Notes to Consolidated Financial Statements

(Unaudited)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements are presented in accordance with accounting principles generally accepted in the United States. These statements include the accounts of AdCare Health Systems, Inc. (AdCare) and its controlled subsidiaries (collectively, the Company or we). Controlled subsidiaries include AdCare's majority owned subsidiaries and variable interest entities in which AdCare has control as primary beneficiary. The Company delivers skilled nursing, assisted living and home health services through wholly owned separate operating subsidiaries. All inter-company accounts and transactions were eliminated in the consolidation. The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete annual financial statements and should be read in conjunction with the Company's audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 (the Annual Report). In the opinion of the Company's management, all adjustments considered for a fair presentation are included and are of a normal recurring nature. Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012. Certain prior year amounts have been reclassified to conform to the current year presentation.

Earnings per Share

Basic earnings per share is computed by dividing net income or loss by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is similar to basic earnings per share except net income or loss is adjusted by the impact of the assumed issuance of common shares upon conversion of convertible securities and the weighted-average number of common shares outstanding includes potentially dilutive securities, such as options, warrants, non-vested shares, and additional shares issuable under convertible notes outstanding during the period when such potentially dilutive securities are not anti-dilutive. Potentially dilutive securities from option, warrants and non-vested shares are calculated in accordance with the treasury stock method, which assumes that proceeds from the exercise of all options and warrants with exercise prices exceeding the average market value are used to repurchase common stock at market value. The incremental shares remaining after the proceeds are exhausted represent the potentially dilutive effect of the securities. Potentially dilutive securities from convertible debt are calculated based on the assumed issuance at the beginning of the period, as well as any adjustment to income that would result from their assumed issuance.

For the three months ended March 31, 2012 and 2011, due to the net loss for both periods, no potentially dilutive securities were included in the diluted earnings per share calculation because to do so would be anti-dilutive.

Intangible Assets and Goodwill

There have been no required impairment adjustments to intangible assets and goodwill during the three months ended March 31, 2012 and 2011.

Intangible assets consist of the following:

Amortization expense was approximately \$226,000 for bed licenses included in property and equipment and \$267,000 for lease rights for the three months ended March 31, 2012. Estimated amortization expense for each of the following years ending December 31 is as follows:

NOTE 2. LIQUIDITY AND PROFITABILITY

The Company had a net loss of approximately \$206,000 for the three months ended March 31, 2012, and had negative working capital of approximately \$6,537,000 at March 31, 2012. The Company's ability to achieve sustained profitable operations is dependent on continued growth in revenue and controlling costs.

Management's plans for increasing liquidity and profitability in future years encompass the following:

- refinancing debt where possible to obtain more favorable terms;
- increasing facility occupancy and improving the occupancy mix by increasing Medicare patients;
- acquiring additional long term care facilities with existing cash flowing operations to expand our operations; and
- adding additional management contracts.

Management believes that the foregoing actions, if taken by the Company, should provide the opportunity for the Company to improve liquidity and achieve profitability, however, there is no assurance that such actions will occur. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3. DISCONTINUED OPERATIONS

As part of the Company's strategy to focus on the growth of its skilled nursing segment, the Company decided in the fourth quarter of 2011 to exit the home health segment of the business. This segment represents less than 2% of total revenues for the Company over the past year.

As a result of the decision to exit the home health business, the assets and liabilities that are expected to be sold are reflected as assets and liabilities held for sale and are comprised of the following:

(Amounts in 000s)	March 31, 2012		December 31, 2011

NOTE 4. SEGMENTS

The Company reports its operations in three segments: Skilled Nursing Facility (SNF), Assisted Living Facility (ALF), and Corporate & Other. The SNF and ALF segments provide services to individuals needing long-term care in a nursing home or assisted living setting and management of those facilities. The Corporate & Other segment engages in the management of facilities and accounting and IT services. We evaluate financial performance and allocate resources primarily based upon segment operating income (loss). Segment operating results excludes interest expense and other non-operating income and expenses. The table below contains our segment information for the three months ended March 31, 2012 and 2011.

NOTE 14. COMMITMENTS AND CONTINGENCIES

Legal Matters

The skilled nursing business involves a significant risk of liability given the age and health of the Company's patients and residents and the services the Company provides. The Company and others in the industry are subject to an increasing number of claims and lawsuits, including professional liability claims, which may allege that services have resulted in personal injury, elder abuse, wrongful death or other related claims. The defense of these lawsuits may result in significant legal costs, regardless of the outcome, and can result in large settlement amounts or damage awards.

In addition to the potential lawsuits and claims described above, the Company is also subject to potential lawsuits under the Federal False Claims Act and comparable state laws alleging submission of fraudulent claims for services to any healthcare program (such as Medicare) or payor. A violation may provide the basis for exclusion from federally-funded healthcare programs. As of March 31, 2012, the Company does not have any material loss contingencies recorded based on management's evaluation of the probability of loss from known claims.

We expect the closing of the acquisition to occur on May 30, 2012. Beginning April 1, 2012, we entered into a management agreement to operate the facility in the interim period which will result in the consolidation of the results of operations as a variable interest entity.

We are currently evaluating potential acquisition opportunities in addition to those described above and we continue to seek new opportunities to further our growth strategy. No assurance is made that any of these potential acquisition opportunities will be determined to be appropriate for us or that we will complete any of such acquisitions on terms acceptable to us, or at all.

Segments

The Company reports its operations in three segments: SNF, ALF, and Corporate & Other. The Company delivers services through wholly owned separate operating subsidiaries. The SNF and ALF segments provide services to individuals needing long-term care in a nursing home or assisted living setting and management of those facilities. The Corporate & Other segment engages in the management of facilities and accounting and IT services. We evaluate financial performance and allocate resources primarily based on segment operating income (loss). Segment operating results excludes interest expense and other non-operating income and expenses. Segment operating results excludes interest expense and other non-operating income and expenses. See Note 4 in the Notes to Consolidated Financial Statements section of Part I, Item 1 of this Quarterly Report.

Table of Contents*Skilled Nursing Facilities*

We focus on two primary indicators in evaluating the financial performance in this segment. Those indicators are facility occupancy and patient mix. Facility occupancy is important as higher occupancy generally leads to higher revenues. In addition, concentrating on increasing the number of Medicare covered admissions (the patient mix) helps in increasing revenues. We include commercial insurance covered admissions that are reimbursed at the same level as those covered by Medicare in our Medicare utilization percentages and analysis.

For the three months ended March 31, 2012, revenue in our skilled nursing segment increased approximately \$18,354,000 compared to March 31, 2011, as a result of acquisitions during the year. This segment had an income from operations of \$3,090,000 as a result of optimization of occupancy and quality mix as well as expense control. We expect to continue to implement and refine strategies designed to sustain these goals. Total assets increased \$54,991,000 due to acquisitions made since March 31, 2011.

Same Facilities results represent those owned and leased facilities we began to operate prior to April 1, 2011.

Recently Acquired Facilities results represents those owned and leased facilities we began to operate subsequent to April 1, 2011.

For the three months ended March 31, 2012, revenue in our ALF segment increased approximately \$920,000 compared to March 31, 2011 as a result of increased revenue from acquisitions, an annual increase in rates charged to privately paying residents and increasing occupancy. This segment had income from operations of \$694,000. Total assets increased \$5,103,000 primarily due to acquisitions since March 31, 2011 and other building improvements made during the last 12 months.

Residents of our assisted living facilities rely on their personal investments and wealth to pay for their stay. Although many of the risks still remain, such as declines in market values of investments, depressed market for the sale of private homes, and adult children caring for their elderly at home, we have seen an increase in census.

Corporate & Other

We manage three skilled nursing facilities and one independent living campus for third party owners under management agreements that either are for a fixed monthly fee or for a percentage of revenue generated by the managed facility. Depending on the type of management agreement, our revenues increase annually according to inflationary adjustments stipulated in our management agreements or they increase as the facility's revenue increases for the management agreements that are based on a percentage of revenue. This segment includes our corporate overhead expenses, which are made up of salaries of our senior management team members and various other corporate expenses, including, but not limited to, corporate office operating expenses, audit fees, legal fees and board activities. Additionally, non-cash charges for compensation expense related to warrants, restricted stock and stock options are included in corporate overhead. We do not allocate these expenses to the divisions or separate them from management and development business for management review purposes.

Table of Contents**Comparison for the three months ended March 31, 2012 and 2011**

Patient Care Revenues - For the periods presented, total patient care revenues increased \$19.3 million, or 63%.

Revenue in our SNF segment increased approximately \$18,354,000 when compared to the three months ended March 31, 2011, primarily as a result of additional facilities acquired since March, 2011. In addition, census and quality mix improved existing facilities. This segment had a net income from operations of \$3,090,000 which is \$2,585,000 higher compared to the three months ended March 31, 2011 as a result of higher revenue due to acquisitions and improved reimbursement. We are seeking to increase facility occupancy and to increase the number of patients covered by Medicare. We seek to continue to implement and refine strategies designed to achieve these goals.

Revenue in our ALF segment increased approximately \$920,000 when compared to the three months ended March 31, 2011, as a result of increased census and levels of care as well as the addition of one new facility in 2012 and one new facility in the fourth quarter of 2011. This segment had income from operations of \$694,000 which is \$490,000 more than the same period in 2011 from increased occupancy and an annual increase in rates charged to residents of the facilities.

Management Revenue - For the periods presented, management revenues (net of eliminations) decreased \$135,000, or 27%, as a result of fewer managed facilities.

Cost of Sales For the periods presented, cost of sales was approximately \$40,123,000 compared to \$25,175,000 for the same period a year ago. This is the result of numerous acquisitions over the past 12 months.

Infrastructure Costs - Company management separately identifies certain costs, which the Company has incurred that we believe are directly related to the growth of the Company. These infrastructure costs include, but are not limited to, additional management and staff necessary to support our operational teams in our newly acquired facilities, including those in states that we have not previously operated. These costs are included on the Consolidated Statement of Operations (included elsewhere in this Quarterly Report) under General and Administrative Expenses. Infrastructure costs are estimated as \$159,000 and \$117,000 for the three months ended March 31, 2012 and 2011, respectively.

Facility Rent Expense - For the periods presented, lease expenses increased \$162,000 due to annual increases and the addition of the one new leased facility in the fourth quarter of 2011.

(Amounts in 000s)	Three Months Ended March 31	
	2012	2011
Lease Expense	\$ 2,065	\$ 1,903

Depreciation and Amortization - For the periods presented, depreciation and amortization increased \$850,000. The depreciation increase is directly related to acquisition activity that was not included in the 2011 results as it occurred in later periods. In addition, the acquisitions resulted in intangibles that are being amortized during the period.

Interest Expense, net - For the periods presented, interest expense, net increased \$1.5 million, or 106%. We have entered into numerous debt instruments in relation to our growth strategy for the acquisition of the facilities which began in the third quarter of 2010. In addition, several of the arrangements are short term in nature resulting in higher interest rates than previously experienced and an increase in the amortization of deferred loan costs associated with the new debt agreements.

Acquisition Costs, net of Gains - For the period ended March 31, 2012, acquisition costs, net of gains was an expense of \$293,000, compared to a net gain of \$979,000 for the comparative period. For the period ended March 31, 2012, the total acquisition costs were legal fees directly related to the acquisition of the two Ohio facilities and other costs incurred on potential future acquisitions. For the period ended March 31, 2011, the amount was the result of gains recognized on the acquisition of the Sylva, North Carolina facility during the first quarter, 2011.

Derivative Gain/Loss - For the period ended March 31, 2012, the derivative gain was \$410,000, compared to a loss of \$1,350,000 for the same period in 2011. The derivative is a product of a convertible debt instrument entered into during the third quarter of 2010. The expense associated with the derivative increases as the stock price climbs, and conversely decreases as the stock price declines. The price of the common stock of the Company declined during the three-month period ended March 31, 2012.

Other Income/(Expense) - For the periods presented, other income decreased \$622,000. There was a recovery of receivables recorded in the prior year.

Liquidity and Capital Resources

Overview

Liquidity is the measure of the Company's ability to have adequate cash or access to cash at all times in order to meet financial obligations when due, as well as to fund corporate expansion and other activities. Historically, the Company has met its liquidity requirements through a combination of net cash flow from operations, debt from third party lenders and issuances of other debt and equity securities.

We have negative working capital of approximately \$6,537,000 at March 31, 2012. Our ability to sustain profitable operations is dependent on continued growth in revenue and controlling costs.

During the next twelve months, the Company believes it will require additional financing to satisfy its financial obligations and implement its expansion strategy. The Company is currently exploring several financing alternatives and may seek to raise additional capital through the sale of additional debt or equity securities, although there is no assurance that the Company will be able to raise additional capital through the issuance of debt or equity securities on terms acceptable to it, or at all. If the Company is unable to secure such additional financing, then the Company may be required to restructure its outstanding indebtedness and delay or modify its expansion plans.

Eaglewood Facilities Financing

On January 1, 2012, Woodland Holdings, LLC, our wholly owned subsidiary, entered into a loan agreement with The PrivateBank and Trust Company in an aggregate principal amount of \$4,800,000. The loan was used to fund the acquisition of the Woodland Manor facility located in Springfield, Ohio.

The loan matures on December 30, 2016. Interest on the loan accrues on the principal balance thereof at an annual rate of the greater of (i) 6.0% per annum or (ii) the LIBOR rate plus 4.0% per annum, and payments for the interest and a portion of the principal balance are payable monthly, commencing on February 1, 2012 and ending on December 1, 2016. The entire outstanding principal balance of the loan, together with all accrued but unpaid interest thereon, is payable on December 30, 2016. The loan is secured by a first mortgage on the real property and improvements constituting the Woodland Manor facility and guaranteed by AdCare.

In addition, on January 1, 2012, Eaglewood Holdings, LLC and Eaglewood Village, LLC, our wholly owned subsidiaries, jointly and severally issued two promissory notes to Eaglewood Villa, Ltd. in the amount of \$4,500,000 and \$500,000. Proceeds from the notes were used to fund the acquisition of the Eaglewood Village facility located in Springfield, Ohio.

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

The \$500,000 note matures on December 30, 2016 and the \$4,500,000 note matures on June 30, 2012. Interest on the \$500,000 note accrues at a rate of 6.5% per annum and interest on the \$4,500,000 Eaglewood Loan accrues at a rate of (i) 6.5% per annum from January 1, 2012 to February 29, 2012; (ii) 8.5% per annum from March 1, 2012 to April 30, 2012; and (iii) 10.5% per annum from May 1, 2012 to June 30, 2012. Principal and interest payments under the notes shall be due and payable monthly, beginning on February 1, 2012. The notes are secured by a mortgage on the real property and improvements constituting the Eaglewood Village facility.

HUD Financing

On January 31, 2012, we refinanced the mortgage on our Home & Hearth of Vandalia facility to obtain a term note guaranteed by HUD. The HUD mortgage note requires monthly principal and interest payments with an annual fixed interest rate of 3.74%. The note matures in 2041. The note has a prepayment penalty of 8% for any prepayment made prior to March 1, 2014, which penalty is reduced by 1% each year thereafter until the eighth anniversary of such date, after which there is no prepayment penalty.

Cantone Promissory Note March 2012

On March 29, 2012, we issued a promissory note in favor of Cantone Asset Management LLC for an aggregate principal amount of \$3,500,000. The note matures on the earlier of: (i) October 1, 2012; or (ii) the date on which we shall receive proceeds, in an amount not less than \$6,000,000, from a public offering or private placement of our common stock. Interest on the note accrues on the principal balance thereof at an annual rate of 10%; provided, however, if the entire principal amount of the note is not paid by July 1, 2012, the interest rate shall increase by 1% for each month or part thereof during which any principal amount of the note shall remain unpaid. We may prepay the note in whole or in part, at any time, without notice or penalty; provided, however, if the note is prepaid prior to October 1, 2012, then we shall continue to pay interest on the note through such date.

In connection with the issuance of the note, Cantone Research, Inc. has agreed to provide us with certain consulting services for a monthly fee if the Company and Cantone Asset Management LLC (or an affiliated entity) do not agree to the terms of an additional financing arrangement pursuant to which it (or affiliated entity) would loan to us at least \$4,000,000 for a four-year term.

2012 Public Stock Offering

In March 2012, we completed a firm commitment underwritten public offering of 1,100,000 shares of our common stock at a public offering price of \$3.75 per share. We received net proceeds of approximately \$3.6 million after deducting underwriting discounts, and other offering-related expenses of approximately \$0.5 million. We intend to use the net proceeds from this offering for working capital and other general corporate purposes.

The Company has also granted the underwriters in the offering an option for 45 days to purchase an additional 165,000 shares of common stock to cover over-allotments, if any. This over-allotment option expires on May 11, 2012.

Net cash used in investing activities for the three months ended March 31, 2012, was approximately \$3,012,000. This is primarily the result of funding our acquisitions, including making escrow deposits.

Net cash provided by financing activities was approximately \$5,114,000 for the three months ended March 31, 2012. This is primarily the result of cash proceeds received from warrant exercises, the public stock offering, and proceeds from debt financings to fund our acquisitions, partially offset by repayments of existing debt obligations.

Three months ended March 31, 2011

Net cash used in operating activities for the three months ended March 31, 2011 was approximately \$783,000 consisting primarily of our net loss from operations and changes in working capital partially offset by noncash charges, all primarily the result of routine operating activity.

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

This is primarily the result of proceeds from the convertible debt issuance net of issuance costs on March 31, 2011, and increases in borrowings on the line of credit partially offset by repayments of existing debt obligations.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer,

as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Our Management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report (the Evaluation Date). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective.

There have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2012 that have been materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

We are party to various legal actions and administrative proceedings and are subject to various claims arising in the ordinary course of business, including claims that our services have resulted in injury or death to the residents of our facilities and claims related to employment, staffing requirements and commercial matters. Although we intend to vigorously defend ourselves in these matters, there can be no assurance that the outcomes of these matters will not have a material adverse effect on our results of operations and financial condition.

We operate in an industry that is extremely regulated. As such, in the ordinary course of business, we are continuously subject to state and federal regulatory scrutiny, supervision and control. Such regulatory scrutiny often includes inquiries, investigations, examinations, audits, site visits and surveys, some of which are non-routine. In addition to being subject to direct regulatory oversight of state and federal regulatory agencies, our industry is frequently subject to the regulatory practices, which could subject us to civil, administrative or criminal fines, penalties or restitutionary relief, and reimbursement authorities could also seek the suspension or exclusion of the provider or individual from participation in their program. We believe that there has been, and will continue to be, an increase in governmental investigations of long-term care providers, particularly in the area of Medicare/Medicaid false claims, as well as an increase in enforcement actions resulting from these investigations. Adverse determinations in legal proceedings or governmental investigations against or involving us, whether currently asserted or arising in the future, could have a material adverse effect on our financial position, results of operations and cash flows.

Item 1A. Risk Factors

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our business, financial condition, results of operations, cash flows, and trading price of our common stock. Please refer to our Annual Report for additional information

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

concerning these and other uncertainties that could negatively impact the Company.
