Argyle Security Acquisition Corporation
(a development stage company)

Notes to Unaudited Consolidated Financial Statements
June 30, 2007

Note 1 - Basis of presentation

The consolidated financial statements of Argyle Security Acquisition Corporation (the "Company" or "Argyle") as of June 30, 2007, and for the three and six months ended June 30, 2007 and 2006, respectively, and for the period from June 22, 2005 (inception) to June 30, 2007 (cumulative), are unaudited. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included. Operating results for the interim periods presented are not necessarily indicative of the results to be expected for a full fiscal year. The audited balance sheet as of December 31, 2006 does not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statement presentation.

The statements and related notes have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements that were included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, as filed with the U.S. Securities and Exchange Commission.

Note 2 - Background, formation and summary of significant accounting policies

The Company was incorporated in Delaware in June 2005 as a blank check company formed to acquire, through merger, capital stock exchange, asset acquisition or other similar business combination, a business in the security industry. As of June 30, 2007, Argyle's efforts have been limited to organizational activities, completion of its initial public offering and the evaluation of possible business combinations. Argyle does not currently have any operations.

The Company completed a private placement (the "Private Placement") in January 2006 and received net proceeds of approximately \$0.9 million. Also in January 2006, the registration statement for the Company's initial public offering ("Public Offering") was declared effective, and the net proceeds from the sale of Argyle's units, after deducting certain offering expenses of approximately \$2.4 million, including underwriting discounts of approximately \$1.8 million, were approximately \$28.2 million. Approximately \$27.3 million of the proceeds from the initial public offering and the private placement was placed in a trust account for Argyle's benefit. Except for \$0.6 million in interest that was earned on the funds contained in the trust account and that was released to Argyle to be used as working capital, and the amounts that may be released to Argyle for the payment of taxes, Argyle is not be able to access the amounts held in the trust until it consummates a business combination.

As of June 30, 2007, the trust account also contains \$1.4 million of deferred compensation for Argyle's underwriters related to its initial public offering which will be paid to them only in the event of a business combination. On March 14, 2007, the underwriters from Argyle's initial public offering agreed to forfeit any and all rights or claims to a pro-rata portion of the deferred underwriting costs and associated interest with respect to any shares of common stock which are redeemed in connection with our proposed acquisition (see Note 8). The amounts held outside of the trust account are being used by Argyle to provide for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. The net proceeds deposited into the trust fund remain on deposit in the trust account earning interest. In connection with the initial public offering and the private placement, Argyle's officers and directors placed all the shares owned by them before the private placement and the initial public offering into an escrow account. Except in certain circumstances, the shares held in escrow may not be released prior to January 24, 2009. See Note 9 for subsequent event update.

In December 2006, and as amended in June 2007 and July 2007, Argyle, Argyle's wholly-owned subsidiary ISI Security Group, Inc. (Merger Subsidiary) and ISI Detention Contracting Group, Inc. (ISI) entered into a merger agreement pursuant to which the Merger Subsidiary will merge into ISI, and ISI will become a wholly-owned subsidiary of Argyle. Pursuant to the merger agreement, Argyle will pay or issue to ISI's security holders an aggregate merger consideration of \$46.5 million, consisting of \$18.6 million, 1,180,000 shares of Argyle's common stock (valued at approximately \$9.2 million based on the closing price of the common stock on June 25, 2007) and unsecured promissory notes in the aggregate amount of \$1.9 million, bearing interest at a rate of 5% per year, convertible into Argyle's common stock at a conversion price of \$10 per share, and the assumption of approximately \$6.0 million of long-term debt, approximately \$7.6 million outstanding pursuant to a \$9.0 million line of credit, \$2.1 million of capitalized leases as of March 31, 2007, approximately \$1.0 million of transaction costs, and up to \$2.0 million (\$1.9 million as of March 31, 2007) which will be paid to a company owned by ISI's Chief Executive Officer and President.

The Company will proceed with the combination only if a majority of the shares of common stock voted by the public stockholders are voted in favor of the business combination and public stockholders owning less than 20% of the aggregate shares sold in the Public Offering and the Private Placement exercise their redemption rights (as described below). The officers and directors of the Company ("Initial Stockholders") have agreed to vote their 956,261 founding shares of common stock in accordance with the vote of the majority in interest of all other stockholders of the Company with respect to any business combination and to vote the 125,000 shares of common stock included in the units they purchased in the Private Placement and any shares they acquired in the aftermarket in favor of the business combination. After consummation of the Company's first business combination, these voting agreements will no longer be applicable.

With respect to the first business combination which is approved and consummated, any holder of shares sold in the Public Offering, other than the Initial Stockholders and their nominees (the "Public Stockholders") who voted against the business combination may demand that the Company redeem his or her shares. The per share redemption price will equal \$7.50 per share (see Note 8) plus interest earned thereon in the trust account, net of taxes payable, \$.6 million of interest income which was released from the trust account in September 2006 to fund the Company's working capital, and amounts owed to the underwriter for the private placement (approximately \$.05 million plus interest). Public Stockholders holding up to 19.99% of the aggregate number of shares sold in the Public Offering and the private placement may seek redemption of their shares in the event of a business combination. Accordingly, amounts classified as common stock subject to possible redemption of approximately \$5.7 million, and the associated deferred interest of approximately \$0.3 million have been reflected in the accompanying balance sheet. See Note 9 for subsequent event update.

Cash and cash equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Income taxes

Deferred income taxes are recorded based on enacted statutory rates to reflect the tax consequences in future years of the differences between the tax bases of assets and liabilities and their financial reporting amounts. Deferred tax assets which will generate future tax benefits are recognized to the extent that realization of such benefits through future taxable earnings or alternative tax strategies in the foreseeable short term future is more likely than not.

Recently issued accounting pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (revised 2004), "Share based payment" ("SFAS 123(R)"). SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The Company adopted SFAS 123(R) on January 1, 2006.

The Company adopted the FASB's Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109" ("FIN 48"), effective January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements and requires the impact of a tax position to be recognized in the financial statements if that position is more likely than not of being sustained by the taxing authority. The adoption of FIN 48 did not have an effect on our consolidated financial position or results of operations.

Transaction costs

The Company has capitalized approximately \$.8 million related to the ISI acquisition. These costs are primarily composed of attorney and accountants' fees and bankers' fees regarding the fairness opinion.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Basis of presentation

The consolidated financial statements include the accounts of the Company and our wholly-owned subsidiary, ISI Security Group, Inc. All significant inter-company transactions are eliminated in the consolidation process.

Note 3 - Offerings

Public Offering

In January 2006, the Company sold 3,700,046 units (which includes 75,046 units sold by the underwriters pursuant to a partial exercise of their over-allotment option) to the public at a price of \$8.00 per unit. Each unit consists of one share of the Company's common stock, \$0.0001 par value, and one redeemable common stock purchase warrant ("warrant"). Each warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.50 commencing the later of the completion of a business combination with a target business or January 24, 2007, and expiring January 24, 2011. The warrants are redeemable by the Company at a price of \$.01 per warrant upon 30 days notice after the warrants become exercisable, only in the event that the last sale price of the common stock is at least \$11.50 per share for any 20 trading days within a 30 trading day period ending three business days before a notice of redemption is delivered.

Private Placement

In January 2006, the Company sold to its officers an aggregate of 125,000 units identical to the units sold in the Public Offering at a price of \$8.00 per unit.

Note 4 - Notes payable to stockholders

During 2005, the Company issued several unsecured promissory notes to the officers of the Company totaling \$155,000. The Notes had an interest rate of 4% per annum and were paid in full with proceeds from the Public Offering, including aggregate interest of \$3,177.

In April 2007, Argyle's officers and directors, an affiliate of Argyle's Chairman and Co-Chief Executive Officer, and certain of Argyle's consultants, pursuant to a note and warrant acquisition agreement, loaned Argyle an aggregate of \$.3 million and in exchange received promissory notes in the aggregate principal amount of \$.3 million and warrants to purchase an aggregate of 37,500 shares of Argyle's common stock. The warrants are exercisable at \$5.50 per share of common stock and expire on January 24, 2011. The warrants also may be exercised on a net-share basis by the holders of the warrants. The promissory notes bear interest at a rate of 4% per year and are repayable 30 days after the consummation of a business combination (see Note 5 for further discussion of the fair value assigned to the warrant and Note 9 for subsequent payment).

Note 5 - Stockholders' equity and stock-based compensation

In July 2005, the Company granted to its officers, directors and their respective affiliates certain options, which were exercisable only in the event the underwriters exercised the over allotment option, to purchase that number of shares enabling them to maintain their 20% ownership interest in the Company (without taking into account the units they purchased in the Private Placement). The measurement date was deemed to be January 30, 2006, the date the over allotment was exercised because the number of options to be issued was not known until that date.

In January 2006, the underwriters exercised a portion of the over-allotment option in the amount of 75,046 units. In February 2006 the officers and directors exercised their options and purchased 18,761 units for an aggregate cost of \$507 (or \$0.027 per share). The compensation cost, recorded in operating expenses, resulting from these share-based payments was \$130,632 at January 30, 2006, using the Black-Scholes pricing model. This model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. The fair value of the options was estimated at the measurement date using the following assumptions:

- Weighted average volatility factor of 0.10;
- No expected dividend payments;
- Weighted average risk-free interest rate of 5%;
- A weighted average expected life of 0.13 years.

The fair value of each option was \$6.99 per share. All options vested immediately at the measurement date and no further options may be exercised. Compensation expense was recognized immediately and recorded as an operating expense.

As of June 30, 2007, no officer or director of the Company holds options to purchase the Company's securities.

In January 2006 the Company sold to its underwriters options to purchase up to an aggregate of 187,500 units for \$100. The units issuable upon exercise of these options are identical to those sold in the Public Offering. These options will be exercisable at \$8.80 per unit commencing on the later of the consummation of a business combination or one year from January 24, 2006, and expiring January 24, 2011. The options to purchase the 187,500 units and the Securities underlying such units have been deemed compensation by the National Association of Securities Dealers ("NASD") and are therefore subject to a 180-day lock-up pursuant to Rule 2710(g) (1) of the NASD Conduct Rules. Additionally, these options may not be sold, transferred, assigned, pledged or hypothecated for a one-year period (including the foregoing 180-day period) following January 24, 2006. However, these options may be transferred to any underwriter and selected dealer participating in the offering and their bona fide officers or partners.

The Company accounted for these purchase options as a cost of raising capital and included the instrument as equity in its financial statements. Accordingly, there is no net impact on the Company's financial position or results of operations, except for the recording of the \$100 proceeds from the sale. The Company has estimated, based upon a Black Scholes model, that the fair value of the purchase options on the date of sale was approximately \$3.40 per unit (a total value of approximately \$.6 million), using an expected life of five years, volatility of 44%, and a risk-free rate of 5% (See Note 9). However, because the Company's units do not have a trading history, the volatility assumption was based on information currently available to management. The volatility estimate was derived using historical data of public companies in the proposed industry. The Company believes the volatility estimate calculated from these companies was a reasonable benchmark to use in estimating the expected volatility of our units; however, the use of an index to estimate volatility may not necessarily be representative of the volatility of the underlying securities.

The Company has engaged Rodman & Renshaw, LLC (the "Representative"), on a non-exclusive basis, as its agent for the solicitation of the exercise of the warrants. To the extent not inconsistent with the guidelines of the NASD and the rules and regulations of the Securities and Exchange Commission, the Company has agreed to pay the Representative for bona fide services rendered a commission equal to 5% of the exercise price, if the exercise was solicited by the Representative. In addition to soliciting, either orally or in writing, the exercise of the warrants, the Representative's services may also include disseminating information, either orally or in writing, to warrant holders about the Company or the market for the Company's securities, and assisting in the processing of the exercise of the warrants. No compensation will be paid to the Representative upon the exercise of the warrants if:

- the market price of the underlying shares of common stock is lower than the exercise price;
- the holder of the warrants has not confirmed in writing that the representative solicited the exercise;
- the warrants are held in a discretionary account;
- the warrants are exercised in an unsolicited transaction; or
- the arrangements to pay the commission are not disclosed to warrant holders at the time of exercise.

In April 2007, the Company entered into bridge loans totaling \$0.3 million with certain officers, directors and consultants (see note 4). In connection with the bridge loans, 37,500 stock warrants were issued providing the holder to exercise the warrant to purchase an equal share amount in the Company's common stock. Warrants allow holders to exercise the warrants to purchase common stock at \$5.50 per share and were granted demand and piggy-back registration rights with respect to the shares of common stock underlying the warrants. The warrants expire January 24, 2011. The Company has estimated, based upon a Black-Scholes model, that the fair value of the warrants on the date of issue was approximately \$2.48 per warrant, (a total value of approximately \$.09 million) using an expected life of 2 years, volatility of 2.39%, and a risk-free rate of 5%. However, because the Company's warrants have a limited trading history, the volatility assumption was based on information currently available to management.

Note 6 - Common stock reserved for issuance

As of June 30, 2007, 3,862,546 shares of common stock were reserved for issuance upon exercise of redeemable warrants and 375,000 shares of common stock were reserved for issuance pursuant to the underwriters' unit purchase option described above.

Note 7 - Preferred stock

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences, as may be determined from time to time by the Board of Directors. No shares of preferred stock are currently issued or outstanding.

Note 8 - Agreement with underwriters

In March 2007, the underwriters from the Company's Public Offering agreed to forfeit any and all rights or claims to a pro-rata portion of the deferred underwriting costs and associated accrued interest with respect to any shares of common stock that are redeemed in connection with the proposed acquisition. As a result of the agreement, the redemption price of our common stock, without considering interest earned in the trust, taxes payable and the \$.6

million of interest released to the Company for working capital, increased by \$.36 per share to \$7.50 per share, and the amount of common stock subject to possible redemption increased by approximately \$.3 million to approximately \$5.7 million. Additionally, the deferred underwriting cost liability was reduced by approximately \$.3 million.

Note 9 - Subsequent event

In July 2007, the stockholders of the Company approved the Company's acquisition of ISI. Approximately 6% of outstanding redeemable shares, or 232,565 shares, were redeemed at the special meeting, and the Company will pay approximately \$1.8 million to redeeming stockholders in the third quarter of 2007. Stockholders also approved an amendment to the Company's Certificate of Incorporation to change its name to "Argyle Security, Inc." At the meeting, the Company's stockholders also approved the Company's 2007 Omnibus Incentive Compensation Plan and an amendment to the Company's certificate of incorporation to remove certain provisions from the certificate that were no longer applicable after the business combination was consummated.

In July 2007, following the stockholder approval and pursuant to the terms of the merger agreement, the Company acquired all of the assets and liabilities of ISI through the merger of its Merger Subsidiary into ISI. As a result of the merger, ISI became a wholly owned subsidiary of the Company. ISI is a provider of physical security solutions to commercial, governmental and correctional customers.

At the closing of the merger, the following consideration was paid or issued by the Company to the stockholders of ISI:

- \$18.6 million in cash;
- 1,180,000 shares of common stock of Argyle (valued at approximately \$9.2 million); and
- \$1.9 million of unsecured promissory notes convertible into shares of common stock of the Company at a conversion price of \$10 per share.

In addition, the merger consideration paid by the Company also included (i) payment of \$1.9 million to an entity created by two executive officers of ISI in connection with the issuance of performance and payment bonds to ISI; and (ii) approximately \$1.0 million in ISI transaction costs. The Company also paid \$.24 million in success fees to certain service providers in connection with the merger.

The Company also assumed approximately \$6.0 million of long-term debt, approximately \$7.6 million outstanding pursuant to a \$9.0 million line of credit, and \$2.1 million of capitalized leases as of March 31, 2007.

The acquisition of ISI will be accounted for as a business combination with the Company as the acquirer. Under the purchase method of accounting, the assets and liabilities of ISI that were acquired are recorded as of the acquisition date at their respective fair values, and added to those of the Company. A preliminary allocation of the purchase price of ISI to the estimated fair values of the assets acquired and liabilities assumed on July 31, 2007 will be made and recorded during the fiscal quarter ended September 30, 2007. The preliminary allocation of the purchase price, including the evaluation and allocation to identifiable intangible assets, recognition of deferred taxes and allocation to goodwill resulting from the acquisition, will be made by management based on available information and certain assumptions management considers reasonable. The preliminary estimates will be subject to change based on the finalization of asset and liability valuations of ISI, and will depend in part on prevailing market rates and conditions. A final determination of the fair values will include assistance provided by an independent valuation consultant, which management expects will be completed in 2008. The final valuations will be based on the actual net tangible and intangible assets of ISI that existed as of July 31, 2007. Any adjustments may change the allocations of purchase price, which could affect the fair value assigned to the assets acquired and liabilities assumed and could result in a material change to the Company's financial statements.

In August 2007, the shareholder notes and accrued interest as described in Note 4 were repaid by the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "should," "could," "would," "expect," "plan," "anticipate," "believe," "estimate," "continue," or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other Securities and Exchange Commission filings. The following discussion should be read in conjunction with our unaudited Financial Statements and related Notes thereto included elsewhere in this report.

Overview

Argyle Security Acquisition Corporation (the "Company" or "Argyle") is a Delaware corporation incorporated on June 22, 2005 in order to serve as a vehicle for the acquisition of an operating business through a merger, capital stock exchange, asset acquisition or other similar business combination. The Company's strategy has been to leverage the industry experience of its management team by focusing efforts on identifying an initial prospective target business in the security industry, and management plans to continue such a strategy after the Company's initial acquisition. Management believes that businesses involved in this industry represent attractive acquisition targets for a number of reasons, including the increase in global demand for integrated security-related products and services since September 11, 2001, the development of new technology which has the potential to expand applications and the trend towards integrated networked solutions.

On December 8, 2006, Argyle, Argyle's wholly-owned subsidiary ISI Security Group, Inc. (the "Merger Subsidiary") and ISI Detention Contracting Group, Inc. (ISI) entered into a merger agreement, as amended on June 29, 2007 and July 11, 2007, pursuant to which the Merger Subsidiary would merge into ISI and ISI will become a wholly-owned subsidiary of Argyle

On July 30, 2007, the stockholders of the Company approved the Company's acquisition of ISI. Stockholders also approved (i) an amendment to the Company's Certificate of Incorporation to change its name to "Argyle Security, Inc.", (ii) the Company's 2007 Omnibus Incentive Compensation Plan, and (iii) an amendment to the Company's certificate of incorporation to remove certain provisions from the certificate that were no longer applicable after the business combination was consummated.

On July 31, 2007, pursuant to the terms of the merger agreement, the Company acquired all of the assets and liabilities of ISI through the merger of its Merger Subsidiary into ISI. As a result of the merger, ISI became a wholly owned subsidiary of the Company.

At the closing of the merger, the following consideration was paid or issued by the Company to the stockholders of ISI:

- \$18.6 million in cash;
- 1,180,000 shares of common stock of Argyle (valued at approximately \$9.2 million); and

\$1.9 million of unsecured promissory notes convertible into shares of common stock of the Company at a conversion price of \$10 per share.

In addition, the merger consideration paid by the Company also included (i) payment of \$1.9 million to an entity created by two executive officers of ISI in connection with the issuance of performance and payment bonds to ISI; and (ii) approximately \$1.0 million in ISI transaction costs.

The Company also assumed approximately \$6.0 million of long-term debt, approximately \$7.6 million outstanding pursuant to a \$9.0 million line of credit, and \$2.1 million of capitalized leases as of March 31, 2007.

ISI is a provider of security solutions to commercial, governmental, and correctional customers. As a security solutions provider, ISI has the ability to interview a customer that needs security for a project and determine that customer's needs in light of the products and technology available within the customer's budget. ISI, using its expertise in the security industry, then develops security systems that answer the customer's needs using hardware and software that is available in the marketplace from third party vendors, as well as its own proprietary software. ISI participates in the perimeter security, access control and video and design consultation segments in the correctional sector through its ISI-Detention and MCS-Detention subsidiaries and in the commercial/industrial/educational sectors through its MCS-Commercial subsidiary. In addition, the MCS-Commercial operation is also engaged in providing its sectors with fire detection security system solutions.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from these estimates.

Deferred income taxes are provided for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts for tax purposes. Valuation allowances are provided against the deferred tax asset amounts when the realization is uncertain.

Argyle purchases U.S. Treasury Bills and money market investments and holds these investments to maturity. The investments are recorded at market value which approximates their carrying amount and includes accrued interest.

Results of Operations for the six-month period ended June 30, 2007

Argyle's trust account earned interest of \$767,938 for the six months ended June 30, 2007 as compared to \$570,059 for the six month period ended June 30, 2006. The increase in interest income was due to the trust not being funded until the closing of our initial public offering at the end of January 2006 and increased investment returns.

Overall, for the six months ended June 30, 2007, Argyle incurred \$277,510 of consulting and professional fees, \$70,006 of franchise tax, \$44,000 of insurance expense, \$32,792 of rent expense, \$44,873 of investor relations expense and other operating costs of \$51,138. For the six months ended June 30, 2006, Argyle incurred \$249,831 of consulting and professional fees, \$130,632 of stock compensation expense, \$73,991 of franchise taxes, \$36,667 of insurance expense, \$27,430 of rent expense and other operating costs of \$60,898.

The 11% increase in consulting and professional fees was primarily the result of higher audit fees in the first six months of 2007 and, to a lesser extent, higher accounting and legal fees.

Insurance expense increased 20% in the first six months of 2007 as compared to the same period in 2006 as the Company's directors' and officers' insurance policy was only effective for five months of the six month period in 2006. Rent expense compared within reason for the first six months of 2007 to the same period of 2006.

On February 1, 2006, Argyle's officers and directors exercised options and purchased 18,761 shares of common stock for an aggregate cost of \$507. The compensation cost associated with these options of \$130,632 was recorded in the first quarter of 2006 and was computed using the Black-Scholes pricing model.

The provision for taxes in the first six months of 2007 is a result of the net income earned during the six month period.

12

Results of Operations for the three-month period ended June 30, 2007

Argyle's trust account earned interest of \$387,127 for the quarter ended June 30, 2007 as compared to \$353,155 for the quarter ended June 30, 2006. The increase in interest income was due to increased investment returns.

Overall, for the three months ended June 30, 2007, Argyle incurred \$113,026 of consulting and professional fees, \$35,003 of franchise tax, \$22,000 of insurance expense, \$16,239 of rent expense, \$20,852 of investor relations expense and other operating costs of \$22,496. For the three months ended June 30, 2006, Argyle incurred \$138,159 of consulting and professional fees, \$46,042 of franchise taxes, \$22,000 of insurance expense, \$16,622 of rent expense and other operating costs of \$34,920.

The 18% decrease in consulting and professional fees was primarily the result of the timing of audit, project consulting and tax preparation fees in the second quarter of 2007 compared to the same period in 2006. The provision for taxes in the second quarter of 2007 is a result of the net income earned during the three month period.

Liquidity and Capital Resources

On January 24, 2006, Argyle completed a private placement of 125,000 units to its executive officers and their affiliates and received net proceeds of approximately \$0.9 million. On January 30, 2006, Argyle consummated its initial public offering of 3,700,046 units (which included 75,046 units sold as part of the underwriter's over-allotment option). Each unit in both the private placement and the public offering consisted of one share of common stock and one redeemable common stock purchase warrant. Each warrant entitles the holder to purchase from Argyle one share of Argyle's common stock at an exercise price of \$5.50 per share commencing on the later of the completion of a business combination or January 24, 2007 and expiring January 24, 2011. Argyle's common stock and warrants started trading separately as of March 2, 2006.

The net proceeds from the sale of Argyle's units, after deducting certain offering expenses of approximately \$2.4 million, including underwriting discounts of approximately \$1.8 million, were approximately \$28.2 million. Approximately \$27.3 million of the proceeds from the initial public offering and the private placement was placed in a trust account for Argyle's benefit. Except for reimbursement of taxes payable and \$.6 million in interest from the trust account that was released to Argyle in September 2006 for working capital, Argyle could not access the amounts held in the trust until it consummated a business combination. The approximate \$30.1 million held in trust as of June 30, 2007 includes up to approximately \$1.4 million of underwriters' and placement agent's compensation and related interest from Argyle's private placement and initial public offering that will be paid to the underwriters and placement agent only in the event of a business combination. On March 14, 2007, the underwriters from Argyle's initial public offering agreed to forfeit any and all rights or claims to a pro-rata portion of the deferred underwriting costs and associated interest with respect to any shares of common stock which are redeemed in connection with our proposed acquisition. As a result, the deferred underwriting and offering costs were reduced by approximately \$0.3 million, and common stock subject to possible redemption has been increased by \$0.3 million. The trust account earned interest income of approximately \$0.8 million during the six months ended June 30, 2007. The amounts held outside of the trust account are available to be used by Argyle to provide for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. As of June 30, 2007, Argyle had approximately \$0.06 million outside the trust account to fund its working capital requirements.

Upon going public in late January 2006, Argyle has focused its attention on the search for a target business in the security industry. The expenses related to this effort are primarily comprised of certain monthly consulting fees paid to parties identified below for the research and investigation of potential target companies, and professional fees and travel expenses associated with targets that are no longer being pursued. Argyle has recorded these expenses as either part of the disclosed consulting and professional fees, or as travel expenses which are classified as other operating costs. The costs directly associated with the ISI acquisition, excluding the recurring monthly consulting fees which are

expensed, have been capitalized as transaction costs. Two of Argyle's consultants work exclusively on the research, investigation and targeting of security companies for potential future acquisitions, while one of the other consultants spends approximately one-half of his time on acquisitions. Argyle believes that the amounts recorded as expenses associated with such research during 2006 and the first six months of 2007 were approximately \$0.26 million. Additionally, transaction costs associated with the ISI acquisition of approximately \$0.8 million have been capitalized as of June 30, 2007.

On April 16, 2007, Argyle's officers and directors, an affiliate of Bob Marbut, Argyle's Chairman and Co-Chief Executive Officer, and certain of Argyle's consultants, pursuant to a note and warrant acquisition agreement, loaned Argyle an aggregate of \$.3 million and in exchange received promissory notes in the aggregate principal amount of \$.3 million and warrants to purchase an aggregate of 37,500 shares of Argyle's common stock. Pursuant to the agreement, the holders of the warrants could not exercise or transfer the warrants until Argyle consummated a business combination and were granted demand and piggy-back registration rights with respect to the shares of common stock underlying the warrants. The warrants are exercisable at \$5.50 per share of common stock and expire on January 24, 2011. The warrants also may be exercised on a net-share basis by the holders of the warrants. The promissory notes bear interest at a rate of 4% per year and were repayable 30 days after Argyle consummated a business combination. The promissory notes were repaid in full plus accrued interest in August 2007.

Argyle has used an estimated \$20.5 million (excluding Argyle and ISI transaction costs) of the net proceeds of the initial public offering to acquire ISI. Additionally, Argyle estimates that it has incurred total transaction costs of approximately \$1.7 million, including legal costs paid to Loeb and Loeb of \$0.5 million, \$0.7 million related to certain Macquarie Securities (USA) Inc.'s (formerly Giuliani Capital Advisors) advisory fees and fairness opinion, \$0.3 million paid in M&A fees to WFG Investments and additional costs of \$0.2 million related to accountants, consultants, printer fees and other miscellaneous expenses. Such costs do not include transaction costs of approximately \$1.0 million to be incurred by ISI (related primarily to attorney, brokerage and accounting fees). Redeeming shareholders representing 232,565 shares (approximately 6% of the outstanding redeemable shares) will be paid \$1.8 million.

After paying off any expenses relating to the identification and evaluation of prospective acquisition candidates, the structuring, negotiation and consummation of the business combination and paying for the redemption of the stock of any of Argyle's stockholders who choose to exercise their redemption rights, residual proceeds from Argyle's initial public offering will be used by Argyle as working capital. Management believes that cash on hand, after payments to redeeming stockholders, in addition to cash provided by the operations of ISI, will be sufficient to meet Argyle's working capital requirements for the next twelve months.

From January 1, 2006 to June 30, 2007, Argyle has incurred total operating expenses of approximately \$1.5 million and transaction costs which have been capitalized of approximately \$0.8 million. This total of approximately \$2.3 million is greater than the total of \$1.4 million disclosed as being available to the Company after its initial public offering in its Registration Statement on Form S-1 relating to the initial public offering. This approximate \$.9 million difference is primarily attributable to the following: approximately \$0.2 million of franchise taxes, \$0.1 million of non-cash stock compensation expense, a fairness opinion fee of \$0.2 million and various expenses, primarily legal and accounting, which were greater than those estimated in the Form S-1. Recurring monthly operating expenses of approximately \$.09 million per month will continue to accrue after June 30, 2007.

Argyle's accrued expenses, as of June 30, 2007, which includes accruals of approximately \$.5 million for deferred acquisition costs, totaled \$.6 million. Accrued expenses as of December 31, 2006 amounted to \$.6 million and consisted of approximately \$.4 million in deferred acquisition costs.

Upon the merger with ISI, Argyle assumed approximately \$6.0 million in long-term debt, in addition to the \$9.0 million ISI line of credit which had an outstanding balance of approximately \$7.6 million as of July 31, 2007. The \$6.0 million in long-term debt is due eighteen months after completion of the acquisition and there are no prepayment penalties. The line of credit matures in October 2008 with interest payable quarterly and is secured by certain tangible and intangible assets. The line of credit agreement contains certain financial covenants as well as restrictive and affirmative covenants. Additionally, Argyle assumed the capital lease obligation related to ISI's offices in San Antonio, Texas, which had a balance of approximately \$2.0 million as of July 31, 2007. At closing, Argyle paid certain ISI obligations totaling approximately \$1.9 million as of July 31, 2007, relating to ISI*MCS (an entity created by two of ISI's executive officers in connection with the issuance of performance and payments bonds to ISI) and

notes payable to ISI shareholders. Argyle will also assume the current liabilities relating to accounts payable, accrued liabilities and billings in excess of costs and estimated earnings on incomplete contracts.

As of February 1, 2006, Argyle entered into a lease for Argyle's office space in San Antonio, Texas and began to pay a base rental of approximately \$.006 million per month. The lease term expired in July 2007 and the Company is currently month to month. In connection with its operations, in March 2006, Argyle paid an outstanding obligation to a consultant for approximately \$.05 million and is currently paying approximately \$.02 million per month in consulting fees for services assisting Argyle in the identification of a target business, securities compliance and administration. The consulting agreements entered into thus far may be terminated by either party for any reason upon 15 days notice.

Presently, Argyle is utilizing four consultants on a monthly basis. Alan Wachtel and Graham Wallis perform research and investigation of target companies in the security industry and assist in the performance of due diligence on potential acquisition candidates for potential future acquisitions. Cindy Kittrell is the office manager and performs associated administrative functions. Don Neville is a financial consultant who assists Argyle in its SEC reporting responsibilities, accounting matters and also assists in the investigation and due diligence of potential acquisition candidates.

Off Balance Sheet Arrangements

Argyle does not have any off-balance sheet arrangements.

Contractual Obligations

We do not have any long term debt, capital lease obligations, purchase obligations or other long term liabilities.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the sensitivity of income to changes in interest rates, foreign exchanges, commodity prices, equity prices, and other market-driven rates or prices. As of June 30, 2007, we had not consummated a business combination or engaged in any substantive commercial business. Accordingly, we were not exposed to risks associated with foreign exchange rates, commodity prices, equity prices or other market-driven rates or prices. Post the merger with ISI, the Company will evaluate these risks on an ongoing basis. As of July 2007, management is not aware of any such risks that would materially impact the Company's financial condition.

The net proceeds of our initial public offering held in the trust account are to be invested only in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940 or United States treasury bills. Given our limited risk in our exposure to money market funds and treasury bills, we do not view the interest rate risk to be significant.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation of the effectiveness of our disclosure controls and procedures as of June 30, 2007 was made under the supervision and with the participation of our management, including our Co-Chief Executive Officers (one of whom serves as our principal financial officer). Based on that evaluation, our Co-Chief Executive Officers concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and to ensure that the information required to be disclosed is accumulated and communicated to management, including our Co-Chief Executive Officers, to allow timely decisions regarding required disclosures. During the most recently completed fiscal quarter, there has been no significant change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 4T. CONTROLS AND PROCEDURES

Not Applicable.

15

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2006, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On January 24, 2006, we consummated a private placement of 125,000 units. On January 30, 2006, we consummated our initial public offering of 3,700,046 units (which includes 75,046 units sold pursuant to the exercise of a portion of the underwriter's over-allotment option). Each unit consists of one share of common stock and one redeemable common stock purchase warrant. Each warrant entitles the holder to purchase from us one share of our common stock at an exercise price of \$5.50. The units were sold at an offering price of \$8.00 per unit, generating total gross proceeds of \$30,600,368. Rodman & Renshaw, LLC acted as lead underwriter. The securities sold in our initial public offering were registered under the Securities Act of 1933 on a registration statement on Form S-1 (No. 333-126569). The Securities and Exchange Commission declared the registration statement effective on January 24, 2006.

At the time of our offering, we incurred a total \$1,836,022 in underwriting discounts and commissions and placement agent fees, \$1,377,017 of which was placed in the trust account and will only be paid to the underwriters in the event that we consummate a business combination. The total expenses in connection with the sale of our units in the private placement and the initial public offering were \$2,424,001. No expenses of the offering were paid to any of our directors or officers or any of their respective affiliates. We did, however, repay Argyle New Ventures, an affiliate of Bob Marbut, and Ron Chaimovski for loans they made to us prior to the consummation of the private placement and the initial public offering. The aggregate amount of principal and interest on such loans that we repaid was \$158,177. All the funds held in the trust account have been invested in either Treasury Bills or Money Market Accounts.

After deducting the underwriting discounts and commissions, placement agent fees and the offering expenses, the total net proceeds to us from the private placement and the initial public offering were \$28,176,367, of which \$27,344,346 was deposited into the trust account for our benefit (exclusive of the amounts for the benefit of the underwriters discussed above). The remaining proceeds were available to be used to provide for business, legal and accounting due diligence on prospective business combinations and continuing general and administrative expenses. The amounts held in the trust account could only be used by us upon the consummation of a business combination, with the exception of amounts due for income taxes and \$600,000 of the interest earned on the trust account, which was released to us in September 2006 to fund our working capital.

On December 8, 2006, Argyle, Argyle's wholly-owned subsidiary ISI Security Group, Inc. (the "Merger Subsidiary") and ISI Detention Contracting Group, Inc. (ISI) entered into a merger agreement, as amended on June 29, 2007 and July 11, 2007, pursuant to which the Merger Subsidiary would merge into ISI and ISI will become a wholly-owned subsidiary of Argyle.

On July 31, 2007, pursuant to the terms of the merger agreement, the Company acquired all of the assets and liabilities of ISI through the merger of its Merger Subsidiary into ISI. As a result of the merger, ISI became a wholly owned subsidiary of the Company.

At the closing of the merger, the following consideration was paid by the Company to the stockholders of ISI:

- \$18.6 million in cash from the Trust Account;
- 1,180,000 shares of common stock of Argyle (valued at approximately \$9.2 million); and
- \$1.9 million of unsecured promissory notes convertible into shares of common stock of the Company at a conversion price of \$10 per share.

In addition, the merger consideration paid by the Company also included (i) payment of up to \$2.0 million to an entity created by two executive officers of ISI in connection with the issuance of performance and payment bonds to ISI; and (ii) approximately \$1.0 million in ISI transaction costs. Argyle incurred transactions costs of approximately \$1.7 million in connection with the merger. The Company will pay approximately \$1.8 million to redeeming stockholders and the remainder will be retained by the Company for working capital purposes.

The Company also assumed approximately \$6.0 million of long-term debt, approximately \$7.6 million outstanding pursuant to a \$9.0 million line of credit, and \$2.1 million of capitalized leases as of March 31, 2007.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS
