The Compensation Committee is comprised of Messrs. Hamilton, Isaacman, Myers and Unruh. None of the committee members is or was an employee or officer of the Company during the fiscal year ended September 30, 2004. Since January 2004 Mr. Mostert, Company's Chief Executive Officer, has served as a director of Spescom Ltd. where Mr. Isaacman is an executive officer. Other than Mr. Mostert serving as a director of Spescom Ltd., no executive officer of the Company has served as a member of the Board of Directors or Compensation Committee of any company in which Messrs. Hamilton, Isaacman, Myers and Unruh is an executive officer.

Report of Compensation Committee of the Board of Directors

The following is the Report of the Compensation Committee describing the compensation policies and rationales applicable to the Company's executive officers with respect to the compensation paid to our executive officers for the fiscal year ended September 30, 2004.

The responsibilities of the Compensation Committee are to set compensation policies applicable to the Company's executive officers. The Committee's fundamental policy is to offer the Company's executive officers competitive compensation opportunities based upon the overall performance of the Company, the individual contribution of such officers to the financial success of the Company and market rates of compensation of executive officers at similarly situated technology companies. It is the Committee's objective to have a substantial portion of each officer's total compensation potential contingent upon the Company's performance, as well as upon the officer's own level of performance. Accordingly, each executive officer's compensation package is generally comprised of three elements: (i) base salary, which is established primarily on the basis of individual qualifications, performance and market considerations, (ii) annual variable performance awards payable in cash and tied to the Company's achievement of financial performance goals and the executive's contribution to the achievement of those goals, and (iii) long-term stock-based incentive awards that are intended to strengthen the mutuality of interests between the executive officers and the shareholders.

Base Salary. Individual officer salaries are determined based on individual experience, performance and breadth of responsibility within the Company. The Compensation Committee reviews these factors for each executive officer each year. In addition, the Compensation Committee considers executive officers' salaries for relative competitiveness with similarly-situated companies.

Bonuses. Individual bonuses are based on the contribution of each officer and achievement of overall financial goals of the Company.

Equity Plans. The 1996 Stock Incentive Plan is a long-term incentive plan for the company's employees, executive officers and directors. The plan is intended to align shareholder and employee interests by creating a direct link between long-term rewards and the value of the Company's common stock. The Compensation Committee believes that long-term stock ownership by executive officers and employees is an important factor in retaining valued employees and in achieving growth in share value. The options utilize vesting periods that encourage employees to continue in the employ of the Company. Because the value of an option bears a direct relationship to the Company's stock price, the Compensation Committee believes that options motivate executive officers and employees to manage the Company in a manner which will benefit all shareholders.

Stock options may be awarded to employees at any time. The exercise price per share of each stock option is generally equal to the prevailing market price of a share of the Company's common stock on the date the option is granted. The size of stock option grants is determined by a number of factors, including comparable grants to executive officers and employees of similarly situated companies, as well as the executive officer's relative position and responsibilities with the Company, the individual performance of the executive officer over the previous fiscal year, the anticipated contribution of the executive officer to the attainment of the Company's long-term strategic performance goals, and the dilutive effect of the option grant. The Committee views stock option grants as an important component of its long-term, performance-based compensation philosophy.

CEO Compensation.

Compensation for the CEO is determined through a process similar to that discussed above for the other executive officers. The compensation of Mr. Mostert, the Company's CEO, consists of base salary, target bonus and stock options. The Board of Directors periodically reviews Mr. Mostert's compensation based on the Board's overall evaluation of his performance toward the achievement of the Company's financial, strategic and other goals, with consideration given to his length of service, to competitive chief executive officer compensation information and the overall financial strength of the Company. In fiscal 2004, Mr. Mostert earned a base salary of \$212,080 for his service. The Company did not achieve its financial targets for fiscal year 2004 and no bonus was paid. Also Mr. Mostert was not awarded any stock options in fiscal 2004.
