The Reporting Persons believe the Board of Directors of the Fund has failed to take meaningful actions to permanently reduce or eliminate the substantial and persistent discount to net asset value ("NAV") at which the Fund's shares have been trading.

On April 25, 2003, citing concerns over the increasing and persistent discount to NAV in excess of 17%, the Fund announced that its Board of Directors would undertake a special review of possible alternatives that would enable shareholders, within the next twelve months, to receive value that is near NAV for at least a portion of their shares of the Fund. The announcement noted that the Fund had already taken steps to address the discount from NAV at which Fund shares have traded, including a special in-kind dividend of portfolio securities and a share buy-back program. As stated in the release, further alternatives to be considered include a tender offer for a portion of the Fund's shares, a change in the Fund's structure or a strategic transaction.

The Reporting Persons believe that special in-kind dividends and small share buy-back programs historically have not been successful in addressing in a meaningful manner persistent discount to NAV problems in closed-end funds. Consequently, the Reporting Persons were, at the time of the April 2003 press release, pleased by the Board's stated intention to explore more consistent and permanent alternatives for addressing the discount issue, such as a change in the Fund's structure or a strategic transaction. At that time, the Fund made clear its commitment to serve the shareholders' best interest.

The press release of April 25, 2003 also noted that the Fund is licensed by the Minister of Finance and Economy of Korea to invest in Korean securities. Under the license, repatriation of investment principal is generally limited to 10% of net asset value (taken at current value). Approval by the Ministry is required under the license for, among other things, changes to the Fund's stated investment objective or its closed-end structure.

On January 21, 2004, nine months after the initial announcement, the Board of Directors of the Fund announced that it had approved a tender offer for up to 10% of its outstanding shares of common stock for cash, at a price per share equal to 95% of the NAV on the business day after the day on which the offer expires. The tender offer is expected to commence on January 23, 2004 and remain open through February 23, 2004, unless extended. According to the Fund, the tender offer is being conducted as a result of the Board's special review, initiated last April, of alternatives that would enable shareholders to receive value that is near NAV for at least a portion of their shares by April 2004. The Board considered a full range of strategic and structural alternatives for the

Edgar Filing: KOREA FUND INC - Form SC 13D

Fund in connection with its review, and concluded that the tender offer is in the best interests of the Fund's shareholders at this time.

The Fund also announced that the Board had approved a program of additional repurchase offers, one to occur the first quarter of 2005 and another in the first quarter of 2006. Each additional repurchase offer would be for 10% of the Fund's shares, would be at a price of 95% of NAV at the close of business on the day after the offer expires, and would be made, subject to fiduciary and other applicable requirements, if the Fund's shares traded on the New York Stock Exchange at an average weekly discount from NAV greater than 15% during a 13-week measuring period ending the preceding December 31.

The Reporting Persons were dismayed by the Fund's announcement. The strategy adopted by the Board of the Fund regarding the size of the tender offer and the discount level to trigger further tender offers raises a number of significant concerns for the Reporting Persons, as shareholders of the Fund.

1. The commitment made to shareholders by the Board in April

2003 has not been met.

The Reporting Persons believe that the January 21 announcement shows that the commitment to shareholders discussed in the Fund's April 2003 press release, pursuant to which the Board was going to analyze alternatives to address the discount problem, was not serious.

The April 25, 2003 press release quoted Nicholas Bratt, at the time the Fund's President and a Managing Director of the Fund's manager Deutsche Investment Management Americas Inc. ("Deutsche Investment"): "We believe the closed-end structure of the Fund has served shareholders well and has contributed to the Fund's remarkably strong record. It is appropriate at this time, however, in light of the evolution of the Korean capital markets and the concerns that shareholders have expressed about the discount, to consider possible additional steps, consistent with regulatory requirements, to address the discount."

According to Mr. Bratt's statements, it would seem that it was shareholder concern about the discount that was the main driver behind the Board's decision to analyze possible measures to address the discount, which presumably may have even included the possibility of conversion from closed-end to interval status.

The Board, despite its previous announcements, has clearly decided that maintaining the size of the Fund by conducting a limited tender offer serves the interest of shareholders better than providing a permanent solution to the persistent and substantial discount at which the shares of the Fund trade. The Reporting Persons, as one of the major shareholders of the Fund, believe that the Board's decision is unacceptable.

Edgar Filing: KOREA FUND INC - Form SC 13D

the Korea Europe Fund returned its license to the Korean authorities so that the fund could convert to open-end status. The Korea Asia Fund also returned its license, but decided to liquidate rather than convert to open-end status.

In spite of the precedents referred to in the preceding paragraphs, the Board concluded that maintaining the current closed-end format of the Fund was in the best interests of the Fund's shareholders because, under current market conditions, including the emerging nature of the Korean capital markets, the volatility and the limited liquidity of many of the Fund's holdings, the Fund's investment objective of long-term capital appreciation can best be achieved through a closed-end structure.

THE REPORTING PERSONS DO NOT BELIEVE THAT THE KOREAN LICENSE IS BENEFICIAL TO THE FUND'S SHAREHOLDERS AT THIS TIME AND BELIEVE THAT IT IS NOT ACCEPTABLE FOR THE BOARD TO USE THE LICENSE AS A LIMIT ON ITS ABILITY TO DEVELOP SOLUTIONS TO ADDRESS THE DISCOUNT TO NET ASSET VALUE WHEN THERE ARE NOW MANY ALTERNATIVE OPTIONS FOR INVESTING IN THE SOUTH KOREAN MARKET.

4. The 10% tender offer.

The Board assumes that the tender offer for up to 10% of the Fund's outstanding shares of common stock for cash will assist in solving the discount problem. The Reporting Persons believe that such assumption is wrong, and also believe that the results of the current tender will confirm their belief.

Even if the Board's rationale is based on the assumption that the discount problem is going to be eliminated by the two additional identical repurchase offers, one to occur the first quarter of 2005 and another in the first quarter of 2006, why did the Board not decide to make a one-time tender offer for 30% of the outstanding shares?

The Reporting Persons believe that the Board will be held accountable for the results of this tender. Presumably the Board position is that at a level of acceptance of around 10% will justify a 10% tender.

THE REPORTING PERSONS, HOWEVER, BELIEVE THAT THE NUMBER OF SHARES TENDERED WILL BE CLOSER TO 50% AND THAT THIS IS A MUCH MORE RELEVANT FIGURE IN TERMS OF SHAREHOLDER'S SUPPORT FOR THE BOARD ACTIONS.

5. The 15% discount threshold.

The Reporting Persons believe that establishing a threshold for conducting minor self-tenders at a discount to NAV of 15% is a statement by the Board that it believes that a persistent discount of just under 15% is acceptable to the shareholders. The Reporting Persons believe that such a large discount to NAV is completely unacceptable.
