TOTAL ENTERTAINMENT RESTAURANT CORP.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND DESCRIPTION OF BUSINESS

The unaudited condensed consolidated financial statements have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments) which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the Company's audited consolidated financial statements in its 2000 Form 10-K. The results of the twelve weeks ended June 12, 2001 are not necessarily indicative of the results to be expected for the full year ending December 25, 2001.

2. STOCK OPTIONS

During the twelve week period ended June 12, 2001, the Company granted to certain key employees stock options for 7,500 shares of Common Stock at an exercise price of $2.125 per share and cancelled options for 10,526 shares with an exercise price of $4.75 per share pursuant to its 1997 Incentive and Nonqualified Stock Option Plan

3. EARNINGS PER SHARE

Basic earnings per share amounts are computed based on the weighted average number of shares actually outstanding. The number of weighted averaged shares outstanding for the twelve week periods ended June 12, 2001 and June 13, 2000 were 8,666,111 and 9,451,591, respectively; the number of weighted averaged shares outstanding for the twenty-four week periods ended June 12, 2001 and June 13, 2000 were 8,674,490 and 9,523,425, respectively.

For purposes of diluted computations, the number of shares that would be issued from the exercise of stock options has been reduced by the number of shares which could have been purchased from the proceeds at the average market price of the Company's stock or the price of the Company's stock on the exercise date if options were exercised during the period presented. The number of shares resulting from this computation of diluted earnings per share for the twelve weeks ended June 12, 2001 and June 13, 2000 were 8,693,211 and 9,456,731, and for the twenty-four week periods ended June 12, 2001 and June 13, 2000 were 8,696,009 and 9,525,916, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANAYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

The following discussion and analysis should be read in conjunction with the Financial Statements and Notes thereto included elsewhere in this Form 10-Q.

As of June 12, 2001, the Company owned and operated 40 entertainment and restaurant locations under the Fox and Hound English Pub & Grille ("Fox and Hound"), Bailey's Sports Grille and Bailey's Pub & Grille ("Bailey's") brand names. The Company's entertainment restaurant locations combine a comfortable and inviting social gathering place, full menu and full-service bar, state-of-the-art audio and video systems for sports and music entertainment, traditional games of skill such as pocket billiards and a late-night dining alternative, all in a single location. As of June 12, 2001, the Company owned and operated 26 Fox and Hound units and 14 Bailey's units located in Alabama, Arkansas, Georgia, Illinois, Indiana, Kansas, Louisiana, Michigan, Missouri, Nebraska, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee and Texas. As of June 13, 2000, the Company owned and operated 23 Fox and Hound units and 12 Bailey's units.

The components of the Company's net sales are food and non-alcoholic beverages, alcoholic beverages, and entertainment and other. For the twelve weeks ended June 12, 2001, food and non-alcoholic beverages were 31.7% of total sales, alcoholic beverages were 59.0% of total sales and entertainment and other were 9.3% of total sales. For the twelve weeks ended June 13, 2000, food and non-alcoholic beverages were 31.7% of total sales, alcoholic beverages were 58.2% of total sales and entertainment and other were 10.1% of total sales

Components of restaurant operating expenses include operating payroll and fringe benefits, occupancy, advertising and promotion. These costs are generally variable and will fluctuate with changes in sales volume and sales mix. All but one of the Company's locations are leased and provide for a minimum annual rent, with some leases calling for additional rent based on sales volume at the particular location in excess of specified minimum levels.

General and administrative expenses include all corporate and administrative functions that support existing operations and provide an infrastructure to support future growth. Management, supervisory and staff salaries, employee benefits, travel, information systems, training, rent and office supplies as well as accounting services fees are major items of costs in this category.

RESULTS OF OPERATIONS

The following table sets forth for the periods indicated (i) the percentages which certain items included in the Condensed Consolidated Statement of Operations bear to net sales, and (ii) other selected operating data:

(1) The Company operates on a fifty-two or fifty-three week fiscal year ending the last Tuesday in December. The fiscal quarters for the Company consist of accounting periods of twelve, twelve, twelve and sixteen or seventeen weeks, respectively.

(2) Annualized average weekly sales per location are computed by dividing net

sales for full weeks open during the period by the number of full weeks open and multiplying the result by fifty-two.

TWELVE WEEKS ENDED JUNE 12, 2001 COMPARED TO TWELVE WEEKS ENDED JUNE 13, 2000

Net sales increased $2,719,000 (22.6%) for the twelve weeks ended June 12, 2001 to $14,725,000 from $12,006,000 for the twelve weeks ended June 13, 2000. This increase is due to an increase in same store sales for units open more than 18 months of 5.5% and sales resulting from the five units opened since June 13, 2000.

Costs of sales, primarily food and beverages, increased $881,000 (27.9%) for the twelve weeks ended June 12, 2001 to $4,040,000 from $3,159,000 in the twelve weeks ended June 13, 2000, and increased as a percentage of sales to 27.4% from 26.3%. This increase as a percentage of sales is principally attributable to higher food costs associated with a new menu implemented in the first quarter of 2001 and an increase in certain raw product costs.

Entertainment and restaurant operating expenses increased $1,409,000 (22.2%) for the twelve weeks ended June 12, 2001 to $7,747,000 from $6,337,000 in the twelve weeks ended June 13, 2000, and decreased as a percentage of net sales to 52.6% from 52.7%. This decrease is

-8-

attributable to leveraging fixed expenses against higher unit volumes offset by higher hourly labor costs in the five new units opened since June 13, 2000, higher hourly labor costs associated with a new menu implemented in the first quarter of 2001 and higher utility costs.

Depreciation and amortization decreased $25,000 (3.0%) for the twelve weeks ended June 12, 2001 to $850,000 from $825,000 in the twelve weeks ended June 13, 2000, and decreased as a percentage of sales to 5.8% from 6.9%. This net decrease is due principally to depreciation in 2000 on assets in two units for which an impairment charge was taken in the fourth quarter of 2000 and depreciation in 2000 on certain assets with a two-year life which were added in 1998. No depreciation charge was incurred on these assets in 2001. This decrease was offset by depreciation incurred during 2001 on five units which opened since June 13, 2000.

Preopening costs increased to $291,000 for the twelve weeks ended June 12, 2001 to $299,000 from $8,000 in the twelve weeks ended June 13, 2000 and increased as a percentage of net sales to 2.0% from 0.1%. This increase is attributable to the costs incurred for units opened during the twelve weeks ended June 12, 2001 and for units which have yet to open.

General and administrative expenses increased $7,000 (0.8%) for the twelve weeks ended June 12, 2001 to $911,000 from $904,000 in the twelve weeks ended June 13, 2000, and decreased as a percentage of sales to 6.2% from 7.5%.

Loss on disposal of assets was $29,000 for the twelve weeks ended June 12, 2001 and $6,000 for the twelve weeks ended June 13, 2000. The losses reflect the disposal of certain video games for several units in both years.

Interest expense was $223,000 for the twelve weeks ended June 12, 2001 and $242,000 for the twelve weeks ended June 13, 2000. This decrease is due to a lower interest rate applicable to the revolving note payable in the current year compared with the prior year offset by a higher average balance on the revolving note payable during the current year compared with the prior year.

The effective income tax rate was 36.5% for the twelve weeks ended June 12, 2001 and 37.0% for the twelve weeks ended June 13, 2000.

TWENTY-FOUR WEEKS ENDED JUNE 12, 2001 COMPARED TO TWENTY-FOUR WEEKS ENDED JUNE 13, 2000

Net sales increased $5,506,000 (21.5%) for the twenty-four weeks ended June 12, 2001 to $31,162,000 from $25,656,000 for the twenty-four weeks ended June 13, 2000. This increase is due to an increase in same store sales for units open more than 18 months of 5.8% and sales resulting from the five units opened since June 13, 2000.

Costs of sales, primarily food and beverages, increased $1,788,000 (26.7%) for the twenty-four weeks ended June 12, 2001 to $8,491,000 from $6,703,000 in the twenty-four weeks ended June 13, 2000, and increased as a percentage of sales to 27.2% from 26.1%. This increase as a percentage of sales is principally attributable to higher food costs associated with a new menu implemented in the first quarter of 2001 and an increase in certain raw product costs.

Entertainment and restaurant operating expenses increased $3,003,000 (23.5%) for the twenty-four weeks ended June 12, 2001 to $15,772,000 from $12,769,000 in the twenty-four weeks ended June 13, 2000, and increased as a percentage of net sales to 50.6% from 49.8%. This increase is attributable to higher hourly labor costs in the five new units opened since June 13, 2000, higher hourly labor costs associated with a new menu implemented in the first quarter of 2001 and higher utility costs offset by leveraging fixed expenses against higher unit volumes.

Depreciation and amortization increased $4,000 (0.2%) for the twenty-four weeks ended June 12, 2001 to $1,667,000 from $1,663,000 in the twenty-four weeks ended June 13, 2000, and decreased as a percentage of sales to 5.4% from 6.5%. This increase is due to depreciation incurred during 2001 on five units opened since June 13, 2000 offset by depreciation in 2000 on assets in two units for which an impairment charge was taken in the fourth quarter of 2000 and depreciation in 2000 on certain assets with a two-year life which were added in 1998. No depreciation charge was incurred on these assets in 2001.

Preopening costs increased $356,000 for the twenty-four weeks ended June 12, 2001 to $370,000 from $14,000 in the twenty-four weeks ended June 13, 2000 and increased as a percentage of net sales to 1.2% from 0.1%. This increase is attributable to the costs incurred for units opened during the twenty-four weeks ended June 12, 2001 and for units which have yet to open.

General and administrative expenses decreased $84,000 (4.5%) for the twenty-four weeks ended June 12, 2001 to $1,778,000 from $1,862,000 in the twenty-four weeks ended June 13, 2000, and decreased as a percentage of sales to 5.7% from 7.3%. This decrease is attributable primarily to the realignment of certain executive office positions during 2000

Loss on disposal of assets was $52,000 for the twenty-four weeks ended June 12, 2001 and $32,000 for the twenty-four weeks ended June 13, 2000. The losses reflect the disposal of certain video games for several units in both years.

Interest expense was $478,000 for the twenty-four weeks ended June 12, 2001 and $492,000 for the twenty-four weeks ended June 13, 2000. This decrease is due to a lower interest rate applicable to the revolving note payable in the current year compared with the prior year offset by a higher average balance on the revolving note payable during the current year compared with the prior year.

The effective income tax rate was 36.4% for the twenty-four weeks ended June 12, 2001 and 37.0% for the twenty-four weeks ended June 13, 2000.

QUARTERLY FLUCTUATIONS, SEASONALITY AND INFLATION

The timing of new unit openings will result in significant fluctuations in quarterly results. The Company expects seasonality to be a factor in the results of its business in the future due to expected lower second and third quarter revenues due to the summer season. The primary inflationary factors affecting the Company's operations include food, liquor and labor costs. A large number of the Company's restaurant personnel are tipped employees who are paid at the federal subminimum wage level; therefore, future subminimum wage changes will have a significant effect on labor costs. As costs of food and labor have increased, the Company has historically been able to offset these increases through economies of scale, improved operating procedures and menu price changes; however, short-term fluctuations in raw product pricing may have an impact on the Company's costs of food. To date, inflation has not had a material impact on operating margins.

LIQUIDITY AND CAPITAL RESOURCES

As is customary in the restaurant industry, the Company operates with negative working capital. Negative working capital decreased $453,000 to $2,982,000 as of June 12, 2001 from $3,435,000 as of December 26, 2000. This decrease is attributable to a decrease in accounts

payable related to new unit expansion including a decrease of $1,410,000 in property and equipment additions included in accounts payable at June 12, 2001 compared to December 26, 2000. Cash increased $607,000 offset by an increase of $1,559,000 related to current portion of notes payable at June 12, 2001 compared to the balance at December 26, 2000. The Company does not have significant receivables or inventory and receives trade credit based upon negotiated terms in purchasing food and supplies. Because funds available from cash sales are not needed immediately to pay for food and supplies, or to finance inventory, they may be considered as a source of financing for noncurrent capital expenditures.

On September 1, 1998 the Company entered into a loan agreement with Intrust Bank, N.A. (the "Facility") which provides for a line of credit of $20,000,000 subject to certain limitations based on earnings before interest, taxes, depreciation and amortization of the past fifty-two weeks. The Facility requires monthly payments of interest only until November 1, 2001, at which time equal monthly installments of principal and interest are required as necessary to fully amortize the outstanding indebtedness plus future interest over a period of four years. Interest is accrued at 1/2% below the prime rate as published in THE WALL STREET JOURNAL. Proceeds from the Facility are being used for restaurant development and stock repurchases. As of June 12, 2001 the Company had borrowed $13,250,000 under the Facility. The Company is in compliance with all debt covenants. The Company is currently in negotiations with Intrust Bank, N.A. to extend the requirement to begin monthly installments of principal and interest from November 1, 2001 until November 1, 2003. However, no binding extension has been reached to date.

Cash flows from operations were $1,728,000 in the twenty-four weeks ended June 12, 2001 compared to $3,068,000 in the twenty-four weeks ended June 13, 2000. Purchases of property and equipment were $2,244,000 in 2001 compared to $260,000 in 2000. Net advances of the revolving note payable to bank was $1,270,000 for the twenty-four week period ending June 12, 2001 compared to net payments of $2,555,000 for the twenty-four week period ending June 13, 2000. The Company spent $167,000 to repurchase 75,300 shares of common stock in 2001 compared to $660,000 of common stock repurchases in 2000. At June 12, 2001, the Company had $2,851,000 in cash and cash equivalents.

The Company intends to open up to seven new locations in 2001 and between seven and ten locations in 2002. Two units have been opened since March 20, 2001, one unit is currently under construction and an additional seven leases have been executed. The Company is currently evaluating locations in markets familiar to its management team. However, the number of locations actually opened and the timing thereof may vary depending upon the ability of the Company to locate suitable sites and negotiate favorable leases. The Company expects to expend approximately $10.0 to $13.0 million to open new locations over the next twelve months.

Assuming the requirement to begin principal and interest payments on the Facility is deferred until November 1, 2003, the Company believes the funds available from the Facility and its cash flow from operations will be sufficient to satisfy its working capital and capital expenditure requirements for at least the next twelve months. There can be no assurance, however, that the Company will successfully defer the principal payment requirements of its Facility or that changes in the Company's operating plans, the acceleration or modification of the Company's expansion plans, lower than anticipated revenues, increased expenses, stock repurchases, potential acquisitions or other events will not cause the Company to seek additional financing sooner than anticipated, prevent the Company from achieving the goals of its expansion strategy or prevent any newly opened locations from operating profitably. There can be no assurance that additional financing will be available on terms acceptable to the Company or at all.

NEW ACCOUNTING PRONOUNCEMENT

In July, 2001, the Financial Accounting Standards Board (FASB) issued Statement No. 142, Goodwill and Other Intangible Assets.

Statement No. 142 requires that goodwill no longer be amortized to earnings, but instead be reviewed for impairment. The amortization of goodwill ceases upon adoption of the Statement, which for most companies, will be January 1, 2002. The Company is currently recording goodwill amortization expense of $244,163 per year. Such amortization expense will no longer be recorded upon adoption of this statement.

FORWARD LOOKING STATEMENTS

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. Although the Company believes that the assumptions underlying the forward-looking statements contained herein are reasonable, any of the assumptions could be inaccurate, and, therefore, there can be no assurance that the forward-looking statements included in this report will prove to be accurate. Factors that could cause actual results to differ from the results discussed in the forward-looking statements include, but are not limited to, potential increases in food and liquor costs, competition and the inability to find suitable new locations. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

INTEREST RATE RISK

The Company's Facility has a variable rate which is directly affected by changes in U.S. interest rates. The average interest rate of the Facility was 7.24% for the twelve weeks ended June 12, 2001.
