Annual Report

November 30, 2005

Dear Shareholder:

The Boulder Growth & Income Fund, Inc. had a total return on net asset value ("NAV") of 5.54% for the fiscal year ending November 30, 2005. Therefore, we achieved our first goal: don't lose what you already have. We fell shy of achieving another goal: beat the S&P 500 Index. The S&P 500 Index was up 8.44% for the same period, 2.90% better than the Fund. Although we'd like to beat the S&P 500 every year, we know, and we hope you know, that failing to beat the S&P 500 Index one year means very little in the long run. That's because the "long run" is precisely what we're investing for.

\* Annualized

\*\* Annualized since January 31, 2002, the date the current Advisers became investment advisers to the Fund.

The Fund's largest holding, Berkshire Hathaway, contributed positively to the Fund this year, up 6.8%. Berkshire Hathaway makes up such a significant portion of our portfolio, that its performance really has an impact on the Fund's performance. Some of the bigger contributors to the Fund's performance this year were: First American Corporation, up 42.8% and Forest Laboratories, a new holding, up 20.4% since we bought it. The pharmaceuticals in the Fund were a drag on performance with Pfizer, Merck and Bristol Myers all down during the year. We sold the Fund's position in Merck. Sara Lee was also down during the year. The real estate investment trusts ("REITs") in the Fund as a group performed OK some did well, some not as well, but as a group OK. The total amount invested in REITs was about 26% at year-end (including both foreign and domestic REITs). This is down from 32% a year ago.

We added a few new names to the portfolio. The most significant were Anheuser-Busch (Budweiser) and Wal-Mart. These two companies are well known market-leading brands and are household names in the U.S. They were trading at reasonable levels when we bought them. Combined, the two stocks currently comprise almost 12% of the Fund's assets. Another new name is Caterpillar, which makes construction machinery such as bulldozers and earth-moving machines. All three of these companies dominate their respective markets in the U.S., and Wal-Mart and Caterpillar have a strong and growing international presence.

As mentioned above, we reduced the Fund's percentage in REITs. Now REITs are about 26% of the Fund's assets. We've bought several foreign REITs including British Land Company and Great Portland Estates both in England, Deutsche Wohnen in Germany, Unibail in France, and Hang Lung Properties in Hong Kong. We bought all of these REITs in their local sovereign currency. We've been finding some opportunities in other yield producing areas namely closed-end income funds trading at wide discounts.

## Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

You'll also see that we purchased two other new foreign holdings. Lloyds TSB group is one of the larger banks in the United Kingdom. We bought the shares in the UK denominated British Pounds. The second is Midland Holdings, a Hong Kong based property broker. These shares trade on the Hong Kong exchange, and we bought them in Hong Kong Dollars. Lloyds has a dividend yield of almost 7%, and Midlands about 6%. We bought them not only for the yield, but hopefully for some long-term price appreciation. In addition, if the US dollar weakens against these currencies, as is the case with the foreign REITs mentioned above, we'll gain from that as well. Of course the opposite is true if the US dollar strengthens, we'll lose proportional to the strengthening. In all, foreign securities now make up about 11% of the Fund's total assets. And together with the UK and New Zealand government bonds that the Fund owns, total exposure to foreign currencies is about 17% of the Fund's assets. We believe that over time the US dollar will weaken against these foreign currencies.

In October, the Fund changed the way it leverages. The Fund paid down the \$20 million line of credit with CTC, a subsidiary of Bear Stearns, and simultaneously issued \$25 million par value worth of Auction Market Preferreds ("AMPs"). AMPs are a preferred stock with \$25,000 par value per share, which mostly institutional investors purchase. These shares pay interest based on a Dutch auction format and go to auction every 28 days. They are not callable, taking that risk out of the equation which we had with the line of credit. The current rate on the AMPs is 4.35%. The rate on the AMPs will obviously change every 4 weeks, but the rate will typically be less than what we were paying on the line of credit. The leverage amount increased slightly from \$20 million to \$25 million, and now represents 21.6% of the Funds total net assets.

There have been several world-wide tremors that have occurred in the past year literally! The most devastating was the tsunami in Malaysia a year ago, killing nearly 200,000 people. The next was hurricane Katrina which decimated New Orleans. Finally, the 7.6 magnitude earthquake that took place in Pakistan, killing tens of thousands of people, and leaving scores of people homeless. These natural disasters are harrowing and all have an obvious impact on life and property. Everyone's heart goes out to the victims of these natural disasters. These events provoke not only an emotional response, but economic as well. Insurance companies can see large claims, and industries that are domiciled in the affected areas could go under or at least see significant setbacks. These three events, following four years after 9/11, certainly impact the way investors view the market. The world seems to keep getting smaller and smaller. How does this affect investors? Look at what you're invested in. Will the company's wares still be around and be required long down the road, even if a catastrophe strikes? It's something we think about when we invest.

All in all, despite not beating the S&P 500 Index, the Fund did OK. We hope over time to do even better. We want to assure our shareholders that we understand our mission is to invest their money wisely, safely and fruitfully, and we strive to achieve this goal. After all, our money is in there right along side yours.

Sincerely,

Stewart R. Horejsi

**Notes to Financial Statements Boulder Growth & Income Fund, Inc.**

**1. Significant Accounting Policies**

Boulder Growth & Income Fund, Inc. (the "Fund"), is a non-diversified, closed-end management company organized as a Maryland corporation and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The policies described below are followed consistently by the Fund in the preparation of its financial statements in conformity with accounting principles generally accepted in the United States of America.

*Portfolio Valuation:* The net asset value of the Funds Common Stock is determined by the Fund's administrator no less frequently than on the last business day of each week and month. It is determined by dividing the value of the Fund's net assets by the number of shares of Common Stock outstanding. The value of the Fund's net assets is deemed to equal the value of the Fund's total assets less the Fund's liabilities. Securities listed on a national securities exchange are valued on the basis of the last sale on such exchange or the NASDAQ Official Close Price ("NOCP") on the day of valuation. In the absence of sales of listed securities and with respect to securities for which the most recent sale prices are not deemed to represent fair market value, and unlisted securities (other than money market instruments), securities are valued at the mean between the closing bid and asked prices, or based on a matrix system which utilizes information (such as credit ratings, yields and maturities) from independent sources. Investments for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including reference to valuations of other securities which are considered comparable in quality, maturity and type. Investments in money market instruments, which mature in 60 days or less at the time of purchase, are valued at amortized cost.

*Securities Transactions and Investment Income:* Securities transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on ex-dividend dates. Interest income is recorded using the interest method.

The books and records of the Fund are maintained in US dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into US dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in the exchange rates between the initial purchase trade date and the subsequent sale trade date is included in gains and losses on investment securities sold.

Dividend income is recorded at management's estimate of the income included in distributions received from investments in real estate investment trusts ("REITs") and registered investment companies ("RICs"). Distributions received in excess of this amount are recorded as a reduction of the cost of investments. The actual amounts of income and return of capital are determined by each REIT or RIC only after its fiscal year-end, and may differ from the estimated amounts.

*Repurchase Agreements:* The Fund may engage in repurchase agreement transactions. The Fund's Management reviews and approves periodically the eligibility of the banks and dealers with which the Fund enters into repurchase agreement transactions. The value of the collateral underlying such transactions is at least equal at all times to the total amount of the repurchase obligations, including interest. The Fund maintains possession of the collateral and, in the event of counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is the possibility of loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities.

*Dividends and Distributions to Shareholders:* Dividends from net investment income, if any, are declared and paid annually. Distributions to shareholders are recorded on the ex-dividend date. Any net realized short-term capital gains will be distributed to shareholders at least annually. Any net realized long-term capital gains may be distributed to shareholders at least annually or may be retained by the Fund as determined by the Fund's Board of Directors. Capital gains retained by the Fund are subject to tax at the corporate tax rate. Subject to the Fund qualifying as a registered investment company, any taxes paid by the Fund on such net realized long-term gains may be used by the Fund's shareholders as a credit against their own tax liabilities.

*Federal Income Taxes:* The Fund intends to qualify as a registered investment company by complying with the requirements under subchapter M of the Internal Revenue Code of 1986, as amended, (the "Code"), applicable to RICs

**Notes to Financial Statements Boulder Growth & Income Fund, Inc.**

and intends to distribute substantially all of its taxable net investment income to its shareholders. Therefore, no Federal income tax provision is required.

Income and capital gain distributions are determined and characterized in accordance with income tax regulations, which may differ from generally accepted accounting principles. These differences are primarily due to (1) differing treatments of income and gains on various investment securities held by the Fund, including timing differences, (2) the attribution of expenses against certain components of taxable investment income, and (3) federal regulations requiring proportional allocation of income and gains to all classes of Shareholders. The Code imposes a 4% nondeductible excise tax on the Fund to the extent the Fund does not distribute by the end of any calendar year at least (1) 98% of the sum of its net investment income for that year and its capital gains (both long-term and short-term) for its fiscal year and (2) certain undistributed amounts from previous years.

*Cash:* Cash as used in the Statement of Cash Flows is the amount reported in the Statement of Assets and Liabilities. Information on cash payments or any cash movement is presented in the Statement of Cash Flows. Accounting practices that do not affect reporting activities on a cash basis include realized gain or loss on investment securities and accretion income recognized on investment securities.

*Use of Estimates:* The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

**2. Investment Co-Advisory Fees, Directors' Fees, Administration Fee, Co-Administration Fee, Custody Fee and Transfer Agent Fee**

Boulder Investment Advisers, L.L.C. ("BIA") and Stewart Investment Advisers ("SIA") serve as the Fund's Co-Investment Advisers ("Advisers"). The Fund pays the Advisers a monthly fee at an annual rate of 1.25% of the value of the Fund's average monthly net assets (including the principal amount of leverage, if any). The equity owners of BIA are Evergreen Atlantic, LLC, a Colorado limited liability company ("EALLC"), and the Lola Brown Trust No. 1B (the "Lola Trust"), each of which is considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act. Stewart West Indies Trading Company, Ltd. is a Barbados international business company doing business as Stewart Investment Advisers. SIA receives a monthly fee equal to 75% of the fees earned by the Advisers, and BIA receives 25% of the fees earned by the Advisers. The equity owner of SIA is the Stewart West Indies Trust, considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act.

Fund Administrative Services, LLC ("FAS") serves as the Fund's Co-Administrator. Under the Administration Agreement, FAS provides certain administrative and executive management services to the Fund including: providing the Fund's principal offices and executive officers, overseeing and administering all contracted service providers, making recommendations to the Board regarding policies of the Fund, conducting shareholder relations, authorizing expenses and other administrative tasks. Under the Administration Agreement, the Fund pays FAS a monthly fee calculated at an annual rate of 0.20% of the value of the Fund's average monthly net assets up to \$250 million; 0.18% of the Fund's average monthly net assets on the next \$150 million; and, 0.15% on the value of the Fund's average monthly assets over \$400 million. Notwithstanding, FAS has agreed to cap the Fund's total administration costs at 0.30% (including administration, co-administration, transfer agent and custodian fees). As such, FAS has agreed to waive a portion of its fee should the total monthly administration expenses exceed 0.30%. The equity owners of FAS are EALLC and the Lola Trust, each of which is considered to be an "affiliated person" of the Fund as that term is defined in the 1940 Act.

The Fund pays each Director who is not a director, officer or employee of the Advisers or FAS a fee of \$8,000 per annum, plus \$3,000 for each in-person meeting of the Board of Directors and \$500 for each telephone meeting. In addition, the Chairman of the Board and the Chairman of the Audit Committee receive \$1,000 per meeting and each member of the Audit Committee receives \$500 per meeting. The Fund will also reimburse all Directors for travel and out-of-pocket expenses incurred in connection with such meetings.

Investors Bank & Trust Company ("Investors Bank") serves as the Fund's Co-Administrator and Custodian. As compensation for its services, Investors Bank receives certain asset-based fees, transaction fees, and out-of-pocket expenses, which are accrued daily and paid monthly.

PFPC Inc. ("PFPC") serves as the Fund's transfer agent, dividend-paying agent and registrar, as compensation for PFPC's services, the Fund pays PFPC a monthly fee plus certain out-of-pocket expenses.

**Notes to Financial Statements Boulder Growth & Income Fund, Inc.**

Deutsche Bank Trust Company Americas ("Auction Agent"), a wholly owned subsidiary of Deutsche Bank AG, serves as the Fund's Taxable Auction Market Preferred Stock transfer agent, registrar, dividend disbursing agent and redemption agent.

**3. Purchases and Sales of Securities**

Cost of purchases and proceeds from sales of securities for the year ended November 30, 2005, excluding short-term investments, aggregated \$43,203,996 and \$39,627,961, respectively.

At November 30, 2005, based on cost of \$100,484,640 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$16,075,388 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$2,241,518. There are no material differences for cost of investments for book and tax purposes.

**4. Common Stock**

At November 30, 2005, 249,990,000 of \$0.01 par value Common Stock were authorized of which 11,327,784 were outstanding.

**5. Taxable Auction Market Preferred Stock**

The Fund's Articles of Incorporation authorize the Board to reclassify any unissued shares of the Fund's Common Stock as part of an issuance of Preferred Stock. On July 29, 2005, the Board authorized the reclassification of up to 10,000 of the Fund's unissued shares of Common Stock as Preferred Stock. On October 17, 2005, the Fund issued 1,000 shares of Taxable Auction Market Preferred Stock. Offering costs of \$131,163 and commissions of \$250,000 paid directly to Merrill Lynch, Pierce Fenner & Smith Inc., were charged to capital of Common Stock to complete the transaction. Taxable Auction Market Preferred Stock is senior to the Common Stock and results in the financial leveraging of the Common Stock. Such leveraging tends to magnify both the risks and opportunities to Common Stock Shareholders. Dividends on shares of Taxable Auction Market Preferred Stock are cumulative.

The Fund is required to meet certain asset coverage tests with respect to the Taxable Auction Market Preferred Stock. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, Taxable Auction Market Preferred Stock at a redemption price of \$25,000 per share plus an amount equal to the accumulated and unpaid dividends on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset requirements could restrict the Fund's ability to pay dividends to Common Stock Shareholders and could lead to sales of portfolio securities at inopportune times.

An auction of the Taxable Auction Market Preferred Stock is generally held every 28 days. Existing shareholders may submit an order to hold, bid or sell such shares at par value on each auction date. Taxable Auction Market Preferred Stock Shareholders may also trade shares in the secondary market between auction dates.

On November 30, 2005, 1,000 shares of Taxable Auction Market Preferred Stock were outstanding at the annual rate of 4.05%. The dividend rate, as set by the auction process, is generally expected to vary with short-term interest rates. These rates may vary in a manner unrelated to the income received on the Fund's assets, which could have either a beneficial or detrimental impact on net investment income and gains available to Common Stock Shareholders. While the Fund expects to earn a higher return on its assets than the cost associated with the Taxable Auction Market Preferred Stock, including expenses, there can be no assurance that such results will be attained.

**6. Portfolio Investments, Concentration and Investment Quality**

The Fund operates as a "non-diversified" investment company, as defined in the 1940 Act. As a result of being "non-diversified", with respect to 50% of the Fund's portfolio, the Fund must limit to 5% the portion of its assets invested in the securities of a single issuer. There are no such limitations with respect to the balance of the Fund's portfolio, although no single investment can exceed 25% of the Fund's total assets at the time of purchase. A more concentrated portfolio may cause the Fund's net asset value to be more volatile than it has been historically and thus may subject shareholders to more risk. The Fund may hold a substantial position (up to 25% of its assets) in the common stock of a single issuer. As of November 30, 2005, the Fund held more than 25% of its assets in Berkshire Hathaway, Inc. as a direct result of the market appreciation of the issuer since the time of purchase. Thus, the volatility of the Fund's common stock, and the Fund's net

**Notes to Financial Statements Boulder Growth & Income Fund, Inc.**

assets value and its performance in general, depends disproportionately more on the performance of this single issuer than that of a more diversified fund.

At the April 2003 shareholder meeting, Shareholders approved a proposal that permits the Fund to be concentrated in REITs (real estate investment trusts). REITs are securities of companies whose primary objective is investment in real property or providing services to real property interests. The Fund must invest at least 25% of its assets in REIT securities. Although the Fund generally invests in U.S. REITs, the fund may make direct investments in foreign REITs. The Fund intends to invest in REIT securities primarily for income. Risks associated with investing in REITs include the potential for loss of value if there is an underlying decline in value of the properties in which the REIT invests. Property valuations may rise and fall with either local economic conditions or with the national economy. Furthermore, the dividend income paid by a REIT may be reduced or eliminated. In addition, the Fund bears its ratable share of REIT expenses while still paying management fees on the Fund assets so invested.

At the April 2005 Annual Meeting of Stockholders, shareholders approved a proposal that eliminates the Fund's fundamental investment restriction regarding investment in foreign securities. Prior to this meeting, the Fund was not permitted to invest more than 20% of its assets in foreign securities. The Fund now has no restrictions on its ability to invest in foreign securities. Investment in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers. These risks may include: (i) less information about non-U.S. issuers or markets may be available due to less rigorous disclosure, accounting standards or regulatory practices; (ii) many non-U.S. markets are smaller, less liquid and more volatile. In a changing market, the Advisers may not be able to sell the Fund's portfolio securities at times, in amounts and at prices they consider reasonable; (iii) currency exchange rates or controls may adversely affect the value of the Fund's investments; (iv) the economies of non-U.S. countries may grow at slower rates than expected or may experience downturns or recessions; and, (v) withholdings and other non-U.S. taxes may decrease the Fund's return.

The Fund intends to concentrate its common stock investments in a few issuers and to take large positions in those issuers, consistent with being a "non-diversified" fund. As a result, the Fund is subject to a greater risk of loss than a diversified fund or a fund that has diversified its investments more broadly. Taking larger positions is also likely to increase the volatility of the Fund's net asset value reflecting fluctuation in the value of large Fund holdings. Under normal market conditions, the Fund intends to invest at least 80% of its net assets in common stocks. Common stocks include dividend-paying closed-end funds and REITs. The portion of the Fund's assets that are not invested in common stocks may be invested in fixed income securities and cash equivalents. The term "fixed income securities" includes RICs whose objective is income, REITs, bonds, U.S. Government securities, notes, bills, debentures, preferred stocks, convertible securities, bank debt obligations, repurchase agreements and short-term money market obligations.

**7. Significant Shareholders**

On November 30, 2005, trusts and other entities affiliated with Stewart R. Horejsi and the Horejsi family owned 2,354,600 shares of Common Stock of the Fund, representing approximately 20.79% of the total Fund shares. Stewart R. Horejsi is the primary portfolio manager for SIA and is the Fund's primary portfolio manager. He is responsible for the day-to-day strategic management of the Fund.

**8. Share Repurchase Program**

In accordance with Section 23(c) of the 1940 Act, the Fund may from time to time repurchase shares of the Fund in the open market at the option of the Board of Directors and upon such terms as the Directors shall determine.

For the years ended November 30, 2005 and November 30, 2004, the Fund did not repurchase any of its own shares.

**Notes to Financial Statements Boulder Growth & Income Fund, Inc.****9. Tax Basis Distributions**

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The character of distributions paid on a tax basis during the years ending November 30, 2005 and November 30, 2004 were as follows:

	Year Ended November 2005	Year Ended November 2004
Distributions paid from:		
Ordinary Income	\$ 119,717	\$ 248,715
In Excess of Net Investment Income		34,480
	\$ 119,717	\$ 283,195

As of November, 30 2005, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$ 380,691
Unrealized Appreciation	13,794,680
	\$ 14,175,371

The Fund had available for tax basis distributions purposes accumulated capital and other losses and temporary differences of \$5,202,615 of which \$5,134,721 will expire on 11/30/2011.

Net investment income and realized gain and loss for federal income tax purposes differ from that reported in the financial statements because of permanent and temporary book and tax differences. These differences are primarily related to differing treatment of long-term capital gains dividends and excess ordinary distributions received from REITs and wash sales. Permanent book and tax basis difference of \$(65,357), \$43,163 and \$22,194 were reclassified at November 30, 2005 among undistributed net investment income, accumulated net realized loss on investments and Paid in Capital, respectively, for the Fund.

**10. Loan Outstanding**

On February 21, 2003, an agreement between the Fund and the Custodial Trust Company of Bear Stearns was reached, in which the Fund may borrow from the Custodial Trust Company an aggregate amount of up to the lesser of \$20,000,000 or the maximum amount the Fund is permitted to borrow under the 1940 Act. For the year ended November 30, 2005, the Fund had an average outstanding loan for 320 days, with an average daily balance of \$18,700,000, at an average rate of 4.01% and incurred \$671,578 of interest expense. A portion of the net proceeds from the AMPS offering were used to redeem the bank debt during the period. For the fiscal year ended November 30, 2004, the Fund had an average outstanding loan of \$15,909,836 at an average rate of 2.35% and incurred \$368,442 of interest expense.

### Summary of Dividend Reinvestment Plan

Registered holders ("Common Shareholders") of common stock (the "Common Shares") are automatically enrolled (the "Participants") in the Fund's Dividend Reinvestment Plan (the "Plan") whereupon all distributions of income, capital gains or managed distributions ("Distributions") are automatically reinvested in additional Common Shares. Common Shareholders who elect to not participate in the Plan will receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in street name or other nominee name, then the nominee) by the custodian, as dividend disbursing agent.

PFPC Inc. (the "Agent") serves as Agent for each Participant in administering the Plan. After the Fund declares a Distribution, if (1) the net asset value per Common Share is equal to or less than the market price per Common Share plus estimated brokerage commissions on the payment date for a Distribution, Participants will be issued Common Shares at the higher of net asset value per Common Share or 95% of the market price per Common Share on the payment date; or if (2) the net asset value per Common Share exceeds the market price plus estimated brokerage commissions on the payment date for a Distribution, the Agent shall apply the amount of such Distribution to purchase Common Shares on the open market and Participants will receive the equivalent in Common Shares valued at the weighted average market price (including brokerage commissions) determined as of the time of the purchase (generally, following the payment date of the Distribution). If, before the Agent has completed its purchases, the market price plus estimated brokerage commissions exceeds the net asset value of the Common Shares as of the payment date, the purchase price paid by the Agent may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if such Distribution had been paid in Common Shares issued by the Fund. If the Agent is unable to invest the full Distribution amount in purchases in the open market or if the market discount shifts to a market premium during the purchase period than the Agent may cease making purchases in the open market the instant the Agent is notified of a market premium and may invest the uninvested portion of the Distribution in newly issued Common Shares at the net asset value per Common Share at the close of business provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share, the dollar amount of the Distribution will be divided by 95% of the market price on the payment date. The Fund will not issue Common Shares under the Plan below net asset value.

There is no charge to Participants for reinvesting Distributions, except for certain brokerage commissions, as described below. The Agent's fees for the handling of the reinvestment of Distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each Participant will pay a pro rata share of brokerage commissions incurred with respect to the Agent's open market purchase in connection with the reinvestment of Distributions. The automatic reinvestment of Distributions will not relieve Participants of any federal income tax that may be payable on such Distributions.

The Fund reserves the right to amend or terminate the Plan upon 90 Days' written notice to Common Shareholders of the Fund.

Participants in the Plan may (i) request a certificate, (ii) request to sell their shares, or (iii) withdraw from the Plan upon written notice to the Agent or by telephone in accordance with the specific procedures and will receive certificates for whole Common Shares and cash for fractional Common Shares.

All correspondence concerning the Plan should be directed to the Agent, PFPC Inc., P.O. Box 43027, Providence, RI 02940-3027. To receive a full copy of the Fund's Dividend Reinvestment Plan, please contact the Agent at 1-800-331-1710.

Boulder Total Return Fund, Inc. and Boulder Growth & Income Fund, Inc.

**Proxy Voting Procedures**

The Board of Directors of the Boulder Total Return Fund, Inc. and Boulder Growth & Income Fund, Inc. (collectively, the **Funds**) hereby adopt the following policies and procedures with respect to voting proxies relating to portfolio securities held by the Funds (collectively, the **Voting Policies**).

1. **Policy.** It is the policy of each of the Boards of Directors of the Funds (the **Board**) to delegate the responsibility for voting proxies relating to portfolio securities held by the Funds to Boulder Investment Advisers, L.L.C. **EXHIBIT A VOTING GUIDELINES**

The Funds' and Advisors' proxy voting principles are summarized below, with specific examples of voting decisions for the types of proposals that are most frequently presented:

Category	Guideline	Voting
<b>BOARD OF DIRECTOR ISSUES</b>	The board of directors' primary role is to protect the interests of all shareholders. Key functions of the board are to approve the direction of corporate strategy, ensure succession of management and evaluate performance of the corporation as well as senior management. The board is accountable to shareholders, and must operate independently from management.	
Routine Elections	Generally we will vote with management's recommendation	Generally FOR
Board Classification	Generally we are opposed to entrenchment mechanisms and will vote against proposals to classify a board. We prefer annual election of directors in order that shareholders have more power to replace directors deemed to not be acting in the shareholders' interest.	Generally AGAINST
Independence of Directors	The majority of board members should be independent from the corporation, management or a majority shareholder. An independent member should not be a former employee of the company or a representative of a key supplier to or a key client of the company.	We will generally support boards that have a majority of board members classified as independent.
Director Indemnification	Mandatory indemnification of directors and officers is necessary to attract quality candidates.	Generally FOR
Director Attendance	Board membership requires a significant amount of time in order for responsibilities to be executed, and attendance at Board and Committee meetings is noted.	We look for attendance records to be in the 75% participation range.
Term Limits	We are more concerned with the performance of directors and not with the term limits	Generally AGAINST but will look at on a case-by-case basis.
Separation of Chair and CEO	In most cases it is advisable for there to be a separation between the CEO and the Chair to enhance separation of management interests and shareholders.	In most cases we would support a recommendation to separate the Chair from the CEO. Lead directors are considered acceptable, and in this situation an independent Corporate Governance committee must also be in place.
Committees of the Board	Audit, Compensation, Governance and Nominating committees are the most significant committees of the board.	We support the establishment of these committees, however independent director membership on these committees is the primary concern. Two-thirds independent membership is satisfactory, provided that the chair of each committee is independent.

Edgar Filing: BOULDER GROWTH & INCOME FUND - Form N-CSR

Audit Process

The members of an audit committee should be independent directors, and the auditor must also be independent. The auditor should report directly to the Audit committee and not to management.

We will generally support the choice of auditors recommended by the Audit Committee. In the event that

		the auditor supplies other services for a fee other than the audit, each situation will be reviewed on a case-by-case basis.
<b>VOTING AND ENTRENCHMENT ISSUES</b>		
Shareholder Right to Call Special Meeting		Generally FOR
Shareholder Right to Act by Written Consent		Generally FOR
Cumulative Voting	Our experience has been that cumulative voting is generally proposed by large shareholders who may wish to exert undue influence on the board.	Generally AGAINST, although we may consider if the board has been unresponsive to shareholders.
Confidentiality of Shareholder Voting	Like any other electoral system, the voting at annual and special meetings should be confidential and free from any potential coercion and/or impropriety.	We will support any proposals to introduce or maintain confidential voting.
Size of Board of Directors	Generally boards should be comprised of a minimum of seven to a maximum of fifteen. However the complexity of the company has an impact on required board size.	The independence of the board is a greater concern than the number of members. However should a change in board size be proposed as potentially an anti-takeover measure we would vote against.
<b>COMPENSATION ISSUES</b>		
Director Compensation	Directors should be compensated fairly for the time and expertise they devote on behalf of shareholders. We favor directors personally owning shares in the corporation, and that they receive a substantial portion of their remuneration in the form of shares.	We support recommendations where a portion of the remuneration is to be in the form of common stock. We do not support options for directors, and do not support retirement bonuses or benefits for directors.
<b>MANAGEMENT COMPENSATION</b>	Compensation plans for executives should be designed to attract and retain the right people with exceptional skills to manage the company successfully long-term. These plans should be competitive within the company's respective industry without being excessive and should attempt to align the executive's interests with the long-term interest of shareholders.	Executive compensation will be considered on a case-by-case basis.
Stock Options and Incentive Compensation Plans	Compensation plans should be designed to reward good performance of executives. They should also encourage management to own stock so as to align their financial interests with those of the shareholders. It is important that these plans are disclosed to the shareholders in detail for their approval.	We will not support plans with options priced below current market value or the lowering of the exercise price on any previously granted options.

		We will not support any plan amendment that is not capped or that results in anything but negligible dilution. We believe that shareholders should have a say in all aspects of option plans and therefore will not support omnibus stock option plans or plans where the Board is given discretion to set the terms. Plans will be considered on a case-by-case basis.
Adopt/Amend Employee Stock Purchase Plans		Considered on a case-by-case basis.
Golden Parachutes	Although we believe that golden parachutes may be a good way to attract, retain and encourage objectivity of qualified executives by providing financial security in the case of a change in the structure or control of a company, golden parachutes can be excessive.	Generally opposed but will consider on a case-by-case basis.
Require Shareholder Approval of Golden Parachutes		Generally FOR
<b>TAKEOVER PROTECTIONS</b>	Some companies adopt shareholder rights plans that incorporate anti-takeover measures, which may include: poison pills, crown jewel defense, payment of greenmail, going private transactions, leveraged buyouts, lock-up arrangements, Fair price amendments, Re-incorporation. Rights plans should be designed to ensure that all shareholders are treated equally in the event there is a change in control of a company. These plans should also provide the Board with sufficient time to ensure that the appropriate course of action is chosen to ensure shareholder interests have been protected. However, many shareholder rights plans can be used to prevent bids that might in fact be in the shareholders best interests. Depending on their contents, these plans may also adversely influence current share prices and long-term shareholder value.	We will review each situation on a case-by-case basis. We will generally support proposals that protect the rights and share value of shareholders.
Dual Class Shares	It is not unusual for certain classes of shares to have more than one vote per share. This is referred to as a dual class share structure and can result in a minority of shareholders having the ability to make decisions that may not be in the best interests of the majority of shareholders.	Generally AGAINST.
Super-Majority Voting Provisions	Super-majority voting (e.g., 67% of votes cast or a majority of outstanding shares), although fairly common, can, from a practical point of view, be difficult to obtain, and essentially are a bar from effective challenges to entrenched management, regardless of performance or popularity. A very high requirement can be unwieldy and therefore not in the best interest of the majority of shareholders.	Generally AGAINST. We will generally oppose proposals for voting requirements that are greater than a majority of votes cast. That said, we will review supermajority proposals on a case-by-case basis.

Issuance of Authorized Shares		Generally FOR
Issuance of Unlimited or Additional Shares	Corporations may increase their authorized number of shares in order to implement a stock split, to support an acquisition or restructuring plan, to use in a stock option plan or to implement an anti-takeover plan. Shareholders should approve of the specific business need for the increase in the number of shares and should understand that the issuance of new shares can have a significant effect on the value of existing shares.	Generally AGAINST. We will generally oppose proposals to increase the number of authorized shares to unlimited, but will consider any proposals to increase the number of authorized shares on a case-by-case basis for a valid business purpose.
Shareholder Proposals	Shareholders should have the opportunity to raise their concerns or issues to company management, the board and other shareholders. As long as these proposals deal with appropriate issues and are not for the purposes of airing personal grievances or to obtain publicity, they should be included on the proxy ballot for consideration.	Shareholder proposals will be reviewed on a case-by-case basis.
<b>OTHER MATTERS</b>		
Stock Repurchase Plans		Generally FOR
Stock Splits		Generally FOR
Require Shareholder Approval to issue Preferred Stock		Generally FOR
Corporate Loans to Employees	Corporate loans, or the guaranteeing of loans, to enable employees to purchase company stock or options should be avoided. These types of loans can be risky if the company stock declines or the employee is terminated.	Generally AGAINST.
Blank-cheque Preferred Shares	The authorization of blank-cheque preferred shares gives the board of directors complete discretion to fix voting, dividend, conversion and other rights and privileges. Once these shares have been authorized, the shareholders have no authority to determine how or when they will be allocated. There may be valid business reasons for the issuance of these shares but the potential for abuse outweighs the benefits.	Generally AGAINST.
