ITEM 2.05 Costs Associated with Exit or Disposal Activities.

Between February 18, 2005 and February 23, 2005, 3Com Corporation (the "Company") notified approximately 90 employees in the United Kingdom, 30 employees in Ireland and 100 employees in the United States that their positions would be eliminated under a plan of termination. The plan, which is expected to be implemented over a period of four quarters beginning in the third quarter of fiscal 2005, includes headcount reductions and a reduction in the amount of space occupied by the Company in its Edinburgh and Dublin facilities. As part of this plan, we expect to evaluate additional areas for savings which may take the form of further actions.

These actions are the direct result of the Company's ongoing strategy to be a leading provider of secure, converged network solutions. To synchronize investment with this strategy, the Company realigned its product teams, while reducing certain research and development, and product management costs, and focusing investment on strategic initiatives, which management believes has higher long-term growth and profitability potential. The Company expects to provide further information about the reorganization in connection with the release of its fiscal Q3 2005 results.

The Company expects to incur charges related to these actions during the third quarter of fiscal 2005 through the second quarter of fiscal 2006. Management estimates the aggregate costs associated with the implementation of these actions will be approximately \$15 million. Approximately \$1 million of these charges relate to non-cash asset impairments, primarily property and equipment and other assets. The balance relates to cash expenditures for severance of terminated employees totaling approximately \$13 million and continuing lease obligations of approximately \$1 million on closed facilities, the longest of which extends through calendar year 2006.
