Tenaris Announces 2010 First Quarter Results

The Financial and Operational Information Contained in This Press Release Is Based on Unaudited Consolidated Condensed Interim Financial Statements Prepared in Accordance With International Financial Reporting Standards (IFRS) and Presented in U.S. Dollars

LUXEMBOURG--(Marketwire - May 5, 2010) - Tenaris S.A. (NYSE: TS) (BAE: TS) (MXSE: TS) (MILAN: TEN) ("Tenaris") today announced its results for the quarter ended March 31, 2010 with comparison to its results for the quarter ended March 31, 2009.

Summary of 2010 First Quarter Results

(Comparison with fourth and first quarters of 2009)

	Q1 2010	Q4 2009		Q1 2009	
Net sales (US\$ million)	1,638.7	1,847.2	(11%)	2,434.3	(33%)
Operating income (US\$ million)	309.3	330.6	(6%)	685.6	(55%)
Net income (US\$ million)	222.2	240.8	(8%)	393.1	(43%)
Shareholders' net income (US\$ million)	219.5	222.4	(1%)	366.0	(40%)
Earnings per ADS (US\$)	0.37	0.38	(1%)	0.62	(40%)
Earnings per share (US\$)	0.19	0.19	(1%)	0.31	(40%)
EBITDA (US\$ million)	435.4	459.6	(5%)	807.4	(46%)
EBITDA margin (% of net sales)	27%	25%		33%	

Our first quarter results were affected by a significant decline in the results of our Projects operating segment, where quarterly sales were lower than at any time in the last three years. In our principal Tubes operating segment, operating income increased sequentially as lower costs resulting from operating efficiencies offset a decline in average selling prices. Sales continued to recover strongly in North America and sales in the Middle East and Africa should recover from this quarter's low in the following quarters.

Cash flow from operations remained positive and we reduced our investment in working capital by a further US\$124.2 million. Our net cash position (total financial debt less cash and other current investments) reached US\$947.4 million at March 31, 2010.

Market Background and Outlook

During the first quarter of 2010, global oil prices remained stable with an upwards tendency supporting investment activity in most regions. North American gas prices, however, have continued to fluctuate at relatively low levels and declined towards the end of the quarter reflecting prolific levels of production in shale gas fields.

Drilling activity, as measured by the count of active drilling rigs published by Baker Hughes, has increased both in international markets and in North America. The international rig count in the first quarter increased 5% over that of the fourth quarter of 2009 and the US and Canadian rig counts for the first quarter were 21% and 69% higher respectively than the corresponding rig counts for the fourth quarter of 2009.

With activity levels recovering and inventories at more reasonable levels, we expect sales in our Tubes operating segment in the coming quarters to increase in most regions, particularly in North America and the Middle East and Africa. Sales in our Projects segment, however, will continue to be affected by low shipment levels in the following two quarters but should recover in the fourth quarter.

Steelmaking raw material and steel costs have risen significantly in the year to date. Iron ore prices have risen particularly strongly. Major steelmakers have accepted quarterly pricing of iron ore in accordance with spot market prices putting an end to 40 years of annual contract pricing. This is likely to lead to increased volatility in raw material prices. Pipe prices are also increasing but so far not at the same rate as raw material increases. Nevertheless, we expect that pipe prices will continue to increase and that we will be able to maintain our operating margins throughout the year.

Annual General Meeting of Shareholders

The annual general meeting of shareholders of the Company will take place at 11:00 am on June 2, 2010 in Luxembourg. The notice and agenda for the meeting, the shareholder meeting brochure and proxy statement together with the Company's 2009 annual report can be downloaded from our website at www.tenaris.com/investors and may be obtained on request by calling (352) 26-47-89-78 (within Luxembourg), 1-800-555-2470 (within the USA) or +1-267-468-0786 (within any other jurisdiction).

Analysis of 2010 First Quarter Results

Sales volume (metric tons)	Q1 2010	Q1 2009	Increase/(Decrease)
Tubes – Seamless	467,000	579,000	(19%)
Tubes – Welded	139,000	110,000	26%
Tubes – Total	606,000	689,000	(12%)
Projects – Welded	34,000	84,000	(60%)
Total	640,000	773,000	(17%)

Tubes	Q1 2010	Q1 2009	Increase/(Decrease)
Net sales (\$ million)			
North America	676.4	1,015.8	(33%)
South America	203.0	249.3	(19%)
Europe	199.3	262.6	(24%)
Middle East & Africa	249.3	395.3	(37%)
Far East & Oceania	82.4	167.6	(51%)
Total net sales	1,410.4	2,090.6	(33%)
Cost of sales (% of sales)	59%	53%	
Operating income (\$ million)	279.1	641.3	(56%)
Operating income (% of sales)	20%	31%	

Net sales of tubular products and services decreased 33% to US\$1,410.4 million in the first quarter of 2010, compared to US\$2,090.6 million in the first quarter of 2009, reflecting a 12% reduction in sales volumes and a 23% reduction in average selling prices. In North America, sales declined in spite of higher demand for OCTG products due to lower selling prices and reduced demand for line pipe and mechanical products. Sales in South America were affected by lower demand in Venezuela and lower prices throughout the region. In Europe, although demand for mechanical tubes increased, sales were affected by lower prices and lower demand from energy related sectors. Sales in the Middle East and Africa were affected by lower shipments of OCTG and line pipe products. Sales in the Far East & Oceania were affected by lower shipments and lower prices throughout the region.

Projects	Q1 2010	Q1 2009	Increase/(Decrease)
Net sales (\$ million)	93.2	222.2	(58%)
Cost of sales (% of sales)	68%	70%	
Operating income (\$ million)	8.5	49.0	(83%)
Operating income (% of sales)	9%	22%	

Net sales of pipes for pipeline projects decreased 58% to US\$93.2 million in the first quarter of 2010, compared to US\$222.2 million in the first quarter of 2009, reflecting a lower level of shipments to gas and other pipeline projects in Brazil and Argentina. The decline in operating margin reflected the very low level of shipments during the quarter.

Others	Q1 2010	Q1 2009	Increase/(Decrease)
Net sales (\$ million)	135.1	121.5	11%
Cost of sales (% of sales)	73%	90%	
Operating income (\$ million)	21.7	(4.7)	562%
Operating income (% of sales)	16%	(4%)	

Net sales of other products and services increased 11% to US\$135.1 million in the first quarter of 2010, compared to US\$121.5 million in the first quarter of 2009. Operating margins recovered as sales increased and our electric conduit business in the USA returned to profit.

Selling, general and administrative expenses, or SG&A, increased as a percentage of net sales to 21.2% in the quarter ended March 31, 2010 compared to 15.9% in the corresponding quarter of 2009, mainly due to the effect of fixed expenses on lower revenues.

Net interest expenses decreased to US\$12.9 million in the first quarter of 2010 compared to US\$34.6 million in the same period of 2009.

Other financial results generated a gain of US\$7.7 million during the first quarter of 2010, compared to a loss of US\$36.4 million during the first quarter of 2009. These results largely reflect gains and losses on net foreign exchange transactions and the fair value of derivative instruments and are partially offset by changes to our net equity position. These gains and losses are mainly attributable to variations in the exchange rates between our subsidiaries' functional currencies (other than the US dollar) and the US dollar in accordance with IFRS.

Equity in earnings of associated companies generated a gain of US\$23.5 million in the first quarter of 2010, compared to a loss of US\$8.6 million in the first quarter of 2009. These results were derived mainly from our equity investment in Ternium (NYSE: TX).

Income tax charges totaled US\$105.4 million in the first quarter of 2010, equivalent to 35% of income from continuing operations before equity in earnings of associated companies and income tax, compared to US\$205.1 million, or 33% of income before equity in earnings of associated companies and income tax, in the first quarter of 2009. The income tax rate for our Mexican operations has increased during 2010 and this is likely to be reflected in a higher overall tax rate for the Company.

Income attributable to minority interest was US\$2.7 million in the first quarter of 2010, compared to US\$27.0 million in the corresponding quarter of 2009.

Cash Flow and Liquidity

Net cash provided by operations during the first quarter of 2010 was US\$436.3 million, compared to US\$763.4 million in the first quarter of 2009. Working capital decreased by US\$124.2 million during the quarter.

Capital expenditures amounted to US\$158.0 million for the first quarter of 2010, compared to US\$119.8 million in the first quarter of 2009. Our capital expenditures are likely to continue to increase during the year reflecting the progress of our new rolling mill in Mexico, and increased investments throughout our industrial system.

During the first quarter of 2010, our net cash position (total financial debt less cash and other current investments) increased by US\$271.6 million to reach US\$947.4 million at March 31, 2010.

Registered Major Holders

On May 5, 2010, Aberdeen Asset Management PLC's Fund Management Operating Subsidiaries informed Tenaris, pursuant to the Luxembourg Transparency Law, that as of April 30, 2010, it is deemed to be the beneficial owner of 59,077,316 ordinary shares of Tenaris, par value U.S.\$ 1.00 per share, representing 5.0% of Tenaris's issued and outstanding capital and votes.

Some of the statements contained in this press release are "forward-looking statements." Forward-looking statements are based on management's current views and assumptions and involve known and unknown risks that could cause actual results, performance or events to differ materially from those expressed or implied by those statements. These risks include but are not limited to risks arising from uncertainties as to future oil and gas prices and their impact on investment programs by oil and gas companies.
