**Report of Foreign Private Issuer**

**Pursuant to Rule 13a-16 or 15d-16  
under the Securities Exchange Act of 1934**

**November 29, 2007**

**Commission File Number: 333-119497**

## **MECHEL OAO**

(Translation of registrant's name into English)

**Krasnoarmeiskaya 1,**

**Moscow 125167**

**Russian Federation**

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Edgar Filing: Mechel OAO - Form 6-K

Form 20-F  Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Yes  No

Note: Regulation S-T Rule 101(b)(c) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Yes  No

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934:

Yes  No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):

**MECHEL ANNOUNCES EARLY FULFILLMENT OF POWER GENERATION PLAN BY ITS SOUTHERN KUZBASS POWER PLANT SUBSIDIARY**

**Kaltan, Russia November 29, 2007 Mechel OAO (NYSE: MTL), one of the leading Russian mining and metals companies, announces that its Southern Kuzbass Power Plant subsidiary ahead of schedule fulfilled the annual electric power generation plan approved by the Federal Tariff Service of Russia.**

The annual electric power generation plan, which included the production of 1.6 billion kWh of electricity and was approved by the Federal Tariff Service of Russia, was fulfilled ahead of schedule in November 2007. Southern Kuzbass Power Plant is expected to generate an additional approximately 400 million kWh of electric power before the year end.

The increase of electric power generation by Southern Kuzbass Power Plant was due to a deficit of electric power in the Southern Kuzbass caused by specific environmental conditions. Beginning in June of this year, the water level in the rivers of Siberia, where hydroelectric power stations traditionally generate significant electric power volume, was below the average. Southern Kuzbass Power Plant uses steam coal as fuel, which is steadily supplied to it. Thus, power production at the plant is not as affected by environmental conditions.

Another distinguishing feature of Southern Kuzbass Power Plant is its technical capability to expeditiously increase its power generation in accordance with market conditions and growing demand. This enabled the power plant to increase its power generation and, consequently, profit. The competitive advantage of the power plant is its location close to the coal mining sites as well as the coal and ore mining companies in the Southern Kuzbass, which ensure its consistent load.

Southern Kuzbass Power Plant became Mechel's subsidiary in March 2007. The objective of acquiring Southern Kuzbass Power Plant was to increase Mechel's performance through the possibility of producing high value added product in the form of electric power using Mechel's own steam coal. The acquisition of the new power generating asset was also aimed at developing the power component of Mechel's business, which, in particular, includes reduction of production cost by generating Mechel's own electric power, growth of the Company's capitalization, and making additional profit from marketing the generating electric and heat energy.

Following the integration of Southern Kuzbass Power Plant into Mechel, implementation of its technical re-equipment and revamping program was started with the objective to increase its performance and reduce production costs.
