 26 regional DCs, which provide our stores with same-day or overnight access to an average of 146,000 stock keeping units ("SKUs"), many of which are hard-to-find items not typically stocked by other auto parts retailers. To augment our robust DC network, we operate 297 Hub stores that also provide delivery service and same-day access to an average of 43,000 SKUs to other stores within the surrounding area. We believe this timely access to a broad range of products is a key competitive advantage in satisfying customer demand and generating repeat business.

Our company philosophy is to "promote from within" and the vast majority of our senior management, district managers and store managers have been promoted from within the company. We augment this promote from within philosophy by pursuing strategic hires with a strong emphasis on automotive aftermarket experience. We have a strong management team comprised, as of December 31, 2015, of senior management with 174 professionals who averaged 18 years of service; 236 corporate managers who averaged 16 years of service; and 444 district managers who averaged 12 years of service. Our management team has demonstrated the consistent ability to successfully execute our business plan and growth strategy by generating 23 consecutive years of record revenues and earnings and positive comparable store sales results since we became a public company in April 1993.

We intend to continue to consolidate the fragmented automotive aftermarket. During 2015, we opened 205 net, new stores and we plan to open approximately 210 net, new stores in 2016, which will increase our penetration in existing markets and allow for expansion into new, contiguous markets. The sites for these new stores have been identified, and to date, we have not experienced significant difficulties in locating suitable sites for construction of new stores or identifying suitable acquisition targets for conversion to O'Reilly stores. We typically open new stores by (i) constructing a new facility or renovating an existing one on property we purchase or lease and stocking the new store with fixtures and inventory; (ii) acquiring an independently owned auto parts store, typically by the purchase of substantially all of the inventory and other assets (other than realty) of such store; or (iii) purchasing multi-store chains. New store sites are strategically located in clusters within geographic areas that complement our distribution network in order to achieve economies of scale in management, advertising and distribution. Other key factors we consider in the site selection process include population density and growth patterns, demographic lifestyle segmentation, age and per capita income, vehicle traffic counts, number and type of existing automotive repair facilities, competing auto parts stores within a predetermined radius, and the number of competitors.

We target both small and large markets for expansion of our store network. While we have faced, and expect to continue to face, aggressive competition in the more densely populated markets, we

Table of Contents

believe we have competed effectively, and are well positioned to continue to compete effectively, in such markets and to achieve our goal of continued profitable sales growth within these markets. We also believe that with our dual market strategy, we are better able to operate stores in less densely populated areas, which would not otherwise support a national chain store selling primarily to the retail automotive aftermarket. Therefore, we continue to pursue opening new stores in less densely populated market areas as part of our growth strategy.

We are a Missouri corporation and the address of our principal executive offices is 233 South Patterson, Springfield, Missouri 65802. Our telephone number is (417) 862-6708, and our website is www.oreillyauto.com. If any of the events described below occur, our business, financial condition, results of operations, liquidity or access to the debt or capital markets could be materially adversely affected. The following risks could cause our actual results to differ materially from our historical experience and from any estimates or expectations set forth in forward-looking statements made in or incorporated by reference into this prospectus supplement or the documents incorporated herein by reference. As used herein, "notes" refers to the notes offered hereby and "existing notes" refers to our 4.875% senior notes due 2021, our 4.625% senior notes due 2021, our 3.800% senior notes due 2022 and our 3.850% senior notes due 2023.

Risks Related to the Notes

Our level of indebtedness could limit the cash flow available for our operations and could adversely affect our ability to service our debt or obtain additional financing, if necessary.

As of December 31, 2015, after giving effect to the offering, our total consolidated senior debt outstanding, including that of our subsidiary guarantors but excluding unused commitments under our credit facility, would have been approximately \$1.4 billion. Our level of indebtedness could have important consequences to our financial health. For example, our level of indebtedness could, among other things:

make it more difficult for us to satisfy our financial obligations, including those relating to the notes, our existing notes and our credit facility;

affect our liquidity by limiting our ability to obtain additional financing for working capital, or limit our ability to obtain financing for capital expenditures and acquisitions or make any available financing more costly;

require us to dedicate all or a substantial portion of our cash flow to service our debt, which would reduce funds available for other business purposes, such as capital expenditures, dividends or acquisitions, including our ability to open additional stores;

limit our flexibility in planning for or reacting to changes in the markets in which we compete;

place us at a competitive disadvantage relative to our competitors who may have less indebtedness and more available cash flow;

render us more vulnerable to general adverse economic and industry conditions; and

result in an event of default if we fail to satisfy our obligations under the notes or our other debt or fail to comply with the financial and other restrictive covenants contained in the indenture governing the notes or our other debt, which event of default could result in the notes and all of our debt becoming immediately due and payable and could permit certain of our lenders to foreclose on our assets securing such debt.

In addition, the indenture governing our existing notes and our credit facility contain financial and/or other restrictive covenants, and the indenture governing the notes will contain restrictive covenants, that will limit our ability to engage in activities that may be in our long-term best interests.

Table of Contents

Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our debt, including the notes.

Despite current indebtedness levels, we and our subsidiaries (including our subsidiary guarantors) may incur substantially more debt. This could further exacerbate the risks associated with our leverage.

The terms of the indenture governing our existing notes and our credit facility do not, and the terms of the indenture governing the notes will not, prohibit us or our subsidiaries (including our subsidiary guarantors) from incurring additional indebtedness. If new debt is added to our and our subsidiaries' current debt levels, the related risks (described in " Our level of indebtedness could limit the cash flow available for our operations and could adversely affect our ability to service our debt or obtain additional financing, if necessary") that we and they now face could intensify.

We are a holding company dependent on our subsidiaries for the ability to service our debt.

We are a holding company with no operations of our own. Consequently, the ability to service our debt is dependent upon the earnings and cash flows from the business conducted by our subsidiaries. Our subsidiaries are separate and distinct legal entities and have no obligation to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. Any distribution of earnings to us from our subsidiaries, or advances or other distributions of funds by our subsidiaries to us are contingent upon our subsidiaries' earnings and cash flows and are subject to various business considerations. Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization will be structurally subordinated to the claims of that subsidiary's creditors and any preferred equity holders. In addition, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinated to any secured debt of our subsidiaries to the extent of the assets securing that debt and to any indebtedness of our subsidiaries senior to that held by us.

The notes and guarantees will be unsecured. Therefore, any future secured creditors would have a prior claim, ahead of the notes, on our assets and the guarantors' assets to the extent such assets secure that secured debt.

The notes will be our senior unsecured indebtedness. The notes will be guaranteed jointly and severally, on a senior unsecured basis by each of our subsidiaries that guarantees our credit facility and our existing notes. On the issue date, all of our subsidiaries, except for certain immaterial subsidiaries, will guarantee the notes. As of December 31, 2015, neither we nor our subsidiaries had any secured indebtedness. Holders of our and our subsidiary guarantors' future secured indebtedness will have claims that are prior to your claims as holders of the notes to the extent of the value of the assets securing such indebtedness. In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding-up, liquidation, reorganization or other bankruptcy proceeding, holders of our future secured indebtedness will have prior claim to our assets that constitute their collateral. Holders of the notes will participate ratably with all holders of our unsecured indebtedness (including our credit facility and our existing notes) that is deemed to be of the same class as the notes. In that event, because the notes will not be secured by any of our assets, it is possible that our remaining assets might be insufficient to satisfy your claims in full. In addition, if we fail to meet our payments or other obligations under any future secured debt, the holders of that secured debt would be entitled to foreclose on our assets securing that secured debt and liquidate those assets to the exclusion of the holders of the notes, even if an event of default existed under the indenture governing the notes at such time.

We can release guarantees from time to time without the consent of holders.

Under the terms of the indenture governing the notes, holders of the notes will be deemed to have consented to the release of the guarantee of the notes provided by a subsidiary guarantor, without any action required on the part of the trustee or any holder of the notes, upon such subsidiary guarantor

Table of Contents

ceasing to guarantee or be an obligor with respect to our credit facility under the circumstances described under "Description of Notes - Subsidiary Guarantees." A subsidiary's guarantee also may be released in certain other circumstances described under "Description of Notes - Subsidiary Guarantees." In such circumstances, such subsidiary's guarantee of our existing notes also would be released. Accordingly, if the lenders under our credit facility release a subsidiary guarantor from its guarantee of, or obligations as a borrower under, our credit facility, the obligations of such subsidiary to guarantee the notes and our existing notes will immediately terminate, and if our credit facility terminated in full, the obligations of our subsidiaries to guarantee the notes and our existing notes will immediately terminate. In addition, a subsidiary guarantor will be released and relieved from all its obligations under its subsidiary guarantee in the other circumstances set out under "Description of Notes - Subsidiary Guarantees." Any such release would result in any debt or other obligations of the applicable subsidiary becoming structurally senior to the notes.

The notes will be structurally junior to the indebtedness and other liabilities of our subsidiaries that are not guarantors of the notes.

On the issue date of the notes, all of our subsidiaries, except for certain immaterial subsidiaries, will be guarantors of the notes. However, the indenture governing the notes provides for the release of existing guarantees under certain circumstances. In addition, our subsidiaries are only required to guarantee the notes if they also incur obligations under or guarantee our credit facility or certain other debt. You will not have any claim as a creditor against any of our subsidiaries that are not guarantors, and all existing and future indebtedness and other liabilities, including trade payables, whether secured or unsecured, of those subsidiaries will be structurally senior to the notes. Furthermore, in the event of any bankruptcy, liquidation or reorganization of any of our subsidiaries that are not guarantors, the rights of the holders of the notes to participate in the assets of such subsidiary will rank behind the claims of that subsidiary's creditors, including trade creditors (except to the extent we have a claim as a creditor of such subsidiary). As a result, the notes will be structurally subordinated to the outstanding debt and other liabilities, including trade payables, of any of our subsidiaries that are not guarantors. In addition, the indentures governing the notes and our existing notes will not prohibit our subsidiaries, including any of our subsidiaries that are not guarantors, from incurring additional indebtedness which could be structurally senior to the notes and will not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred or issued by our subsidiaries, including any of our subsidiaries that are not guarantors. Accordingly, there may be insufficient funds to satisfy claims of holders of the notes.

Our ability to service our debt and meet our cash requirements depends on many factors, some of which are beyond our control.

Our ability to satisfy our obligations under our debt will depend on our ability to generate sufficient cash flow to service our debt, which in turn depends on our future operating performance and financial results. Our future performance and results will be subject, in part, to factors beyond our control, including interest rates and general economic, financial and business conditions. In addition, if we consummate significant acquisitions in the future, our cash requirements may increase significantly. If we are unable to generate sufficient cash flow to service our debt, we may be required to:

refinance all or a portion of our debt, including our existing notes, our credit facility and the notes;

obtain additional financing;

sell some of our assets or operations;

reduce or delay capital expenditures and/or acquisitions; or

Table of Contents

revise or delay our strategic plans.

If we are required to take any of these actions, it could have a material adverse effect on our business, financial condition, liquidity and results of operations. In addition, we cannot assure you that we would be able to take any of these actions, that these actions would enable us to continue to satisfy our capital requirements or that these actions would be permitted under the terms of our various debt instruments, including our credit facility and the indentures governing the notes and our existing notes.

Our failure to remain in compliance with the covenants in our existing debt agreements may result in an event of default.

Our credit facility contains negative and affirmative covenants affecting us and our existing and future subsidiaries, including a number of covenants that, subject to customary exceptions, restrict our ability to, among other things:

create, incur or assume liens;

make certain loans and investments;

incur or assume certain additional debt;

make fundamental changes; and

change the nature of our business and the business conducted by our subsidiaries.

In addition, our credit facility requires us to comply with financial covenants, including (i) a minimum consolidated fixed charge coverage ratio and (ii) a maximum consolidated leverage ratio, in each case, as set forth in the documentation relating to our credit facility.

The indenture governing our existing notes contains negative covenants substantially similar to the covenants that will be contained in the indenture governing the notes. These negative covenants may affect us and our existing and future subsidiaries, including, subject to customary exceptions, restricting our ability to, among other things:

incur debt secured by liens,

enter into sale and leaseback transactions; and

merge or consolidate with another entity or sell substantially all of our assets to another person.

A failure to comply with the financial or other covenants contained in our credit facility or the covenants contained in the indentures governing the notes or our existing notes will constitute a default under such indebtedness and, subject to cure periods and notice provisions applicable to certain covenants, an event of default. An event of default, if not waived by our lenders under or holders of such indebtedness, could result in the acceleration of such indebtedness and all of our other outstanding indebtedness, including our credit facility, our existing notes and the notes, and cause our debt to become immediately due and payable. If acceleration occurs, we may not be able to repay our debt and may not be able to borrow sufficient funds to refinance our debt. Even if new financing is offered to us, it may not be on terms acceptable to us.

Our credit ratings may not reflect all risks of your investment in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debt when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes and our access to the capital markets. These credit ratings may not reflect the

Edgar Filing: O REILLY AUTOMOTIVE INC - Form 424B2

potential impact of risks relating to structure or marketing of the notes. Agency ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the

issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

We may not be able to repurchase the notes upon a Change of Control Triggering Event.

Upon a Change of Control Triggering Event, as defined under the indenture governing the notes, we are required to offer to repurchase all of the notes then outstanding for cash at a price equal to 101% of the aggregate principal amount of the notes repurchased, plus accrued and unpaid interest to but not including the repurchase date. The indentures governing our existing notes contain a substantially identical provision and definition of "Change of Control Triggering Event" that, upon such a Change of Control Triggering Event, would require us to offer to repurchase all of our existing notes then outstanding for cash at a price equal to 101% of the aggregate principal amount of notes repurchased, plus accrued and unpaid interest to but not including the repurchase date. In order to obtain sufficient funds to pay the repurchase price of the outstanding notes and our existing notes, we expect that we would need to refinance the notes and our existing notes. We may not under these circumstances be able to refinance the notes and our existing notes on reasonable terms, if at all. Our failure to offer to repurchase all outstanding notes or to repurchase all validly tendered notes and existing notes would be an event of default under the indentures governing the notes and our existing notes, respectively. Such an event of default may cause the acceleration of our other indebtedness. A change of control will constitute an event of default under our credit facility and would therefore permit the lenders under our credit facility to accelerate the maturity of the borrowings thereunder. Our future indebtedness may contain similar provisions as those in the notes, our existing notes and our credit facility or could restrict our ability to repurchase the notes and our existing notes in the event of a Change of Control Triggering Event or a change of control. In the event of a Change of Control Triggering Event or a change of control, as applicable, we may not have sufficient funds to purchase all of the notes and our existing notes and to repay the amounts outstanding under our credit facility or other indebtedness. Please see the section entitled "Description of Notes Change of Control Triggering Event."

An active trading market for the notes may not develop or be maintained.

The notes are a new issue of securities with no established trading market. We do not intend to list the notes on any securities exchange or arrange for the quotation of the notes on any automated dealer quotation system. We have been informed by the underwriters that they presently intend to make a market in the notes as permitted by applicable laws and regulations after the offering is completed. However, the underwriters have no obligation to make a market in the notes and they may cease their market-making at any time without notice. In addition, the liquidity of the trading market in the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for this type of security and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. As a result, we cannot assure you that an active trading market will develop for the notes or be maintained. If an active trading market does not develop or is not maintained, the market price and liquidity of the notes may be adversely affected. In that case, you may not be able to sell your notes at a particular time or you may not be able to sell your notes at a favorable price.

Federal and state statutes allow courts, under specific circumstances, to avoid or limit the notes and guarantees, and to require holders of the notes to return payments previously made by us or the guarantors.

Our creditors and the creditors of the guarantors of the notes could challenge the issuance of the notes or our subsidiary guarantors' issuance of their guarantees, respectively, as fraudulent conveyances or on other grounds such as equitable subordination. Under the federal bankruptcy law and similar provisions of state fraudulent transfer laws, the issuance of the notes and the guarantees could be

Table of Contents

avoided (that is, cancelled or limited) as fraudulent transfers or subordinated to other creditors if a court determined that the company, at the time it issued the notes, or any guarantor, at the time it issued the guarantee (or, in some jurisdictions, when payment became due under the guarantee):

issued the notes or guarantees, as the case may be, with the intent to hinder, delay or defraud its existing or future creditors;
or

received less than reasonably equivalent value or did not receive fair consideration for the issuance of the notes or guarantees, as the case may be, and if the company or any guarantor:

was insolvent or rendered insolvent at the time it issued the notes or issued the guarantee, as applicable;

was engaged in a business or transaction for which the company's or guarantor's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay such debts generally as they mature.

If the notes or guarantees were avoided or limited under fraudulent transfer or other laws, any claim you may make against us or the applicable guarantor for amounts payable on the notes or related guarantee would be unenforceable to the extent of such avoidance or limitation or may be subordinated to the claims of other creditors. Moreover, the court could order you to return any payments previously made by us or such guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a party would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

We cannot be sure what standard a court would apply in making these determinations or, regardless of the standard, that a court would not avoid the notes or guarantees.

The indenture governing the notes provides that the issuance of the notes and the obligation of each guarantor under its guarantee are limited as necessary to prevent them from constituting a fraudulent conveyance or fraudulent transfer under applicable law. We cannot assure you that this limitation will protect the issuance of the notes or the guarantees from fraudulent conveyance or fraudulent transfer challenges or, if it does, that the remaining amount due and collectible would suffice, if necessary, to pay the notes in full when due.

DESCRIPTION OF OTHER INDEBTEDNESS

Revolving Credit Facility

We are party to a credit agreement, as amended, with Bank of America, N.A., as Administrative Agent, Swing Line Lender, L/C Issuer and a Lender, and the other lenders party thereto.

The credit agreement provides for a \$600 million senior unsecured revolving credit facility maturing in July 2018, with a \$200 million sub-limit for the issuance of letters of credit and a \$75 million sub-limit for swing line borrowings. The credit agreement also provides for an uncommitted incremental facility that permits us, subject to certain conditions, to increase the commitments by up to \$200 million. There are currently no borrowings under the credit facility.

Loans made under the credit agreement (other than swing line loans) will bear interest, at our option, at either a Base Rate (as set forth in the credit agreement) or a Eurodollar Rate (as set forth in the credit agreement) plus a margin that will vary from 0.000% to 0.250% in the case of Base Rate loans and 0.875% to 1.250% in the case of Eurodollar Rate loans, in each case based upon the better of the ratings assigned to our debt by Moody's Investors Service, Inc. and Standard & Poor's Ratings Services. Borrowings of swing line loans under the credit agreement will bear interest at a Base Rate plus the margin described above for Base Rate loans. In addition, we pay a facility fee on the aggregate amount of the commitments in an amount equal to a percentage of such commitments. That percentage varies from 0.125% to 0.250% based upon the better of the ratings assigned to our debt by Moody's Investors Service, Inc. and Standard & Poor's Ratings Services.

Our obligations under the credit agreement are guaranteed by our subsidiaries, other than foreign subsidiaries to the extent adverse tax consequences would result from such guarantee and certain immaterial subsidiaries. All of our subsidiaries, except for certain immaterial subsidiaries, are currently guarantors under the credit agreement.

The credit agreement contains negative and affirmative covenants applicable to us and our existing and future subsidiaries (subject to certain exceptions, including carve-outs and baskets), including, without limitation, negative covenants that, subject to customary exceptions, restrict our ability to create, incur or assume liens, make certain loans and investments, incur or assume certain additional debt, make fundamental changes and change the nature of our business and the business conducted by our subsidiaries. In addition, the credit agreement will require us to comply with certain financial covenants, including a minimum consolidated fixed charge coverage ratio and a maximum consolidated leverage ratio, in each case, as set forth in the credit agreement.

The credit agreement contains certain events of default (subject to customary grace periods, cure rights and materiality thresholds), including, among others, failure to pay principal, interest or fees, violation of covenants, material inaccuracy of representations and warranties, cross-defaults and cross-acceleration to material indebtedness, certain bankruptcy and insolvency events, certain material judgments, certain ERISA events, change of control and invalidity of loan documents. Upon the occurrence of an event of default, under the credit agreement, the lenders, by a majority vote, will have the ability to direct the administrative agent to (or that the administrative agent with the consent of the majority lenders may) terminate the commitments, accelerate all loans made under the credit agreement and exercise any of the lenders' other rights under the credit agreement and the related loan documents on their behalf.

3.800% Unsecured Senior Notes

On August 16, 2012, we issued \$300 million aggregate principal amount of unsecured 3.800% Senior Notes due 2022, or our 3.800% notes, in the public market. Our 3.800% notes were issued at 99.627% of their face value of \$300 million, and mature on September 1, 2022. Interest on our 3.800% notes accrues at a rate of 3.800% per annum and is payable on March 1 and September 1 of each year. On or after June 1, 2022, our 3.800% notes are redeemable in whole, at any time, or in part, from time to time, at our option upon not less than 30 or more than 60 days' notice at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest to, but not including, the redemption date. In addition, if at any time we undergo a change of control triggering event (as defined in the indenture governing our 3.800% notes), holders of our 3.800% notes may require us to repurchase all or a portion of their 3.800% notes at a price equal to 101% of the principal amount being repurchased, plus accrued and unpaid interest, if any, to, but not including, the repurchase date. The principal amount of our 3.800% notes as of March 31, 2013 was \$300 million.

Our 3.800% notes are guaranteed on a senior unsecured basis by each of our subsidiaries that guarantees our credit facility and our other existing notes.

The indenture governing our 3.800% notes contains covenants that limit our ability and the ability of our subsidiaries to, among other things: (i) create certain liens on our assets to secure certain debt; (ii) enter into certain sale and leaseback transactions; and (iii) merge or consolidate with another company or transfer all or substantially all of our property, in each case as set forth in the indenture governing our 3.800% notes. These covenants are, however, subject to a number of important limitations and exceptions. The indenture governing our 3.800% notes also contains other customary terms, including, but not limited to, events of default.

3.850% Unsecured Senior Notes

On June 20, 2013, we issued \$300 million aggregate principal amount of unsecured 3.850% Senior Notes due 2023, or our 3.850% notes, in the public market. Our 3.850% notes were issued at 99.992% of their face value of \$300 million, and mature on June 15, 2023. Interest on our 3.850% notes accrues

at a rate of 3.850% per annum and is payable on June 15 and December 15 of each year. Interest is computed on the basis of a 360-day year comprised of twelve 30-day months.

Prior to March 15, 2023, our 3.850% notes are redeemable in whole, at any time, or in part, from time to time, at our option upon not less than 30 or more than 60 days' notice at a redemption price, plus any accrued and unpaid interest to, but not including, the redemption date, equal to the greater of: (i) 100% of the principal amount thereof; and (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Treasury Yield (as defined in the indenture governing our 3.850% notes) plus 25 basis points.

On or after March 15, 2023, our 3.850% notes are redeemable in whole, at any time, or in part, from time to time, at our option upon not less than 30 or more than 60 days' notice at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest to, but not including, the redemption date. In addition, if at any time we undergo a change of control triggering event (as defined in the indenture governing our 3.850% notes), holders of our 3.850% notes may require us to repurchase all or a portion of their 3.850% notes at a price equal to 101% of the principal amount being repurchased, plus accrued and unpaid interest, if any, to, but not including, the repurchase date. The principal amount of our 3.850% notes as of December 31, 2015 was \$300 million.

Our 3.850% notes are guaranteed on a senior unsecured basis by each of our subsidiaries that guarantees our credit facility and our other existing notes.

The indenture governing our 3.850% notes contains covenants that limit our ability and the ability of our subsidiaries to, among other things: (i) create certain liens on our assets to secure certain debt; (ii) enter into certain sale and leaseback transactions; and (iii) merge or consolidate with another company or transfer all or substantially all of our property, in each case as set forth in the indenture governing our 3.850% notes. These covenants are, however, subject to a number of important limitations and exceptions. The indenture governing our 3.850% notes also contains other customary terms, including, but not limited to, events of default.

DESCRIPTION OF NOTES

The following description of the particular terms of the notes supplements and, to the extent inconsistent with, supersedes the description of the general terms and provisions of debt securities set forth under "Description of Debt Securities" in the accompanying prospectus. See "Certain Definitions" at the end of this section for the definitions of certain capitalized words used in discussing the terms of the notes.

We will issue the notes under an indenture, to be dated the date of issuance of the notes, (the "base indenture") and a separate supplemental indenture thereto with respect to the notes (together with the base indenture, the "indenture"), among us, the subsidiary guarantors named therein and UMB Bank, N.A., a national banking association, as trustee.

The terms of the notes include those expressly set forth in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act").

In this description, the words "we", "us", "our" and "O'Reilly" refer only to O'Reilly Automotive, Inc. and not to any of the subsidiaries of O'Reilly Automotive, Inc.

This "Description of Notes" section, together with the "Description of Debt Securities" section of the accompanying prospectus, together summarize some of the provisions of the indenture, the notes and the guarantees. These summaries do not, however, purport to be complete and are subject to, and qualified in their entirety by reference to, all the provisions of the indenture, including, without limitation, the definitions of certain terms in the indenture. Copies of the indenture are available upon request at the address indicated under "Where You Can Find More Information".

We will issue \$500 million aggregate principal amount of notes in this offering. As described under "Further Issuances", under the indenture we can issue additional notes at later dates. In addition, we can issue additional series of debt securities without limitation as to aggregate principal amount in the future.

General

The notes will be issued only in registered form without coupons in minimum denominations of \$2,000 and any integral multiple of \$1,000 above that amount. The notes initially will be represented by one or more global certificates registered in the name of a nominee of The Depository Trust Company, which we refer to as "DTC", as described under "Description of Debt Securities Global Debt Securities" in the accompanying prospectus.

The trustee, through its corporate trust office in Kansas City, Missouri, will act as our paying agent and security registrar in respect of the notes. The current location of such corporate trust office is 1010 Grand Blvd., Kansas City, Missouri 64106. So long as the notes are issued in the form of global certificates, payments of principal, interest and premium, if any, will be made by us through the paying agent to DTC.

The notes will be senior unsecured obligations of O'Reilly and will rank equally and ratably with all other unsecured and unsubordinated indebtedness of O'Reilly from time to time outstanding, including the Existing Notes and borrowings under the Revolving Credit Facility. The notes will not be entitled to the benefit of any sinking fund.

We do not intend to list the notes on any securities exchange or arrange for quotation of the notes in any automated dealer quotation system.

The notes will be guaranteed, jointly and severally, on a senior unsecured basis by each of our subsidiaries that incurs indebtedness or guarantees obligations under the Revolving Credit Facility or

Table of Contents

incurs or guarantees obligations under any other Credit Facility Debt or Capital Markets Debt (each as defined under "Subsidiary Guarantees") of O'Reilly or any of our subsidiary guarantors.

Principal, Maturity and Interest

We are issuing \$500 million aggregate principal amount of notes in this offering. The notes will mature on March 15, 2026. Interest on the notes will accrue at a rate of 3.550% per annum and will be payable semi-annually in arrears on March 15 and September 15 of each year beginning on September 15, 2016. We will pay interest to those persons who were holders of record on the March 1 or September 1 immediately preceding the applicable interest payment date. Interest on the notes will accrue from the date of original issuance of the notes or, if interest has already been paid on the notes, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months. If any interest payment date falls on a date that is not a business day, the payment will be made on the next business day, and no interest shall accrue on the amount of interest due on that interest payment date for the period from and after such interest payment date to the next business day.

Subsidiary Guarantees

Our obligations under the notes will be guaranteed, jointly and severally, on a senior unsecured basis by each of our subsidiaries that incurs or guarantees obligations under the Revolving Credit Facility or incurs or guarantees obligations under any other Credit Facility Debt or Capital Markets Debt of O'Reilly or any of the subsidiary guarantors. Initially all of our subsidiaries, except for certain immaterial subsidiaries, will guarantee the notes. Each subsidiary guarantee will rank equally in right of payment with all existing and future liabilities of the applicable subsidiary guarantor that are not subordinated, provided that each subsidiary guarantee will effectively rank junior to any secured indebtedness of its respective subsidiary guarantor to the extent of the value of the assets securing such indebtedness. Under the terms of the guarantees, holders of the notes will not be required to exercise their remedies against us before they proceed directly against the subsidiary guarantors.

For purposes of the guarantee provisions of the indenture, the following terms are defined as follows:

"*Capital Markets Debt*" means any debt for borrowed money that (i) is in the form of, or represented by, bonds, notes, debentures or other securities (other than promissory notes or similar evidences of debt under a credit agreement) and (ii) has an aggregate principal amount outstanding of (a) at least \$25.0 million, at any time that any Existing Notes remain outstanding, or (b) at least \$100.0 million at any time that no Existing Notes remain outstanding.

"*Credit Facility Debt*" means any debt for borrowed money that (i) is incurred pursuant to a credit agreement, including pursuant to the Revolving Credit Facility, or other agreement providing for revolving credit loans, term loans or other debt entered into between O'Reilly or any subsidiary of O'Reilly and any lender or group of lenders and (ii) has an aggregate principal amount outstanding or committed of (a) at least \$25.0 million, at any time that any Existing Notes remain outstanding, or (b) at least \$100.0 million at any time that no Existing Notes remain outstanding.

"*Existing Notes*" means the following series of notes issued by O'Reilly: 4.875% Senior Notes due 2021; 4.625% Senior Notes due 2021; 3.800% Senior Notes due 2022; and 3.850% Senior Notes due 2023.

"*Revolving Credit Facility*" means the Credit Agreement dated as of January 14, 2011, among O'Reilly, the lenders from time to time party thereto and Bank of America, N.A., as administrative agent, swing line lender and letter of credit issuer, as amended, amended and restated, extended,

Table of Contents

renewed, restated, supplemented or otherwise modified (in whole or in part, and without limitation as to amount, terms, conditions, covenants and other provisions) from time to time.

"*subsidiary guarantor*" means each subsidiary of O'Reilly that is or becomes a guarantor under the indenture.

Under the indenture, the holders of the notes will be deemed to have consented to the release of the guarantee of the notes provided by a subsidiary guarantor, without any action required on the part of the trustee or any holder of the notes, upon such subsidiary guarantor ceasing to guarantee or be an obligor with respect to the Revolving Credit Facility or a guarantor or obligor under any other Credit Facility Debt or Capital Markets Debt of O'Reilly or any of the subsidiary guarantors. Accordingly, if the lenders under the Revolving Credit Facility release a subsidiary guarantor from its guarantee of, or obligations as a borrower under, the Revolving Credit Facility, the obligations of such subsidiary to guarantee the notes (and the Existing Notes) will immediately terminate, and if the Revolving Credit Facility is terminated in full, the obligations of each of our subsidiaries to guarantee the notes (and the Existing Notes) will immediately terminate, unless such subsidiary incurs or guarantees obligations under any other Credit Facility Debt or Capital Markets Debt of O'Reilly or another subsidiary guarantor and is not released thereunder. O'Reilly will give prompt written notice to the trustee of the automatic release of any subsidiary guarantor. Even if released from its obligations under the Revolving Credit Facility, if any of our subsidiaries incurs or guarantees obligations under any other Credit Facility Debt or Capital Markets Debt of O'Reilly or any subsidiary guarantor while the notes are outstanding, then such subsidiaries will not be released from their guarantee of the notes.

In addition, a subsidiary guarantor will be released and relieved from all its obligations under its subsidiary guarantee in the following circumstances, each of which is permitted by the indenture:

upon the sale or other disposition (including by way of consolidation or merger), in one transaction or a series of related transactions, of a majority of the total voting power of the capital stock or other interests of such subsidiary guarantor (other than to O'Reilly or any affiliate); or

upon the sale or disposition of all or substantially all the property of such subsidiary guarantor (other than to any affiliate of O'Reilly other than another subsidiary guarantor);

provided, however, that, in each case, after giving effect to such transaction, such subsidiary is no longer liable for any guarantee or other obligations in respect of any Credit Facility Debt or Capital Markets Debt of O'Reilly or any of the subsidiary guarantors.

The subsidiary guarantee of a subsidiary guarantor also will be released with respect to the notes if we exercise our legal defeasance or our covenant defeasance option with respect to the notes as described under " Defeasance" or if our obligations under the indenture with respect to the notes are discharged as described under " Discharge of the Indenture." At our written instruction, the trustee will execute and deliver any documents, instructions or instruments evidencing any such release.

The notes initially will be guaranteed by all of our subsidiaries, except for certain immaterial subsidiaries. If a subsidiary becomes obligated to guarantee the notes after the initial issue date, then O'Reilly shall cause such subsidiary, within 30 days, to (A) execute and deliver to the trustee a supplemental indenture in form reasonably satisfactory to the trustee pursuant to which such subsidiary shall guarantee all of O'Reilly's obligations under the notes and the indenture with respect to the notes and (B) deliver to the trustee an opinion of counsel to the effect that (i) such supplemental indenture and guarantee of the notes has been duly executed and authorized and (ii) such supplemental indenture and guarantee of the notes constitutes a valid, binding and enforceable obligation of such subsidiary, except insofar as enforcement thereof may be limited by bankruptcy, insolvency or similar laws and except insofar as enforcement thereof is subject to general principles of equity. Any such

Table of Contents

guarantee of the notes shall be equal in ranking ("pari passu") or senior in right of payment with the guarantee or other obligation giving rise to the obligation to guarantee the notes.

The indenture governing the notes provides that the obligations of each subsidiary guarantor under its subsidiary guarantee are limited as necessary to prevent that subsidiary guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law. We cannot assure you that this limitation will protect the subsidiary guarantees from fraudulent conveyance or fraudulent transfer challenges or, if it does, that the remaining amount due and collectible under the subsidiary guarantees would suffice, if necessary, to pay the notes in full when due.

Ranking

The notes will be:

senior unsecured obligations of O'Reilly,

effectively subordinated to any of our future secured indebtedness to the extent of the value of the assets securing such indebtedness,

structurally subordinated to any indebtedness and preferred equity of any of our subsidiaries that do not guarantee the notes,

pari passu with all our existing and future senior unsecured indebtedness, including the Revolving Credit Facility and our existing notes, and

senior in right of payment to all our future subordinated indebtedness.

With respect to each subsidiary guarantor, the subsidiary guarantee will be:

a senior unsecured obligation of such subsidiary guarantor,

effectively subordinated to any future secured indebtedness of such subsidiary guarantor to the extent of the value of the assets securing such indebtedness,

structurally subordinated to any indebtedness and preferred equity of any subsidiaries of such subsidiary guarantor that do not guarantee the notes,

pari passu with such subsidiary guarantor's existing and future senior unsecured indebtedness, including guarantees of the Revolving Credit Facility and our existing notes, and

senior in right of payment to such subsidiary guarantor's future subordinated indebtedness.

As of December 31, 2015, after giving effect to this offering, our total outstanding consolidated senior debt, including of our subsidiaries but excluding unused commitments under the Revolving Credit Facility, would have been approximately \$1.9 billion, approximately \$500 million of which represents the notes and approximately \$1.4 billion of which represents the Existing Notes. As of December 31, 2015, we had no subordinated or secured debt outstanding.

As of December 31, 2015, after giving effect to this offering, our subsidiary guarantors would have had no senior debt outstanding, excluding the guarantees of the notes, the Existing Notes and unused commitments under the Revolving Credit Facility. As of December 31,

Edgar Filing: O REILLY AUTOMOTIVE INC - Form 424B2

2015, our subsidiary guarantors had no subordinated or secured debt or preferred equity outstanding.

We only have a stockholder's claim on the assets of our subsidiaries. This stockholder's claim is junior to the claims that creditors of our subsidiaries have against our subsidiaries. Holders of the notes will only be creditors of O'Reilly and of those subsidiaries that are subsidiary guarantors. In the case of any subsidiaries that are not subsidiary guarantors, all of the existing and future liabilities of these subsidiaries, including any claims of trade creditors, and any preferred equity will be effectively senior to the notes.

The ability of our subsidiaries to pay dividends and make other payments to us is also restricted by, among other things, applicable corporate and other laws and regulations as well as agreements to which our subsidiaries are or may become a party, including the Revolving Credit Facility. See "Description of Other Indebtedness."

Our subsidiaries have other liabilities, including contingent liabilities that may be significant. The indenture does not contain any limitations on the amount of additional debt that we and our subsidiaries may incur. The amount of this debt could be substantial, and this debt may be debt of our subsidiaries that are not subsidiary guarantors, in which case this debt would be effectively senior in right of payment to the notes. See "Risk Factors. Despite current indebtedness levels, we and our subsidiaries (including our subsidiary guarantors) may incur substantially more debt. This could further exacerbate the risks associated with our leverage."

Further Issuances

We may, from time to time, without notice to or the consent of the holders of the notes, increase the principal amount of notes under the indenture and issue such increased principal amount (or any portion thereof), in which case any additional notes so issued will have the same form and terms (other than the date of issuance, public offering price and, under certain circumstances, the date from which interest thereon will begin to accrue and the initial interest payment date), and will carry the same right to receive accrued and unpaid interest, as the notes previously issued, and such additional notes will form a single series with the previously issued notes, including for voting purposes; *provided*, that if any such additional notes are not fungible with the notes initially offered hereby for U.S. federal income tax purposes, such additional notes will have a separate CUSIP number.

In addition, we may, from time to time, without notice to or the consent of the holders of the notes, issue additional series of debt securities without limitation as to aggregate principal amount. Such debt securities would be a separate series from the notes, including for voting purposes.

Optional Redemption

Prior to December 15, 2025 (three months prior to the maturity date), the notes will be redeemable, in whole, at any time, or in part, from time to time, at our option, for cash, at a redemption price, plus accrued and unpaid interest to, but not including, the redemption date (subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date), equal to the greater of:

- (1) 100% of the principal amount thereof, or
- (2) the sum of the present values of the remaining scheduled payments of principal and interest thereon discounted to the redemption date on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Treasury Yield plus 30 basis points.

On or after December 15, 2025 (three months prior to the maturity date), the notes will be redeemable, in whole at any time or in part from time to time, at our option, for cash, at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest to, but not including, the redemption date (subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date).

"*Treasury Yield*" means, with respect to any redemption date for the notes, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the applicable Comparable Treasury Price for such redemption date.

Table of Contents

"*Comparable Treasury Issue*" means, with respect to the notes, the United States Treasury security selected by the Independent Investment Banker as having a maturity comparable to the remaining term of the notes, that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

"*Independent Investment Banker*" means, with respect to the notes offered hereby, either J.P. Morgan Securities LLC and a Primary Treasury Dealer (as defined herein) appointed by U.S. Bancorp Investments, Inc., as selected by us or, if both firms are unwilling or unable to select the applicable Comparable Treasury Issue, an independent investment banking institution of national standing appointed by us.

"*Comparable Treasury Price*" means, with respect to any redemption date for the notes, (i) the average of the applicable Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such applicable Reference Treasury Dealer Quotations, or (ii) if the trustee obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such Reference Treasury Dealer Quotations.

"*Reference Treasury Dealer*" means, with respect to the notes offered hereby, (i) J.P. Morgan Securities LLC and a Primary Treasury Dealer (as defined herein) appointed by U.S. Bancorp Investments, Inc. or their successor; *provided, however*, that if the foregoing shall cease to be a primary United States Government securities dealer in the United States (a "Primary Treasury Dealer"), we shall substitute therefor another Primary Treasury Dealer; and (ii) any other Primary Treasury Dealer selected by us.

"*Reference Treasury Dealer Quotations*" means, with respect to each Reference Treasury Dealer and any redemption date for the notes, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue for the notes (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by such Reference Treasury Dealer at 5:00 p.m., New York City time, on (i) the third business day preceding such redemption date or (ii) in the case of a redemption in connection with a legal defeasance, covenant defeasance or discharge with respect to the notes, on the third business day preceding the date the deposit is made with the trustee.

A notice of redemption shall be sent by us (or, at our request, by the trustee on our behalf) by first class mail to each holder of notes to be redeemed (or, in the case of global notes, electronically through the procedures of DTC) not less than 30 nor more than 60 days in advance of the redemption date (except that such notice may be greater than 60 days in the case of a redemption in connection with a legal defeasance, covenant defeasance or discharge with respect to the notes). Such notice of redemption shall specify the principal amount of notes to be redeemed, the CUSIP and ISIN numbers of the notes to be redeemed, the date fixed for redemption, the redemption price, the place or places of payment and that payment will be made upon presentation and surrender of such notes. Notice of any redemption of the notes prior to December 15, 2025 (three months prior to the maturity date), need not set forth the redemption price but only the manner of calculation thereof. We will give the trustee notice of the amount of the redemption price for any such redemption promptly after the calculation thereof, and the trustee shall have no responsibility for such calculation. Once notice of redemption is sent to holders the notes called for redemption will become due and payable on the redemption date at the redemption price, plus interest accrued to, but not including, the redemption date. On or before 10:00 a.m., New York City time, on the redemption date, we will deposit with the trustee or with one or more paying agents an amount of money sufficient to redeem on the redemption date all the notes so called for redemption at the appropriate redemption price, together with accrued interest to, but not including, the date fixed for redemption. Unless we default in payment of the redemption price, plus interest accrued to the redemption date, commencing on the redemption date interest on notes called for redemption will cease to accrue and holders of such notes will have no

Table of Contents

rights with respect to such notes except the right to receive the redemption price and any unpaid interest to, but not including, the redemption date.

If fewer than all of the notes are being redeemed, the trustee will select the notes to be redeemed pro rata, by lot or by any other method the trustee in its sole discretion deems fair and appropriate, in accordance with methods generally used at the time of selection by fiduciaries in similar circumstances. Notes of \$2,000 principal amount or less will not be redeemed in part. Upon surrender of any note redeemed in part, the holder will receive a new note equal in principal amount to the unredeemed portion of the surrendered note.

In addition, we may at any time purchase notes by tender, in the open market or by private agreement, subject to applicable law.

Change of Control Triggering Event

Upon the occurrence of a Change of Control Triggering Event, unless we have exercised our right to redeem the notes as described above under "Optional Redemption", the indenture provides that each holder of notes will have the right to require us to repurchase all or a portion of such holder's notes pursuant to the offer described below (the "Change of Control Offer"), for cash, at a repurchase price equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, on the amount repurchased to, but not including, the date of repurchase, subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date.

Within 30 days following the date upon which the Change of Control Triggering Event occurred, or at our option, prior to any Change of Control but after the public announcement of the pending Change of Control, we are required to send, by first class mail, a notice to each holder of notes (or, in the case of global notes, electronically through the procedures of DTC), with a copy to the trustee, which notice will govern the terms of the Change of Control Offer. Such notice will state, among other things, the repurchase date, which must be no earlier than 30 days nor later than 60 days from the date such notice is sent (the "Change of Control Payment Date"). The notice, if sent prior to the date of consummation of the Change of Control, will state that the Change of Control Offer is conditioned on the Change of Control being consummated on or prior to the Change of Control Payment Date. Holders of notes electing to have notes repurchased pursuant to a Change of Control Offer will be required to surrender their notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse of the note completed, to the paying agent at the address specified in the notice, or transfer their notes to the paying agent by book-entry transfer pursuant to the applicable procedures of the paying agent, prior to the close of business on the third business day prior to the Change of Control Payment Date.

We will not be required to make a Change of Control Offer if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for such an offer made by us and such third party purchases all notes properly tendered and not withdrawn under its offer.

"*Change of Control*" means the occurrence of any one of the following:

- (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the assets of O'Reilly and its subsidiaries taken as a whole to any Person (including any "person" (as that term is used in Section 13(d)(3) of the Exchange Act)) other than O'Reilly or one of its subsidiaries;
- (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any Person (including any "person" or "group" (as those terms are used in Section 13(d)(3) of the Exchange Act)) becomes the "beneficial owner" (as

Table of Contents

defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the outstanding Voting Stock of O'Reilly or any other Voting Stock into which the Voting Stock of O'Reilly is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares;

(3) O'Reilly consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, O'Reilly, in any such event pursuant to a transaction in which any of the outstanding Voting Stock of O'Reilly (or any other Voting Stock into which the Voting Stock of O'Reilly is reclassified, consolidated, exchanged or changed) is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of the Voting Stock of O'Reilly (or any other Voting Stock into which the Voting Stock of O'Reilly is reclassified, consolidated, exchanged or changed) outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Stock of the surviving Person immediately after giving effect to such transaction; or

(4) the adoption of a plan relating to the liquidation or dissolution of O'Reilly.

Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control under clause (2) above if (i) we become a direct or indirect wholly owned subsidiary of a holding company and (ii)(A) the holders having ultimate beneficial ownership of the Voting Stock of such holding company immediately following that transaction are substantially the same as the holders having beneficial ownership of our Voting Stock immediately prior to that transaction or (B) immediately following that transaction no Person (other than a holding company satisfying the requirements of this sentence) is the beneficial owner, directly or indirectly, of more than 50% of the Voting Stock of such holding company.

"*Change of Control Triggering Event*" means the occurrence of both a Change of Control and a Rating Event.

"*Investment Grade*" means a rating of Baa3 or better by Moody's (or its equivalent under any successor rating category of Moody's) and a rating of BBB or better by S&P (or its equivalent under any successor rating category of S&P) and the equivalent investment grade rating from any replacement Rating Agency or Rating Agencies appointed by us.

"*Moody's*" means Moody's Investors Service, Inc., a subsidiary of Moody's Corporation, and its successors.

"*Person*" means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, limited liability company or government or other entity.

"*Rating Agency*" means each of Moody's and S&P; *provided*, that if either Moody's or S&P ceases to provide rating services to issuers or investors, we may appoint a replacement for such Rating Agency.

"*Rating Event*" means:

(1) if the notes are rated Investment Grade by each of the Rating Agencies on the first day of the Trigger Period, the notes cease to be rated Investment Grade by each of the Rating Agencies on any date during the Trigger Period, or

(2) if the notes are not rated Investment Grade by each of the Rating Agencies on the first day of the Trigger Period, the notes are downgraded by at least one rating category (*e.g.*, from BB+ to BB or Ba1 to Ba2) from the applicable rating of the notes on the first day of the Trigger Period by each of the Rating Agencies on any date during the Trigger Period.

Table of Contents

"S&P" means Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., and its successors.

"*Trigger Period*" means the period commencing 60 days prior to the first public announcement by us of any Change of Control (or pending Change of Control) and ending 60 days following consummation of such Change of Control (which Trigger Period will be extended following consummation of a Change of Control for so long as either of the Rating Agencies has publicly announced that it is considering a possible ratings change).

"*Voting Stock*" of any specified Person as of any date means the capital stock of such Person that is at the time entitled to vote generally in the election of the board of directors of such Person.

The change of control feature of the notes may in certain circumstances make it more difficult to consummate or discourage a sale or takeover of us and, thus, the removal of incumbent management. We could, in the future, enter into certain transactions, including takeovers, recapitalizations or other similar transactions, that would not constitute a Change of Control under the notes, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings on the notes.

Certain Covenants

Limitation on Liens

The indenture provides that we will not, and will not permit any of our subsidiaries to, create, incur, issue, assume or guarantee any debt secured by a Lien (other than Permitted Liens) upon any Property, or any shares of stock or evidences of indebtedness issued by any of our subsidiaries and owned by us or by any other of our subsidiaries, owned on the date of issuance of the notes, without making effective provision to secure all of the notes, equally and ratably with any and all other debt secured thereby, so long as any of such other debt shall be so secured.

Limitation on Sale and Leaseback Transactions

The indenture provides that we will not, and will not permit any subsidiary to, enter into any arrangement with any person providing for the leasing by us or any subsidiary of any Property that has been or is to be sold or transferred by us or such subsidiary to such person, with the intention of taking back a lease of such property or assets (a "Sale and Leaseback Transaction") unless either:

within 12 months after the receipt of the proceeds of the sale or transfer, we or any subsidiary apply an amount equal to the greater of the net proceeds of the sale or transfer or the fair value (as determined in good faith by O'Reilly's board of directors) of such Property at the time of such sale or transfer to the prepayment or retirement (other than any mandatory prepayment or retirement) of Senior Funded Debt; or

we or such subsidiary would be entitled, at the effective date of the sale or transfer, to incur debt secured by a Lien on such Property in an amount at least equal to the Attributable Debt in respect of the Sale and Leaseback Transaction, without equally and ratably securing the notes pursuant to the covenant described under " Limitation on Liens."

The foregoing restriction in the paragraph above will not apply to any Sale and Leaseback Transaction (i) for a term of not more than three years including renewals; (ii) between us and a subsidiary or between subsidiaries, provided that the lessor is us or a wholly owned subsidiary; or (iii) entered into within 270 days after the later of the acquisition or completion of construction of the subject property or assets.

Certain Definitions

The following terms used in "Certain Covenants" are defined as follows. Reference is made to the indenture for the full definition of all such terms as well as any other capitalized terms used herein for which no definition is provided.

"*Attributable Debt*" in respect of a Sale and Leaseback Transaction means, at the time of determination, the present value discounted at the rate of interest implicit in the terms of the lease (as determined in good faith by us) of the obligations of the lessee under such lease for net rental payments during the remaining term of the lease (including any period for which such lease has been extended or may, at our option, be extended).

"*Consolidated Net Tangible Assets*" means the aggregate amount of our assets (less applicable reserves and other properly deductible items) and our consolidated subsidiaries' assets after deducting therefrom (a) all current liabilities (excluding the sum of any debt for money borrowed having a maturity of less than twelve months from the date of our most recent consolidated balance sheet but which by its terms is renewable or extendable beyond twelve months from such date at the option of the borrower and, without duplication, any current installments thereof payable within such twelve month period) and (b) all goodwill, trade names, patents, unamortized debt discount and expense and other like intangibles, all as set forth on our most recent consolidated balance sheet and computed in accordance with United States generally accepted accounting principles ("GAAP").

"*Funded Debt*" means debt which matures more than one year from the date of creation, or which is extendable or renewable at the sole option of the obligor so that it may become payable more than one year from such date or which is classified, in accordance with GAAP, as long-term debt on the consolidated balance sheet for the most-recently ended fiscal quarter (or if incurred subsequent to the date of such balance sheet, would have been so classified) of the person for which the determination is being made. Funded Debt does not include (1) obligations created pursuant to leases, (2) any debt or portion thereof maturing by its terms within one year from the time of any computation of the amount of outstanding Funded Debt unless such debt shall be extendable or renewable at the sole option of the obligor in such manner that it may become payable more than one year from such time, or (3) any debt for which money in the amount necessary for the payment or redemption of such debt is deposited in trust either at or before the maturity date thereof.

"*Lien*" means, with respect to any Property, shares of stock or evidences of indebtedness, any mortgage or deed of trust, pledge, hypothecation, security interest, lien, encumbrance or other security arrangement of any kind or nature on or with respect to such Property, shares of stock or evidences of indebtedness.

"*Permitted Liens*" means:

(1) Liens (other than Liens created or imposed under the Employee Retirement Income Security Act of 1974, as amended ("ERISA")), for taxes, assessments or governmental charges or levies not yet subject to penalties for non timely payment or Liens for taxes being contested in good faith by appropriate proceedings for which adequate reserves determined in accordance with GAAP have been established (and as to which the property or assets subject to any such Lien is not yet subject to foreclosure, sale or loss on account thereof);

(2) statutory Liens of landlords and Liens of mechanics, materialmen, warehousemen, carriers and suppliers and other Liens imposed by law or pursuant to customary reservations or retentions of title arising in the ordinary course of business, provided that any such Liens which are material secure only amounts not yet due and payable or, if due and payable, are unfilled and no other action has been taken to enforce the same or are being contested in good faith by appropriate proceedings for which adequate reserves determined in accordance with GAAP have been

established (and as to which the property or assets subject to any such Lien is not yet subject to foreclosure, sale or loss on account thereof);

(3) Liens (other than Liens created or imposed under ERISA) incurred or deposits made by us and our subsidiaries in the ordinary course of business in connection with workers' compensation, unemployment insurance and other types of social security, laws or regulations, or to secure the performance of tenders, statutory obligations, bids, leases, trade or government contracts, surety, indemnification, appeal, performance and return-of-money bonds, letters of credit, bankers acceptances and other similar obligations (exclusive of obligations for the payment of borrowed money), or as security for customs or import duties and related amounts;

(4) Liens in connection with attachments or judgments (including judgment or appeal bonds), provided that the judgments secured shall, within 30 days after the entry thereof, have been discharged or execution thereof stayed pending appeal, or shall have been discharged within 30 days after the expiration of any such stay;

(5) Liens securing indebtedness (including capital leases) incurred to finance the purchase price or cost of construction of property or assets (or additions, repairs, alterations or improvements thereto), provided that such Liens and the indebtedness secured thereby are incurred within twelve months of the later of acquisition or completion of construction (or addition, repair, alteration or improvement) and full operation thereof;

(6) Liens securing industrial revenue bonds, pollution control bonds or similar types of tax-exempt bonds;

(7) Liens arising from deposits with, or the giving of any form of security to, any governmental agency required as a condition to the transaction of business or exercise of any privilege, franchise or license;

(8) encumbrances, covenants, conditions, restrictions, easements, reservations and rights of way or zoning, building code or other restrictions, (including defects or irregularities in title and similar encumbrances) as to the use of real property, or Liens incidental to conduct of the business or to the ownership of our or our subsidiaries' properties not securing debt that do not in the aggregate materially impair the use of said properties in the operation of our business, including our subsidiaries, taken as a whole;

(9) leases, licenses, subleases or sublicenses granted to others not interfering in any material respect with our business, including our subsidiaries, taken as a whole;

(10) Liens on property or assets at the time such property or assets are acquired by us or any of our subsidiaries;

(22) Liens securing cash management obligations (that do not constitute indebtedness), or arising out of conditional sale, title retention, consignment or similar arrangements for sale of goods and contractual rights of set-off relating to purchase orders and other similar arrangements, in each case in the ordinary course of business;

(23) Liens on any property or assets of our foreign subsidiaries securing debt of such subsidiaries (but not debt of O'Reilly or any of our subsidiary guarantors);

(24) Liens securing debt in an aggregate principal amount at any time outstanding not exceeding \$500.0 million in respect of any arrangement under which O'Reilly or any of our subsidiary guarantors transfers, once or on a revolving basis, without recourse (except for indemnities and representations customary for securitization transactions and except for the retention of risk in an amount and form required by applicable laws and regulations or as is customary for a similar type of transaction) involving one or more "true sale" transactions, accounts receivable or interests therein and related assets customarily transferred in connection with securitization transactions (i) to a trust, partnership, corporation, limited liability company or other entity, which transfer is funded in whole or in part, directly or indirectly, by the incurrence or issuance by the transferee or successor transferee of Indebtedness or other securities that are to receive payments from, or that represent interests in, the cash flow derived from such accounts receivable or interests therein, or (ii) directly to one or more investors or other purchasers; and

(25) other Liens on our property or assets and the property or assets of our subsidiaries securing debt in an aggregate principal amount (together with the aggregate amount of all Attributable Debt in respect of Sale and Leaseback Transactions entered into in reliance on this clause) not to exceed, as of any date of incurrence of such secured debt pursuant to this clause and after giving effect to such incurrence and the application of the proceeds therefrom, the greater of (a) \$500.0 million and (b) 15% of our Consolidated Net Tangible Assets.

"Property" means any building, structure or other facility, together with the land upon which it is erected and fixtures comprising a part thereof, used primarily for selling automotive parts and accessories or the warehousing or distributing of such products, owned or leased by us or any one of our Significant Subsidiaries.

Table of Contents

"*Senior Funded Debt*" means all Funded Debt of ours or our subsidiaries (except Funded Debt, the payment of which is subordinated to the payment of the notes).

"*Significant Subsidiaries*" means any of our subsidiaries that is a "significant subsidiary" as defined in Rule 1-02 of Regulation S-X, promulgated pursuant to the Securities Act.

Events of Default

Each of the following constitutes an event of default with respect to the notes:

- (1) a default in the payment of principal of or premium, if any, on any note when due at its maturity, upon optional redemption, upon required repurchase or otherwise,
- (2) our failure to pay interest on any note within 30 days of when such amount becomes due and payable,
- (3) our failure to comply with any of our covenants or agreements in the indenture or the notes (other than a failure that is subject to the foregoing clause (1) or (2)) and our failure to cure (or obtain a waiver of) such default and such failure continues for 90 days after written notice is given to us as provided below,
- (4) a default under any debt for money borrowed by us or any subsidiary guarantor that results in acceleration of the maturity of such debt, or failure to pay any such debt within any applicable grace period after final stated maturity, in an aggregate amount greater than (a) \$25.0 million, at any time that any Existing Notes remain outstanding, or (b) \$100.0 million at any time that no Existing Notes remain outstanding, or in each case, its foreign currency equivalent, at the time without such debt having been discharged or acceleration having been rescinded or annulled (the "cross acceleration provision"),
- (5) certain events of bankruptcy, insolvency or reorganization affecting us or any subsidiary guarantor that is a Significant Subsidiary (or group of subsidiary guarantors that together constitute a Significant Subsidiary) (the "bankruptcy provisions"), and
- (6) except as permitted by the indenture, any subsidiary guarantee of a subsidiary guarantor that is a Significant Subsidiary (or group of subsidiary guarantors that together constitute a Significant Subsidiary) shall be held in any judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect, or any subsidiary guarantor that is a Significant Subsidiary (or group of subsidiary guarantors that together constitute a Significant Subsidiary), or any person acting on its behalf, shall deny or disaffirm its obligation under its subsidiary guarantee.

A default under clause (3) is not an event of default until the trustee or the holders of not less than 25% in aggregate principal amount of the notes then outstanding notify us of the default and we do not cure such default within the time specified after receipt of such notice. Such notice must specify the default, demand that it be remedied and state that such notice is a "Notice of Default".

If an event of default (other than an event of default under clause (5) above) shall have occurred and be continuing, the trustee or the holders of not less than 25% in aggregate principal amount of the notes then outstanding may declare, by notice to us in writing (and to the trustee, if given by holders of such notes) specifying the event of default, to be immediately due and payable the principal amount of all the notes then outstanding, plus accrued but unpaid interest to the date of acceleration. After any such acceleration, but before a judgment or decree based on acceleration is obtained by the trustee, the registered holders of a majority in aggregate principal amount of the notes then outstanding may, under certain circumstances, rescind and annul such acceleration and waive such event of default if all events of default, other than the nonpayment of accelerated principal, premium or interest, have been cured or waived as provided in the indenture. In case an event of default under clause (5) above shall

Table of Contents

occur, such amount with respect to all the notes shall be due and payable immediately without any declaration or other act on the part of the trustee or the holders of the notes.

Notwithstanding the preceding paragraph, in the event of a declaration of acceleration in respect of the notes because an event of default pursuant to clause (4) shall have occurred and be continuing, such declaration of acceleration shall be automatically annulled if (i) the default under the debt that is the subject of such event of default has been cured by us or any subsidiary guarantor or has been waived by the holders thereof or (ii) the holders of such debt that is the subject of such event of default have rescinded their declaration of acceleration in respect of such debt, and written notice of such cure, waiver or rescission shall have been given to the trustee by us and countersigned by the holders of such debt or a trustee, fiduciary or agent for such holders, within 20 days after such declaration of acceleration in respect of the notes and if the annulment of the acceleration of the notes would not conflict with any judgment or decree of a court of competent jurisdiction, and no other event of default exists or has occurred during such 20-day period which has not been cured or waived during such period.

If we exercise the legal defeasance option with respect to the notes, payment of the notes may not be accelerated. If we exercise the covenant defeasance option with respect to the notes, payment of the notes may not be accelerated because of an event of default specified in clause (3), clause (4), clause (5) (with respect to the subsidiary guarantors only) or clause (6).

Subject to the provisions of the indenture relating to the duties of the trustee in case an event of default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of the notes, unless such holders shall have offered to the trustee indemnity or security reasonably satisfactory to it against any loss, liability or expense. Subject to such provisions for the indemnification of the trustee, the holders of a majority in aggregate principal amount of the notes then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the notes.

No holder of notes will have any right to institute any proceeding with respect to the indenture, or for the appointment of a receiver or trustee, or for any remedy thereunder, unless:

- (1) such holder has previously given to the trustee written notice of a continuing event of default with respect to the notes,
- (2) the holders of at least 25% in aggregate principal amount of the notes then outstanding have made a written request and offered indemnity to the trustee reasonably satisfactory to it to institute such proceeding as trustee, and
- (3) the trustee shall not have received from the holders of a majority in aggregate principal amount of the notes then outstanding a written direction inconsistent with such request and shall have failed to institute such proceeding within 60 days.

However, such limitations do not apply to a suit instituted by a holder of any note for enforcement of payment of the principal of, and premium, if any, or interest on, such note on or after the respective due dates expressed in such note.

The indenture provides that if a default with respect to the notes occurs and is continuing and is known to the trustee, the trustee must send to each holder of notes notice of the default within 90 days after it occurs. The trustee may withhold the notice if and so long as a committee of its trust officers in good faith determines that withholding notice is in the interest of the holders of the notes.

The indenture requires us to furnish to the trustee, within 120 days after the end of each fiscal year, a written statement of an officer regarding compliance with the indenture. Within 30 days after the occurrence of any default or event of default, we are required to deliver to the trustee written

notice in the form of an officer's certificate a statement specifying its status and what actions we are taking or propose to take with respect thereto.

Defeasance and Discharge

The accompanying prospectus contains a description of our legal defeasance, covenant defeasance and discharge options with respect to the notes under "Description of Debt Securities Defeasance" and "Description of Debt Securities Discharge of the Indenture." If we exercise the covenant defeasance option with respect to the notes, we may terminate at any time our obligations with respect to the notes under the covenants described under " Subsidary Guarantees" and " Certain Covenants" above as well as under "Description of Debt Securities SEC Reports" and "Description of Debt Securities Merger, Consolidation or Sale of Assets" in the accompanying prospectus. In addition, if we exercise our legal defeasance, covenant defeasance and discharge options with respect to the notes, each subsidiary guarantor will be released from its obligations with respect to its subsidiary guarantee of the notes.

U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following discussion is a summary of U.S. federal income tax considerations generally applicable to the acquisition, ownership and disposition of the notes as of the date hereof to non-U.S. holders (as defined below) that acquire notes for cash at their original issue price pursuant to this offer. The summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations, judicial decisions, published positions of the Internal Revenue Service ("IRS"), and other applicable authorities, all as in effect as of the date hereof and all of which are subject to change or differing interpretations (possibly with retroactive effect). The discussion does not address all of the tax consequences that may be relevant to a particular person or to persons subject to special treatment under U.S. federal income tax laws (such as financial institutions, broker-dealers, insurance companies, regulated investment companies, real estate investment trusts, cooperatives, controlled foreign corporations, passive foreign investment companies, traders in securities who elect to apply a mark-to-market method of accounting, persons that have a functional currency other than the U.S. dollar, expatriates, tax-exempt organizations, or persons that are, or hold their notes through, partnerships or other pass-through entities), or to persons who hold the notes as part of a straddle, hedge, conversion, synthetic security, or constructive sale transaction for U.S. federal income tax purposes, all of whom may be subject to tax rules that differ from those summarized below. In addition, this discussion does not address the consequences of the alternative minimum tax, or any state, local or non-U.S. tax consequences or any tax consequences other than U.S. federal income tax consequences. This summary deals only with persons who hold the notes as capital assets within the meaning of the Code (generally, property held for investment). No IRS ruling has been or will be sought regarding any matter discussed herein. Holders are urged to consult their tax advisors as to the particular U.S. federal tax consequences to them of the acquisition, ownership and disposition of notes, as well as the effects of state, local and non-U.S. tax laws.

For purposes of this summary, a "non-U.S. holder" means any beneficial owner (other than a partnership or other pass-through entity for U.S. federal income tax purposes) that is not a "U.S. holder." A "U.S. holder" means a beneficial owner of a note (as determined for U.S. federal income tax purposes) that is, or is treated as, a citizen or individual resident of the U.S., a corporation created or organized in the U.S. or under the laws of the U.S. or any state thereof, or the District of Columbia, an estate the income of which is subject to U.S. federal income taxation regardless of its source, or a trust if (i) a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (ii) the trust has a valid election in effect to be treated as a U.S. person.

If a partnership (including any entity treated as a partnership or other pass-through entity for U.S. federal income tax purposes) is a holder of a note, the U.S. federal income tax treatment of a partner in the partnership generally will depend on the status of the partner and the activities of such partnership. Partners and partnerships should consult their tax advisors as to the particular U.S. federal income tax consequences applicable to them.

It is not expected that the notes will be issued with "original issue discount" for U.S. federal income tax purposes. If the notes are issued with more than a statutorily defined de minimis amount of original issue discount, U.S. federal income tax consequences materially different than those described below would apply to holders.

Interest. Subject to the discussion of backup withholding below, a non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on interest paid on a note, if the interest is not effectively connected with a non-U.S. holder's conduct of a U.S. trade or business (or, in the case

Edgar Filing: O REILLY AUTOMOTIVE INC - Form 424B2

Table of Contents

of certain tax treaties, is not attributable to a permanent establishment or fixed base within the U.S.), provided that the non-U.S. holder:

- (1) does not actually or constructively, directly or indirectly, own 10% or more of the total combined voting power of all classes of our voting stock;
- (2) is not a controlled foreign corporation that is related to us (directly or indirectly) through stock ownership;
- (3) certifies to its non-U.S. status on an IRS Form W-8BEN or IRS Form W-8BEN-E.

A non-U.S. holder that cannot satisfy the above requirements generally will be exempt from U.S. federal withholding tax with respect to interest paid on the notes if the holder establishes that such interest is not subject to withholding tax because it is effectively connected with the non-U.S. holder's conduct of a trade or business in the U.S. (generally, by providing an IRS Form W-8ECI). However, to the extent that such interest is effectively connected with the non-U.S. holder's conduct of a trade or business (or, in the case of certain tax treaties, is also attributable to a permanent establishment or fixed base within the U.S.), the non-U.S. holder will be subject to U.S. federal income tax on a net basis and, if it is treated as a corporation for U.S. federal income tax purposes, may be subject to a branch profits tax equal to 30% of its effectively connected earnings and profits, subject to certain adjustments, unless such holder qualifies for a lower rate under an applicable income tax treaty. In addition, under certain income tax treaties, the U.S. withholding rate on interest payments may be reduced or eliminated, provided the non-U.S. holder complies with the applicable certification requirements (generally, by providing an IRS Form W-8BEN or IRS Form W-8BEN-E). If a non-U.S. holder does not satisfy the requirements described above and does not establish that the interest is effectively connected with the non-U.S. holder's conduct of a trade or business in the U.S., the non-U.S. holder will generally be subject to U.S. withholding tax, currently imposed at 30%.

Disposition. Subject to the discussion below regarding information reporting and backup withholding, a non-U.S. holder generally will not be subject to U.S. federal income taxation with respect to gain realized on the sale, exchange or other disposition of a note, unless:

- (1) the non-U.S. holder holds the note in connection with the conduct of a U.S. trade or business (or, in the case of certain tax treaties, the gain is attributable to a permanent establishment or fixed base within the U.S.), in which case such gain will be taxed on a net income basis in the same manner as interest that is effectively connected with the non-U.S. holder's conduct of a trade or business within the U.S. as described above; or
- (2) in the case of an individual, such individual is present in the U.S. for 183 days or more during the taxable year in which such gain is realized and certain other conditions are met, in which case the non-U.S. holder will be subject to a tax, currently at a rate of 30%, on the excess, if any, of such gain plus all other U.S. source capital gains recognized by such holder during the same taxable year over the non-U.S. holder's U.S. source capital losses recognized during such taxable year.

Certain Withholding Rules. Withholding at a rate of 30% generally will be required in certain circumstances on interest payments in respect of, and, after December 31, 2018, gross proceeds from the sale or other disposition of, notes held by or through certain foreign financial institutions (including investment funds), unless such institution otherwise qualifies for an exemption or (i) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (ii) if required under an intergovernmental agreement between the U.S. and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and

Table of Contents

an applicable foreign country, or other guidance, may modify these requirements. Similarly, in certain circumstances, interest payments in respect of, and, after December 31, 2018, gross proceeds from the sale or other disposition of, notes held by an investor that is a non-financial non-U.S. entity that do not qualify under certain exemptions generally will be subject to withholding at a rate of 30%, unless such entity either (i) certifies that such entity does not have any "substantial United States owners" or (ii) provides certain information regarding the entity's "substantial United States owners," which we will in turn provide to the IRS. Accordingly, the entity through which the notes are held will affect the determination of whether withholding under the rules described in this paragraph is required. We will not pay any additional amounts to non-U.S. holders in respect of any amounts withheld. Prospective investors should consult their tax advisors regarding the possible implications of these rules on their investment in the notes.

Table of Contents**UNDERWRITING**

We have entered into an underwriting agreement with J.P. Morgan Securities LLC and U.S. Bancorp Investments, Inc., as representatives of the underwriters, pursuant to which, and subject to its terms and conditions, we have agreed to sell to the underwriters, and each of the underwriters below has severally agreed to purchase from us, the respective principal amount of notes shown opposite its name in the following table.

Underwriters	Principal Amount of Notes
J.P. Morgan Securities LLC	\$ 110,000,000
U.S. Bancorp Investments, Inc.	110,000,000
Merrill Lynch, Pierce, Fenner & Smith Incorporated	90,000,000
Wells Fargo Securities, LLC	90,000,000
BB&T Capital Markets, a division of BB&T Securities, LLC	32,500,000
Capital One Securities, Inc.	20,000,000
RBS Securities, Inc.	12,500,000
Regions Securities LLC	10,000,000
TD Securities (USA) LLC	10,000,000
The Huntington Investment Company	10,000,000
UMB Financial Services, Inc.	5,000,000
Total	\$ 500,000,000

The underwriting agreement provides that the underwriters' obligation to purchase the notes depends on the satisfaction of the conditions contained in the underwriting agreement.

The representatives of the underwriters have advised us that the underwriters intend to offer the notes initially at the public offering price shown on the cover page of this prospectus supplement and may offer the notes to certain dealers at such public offering price less a selling concession not to exceed 0.400% of the aggregate principal amount of the notes. The underwriters may allow, and dealers may re-allow, a concession on sales to other dealers not to exceed 0.250% of the aggregate principal amount of the notes. After the initial offering of the notes, the representatives may change the public offering price and the concessions to selected dealers.

It is expected that delivery of the notes will be made against payment therefor on or about March 8, 2016, which is the fifth business day following the date hereof (such settlement cycle being referred to as "T+5"). Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers of the notes who wish to trade the notes on any date prior to the third business day before delivery thereof will be required, by virtue of the fact that the notes initially will settle in T+5, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement.

Discounts, Commissions and Expenses

The following table shows the underwriting discounts we will pay to the underwriters. The underwriting fee is the difference between the initial public offering price and the amount the underwriters pay to us for the notes:

Per Note	Total
0.650% \$	3,250,000

S-38

Table of Contents

We estimate that the expenses of this offering that are payable by us, including registration, filing fees, printing fees and legal and accounting expenses, but excluding the underwriting discounts, will be approximately \$637,500. The underwriters have agreed to reimburse us for certain of our expenses in connection with this offering.

New Issue of Securities

The notes are a new issue of securities with no established trading market. We do not intend to list the notes on any national securities exchange or arrange for quotation of the notes on any automated dealer quotation system. The underwriters have advised us that they presently intend to make a market in the notes as permitted by applicable laws and regulations. The underwriters are not obligated, however, to make a market in the notes, and they may discontinue this market making at any time in their sole discretion. Accordingly, we cannot assure investors that there will be an adequate trading market for the notes or of the liquidity of that market.

Price Stabilization, Short Positions and Penalty Bids

The representatives may engage in stabilizing transactions, short sales, purchases to cover positions created by short sales, penalty bids or purchases for the purpose of pegging, fixing or maintaining the price of the notes in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the notes so long as the stabilizing bids do not exceed a specified maximum.

A syndicate short position is created by sales by the underwriters of notes in excess of the principal amount of notes the underwriters are obligated to purchase in the offering. Since the underwriters in this offering do not have an over-allotment option to purchase additional notes, their short position, if any, will be a naked short position. A naked short position can be closed out only by buying notes in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Syndicate covering transactions involve purchases of notes in the open market after the distribution has been completed in order to cover syndicate short positions.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the notes originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market. These transactions, if commenced, may be discontinued at any time.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor the underwriters make any representation that the representatives will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Clear Market

We and our subsidiary guarantors have agreed not to, directly or indirectly, issue, sell, offer to sell, grant any option for the sale of or otherwise dispose of, any debt securities that are substantially similar

to the notes and the guarantees from the date of this prospectus supplement until the closing of this offering without the prior written consent of J.P. Morgan Securities LLC and U.S. Bancorp Investments, Inc.

Indemnification

We and our subsidiary guarantors have agreed to indemnify the underwriters against liabilities relating to the offering, including liabilities under the Securities Act and to contribute to payments that the underwriters may be required to make for these liabilities.

Other Relationships

From time to time, certain of the underwriters and/or their respective affiliates have directly and indirectly engaged, and may engage in the future, in investment and/or commercial banking transactions with us for which they have received, or may receive, customary compensation and expense reimbursement. Affiliates of each of the underwriters are lenders or agents under our credit facility. To the extent that we use any of the net proceeds from this offering to repay borrowings under our credit facility or to repay any of our other indebtedness held by any of the underwriters or their affiliates, the underwriters or the affiliates of the underwriters that are lenders under our credit facility or holders of such other indebtedness will receive proceeds of this offering through the repayment of borrowings under our credit facility or such other indebtedness. If 5% or more of the net proceeds of this offering (not including underwriting discounts) is used to repay borrowings under our credit facility or such other indebtedness held by at least one of the underwriters or their affiliates, this offering will be conducted in accordance with FINRA Rule 5121.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of these underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

European Economic Area

Neither this prospectus supplement nor the accompanying prospectus is a prospectus for the purposes of the Prospectus Directive (as defined below).

In relation to each member state of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "Relevant Implementation Date") an offer of securities described in this prospectus supplement may not be made to the public in that Relevant Member State other than:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the joint book-running managers for any such offer; or

in any other circumstances fully within Article 3(2) of the Prospectus Directive,

provided that no such offer of notes shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For purposes of this provision, the expression an "offer of securities to the public" in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe to the securities, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto; including by Directive 2010/73/EU), and includes any relevant implementing measure in each relevant member state.

We or the underwriters have not authorized and do not authorize the making of any offer of securities through any financial intermediary on our behalf, other than offers made by the underwriters with a view to the final placement of the securities as contemplated in this prospectus supplement. Accordingly, no purchaser of the securities, other than the underwriters, is authorized to make any further offer of the securities on behalf of us, or the underwriters.

DESCRIPTION OF DEBT SECURITIES

References in this "Description of Debt Securities" section to "we," "us," "our" or "O'Reilly" refer only to O'Reilly Automotive, Inc. and not to any of the subsidiaries of O'Reilly Automotive, Inc.

The following is a summary of some general terms and provisions of debt securities that we may offer by this prospectus. Because it is a summary, it does not contain all of the information that may be important to you. If you want more information, you should read the form of indenture which we have filed as an exhibit to the registration statement of which this prospectus is a part. If we issue debt securities, we will file any final indenture, and any supplemental indenture or officer's certificate related to the particular series of debt securities issued, with the SEC, and you should read those documents for further information about the terms and provisions of such debt securities. See "Where You Can Find More Information." This summary is also subject to and qualified by reference to the descriptions of the particular terms of our debt securities to be described in the applicable prospectus supplement and/or any free writing prospectus. The applicable prospectus supplement and/or any free writing prospectus may add to, update or change the terms of such debt securities from those described below.

Edgar Filing: O REILLY AUTOMOTIVE INC - Form 424B2

Table of Contents

The debt securities sold under this prospectus will be direct obligations of O'Reilly Automotive, Inc., unless otherwise stated in a prospectus supplement. Any such debt securities may be guaranteed by one or more of our subsidiaries, each of which we refer to as a guarantor, to the extent stated in a prospectus supplement. Such debt securities may be secured or unsecured, and may be senior or subordinated indebtedness, in each case as stated in a prospectus supplement. Our debt securities will be issued under an indenture between us and a trustee. The indenture will be subject to and governed by the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act. The statements made in this prospectus relating to the indenture and the debt securities to be issued under the indenture are summaries of certain anticipated provisions of the indenture and are not complete.

General

We may issue debt securities that rank "senior," "senior subordinated" or "junior subordinated." The debt securities that we refer to as "senior" will be direct obligations of O'Reilly Automotive, Inc. and will rank equally and ratably in right of payment with our other indebtedness that is not subordinated, without giving effect to collateral arrangements. We may issue debt securities that may be subordinated in right of payment to the prior payment in full of our senior debt, as defined in the applicable prospectus supplement, and may rank equally and ratably with our other senior subordinated indebtedness, if any, without giving effect to collateral arrangements. We refer to these as "senior subordinated" debt securities. We may also issue debt securities that may be subordinated in right of payment to the senior subordinated debt securities. These would be "junior subordinated" debt securities.

We may issue debt securities without limit as to aggregate principal amount, in one or more series, in each case as we establish in one or more supplemental indentures or officer's certificates. We need not issue all debt securities of one series at the same time. Unless we otherwise provide, we may reopen a series, without the consent of the holders of the series, for issuances of additional debt securities of that series.

We anticipate that the indenture will provide that we may, but need not, designate more than one trustee under the indenture, each with respect to one or more series of debt securities. The trustee under the indenture may resign or be removed with respect to one or more series of debt securities, and we may appoint a successor trustee to act with respect to any such series.

The applicable prospectus supplement and/or any free writing prospectus will describe the specific terms relating to the series of debt securities we will offer, including, where applicable, the following:

the title and series designation and whether they are senior debt securities, senior subordinated debt securities or junior subordinated debt securities;

the aggregate principal amount of the debt securities offered and any limit on the aggregate principal amount of that series that may be authenticated and delivered;

the percentage of the principal amount at which we will issue the debt securities and, if other than the principal amount of the debt securities, the portion of the principal amount of the debt securities payable upon maturity of the debt securities;

the stated maturity date;

any fixed or variable interest rate or rates per annum;

whether such interest will be payable in cash or additional debt securities of the same series or will accrue and increase the aggregate principal amount outstanding of such series;

the place where principal, premium, if any, and interest will be payable and where the debt securities can be surrendered for transfer, exchange or conversion;

the date from which interest may accrue and any interest payment dates and any related record dates;

any sinking fund requirements;

any provisions for redemption or repurchase, including the redemption or repurchase price;

whether the debt securities are denominated or payable in U.S. dollars, a foreign currency or units of two or more currencies;

whether the amount of payments of principal of or premium, if any, or interest on the debt securities may be determined with reference to an index, formula or other method and the manner in which such amounts shall be determined;

the events of default and covenants of the debt securities, to the extent different from or in addition to those described in this prospectus;

whether we will issue the debt securities in certificated or book-entry form;

whether the debt securities will be in registered or bearer form and, if in registered form, the denominations, if other than a minimum denomination of \$2,000 and integral multiples of \$1,000 in excess thereof, and, if in bearer form, the denominations and terms and conditions relating thereto;

whether we will issue any of the debt securities in permanent global form and, if so, the terms and conditions, if any, upon which interests in the global debt security may be exchanged, in whole or in part, for the individual debt securities represented by the global debt security;

any addition or change to the provisions relating to the legal defeasance or covenant defeasance provisions of, or the satisfaction and discharge of, the debt securities;

whether we will pay additional amounts on the debt securities in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities instead of making this payment;

the subordination provisions, if any, relating to the debt securities;

any restriction or condition on the transferability of debt securities;

any addition or change to the provisions related to compensation and reimbursement of the trustee which applies to the debt securities;

any addition or change to the provisions related to supplemental indentures both with and without the consent of the holders;

provisions, if any, granting special rights to holders upon the occurrence of specified events;

any addition or change to the events of default which applies to any debt securities and any change in the right of the trustee or the requisite holders of such debt securities to declare the principal amount thereof due and payable pursuant to the indenture; and

any other terms of debt securities of such series (which terms will not be inconsistent with the provisions of the Trust Indenture Act, but may modify, amend, supplement or delete any of the terms of the indenture, including those described in this prospectus or any applicable prospectus supplement and/or free writing prospectus, with respect to such series).

We will describe in the applicable prospectus supplement and/or free writing prospectus any material U.S. federal income tax considerations applicable to the debt securities offered by such prospectus supplement.

Table of Contents

We may issue debt securities at less than the principal amount payable at maturity. We refer to these debt securities as "original issue discount" debt securities. If material or applicable, we will describe in the applicable prospectus supplement special U.S. federal income tax considerations applicable to original issue discount debt securities.

Except as may be described in any prospectus supplement and/or free writing prospectus, the indenture will not contain any provisions that would limit our ability to incur indebtedness or that would afford holders of the debt securities protection in the event of a highly leveraged or similar transaction involving us. You should review carefully the applicable prospectus supplement and/or free writing prospectus for information with respect to events of default and covenants applicable to the debt securities being offered.

Denominations and Interest

Unless otherwise described in the applicable prospectus supplement and/or free writing prospectus, we will issue debt securities of any series that are registered debt securities in a minimum denomination of \$2,000 and integral multiples of \$1,000 in excess thereof.

Unless otherwise specified in the applicable prospectus supplement and/or free writing prospectus, we will pay the interest, principal and any premium at the corporate trust office of the trustee or, at our option, we may make payment of interest by check mailed to the address of the person entitled to the payment as it appears in the applicable register or by wire transfer of funds to that person at an account maintained within the United States or, in the case of global debt securities, in accordance with the procedures of the depositary for such debt securities.

Certain Covenants

If debt securities are issued, the indenture, as supplemented for a particular series of debt securities, will contain certain covenants for the benefit of the holders of such series of debt securities, which will be applicable (unless waived or amended) so long as any of the debt securities of such series are outstanding, unless stated otherwise in the prospectus supplement. The specific terms of the covenants, and summaries thereof, will be set forth in the prospectus supplement relating to such series of debt securities.

SEC Reports

The indenture provides that we agree to file with the trustee, within 15 days after we are required to file the same with the SEC, copies of the annual reports and of the information, documents, and other reports, if any, that we are required to file with the SEC pursuant to Section 13 or Section 15(d) of the Exchange Act or pursuant to Section 314 of the Trust Indenture Act.

Merger, Consolidation or Sale of Assets

The indenture provides that we shall not merge, consolidate or amalgamate with or into any other person or sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all of our property in any one transaction or series of related transactions unless:

- (1) O'Reilly shall be the surviving person (the "Surviving Person") or the Surviving Person (if other than O'Reilly) formed by such merger, consolidation or amalgamation or to which such sale, transfer, assignment, lease, conveyance or disposition is made shall be a person organized and existing under the laws of the U.S., any State thereof or the District of Columbia,
- (2) the Surviving Person (if other than O'Reilly) expressly assumes, by supplemental indenture in form reasonably satisfactory to the trustee, executed and delivered to the trustee by such Surviving Person, the due and punctual payment of the principal of, and premium, if any, and

Table of Contents

interest on, all the notes, according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of the indenture to be performed by O'Reilly,

(3) immediately before and immediately after giving effect to such transaction or series of related transactions, no default or event of default shall have occurred and be continuing, and

(4) O'Reilly shall deliver, or cause to be delivered, to the trustee, an officer's certificate and an opinion of counsel, each stating that such transaction and the supplemental indenture, if any, in respect thereto comply with this covenant and that all conditions precedent in the indenture relating to such transaction have been complied with.

For the purposes of this covenant, the sale, transfer, assignment, lease, conveyance or other disposition of all the property of one or more subsidiaries of O'Reilly, which property, if held by O'Reilly instead of such subsidiaries, would constitute all or substantially all the property of O'Reilly on a consolidated basis, shall be deemed to be the transfer of all or substantially all the property of O'Reilly.

With respect to a series of guaranteed debt securities, the indenture provides that, unless the subsidiary guarantee of the applicable subsidiary guarantor is permitted by the indenture to be released in connection with such transaction, such subsidiary guarantor shall not merge, consolidate or amalgamate with or into any other person or sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all its property in any one transaction or series of related transactions unless:

(1) such subsidiary guarantor shall be the surviving person (the "Surviving Guarantor") or the Surviving Guarantor (if other than such subsidiary guarantor) formed by such merger, consolidation or amalgamation or to which such sale, transfer, assignment, lease, conveyance or disposition is made shall be a corporation, limited partnership or limited liability company organized and existing under the laws of the U.S., any State thereof or the District of Columbia,

(2) the Surviving Guarantor (if other than such subsidiary guarantor) expressly assumes, by supplemental indenture in form reasonably satisfactory to the trustee, executed and delivered to the trustee by such Surviving Guarantor, such subsidiary guarantor's guarantee of the due and punctual payment of the principal of, and premium, if any, and interest on, all the notes, according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of the indenture to be performed by such subsidiary guarantor,

(3) immediately before and immediately after giving effect to such transaction or series of related transactions, no default or event of default shall have occurred and be continuing, and

(4) O'Reilly shall deliver, or cause to be delivered, to the trustee, an officers' certificate and an opinion of counsel, each stating that such transaction and the supplemental indenture, if any, in respect thereto comply with this covenant and that all conditions precedent in the indenture relating to such transaction have been complied with.

Notwithstanding the foregoing, (i) any subsidiary may merge, consolidate or amalgamate with or into or sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all its property to O'Reilly or another subsidiary (or, with respect to a series of guaranteed securities, another subsidiary guarantor) and (ii) O'Reilly may merge with an affiliate incorporated solely for the purpose of and with the sole effect of reincorporating or reorganizing O'Reilly in another state of the United States.

Events of Default

Each of the following constitutes an event of default with respect to a particular series of debt securities:

- (1) a default in the payment of principal of or premium, if any, on any debt security of such series when due at its maturity, upon optional redemption, upon required repurchase or otherwise,
- (2) our failure to pay interest on any debt security of such series within 30 days of when such amount becomes due and payable,
- (3) our failure to comply with any of our covenants or agreements in the indenture (other than a covenant or agreement that does not apply to such series of debt securities) or any debt security of such series (other than a failure that is subject to the foregoing clause (1) or (2)) and our failure to cure (or obtain a waiver of) such default and such failure continues for 90 days after written notice is given to us as provided below,
- (4) certain events of bankruptcy, insolvency or reorganization affecting us or any subsidiary guarantor with respect to such series that is a significant subsidiary (or group of subsidiary guarantors that together constitute a significant subsidiary) (the "bankruptcy provisions"),
- (5) if such series of debt securities is guaranteed by any subsidiary guarantor that is a significant subsidiary (or group of subsidiary guarantors that together constitute a significant subsidiary), except as permitted by the indenture, any subsidiary guarantee of any such subsidiary guarantor (or group of subsidiary guarantors that together constitute a significant subsidiary) shall be held in any judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect, or any subsidiary guarantor that is a significant subsidiary (or group of subsidiary guarantors that together constitute a significant subsidiary), or any person acting on its behalf, shall deny or disaffirm its obligation under any such subsidiary guarantee, and
- (6) any other event of default described as may be specified in the applicable prospectus supplement with respect to such series.

A default under clause (3) with respect to a particular series of debt securities is not an event of default with respect to such debt securities until the trustee or the holders of not less than 25% in aggregate principal amount of the debt securities of such series then outstanding notify us of the default and we do not cure such default within the time specified after receipt of such notice. Such notice must specify the default, demand that it be remedied and state that such notice is a "Notice of Default."

If an event of default with respect to a particular series of debt securities (other than an event of default resulting from certain events involving bankruptcy, insolvency or reorganization with respect to us or any subsidiary guarantor with respect to such series) shall have occurred and be continuing, the trustee or the holders of not less than 25% in aggregate principal amount of the debt securities of such series then outstanding may declare, by notice to us in writing (and to the trustee, if given by holders of such debt securities of such series) specifying the event of default, to be immediately due and payable the principal amount of all the debt securities of such series then outstanding, plus accrued but unpaid interest to, but not including, the date of acceleration. After any such acceleration, but before a judgment or decree based on acceleration is obtained by the trustee, the registered holders of a majority in aggregate principal amount of the debt securities of such series then outstanding may, under certain circumstances, rescind and annul such acceleration and waive such event of default if all events of default with respect to such series, other than the nonpayment of accelerated principal or interest, have been cured or waived as provided in the indenture. In case an event of default with respect to a particular series of debt securities resulting from certain events of bankruptcy, insolvency or reorganization with respect to us or any subsidiary guarantor with respect to such series shall occur,

Table of Contents

the principal amount of all of the debt securities of such series then outstanding, plus accrued and unpaid interest, with respect to the debt securities of such series shall be due and payable immediately without any declaration or other act on the part of the trustee or the holders of the debt securities of such series.

Subject to the provisions of the indenture relating to the duties of the trustee in case an event of default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of the debt securities of any series, unless such holders shall have offered to the trustee indemnity or security reasonably satisfactory to it against any loss, liability or expense. Subject to such provisions for the indemnification of the trustee, the holders of a majority in aggregate principal amount of the debt securities of a particular series then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of such series.

No holder of debt securities of any series will have any right to institute any proceeding with respect to the indenture, or for the appointment of a receiver or trustee, or for any remedy thereunder, unless:

- (1) such holder has previously given to the trustee written notice of a continuing event of default with respect to the debt securities of such series,
- (2) the holders of at least 25% in aggregate principal amount of the debt securities of such series then outstanding have made a written request and offered indemnity to the trustee reasonably satisfactory to it to institute such proceeding as trustee, and
- (3) the trustee shall not have received from the holders of a majority in aggregate principal amount of the debt securities of such series then outstanding a written direction inconsistent with such request and shall have failed to institute such proceeding within 60 days.

However, such limitations do not apply to a suit instituted by a holder of any debt security for enforcement of payment of the principal of, and premium, if any, or interest on, such debt security on or after the respective due dates expressed in such debt security.

The indenture provides that if a default with respect to the debt securities of a particular series occurs and is continuing and is known to the trustee, the trustee must send, by first class mail (or, in the case of global debt securities, electronically through the procedures of the depository for such global debt securities), to each holder of debt securities of such series notice of the default within 90 days after it occurs. The trustee may withhold the notice if and so long as a committee of its trust officers in good faith determines that withholding notice is in the interest of the holders of the debt securities of such series.

The indenture requires us to furnish to the trustee, within 120 days after the end of each fiscal year, a written statement of an officer regarding compliance with the indenture. Within 30 days after the occurrence of any default or event of default, we are required to deliver to the trustee written notice in the form of an officer's certificate a statement specifying its status and what actions we are taking or propose to take with respect thereto.

Modification and Waiver

Modifications and amendments of the indenture may be made by us, the subsidiary guarantors (if any) for such series of debt securities and the trustee with the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of the series affected by such modification or amendment.

Edgar Filing: O REILLY AUTOMOTIVE INC - Form 424B2

Table of Contents

No such modification or amendment may, without the consent of the holder of each outstanding debt security affected thereby,

reduce the percentage of principal amount of debt securities the holders of which must consent to an amendment, modification, supplement or waiver,

reduce the rate of or extend the time of payment for interest on such debt security,

reduce the principal amount or extend the stated maturity of such debt security,

reduce the redemption price of such debt security or add redemption provisions to such debt security,

make such debt security payable in money other than that stated in the indenture or the debt security,

if such debt security is guaranteed by any subsidiary guarantor, other than in accordance with the provisions of the indenture, eliminate any existing subsidiary guarantee of such debt security, or

impair the right to receive, and to institute suit for the enforcement of, any payment with respect to such debt security.

Without the consent of any holder, we, the subsidiary guarantors (if any) for such series of debt securities and the trustee may amend the indenture to, among other things, provide for the assumption by a successor of our or any such subsidiary guarantor's obligations under the indenture as permitted thereunder; establish the forms or terms of debt securities of any series; provide for the issuance of additional debt securities of any series, subject to any limitations set forth in the terms of such series; add guarantees or security with respect to any series of debt securities or confirm and evidence the release, termination or discharge of any guarantee or security interest in accordance with the indenture; comply with the requirements of the SEC in connection with the qualification and maintenance of qualification under the Trust Indenture Act and comply with the rules of any applicable securities depositary; conform the text of the indenture or the debt securities or any subsidiary guarantees to any description thereof in this prospectus or any prospectus supplement and/or free writing prospectus; cure any ambiguity, omission, defect or inconsistency; add to, change or eliminate any of the provisions, so long as such addition, change or elimination does not apply to any debt security of any existing series of debt securities entitled to the benefit of such provision or modify the rights of the holder of any such debt security with respect to such provision or such addition, change or elimination only becomes effective when there is no such debt security outstanding; or make any other change that does not adversely affect the rights of any holder in any material respect.

The holders of a majority in principal amount of the outstanding debt securities of a particular series affected may waive compliance by us with certain restrictive provisions of the indenture with respect to such series. The holders of a majority in principal amount of the outstanding debt securities of a particular series may waive any past default with respect to such series under the indenture, except a default in the payment of accelerated principal, premium, if any, or interest, if any, and certain covenants and provisions of the indenture which cannot be amended without the consent of the holder of each outstanding debt security of such series.

Governing Law

Any issued debt securities and the indenture will be governed by the laws of the State of New York.

Table of Contents

Regarding the Trustee

The indenture provides that, except during the continuance of an event of default, the trustee will perform only such duties as are specifically set forth in the indenture. During the existence of an event of default, the trustee will exercise such rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The indenture and provisions of the Trust Indenture Act that are incorporated by reference therein contain limitations on the rights of the trustee, should it become one of our creditors, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claim as security or otherwise. The trustee is permitted to engage in other transactions with us or any of our affiliates; *provided, however*, that if it acquires any conflicting interest (as defined in the indenture or in the Trust Indenture Act), it must eliminate such conflict or resign.

The trustee is a lender under our credit facility and also serves as trustee under the indenture for our 4.875% senior notes due 2021, our 4.625% senior notes due 2021, our 3.800% senior notes due 2022 and our 3.850% senior notes due 2023.

Each trustee may resign or be removed with respect to one or more series of debt securities provided that a successor trustee is appointed to act with respect to such series. In the event that two or more persons are acting as trustee with respect to different series of debt securities under the indenture, each of the trustees will be a trustee of a trust separate and apart from the trust administered by any other trustee.

Defeasance

We may terminate at any time all our obligations with respect to the debt securities of a particular series, any subsidiary guarantees thereof and the indenture as it applies to such series, which we refer to as "legal defeasance," except for certain obligations, including those respecting the defeasance trust and obligations to register the transfer or exchange of the debt securities of such series, to replace mutilated, destroyed, lost or stolen debt securities of such series and to maintain a registrar and paying agent in respect of the debt securities of such series. We may also terminate at any time our obligations with respect to the restrictive covenants applicable to the debt securities of a particular series and any subsidiary guarantees of such series, which we refer to as "covenant defeasance." We may exercise the legal defeasance option notwithstanding our prior exercise of the covenant defeasance option.

If we exercise our legal defeasance option with respect to the debt securities of a particular series, payment of the debt securities of such series may not be accelerated because of an event of default with respect thereto. If we exercise the covenant defeasance option with respect to the debt securities of a particular series, payment of the debt securities of such series may not be accelerated because of an event of default specified in clause (3) (with respect to the restrictive covenants applicable to the debt securities of such series and any subsidiary guarantees of such series), clause (4) (with respect to any subsidiary guarantors only), clause (5) or clause (6) (as it may be specified in the terms of the debt securities of such series). If we exercise our legal defeasance option or our covenant defeasance option with respect to the debt securities of a particular series, any subsidiary guarantor of the debt securities of such series will be released from its obligations with respect to its subsidiary guarantee of the debt securities of such series.

The legal defeasance option or the covenant defeasance option with respect to the debt securities of a particular series may be exercised only if:

- (1) we irrevocably deposit in trust with the trustee money or U.S. Government obligations or a combination thereof for the payment of principal of and interest on the debt securities of such series to maturity,

Table of Contents

(2) we deliver to the trustee a certificate, report or opinion of a nationally recognized investment bank, appraisal firm or firm of independent public accountants in the United States that the payments of principal and interest when due on the deposited U.S. Government obligations plus any deposited money without investment will provide cash at such times and in such amounts as will be sufficient to pay principal and interest when due on all the debt securities of such series to maturity,

(3) no default or event of default with respect to the debt securities of such series has occurred and is continuing on the date of such deposit (other than, if applicable, a default or event of default with respect to the debt securities of such series resulting from the borrowing of funds to be applied to such deposits),

(4) such deposit does not constitute a default under any other agreement or instrument binding us,

(5) in the case of the legal defeasance option, we deliver to the trustee an opinion of counsel stating that:

(a) we have received from, or there has been provided by, the IRS a ruling, or

(b) since the date of the indenture there has been a change in the applicable U.S. federal income tax law,

to the effect, in either case, that, and based thereon such opinion of counsel shall confirm that, the holders of the debt securities of such series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such legal defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such legal defeasance had not occurred,

(6) in the case of the covenant defeasance option, we deliver to the trustee an opinion of counsel to the effect that the holders of the debt securities of such series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred, and

(7) we deliver to the trustee an officer's certificate and an opinion of counsel, each stating that all conditions precedent to the legal defeasance or covenant defeasance, as applicable, relating to the debt securities of such series have been complied with as required by the indenture.

Discharge of the Indenture

When (i) we deliver to the trustee all outstanding debt securities of a particular series (other than debt securities replaced because of mutilation, loss, destruction or wrongful taking) for cancellation or (ii) all outstanding debt securities of a particular series have become due and payable, whether at maturity or as a result of the sending of a notice of redemption as described above (or are by their terms to become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the trustee for the giving of notice of redemption), and we irrevocably deposit with the trustee funds sufficient to pay at maturity or upon redemption all outstanding debt securities of such series, including principal of, premium if any, and interest thereon, and if in either case we pay all other sums related to the debt securities of such series payable under the indenture by us, then the indenture shall, subject to certain surviving provisions, cease to be of further effect with respect to the debt securities of such series. The trustee shall acknowledge satisfaction and discharge of the indenture with respect to the debt securities of such series on our demand accompanied by an officer's certificate and an opinion of counsel.

Table of Contents

Subordination

We will describe in the applicable prospectus supplement and/or free writing prospectus the terms and conditions, if any, upon which any series of senior subordinated debt securities or junior subordinated debt securities is subordinated to debt securities of another series or to our other indebtedness. The terms will include a description of:

the "senior indebtedness" with respect to the debt securities being offered;

the restrictions, if any, on payments to the holders of the debt securities being offered while a default with respect to the senior indebtedness is continuing;

the restrictions, if any, on payments to the holders of the debt securities being offered following an event of default with respect to such debt securities; and

provisions requiring holders of the debt securities being offered to remit payments to holders of senior indebtedness.

Guarantees

The debt securities of any series that we issue and our obligations under the indenture may be guaranteed by one or more of our subsidiaries. However, the indenture will not require that any of the subsidiaries be a guarantor of any series of debt securities. As a result, the guarantors of any series of our guaranteed debt securities may differ from the guarantors of any other series of our guaranteed debt securities. In the event we issue a series of guaranteed debt securities, the specific guarantors of the debt securities of that series will be identified in the applicable prospectus supplement.

If we issue a series of guaranteed debt securities, a description of some of the terms of the guarantees of those debt securities will be set forth in the applicable prospectus supplement, including any limitations that may be applicable to the guarantee due to other debt arrangements or otherwise.

The indenture will provide that, in the case of a series of guaranteed debt securities, the obligations of each subsidiary guarantor with respect to such series under its subsidiary guarantee will be limited as necessary to prevent that subsidiary guarantee from constituting a fraudulent transfer under applicable law. We cannot assure you that this limitation will protect any subsidiary guarantees from fraudulent conveyance or fraudulent transfer challenges, or, if it does, that the remaining amount due and collectible under any such subsidiary guarantees would suffice, if necessary, to pay the debt securities of such series in full when due.

The applicable prospectus supplement relating to any series of guaranteed debt securities will specify other terms of the applicable guarantees, which may include provisions that allow a guarantor to be released from its obligations under its guarantee under specified circumstances or that provide for one or more guarantees to be secured by specified collateral.

Global Debt Securities

We may issue the debt securities of a series in whole or in part in the form of one or more registered global debt securities that we will deposit with a depositary or with a nominee for a depositary identified in the applicable prospectus supplement and registered in the name of such depositary or nominee. In such case, we will issue one or more registered global debt securities denominated in an amount equal to the aggregate principal amount of all of the debt securities of the series to be issued and represented by such registered global debt security or securities.

Unless and until it is exchanged in whole or in part for debt securities in definitive registered form, a registered global debt security may not be transferred except as a whole:

by the depositary for such registered global debt security to its nominee;

Table of Contents

by a nominee of the depositary to the depositary or another nominee of the depositary; or

by the depositary or its nominee to a successor of the depositary or a nominee of the successor.

The prospectus supplement relating to a series of debt securities will describe the specific terms of the depositary arrangement with respect to any portion of such series represented by a registered global debt security. We currently anticipate that the following provisions will apply to all depositary arrangements for debt securities:

ownership of beneficial interests in a registered global debt security will be limited to persons that have accounts with the depositary for the registered global debt security, those persons being referred to as "participants," or persons that may hold interests through participants;

upon the issuance of a registered global debt security, the depositary for the registered global debt security will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal amounts of the debt securities represented by the registered global debt security beneficially owned by the participants;

any underwriters, dealers or agents participating in the distribution of the debt securities will designate the accounts to be credited; and

ownership of any beneficial interest in the registered global debt security will be shown on, and the transfer of any ownership interest will be effected only through, records maintained by the depositary for the registered global debt security (with respect to interests of participants) and on the records of participants (with respect to interests of persons holding through participants).

The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of the securities in definitive form. These laws may limit the ability of those persons to own, transfer or pledge beneficial interests in registered global debt securities.

So long as the depositary for a registered global debt security, or its nominee, is the registered owner of the registered global debt security, the depositary or the nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the registered global debt security for all purposes under the indenture. Except as set forth below, owners of beneficial interests in a registered global debt security:

will not be entitled to have the debt securities represented by a registered global debt security registered in their names;

will not receive or be entitled to receive physical delivery of the debt securities in the definitive form; and

will not be considered the owners or holders of the debt securities under the indenture.

Accordingly, each person owning a beneficial interest in a registered global debt security must rely on the procedures of the depositary for the registered global debt security and, if the person is not a participant, on the procedures of a participant through which the person owns its interest, to exercise any rights of a holder under the indenture.

We understand that under currently existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global debt security desires to give or take any action that a holder is entitled to give or take under the indenture, the depositary for the registered global debt security would authorize the participants holding the relevant beneficial interests to give or take the action, and those participants would authorize beneficial owners owning through those participants to give or take the action or would otherwise act upon the instructions of beneficial owners holding through them.

Table of Contents

We will make payments of principal of and premium, if any, and interest, if any, on debt securities represented by a registered global debt security registered in the name of a depositary or its nominee to the depositary or its nominee, as the case may be, as the registered owners of the registered global debt security. Neither we nor the trustee or any other agent of us or the trustee will be responsible or liable for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the registered global debt security or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests.

We expect that the depositary for any debt securities represented by a registered global debt security, upon receipt of any payments of principal and premium, if any, and interest, if any, in respect of the registered global debt security, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the registered global debt security as shown on the records of the depositary. We also expect that standing customer instructions and customary practices will govern payments by participants to owners of beneficial interests in the registered global debt security held through the participants, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name." We also expect that any of these payments will be the responsibility of the participants.

No registered global debt security may be exchanged in whole or in part for debt securities registered, and no transfer of a registered global debt security in whole or in part may be registered, in the name of any person other than the depositary for such registered global debt security, unless (i) such depositary notifies us that it is unwilling or unable to continue as depositary for such registered global debt security or has ceased to be a clearing agency registered under the Exchange Act, and we fail to appoint an eligible successor depositary within 90 days, (ii) an event of default shall have occurred and be continuing with respect to debt securities of such series, (iii) we determine (subject to the depositary's procedures) not to have the debt securities of such series represented by a global debt security, or (iv) circumstances, if any, exist in addition to or in lieu of the foregoing as have been specified for that purpose in an applicable prospectus supplement. In any such case, the affected registered global debt security may be exchanged in whole or in part for debt securities in definitive form and the applicable trustee will register any such debt securities in such name or names as such depositary directs.

We currently anticipate that certain registered global debt securities will be deposited with, or on behalf of, The Depository Trust Company, or DTC, and will be registered in the name of Cede & Co., as the nominee of DTC. DTC has advised us that DTC is a limited purpose trust company organized under the Banking Law of the State of New York, a "banking organization" within the meaning of the Banking Law of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants, or direct participants, deposit with DTC. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants' accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The information in this paragraph concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof. In the event registered global debt securities are deposited with, or on behalf of, a depositary other than DTC, we will describe additional or differing terms of the depositary arrangements in the applicable prospectus supplement relating to that particular series of debt securities.

We may also issue bearer debt securities of a series in the form of one or more global debt securities, referred to as "bearer global debt securities." We currently anticipate that we will deposit these bearer global debt securities with a common depositary for Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme, or with a nominee for the depositary identified in the prospectus supplement relating to that series. The prospectus supplement relating to a series of debt securities represented by a bearer global debt security will describe the specific terms and procedures, including the specific terms of the depositary arrangement and any specific procedures for the issuance of debt securities in definitive form in exchange for a bearer global debt security, with respect to the portion of the series represented by a bearer global debt security.

Neither we nor the trustee assumes any responsibility for the performance by DTC or any other depositary or its participants of their respective obligations, including obligations that they have under the rules and procedures that govern their operations.

None of O'Reilly, any subsidiary guarantor, underwriter, dealer, agent, trustee or any applicable paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of, beneficial interests in a global debt security, or for maintaining, supervising or reviewing any records.

PLAN OF DISTRIBUTION

We may sell debt securities in one or more of the following ways from time to time:

to or through underwriters or dealers;

by itself directly;

through agents; or

through a combination of any of these methods of sale.

The prospectus supplement relating to an offering of debt securities will set forth the terms of such offering, including:

the name or names of any underwriters, dealers or agents;

the purchase price of the offered debt securities and the proceeds to us from the sale;

any underwriting discounts and commissions or agency fees and other items constituting underwriters' or agents' compensation; and

any initial public offering price, any discounts or concessions allowed or reallocated or paid to dealers and any securities exchanges on which such offered debt securities may be listed.

Any initial public offering prices, discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

If underwriters are used in the sale, the underwriters will acquire the offered debt securities for their own account and may resell them from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The offered debt securities may be offered either to the public through underwriting syndicates represented by one or more managing underwriters or by one or more underwriters without a syndicate. Unless otherwise set forth in a prospectus supplement, the obligations of the underwriters to purchase any series of debt securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all of such series of debt securities if any are purchased.

In connection with underwritten offerings of the offered debt securities and in accordance with applicable law and industry practice, underwriters may over-allot or effect transactions that stabilize,

maintain or otherwise affect the market price of the offered debt securities at levels above those that might otherwise prevail in the open market, including by entering stabilizing bids, effecting syndicate covering transactions or imposing penalty bids, each of which is described below.

A stabilizing bid means the placing of any bid, or the effecting of any purchase, for the purpose of pegging, fixing or maintaining the price of a security.

A syndicate covering transaction means the placing of any bid on behalf of the underwriting syndicate or the effecting of any purchase to reduce a short position created in connection with the offering.

A penalty bid means an arrangement that permits the managing underwriter to reclaim a selling concession from a syndicate member in connection with the offering when offered debt securities originally sold by the syndicate member are purchased in syndicate covering transactions.

These transactions may be effected in the over-the-counter market, or otherwise. Underwriters are not required to engage in any of these activities, or to continue such activities if commenced.

If a dealer is used in the sale, we will sell such debt securities to the dealer, as principal. The dealer may then resell the debt securities to the public at varying prices to be determined by that dealer at the time for resale. The names of the dealers and the terms of the transaction will be set forth in the prospectus supplement relating to that transaction.

Debt securities may be sold directly by us to one or more institutional purchasers, or through agents designated by us from time to time, at a fixed price or prices, which may be changed, or at varying prices determined at the time of sale. Any agent involved in the offer or sale of debt securities in respect of which this prospectus is delivered will be named, and any commissions payable by us to such agent will be set forth, in the prospectus supplement relating to that offering. Unless otherwise indicated in such prospectus supplement, any such agent will be acting on a best efforts basis for the period of its appointment.

Underwriters, dealers and agents may be entitled under agreements entered into with us to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments that the underwriters, dealers or agents may be required to make in respect thereof. Underwriters, dealers and agents may be customers of, engage in transactions with, or perform services for us and our affiliates in the ordinary course of business.

Any debt securities issued hereunder will be a new issue of debt securities and will have no trading market prior to the date of such issuance. Unless otherwise specified in the applicable prospectus supplement, we will not list the debt securities on a national securities exchange. Any underwriters to whom we sell securities for public offering and sale may make a market in the debt securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. We cannot assure you that there will be a market for the debt securities.
