PROXY STATEMENT

This Proxy Statement is being furnished to the shareholders of Linens 'n Things, Inc., a Delaware corporation (the "Company"), in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Annual Meeting of Shareholders of the Company to be held on Thursday, May 1,

## Edgar Filing: LINENS N THINGS INC - Form DEF 14A

2003, at 11:00 a.m., at 6 Brighton Road, Clifton, New Jersey and at any postponement or adjournment (the "Annual Meeting"). At the Annual Meeting, shareholders of the Company are being asked to consider and vote on the election of two directors, each for a three-year term.

This Proxy Statement, Notice of Meeting and accompanying proxy are first being mailed to shareholders on or about April 4, 2003.

### GENERAL

The holders of record of shares of the Company's Common Stock at the close of business on March 10, 2003 are entitled to vote such shares at the Annual Meeting. On March 10, 2003, there were outstanding 44,102,098 shares of Common Stock.

The presence in person or by proxy of the holders of a majority of the shares outstanding on the record date is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Each shareholder is entitled to one vote, in person or by proxy, for each share of Common Stock held as of the record date on each matter to be voted on. Abstentions and broker non-votes are included in determining whether a quorum is present. Broker non-votes occur when a broker returns a proxy but does not have authority to vote on a particular proposal.

Shares of Common Stock represented by a properly executed proxy received in time for the Annual Meeting will be voted as specified in the proxy, unless the proxy has previously been revoked. Unless contrary instructions are given in the proxy, it will be voted for the persons designated in the proxy as the Board of Directors' nominees for director and with respect to any other matter properly submitted to shareholders at the Annual Meeting, as recommended by the Board of Directors or, if no recommendation is given, in its discretion.

Shareholders may vote by completing and mailing the proxy card. A proxy may be revoked prior to the exercise of the proxy either by submitting written revocation of that proxy to the Corporate Secretary or by submitting a new proxy bearing a later date via proxy card. A proxy may also be revoked by voting in person at the Annual Meeting. Attendance at the Annual Meeting will not in itself constitute revocation of a proxy.

1

If a person is a participant in the Company's 401(k) savings plan and has Common Stock in a plan account, the proxy also serves as voting instructions for the plan trustee.

This proxy solicitation is being made on behalf of the Company and the expense of preparing, printing and mailing this Proxy Statement and proxy is being paid by the Company. In addition to use of the mails, proxies may be solicited personally or by telephone, facsimile or electronic mail by regular employees or directors of the Company without additional compensation. The Company will reimburse banks, brokers and other custodians, nominees and fiduciaries for their costs in sending proxy materials to the beneficial owners of Common Stock.

### MULTIPLE COPIES OF ANNUAL REPORT AND PROXY STATEMENT

When more than one holder of Common Stock share the same address, the Company may deliver only one annual report and one proxy statement to that address unless the Company has received contrary instructions from one or more of those shareholders. Similarly, brokers and other intermediaries holding shares of Common Stock in "street name" for more than one beneficial owner with

## Edgar Filing: LINENS N THINGS INC - Form DEF 14A

the same address may deliver only one annual report and one proxy statement to that address if they have received consent from the beneficial owners of the stock.

The Company will deliver promptly upon written or oral request a separate copy of the Annual Report and Proxy Statement to any shareholder, including a beneficial owner of stock held in "street name," at a shared address to which a single copy of either of those documents was delivered. If your shares are held in "street name" and you want to increase or decrease the number of copies of the Annual Report and Proxy Statement delivered to your household in the future, you should contact the broker or other intermediary who holds the shares on your behalf.

Based upon this review, the Board of Directors plans to adopt those changes that it believes are the best corporate governance policies and practices for the Company. ### ELECTION OF DIRECTORS

#### GENERAL

The Board of Directors currently consists of six members and is divided into three classes of equal size. Directors are generally elected for three year terms on a staggered term basis, so that each year the term of office of one class will expire and the terms of office of the other classes will extend for additional periods of one and two years respectively. This year's nominees have been nominated to serve for a three-year term expiring in 2006. The Company has inquired of the nominees and determined that they will serve if elected. If for any reason any nominee is not available for election, which is not expected, the proxy committee may vote for such substitute nominee as may be recommended by the Board of Directors.

Directors are elected by the affirmative vote of a plurality of the votes cast at the Annual Meeting and entitled to vote. Abstentions are not counted as votes cast and have no effect on the outcome.

The nominees are current directors of the Company. Set forth below is a description of the background of each nominee. Also set forth below is a description of the background of the existing directors whose terms of office extend beyond the Annual Meeting. The Board of Directors recommends that shareholders vote "FOR" the Company's nominees for director.

OPTION GRANTS IN LAST FISCAL YEAR. The table below sets forth certain information concerning stock options granted during fiscal 2002 by the Company to the named executive officers.

The grant date present values shown in the following table are required by SEC regulations, and are not intended to forecast possible future appreciation. The Company is not aware of any formula which will predict with reasonable accuracy the future appreciation of equity securities. No benefit from the grant of stock options can be realized by optionees unless there is an appreciation in stock price, which will benefit all shareholders commensurately.

### EMPLOYMENT AGREEMENTS AND OTHER EXECUTIVE AGREEMENTS

EMPLOYMENT AGREEMENTS. The Company has employment agreements with each of the current executive officers who are named in the Summary Compensation Table (the "Employment Agreements"). The following briefly summarizes the principal terms of these Employment Agreements.

The period of employment under the Employment Agreements extends for initial terms of approximately four years subject to automatic one-year extensions at the end of the initial terms unless the executive fails to seek renewal or the Company gives notice of non-renewal. A Company notice of non-renewal prior to the executive reaching age 60 would constitute a constructive termination of the executive without cause. During Mr. Axelrod's employment term he may relinquish any or all of his executive officer positions, and if he relinquishes all such executive officer positions, he has agreed to remain employed by the Company in an appropriate capacity at reduced compensation until age 60.

The Employment Agreements provide for payment of an annual base salary that will be reviewed at the discretion of the Compensation Committee but limit any reduction in base salary. The Employment Agreements also include provisions concerning annual incentive compensation with minimum target annual incentive awards of not less than seventy percent of base salary for Mr. Axelrod and not less than forty percent of base salary for the other executives, and long-term incentive compensation with a minimum target award opportunity of not less than thirty-five percent of base salary for Mr. Axelrod and ranging from not less than fifteen percent to not less than thirty percent of base salary for the other executives.

12

The Employment Agreements generally provide for (i) participation during the employment term in benefit plans and programs including retirement benefits, life insurance, medical benefits and, in the case of Mr. Axelrod, a supplemental executive retirement benefit and split dollar life insurance benefit and (ii) restrictive covenants including non-competition, non-disclosure, non-solicitation of employees and availability for litigation support. Upon a termination for cause, the executives have agreed not to compete with the Company for a period of one year (2 years in the case of Mr. Axelrod). In addition, in the case of voluntary termination by the executive, the Company may elect to pay the executive over a 12-month period an amount equal to the executive's annual base salary and target annual bonus in exchange for the executive's agreement not to compete with the Company for a period of one year.

In the event the executive's employment is terminated other than for cause and other than by voluntary termination, the Employment Agreements provide for (i) continued payment of salary and target annual incentive compensation for 30 months for Mr. Axelrod and from 12 to 18 months for the other executives, (ii) continuation at Company cost of medical, health and life insurance benefits for 30 months for Mr. Axelrod and 24 months for the other executives, (iii) in the case of Mr. Axelrod, vesting of outstanding options, restricted or deferred stock awards and long-term incentive awards (and pro rata payment of such long-term incentive awards based on actual and target performance) and the right

## Edgar Filing: LINENS N THINGS INC - Form DEF 14A

in certain cases to exercise vested options for the remainder of the term of the options, (iv) additional age and service credit (30 months for Mr. Axelrod and 24 months for any other eligible executive officers) for purposes of determining the amount payable under any supplemental executive retirement plan for which the executive may then be eligible, and (v) in the case of Mr. Axelrod, a lump sum actuarial amount to account for the benefit he would have received under his split dollar insurance arrangement had the Company continued to make the required insurance premium payments for an additional 30-month period.

In the event an executive officer's employment is terminated following a change in control, other than for cause and other than by voluntary termination, the Employment Agreements generally provide for (i) lump sum severance benefits equal to 2 times (2.99 for Mr. Axelrod) the annual base salary and target bonus, (ii) continuation of medical, health and life insurance at Company cost until age 60 for Mr. Axelrod and for 24 months for the other executives, (iii) vesting of outstanding options, restricted or deferred stock awards and long-term incentive awards (and pro rata payment of such long-term incentive awards based on actual and target performance), and the right in certain cases to exercise vested options for the remainder of the term of the options, (iv) additional age and service credit (36 months for Mr. Axelrod and 24 months for any other eligible executive officers) for purposes of determining the amount payable under any supplemental executive retirement plan for which the executive may then be eligible, and (v) in the case of Mr. Axelrod, a lump sum actuarial amount to account for the benefit he would have received under his split dollar insurance arrangement had the Company continued to make required insurance premium payments for an additional 30-month period.

A "change in control" is defined to include a variety of events, including significant changes in the stock ownership of the Company or a significant subsidiary, certain changes in the Company's Board of Directors, certain mergers and consolidations of the

13

Company or a significant subsidiary, and the sale or disposition of all or substantially all the consolidated assets of the Company. "Cause" is defined generally as a breach of the restrictive covenants contained in the Employment Agreements, certain felony convictions, or willful acts or gross negligence that are materially damaging to the Company.

If payments under the Employment Agreements following a change in control are subject to the golden parachute excise tax, the Company will make an additional gross-up payment sufficient to ensure that the net after-tax amount retained by the executive (taking into account all taxes, including those on the gross-up payment) is the same as it would have been had such excise tax not applied. The Employment Agreements obligate the Company to indemnify the executives to the fullest extent permitted by law, including the advancement of expenses, and, in the case of Mr. Axelrod, provides that the Company will reimburse Mr. Axelrod for expenses incurred in seeking enforcement of his Employment Agreement, unless the assertion of such right is in bad faith or frivolous.

SEPARATION FROM EMPLOYMENT. Mr. Silverstein's position as an executive officer with the Company ceased in February 2003. Pursuant to his employment agreement, he is entitled to (i) continued payment of salary and annual incentive compensation at target levels of 60% of base salary for 18 months, (ii) settlement of all deferred compensation in accordance with his deferred compensation elections, (iii) a continuation of benefits under the executive medical, health and life insurance plans of the Company for up to 18 months following his separation, and (iv) an additional two years of age and service time credit under the Company's supplemental executive retirement plan, for a

## Edgar Filing: LINENS N THINGS INC - Form DEF 14A

total of 13 years of credited service. In addition, the Company has proposed an agreement under which Mr. Silverstein would be entitled to exercise (i) all vested stock options, for a period ending two years from the date of his separation and (ii) all options which would have vested within one year from his separation date, for an exercise period beginning on the date such options would have vested and ending two years from his separation date. At the conclusion of such two year period, all such outstanding options would terminate. A formal separation agreement has not yet been executed. All outstanding restricted stock or deferred stock awards not vested as of the date of Mr. Silverstein's separation have terminated.

**SUPPLEMENTAL EXECUTIVE RETIREMENT PLAN.** The Company has in effect a supplemental executive retirement plan for Mr. Axelrod and Mr. Silverstein which provides annual retirement benefits, commencing at or after age 55, following retirement from active service. The net annual benefit under the plan is determined based on three primary components: (i) 1.6% of final average compensation, times (ii) years of service, reduced by (iii) an offset amount. The offset amount for Mr. Axelrod ranges from \$260,000 (assuming cessation of employment were to occur at age 50) to \$530,000 (assuming cessation of employment were to occur at or following age 55). In no event will the annual benefit amount exceed 50% of final average compensation. "Final average compensation" means the average of the participant's base salary and bonus compensation (excluding equity compensation) for the three years (which need not be consecutive) with the Company or its affiliates that yield the highest average compensation. Under the plan Mr. Axelrod has 14 years of credited service and Mr. Silverstein has 13 years of credited service. Assuming a twenty percent increase in final average compensation from the highest annual covered compensation in the Summary Compensation

14

Table and assuming retirement from service at age 60, and taking into account the offset amount, the estimated annual retirement benefit payable by the Company under the plan would be approximately \$140,501 for Mr. Axelrod. The annual retirement benefit payable by the Company under the plan, commencing at age 55, will be approximately \$139,108 for Mr. Silverstein. There is no offset for social security benefits. Upon the occurrence of a change in control, as defined in the plan, the participant would automatically become fully vested and have an immediate right to begin receiving the annual benefit amount (regardless of the participant's age or years of credited service, and regardless of whether the participant is then employed by the Company) in the standard form or in a lump sum, at the participant's election. The participant need not terminate employment in order to receive the annual benefit amount pursuant to a change in control.

The Company also has had collateral assignment split dollar insurance arrangements with Mr. Axelrod and Mr. Silverstein. The Company has paid annual premiums under the policies until the earlier of termination of service, retirement or age 55. The arrangement is designed so that the Company would ultimately receive back from the policy value (the "Company Amount") the sum of all annual premium payments made by the Company, plus an interest factor of 3.4% annually. The executive's interest in the cash value and death benefit value under the policy is equal to the total policy value minus the Company.

REPORT ON COMPENSATION OF EXECUTIVE OFFICERS

Compensation decisions for the Company's Chief Executive Officer and the other named executive officers for fiscal 2002 were reviewed and determined by the Compensation Committee.

The overall objectives of the Company's executive compensation program are to attract and retain the highest quality executives to manage and lead the Company, and to provide annual and long-term incentives to management, based on both Company performance and individual performance, in order to build and sustain value for shareholders.

The Company's executive compensation program for fiscal 2002 was reviewed and approved by the Compensation Committee. A national compensation consultant was retained by the Compensation Committee to assist in reviewing competitive compensation programs for the Company in connection with the Company's senior officers, including the Chief Executive Officer and each of the other named executive officers as well as other members of the management group. This review includes compensation levels reported for senior executives of a survey group of retailers. The survey group is not the same group of companies included in the Peer Group Index set forth in the Company's Performance Graph below because, in the view of the Compensation Committee and its compensation consultant, such survey group is not necessarily the most representative group for purposes of determining competitive compensation pay practices for the senior executives. The Compensation Committee reviews the competitiveness of the Company's executive compensation practices on an annual basis.

**ANNUAL BASE SALARY.** Annual base salaries for the Chief Executive Officer and the other named executives were initially established at approximately the mean of the range of salaries considered in the survey group, with increases, if any, through fiscal 2002 made by the Compensation Committee based on its view of appropriate, competitive annual base salary levels for such executives. Actual total remuneration levels may range below or above target in any one year and over a period of years, based on performance against annual and long-term goals and return to shareholders. No base salary increases were made for any of the named executive officers in fiscal 2002.

**INCENTIVE AWARDS.** The Company's incentive program provides for annual cash bonuses based on performance relative to predetermined objectives established for the year. For fiscal 2002, the target award rate was 75% for the Chief Executive Officer, 60% for Mr. Silverstein, 45% for Messrs. Giles and Silva and 40% for Ms. Schlaepfer. Larger awards may be made if performance exceeds predetermined objectives. Smaller or no awards may be made if performance falls below such objectives. Eligible members of management, including the Chief Executive Officer and the other executive officers, can defer receipt of a portion of their incentive award. For fiscal 2002, annual award targets for the Chief Executive Officer and the other named executives were based on specific earnings objectives established by the Compensation Committee in early 2002. Actual fiscal 2002 annual incentive awards ranged from 62.5% to 98.8% of the target levels for each of the executive officers (see Summary Compensation Table above).

Long-term incentive awards for the executive officers are made under the Company's LTIP. If the executive officers achieve certain preestablished financial performance targets over a 3-year period, LTIP awards are determined

and made by the Compensation Committee. Such LTIP awards have been comprised of 50% restricted stock and 50% deferred cash awards (with the deferred cash awards invested in Company Common Stock by the plan trustee under the Company's deferred compensation plan). The financial performance targets under the LTIP for the 3-year cycle ending in fiscal 2002 were established based on earnings and net return on assets. No awards were made under the LTIP for the performance cycle ending in fiscal 2002.

STOCK BASED COMPENSATION. The Board of Directors and the Compensation Committee are of the view that stock ownership or its equivalent by management aligns the interest of management with the Company's shareholders. Stock options are granted at fair market value and are intended to align executive compensation opportunities with shareholder returns. Stock options granted during fiscal 2002 were part of the Compensation Committee's customary annual review and these option grants were made at levels which the Compensation Committee determined to be appropriate long-term equity-based incentives to such executives. In determining the specific levels of individual option grants for fiscal 2002 for the Chief Executive Officer and each of the other executive officers, the Compensation Committee considered and weighed a number of factors, including annual stock option grant levels of the peer group of retail companies; past levels of annual option grants to Company executives; the executive's position, responsibilities, salary and performance levels; and projected stock option grant values. Stock options granted during fiscal 2002 may vest upon the achievement of certain preestablished financial targets, but in no case sooner than 24 months after the date of grant. In the event not earlier vested, the options vest in 2009. Stock options are intended to provide long term compensation incentives, and future grants of options or other awards will be reviewed and determined periodically by the Compensation Committee.

COMPLIANCE WITH INTERNAL REVENUE CODE SECTION 162(m). Section 162(m) of the Internal Revenue Code generally allows a deduction to publicly traded companies for certain qualifying performance-based compensation. Section 162(m) disallows a deduction to the extent of certain non-performance based compensation over \$1 million paid to the Chief Executive Officer or to any of the four other most highly compensated executive officers. The Company believes that Section 162(m) deduction limits for fiscal 2003 will not be applicable or, if applicable, would not be material in terms of net financial effect. Therefore, the Company does not intend to seek to restructure any fiscal 2003 compensation arrangements. The Company and the Compensation Committee will continue to monitor this matter.
