AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO EFFECT A
REVERSE STOCK SPLIT OF OUR COMMON STOCK AT A
RATIO OF 1:2

GENERAL

On January 15, 2009, our Board of Directors unanimously approved and recommended that the stockholders approve, and on the Record Date, the Majority Stockholders approved, an amendment to the Certificate of Incorporation to effect a reverse stock split of our common stock. The Board of Directors determined that the reverse stock split will reduce the number of shares of our common stock from 29,200,304 to approximately 14,600,152 shares.

The reverse stock split, when implemented, will not change the par value of our common stock. Except for any changes as a result of the treatment of fractional shares, each stockholder who owns two or more shares will hold the same percentage of common stock outstanding immediately following the reverse stock split as such stockholder did immediately prior to the reverse stock split.

The reverse stock split is conducted hereafter for the purpose of listing the Company's common stock on the NASDAQ Stock Market in conformance with the listing requirements.

CONSENT REQUIRED

Approval of the amendment required the consent of the holders of a majority of the outstanding shares of our common stock, as of the Record Date. The Majority Stockholders, who owned approximately 52% of the outstanding shares of our common stock as of the Record Date, has given its consent to the amendment, and, accordingly, the requisite stockholder approval for this action was obtained by the execution of the Majority Stockholders' written consent in favor of the action. We do not intend to seek additional stockholder approval prior to the effectiveness of this action. This Information Statement is being mailed to you solely for your information. We are not providing you with a proxy and you are not requested to send a proxy.

AMENDMENT TO CERTIFICATE OF INCORPORATION

Approximately 20 days after this Information Statement has first been sent or given to stockholders, our Certificate of Incorporation will be amended to effect a 1 for 2 reverse stock split. The Board of Directors of the Corporation may suspend or withdraw the reverse stock split any time before the reverse stock split is effective if the Board Directors deems it in the best interests of the Company and its stockholders to do so.

CERTAIN RISKS ASSOCIATED WITH THE REVERSE STOCK SPLIT

The market price per new shares of our common stock after the reverse stock split (the "New Shares") may not rise or remain constant in proportion to the reduction in the number of old shares of our common stock outstanding before the reverse stock split ("Old Shares"). Accordingly, the total market capitalization of our common stock after the reverse stock split may be lower than the total market capitalization before the reverse stock split. In the future, the market price of our common stock following the reverse stock split may not equal or exceed the market price prior to the reverse stock split. In many cases, the total market capitalization of a company following a reverse stock split is lower than the total market capitalization before the reverse stock split.

PRINCIPAL EFFECTS OF THE REVERSE STOCK SPLIT

Corporate Matters.

The reverse stock split will be effected simultaneously for all of our common stock and the exchange ratio will be the same for all of our common stock. The reverse stock split will affect all of our common stockholders uniformly and will not affect any stockholder's percentage ownership interests in the Company or proportionate voting power, except to the extent that the reverse stock split results in any stockholders owning a fractional share. See "Fractional Shares" below.

The reverse stock split will affect all stockholders uniformly and will not affect materially such stockholders' percentage ownership interests in the company. Common stock issued pursuant to the reverse stock split will remain fully paid and non-assessable. Following the reverse stock split, we will continue to be subject to the periodic reporting requirements of the Securities Exchange Act of 1934, as amended.

Fractional Shares.

No scrip or fractional certificates will be issued in connection with the reverse stock split. Instead, any fractional share that results from the reverse stock split will be rounded up to the next whole share. This is being done to avoid the expense and inconvenience of issuing and transferring fractional shares of our common stock as a result of the reverse stock split.

Authorized Shares.

As of the Record Date, we had 45,000,000 shares of common stock authorized and 29,200,304 shares of common stock outstanding. Although the number of shares of common stock we are authorized to issue will not change as a result of the reverse stock split, the number of shares of our common stock issued and outstanding will be reduced to a number that will be approximately equal to the number of shares of common stock issued and outstanding immediately prior to the effectiveness of the reverse stock split divided by 2. Authorized but unissued shares will be available for issuance, and we may issue such shares in financings or otherwise. If we issue additional shares, the ownership interest of holders of common stock may also be diluted.

Accounting Matters.

The reverse stock split will not affect the par value of our common stock. As a result, as of the effective time of the reverse stock split, the stated capital on our balance sheet attributable to our common stock will be reduced proportionately based on the reverse stock split ratio and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per share net income or loss and net book value of our common stock will be restated because there will be fewer shares of our common stock outstanding.

Potential Anti-Takeover Effect.

Although, the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of our Board of Directors or contemplating a tender offer or other transaction for the combination of us with another company), the reverse stock split is not a response to any effort of which we are aware to accumulate our shares of common stock or obtain control of the Company, nor is it part of a plan by our management to recommend a series of similar amendments to our Board of Directors and stockholders.

PROCEDURE FOR EFFECTING REVERSE STOCK SPLIT AND EXCHANGE OF STOCK CERTIFICATES

Approximately 20 days after this Information Statement has first been sent or given to stockholders, we will file an amendment to our Certificate of Incorporation in the form approved by our Majority Stockholders with the Secretary of State of the State of Delaware. The reverse stock split will become effective upon the filing of our Amended Certificate of Incorporation with the State of Delaware, which is referred to below as the "effective time." The Board of Directors may suspend or withdraw the reverse stock split any time before the effective time if the Board of Directors deems it in the best interests of the Company and its stockholders to do so.

Beginning at the effective time, each certificate representing Old Shares will be deemed for all corporate purposes to evidence ownership of New Shares. Our transfer agent, Interwest Transfer, Inc. located at 1981 Murray Holladay Road, Suite 100 Salt Lake City, UT 84117. Their telephone number is (801) 272-9294, is acting as exchange agent for purposes of implementing the exchange of stock certificates. Holders of Old Shares may surrender certificates representing Old Shares for certificates representing New Shares. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s) to the exchange agent. The Company will be responsible for the payment of all fees, including the transfer agent's fee, associated with certificate exchange and delivery.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S).

FEDERAL INCOME TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT

EACH STOCKHOLDER SHOULD CONSULT WITH HIS OR HER OWN TAX ADVISOR WITH RESPECT TO ALL OF THE POTENTIAL TAX CONSEQUENCES TO HIM OR HER OF THE REVERSE STOCK SPLIT.
