CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains “forward-looking statements” intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact contained in this report are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements usually relate to future events and anticipated revenues, earnings, cash flows or other aspects of our operations or operating results. Forward-looking statements are often identified by the words “believe,” “expect,” “anticipate,” “plan,” “intend,” “foresee,” “should,” “would,” “could,” “may,” “estimate,” “outlook” and similar expressions, including the negative thereof. The absence of these words, however, does not mean that the statements are not forward-looking. These forward-looking statements are based on our current expectations, beliefs and assumptions concerning future developments and business conditions and their potential effect on us. While management believes that these forward-looking statements are reasonable as and when made, there can be no assurance that future developments affecting us will be those that we anticipate.

All of our forward-looking statements involve risks and uncertainties (some of which are significant or beyond our control) and assumptions that could cause actual results to differ materially from our historical experience and our present expectations or projections. Known material factors that could cause actual results to differ materially from those contemplated in the forward-looking statements, include those set forth in Part II, Item 1A, “Risk Factors” and elsewhere in this Quarterly Report on Form 10-Q and Part I, Item 1A, “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, as well as the following:

- Demand for our systems and services, which is affected by changes in the price of, and demand for, crude oil and natural gas in domestic and international markets;
- Potential liabilities arising out of the installation or use of our systems;
- U.S. and international laws and regulations, including environmental regulations, that may increase our costs, limit the demand for our products and services or restrict our operations;
- Disruptions in the political, regulatory, economic and social conditions of the foreign countries in which we conduct business;
- Fluctuations in currency markets worldwide;
- Cost overruns that may affect profit realized on our fixed price contracts;
- Disruptions in the timely delivery of our backlog and its effect on our future sales, profitability and our relationships with our customers;
- The cumulative loss of major contracts or alliances;
- Rising costs and availability of raw materials;
- Our dependence on the continuing services of key managers and employees and our ability to attract, retain and motivate additional highly-skilled employees for the operation and expansion of our business;
- A failure of our information technology infrastructure or any significant breach of security;
- Our ability to develop and implement new technologies and services, as well as our ability to protect and maintain critical intellectual property assets;
- The outcome of uninsured claims and litigation against us; and
- Downgrade in the ratings of our debt could restrict our ability to access the debt capital markets.

We wish to caution you not to place undue reliance on any forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any of our forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise, except to the extent required by law.

FMC TECHNOLOGIES, INC. AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of FMC Technologies, Inc. and its consolidated subsidiaries (“FMC Technologies”) have been prepared in accordance with United States generally accepted accounting principles (“GAAP”) and rules and regulations of the Securities and Exchange Commission (“SEC”) pertaining to interim financial information. As permitted under those rules, certain footnotes or other financial information that are normally required by GAAP have been condensed or omitted. Therefore, these statements should be read in conjunction with the audited consolidated financial statements, and notes thereto, which are included in our Annual Report on Form 10-K for the year ended December 31, 2013.

On February 25, 2011, our Board of Directors approved a two-for-one stock split of our outstanding shares of common stock. The stock split was completed in the form of a stock dividend; however, upon issuance of the common stock pursuant to the stock split, an amount equal to the aggregate par value of the additional shares of common stock issued was not reclassified from capital in excess of par value to common stock during the first quarter of 2011. This adjustment was made during the first quarter of 2014. All prior-year amounts have been revised to conform to the current year presentation. This adjustment had no overall effect on total equity and did not impact our overall financial position or results of operations for any period presented.

Our accounting policies are in accordance with GAAP. The preparation of financial statements in conformity with these accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Ultimate results could differ from our estimates.

In the opinion of management, the statements reflect all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of our financial condition and operating results as of and for the periods presented. Revenue, expenses, assets and liabilities can vary during each quarter of the year. Therefore, the results and trends in these statements may not be representative of the results that may be expected for the year ending December 31, 2014.

NOTE 2. RECENTLY ADOPTED ACCOUNTING STANDARDS

Effective January 1, 2014, we adopted Accounting Standards Update (“ASU”) No. 2013-11, “Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists” issued by the Financial Accounting Standards Board (“FASB”). This update requires the netting of unrecognized tax benefits against a deferred tax asset for a loss or other carryforward that would apply in settlement of the uncertain tax positions. Under the amended guidance, unrecognized tax benefits are netted against all available same-jurisdiction loss or other tax carryforwards that would be utilized, rather than only against carryforwards that are created by the unrecognized tax benefits. The updated guidance is applied prospectively, effective January 1, 2014. The adoption of this update concerns presentation and disclosure only as it relates to our condensed consolidated financial statements.

Effective January 1, 2014, we adopted ASU No. 2014-08, “Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity” issued by the FASB. This update changes the requirements of reporting discontinued operations. Under the amended guidance, a disposal of a component of an entity or a group of components of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity’s operations and financial results. The amendments in this update are effective for all disposals (or classifications as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years, with early adoption permitted. The adoption of this update concerns presentation and disclosure only as it relates to our condensed consolidated financial statements.

Table of Contents

NOTE 3. EARNINGS PER SHARE

A reconciliation of the number of shares used for the basic and diluted earnings per share calculation was as follows:

(In millions, except per share data)	Three Months Ended	
	March 31,	
	2014	2013
Net income attributable to FMC Technologies, Inc.	\$135.2	\$102.4
Weighted average number of shares outstanding	237.4	238.7
Dilutive effect of restricted stock units and stock options	0.4	0.7
Total shares and dilutive securities	237.8	239.4
Basic earnings per share attributable to FMC Technologies, Inc.	\$0.57	\$0.43
Diluted earnings per share attributable to FMC Technologies, Inc.	\$0.57	\$0.43

NOTE 4. ASSETS HELD FOR SALE

On March 20, 2014, we signed a definitive agreement with Syntron Material Handling, LLC, an affiliate of Levine Leichtman Capital Partners Private Capital Solutions II, L.P., pursuant to which we agreed to sell the equity interests of Technisys, Inc., a Utah corporation, and FMC Technologies Energy Holdings Ltd., a private limited liability company organized under the laws of Hong Kong, and assets primarily representing a product line of our material handling business (the “disposal group”).

The transaction is expected to be completed during the second quarter of 2014 and is subject to the satisfaction of certain conditions to closing, including the receipt of any applicable regulatory approvals. The disposal group is included in our Energy Infrastructure segment. As of March 31, 2014, the disposal group met the criteria to be classified as held for sale.

As of March 31, 2014, the major classes of assets and liabilities of the disposal group reported as held for sale and included in other current assets and other current liabilities on the accompanying condensed consolidated balance sheet are shown below:

(In millions)	March 31, 2014
Assets:	
Trade receivables, net	\$8.2
Inventories, net	11.3
Property, plant and equipment, net	5.0
Goodwill	5.9
Other assets	2.3
Assets held for sale	\$32.7
Liabilities:	
Accounts payable, trade	\$5.4
Advance payments and progress billings	2.4
Other liabilities	4.1
Liabilities held for sale	\$11.9

Table of Contents

NOTE 5. INVENTORIES

Inventories consisted of the following:

(In millions)	March 31, 2014	December 31, 2013
Raw materials	\$179.9	\$186.3
Work in process	157.4	141.4
Finished goods	832.5	830.3
	1,169.8	1,158.0
LIFO and valuation adjustments	(186.2) (177.6
Inventories, net	\$983.6	\$980.4

NOTE 6. GOODWILL

The carrying amount of goodwill by business segment was as follows:

(In millions)	Subsea Technologies	Surface Technologies	Energy Infrastructure	Total
December 31, 2013	\$396.9	\$92.4	\$91.4	\$580.7
Material Handling divestiture ⁽¹⁾	—	—	(5.9) (5.9
Translation	2.4	(1.8) —	0.6
March 31, 2014	\$399.3	\$90.6	\$85.5	\$575.4

⁽¹⁾ See additional disclosure in Note 4.

NOTE 7. DEBT

Long-term debt consisted of the following:

(In millions)	March 31, 2014	December 31, 2013
Commercial paper ⁽¹⁾	\$509.9	\$501.4
2.00% Notes due 2017	299.5	299.5
3.45% Notes due 2022	499.6	499.6
Term loan	26.9	25.9
Property financing	14.0	13.9
Total long-term debt	1,349.9	1,340.3
Less: current portion	(10.2) (10.5
Long-term debt, less current portion	\$1,339.7	\$1,329.8

At March 31, 2014, committed credit available under our revolving credit facility provided the ability to refinance our commercial paper obligations on a long-term basis. As we have both the ability and intent to refinance these ⁽¹⁾ obligations on a long-term basis, our commercial paper borrowings were classified as long-term in the condensed consolidated balance sheet at March 31, 2014. As of March 31, 2014, our commercial paper borrowings had a weighted average interest rate of 0.31%.

Table of Contents**NOTE 8. INCOME TAXES**

Our income tax provisions for the three months ended March 31, 2014 and 2013, reflected effective tax rates of 33.2% and 21.9%, respectively. Excluding a retroactive benefit related to the American Taxpayer Relief Act of 2012 recorded in the three months ended March 31, 2013, our effective tax rate in the first quarter of 2013 was 27.1%. The year-over-year increase from this adjusted rate was primarily due to changes in U.S. and Norwegian tax law effective from 2014 and an unfavorable change in the forecasted country mix of earnings.

Our effective tax rate can fluctuate depending on our country mix of earnings, since our foreign earnings are generally subject to lower tax rates than in the United States. In certain jurisdictions, primarily Singapore and Malaysia, our tax rate is significantly less than the relevant statutory rate due to tax holidays.

NOTE 9. WARRANTY OBLIGATIONS

Warranty cost and accrual information was as follows:

(In millions)	Three Months Ended March 31,	
	2014	2013
Balance at beginning of period	\$18.0	\$15.4
Expense for new warranties	5.4	5.4
Adjustments to existing accruals	0.4	(1.3)
Claims paid	(4.9) (6.0
Balance at end of period	\$18.9	\$13.5

NOTE 10. PENSION AND OTHER POST-RETIREMENT BENEFITS

The components of net periodic benefit cost were as follows:

(In millions)	Pension Benefits			
	Three Months Ended March 31,			
	2014		2013	
	U.S.	Int'l	U.S.	Int'l
Service cost	\$3.4	\$4.3	\$4.3	\$3.8
Interest cost	7.3	4.7	6.5	4.1
Expected return on plan assets	(11.6) (7.6) (11.0) (6.0
Amortization of actuarial loss (gain), net	3.1	1.7	6.7	1.3
Net periodic benefit cost	\$2.2	\$3.1	\$6.5	\$3.2

(In millions)	Other Post-retirement Benefits	
	Three Months Ended March 31,	
	2014	2013
Interest cost	\$0.1	\$0.1
Amortization of prior service cost (credit)	—	(0.2)
Amortization of actuarial loss (gain), net	(0.1) —
Net periodic benefit cost	\$—	\$(0.1)

During the three months ended March 31, 2014, we contributed \$0.1 million to our domestic pension benefit plans and \$13.7 million to our international pension benefit plans.

Table of Contents

NOTE 11. STOCK-BASED COMPENSATION

Under the Amended and Restated FMC Technologies, Inc. Incentive Compensation and Stock Plan (the “Plan”), we have granted awards primarily in the form of nonvested stock units (also known as restricted stock units in the plan document). We recognize compensation expense for awards under the Plan and the corresponding income tax benefits. Stock-based compensation expense for nonvested stock units was \$17.9 million and \$13.3 million for the three months ended March 31, 2014 and 2013, respectively.

During the three months ended March 31, 2014, we granted the following restricted stock units to employees:

(Number of restricted stock shares in thousands)	Shares	Weighted-Average Grant Date Fair Value (per share)
Time-based	453	
Performance-based	171	*
Market-based	86	*
Total granted	710	\$50.63

* Assumes grant date expected payout

For current-year performance-based awards, actual payouts may vary from zero to 342 thousand shares, contingent upon our performance relative to a peer group of companies with respect to earnings growth and return on investment for the year ending December 31, 2014. Compensation cost is measured based on the current expected outcome of the performance conditions and may be adjusted until the performance period ends.

For current-year market-based awards, actual payouts may vary from zero to 172 thousand shares, contingent upon our performance relative to the same peer group of companies with respect to total shareholder return (“TSR”) for a three year period ending December 31, 2016. The payout for the TSR metric is determined based on our performance relative to the peer group, however a payout is possible regardless of whether our TSR for the three year period is positive or negative. If our TSR for the three years is not positive, the payout with respect to TSR is limited to the target previously established by the Compensation Committee of the Board of Directors. Compensation cost for these awards is calculated using the grant date fair market value, as estimated using a Monte Carlo simulation, and is not subject to change based on future events.

NOTE 12. STOCKHOLDERS’ EQUITY

There were no cash dividends declared during the three months ended March 31, 2014 and 2013.

Repurchases of shares of common stock under our share repurchase program were as follows:

(In millions, except share data)	Three Months Ended March 31,	
	2014	2013
Shares of common stock repurchased	898,729	570,000
Value of common stock repurchased	\$45.8	\$27.0

As of March 31, 2014, our Board of Directors had authorized 75.0 million shares of common stock under our share repurchase program, and approximately 12.0 million shares of common stock remained available for purchase, which may be executed from time to time in the open market. We intend to hold repurchased shares in treasury for general corporate purposes, including issuances under our stock-based compensation plan. Treasury shares are accounted for using the cost method.

During the three months ended March 31, 2014, 0.5 million shares of common stock were issued from treasury stock in connection with our stock-based compensation plan. During the year ended December 31, 2013, 1.0 million shares of common stock were issued from treasury stock.

Table of Contents

Accumulated other comprehensive loss consisted of the following:

(In millions)	Foreign Currency Translation	Hedging	Defined Pension and Other Post-retirement Benefits	Accumulated Other Comprehensive Loss
December 31, 2013	\$ (204.3) \$ 31.9	\$ (168.3) \$ (340.7
Other comprehensive income (loss) before reclassifications, net of tax	9.3	(0.2) —	9.1
Reclassification adjustment for net losses (gains) included in net income, net of tax	—	(2.4) 2.7	0.3
Other comprehensive income (loss), net of tax	9.3	(2.6) 2.7	9.4
March 31, 2014	\$ (195.0) \$ 29.3	\$ (165.6) \$ (331.3

Reclassifications out of accumulated other comprehensive loss consisted of the following:

(In millions)	Three Months Ended		Affected Line Item in the Condensed Consolidated Statement of Income
	March 31, 2014	March 31, 2013	
Details about Accumulated Other Comprehensive Loss Components	Amount Reclassified out of Accumulated Other Comprehensive Loss		
Gains (losses) on hedging instruments			
Foreign exchange contracts:	\$ (10.5) \$ 2.3	Revenue
	11.3	1.5	Cost of sales
	(0.1) 0.1	Selling, general and administrative expense
	0.7	3.9	Income before income taxes
	1.7	(0.7) Income tax (expense) benefit
	\$ 2.4	\$ 3.2	Net income
Defined pension and other post-retirement benefits			
Amortization of actuarial gain (loss)	\$ (4.7) \$ (8.0) (a)
Amortization of prior service credit (cost)	0.1	0.2	(a)

	1.9	2.7	Income tax (expense) benefit
	\$ (2.7) \$ (5.1) Net income

(a) These accumulated other comprehensive income components are included in the computation of net periodic pension cost (see Note 10 for additional details).

Table of Contents

NOTE 13. DERIVATIVE FINANCIAL INSTRUMENTS

We hold derivative financial instruments for the purpose of hedging the risks of certain identifiable and anticipated transactions. The types of risks hedged are those relating to the variability of future earnings and cash flows caused by movements in foreign currency exchange rates. We hold the following types of derivative instruments:

Foreign exchange rate forward contracts—The purpose of these instruments is to hedge the risk of changes in future cash flows of anticipated purchase or sale commitments denominated in foreign currencies. At March 31, 2014, we held the following material positions:

(In millions)	Notional Amount		USD Equivalent
	Bought (Sold)		
Brazilian real	(98.9) (43.8)
British pound	173.0		287.7
Canadian dollar	(142.9) (129.7)
Chinese renminbi	94.8		15.3
Euro	200.4		276.3
Kuwaiti dinar	(5.9) (20.8)
Malaysian ringgit	62.4		19.1
Norwegian krone	2,887.2		481.6
Russian ruble	(1,684.9) (47.2)
Singapore dollar	159.8		126.9
Swedish krona	126.5		19.5
U.S. dollar	(991.4) (991.4)

Foreign exchange rate instruments embedded in purchase and sale contracts—The purpose of these instruments is to match offsetting currency payments and receipts for particular projects, or comply with government restrictions on the currency used to purchase goods in certain countries. At March 31, 2014, our portfolio of these instruments included the following material positions:

(In millions)	Notional Amount		USD Equivalent
	Bought (Sold)		
Brazilian real	(55.9) (24.7)
British pound	7.8		13.0
U.S. dollar	25.5		25.5

The purpose of our foreign currency hedging activities is to manage the volatility associated with anticipated foreign currency purchases and sales created in the normal course of business. We primarily utilize forward exchange contracts with maturities of less than three years.

Our policy is to hold derivatives only for the purpose of hedging risks and not for trading purposes where the objective is solely to generate profit. Generally, we enter into hedging relationships such that changes in the fair values or cash flows of the transactions being hedged are expected to be offset by corresponding changes in the fair value of the derivatives. For derivative instruments that qualify as a cash flow hedge, the effective portion of the gain or loss of the derivative, which does not include the time value component of a forward currency rate, is reported as a component of other comprehensive income (“OCI”) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

Table of Contents

The following table of all outstanding derivative instruments is based on estimated fair value amounts that have been determined using available market information and commonly accepted valuation methodologies. Refer to Note 14 for further disclosures related to the fair value measurement process. Accordingly, the estimates presented may not be indicative of the amounts that we would realize in a current market exchange and may not be indicative of the gains or losses we may ultimately incur when these contracts settle or mature.

(In millions)	March 31, 2014		December 31, 2013	
	Assets	Liabilities	Assets	Liabilities
Derivatives designated as hedging instruments:				
Foreign exchange contracts:				
Current – Derivative financial instruments	\$96.6	\$98.8	\$149.3	\$152.5
Long-term – Derivative financial instruments	65.0	37.9	65.4	44.1
Total derivatives designated as hedging instruments	161.6	136.7	214.7	196.6
Derivatives not designated as hedging instruments:				
Foreign exchange contracts:				
Current – Derivative financial instruments	13.7	12.9	16.6	18.8
Long-term – Derivative financial instruments	1.8	1.9	3.1	3.0
Total derivatives not designated as hedging instruments	15.5	14.8	19.7	21.8
Total derivatives	\$177.1	\$151.5	\$234.4	\$218.4

We recognized an immaterial loss and \$0.3 million of gain on cash flow hedges for the three months ended March 31, 2014 and 2013, respectively, due to hedge ineffectiveness as it was probable that the original forecasted transaction would not occur. Cash flow hedges of forecasted transactions, net of tax, resulted in accumulated other comprehensive gains of \$29.2 million and \$31.9 million at March 31, 2014, and December 31, 2013, respectively. We expect to transfer an approximate \$7.8 million gain from accumulated OCI to earnings during the next 12 months when the anticipated transactions actually occur. All anticipated transactions currently being hedged are expected to occur by the end of 2016.

Table of Contents

The following tables present the impact of derivative instruments in cash flow hedging relationships and their location within the accompanying condensed consolidated statements of income.

(In millions)	Gain (Loss) Recognized in OCI (Effective Portion) Three Months Ended March 31,	
	2014	2013
Foreign exchange contracts	\$ 1.9	\$(26.0)

(In millions)	Gain (Loss) Reclassified from Accumulated OCI into Income OCI into Income (Effective Portion) Three Months Ended March 31,	
	2014	2013
Foreign exchange contracts:		
Revenue	\$(10.5)	\$ 2.3
Cost of sales	11.3	1.5
Selling, general and administrative expense	(0.1)	0.1
Total	\$ 0.7	\$ 3.9

(In millions)	Gain (Loss) Recognized in Income (Ineffective Portion and Amount Excluded from Effectiveness Testing) Three Months Ended March 31,	
	2014	2013
Foreign exchange contracts:		
Revenue	\$ 4.6	\$ 4.9
Cost of sales	(3.7)	(2.9)
Total	\$ 0.9	\$ 2.0

Instruments that are not designated as hedging instruments are executed to hedge the effect of exposures in the condensed consolidated balance sheets, and occasionally, forward foreign currency contracts or currency options are executed to hedge exposures which do not meet all of the criteria to qualify for hedge accounting.

(In millions)	Gain (Loss) Recognized in Income on Derivatives (Instruments Not Designated as Hedging Instruments) Three Months Ended March 31,	
	2014	2013
Foreign exchange contracts:		
Revenue	\$ (1.0)	\$ 1.0
Cost of sales	0.5	(0.4)
Other income (expense), net	3.6	7.3
Total	\$ 3.1	\$ 7.9

Table of Contents

Balance Sheet Offsetting—We execute derivative contracts only with counterparties that consent to a master netting agreement which permits net settlement of the gross derivative assets against gross derivative liabilities. Each instrument is accounted for individually and assets and liabilities are not offset. As of March 31, 2014, and December 31, 2013, we had no collateralized derivative contracts. The following tables present both gross information and net information of recognized derivative instruments:

(In millions)	March 31, 2014			December 31, 2013		
	Gross Amount Recognized	Gross Amounts Not Offset Permitted Under Master Netting Agreements	Net Amount	Gross Amount Recognized	Gross Amounts Not Offset Permitted Under Master Netting Agreements	Net Amount
Derivative assets	\$177.1	\$(136.0)	\$41.1	\$234.4	\$(198.5)	\$35.9

(In millions)	March 31, 2014			December 31, 2013		
	Gross Amount Recognized	Gross Amounts Not Offset Permitted Under Master Netting Agreements	Net Amount	Gross Amount Recognized	Gross Amounts Not Offset Permitted Under Master Netting Agreements	Net Amount
Derivative liabilities	\$151.5	\$(136.0)	\$15.5	\$218.4	\$(198.5)	\$19.9

NOTE 14. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value on a recurring basis were as follows:

(In millions)	March 31, 2014				December 31, 2013			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
Assets								
Investments:								
Equity securities	\$22.1	\$22.1	\$—	\$—	\$21.2	\$21.2	\$—	\$—
Fixed income	13.3	13.3	—	—	13.2	13.2	—	—
Money market fund	2.8	—	2.8	—	3.8	—	3.8	—
Stable value fund	1.1	—	1.1	—	1.0	—	1.0	—
Other	2.5	2.5	—	—	2.4	2.4	—	—
Derivative financial instruments:								
Foreign exchange contracts	177.1	—	177.1	—	234.4	—	234.4	—
Total assets	\$218.9	\$37.9	\$181.0	\$—	\$276.0	\$36.8	\$239.2	\$—
Liabilities								
Derivative financial instruments:								
Foreign exchange contracts	151.5	—	151.5	—	218.4	—	218.4	—
Contingent earn-out consideration	72.2	—	—	72.2	70.1	—	—	70.1
Total liabilities	\$223.7	\$—	\$151.5	\$72.2	\$288.5	\$—	\$218.4	\$70.1

Investments—The fair value measurement of our equity securities, fixed income and other investment assets is based on quoted prices that we have the ability to access in public markets. Our stable value fund and money market fund are valued at the net asset value of the shares held at the end of the quarter, which is based on the fair value of the underlying investments using information reported by the investment advisor at quarter-end.

Table of Contents

Derivative financial instruments—We use the income approach as the valuation technique to measure the fair value of foreign currency derivative instruments on a recurring basis. This approach calculates the present value of the future cash flow by measuring the change from the derivative contract rate and the published market indicative currency rate, multiplied by the contract notional values. Credit risk is then incorporated by reducing the derivative's fair value in asset positions by the result of multiplying the present value of the portfolio by the counterparty's published credit spread. Portfolios in a liability position are adjusted by the same calculation; however, a spread representing our credit spread is used. Our credit spread, and the credit spread of other counterparties not publicly available are approximated by using the spread of similar companies in the same industry, of similar size and with the same credit rating.

At the present time, we have no credit-risk-related contingent features in our agreements with the financial institutions that would require us to post collateral for derivative positions in a liability position.

See Note 13 for additional disclosure related to derivative financial instruments.

Multi Phase Meters contingent earn-out consideration—We determined the fair value of the contingent earn-out consideration using a discounted cash flow model. The key assumptions used in applying the income approach are the expected profitability and debt, net of cash, of the acquired company during the earn-out period and the discount rate which approximates our debt credit rating. The fair value measurement is based upon significant inputs not observable in the market. Changes in the value of the contingent earn-out consideration are recorded as cost of service and other revenue in our condensed consolidated statements of income.

Changes in the fair value of our Level 3 contingent earn-out consideration obligation were as follows:

(In millions)	Three Months Ended March 31,	
	2014	2013
Balance at beginning of period	\$70.1	\$105.3
Remeasurement adjustment	1.3	—
Foreign currency translation adjustment	0.8	(5.4)
Balance at end of period	\$72.2	\$99.9

Fair value of debt—At March 31, 2014, the fair value, based on Level 1 quoted market rates, of our 2.00% Notes due 2017 and 3.45% Notes due 2022 (collectively, "Senior Notes") was approximately \$780.3 million as compared to the \$800.0 million face value of the debt, net of issue discounts, recorded in the consolidated balance sheet.

Other fair value disclosures—The carrying amounts of cash and cash equivalents, trade receivables, accounts payable, short-term debt, commercial paper, debt associated with our term loan, revolving credit facility as well as amounts included in other current assets and other current liabilities that meet the definition of financial instruments, approximate fair value.

Credit risk—By their nature, financial instruments involve risk, including credit risk, for non-performance by counterparties. Financial instruments that potentially subject us to credit risk primarily consist of trade receivables and derivative contracts. We manage the credit risk on financial instruments by transacting only with what management believes are financially secure counterparties, requiring credit approvals and credit limits, and monitoring counterparties' financial condition. Our maximum exposure to credit loss in the event of non-performance by the counterparty is limited to the amount drawn and outstanding on the financial instrument. Allowances for losses on trade receivables are established based on collectability assessments. We mitigate credit risk on derivative contracts by executing contracts only with counterparties that consent to a master netting agreement which permits the net settlement of gross derivative assets against gross derivative liabilities.

Table of Contents

NOTE 15. COMMITMENTS AND CONTINGENT LIABILITIES

In the ordinary course of business with customers, vendors and others, we issue standby letters of credit, performance bonds, surety bonds and other guarantees. The majority of these financial instruments represent guarantees of our future performance. Additionally, we were the named guarantor on certain letters of credit and performance bonds issued by our former subsidiary, John Bean Technologies Corporation (“JBT”). Pursuant to the terms of the Separation and Distribution Agreement, dated July 31, 2008, between FMC Technologies and JBT (the “JBT Separation and Distribution Agreement”), we are fully indemnified by JBT with respect to certain residual obligations. Management does not expect any of these financial instruments to result in losses that, if incurred, would have a material adverse effect on our consolidated financial position, results of operations or cash flows.

During the three months ended March 31, 2014, we entered into construction and operating lease agreements to finance the construction of manufacturing and office facilities on land purchased in 2012 and located in Houston, Texas. Upon expiration of the lease term, we have the option to renew the lease, purchase the facilities or re-market the facilities on behalf of the lessor, including certain guarantees of residual value under the re-marketing option. Contingent liabilities associated with legal matters—We are involved in various pending or potential legal actions in the ordinary course of our business. Management is unable to predict the ultimate outcome of these actions, because of the inherent uncertainty of litigation. However, management believes that the most probable, ultimate resolution of these matters will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

In addition, under the Separation and Distribution Agreement, dated May 31, 2001, between FMC Corporation and FMC Technologies, FMC Corporation is required to indemnify us for certain claims made prior to our spin-off from FMC Corporation, as well as for other claims related to discontinued operations. Under the JBT Separation and Distribution Agreement, JBT is required to indemnify us for certain claims made prior to the spin-off of our Airport and FoodTech businesses, as well as for certain other claims related to JBT products or business operations. We expect that FMC Corporation will bear responsibility for a majority of these claims initiated subsequent to the spin-off, and that JBT will bear most, if not substantially all, of any responsibility for certain other claims initiated subsequent to the spin-off.

Contingent liabilities associated with liquidated damages—Some of our contracts contain penalty provisions that require us to pay liquidated damages if we are responsible for the failure to meet specified contractual milestone dates and the applicable customer asserts a conforming claim under these provisions. These contracts define the conditions under which our customers may make claims against us for liquidated damages. Based upon the evaluation of our performance and other commercial and legal analysis, management believes we have appropriately accrued for probable liquidated damages at March 31, 2014, and December 31, 2013, and that the ultimate resolution of such matters will not materially affect our consolidated financial position, results of operations or cash flows for the year ending December 31, 2014.

Table of Contents

NOTE 16. BUSINESS SEGMENT INFORMATION

Beginning in the third quarter of 2013 and in conjunction with management's efforts to accelerate the development and commercialization of subsea boosting technology for subsea markets, the results of direct drive systems technology development is now reported in Subsea Technologies. All prior-year information has been adjusted to reflect the current presentation.

Segment revenue and segment operating profit were as follows:

(In millions)	Three Months Ended March 31,	
	2014	2013
Segment revenue		
Subsea Technologies	\$1,202.0	\$1,093.3
Surface Technologies	479.5	421.7
Energy Infrastructure	145.6	134.3
Other revenue ⁽¹⁾ and intercompany eliminations	(2.7) (3.3
Total revenue	1,824.4	1,646.0
Income before income taxes:		
Segment operating profit:		
Subsea Technologies	\$141.7	\$97.4
Surface Technologies	87.7	57.3
Energy Infrastructure	15.6	12.1
Intercompany eliminations	—	(0.2
Total segment operating profit	245.0	166.6
Corporate items:		
Corporate expense ⁽²⁾	(14.9) (10.3
Other revenue ⁽¹⁾ and other expense, net ⁽³⁾	(19.7) (17.0
Net interest expense	(8.2) (8.1
Total corporate items	(42.8) (35.4
Income before income taxes attributable to FMC Technologies, Inc. ⁽⁴⁾	\$202.2	\$131.2

⁽¹⁾ Other revenue comprises certain unrealized gains and losses on derivative instruments related to unexecuted sales contracts.

⁽²⁾ Corporate expense primarily includes corporate staff expenses.

Other expense, net, generally includes stock-based compensation, other employee benefits, LIFO adjustments,

⁽³⁾ certain foreign exchange gains and losses, and the impact of unusual or strategic transactions not representative of segment operations.

⁽⁴⁾ Excludes net income attributable to noncontrolling interests.

Table of Contents

Segment operating capital employed and assets were as follows:

(In millions)	March 31, 2014	December 31, 2013
Segment operating capital employed ⁽¹⁾ :		
Subsea Technologies	\$2,245.3	\$2,126.3
Surface Technologies	1,147.3	1,139.1
Energy Infrastructure	370.0	345.4
Total segment operating capital employed	3,762.6	3,610.8
Segment liabilities included in total segment operating capital employed ⁽²⁾	2,368.1	2,272.8
Corporate ⁽³⁾	596.5	722.0
Total assets	\$6,727.2	\$6,605.6
Segment assets:		
Subsea Technologies	\$4,158.7	\$3,923.6
Surface Technologies	1,499.9	1,484.0
Energy Infrastructure	503.6	496.4
Intercompany eliminations	(31.5) (20.4
Total segment assets	6,130.7	5,883.6
Corporate ⁽³⁾	596.5	722.0
Total assets	\$6,727.2	\$6,605.6

FMC Technologies' management views segment operating capital employed, which consists of assets, net of its ⁽¹⁾ liabilities, as the primary measure of segment capital. Segment operating capital employed excludes debt, pension liabilities, income taxes, and LIFO and valuation adjustments.

⁽²⁾ Segment liabilities included in total segment operating capital employed consist of trade and other accounts payable, advance payments and progress billings, accrued payroll and other liabilities.

⁽³⁾ Corporate includes cash, LIFO adjustments, deferred income tax balances, property, plant and equipment not associated with a specific segment, pension assets and the fair value of derivative financial instruments.

NOTE 17. SUBSEQUENT EVENTS

On April 9, 2014, we made a payment related to the Multi Phase Meters earn-out obligation of \$72.5 million. The payment represents the final earn-out obligation payment related to our acquisition of Multi Phase Meters.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Outlook

Overall, management is optimistic about business activity for the remainder of 2014 as global economic growth continues to recover. While expectations of future energy demand remain closely tied to economic activity in major world economies, total world consumption of crude oil and liquid fuels is expected to increase in 2014. As a result, we currently expect crude oil prices to remain at a level that supports exploration and production activity, especially in subsea markets.

Our strong subsea project backlog as of March 31, 2014, combined with continued demand for subsea systems and services related to exploration and production activity, supports our expectations of improved results. Our mix of projects in subsea backlog continues to improve, and as a result, we continue to expect margin improvement throughout 2014. Despite market concern over increasing field development costs, our customers remain committed to their deepwater asset portfolios and are seeking solutions from subsea suppliers that will improve their productivity and profitability. We have standardized many aspects of subsea development which has helped several of our customers achieve high returns on some of the most challenging deepwater projects and accelerate first oil production. As additional customers look to achieve similar cost efficiencies, we expect these standardization practices to enable us to assist our customers' pursuit of improved returns. In addition, our technology and experience in improving customer returns over the life of the field supports our pursuit of subsea processing and service technology development.

Regarding our surface technologies portfolio, the slowdown that began in the North American surface market in 2012, resulting from oversupply of equipment and lower natural gas prices, led to curtailed fracturing capacity expansion throughout most of 2013. In the first quarter of 2014, North American surface orders began to recover and benefited our first quarter 2014 results. While the sustainability of these orders is difficult to predict, our increased machinery capacity investments made in 2012 will allow us to take full advantage of any North American surface market improvements. Additionally, we initiated efforts to integrate our North American surface wellhead and completion service businesses to strengthen our market presence and service offerings.

Table of Contents

CONSOLIDATED RESULTS OF OPERATIONS
THREE MONTHS ENDED MARCH 31, 2014 AND 2013

(In millions, except %)	Three Months Ended March 31,		Change	%
	2014	2013	\$	
Revenue	\$1,824.4	\$1,646.0	178.4	10.8
Costs and expenses:				
Cost of sales	1,403.5	1,307.2	96.3	7.4
Selling, general and administrative expense	182.8	170.8	12.0	7.0
Research and development expense	25.3	28.5	(3.2)	(11.2)
Total costs and expenses	1,611.6	1,506.5	105.1	7.0

Net income attributable to FMC Technologies, Inc.	\$135.2	\$102.4	32.8	32.0

* Not meaningful

Revenue increased by \$178.4 million in the first quarter of 2014 compared to the prior-year quarter. Revenue in the first quarter of 2014 included a \$76.2 million unfavorable impact of foreign currency translation. The impact of the strong backlog entering 2014 and volume growth in our subsea services, particularly in the Gulf of Mexico, led to increased Subsea Technologies revenue year-over-year. Surface Technologies posted higher revenue during the first quarter of 2014 primarily due to increased sales of conventional wellhead systems in our Asia Pacific surface wellhead business and increased demand for our well service pumps and flowline products in our fluid control business.

Gross profit (revenue less cost of sales) increased as a percentage of sales to 23.1% in the first quarter of 2014, from 20.5% in the prior-year quarter. The improvement in gross profit as a percentage of sales was primarily due to our Western Region subsea business from higher margin project backlog conversion and higher volumes in subsea services particularly in the Gulf of Mexico. Additionally, Surface Technologies posted higher gross profit due to increased sales of conventional wellhead systems in our Asia Pacific surface wellhead business and increased demand for our well service pumps and flowline products in our fluid control business.

Selling, general and administrative expense increased \$12.0 million year-over-year, resulting from severance charges taken in our Eastern Region subsea business, higher project tendering costs, and an increase in stock based compensation expense.

Our income tax provisions for the first quarter of 2014 and 2013 reflected effective tax rates of 33.2% and 21.9%, respectively. Excluding a retroactive benefit related to the American Taxpayer Relief Act of 2012 recorded in the first quarter of 2013, our effective tax rate for the first quarter of 2013 was 27.1%. The increase from this adjusted rate to our first quarter 2014 rate was primarily due to changes in U.S. and Norwegian tax law effective from 2014 and an unfavorable change in the forecasted country mix of earnings. Our effective tax rate can fluctuate depending on our country mix of earnings since our foreign earnings are generally subject to lower tax rates than in the United States. In certain jurisdictions, primarily Singapore and Malaysia, our tax rate is significantly less than the relevant statutory rate due to tax holidays. The cumulative balance of foreign earnings for which no provision for U.S. income taxes has been recorded was \$1,531 million at March 31, 2014. We would need to accrue and pay U.S. tax on such undistributed earnings if these funds were repatriated. We have no current intention to repatriate these earnings.

* Not meaningful

Segment operating profit is defined as total segment revenue less segment operating expenses. The following items have been excluded in computing segment operating profit: corporate staff expense, interest income and expense associated with corporate investments and debt, income taxes and other revenue and other expense, net.

Table of Contents

Subsea Technologies

Subsea Technologies revenue increased \$108.7 million year-over-year. Revenue for the first quarter of 2014 included a \$68.9 million unfavorable impact of foreign currency translation. Excluding the impact of foreign currency translation, total revenue increased by \$177.6 million year-over-year. Subsea Technologies revenue is primarily impacted by the amount of beginning backlog entering the period and the rates of backlog conversion. Our subsea revenue increase year-over-year was led by our Western Region business from project backlog conversion as well as revenue growth in our subsea services particularly in the Gulf of Mexico. We entered 2014 with solid subsea backlog and continued to have strong subsea systems and service order activity during the first quarter of 2014, including a subsea systems order with a potential value of \$720 million for Eni's Jangkrik project and a subsea systems order with an estimated value of \$322 million for BP's Shah Deniz Stage 2 project.

Subsea Technologies operating profit in the first quarter of 2014 totaled \$141.7 million, or 11.8% of revenue, compared to the prior-year quarter's operating profit as a percentage of revenue of 8.9%. The margin improvement was primarily driven by our Western Region subsea business from higher margin project backlog conversion and higher volumes in subsea services particularly in the Gulf of Mexico. Operating profit for the first quarter of 2014 included a \$9.1 million unfavorable impact of foreign currency translation.

Surface Technologies

Surface Technologies revenue increased \$57.8 million year-over-year. The increase in revenue was primarily driven by our surface wellhead business in the Asia Pacific region due to conventional wellhead system sales and our fluid control business from increased demand for our well service pumps and flowline products in the first quarter of 2014. Surface Technologies operating profit in the first quarter of 2014 totaled \$87.7 million, or 18.3% of revenue, compared to the prior-year quarter's operating profit as a percentage of revenue of 13.6%. The margin improvement was primarily driven by the following:

- Surface Wellhead - 2.9 percentage point increase due to strong sales growth in the Asia Pacific region from higher margin projects;
- Fluid Control - 2.2 percentage point increase due to increased volumes in our well service pumps and flowline products; and
- Completion Services - 1.2 percentage point decrease due to increased operating costs and pricing pressures in the Canadian market as well as increased research and development expense.

Table of Contents

Energy Infrastructure

Energy Infrastructure revenue increased \$11.3 million year-over-year. The increase was driven by measurement solutions business related to increased activity in the U.S. shale markets.

Energy Infrastructure operating profit in the first quarter of 2014 totaled \$15.6 million, or 10.7% of revenue, compared to the prior-year quarter's operating profit as a percentage of revenue of 9.0%. The margin improvement was primarily driven by the following:

- Loading Systems - 1.4 percentage point increase due to higher margin offshore loading arm projects; and
- Measurement Solutions - 0.7 percentage point increase due to higher volumes related to increased activity in the U.S. shale markets and cost containment initiatives.

Corporate Items

Our corporate items reduced earnings \$42.8 million in the first quarter of 2014, compared to \$35.4 million in the first quarter of 2013. The year-over-year increase primarily reflected the following:

- unfavorable variance related to stock-based compensation expense, primarily from the accelerated vesting of awards for retirement eligible grantees, of \$4.6 million; and an
- unfavorable variance related to higher corporate staffing expenses of \$4.6 million.

Inbound Orders and Order Backlog

Inbound orders represent the estimated sales value of confirmed customer orders received during the reporting period.

(In millions)	Inbound Orders	
	Three Months Ended March 31,	
	2014	2013
Subsea Technologies	\$1,918.8	\$1,194.1
Surface Technologies	527.3	448.9
Energy Infrastructure	141.3	132.8
Intercompany eliminations and other	—	(11.4)
Total inbound orders	\$2,587.4	\$1,764.4

Order backlog is calculated as the estimated sales value of unfilled, confirmed customer orders at the reporting date. Translation positively affected backlog by \$81.1 million and negatively affected backlog by \$69.5 million for the three months ended March 31, 2014, and 2013, respectively.

(In millions)	Order Backlog		
	March 31, 2014	December 31, 2013	March 31, 2013
Subsea Technologies	\$6,786.6	\$5,988.8	\$4,621.7
Surface Technologies	789.5	742.4	522.3
Energy Infrastructure	285.0	288.4	291.4
Intercompany eliminations	(18.9)	(21.4)	(8.6)
Total order backlog	\$7,842.2	\$6,998.2	\$5,426.8

Order backlog for Subsea Technologies at March 31, 2014, increased by \$797.8 million compared to December 31, 2013. Subsea Technologies backlog of \$6.8 billion at March 31, 2014, was composed of various subsea projects, including BP's Mad Dog Phase 2 and Shah Deniz Stage 2; Chevron's Wheatstone; CNR International's Baobab Field Phase 3; Eni's Jangkrik; ExxonMobil's Hibernia Southern Extension and Julia; Petrobras' tree frame agreement and pre-salt tree and manifold award; Shell's Prelude, BC-10 Phase 3 and Stones; Statoil's Gullfaks Rimfaksdalen and Snorre B Platform Workover System; Total's Egina; and Tullow Ghana's TEN.

Surface Technologies order backlog at March 31, 2014, increased by \$47.1 million compared to December 31, 2013. The increase was due to strong inbound orders in our Middle East and Europe wellhead business as well as our fluid control business.

Energy Infrastructure order backlog at March 31, 2014, decreased by \$3.4 million compared to December 31, 2013, driven primarily by a decrease in backlog in our loading systems, material handling and automation and control businesses, partially offset by an increase in backlog in our separation systems and measurement solutions businesses.

LIQUIDITY AND CAPITAL RESOURCES

Substantially all of our cash balances are held outside the United States and are generally used to meet the liquidity needs of our non-U.S. operations. Most of our cash held outside the United States could be repatriated to the United States, but under current law, any such repatriation would be subject to U.S. federal income tax, as adjusted for applicable foreign tax credits. We have provided for U.S. federal income taxes on undistributed foreign earnings where we have determined that such earnings are not indefinitely reinvested.

We expect to meet the continuing funding requirements of our U.S. operations with cash generated by such U.S. operations, cash from earnings generated by non-U.S. operations that are not indefinitely reinvested and our existing credit facility. If cash held by non-U.S. operations is required for funding operations in the United States, and if U.S. tax has not previously been provided on the earnings of such operations, we would make a provision for additional U.S. tax in connection with repatriating this cash, which may be material to our cash flows and results of operations. Net debt, or net cash, is a non-GAAP measure reflecting debt, net of cash and cash equivalents. Management uses this non-GAAP measure to evaluate our capital structure and financial leverage. We believe net debt, or net cash, is a meaningful measure that may assist investors in understanding our results and recognizing underlying trends. Net debt, or net cash, should not be considered an alternative to, or more meaningful than, cash and cash equivalents as determined in accordance with GAAP or as an indicator of our operating performance or liquidity. The following table provides a reconciliation of our cash and cash equivalents to net debt, utilizing details of classifications from our condensed consolidated balance sheets.

(In millions)	March 31, 2014	December 31, 2013
Cash and cash equivalents	\$290.3	\$399.1
Short-term debt and current portion of long-term debt	(22.0) (42.5
Long-term debt, less current portion	(1,339.7) (1,329.8
Net debt	\$(1,071.4) \$(973.2

The change in our net debt position was primarily due to capital expenditures and repurchases of common stock, partially offset by higher cash generated from operations.

Cash Flows

We generated \$51.8 million and used \$33.8 million in cash flows from operating activities during the three months ended March 31, 2014 and 2013, respectively. The increase in cash flows from operating activities year-over-year was primarily due to higher income from operations and changes in our working capital driven by our portfolio of projects year-over-year. Our working capital balances can vary significantly depending on the payment and delivery terms on key contracts. During the first three months of 2014, we received increased advance payments related to projects which positively impacted our working capital position as compared to the prior-year period.

During the three months ended March 31, 2014, cash flows required by investing activities totaled \$90.0 million, primarily consisting of amounts required to fund capital expenditures which reflected our investment in capacity expansion and equipment upgrades.

Financing activities used \$70.0 million and generated \$5.0 million in cash flows during the three months ended March 31, 2014 and 2013, respectively. The change in cash flows from financing activities was due to a reduction in our overall debt and increased treasury stock repurchases during the first quarter of 2014 when compared to the prior-year quarter.

Debt and Liquidity

Senior Notes—Refer to Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2013 for information related to our Senior Notes.

Credit Facility—The following is a summary of our revolving credit facility at March 31, 2014:

(In millions) Description	Amount	Debt Outstanding	Commercial Paper Outstanding ^(a)	Letters of Credit	Unused Capacity	Maturity
Five-year revolving credit facility	\$1,500.0	\$—	\$ 509.9	\$6.0	\$984.1	March 2017

Under our commercial paper program, we have the ability to access up to \$1.0 billion of financing through our ^(a) commercial paper dealers. Our available capacity under our revolving credit facility is reduced by any outstanding commercial paper.

Committed credit available under our revolving credit facility provides the ability to issue our commercial paper obligations on a long-term basis. We had \$509.9 million of commercial paper issued under our facility at March 31, 2014. As we had both the ability and intent to refinance these obligations on a long-term basis, our commercial paper borrowings were classified as long-term in the accompanying condensed consolidated balance sheets at March 31, 2014.

As of March 31, 2014, we were in compliance with all restrictive covenants under our revolving credit facility.

Credit Risk Analysis

Valuations of derivative assets and liabilities reflect the value of the instruments, including the values associated with counterparty risk. These values must also take into account our credit standing, thus including in the valuation of the derivative instrument the value of the net credit differential between the counterparties to the derivative contract. Our methodology includes the impact of both counterparty and our own credit standing. Adjustments to our derivative assets and liabilities related to credit risk were not material for any period presented. Additional information about credit risk is incorporated herein by reference from Note 13 to our condensed consolidated financial statements included in Item 1 of this Quarterly Report on Form 10-Q.

Outlook

Historically, we have generated our capital resources primarily through operations and, when needed, through our credit facility. The volatility in credit, equity and commodity markets creates some uncertainty for our businesses. However, management believes, based on our current financial condition, existing backlog levels and current expectations for future market conditions, that we will continue to meet our short- and long-term liquidity needs with a combination of cash on hand, cash generated from operations and access to capital markets. On April 9, 2014, we made a payment related to the Multi Phase Meters earn-out obligation of \$72.5 million. The payment represents the final earn-out obligation payment related to our acquisition.

We project spending approximately \$400 million in 2014 for capital expenditures, largely towards our subsea expansion and related growth of our subsea service offerings. During the remainder of 2014, we expect to make contributions of approximately \$8.9 million and \$7.3 million to our domestic and international pension plans, respectively. Actual contribution amounts are dependent upon plan investment returns, changes in pension obligations, regulatory environments and other economic factors. We update our pension estimates annually during the fourth quarter or more frequently upon the occurrence of significant events. Further, we expect to continue our stock repurchases authorized by our Board of Directors, with the timing and amounts of these repurchases dependent upon market conditions and liquidity.

We have \$984.1 million of capacity available under our revolving credit facility that we expect to utilize if working capital needs temporarily increase in response to market demand. We continue to evaluate acquisitions, divestitures and joint ventures that meet our strategic priorities. Our intent is to maintain a level of financing sufficient to meet these objectives. During the second quarter of 2014, we expect to complete the divestiture of certain equity interests and assets primarily representing a product line of our material handling business. See additional information about the divestiture and the related assets held for sale as of March 31, 2014 in Note 4 to our condensed consolidated

financial statements included in Item 1 of this Quarterly Report on Form 10-Q.

CRITICAL ACCOUNTING ESTIMATES

Refer to our Annual Report on Form 10-K for the year ended December 31, 2013, for a discussion of our critical accounting estimates. During the three months ended March 31, 2014, there were no material changes in our judgments and assumptions associated with the development of our critical accounting estimates.

RECENTLY ISSUED ACCOUNTING STANDARDS

Management believes that recently issued accounting standards, which are not yet effective, will not have a material impact on our condensed consolidated financial statements upon adoption.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Refer to Part II, Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2013, for quantitative and qualitative disclosures about market risk. There have been no material changes in our exposures to market risk since December 31, 2013.

ITEM 4. CONTROLS AND PROCEDURES

As of March 31, 2014, and under the direction of our principal executive officer and principal financial officer, we have evaluated the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon this evaluation, we have concluded as of March 31, 2014, that our disclosure controls and procedures were:

effective in ensuring that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and

effective in ensuring that information required to be disclosed in reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in internal controls over financial reporting identified in the evaluation for the quarter ended March 31, 2014, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in various pending or potential legal actions in the ordinary course of our business. Management is unable to predict the ultimate outcome of these actions because of the inherent uncertainty of litigation. However, management believes that the most probable, ultimate resolution of these matters will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

As of the date of this filing, there have been no material changes or updates in our risk factors that were previously disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2013.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We had no unregistered sales of equity securities during the three months ended March 31, 2014.

The following table summarizes repurchases of our common stock during the
