EARNINGS RELEASE

2008 and 4Q08

Cemig H

5

Cemig CEO Djalma Bastos de Morais comments as follows on the results announced today:

Our exceptionally good results for 2008 reflect the success of our Long-term Strategic Plan, and the strategy arising from it which, by focusing on the long term, gives Cemig a solid position, with consistent results, reaffirming its leadership in the Brazilian context.

In spite of the recent deterioration in world economic conditions, we have maintained our economic and financial planning, including capital expenditure, amortizations of debt and payments of dividends. This comfortable situation of the company is the result of a conjunction of strategies, which range from maintaining a balanced businesses portfolio to financial discipline, and sale of electricity in the free market - which has helped to mitigate the effect of the recent tariff review of our distribution company.

With the investments currently in progress we will grow in generation, distribution and transmission of electricity, and in distribution of natural gas, and we will also be attentive to all the opportunities for acquisition with profitability that can add value to our business.

We continue to do our homework, growing in all the sectors of our market in a balanced manner, and with focus on operational excellence, mitigating risks and taking advantage of all the synergies that an integrated company on Cemig's scale offers.

Finally, the results we present today show that we are on the right path, and that the decisions we have taken in recent years are constantly adding value to our businesses, making Cemig, every day, an increasingly strong and solid company with efficient corporate management.

Cemig Chief Financial Officer Luiz Fernando Rolla comments:

In 2008 our company continued to provide a consistent, robust cash flow, as result of our operations, which incessantly and continuously seek to add value to our businesses.

Our Ebitda reached R\$ 4.1 billion on fourth quarter, with a Ebitda margin of 38%, benefiting from our policy of maintaining high levels of operational efficiency. This new level of cash flow is in line with the figures estimated in our financial projections and in our Strategic Plan, reflecting the correctness of our strategy of growth by acquisitions and new projects, within the process of consolidation of the sector.

The impact on our profit caused by the tariff review of Cemig Distribuição has been mitigated by our portfolio of businesses, since the Cemig Group is made up of 49 companies, and 10 consortia, with operations that have mutual synergy and are increasingly profitable, in a position of low risk and greater stability of results in the long term.

The worsening of the tension in the financial markets in 2008 resulted in new challenges for the real economy, such as contraction of lending and increase of its cost, lower growth, and lower confidence on the part of entrepreneurs. In spite of this challenging context, our financial discipline and corporate strategy have positioned Cemig at a very comfortable level, enabling us to be flexible in our financial management, and with this to adapt successfully to a new macroeconomic reality. Our solid cash position makes it possible for us to continue to execute our Long-term Strategic Plan, maintaining our dividend policy, debt management and program of capital expenditure, including the capital expenditure associated with opportunities for acquisition. The excellent results that we present today show that we continue to add value, continually and sustainably, to all our stockholders, and stakeholders.

The rest of this release gives the highlights of our results.

- **The macro context**

Over the year of 2008 the international macroeconomic scenario deteriorated rapidly.

The subprime crisis that began in the US real estate sector before the end of 2006, prolonged into 2007, affected the world financial sector in 2008, and worsened rapidly from September 2008. The retraction, considered by many specialists to be one of the most severe since the crisis of 1929, led innumerable financial institutions to bankruptcy, at the same time causing an increase in risk aversion, which affects the real economy. Financing lines were cut and companies were unable any longer could not be more finance and invest at interest rates compatible with economic reality.

At the end of 2008 this deterioration of the economy strongly affected the world labor market, with mass dismissals, especially in the United States and the EU. The recent US economic package has increased expectations for recovery of world growth at the end of 2009 but this in our view still depends on how the investments will be made and how the problems

generated by risk aversion and a lack of liquidity will be handled and overcome.

In the Brazilian economy, 2008 was a year in which the rate of growth of GDP was maintained and increased up to the end of the first half of the year, when the first effects of changing world economic conditions began to be reflected in the domestic economy. Among the main sectors affected in Brazil are exporters, who suffered a major impact from the fall in commodity prices. At the same time credit suffered a major retraction and increase in cost, adversely affecting the automobile, services and consumption sectors.

However, in contrast to previous times of economic adversity, Brazil now has a more comfortable situation in this context of stress. Its now more favorable macroeconomic condition arises from the economic policy adopted, which, through fiscal surpluses and monetary policy using inflation targeting, enabled the country to reduce external debt and improve its public accounts. Recognition of this situation came in the first half of 2008, when Brazil received Investment Grade rating from Standard & Poor's.

Adding to this benign condition, the government has in recent months been acting strongly to attenuate the impact of the economic stress. Measures taken include reduction in the IPI (Industrialized Products Tax), change in the form of charging income tax, and alterations in the IOF (Financial Transactions Tax). Together with these fiscal measures, the government has increased the financing lines of the BNDES, aiming to regularize the level of granting of financings and liquidity in the financial system.

The great challenge for 2009 is in the accentuated reduction of interest rates, which will enable Brazil to grow more intensely in the coming years, since inflationary pressures are almost no longer present, and the country needs very significant investments in infrastructure. Even with these enormous challenges, we expect the Brazilian economy still to grow in 2009, at around 2%, and maintain a path of sustainable growth over 2010, although this of course also depends on the conditions of the international economy.

- **Consolidated electricity sales**

Our consolidated sales in 2008 totaled 58,550 GWh, 1.1% more than in 2007.

This market can be separated into two segments: Sales to final consumers, and wholesale supply to other electricity concession holders.

Sales to final consumers

In the first of these market segments, our sales to final consumers grew by 6.4% in 2008. The highest growth in consumption was in the residential and industrial user categories, respectively of 4.2% and 8.1%.

This high growth is a direct reflection of the economic growth in the State of Minas Gerais, and in Brazil as a whole since Cemig has been continually increasing its participation in the nationwide electricity market, both through sales to Free Consumers, and also through its holdings, for example in **RME**, the controlling stockholder of the Rio de Janeiro utility **Light**. Consolidated sales to final consumers in 2008 totaled 47,461 GWh, compared to 44,602 GWh in 2007.

The table below shows the breakdown of our sales to final consumers, and the year-on-year growth in each category:

Volume of electricity sold	MWh			MWh		
	2008	2007	r%	4Q08	4Q07	r%

TOTAL	58,550,063	57,891,534	1.1%	15,006,756	14,951,082	0.37%

This chart shows the breakdown of our sales volume by consumer category:

Electricity Sold to Final Consumers

As can be seen the *industrial* category is about 56% of our total sales to final consumers, followed by residential, commercial and rural. The

industrial category includes both free and captive consumers, served by the two distribution companies of the Cemig group.

Supply to other concession holders

In 2008 we supplied 11,037GWh of electricity to other concession holders, 16.6% less than in 2007 (13,236GWh). This happened because we sold less to traders, most of which made short-term contracts. This electricity is being reallocated through long-term contracts with Free Consumers, which reduces the risk, and increases the predictability of our results, reducing fluctuations that can arise from short-term market prices.

- **Electricity market: Distribution**

Cemig D

Cemig D's electricity market grew by a substantial percentage of 7.6% in 2008 – higher than Brazilian GDP growth in the year. This increase is due to the pace of growth of the economy of the state of Minas Gerais, with significant and dynamic increase in activity in mining, steel and the automobile sector after the beginning of the fourth quarter.

During the last quarter there was a severe cooling of this growth, but this did not significantly affect the performance of our captive market in 2008 – indeed we sold 8.7% more electricity in 4Q08 than in the last quarter of 2007.

Consumption in all the user categories was higher year-on-year in 4Q08, with the exception of the rural sector, where there was a fall in

demand due to higher rainfall, reducing the need for irrigation this was also the case for low-income rural consumers.

TOTAL	22,258	20,694	7.6%	5,823	5,355	8.7%

The chart below shows the breakdown of consumption by Cemig D's client categories with the residential sector representing approximately 32% of total sales to final consumers. The industrial sector represented 23% of total sales in 2007, but this grew to 25% in 2008, due to the intense growth in our concession area.

Cemig D Sales per Class (%)

Cemig D: Sources and uses of electricity

The consolidated total of electricity bought and electricity that passed through Cemig D's grid network was 46,540 GWh. Of this total, compulsory purchases from Itaipu represented 19.4%, the electricity provided under the *Proinfa* program to stimulate alternative energy sources was 0.82%, purchases contracted in the Regulated Market (*CCEARs*) made up 29.2%, and transactions in the CCEE (Electricity Trading Chamber) and under the Energy Reallocation Mechanism (*MRE*) 6.9%. Cemig also received 1,791 GWh of energy volume under bilateral contracts, representing 3.8% of the total; and a further 18,493 GWh was passed through by Cemig D to Free Consumers.

Of the total sources of electricity, 87.6% was passed through to final consumers, 54.6% serving the captive market and 45.4% going to the free market.

The diagram of *Sources and Uses of Electricity* shows that 12.4% of the total of electricity handled, equivalent to 5,789 GWh, was lost. Of this total, losses in the local distribution network totaled 5,411 GWh, and 378 GWh were lost in the national grid.

In 2008 there was a significant change in the electricity received from the Itaipú Hydroelectric Plant. Aneel Resolution 218, of April 11, 2006 specified new quotas for allocation of the electricity generated by Itaipú to be applied in 2008: Cemig D's quota was reduced from 17.29% of the electricity supplied by *Itaipú Binacional* to the Brazilian system, in 2007, to 13.59% in 2008,

This diagram shows the consolidated totals of sources and uses of electricity handled by Cemig D.

Sales by *Light* (RME)

The table below shows sales of the distribution company **Light SESA**, controlled by **Rio Minas Energia (RME)**, in which Cemig has a stockholding interest of 25%. The distribution company's concession area is in Rio de Janeiro State.

Sales in 2008 (consolidated in these results in the proportion of 25%, Cemig's percentage interest in RME) were at practically the same level as in 2007: 0.10% lower, at 4,573 MWh. Lower sales to the industrial sector were offset by higher sales to the residential and commercial consumer categories.

This unchanged total reflected two main factors: lower average temperatures in the region due to the La Niña phenomenon reducing growth in demand of the residential sector; and interruption of invoicing on the *Energia Plus* basis, a package offered to clients that have their own generation capacity during peak consumption hours.

- Electricity market: Generation**

Cemig GT

Cemig GT sold 31,629 MWh in 2008, 0.6% less than its 2007 sales volume of 31,813 MWh.

The lower figure reflects wholesale sales of electricity 10.8% lower in 2008 than in 2007, as a result of substitution of these contracts in favor of sales to the free market, made under long-term contracts and for higher prices. Sales to free consumers were significantly higher in both the last quarter and the whole year: 7% higher in 2008, and 6% higher in 4Q08.

It is important to remember that in spite of the slight reduction in sales *volume* in the year, Cemig GT's net sales *revenue* grew by approximately 12% the result of our sales strategy, which seeks to maximize revenue, and minimize risk arising from sales, with low exposure to the short-term market, and to contracts with high Take or Pay .

Independent Generation

Sales by Independent Power Producers (IPPs), eight enterprises in which the Cemig Group is involved, grew by just under 4% in 2008,

led by the 12% increase in the sales of the *Capim Branco Consortium*, in which Cemig has an interest.

The startup of the *Cachoeirão* Small Hydro Plant, at the end of 2008, will add more sales. This enterprise is part of the Minas PCH (Small Hydro Plant) program, which prospects and develops PCHs throughout the state of Minas Gerais, in an unprecedented partnership that aims to speed up the process of construction of generating capacity to meet the continuing structural deficit in Brazil's electricity sector.

Revenue from supply of electricity

Final consumers

The main factors affecting revenue from final consumers in 2008 were:

- Volume of energy invoiced to final consumers 6.4% higher – comments on the variations are in the item on *Sales of electricity*.
- A reduction of 1.59% in the average tariff, from R\$ 267.08/MWh in 2007 to R\$ 262.83/MWh in 2008, due to the reduction in Cemig D's tariffs on April 8, 2008, under the Tariff Review.

Supply to other concession holders

Volume of electricity sold to other concession holders in 2008 was 11,037 GWh, for revenue of R\$ 1.012 billion, compared to 13,236 GWh in 2007, for revenue of R\$ 1.210 billion. The average sale tariff in 2008 was 91.71/MWh, compared to R\$ 91.42/MWh in 2007.

Revenue from use of the grid

This revenue is from the tariff for use of the distribution facilities of Cemig D and *Light* by Free Consumers, and from the use of facilities of the transmission network of Cemig GT by generators and distributors that participate in the grid system. The level of remuneration is set by a Resolution issued by the regulator, Aneel.

Revenue from use of the grid was 10.5% higher in 2008, at R\$ 2.151 billion, compared to R\$ 1.946 billion in 2007.

Is interesting to see the increase in the proportion of revenue coming from use of our transmission grid assets:

The increase arises mainly from the following factors:

- an increase of 11.80% in the Permitted Revenue for the transmission segment of the market, regulated in July 2008, resulting from application of inflation as measured by the IGP-M inflation index over the previous 12 months;
- startup of expansions of the network, with consequent addition of revenue by the Regulator;
- there was a reduction in revenue from the basic grid in 2007, of R\$ 31 million, due to the review of the Annual Permitted Revenues for new facilities of the basic grid and other transmission facilities for electricity transmission concession holders, in obedience to Aneel decisions; and
- revenues from the TUSD (R\$ 1.432 billion in 2008, vs. R\$ 1.314 billion in 2007).

There is more information on this in Explanatory Note 26 to the Consolidated Financial Statements.

- **Ebitda**

Our total Ebitda in 2008 was R\$ 4.1 billion, 0.6% higher than in 2007.

Cemig's portfolio of businesses played a fundamental role in achieving this result, since in 2008 the Tariff Review for Cemig D affected our cash

flow in that company. Through efficient management and our commercial strategy, we met our projected financial targets.

Energy component of CVA adjustment set by Aneel		(29)	
= ADJUSTED EBITDA	4,090	4,064	0.6

(*) The non-recurring adjustments correspond to the company's interpretation on events which it deems to be extraordinary, not related to current operations.

Cemig's cash flow has grown by 80.9% in the last five years, as shown in the chart below. The growth in operational performance over these five years contributed to the constant growth in Ebitda margin, except in 2008, when there was a small reduction as a result of the Tariff Review for Cemig D.

(Method of calculation not reviewed by our external auditors).

- **Net Income**

Cemig's net profit in 2008 was R\$ 1.887 billion, which compares with net profit of R\$ 1.743 billion in 2007.

This mainly reflects net revenue 6.3% higher, and a positive variation in Financial revenue (expenses), partially offset by the effect of operational costs and expenses 7.9% higher. We posted financial expenses of R\$ 94 million in 2008, compared to financial expenses of R\$ 346 million in 2007.

The Tariff Review of Cemig Distribution (Cemig D) had a negative effect on final profit in 2008, due to its reduction of consumers' tariffs by an average of 12.08%, starting on April 8, 2008.

As shown by the table below, the largest contribution to Cemig's results comes from Cemig Generation and Transmission (Cemig GT) and Cemig Distribution (Cemig D):

- Deductions from operational revenues**

There was not a significant difference between the total of deductions from operational revenue in 2008 and 2007 they totaled R\$ 5.598 billion in 2008, and R\$ 5.544 billion in 2007. The principal changes in these deductions from revenue are as follows:

Fuel Consumption Account CCC

This relates to the operational costs of thermal plants in the Brazilian interconnected grids and isolated systems, split pro-rata among electricity concession holders. The amount is set by Resolution by the regulator, Aneel. This is a non-controllable cost: the amount recorded for electricity distribution service corresponds to the amount actually passed through to the tariff. For the amount recorded in relation to electricity transmission services the company merely passes through the CCC charge it is charged to free consumers on their invoice for use of the grid and passed onto Eletrobrás. The deduction from revenue for the CCC in 2008 was R\$ 374 million, compared to R\$ 407 million in 2007, i.e. 8.11% lower.

Energy Development Account CDE

The deduction for the CDE was the same in both years: R\$ 391 million in both 2008 and 2007. The amount of this payment is set by a Resolution by the regulator, Aneel. This is a non-controllable cost: the amount recorded for electricity distribution service corresponds to the amount actually passed through to the tariff. For the amount recorded in relation to electricity transmission services the company merely passes on the CCC charge it is charged to free consumers on their invoice for use of the grid and passed onto Eletrobrás.

Global Reversion Reserve RGR

The deduction from revenue for the RGR in 2008 was R\$ 180 million, vs. R\$ 145 in 2007, an increase of 24.14%. The higher figure in 2008 reflects the higher revenue from generation and transmission, and the

increase in the book value of fixed distribution assets in service these are the basis for the calculation of the RGR expense.

The other deductions from revenue are for charges calculated as a percentage of billing, and their variations thus, substantially, arise from the changes in revenue.

• **Operational costs and expenses (excluding Financial revenue/expenses)**

	2008	2007	Δ%
Non-controllable costs

	3,691	3,381	9.2
Total cost	7,506	6,962	7.8

The change in costs and expenses shown above arises mainly from the increases in Energy bought for resale, Personnel expenses and Post-employment obligations partially offset by lower operational provisions and depreciation and amortization.

The principal changes in the expenses are:

Personnel

Personnel expenses in 2008 totaled R\$ 1.105 billion, vs. R\$ 968 million in 2007, an increase of 14.26%. This increase was basically due to:

- Salary increases of 5.00% and 7.26% given to employees in November 2007 and 2008, respectively.
- Dismissal expenses of R\$ 50 million in 2008, under the Voluntary Dismissal Program.
- Lower transfer of costs from Personnel expenses to Works in progress (R\$ 162 million in 2008 vs. R\$ 179 in 2007) due to less capital expenditure activity in 2008.

There is a breakdown of Personnel expenses in Explanatory Note 30 to the Consolidated Financial Statements.

Electricity purchased for resale

The expense on this account in 2008 was R\$ 2.960 billion, 5.9% higher than its total of R\$ 2.794 billion in 2007. This is a non-controllable cost: the expense recognized in the income statement corresponds to the amount actually passed through to the tariff. See more information on this in Explanatory Note 30 to the Consolidated Financial Statements.

Charges for Use of the Basic Transmission Grid

The expense on charges for use of the transmission network in 2008 was R\$ 724 million, vs. R\$ 650 million in 2007, an increase of 11.4%. These charges are payable by distribution and generation agents for use of the facilities and components of the basic grid, and are set by Aneel resolution.

This is a non-controllable cost: the deduction from revenue recorded is the value effectively passed through to the tariff.

Depreciation and amortization

Depreciation and amortization expenses totaled R\$ 715 million in 2008, compared to R\$ 778 million in 2007, a reduction of 8.10%. This result arises from the depreciation of Special Obligations, from April 8, 2008, the date of the second-cycle Tariff Review.

Post-employment obligations

Expenses on post-employment obligations in 2008, at R\$ 264 million, were 114.6% higher than in 2007 (R\$ 123 million). These expenses basically represent the interest applicable to Cemig's actuarial obligations, net of the investment yield expected from the assets of the plans, estimated by an external actuary. The higher expense in 2008 arises basically from the adjustment to the actuarial assumptions in December 2007, with reduction of the interest rates used for discounting the actuarial obligations to present value.

- **Financial revenue (expenses)**

The company posted net financial *expenses* of R\$ 94 million in 2008, which compares with net financial *expenses* of R\$ 346 million in 2007. The main factors in this result are:

- Revenue from cash investments R\$ 92 million higher due to the higher volume of cash invested in 2008.
- Revenue from arrears penalty payments on electricity bills 37.4% higher, at R\$ 169 million in 2008, compared to R\$ 123 million in 2007.

- Financial revenue of R\$ 83 million in 2008, for the financial compensation paid by the stockholders of *RME* for Cemig's waiver of its option to purchase the generation assets of *Light* for a pre-agreed amount. See further details in Explanatory Note 31.
- Net monetary updating on regulatory assets (CVA, Deferred Tariff Adjustment and General Agreement for the Electricity Sector) 52.1% lower. at R\$ 194 million, compared to R\$ 405 million in 2007. This variation arises from the following factors:
 - The lower value of regulatory assets in 2008, due to amortization of the principal regulatory assets constituted
 - Accounting, in 2007, of additional financial revenue in the amount of R\$ 100 million, arising from criteria for updating set by Aneel for the asset relating to transactions in Free Energy during the rationing period. This procedure had no impact on the financial result of 2007, due to the constitution of a provision for losses in the same amount. As a result of this provision constituted in 2007, the account line Provision for Losses on Free Energy was 85.7% lower (R\$ 25 million in 2008, compared to R\$ 175 million in 2007).
 - Reversal of expense, reported in 2008, of R\$ 108 million from the final court decision in favor of *Light* in an action challenging the application of PIS and Cofins taxation to financial revenue. Further information is given in Explanatory Note 24 to the Consolidated Quarterly Information.
 - Lower expenses on the CPMF tax, due to its being abolished.
- Net losses on foreign exchange variations, net of the offsetting effects relating to financial instruments, of R\$ 91 million in 2008, compared to net losses of R\$ 77 million in 2007, arising basically on loans and financings in foreign currency mainly reflecting the appreciation of the USD against the Real in 2008: in 2008 the dollar appreciated by 31.94% against the Real, where in 2007 it depreciated by 17.15%. For part of the debt in foreign currency the Company made swap transactions substituting the Brazilian domestic CDI rate for the variation in the index of the contracts.

For a breakdown of financial revenues and expenses, please see Explanatory Note 28 to the Consolidated Quarterly Information.

- **Income tax and Social Contribution**

Cemig's expenses on income tax and the Social Contribution in 2008 totaled R\$ 914 million, on profit of R\$ 3.291 billion before tax effects, a percentage of 27.80%. Cemig's expenses on income tax and the Social Contribution in 2007 totaled R\$ 623 million, on profit of R\$ 2.939 billion before tax effects, a percentage of 21.2%. These effective rates are reconciled with the nominal rates in Explanatory Note 12 to the financial statements.

- **Employees' profit shares**

In accordance with the 2008 Collective Labor Agreement Cemig allocated profit shares to its employees totaling R\$ 370 million in 2008 (vs. R\$ 455 million in 2007). See Explanatory Note 30 to the Consolidated Financial Statements.

- **Revenue from supply of electricity**

Gross revenue from electricity sales in 2008 was R\$ 3.154 billion, compared to R\$ 2.783 billion in 2007 – an increase of 13.37%. This result primarily arises from volume of electricity sold to industrial consumers 7.11% higher in 2008, at 19,561,574 MWh, than in 2007 (18,262,805 MWh) – reflecting the strong performance of industrial activity up to the third quarter of 2008, and the strategic sales actions carried out by the Company. Additionally, in 2008 the Settlement Price for Differences (PLD), used to value electricity purchases and sales in the Short-term Market, led some consumers to make use of flexible provisions in contracts, expanding electricity purchases.

Revenues from energy sold to other concession holders and under bilateral contracts totaled R\$ 1.084 billion in 2008, compared to R\$ 1.047 billion in 2007 – an increase of 3.53%. Although the volume of electricity sold was 10.84% lower, the average tariff charged was 16.16% higher, increasing from R\$ 77.24 to R\$ 89.72.

- **Revenue from use of the grid**

This revenue is primarily for use, by generating companies and Brazilian grid-participation distributing companies, of the facilities that make up the basic transmission network of Cemig GT, according to amounts set by Aneel resolution. It was 12.18% higher in 2008 than in 2007 (R\$ 617 million in 2008, vs. R\$ 550 million in 2007). The variation arises from:

- An increase of 11.80% in the Permitted Revenue for the transmission market, regulated in July 2008, resulting from application of inflation as measured by the IGP-M inflation index over the previous 12 months.
- Startup of expansions of the network, with consequent addition of revenue by the Regulator.
- A reduction of R\$ 31 million in revenue from the basic grid applied in 2007, as a result of the review of electricity transmission concession holders – annual permitted for new facilities of the basic grid and other transmission facilities, under Aneel decisions.

- **Deductions from operational revenue**

Deductions from operational revenues totaled R\$ 853 million in 2008, compared to R\$ 708 million in 2007, an increase of 20.48%. The principal changes in these expenses are as follows:

The Fuel Consumption Account CCC

This relates to the operational costs of thermal plants in the Brazilian interconnected grids and isolated systems, split pro-rata among electricity concession holders, by Aneel Resolution. This amount is charged to Free Consumers, on their invoice for use of the basic grid, and passed on to Eletrobrás, hence Cemig GT acts only as an agent to pass on this cost. The expense in 2008 was R\$ 34 million, vs. R\$ 42 million in 2007, a reduction of 19.05%.

The Energy Development Account CDE

The deduction from revenue for the CDE in 2008 was R\$ 37 million, vs. R\$ 33 million in 2007, an increase of 12.12%. The amount of this payment is set by a Resolution by the regulator, Aneel. This amount is charged to Free Consumers, on their invoice for use of the basic grid, and passed on to Eletrobrás, hence Cemig GT acts only as an agent to pass on this cost.

The Global Reversion Reserve RGR

The RGR deduction in 2008 was R\$ 85 million, compared to R\$ 72 million in 2007. This charge is a non-controllable cost: it is higher in 2008 since revenue, the basis for its calculation, was higher.

The other deductions from revenue are for charges calculated as a percentage of billing, and their variations thus, substantially, arise from the changes in revenue.

- **Operational costs and expenses**

(excluding Financial revenue/expenses)

Operational costs and expenses	2008	2007	Change, %
Personnel	260	228	14.04
Post-employment obligations	48	23	108.70
Materials	17	18	(5.56)

Charges for the use of the basic transmission grid	272	257	5.84
Electricity purchased for resale	13	75	(83.00)
Other expenses, net	102	80	25.93
	1,248	1,195	4.35

The principal changes in expenses are:

Personnel expenses

Personnel expenses in 2008 totaled R\$ 260 million, compared to R\$ 228 million in 2007, an increase of 14.04%. This principally reflects:

- Salary increases of 5.00% and 7.26%, given to employees in November 2007 and 2008, respectively.
- Dismissal expenses of R\$ 14 million, under the Voluntary Dismissal Program.
- Lower transfer of costs from Personnel expenses to Works in progress (R\$ 13 million in 2008 vs. R\$ 23 million in 2007) due to less capital expenditure activity in 2008.

There is a breakdown of Personnel expenses in Explanatory Note 22 to the Consolidated Financial Statements.

Post-employment obligations

Expenses on post-employment obligations in 2008 were R\$ 48 million in 2008, compared to R\$ 23 million in 2007, 108.70% higher. These expenses basically represent interest on the actuarial liabilities of Cemig GT, net of the expected return on the plans' assets, as estimated by an external actuary. The higher expense in 2008 arises from the adjustment to the actuarial assumptions in 2008, with reduction of the interest rates used for discounting the actuarial obligations to present value.

Charges for Use of the Basic Transmission Grid

The expense on charges for use of the transmission network are payable by generation agents for use of the facilities and components of the basic grid. The increase of R\$15 million in this expense in 2008 mainly reflects the startup of the Irapé plant, the average adjustment of 3.5% in the TUST transmission tariff in 2007 (full effect in 2008), and the average adjustment of 11.5% in the TUST in June 2008.

Electricity purchased for resale

The expense on this account in 2008 was R\$ 13 million in 2008, vs. R\$ 75 million in 2007, a reduction of 83.00%. The lower expense arises from a lower quantity of electricity bought in the short-term market in 2008.

- **Financial revenues (expenses)**

Cemig GT's net financial expenses were 24.62% lower in 2008, at R\$ 245 million, than in 2007 (R\$ 325 million). The highest variations in this line are from:

- Revenue from monetary adjustment on amounts receivable under the General Agreement for the Electricity Sector 85.06% lower, at R\$ 23 million in 2008, vs. R\$ 154 million in 2007. This mainly reflects the accounting in the second half of 2007 of financial revenue of R\$ 100 million, arising from criteria for updating set by Aneel for assets relating to transactions in Free Energy during the period of rationing. This procedure had no impact on the financial result of 2007 due to the constitution of a provision for losses in the same amount. As a result of this provision constituted in 2007, the account line *Provision for losses on Free Energy* was 86.98% lower (R\$ 19 million in 2008, compared to R\$ 146 million in 2007).
- Revenue of R\$ 125 million from cash investments in 2008, compared to R\$ 93 million in 2007 due to investment of a higher volume of cash.
- Recognition in 2008 of net revenue of R\$14 million from adjustment of assets and liabilities to present value in compliance with CVM Instruction 469 of May 2, 2008.
- Reduction of the expense on the CPMF tax, due to its being abolished.
- Net losses on foreign exchange variations, net of the offsetting effects relating to financial instruments, of R\$ 44 million in 2008, compared to net losses of R\$ 48 million in 2007, arising basically on loans and financings in foreign currency. The foreign exchange loss in 2008 arises principally from the depreciation of the Real against the dollar and the Yen, the principal currencies in which our external financing contracts are indexed. The effect in the income statement in 2008 was not significant compared to 2007, due to the offsetting resulting from the derivative financial instruments employed. The FX variations in isolation gave rise to a net loss of R\$ 53 million in 2008, compared to a gain of R\$ 26 million in 2007. The US dollar *appreciated* against the Real in 2008 by 31.94%, which compares to its

depreciation of 17.15% over 2007. The Yen appreciated by 62.89% in 2008, compared to depreciation of 11.78% in 2007. For part of the debt in foreign currency the Company made swap transactions substituting the Brazilian domestic CDI rate for the variation in the index of the contracts.

There is a breakdown of financial revenues and expenses in Explanatory Note 23 to the Consolidated Financial Statements.

- **Income tax and the Social Contribution tax**

Cemig GT's expenses on income tax and the Social Contribution in 2008 totaled R\$ 383 million, on profit of R\$ 1.455 billion, before tax effects, a percentage of 26.32%. Cemig GT's expenses on income tax and the Social Contribution in 2007 totaled R\$ 283 million, on profit of R\$ 1.145 billion before tax effects, a percentage of 24.72%. These effective rates are reconciled with the nominal rates in Explanatory Note 9 to the Consolidated Financial Statements.

Payment of Interest on Equity to stockholders in 2008, totaling R\$ 187 million, resulted in a tax gain of approximately R\$ 64 million.

- **Employees profit shares**

Under the Collective Work Agreement of 2008 Cemig GT allocated R\$ 86 million to its employees as profit shares which compares with R\$ 110 million in 2007. There is more information on this in Explanatory Note 24 to the Consolidated Financial Statements.

= Adjusted Ebitda (not audited)	1,582	1,795	(11.70)

* Non-recurring adjustments reflect the company's interpretation of events which it deems to be extraordinary, not related to current operations.

- **Retail supply to captive consumers**

The main factors affecting revenue from final consumers in 2008 were:

- The tariff adjustment of April 8, 2007, *increasing* consumers' average tariffs by 5.16% (full effect in 2008).
- The tariff repositioning from the four-yearly Tariff Review, in effect from April 8, 2008, with average effect on consumers' tariffs of a *reduction* of 12.08%.
- Quantity of electricity invoiced to final consumers 7.57% higher.
- Recognition of non-recurring revenue, relating to financial items for previous years that were included in the tariff, resulting in constitution of a Regulatory Asset with gross value of R\$ 67 million in 2008.
- Reduction in revenue from supply of electricity in the last quarter of 2008, reflecting the effects on the Brazilian economy of the retraction in the world economy, the strongest impact being on industrial production.

This chart shows quarterly variations in retail supply:

GWh invoiced to final consumers

Quarterly

Annual

- **Revenue from use of the network – Free Consumers**

This revenue is from the Tariff for Use of the Electricity Distribution Systems (TUSD), charged to Free Consumers for transport of the energy sold by other agents in the Company's concession area, principally Cemig GT, and was 5.72% higher in 2008, at R\$ 1.397 billion, compared to R\$ 1.321 billion in 2007. The increase reflects the average increase of 2.5% in the tariff, and higher demand for electricity in 2008, reflecting the growth in industrial production, especially up to October 2008 – since in the last quarter of the year Brazilian industrial production was negatively affected by the international financial situation.

- **Non-controllable costs**

The differences between the sums of non-controllable costs (also referred to as CVA) used as a reference in the calculation of the tariff adjustment and the disbursements in fact made are compensated for in the subsequent tariff adjustments, and are recorded in Assets and Liabilities.

As from March 2008 the company began to receive, in the tariff, the amounts posted under – Portion A – in Assets. At this point the portion of non-controllable costs that is actually received in the tariff is transferred to Operational expenses, as shown in Explanatory Note 7, Item – b –.

- **Deductions from operational revenues**

Deductions from operational revenues were 1.19% higher in 2008, at R\$ 3.877 billion, compared to R\$ 3.924 billion in 2007. The most significant changes in these expenses are:

- **The Fuel Consumption Account – CCC**

The deduction from revenue for the CCC in 2008 was R\$ 330 million, 14.98% more than the R\$ 287 million deducted in 2007. This relates to the operational costs of thermal plants in the Brazilian grid and isolated systems, split among electricity concession holders, quantified by a resolution of the regulator,

Aneel. This is a non-controllable cost; the amount deducted from revenue is passed through to tariffs.

The Global Reversion Reserve RGR

The RGR deduction in 2008 was R\$ 72 million, compared to R\$ 52 million in 2007 due to the equivalent increase in 2008 in the book value of Fixed assets in service, which is the basis for calculation of this expense.

The Energy Development Account CDE

The deduction from revenue for the CDE in 2008 was R\$ 292 million, vs. R\$ 304 million in 2007, a reduction of 3.95%. The amount of this payment is set by a Resolution by the regulator, Aneel. This is a non-controllable cost: the deduction from revenue recorded is the amount actually passed through to the tariff.

The other deductions from revenue are calculated as a percentage of billing, hence their variations arise, substantially, from the changes in revenue.

	2,011	1,955	2.86
	4,894	4,569	7.11

The 7.11% increase in operational costs and expenses arises mainly in Energy bought for resale, Personnel expenses and Post-employment obligations, and is partially offset by lower Operational provisions and Depreciation and amortization. For more information on the breakdown of operational costs and expenses, see Explanatory Note 25 to the Financial Statements.

The principal changes in expenses are:

Personnel

Personnel expenses in 2008 total R\$ 748 million, vs. R\$ 619 million in 2007, an increase of 20.84%. This principally reflects wage increases of 5.00% and 7.26% given to the employees in November 2007 and 2008, respectively, and also lower transfer of personnel costs to Works in progress, due to the smaller capital expenditure program; also a provision for the Voluntary Dismissal Program (PPD), in the amount of R\$ 34,931, in 2008 partially offset by the reduction of 3.43% in the number of employees in 2008. At the end of 2008 Cemig D had 8,031 employees, compared to 8,317 at the end of 2007. The breakdown of personnel expenses can be seen in Explanatory Note 25 to the Financial Statements.

Electricity purchased for resale

The expense on this account in 2008 was R\$ 2.417 billion, 11.69% higher than in 2007 (R\$ 2.164 billion). This is a non-controllable cost: the deduction from revenue recorded is the value actually passed through to the tariff. There is more information on this expense in Explanatory Note 25 to the Financial Statements.

Charges for the use of the basic transmission grid

The expense on charges for use of the transmission network in 2008 was R\$ 459 million, vs. R\$ 447 million in 2007, an increase of 2.68%. These charges are payable by distribution and generation agents for use of the facilities and components of the basic grid, and are set by Aneel resolution. This is a non-controllable cost: the deduction from revenue recorded is the value effectively passed through to the tariff.

Post-employment obligations

Expenses on post-employment obligations in 2008 were R\$ 149 million, compared to R\$ 73 million in 2007, an increase of 104.11%. These expenses basically represent interest on the actuarial liabilities of Cemig Distribution, net of the expected return on the plans' assets, as estimated by an external actuary.

The higher expense in 2008 arises basically from the adjustment to the actuarial assumptions in 2008, with reduction of the interest rates used for discounting the actuarial obligations to present value.

Depreciation and amortization

Deductions from depreciation and amortization totaled R\$ 354 million in 2008, compared to R\$ 417 million in 2007, a reduction of 15.11%. This result arises from the depreciation of Special Obligations, from April 8, 2008, the date of the second-cycle tariff review.

Operational provisions

Operational provisions in 2008 totaled R\$ 88 million, compared to R\$ 176 million in 2007 – a reduction of 50.0%. Contingencies for legal proceedings were reduced by R\$ 26 million in 2008, from 2007, and the provision for doubtful receivables was reduced by R\$ 33 million. Another reason for the total being lower in 2008 was the provision made in 2007 for DNAEE Ministerial Order 45/86, in the amount of R\$ 36 million. More information on these expenses can be seen in Explanatory Notes 19 and 25 to the Financial Statements.

- **Financial revenue (expenses)**

The company posted net financial *expenses* of R\$ 7 million in 2008, compared to net financial *expenses* of R\$ 11 million in 2007. The main factors are:

- Revenue from cash investments R\$ 42 million higher due to a higher volume of cash invested in 2008.

- Revenue from late payment penalties from clients in arrears 28.04% higher, at R\$ 137 million in 2008, vs. R\$ 107 million in 2007. The company also recognized revenue of R\$ 10.5 million, following payment by large industrial consumers of overdue invoices of previous years which included financial charges.
- Lower revenue in 2008 R\$ 84 million, compared to R\$ 202 million in 2007 from monetary adjustment on amounts receivable under the General Agreement for the Electricity Sector, reflecting the lower value of the regulatory assets in 2008, since part of them had been amortized.
- Revenue from monetary variation and interest on the deferred tariff adjustment in 2008 was R\$ 77 million, 40,77% less than its total of R\$ 130 in 2007. This mainly reflects the reduction of the size of the asset due to receipt of some of the values receivable into electricity accounts paid by clients. For further explanations please see Explanatory Note 11 to the Financial Statements.
- Increase in the expense on monetary correction of loans and financings in Brazilian currency, R\$ 65 million in 2008 compared to R\$ 36 million in 2007. This increase arises from the variations in the IPCA and the IGP-M inflation indices over the whole of 2008: the IPCA index rose 5.90% in 2008, compared to 4.46% in 2007; and the IGP-M index rose 9.81% in 2008, compared to 7.75% in 2007.
- Lower expenses on the CPMF tax, due to its being abolished.
- Net losses on foreign exchange variations, net of the offsetting effects relating to financial instruments, of R\$ 48 million in 2008, compared to net losses of R\$ 3 million in 2007, arising basically on loans and financings in foreign currency. This change is principally due to the appreciation of the dollar against the Real in 2008. In 2008 the dollar appreciated by 31.94% against the Real, where in 2007 it depreciated by 17.15%. For part of the debt in foreign currency the Company made swap transactions substituting the Brazilian domestic CDI rate for the variation in the index of the contracts.

There is a breakdown of financial revenues and expenses in Explanatory Note 26 to the Financial Statements.

- **Income tax and the Social Contribution tax**

Cemig D's expenses on income tax and the Social Contribution in 2008 totaled R\$ 273 million, on profit of R\$ 1.246 billion before tax effects, a percentage of 21.91%. Cemig D's expenses on income tax and the Social Contribution in 2007 totaled R\$ 312 million, on profit of R\$ 1.418 billion before tax effects, a percentage of 22.00%. These effective rates are reconciled with the nominal rates in Explanatory Note 10 to the Financial Statements.

- **Employees profit shares**

Under the 2008 Collective Labor Agreement Cemig allocated profit shares to its employees totaling R\$ 263 million (R\$ 332 million in 2007). For further explanations please see Explanatory Note 27 to the Financial Statements.

4. Minutes of the Extraordinary General Meeting of Stockholders, Companhia Energética de Minas Gerais CEMIG, March 5, 2009

COMPANHIA ENERGÉTICA DE MINAS GERAIS CEMIG

Listed company - CNPJ 17.155.730/0001-64 NIRE 31300040127

**MINUTES OF THE EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS
HELD ON MARCH 5, 2009**

At 11 a.m. on March 5, 2009, **stockholders** representing more than two-thirds of the voting stock of Companhia Energética de Minas Gerais Cemig met in **Extraordinary General Meeting** at its head office, on first convocation, at Av. Barbacena 1200, 18th Floor, Belo Horizonte, Minas Gerais, Brazil, as verified in the Stockholders Attendance Book, where all those present signed and made the required statements.

The stockholder **The State of Minas Gerais** was represented by Mr. José Bonifácio Borges de Andrada, Attorney-General of the State of Minas Gerais, in accordance with the legislation. Initially, Ms. Anamaria Pugedo Frade Barros, Superintendent of Cemig's Corporate Executive Secretariat, informed those present that there was a quorum for the Extraordinary General Meeting of Stockholders.

She further stated that the stockholders present should choose the Chairman of this Meeting, in accordance with Clause 10 of the Company's Bylaws.

Asking for the floor, the representative of the Stockholder State of Minas Gerais put forward the name of the stockholder **Manoel Bernardino Soares** to chair the Meeting.

The proposal of the representative of the Stockholder State of Minas Gerais was put to the vote, and unanimously approved.

The Chairman then declared the Meeting open and invited me, Anamaria Pugedo Frade Barros, a stockholder, to be Secretary of the meeting, requesting me to read the convocation notice, published in the newspapers *Minas Gerais*, official publication of the Powers of the State, *O Tempo*, and *Gazeta Mercantil* on February 17, 18 and 19, the content of which is as follows:

COMPANHIA ENERGÉTICA DE MINAS GERAIS CEMIG

LISTED COMPANY CNPJ 17.155.730/0001-64 NIRE 31300040127

**EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS:
CONVOCATION**

Stockholders are hereby called to an Extraordinary General Meeting of Stockholders to be held on March 5, 2009 at 11 a.m. at the company's head office, Av. Barbacena 1200, 18th floor, in the city of Belo Horizonte, Minas Gerais, to decide on the following matters:

1 Change in the composition of the Board of Directors, as a result of resignations, as per correspondence filed at the company.

2 Orientation of vote, for the representative of Companhia Energética de Minas Gerais at the Extraordinary General Meetings of Stockholders of Cemig Geração e Transmissão S.A. to be held on March 5, 2009.

Under Article 3 of CVM Instruction 165 of December 11, 1991, adoption of the multiple voting system for election of members of the company's Board requires the vote of stockholders representing a minimum percentage of 5% (five per cent) of the voting stock.

Any stockholder who wishes to be represented by proxy in the said General Meeting of Stockholders should obey the terms of Article 126 of Law 6406/76, as amended, and of the sole paragraph of Clause 9 of the Company's Bylaws, depositing, preferably by March 3, 2009, proofs of ownership of the shares, issued by a depositary financial institution, and a power of attorney with special powers, at Cemig's Corporate Executive Secretariat Office at Av. Barbacena 1200, 19th floor, B1 Wing, Belo Horizonte, Minas Gerais, or showing them at the time of the meeting.

Belo Horizonte, February 12, 2009 Djalma Bastos de Morais Vice-Chairman of the Board of Directors

Av. Barbacena 1200 Santo Agostinho 30190-131 Belo Horizonte, MG Brazil Tel.: +55 31 3506-5024 Fax +55 31 3506-5025

Before the items on the agenda of this meeting were put to debate and to the vote, the representative of the stockholder **Southern Electric Brasil Participações Ltda.** stated that the changes in the Bylaws made by the Extraordinary General Meeting of Stockholders of October 25, 1999, and also the subsequent alterations, were approved only by virtue of the suspension of the Stockholders Agreement, by decision of the Courts, and were thus provisional and precarious.

He stated that hence the acts and operations practiced or submitted to approval by the management bodies of Cemig, supported by the said changes in the Bylaws made under the protection of the Court decision in force today, may, at any moment, be reviewed and withdrawn from the world of legal existence.

On this question, the representative of the stockholder **State of Minas Gerais reminded the meeting that the decision which annulled the Stockholders Agreement signed between the State of Minas Gerais and Southern Electric Brasil Participações Ltda. no longer has an interim or provisional character. It is, he said, a decision on the merit and it is thus a case not of suspension but of annulment.**

He added that there is already in existence a decision on the merit that annuls the Stockholders Agreement, confirmed by the Appeal Court of the State of Minas Gerais. He further explained that the decisions of this Meeting can only take into account what exists at the present moment, and that it would be irresponsible not to vote on matters, in expectation of Court decisions, since, in reality, the said Stockholders Agreement, by force of Court judgment, cannot produce any effect and the decisions taken are being taken within strict compliance with the Court decision.

Finally, he noted that the Extraordinary and Special Appeals brought by Southern were not admitted by the Vice-chairman of the Minas Gerais Appeal Court, and that the Higher Appeal Court refused the interlocutory and special appeals brought by Southern, thus underlining and reinforcing the legal situation already stated by the Minas Gerais Appeal Court, that is to say, the inefficacy of the Stockholders Agreement subject of the action.

Once again taking the floor, the representative of Southern Electric Brasil Participações Ltda. stated that the Interlocutory Appeal brought against the dispatch denying the Extraordinary Appeal is awaiting judgment in proceedings in the Federal Supreme Court.

The chairman then stated that **the Board members Márcio Araújo de Lacerda and Aécio Ferreira da Cunha had resigned** their positions as sitting members of the Board of Directors, according to correspondence in the company's possession.

Continuing, he stated that since **adoption of the Multiple Vote** was requested by the stockholder Southern Electric Brasil Participações Ltda., in a letter in the Company's possession, 13,459,799 common shares will be necessary for the election of each member of the Board of Directors, and that this Meeting should now elect all the sitting and substitute members of the Board of Directors to complete the period of office of 3 (three) years begun on April 28, 2006, that is to say, up to the Ordinary General Meeting to be held in 2009.

Finally, he explained that it would be necessary firstly and in view of Clause 12 of the Bylaws, to hold an **election** of the sitting **Board member** and his respective replacement put forward by representatives of the **holders of the preferred shares**, and only then to apply the instrument of Multiple Vote to fill the remaining vacancies on the Board of Directors.

Asking for the floor, as owners of preferred shares, the representatives of the stockholders **Previ** (Banco do Brasil Pension Fund) and **Forluz** (*Fundação Forluminas de Seguridade Social*) proposed the following stockholders to be **members of the Board of Directors**:

As Board member:
Wilton de Medeiros Daher Brazilian, married, company manager, resident and domiciled in Fortaleza, Ceará, at Rua Barbosa de Freitas 200/1700, Meireles, CEP 60170-020, bearer of Identity Card 2008010074941, issued by the Public Safety Dept of the Federal District, and CPF 003534344-34;

and as his substitute member,

The Chairman then submitted the above-mentioned nominations to debate, and, subsequently to votes separately, with only holders of preferred shares participating, and they were approved by majority vote.

The Chairman explained that, to complete the Board of Directors, the representative of the stockholder **Southern Electric Brasil Participações Ltda.** should put forward 5 sitting members and their respective substitute members, and the representative of the stockholder **State of Minas Gerais** should put forward 8 sitting members and the respective substitute members.

Asking for the floor, the representative of Stockholder **Southern Electric Brasil Participações Ltda.** put forward the following stockholders as **members of the Board of Directors**:

as Sitting Members:

Britaldo Pedrosa Soares Brazilian, married, engineer, resident and domiciled at São Paulo, São Paulo State, at Rua João Cachoeira 292/143, Vila Nova Conceição, CEP 04535-000, bearer of Identity Card MG-228266, issued by the Public Safety Department of the State of Minas Gerais, and CPF 360634796-00;

respectively.

The nominations by the stockholder **Southern Electric Brasil Participações Ltda.** and the representative of the stockholder **State of Minas Gerais** were put to the vote and **approved by majority of votes**. The representative of the stockholder Southern Electric Brasil Participações Ltda. voted for the board members that he had proposed, and the representative of the stockholder State of Minas Gerais voted for those members that he had proposed.

The Board Members elected declared in advance that they are not subject to any prohibition on exercise of commercial activity, that they do not occupy any post in a company which may be considered a competitor of the Company, and that they do not have nor represent any interest conflicting with that of Cemig GT, and assumed a solemn undertaking to become aware of, obey and comply with the principles, ethical values and rules established by the Code of Ethical Conduct of Government Workers and Senior Administration of the State of Minas Gerais.

The Chairman stated that as a result of the change in the composition of the Board of Directors of Cemig and according to Clause 11 of the Bylaws, there is a need to change the composition of the Boards of Directors of the wholly-owned subsidiaries Cemig D and Cemig GT, since the structure and composition of their Boards of Directors should be the same as of the Board of Directors of Cemig.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

He then asked the Secretary to **read the Proposal** by the Board of Directors relating to the authorization for the representatives of Cemig in the Extraordinary General Meetings of Stockholders of Cemig D and Cemig GT to be held also on March 5, 2009, to vote in favor of the alteration in the composition of the Boards of Directors of the respective Companies, the content of which is as follows:

**PROPOSAL BY THE BOARD OF DIRECTORS
TO THE EXTRAORDINARY GENERAL MEETING
OF STOCKHOLDERS TO BE HELD ON MARCH 5, 2009.**

Dear Stockholders:

**The Board of Directors of Companhia Energética de Minas Gerais - Cemig,
whereas:**

- a) an Extraordinary General Meeting of Stockholders of Cemig will be held to change the composition of the Board of Directors;
b) Clause 11, §1 of the Bylaws of Cemig states as follows:

Clause 11 § 1

The structure and composition of the Board of Directors and the Executive Board of the company shall be identical in the wholly-owned subsidiaries Cemig Distribuição S.A and Cemig Geração e Transmissão S.A., with the exception that only the subsidiary Cemig Distribuição S.A shall have a Chief Energy Distribution and Sales Officer and the respective Department, and only the subsidiary Cemig Geração e Transmissão S.A. shall have a Chief Energy Generation and Transmission Officer and the respective Department. ;

- c) Clause 8 of the Bylaws of Cemig G and of Cemig GT, states as follows:

Clause 8:

§ 1

The company's Board of Directors shall be made up of 14 (fourteen) members and an equal number of substitute members. One of the members shall be its Chairman and another its Vice-Chairman, all being subject to election and dismissal at any time by the General Meeting of Stockholders, for a period of office of 3 (three) years, and able to be reelected. The members of the Board of Directors must, obligatorily, be the same members of the Board of Directors of the sole stockholder, Cemig. ;

now proposes to you:

that the representatives of Cemig in the Extraordinary General Meeting of Stockholders of Cemig Distribuição S.A. and in the Extraordinary General Meeting of Stockholders of Cemig Geração e Transmissão S.A. to be held on March 5, 2009 should vote in favor of the matters on the agenda, that is to say, alteration of the composition of the Board of Directors, if there is a change in the composition of the Board of Directors of Cemig.

**MINUTES
OF THE
EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS
HELD ON MARCH 5, 2009**

At 4 p.m. on March 5, 2009, the stockholder **Companhia Energética de Minas Gerais**, holder of 100% of the voting stock, attended in Extraordinary General Meeting, on first convocation, at its head office, Av. Barbacena 1200, 17th Floor, A1 Wing, Belo Horizonte, Minas Gerais, Brazil, represented by its Chief Executive Officer **Djalma Bastos de Moraes**, and by its Chief Distribution and Sales Officer **Fernando Henrique Schüffner** Neto, as verified in the Stockholders Attendance Book.

Initially and in accordance with Clause 6 of the Bylaws, the representatives of the stockholder Companhia Energética de Minas Gerais proposed the name of the Deputy CEO, Marco Arlindo Porto Neto, to chair the meeting. This proposal was put to the vote, and approved.

The Chairman then declared the Meeting open and invited me, Anamaria Pugedo Frade Barros, Superintendent of Cemig's Corporate Executive Office, to be Secretary of the meeting, requesting me to read the convocation notice, published in the newspapers *Minas Gerais*, official publication of the Powers of the State, *O Tempo*, and *Gazeta Mercantil* on February 17, 18 and 19 of this year, the content of which is as follows:

**EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS:
CONVOCATION**

The stockholder **Companhia Energética de Minas Gerais** is hereby called to an Extraordinary General Meeting of Stockholders to be held on March 5, 2009 at 4 p.m. at Av. Barbacena 1200, 17th floor, A1 Wing, in the city of Belo Horizonte, Minas Gerais, to decide on a change in the composition of the Board of Directors, if there is a change in the composition of the Board of Directors of **Cemig**. Belo Horizonte, February 12, 2009

Djalma Bastos de Moraes Vice-Chairman of the Board of Directors .

The Chairman then stated that the meeting should on this occasion decide on changes to the composition of the Board of Directors of Cemig D, considering that:

- 1) under the Sole sub-paragraph of Clause 8 of the Bylaws, the members of the Board of Directors of this Company shall, obligatorily, be the same members of the Board of Directors of the sole stockholder, Cemig (Companhia Energética de Minas Gerais);
- 2) the resignation of the sitting Board Members Márcio Araújo de Lacerda and Aécio Ferreira da Cunha, as per letters in the Company's possession; and
- 3) that the appointment of new members to the Board of Directors of Cemig was approved by the Extraordinary General Meeting of Stockholders held this morning, at 11 a.m.

This being so, the representative of the stockholder Companhia Energética de Minas Gerais, to complete the Board of Directors for the remainder of the present Board's current period of office, that is to say until the Annual General Meeting of Stockholders to be held in 2010, proposed:

- 1) election, as sitting member, of Mr. **Sérgio Alair Barroso** Brazilian, married, economist, resident and domiciled at Belo Horizonte, Minas Gerais at Rua Bernardo Guimarães

Cemig Corporate Executive Office - SG

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

having as his substitute member Mr. Paulo Sérgio Machado Ribeiro;

2) transfer of Mr. **Eduardo Lery Vieira** Brazilian, separated, engineer, resident and domiciled at Belo Horizonte, Minas Gerais, at Rua Aripuanã 80/302, Estoril, CEP 30455-830, bearer of Identity Card M-975155, issued by the Public Safety Department of the state of Minas Gerais, and CPF 079802996-04

from the position of substitute member to the position of sitting member; and

3) election of Mr. **Kleber Antonio de Campos** Brazilian, married, economist, resident and domiciled at Belo Horizonte, Minas Gerais at Rua Califórnia 1000/1201, Sion, CEP 30315-500, bearer of Identity Card n° M-369246, issued by the Public Safety Department of the State of Minas Gerais, and CPF n° 137244286-34

as substitute member for the Board member Eduardo Lery Vieira.

The above-mentioned proposal by the representatives of the stockholder Companhia Energética de Minas Gerais Cemig was put to the vote, and approved.

The Board Members elected declared in advance that they are not subject to any prohibition on exercise of commercial activity, that they do not occupy any post in a company which may be considered a competitor of the Company, and that they do not have nor represent any interest conflicting with that of Cemig GT, and assumed a solemn undertaking to become aware of, obey and comply with the principles, ethical values and rules established by the Code of Ethical Conduct of Government Workers and Senior Administration of the State of Minas Gerais.

The Chairman then explained that Companhia Energética de Minas Gerais has assigned, to each new member of the Board of Directors, as its fiduciary agent, one single share owned by itself, for the period for which such members remain as members of the Board of this company, solely and exclusively to comply with the requirement that the members of the Board of Directors must be shareholders of the company.

Finally, he said that, once the Board Members have completed their period of office or if they were dismissed from their positions, the shares granted to them shall be automatically transferred back to Cemig, without there being any need whatsoever for signature by the Board Members in question. The fiduciary nature of the assignment of the shares is based on the legal principle that determines that a person who receives an asset in this case, the share has the commitment to reconstitute it in a certain event, in this case, the end of the term of office, or leaving office, or being dismissed from it.

The Chairman then stated that **the Board of Directors of the Company is now constituted as follows:**

Sitting members:

Sérgio Alair Barroso,
Djalma Bastos de Moraes,
Eduardo Lery Vieira,
Alexandre Heringer Lisboa,

João Camilo Penna,
Wilton de Medeiros Daher,

Meeting committee: Chairman: Djalma Bastos de Moraes;
Secretary: Anamaria Pugedo Frade Barros.

Summary of proceedings:

I The Chairman asked the Board members present whether any of them had conflict of interest in relation to the matters on the agenda of this meeting, and all stated that there was no such conflict of interest.

II The Board approved the minutes of this meeting.

III The Board approved:

- the revision of **Project 1565/05 Baguari Hydroelectric Plant;**

and authorized:

- **signing by Cemig GT** of the Financing Contract with the **Brazilian Development Bank (BNDES)**, in which **Cemig** and **Baguari Energia S.A.** are consenting parties, in accordance with BNDES Decision DIR-1074/2008, the funds to be used for reimbursement of part of the capital injections made, and for part of future capital injections into **Baguari Energia S.A.**; and
- **that the representatives of Cemig GT**, in the Extraordinary General Meeting of Stockholders of **Baguari Energia S.A.**, should vote in favor of the increase of the registered capital of that Company, to two hundred and sixty five million Reais, and the subscription of shares by **Cemig GT**, corresponding to the percentage of its present holding in that Company, using for paying-up of the shares the

injections of capital already made and to be made, by **Cemig GT**, into the **Baguari Hydroelectric Plant Consortium**;

- the above-mentioned capital injection, and signing, as consenting party, of the financing contract to be signed between **Cemig GT** and the **BNDES**, both to be submitted for approval by the next Ordinary General Meeting of Stockholders of **Cemig GT**.

IV The Board authorized:

1 **Signing**, as consenting party, jointly with **Madeira Energia S.A. (MESA)**, **Andrade Gutierrez Participações S.A.**, **Construtora Norberto Odebrecht S.A.**, **Fundo de Investimento em Participações Amazônia Energia**, **Furnas Centrais Elétricas S.A.**, **Odebrecht Investimentos em Infra-estrutura Ltda.** and **Odebrecht S.A.**, and with **Santo Antônio Energia S.A. 2 **Signing**, as consenting party, jointly with **MESA**, **Andrade Gutierrez Participações S.A.**, **Construtora Norberto Odebrecht S.A.**, **Fundo de Investimento em Participações Amazônia Energia**, **Furnas Centrais Elétricas S.A.**, **Odebrecht Investimentos em Infra-estrutura Ltda.** and **Odebrecht S.A.**, and also with **SAESA** and with **Banco Santander S.A.**, **Banco Bradesco S.A.**, **Banco do Brasil S.A.**, **UNIBANCO União de Bancos Brasileiros S.A.**, **Banco do Nordeste do Brasil S.A.**, **Caixa Econômica Federal**, **BES Investimento do Brasil S.A.**

Av. Barbacena, 1200 - Santo Agostinho - CEP 30190-131 Belo Horizonte - MG - Brasil - Tel.: (0XX31)3506-5024

Banco de Investimento and Banco da Amazônia S.A., of the Onlending Credit Facility Financing Contract.

3

Signing, as a party, jointly with **the other shareholders of MESA, MESA itself, SAESA and its creditors and Odebrecht S.A.**, of the Contract for Support by Stockholders and Other Matters, in which the private shareholders undertake, irrevocably, to inject into **MESA** an amount equivalent to 51% of the past due debt of **SAESA**, including principal, interest, fees, penalty payments and charges specified in the financing instruments, in the form of capital, by means of subscription and paying-up, in Brazilian currency, of new nominal common shares of the capital of **MESA**, without par value, in the event of non-payment of an installment of the principal and/or accessory amounts of the Financing Instruments or in the event of declaration of early maturity of the financing instruments.

4

Signing, as a party, jointly with **the other stockholders of MESA, MESA itself, SAESA and its creditors and Odebrecht S.A.**, of the Contract for Support by the Stockholders for Coverage of Shortfalls and Other Matters, in which the stockholders undertake, in accordance with their respective stockholding interests in the registered capital of **MESA**, irrevocably, to inject into **MESA** the necessary funds, in the form of capital, by subscription and paying-up, in Brazilian currency, of new nominal common shares of the capital of **MESA**, without par value, in the event of an Ordinary Capitalization Event or an Extraordinary Capitalization Event.

5

that the representative of **Cemig GT**, in the meeting of **MESA** that decides on the increase of capital arising from an Ordinary Capitalization Event, should vote in favor thereof, also authorizing **Cemig GT** to subscribe and pay up 10% of the shares issued in this capital increase, within the periods necessary for compliance with the obligations specified in the Agreement. Any capital increase arising from an Extraordinary Capitalization Event shall be the subject of specific decision by the Board of Directors of **Cemig GT**.

6

Signing, as consenting party, jointly with **the other stockholders of MESA**, and also with **MESA** itself and the **creditors of SAESA**, with **SAESA** as consenting party, of the Contract to Pledge the Totality of the Shares issued by Santo Antônio Energia S.A. and Other Matters, under which, to ensure the payment of all the obligations arising from the financing instruments, including but without limitation those relating to the principal of the debt, interest, fees, contractual penalty payments, penalty payments and expenses, and also the repayment of all and any amount that the creditors may disburse by reason of the constitution, confirmation or exercise of rights, or of performance of the pledge now given as specified in the contract, and/or of the execution of the other guarantees, **MESA** irrevocably pledges goods and rights in favor of the creditors.

7

Signing, as a party, together with the **other stockholders of MESA, MESA** itself, **SAESA** and its creditors, **Odebrecht S.A.** and a **bank** to be indicated for collection/centralization of funds, of the Contract for Fiduciary Assignment of Rights, Administration of Accounts and Other Matters, the object of which is to regulate fiduciary assignment by **SAESA** and by **MESA** in favor of the **creditors**.

V The Board authorized:

A)

Signing, as consenting party, jointly with **Andrade Gutierrez Participações S.A., Construtora Norberto Odebrecht S.A., Fundo de Investimento em Participações Amazônia Energia, Furnas Centrais Elétricas S.A. and Odebrecht Investimentos em Infra-estrutura Ltda.**, and also with (Issuer), **Fundo de Investimento do Fundo de Garantia do Tempo de Serviço (FI-FGTS)** (Debenture Holder), **Pentágono S.A. Distribuidora de Títulos e Valores Mobiliários** (Fiduciary Agent) and **SAESA** (consenting party), of the Private Deed of the First Private Issue of Non-Convertible Debentures, in Six Series, of the Subordinated Type, Subject to Conversion to the Unsecured Type, in the amount of one billion, five hundred million Reais.

- B) **Signing**, as a party, jointly with **the other stockholders of MESA**, and also with **MESA** itself and **FI-FGTS**, as consenting parties, of the Stockholders Agreement and Procedures for Capitalization of Madeira Energia S.A. (**MESA**) and Other Matters, the object of which is to define procedures that ensure rapid and efficient performance, by **MESA** or, as the case may be, by **FI-FGTS** or by the administrator of the Fund, of the obligations assumed by each stockholder and each consenting party in that agreement and in the Debenture Deed. By this instrument **Cemig GT**, with the other stockholders, undertakes to subscribe and to pay up an increase in the capital of **MESA**, so that **MESA** may settle its obligations assumed under the Private Deed of Private Issue of Debentures in **MESA**.
- C) **Granting** of a mandate by **Cemig GT** to **FI-FGTS** as its sole and exclusive attorney. Without prejudice to the other obligations specified in this Agreement, the **Stockholders** undertake, proportionately to their respective stockholding interests in the registered capital of the Company, to make injections of capital into **MESA** in such a way that the total subscribed registered capital of the Company reaches or exceeds the amounts of:

two hundred fifty nine million, four hundred fifty five thousand Reais by July 31, 2011;
five hundred eighteen million, nine hundred nine thousand Reais by December 31, 2011;
seven hundred fifty million Reais by May 31, 2012;
one billion two hundred forty million five hundred forty six thousand Reais by September 30, 2012;
and one billion five hundred million Reais by December 31, 2012.

- D) **that** the representative of **Cemig GT** in the meeting of **MESA** that decides the said increases of capital, should decide in favor thereof, also authorizing **Cemig GT** to subscribe and pay up 10% of the shares of **MESA** issued in the capital increases, in the periods necessary for compliance with the obligations specified in the Agreement.
- E) **Signing**, as consenting party, jointly with **the other stockholders of MESA** and **MESA** itself, and also with **SAESA** and **FI-FGTS**, of a Commitment Undertaking, in which **SAESA** and **FI-FGTS** undertake to sign the Private Deed of the First Private Issue of Non-Convertible Debentures in Two Series, of the Real Guarantee with Additional Guarantees type, and also to negotiate in good faith the additional terms and conditions of the Deed, comprising the features of the issue, the conditions for subscription and for paying up of the debentures, the default events and early maturity events, positive and negative covenants of the Issuer, etc. By this undertaking the parties agree that **SAESA** shall have the option, after the disbursement of the totality of the credits contracted under the Financing Contracts and the Deed, if it be still necessary for the development, implantation and construction of the Project, to contract additional indebtedness of up to five hundred forty million Reais, which amounts shall be updated in accordance with the variation of the IPC-A inflation index from the date of the said Commitment Undertaking up to the date of the actual issue, as the case may be, in the form of Profit Share Debentures.
- F) **Vote** in favor by the representatives of **Cemig GT** in the Extraordinary General Meeting of Stockholders of **MESA**, for approval of its First Private Issue of Non-Convertible Debentures, in Six Series, of the Subordinated Type, subject to Conversion to the Unsecured Type, and authorization to sign the following documents:

Private Deed of the First Private Issue of Non-Convertible Debentures, in Six Series, of the Subordinated Type, Subject to Conversion to the Unsecured Type;

Stockholders Agreement and Procedures for Capitalization of Madeira Energia S.A. (**MESA**) and Other Matters;

Commitment Undertaking; and

Private Instrument of Constitution of Fiduciary Pledge of Shares issued by Madeira Energia S.A. (MESA) and Other Matters, to be signed by **Andrade Gutierrez**

Participações S.A., Construtora Norberto Odebrecht S.A., Fundo de Investimento em Participações Amazônia Energia and Odebrecht Investimentos em Infra-estrutura Ltda. (Guarantors), **FI-FGTS** (Creditor) and **MESA** (Consenting Party). By this instrument, in guarantee of the debentures of **MESA**, the Guarantors irrevocably undertake to place a fiduciary charge upon the totality of the shares that they hold, present and future, in favor of the Creditor, as guarantee of the payment of the obligations of **MESA** arising from the issue referred to.

VI The Board member Marco Antonio Rodrigues da Cunha explained that the contractual instruments involved in the BNDES financing transaction are being approved as per BNDES Decision DIR.1120/2008, relative to the meeting of the Board of the BNDES of December 16, 2008.

VII **Abstention:** The Board member Wilton de Medeiros Daher abstained from voting on the matters relating to the Santo Antônio Hydroelectric Plant Project / Financing Contract, and also relating to the issuance of debentures of **MESA**, mentioned in items IV and V respectively.

VIII **The following spoke** on general matters and business of interest to the Company:
