Notes to Interim Condensed Consolidated Financial Statements

(1) Basis of Presentation

The interim condensed consolidated financial statements of UFP Technologies, Inc. (the Company) presented herein, have been prepared pursuant to the rules of the Securities and Exchange Commission for quarterly reports on Form 10-Q and do not include all the information and note disclosures required by accounting principles generally accepted in the United States of America. These statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2014, included in the Company's 2014 Annual Report on Form 10-K, as filed with the Securities and Exchange Commission.

The condensed consolidated balance sheet as of June 30, 2015, the condensed consolidated statements of income for the three and six-month periods ended June 30, 2015 and 2014, and the condensed consolidated statements of cash flows for the six-month periods ended June 30, 2015 and 2014 are unaudited but, in the opinion of management, include all adjustments (consisting of normal, recurring adjustments) necessary for a fair presentation of results for these interim periods.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

The results of operations for the three and six-month periods ended June 30, 2015 are not necessarily indicative of the results to be expected for the entire fiscal year ending December 31, 2015.

Revisions

Certain revisions have been made to the Condensed Consolidated Statement of Income for the three and six-month periods ended June 30, 2014 to conform to the current year presentation. These revisions relate to the classification of certain rent and indirect labor items. The impact on the Condensed Consolidated Statement of Income for the three month period ended June 30, 2014 was a decrease to costs of sales and an increase to selling, general and administrative expenses in the amount of approximately \$69,000. The impact on the Condensed Consolidated Statement of Income for the six-month period ended June 30, 2014 was a decrease to costs of sales and an increase to selling, general and administrative expenses in the amount of \$138,000. These revisions had no impact on previously reported operating income, net income or cash flows and are deemed immaterial to the previously issued financial statements.

(2) Supplemental Cash Flow Information

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

Cash paid for interest and income taxes is as follows (in thousands):

	Six Months Ended June 30,			
	2015		2014	
Interest, net	\$	15	\$	47
Income taxes, net of refunds	\$	(1,013)	\$	1,589

During the six month period ended June 30, 2014, the Company permitted the exercise of stock options with exercise proceeds paid with the Company's stock (cashless exercises) totaling approximately \$352,000. No cashless exercises occurred during the six month period ended June 30, 2015.

(3) Fair Value Accounting

The Company has financial instruments, such as accounts receivable, accounts payable, and accrued expenses, which are stated at carrying amounts that approximate fair value because of the short maturity of those instruments. The carrying amount of the Company's long-term debt approximates fair value as the interest rate on the debt approximates the estimated borrowing rate currently available to the Company.

(4) **Share-Based Compensation**

Share-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as an expense over the requisite service period (generally the vesting period of the equity grant).

The Company issues share-based awards through several plans that are described in detail in the notes to the consolidated financial statements for the year ended December 31, 2014. The compensation cost charged against income for those plans is included in selling, general & administrative expenses as follows (in thousands):

	Three Months Ended June 30,			Six Months Ended June 30,		
	2015	2014		2015	2014	
Total share-based compensation expense	\$ 436	\$ 465	\$	\$ 647	\$ 730	\$

Share-based compensation for the three-month periods ended June 30, 2015 and 2014 includes approximately \$105,000 and \$122,000, respectively, representing the fair value of the Company's common stock granted during the periods to the Board of Directors. Share-based compensation for the six-month periods ended June 30, 2015 and 2014 includes approximately \$105,000 and \$127,000, respectively, representing the fair value of the Company's common stock granted during the periods to the Board of Directors.

The total income tax benefit recognized in the condensed consolidated statements of income for share-based compensation arrangements was approximately \$135,000 and \$145,000, respectively, for the three-month periods ended June 30, 2015 and 2014, and \$193,000 and \$215,000, respectively, for the six-month periods ended June 30, 2015 and 2014.

The following is a summary of stock option activity under all plans for the six-month period ended June 30, 2015:

	Shares Under Options	Weighted Average Exercise Price (per share)	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in thousands)
Outstanding at December 31, 2014	340,107	\$ 12.84		
Granted	17,526	\$ 19.97		
Exercised	(43,758)	\$ 5.09		
Outstanding at June 30, 2015	313,875	\$ 14.32	3.99	\$ 2,227
Exercisable at June 30, 2015	250,126	\$ 12.67	4.22	\$ 2,153
Vested and expected to vest at June 30, 2015	313,875	\$ 14.32	3.99	\$ 2,227

On June 10, 2015, the Company granted options to its directors for the purchase of 17,526 shares of common stock at that day's closing price of \$19.97. The compensation expense related to these grants was determined as the fair value of the options using the Black Scholes option pricing

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

model based on the following assumptions:

Expected volatility	32.3%
Expected dividends	None
Risk free interest rate	1.0%
Expected term	5.0 years

Table of Contents

The stock volatility for each grant is determined based on a review of the experience of the weighted average of historical daily price changes of the Company's common stock over the expected option term, and the risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant for periods corresponding with the expected life of the option. The weighted average grant date fair value of options granted during the six-month period ended June 30, 2015 was \$5.99.

During the six-month periods ended June 30, 2015 and 2014, the total intrinsic value of all options exercised (i.e., the difference between the market price on the exercise date and the price paid by the employees to exercise the options) was approximately \$696,000 and \$3.4 million, respectively, and the total amount of consideration received by the Company from the exercised options was approximately \$223,000 and \$675,000, respectively. At its discretion, the Company allows option holders to surrender previously owned common stock in lieu of paying the exercise price and withholding taxes. During the six months ended June 30, 2015, there were no shares surrendered for this purpose. During the six months ended June 30, 2014, 31,310 shares were surrendered at an average market price of \$25.47.

During the three-month periods ended June 30, 2015 and 2014, the Company recognized compensation expense related to stock options granted to directors and employees of approximately \$149,000 and \$172,000, respectively. During the six-month periods ended June 30, 2015 and 2014, the Company recognized compensation expenses related to stock options granted to directors and employees of approximately \$193,000 and \$267,000, respectively.

On February 24, 2015, the Company's Compensation Committee approved the award of \$400,000, payable in shares of common stock to the Company's Chairman, Chief Executive Officer, and President under the 2003 Incentive Plan. The shares will be issued on or before December 31, 2015. The Company recorded compensation expense associated with the award of \$100,000 and \$200,000, respectively, during the three- and six-month periods ended June 30, 2015 and 2014.

The following table summarizes information about Restricted Stock Units (RSUs) activity during the six-month period ended June 30, 2015:

	Restricted Stock Units	Weighted Average Award Date Fair Value
Unvested at December 31, 2014	35,088	\$ 17.87
Awarded	23,975	23.46
Shares vested	(10,426)	18.35
Unvested at June 30, 2015	48,637	\$ 19.89

During each of the three- and six-month periods ended June 30, 2015, the Company recorded compensation expense related to RSUs of approximately \$82,000 and \$149,000. The Company recorded compensation expense of approximately \$70,000 and \$136,000, respectively, for the same periods in 2014.

At the Company's discretion, RSU holders are given the option to net-share settle to cover the required minimum withholding tax, and the remaining amount is converted into the equivalent number of common shares. During the six-month periods ended June 30, 2015 and 2014, 3,405 and 9,878 shares were surrendered at an average market price of \$23.15 and \$25.88, respectively.

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

As of June 30, 2015, the Company had approximately \$1.2 million of unrecognized compensation expense, which is expected to be recognized over a period of 3.8 years.

(5) **Inventories**

Inventories are stated at the lower of cost (first-in, first-out) or market, and consist of the following at the stated dates (in thousands):

8

Table of Contents

	June 30, 2015		December 31, 2014

Work in process	1,265		1,142
Finished goods	4,344		4,606
Total inventory	\$ 12,832	\$	12,893

(6) Preferred Stock

On March 18, 2009, the Company declared a dividend of one preferred share purchase right (a Right) for each outstanding share of common stock, par value \$0.01 per share, to the stockholders of record on March 20, 2009. Each Right entitles the registered holder to purchase from the Company one one-thousandth of a share of Series A Junior Participating Preferred Stock, par value \$0.01 per share (the Preferred Share) of the Company, at a price of \$25 per one one-thousandth of a Preferred Share subject to adjustment and the terms of the Rights Agreement. The Rights expire on March 19, 2019.

(7) Income Per Share

Basic income per share is based on the weighted average number of shares of common stock outstanding. Diluted income per share is based upon the weighted average number of common shares outstanding and dilutive common stock equivalent shares outstanding during each period.

The weighted average number of shares used to compute basic and diluted net income per share consisted of the following (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Weighted average common shares outstanding, basic	7,116	7,025	7,096	6,999
Weighted average common equivalent shares due to stock options and RSUs	94	143	107	161
Weighted average common shares outstanding, diluted	7,210	7,168	7,203	7,160

The computation of diluted earnings per share excludes the effect of the potential exercise of stock awards, including stock options, when the average market price of the common stock is lower than the exercise price of the related options during the period. These outstanding stock awards are not included in the computation of diluted income per share because the effect would be antidilutive. For both the three- and six-month periods ended June 30, 2015, the number of stock awards excluded from the computation of diluted earnings per share was 82,719. For both the three- and six-month periods ended June 30, 2014, the number of stock awards excluded from the computation of diluted earnings per share was 30,193.

(8) Segment Reporting

The Company consists of a single operating and reportable segment.

Revenues from customers outside of the United States are not material. No customer comprised more than 10% of the Company's consolidated revenues for the three-month period ended June 30, 2015. All of the Company's assets are located in the United States.

The Company's products are primarily sold to customers within the Medical, Automotive, Industrial, Consumer, Aerospace and Defense, and Electronics, markets. Net sales by market for the three- and six-month periods ended June 30, 2015 and 2014 are as follows (in thousands):

(10) Income Taxes

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

The income tax expense included in the accompanying unaudited consolidated statements of income principally relates to the Company's proportionate share of the pre-tax income of its wholly-owned subsidiaries. The determination of income tax expense for interim reporting purposes is based upon the estimated effective tax rate for the year, adjusted for the impact of any discrete items which are accounted for in the period in which they occur.

The Company recorded a tax expense of approximately 35.0% of income before income tax expense for each of the three-month periods ended June 30, 2015 and 2014. The Company recorded a tax expense of approximately 35.0% of income before income tax expense for each of the six-month periods ended June 30, 2015 and 2014.

Table of Contents**(11) Plant Consolidations***Restructuring Costs*

On March 18, 2015, the Company committed to move forward with a plan to cease operations at its Raritan, New Jersey plant and consolidate operations into its Newburyport, Massachusetts facility and other UFP facilities. The Company's decision was in response to a continued decline in business at the facility and the recent purchase of the 137,000 square foot facility in Newburyport. The Company expects the activities related to this consolidation to be completed on or before October 31, 2015.

The Company expects to incur approximately \$1.1 million in one-time expenses in connection with the consolidation. Included in this amount are approximately \$360,000 of expenses the Company expects to incur relating to employee severance payments and training costs, approximately \$600,000 in moving expenses and expenses associated with vacating the Raritan property, and approximately \$100,000 in lease termination costs. Total cash charges are estimated at \$1.0 million. The Company expects annual cost savings of approximately \$400,000 as a result of the plant consolidation.

The company recorded the following restructuring costs associated with the Massachusetts plant consolidation for the three- and six-month periods ended June 30, 2015 (in thousands):

Massachusetts Restructuring Costs	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015

On July 16, 2014, the Company committed to move forward with a plan to cease operations at its Costa Mesa, California, plant and consolidate operations into its Rancho Dominguez, California, facility and other UFP facilities. The Company's decision was in response to the December 31, 2014, expiration of the lease on the Costa Mesa facility as well as the close proximity of the two properties. This consolidation was completed during the first quarter of 2015. The company recorded the following restructuring costs associated with the California plant consolidation for the three- and six-month periods ended June 30, 2015 (in thousands):

California Restructuring Costs	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015

On January 7, 2014, the Company committed to move forward with a plan to cease operations at its Glendale Heights, Illinois plant and consolidate operations into its Grand Rapids, Michigan, facility. The Company's decision was in response to a pending significant increase in lease cost, declining sales at the Illinois facility, and significant anticipated savings as a result of the consolidation. The consolidation into the Michigan facility was completed during the third quarter of 2014. The company recorded the following restructuring costs associated with the Michigan plant consolidation for the three- and six-month periods ended June 30, 2014 (in thousands):

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-looking Statements

Some of the statements contained in this Report are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act). These statements are subject to known and unknown risks, uncertainties, and other factors, which may cause our or our industry's actual results, performance, or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Forward-looking statements include, but are not limited to, statements about the Company's prospects, anticipated trends in the different markets in which the Company competes, including the medical, automotive, consumer, electronics, industrial and aerospace and defense markets, anticipated advantages relating to the Company's decisions to consolidate its Midwest, California and Northeast facilities and the expected cost savings and efficiencies associated therewith, anticipated advantages of maintaining fewer, larger plants, anticipated advantages the Company expects to realize from its investments and capital expenditures, including the development of and investments in its molded fiber product lines, anticipated advantages the Company expects to realize as a result of its new enterprise resource planning software system, expectations regarding the manufacturing capacity and efficiencies of the Company's new production equipment, statements about the Company's acquisition opportunities and strategies, its participation and growth in multiple markets, its business opportunities, the Company's growth potential and strategies for growth, anticipated revenues and the timing of such revenues, and any indication that the Company may be able to sustain or increase its sales or earnings. Investors are cautioned that such forward-looking statements involve risks and uncertainties, including without limitation risks and uncertainties associated with plant closures and expected efficiencies from consolidating manufacturing, risks associated with the implementation of new production equipment in a timely, cost-efficient manner, risks that any benefits from such new equipment may be delayed or not fully realized, or that the Company may be unable to fully utilize its expected production capacity, and risks and uncertainties associated with the identification of suitable acquisition candidates and the successful, efficient execution of acquisition transactions and integration of any such acquisition candidates. Accordingly, actual results may differ materially.

In some cases, you can identify forward-looking statements by terms such as may, will, should, could, would, expects, plans, anticipates, believes, estimates, projects, predicts, potential, and similar expressions intended to identify forward-looking statements. Our actual results may be different from the results described in or anticipated by our forward-looking statements due to the inherent uncertainty of estimates, forecasts, and projections, and may be materially better or worse than anticipated. Given these uncertainties, you should not place undue reliance on these forward-looking statements. Forward-looking statements represent our estimates and assumptions only as of the date of this Report. We expressly disclaim any duty to provide updates to forward-looking statements, and the estimates and assumptions associated with them, after the date of this Report, in order to reflect changes in circumstances or expectations, or the occurrence of unanticipated events, except to the extent required by applicable securities laws. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed above and under Risk Factors set forth in Part I Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2014, as well as the risks and uncertainties discussed elsewhere in this Report. We qualify all of our forward-looking statements by these cautionary statements. We caution you that these risks are not exhaustive. We operate in a continually changing business environment and new risks emerge from time to time.

Table of Contents

Unless the context requires otherwise, the terms *we*, *us*, *our*, or *the Company* refer to UFP Technologies, Inc. and its consolidated subsidiaries.

Overview

UFP Technologies is an innovative designer and custom converter of foams, plastics, composites and natural fiber products, principally serving the medical, automotive, consumer, electronics, industrial and aerospace and defense markets. The Company consists of a single operating and reportable segment.

In addition to continued demand for product from the medical market, the company has seen an uptick in demand for military uniform and equipment components as well as interior trim parts for the automotive market. These increases have more than offset softness in packaging product for the electronics and consumer markets.

The Company expects to incur significant costs in the third and fourth quarters associated with consolidating operations in the Northeast. It also anticipates reduced real estate and administrative labor costs as well as significant manufacturing efficiencies as a result of the Company's consolidation efforts in the Northeast. The Company has not yet quantified the total one-time costs or recurring manufacturing gains.

The Company's current strategy includes organic growth and growth through strategic acquisitions.

Results of Operations

Sales

Sales for the three-month period ended June 30, 2015, increased approximately 7.3% to \$36.5 million from sales of \$34.0 million for the same period in 2014. Sales for the six-month period ended June 30, 2015, increased approximately 2.7% to \$70.5 million from sales of \$68.6 million for the same period in 2014. The increase in sales for the three-month period ended June 30, 2015, was primarily attributable to increased sales to the medical, aerospace and defense and automotive markets of approximately 16.3%, 28.4% and 16.6%, respectively. These increases more than offset softness in sales to the electronics and consumer markets. The increase in sales for the six-month period ended June 30, 2015, was primarily attributable to increased sales to the medical, aerospace and defense and automotive markets of approximately 14.6%, 6.0% and 5.3%, respectively. These increases more than offset softness in sales to the electronics and consumer markets. Demand for medical components remains high and there has been a notable uptick in demand for components for military uniforms and equipment.

Gross Profit

Gross profit as a percentage of sales (gross margin) increased slightly to 28.2% for the three-month period ended June 30, 2015, from 28.1% for the same period in 2014. As a percentage of sales, material and labor costs collectively increased 1.7%, while overhead decreased 1.8%. The increase in collective material and labor costs as a percentage of sales is primarily due to a decrease in sales of lower material content molded fiber packaging product as well as the write-off of approximately \$75,000 of obsolete inventory. The decrease in overhead as a percentage of sales is primarily due to fixed overhead costs measured against increased sales.

Gross profit as a percentage of sales decreased to 26.9% for the six-month period ended June 30, 2015, from 27.3% in the same period of 2014. As a percentage of sales, material and labor costs collectively increased 1.1%, while overhead decreased 0.7%. The increase in collective material and labor costs as a percentage of sales is primarily due to a decrease in sales of lower material content molded fiber packaging product. The decrease in overhead as a percentage of sales is primarily due to fixed overhead costs measured against increased sales.

Selling, General and Administrative Expenses

Selling, general, and administrative expenses (SG&A) increased approximately 3.7% to \$6.8 million for the three-month period ended June 30, 2015, from \$6.5 million for the same period in 2014. SG&A increased approximately 3.0% to \$12.8 million for the six-month period ended June 30, 2015, from \$12.4 million in the same period in 2014. The increase in SG&A for the three-month period ended June 30, 2015, is primarily due to normal compensation and benefit increases of approximately \$100,000 and other inflationary increases. The increase for the six-month period ended June 30, 2015 is primarily due to normal inflationary increases. As a percentage of sales, SG&A decreased to 18.6% for the three-month period ended June 30, 2015, from 19.2% for the same three-month period in 2014. The decrease in SG&A as a percentage of sales for the three-month period ended June 30, 2015 is primarily due to the

Table of Contents

relatively fixed nature of SG&A expenses measured against higher sales. As a percentage of sales, SG&A slightly increased to 18.2% for the six-month period ended June 30, 2015, from 18.1% for the same six-month period in 2014.

Restructuring Costs

For the three and six month periods ended June 30, 2015, the Company incurred restructuring costs of approximately \$30,000 and \$108,000, respectively, as compared to approximately \$234,000 and \$323,000 for the same periods in 2014.

Additional information regarding restructuring costs can be found in Note 11 of the Notes to Interim Condensed Consolidated Financial Statements.

Interest Income and Expense

The Company had net interest income of approximately \$8,000 and net interest expense of approximately \$15,000 for the three- and six-month periods ended June 30, 2015, respectively, compared to net interest expense of approximately \$27,000 and \$48,000, respectively, in the same periods of 2014. The decrease in net interest expense is due to an increase in interest earned on money market accounts and certificates of deposit.

Income Taxes

The Company's effective tax rate was approximately 35.0%, for each of the three and six-month periods ended June 30, 2015 and 2014. The Company has deferred tax assets on its books associated with net operating losses generated in previous years. The Company has considered both positive and negative available evidence in its determination that the deferred tax assets are more likely than not to be realized, and has not recorded a tax valuation allowance at June 30, 2015. The Company will continue to assess whether the deferred tax assets will be realizable and, when appropriate, will record a valuation allowance against these assets. The amount of the net deferred tax asset considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

Liquidity and Capital Resources

The Company generally funds its operating expenses, capital requirements, and growth plan through internally generated cash and bank credit facilities.

Cash Flows

Net cash provided by operations for the six-month period ended June 30, 2015, was approximately \$5.7 million and was primarily a result of net income generated of \$3.9 million, depreciation and amortization of approximately \$2.3 million, share-based compensation of \$0.6 million, an increase in accrued expenses of approximately \$0.9 million primarily related to the timing of accrued payroll and medical claims, and a decrease in refundable income taxes of approximately \$2.9 million. These cash inflows and adjustments were partially offset by an increase in accounts receivable of approximately \$3.0 million due to strong June sales, an increase in prepaid expenses of approximately \$1.0 million due to upfront insurance premium payments and a decrease in accounts payable of approximately \$0.9 million due to the timing of vendor payments in the ordinary course of business.

Net cash used in investing activities during the six-month period ended June 30, 2015 was approximately \$10.4 million and was primarily the result of additions of manufacturing machinery and equipment and the purchase of a new manufacturing and headquarters building in Massachusetts.

Net cash used in financing activities was approximately \$136,000 during the six-month period ended June 30, 2015, representing cash used to service term debt of approximately \$496,000 and to pay statutory withholding for stock options exercised and restricted stock units vested of approximately \$79,000, partially offset by excess tax benefits on share-based compensation of approximately \$219,000 and net proceeds received upon stock option exercises of approximately \$220,000.

Table of Contents

Outstanding and Available Debt

The Company maintains an unsecured \$40 million revolving credit facility with Bank of America, N.A. The credit facility calls for interest of LIBOR plus a margin that ranges from 1.0% to 1.5% or, at the discretion of the Company, the bank's prime rate less a margin that ranges from 0.25% to zero. In both cases the applicable margin is dependent upon Company performance. Under the credit facility, the Company is subject to a minimum fixed-charge coverage financial covenant as well as a maximum total funded debt to EBITDA financial covenant. The Company's \$40 million credit facility matures on November 30, 2018.

As of June 30, 2015, the Company had no borrowings outstanding under the credit facility and the Company was in compliance with all covenants under the credit facility.

In 2012, the Company financed the purchase of two molded fiber machines through five-year term loans that mature in September 2017. The annual interest rate is fixed at 1.83% and the loans are secured by the related molded fiber machines. As of June 30, 2015, the outstanding balance of the term loan facility was approximately \$2.4 million.

Future Liquidity

The Company requires cash to pay its operating expenses, purchase capital equipment, and to service its contractual obligations. The Company's principal sources of funds are its operations and its revolving credit facility. The Company generated cash of approximately \$5.7 million in operations during the six-month period ended June 30, 2015, and cannot guarantee that its operations will generate cash in future periods. The Company's longer-term liquidity is contingent upon future operating performance.

On March 18, 2015, the Company committed to move forward with a plan to cease operations at its Raritan, New Jersey plant and consolidate operations into its Newburyport, Massachusetts facility and other UFP facilities. The Company's decision was in response to a continued decline in business at the facility and the recent purchase of the 137,000 square foot facility in Newburyport. The Company expects the activities related to this consolidation to be completed on or before October 31, 2015.

The Company expects to incur approximately \$1.1 million in one-time expenses in connection with the consolidation. Included in this amount are approximately \$360,000 of expenses the Company expects to incur relating to employee severance payments and training costs, approximately \$600,000 in moving expenses and expenses associated with vacating the Raritan property, and approximately \$100,000 in lease termination costs. Total cash charges are estimated at \$1.0 million. The Company expects annual cost savings of approximately \$400,000 as a result of the plant consolidation.

Throughout fiscal 2015, the Company plans to continue to add capacity to enhance operating efficiencies in its manufacturing plants. The Company may consider additional acquisitions of companies, technologies, or products that are complementary to its business. The Company believes that its existing resources, including its revolving credit facility, together with cash expected to be generated from operations and funds expected to be available to it through any necessary equipment financings and additional bank borrowings, will be sufficient to fund its cash

flow requirements, including capital asset acquisitions, through the next twelve months.

Stock Repurchase Program

On June 16, 2015, the Company announced that its Board of Directors authorized the repurchase of up to \$10.0 million of the Company's outstanding common stock. Under the program, the Company is authorized to repurchase shares through Rule 10b5-1 plans, open market purchases, privately negotiated transactions, block purchases or otherwise in accordance with applicable federal securities laws, including Rule 10b-18 of the Securities Exchange Act of 1934. The stock repurchase program will end upon the earlier of the date on which the plan is terminated by the Board or when all authorized repurchases are completed. The timing and amount of stock repurchases, if any, will be determined based upon our evaluation of market conditions and other factors. The stock repurchase program may be suspended, modified or discontinued at any time, and the Company has no obligation to repurchase any amount of its common stock under the program. Through June 30, 2015, the Company had not repurchased any shares of its common stock under this program. Since June 30, 2015 and through August 5, 2015, the Company had repurchased a total of 29,599 shares of its common stock under this program.

Commitments and Contractual Obligations

There have been no material changes outside the ordinary course of business to our contractual obligations and commitments, as disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

Off-Balance-Sheet Arrangements

The Company had no off-balance-sheet arrangements during the six-month period ended June 30, 2015, other than operating leases.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our market risks as previously disclosed in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents**ITEM 4: CONTROLS AND PROCEDURES**

As of the end of the period covered by this report (the Evaluation Date), the Company's management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in SEC Rule 13a-15(e) or 15d-15(e)). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is (i) recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (ii) accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II: OTHER INFORMATION**ITEM 1A: RISK FACTORS**

There have been no material changes from the risk factors previously disclosed in Part 1 - Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.
