**ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION.**

On February 1, 2007, Monster Worldwide, Inc. (the Company) announced its results of operations for the fourth quarter and year ended December 31, 2006. A copy of the Company's press release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

Included in the press release and the supplemental financial information issued by the Company and furnished herewith as Exhibits 99.1 and 99.2, are certain non-GAAP financial information as additional information for its operating results. These measures are not in accordance with, or an alternative for, generally accepted accounting principles (GAAP) and may be different from non-GAAP measures reported by other companies. The Company believes that its presentation of non-GAAP measures, such as operating income before depreciation and amortization, free cash flow and net cash provides useful information to management and investors regarding certain financial and business trends relating to its financial condition and results of operations. In addition, the Company's management uses these measures for reviewing the financial results of the Company and for budgeting and planning purposes.

Operating income before depreciation and amortization is defined as income from operations before depreciation, amortization of intangible assets and amortization of stock based compensation. The Company considers operating income before depreciation and amortization to be an important indicator of its operational strength. This measure eliminates the effects of depreciation, amortization of intangible assets and amortization of stock based compensation from period to period, which the Company believes is useful to management and investors in evaluating its operating performance. Operating income before depreciation and amortization is a non-GAAP measure and may not be comparable to similarly titled measures reported by other companies.

Free cash flow is defined as cash flow from operating activities less capital expenditures. As a result of the adoption SFAS 123(R) in 2006, free cash flow amounts in 2005 have been adjusted to exclude the income tax benefits on stock option exercises. Free cash flow is considered a liquidity measure and provides useful information about our ability to generate cash after investments in property and equipment. Free cash flow reflected herein is a non-GAAP measure and may not be comparable to similarly titled measures reported by other companies. Free cash flow does not reflect the total change in our cash position for the period and should not be considered a substitute for such a measure.

Net cash is defined as cash and cash equivalents plus marketable securities, less total debt. The Company considers net cash to be an important measure of liquidity and an indicator of its ability to meet its ongoing obligations. The Company also uses net cash, among other measures, in evaluating its options for capital deployment. Net cash presented herein is a non-GAAP measure and may not be comparable to similarly titled measures used by other companies.

**ITEM 7.01. REGULATION FD DISCLOSURE.**

The Company has provided certain supplemental financial information that can be accessed directly at <http://www.monsterworldwide.com/Q406.pdf> or through the Company's Investor Relations website at <http://ir.monsterworldwide.com>. This information is attached hereto as Exhibit 99.2.
