MANAGEMENT'S COMMENTS ON 2Q09 RESULTS

Copa Holdings delivered exceptional second quarter results despite being adversely affected by declining unit revenues as a result of a weaker demand environment, partly due to the H1N1 flu crisis, which resulted in lower load factors and yields. For 2Q09 the company reported operating income of US\$36.8 million, a 17.8% increase over 2Q08. Operating margin increased 2.8 percentage points from 10.5% to 13.2%, maintaining our position as one of the most profitable airlines in the world.

Total revenues decreased 6.8% during the quarter, while capacity increased 16.5%, which resulted in a 20.0% decrease in revenues per ASM (RASM) from 14.2 cents to 11.4 cents. Passenger revenues, which represented 94% of total revenues, decreased 6.8% to US\$261.7 million, due to a 20.0% decline in passenger revenue per ASM (PRASM), driven by a 13.3% drop in yield and a 5.7 percentage point decline in consolidated load factor from 74.5% to 68.7%. During the quarter, passenger traffic was negatively affected as a result of the H1N1 flu crisis, which management estimates had an impact on consolidated revenue of approximately US\$12 million.

In 2Q09, Copa Airlines' yields came in at 14.7 cents, representing a decline of 11.9% compared to 2Q08. Copa Airlines yields declined mainly as a result of lower average fares as a result of a less robust demand environment. Aero Republica's yields decreased 22.5% to 21.2 cents for the most part due to a weaker Colombian currency.

Consolidated operating expenses for 2Q09 decreased 9.7% to US\$240.9 million, while consolidated operating expenses per ASM (CASM) decreased 22.5% to 9.9 cents. Excluding fuel costs, unit costs decreased 9.1% to 7.1 cents, mostly due to lower distribution costs as a result of a lower average commission rate, in addition to an overall lower revenue base and an increase in direct sales.

Aircraft fuel expense decreased 33.9% or US\$35.4 million compared to 2Q08, despite a 16.5% increase in available seat miles. The Company's effective jet fuel price, which includes a US\$12.8 million negative fuel hedge effect in 2Q09 and a US\$7.5 million positive fuel hedge effect in 2Q08, decreased from an average of US\$3.47 in 2Q08 to US\$2.04 in 2Q09.

For 2Q09, the Company had fuel hedges in place representing 30% of its consolidated volume. Continuing with the execution of its fuel hedge policy, the Company currently has hedged approximately 28% in 3Q09 and 21% in 4Q09. For both 2010 and 2011 the Company has hedged 9% of its consolidated volume.

The Company recorded non-operating income of US\$21.5 million for 2Q09 compared to US\$2.7 million of non-operating income for 2Q08. Non-operating income for 2Q09 consisted of a fuel hedge mark-to-market gain of US\$27.1 million, compared to a fuel hedge mark-to-market gain of US\$5.7 million in 2Q08.

Copa Holdings closed the quarter with US\$394.3 million in cash, short term and long term investments, representing approximately 31% of last twelve months' revenues. Total debt at the end of 2Q09 amounted to US\$948.7 million, most of which relates to aircraft and equipment financing.

For 2Q09, Aero Republica recorded operating income of US\$9.0 million, compared to an operating loss of US\$2.8 million in 2Q08. Operating margin for 2Q09 came in at 15.9%. Aero Republica continues to benefit from its international expansion and fleet transition strategy aimed at replacing its MD-80 fleet with modern and fuel-efficient Embraer-190 aircraft. For 2Q09, Aero Republica's capacity, in terms of ASMs flown in Embraer-190 aircraft as a percentage of its total capacity, increased from 52% in 2Q08 to 68% in 2Q09. By the end of 2009, Aero Republica will operate an all Embraer-190 fleet with an average age of two years, one of the youngest in the industry.

Additionally, as part of its international expansion, Aero Republica's international capacity reached 23% of total capacity during 2Q09, as compared to 19% in 2Q08. Furthermore, according to reported statistics from Colombia's Civil Aeronautics Authority (Aerocivil), Aero Republica's international passenger market share for the first five months of 2009 increased to 8%, up from 5.4% during the same period in 2008.

In 2009, Copa Airlines' operational plan calls for capacity growth of approximately 16%, mostly as a result of the full year effect of capacity introduced during the course of 2008. At the same time, Aero Republica's capacity growth will remain flat or increase slightly as the airline continues its transition to all Embraer-190 fleet. This should result in a consolidated capacity growth of approximately 12%. Copa Holdings' consolidated fleet is expected to end the year flat at 55 aircraft, made up of 18 737-700s, 11 737-800s and 26 Embraer-190s.

Copa Holdings continues to deliver industry-leading results, despite negative factors that continue to affect the industry as a whole. This is the result of a solid and resilient business model based on developing the most comprehensive and convenient network for intra Latin America travel and a very competitive cost structure. Throughout the remainder of 2009, the Company will seek to continue strengthening its long term competitive position, with the advantages of a flexible fleet plan and a strong financial position.

OUTLOOK FOR 2009

Based on the Company's year to date results, and expectations for the remainder of the year, Copa Holdings' 2009 operating margin range and capacity guidance remain unchanged. However, due to a weaker than expected demand environment, full year consolidated load factor is projected to come in at 72%, down from 76% in 2008. Additionally, unit revenues (RASM) are now forecasted to decline approximately 16% from 2008 levels to 12.2 cents. However, unit costs excluding fuel are also forecasted to come in at 7.2 cents, or approximately 4% below 2008 levels. We currently estimate an effective full year 2009 jet fuel price of jet fuel, including the effect of current hedge contracts and into plane costs, of US\$2.16 per gallon, up from the previous estimate of \$2.11 per gallon and down from \$3.24 in 2008.

CONSOLIDATED SECOND QUARTER RESULTS

Operating revenue

Consolidated revenue for 2Q09 totaled US\$277.6 million, a 6.8% or US\$20.3 million decline from operating revenue of US\$297.9 million in 2Q08, mainly due to a 7.5% or US\$18.1 million decrease in Copa Airlines' operating revenue and a 6.4% or US\$3.8 million decline in Aero Republica's operating revenue.

Copa Airlines operating revenue

Copa Airlines operating revenue for 2Q09 totaled US\$222.7 million, a 7.5% decline from operating revenue of US\$240.8 million in 2Q08. This decline was primarily due to a 7.2% or US\$16.2 million drop in passenger revenue.

Passenger revenue. For 2Q09 passenger revenue totaled US\$209.5 million, a 7.2% decline from passenger revenue of US\$225.7 million in 2Q08 as ASMs increased by 18.1% in 2Q09 as compared to 2Q08. Passenger yield decreased 11.9% to 14.7 cents, while load factor decreased 8.5 percentage points from 78.3% to 69.9 in 2Q09.

Cargo, mail and other. Cargo, mail and other revenue totaled US\$13.3 million in 2Q09, a 12.2% decline from cargo, mail and other of US\$15.1 million in 2Q08.

Aero Republica operating revenue

During 2Q09, Aero Republica generated operating revenue of US\$56.4 million, representing a 6.4% decline from 2Q08. This decrease resulted mainly from a US\$2.9 million or 5.3% decline in passenger revenue. During the quarter Aero Republica's capacity (ASMs) increased by 8.9% mainly as a result of increased international presence, while traffic (RPMs) increased 22.1%, resulting in a load factor of 62.8% or 6.8 percentage point above 2Q08. Yields decreased by 22.5% primarily due to lower fuel surcharges and a weaker Colombian currency.

Operating expenses

For 2Q09, consolidated operating expenses decreased 9.7% to US\$240.9 million, representing operating cost per available seat mile (CASM) of 9.9 cents. Operating cost per available seat mile (CASM), excluding fuel costs, decreased 9.1% from 7.8 cents in 2Q08 to 7.1 cents in 2Q09. An overview of the major variances on a consolidated basis follows:

Aircraft fuel. For 2Q09, aircraft fuel totaled US\$68.9 million, a US\$35.4 million or 33.9% decrease from aircraft fuel of US\$104.2 million in 2Q08. This decline was primarily a result of a 41.2% decrease in the average price per gallon of jet fuel (all-in), which averaged US\$2.04 in 2Q09 as compared to US\$3.47 in 2Q08, offset by a 13.8% increase in gallons consumed resulting from increased capacity. The all-in average price per gallon of jet fuel for 2Q09 includes a US\$12.8 million fuel hedge loss.

Salaries and benefits. For 2Q09, salaries and benefits totaled US\$38.2 million, a 17.4% increase over salaries and benefits of US\$32.6 million in 2Q08. This increase was mostly a result of an overall increase in operating headcount to support additional capacity.

Passenger servicing. For 2Q09, passenger servicing totaled US\$25.1 million, a 7.5% increase over passenger servicing of US\$23.4 million in 2Q08. This increase was primarily a result of an increase in capacity and passengers carried.

Commissions. For 2Q09, commissions totaled US\$12.7 million, a 28.7% decrease from commissions of US\$17.8 million in 2Q08. This decrease was primarily a result of lower average commission rates at both Copa Airlines and Aero Republica and a lower revenue base.

Reservations and sales. Reservations and sales totaled US\$13.1 million, a 9.3% decrease from reservation and sales of US\$14.5 million in 2Q08. This decrease was primarily a result of lower reservation volume handled through global distribution systems.

Maintenance, material and repairs. For 2Q09, maintenance, material and repairs totaled US\$21.6 million, a 33.2% increase over maintenance, material and repairs of US\$16.2 million in 2Q08. This increase was primarily a result of increased capacity and the timing of major overhaul events at Copa Airlines.

Depreciation. Depreciation totaled US\$12.0 million in 2Q09, a 14.7% increase over depreciation of US\$10.4 million in 2Q08. This increase was primarily related to the depreciation of new aircraft and spares.

Flight operations, aircraft rentals, landing fees and other rentals. Combined, flight operations, aircraft rentals, landing fees and other rentals increased 2.3% from US\$33.6 million in 2Q08 to US\$34.4 million in 2Q09.

Other. Other expenses totaled US\$14.9 million in 2Q09, an increase of US\$0.9 million.

Copa Airlines operating expenses

Operating expenses per available seat mile decreased 20.2% to 9.5 cents in 2Q09 from 11.9 cents in 2Q08. Excluding fuel costs, operating expenses per available seat mile decreased 7.5% from 7.2 cents in 2Q08 to 6.7 cents in 2Q09.

Aircraft fuel. For 2Q09, aircraft fuel totaled US\$58.0 million, a 28.8% decrease from aircraft fuel expense of US\$81.5 million in the same period in 2008. This decrease was primarily a result of a 37.3% decline in the average price per gallon of jet fuel (all-in), which averaged US\$2.12 in 2Q09 as compared to US\$3.38 in 2Q08. The all-in average price per gallon of jet fuel for 2Q09 includes \$12.4 million fuel hedge loss.

Salaries and benefits. For 2Q09, salaries and benefits totaled US\$30.4 million, a 20.8% increase over salaries and benefits of US\$25.1 million in the same period in 2008. This increase was mainly a result of an overall increase in operating headcount to support additional capacity.

Passenger servicing. Passenger servicing totaled US\$21.0 million for 2Q09, an 11.2% increase over passenger servicing of US\$18.9 million in 2Q08. This increase was primarily the result of an increase in capacity and passengers carried.

Depreciation. Depreciation totaled US\$11.0 million in 2Q09, a 20.5% increase over depreciation of US\$9.1 million in 2Q08, primarily related to depreciation of new aircraft and spare parts.

Flight operations, aircraft rentals, landing fees and other rentals. Combined, flight operations, aircraft rentals, landing fees and other rentals decreased 3.2% from US\$26.6 million in 2Q08 to US\$25.7 million in 2Q09.

Operating expenses per available seat mile (CASM) decreased 30.9% to 12.1 cents in 2Q09 from 17.5 cents in 2Q08. CASM, excluding fuel costs, decreased 16.7% from 11.2 cents in 2Q08 to 9.3 cents in 2Q09, mainly due to less overhaul events and the effect of a weaker Colombian currency.

Interest income. Interest income totaled US\$2.2 million, a 14.8% decrease from interest income of US\$2.6 million in 2Q08, mostly a result of lower rates.

Other, net. Other net totaled a gain of US\$27.6 million in 2Q09, mainly related to a US\$27.1 million non-cash gain related to the mark-to-market of fuel hedge contracts.
