#### United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

Note 1:

#### Summary of Significant Accounting Policies

These interim financial statements are prepared without audit and reflect all adjustments which, in the opinion of management, are necessary to present fairly the financial position of United Bancorp, Inc. ("Company") at March 31, 2011, and its results of operations and cash flows for the interim periods presented. All such adjustments are normal and recurring in nature. The accompanying condensed consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not purport to contain all the necessary financial disclosures required by accounting principles generally accepted in the United States of America that might otherwise be necessary in the circumstances and should be read in conjunction with the Company's consolidated financial statements and related notes for the year ended December 31, 2010 included in its Annual Report on Form 10-K. Reference is made to the accounting policies of the Company described in the Notes to the Consolidated Financial Statements contained in its Annual Report on Form 10-K. The results of operations for the three months ended March 31, 2011, are not necessarily indicative of the results to be expected for the full year. The condensed consolidated balance sheet of the Company as of December 31, 2010 has been derived from the audited consolidated balance sheet of the Company as of December 31, 2010 has been derived from the audited consolidated balance sheet of the Company as of December 31, 2010 has been derived from the audited consolidated balance sheet of the Company as of that date.

#### Principles of Consolidation

The consolidated financial statements include the accounts of United Bancorp, Inc. ("United" or "the Company") and its wholly-owned subsidiary, The Citizens Savings Bank of Martins Ferry, Ohio ("the Bank" or "Citizens"). The Company operates in two divisions, The Community Bank, a division of The Citizens Savings Bank and The Citizens Bank, a division of The Citizens Savings Bank. All intercompany transactions and balances have been eliminated in consolidation.

#### Nature of Operations

The Company's revenues, operating income, and assets are almost exclusively derived from banking. Accordingly, all of the Company's banking operations are considered by management to be aggregated in one reportable operating segment. Customers are mainly located in Athens, Belmont, Carroll, Fairfield, Harrison, Hocking, Jefferson, and Tuscarawas Counties and the surrounding localities in northeastern, east-central and southeastern Ohio, and include a wide range of individuals, businesses and other organizations. The Citizens Bank division conducts its business through its main office in Martins Ferry, Ohio and twelve branches in Bridgeport, Colerain, Dellroy, Dillonvale, Dover, Jewett, New Philadelphia, St. Clairsville East, St. Clairsville West, Sherrodsville, Strasburg, and Tiltonsville, Ohio. The Community Bank division conducts its business through its main office in Lancaster, Ohio and seven offices in Amesville, Glouster, Lancaster, and Nelsonville, Ohio. The Company's primary deposit products are checking, savings, and term certificate accounts, and its primary lending products are residential mortgage, commercial, and installment loans. Substantially all loans are secured by specific items of collateral including business assets, consumer assets and real estate and are not considered "sub prime" type loans. The targeted lending areas of our bank operations encompass four separate metropolitan areas, minimizing the risk to changes in economic conditions in the communities housing the Company's 20 branch locations.

#### United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

Commercial loans are expected to be repaid from cash flow from operations of businesses. Real estate loans are secured by both residential and commercial real estate. Net interest income is affected by the relative amount of interest-earning assets and interest-bearing liabilities and the interest received or paid on these balances. The level of interest rates paid or received by the Company can be significantly influenced by a number of environmental factors, such as governmental monetary and fiscal policies, that are outside of management's control.

#### Use of Estimates

To prepare financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and the disclosures provided and future results could differ. The allowance for loan losses and fair values of financial instruments are particularly subject to change.

#### Loans

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding principal balances adjusted for any charge-offs, the allowance for loan losses and any unamortized deferred fees or costs on originated loans.

For loans amortized at cost, interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, as well as premiums and discounts, are deferred and amortized as a level yield adjustment over the respective term of the loan.

The accrual of interest on mortgage and commercial loans is discontinued at the time the loan is 90 days past due unless the credit is well-secured and in process of collection. Past due status is based on contractual terms of the loan. In all cases, loans are placed on nonaccrual or charged off at an earlier date if collection of principal or interest is considered doubtful.

All interest accrued but not collected for loans that are placed on nonaccrual or charged off is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

#### Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to income. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a monthly basis by management and the Citizens Board of Directors and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

#### United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

The allowance consists of allocated and general components. The allocated component relates to loans that are classified as impaired. For those loans that are classified as impaired, an allowance is established when the discounted cash flows (or collateral value or observable market price) of the impaired loan is lower than the carrying value of that loan. The general component covers nonclassified loans and is based on historical charge-off experience and expected loss given default derived from the Company's internal risk rating process. Other adjustments may be made to the allowance for pools of loans after an assessment of internal or external influences on credit quality that are not fully reflected in the historical loss or risking rating data.

A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan-by-loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price or the fair value of the collateral if the loan is collateral dependent.

Groups of loans with similar risk characteristics are collectively evaluated for impairment based on the group's historical loss experience adjusted for changes in trends, conditions and other relevant factors that affect repayment of the loans. Accordingly, the Company does not separately identify individual consumer and residential loans for impairment measurements, unless such loans are the subject of a restructuring agreement due to financial difficulties of the borrower.

#### United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

#### Earnings Per Share

Basic earnings per common share is computed based upon the weighted-average number of common shares outstanding during the period, less shares in the ESOP which are unallocated and not committed to be released and non-vested restricted stock. At March 31, 2011 and 2010, the ESOP held 236,356 and 259,996 unallocated shares, respectively, which were not included in weighted-average common shares outstanding. In addition at March 31, 2011 and 2010, the Company has 170,000 and 180,000 shares, respectively, of non vested restricted stock, which were not included in weighted-average common shares outstanding. Diluted earnings per common share include the dilutive effect of additional potential common shares issuable under the Company's stock compensation plans.

	Three months ended March 31,					
		2011	aren	51,	2010	
Basic						
Net income (In thousands)	\$	738		\$	683	
Dividends on non-vested restricted stock		(24	)		(25	)
Net earnings allocated to stockholders	\$	714		\$	658	
Weighted average common shares outstanding		4,753,955			4,665,92	37
Basic earnings per common share	\$	0.15		\$	0.14	
Diluted						
Net earnings allocated to stockholders	\$	714		\$	658	
Weighted average common shares outstanding for basic earnings per common share		4,753,955			4,665,93	37
Add: Dilutive effects of assumed exercise of stock options and restricted stock		18,263			16,512	
Average shares and dilutive potential common shares		4,772,218			4,682,44	49
Diluted earnings per common share	\$	0.15		\$	0.14	

Options to purchase 53,714 shares of common stock at a weighted-average exercise price of \$10.34 per share were outstanding at both March 31, 2011 and 2010, but were not included in the computation of diluted earnings per share because the options' exercise price was greater than the average market price of the common shares.

#### United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

Income Taxes

The Company is subject to income taxes in the U.S. federal jurisdiction, as well as various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for the years before 2007.

#### **Recent Accounting Pronouncements**

FASB Accounting Standards Update (ASU) 2010-20, Receivables: Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses (Topic 310), issued on July 21, 2010, concerns improved disclosures regarding the credit quality in a financial institution's loan portfolio. The guidance requires additional disaggregation of the credit portfolio by portfolio segment and class of receivable, a revised roll forward of the allowance for credit losses, presentation of the credit portfolio by credit quality indicators, an aging schedule of past due receivables, disclosure of troubled debt restructurings and purchases and sales of receivables by portfolio segment. The period-end disclosures were effective for periods ending on or after December 15, 2010 (December 31, 2010 for the Company). The activity disclosures are effective for periods beginning on or after December 15, 2010 (January 1, 2011 for the Company). The Company adopted FASB ASU 2010-20 as required, without a material effect on the Company's financial condition or results of operations.

FASB ASU 2011-02, Receivables (Topic 310), A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring, issued in April 2011, amends Subtopic 310-40 to clarify existing guidance related to a creditor's evaluation of whether a restructuring of debt is considered a troubled debt restructuring. The amendments add additional clarity in determining whether a creditor has granted a concession and whether a debtor is experiencing financial difficulties. The updated guidance and related disclosure requirements are effective for financial statements issued for the first interim or annual period beginning on or after June 15, 2011, and should be applied retroactively to the beginning of the annual period of adoption. Early adoption is permitted. Management is currently evaluating the impact of the guidance on the Company's condensed consolidated financial statements.

FASB ASU 2011-03, Transfers and Servicing (Topic 860), Reconsideration of Effective Control for Repurchase Agreements, issued in April 2011, improves the accounting for repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. The updated guidance is effective for the first interim or annual period beginning on or after December 15, 2011 and should be applied prospectively. Management is currently evaluating the impact of the guidance on the Company's condensed consolidated financial statements.

#### United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

Note 2:

Securities

The amortized cost and approximate fair values, together with gross unrealized gains and losses of securities are as follows:

	Amortized Cost	Gross Unrealized Gains (In the	Gross Unrealized Losses ousands)	l Approximate Fair Value
Available-for-sale Securities:				
March 31, 2011				
U.S. government agencies	\$75,735	\$79	\$(449	) \$ 75,365
State and political subdivisions	24,900	404		25,304
Equity securities	4	10		14
	\$100,639	\$493	\$(449	) \$ 100,683

State and political subdivisions	25,008	315	(28	) 25,295
Government sponsored entities mortgage-backed securities	9,105	509		9,614
Equity securities	4	9		13
	\$96,025	\$886	\$(756	) \$ 96,155

	Amortized Cost	Gross Unrealized Gains (In the	Gross Unrealized Losses ousands)	Approximate Fair Value
Held-to-maturity Securities:				
March 31, 2011:				
State and political subdivisions	\$4,545	\$169	\$—	\$ 4,714
December 31, 2010:				
State and political subdivisions	\$6,331	\$179	\$—	\$ 6,510

The amortized cost and fair value of available-for-sale securities and held-to-maturity securities at March 31, 2011, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.

		Available-for-sale		-sale	Held-to-		maturity	
	Α	mortized		Fair		mortized		Fair
		Cost		Value		Cost		Value
				(In thous	sand	s)		
Within one year	\$	60	\$	60	\$	110	\$	110
One to five years		15,846		15,917		2,083		2,182
Five to ten years		35,330		35,568		2,352		2,422
After ten years		49,399		49,124				
		100,635		100,669		4,545		4,714
Equity securities		4		14				
Totals	\$	100,639	\$	100,683	\$	4,545	\$	4,714

The carrying value of securities pledged as collateral, to secure public deposits and for other purposes, was \$59.3 million and \$66.4 million at March 31, 2011 and December 31, 2010, respectively.

#### United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method. Information with respect to sales of securities and resulting gross realized gains and losses was as follows:

			onths ended rch 31,	
		2011 2010 (In thousands)		
Proceeds from sale	\$	9,188	\$ —	
Gross gains		370		
Gross losses				

During the three months ended March 31, 2011 the Company sold one security with an amortized cost of \$295,000 resulting in a realized gain of approximately \$7,000 and is included in the table above under gross gains. This security was classified on the books as held to maturity and was sold due to a credit quality down grade of the municipality issuer.

Certain investments in debt securities are reported in the financial statements at an amount less than their historical cost. The total fair value of these investments at March 31, 2011 and December 31, 2010, was \$39.5 million and \$35.7 million, which represented approximately 37% and 35%, respectively, of the Company's available-for-sale and held-to-maturity investment portfolio.

Based on evaluation of available evidence, including recent changes in market interest rates, credit rating information and information obtained from regulatory filings, management believes the declines in fair value for these securities are temporary.

Should the impairment of any of these securities become other-than-temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period the other-than-temporary impairment is identified.

The following tables show the Company's investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at March 31, 2011 and December 31, 2010:

		March 31	, 2011			
	Less than	12 Months	12 Month	ns or More	To	otal
Description of		Unrealized		Unrealized		Unrealized
Securities	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses
		(In thous	ands)			
U.S. Government agencies	\$39,491	\$(449	) \$—	\$—	\$39,491	\$(449)

		December	31, 2010				
	Less than	12 Months	12 Month	ns or More	Тс	otal	
Description of		Unrealized	b	Unrealized		Unrealize	ed
Securities	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses	5
		(In thou	isands)				
U.S. Government agencies	\$33,215	\$(728	) \$—	\$—	\$33,215	\$(728	)
State and political subdivisions	2,484	(28	) —		2,484	(28	)
Total temporarily impaired							
securities	\$35,699	\$(756	) \$—	\$—	\$35,699	\$(756	)

The unrealized losses on the Company's investments in U.S. Government agency and municipal securities were caused primarily by interest rate changes. The contractual terms of those investments do not permit the issuer to settle the securities at a price less than the amortized cost bases of the investments. Because the Company does not intend to sell the investments and it is not more likely than not the Company will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company does not consider those investments to be other-than-temporarily impaired at March 31, 2011 and December 31, 2010

Note 3:

Loans and Allowance for Loan Losses

Categories of loans include:

	Ν	Iarch 31, 2011	Dec	cember 31, 2010		
		(In thousands)				
Commercial loans	\$	29,758	\$	32,153		
Commercial real estate		139,705		136,369		
Residential real estate		62,887		63,378		
Installment loans		44,724		46,877		
Total gross loans		277,074		278,777		
Less allowance for loan losses		(2,521)		(2,740)		
Total loans	\$	274,553	\$	276,037		

The activity in the allowance for loan losses was as follows:

	Three months ended				
	March 31,				
	2011 2010				
	(In	thous	ands	5)	
Beginning balance	\$ 2,740		\$	2,390	
Provision for loan losses	648			360	
Loans charged-off	(967	)		(311	)
Recoveries of previous charge-offs	100 88				
Ending balance	\$ 2,521		\$	2,527	

A loan is considered impaired, in accordance with the impairment accounting guidance (ASC 310-10-35-16), when based on current information and events, it is probable the Company will be unable to collect all amounts due from the borrower in accordance with the contractual terms of the loan. Impaired loans include nonperforming commercial loans but also include loans modified in troubled debt restructurings where concessions have been granted to borrowers experiencing financial difficulties. These concessions could include a reduction in the interest rate on the loan, payment extensions, forgiveness of principal, forbearance or other actions intended to maximize collection.

#### Allowance for Loan Losses and Recorded Investment in Loans As of and for the period Ended March 31, 2011

Included in certain loan categories in the impaired loans are troubled debt restructurings that were classified as impaired. At March 31, 2011, the Company had approximately \$633,000 of commercial real estate loans that were modified in troubled debt restructurings and impaired. In addition to these amounts, the Company had troubled debt restructurings that were performing in accordance with their modified terms of approximately \$633,000 of commercial real estate loans. At December 31, 2010, the Company had approximately \$633,000 of commercial real estate loans that were modified in troubled debt restructurings and impaired. In addition to these amounts, the Company had troubled debt restructurings and impaired. In addition to these amounts, the Company had troubled debt restructurings that were performing in accordance with their modified terms of approximately \$633,000 of commercial real estate loans that were modified in troubled debt restructurings and impaired. In addition to these amounts, the Company had troubled debt restructurings that were performing in accordance with their modified terms of approximately \$386,000 of commercial real estate loans.

Note 4:

**Benefit Plans** 

Pension expense includes the following:

	Three months ended March 31,						
		2011 2010					
		(In thousands)					
Service cost	\$	76		\$	67		
Interest cost		43			45		
Expected return on assets		(60	)		(58	)	
Amortization of prior service cost and net loss		20			21		
Pension expense	\$	79		\$	75		

Note 5:

**Off-Balance-Sheet Activities** 

Some financial instruments, such as loan commitments, credit lines, letters of credit and overdraft protection, are issued to meet customer financing needs. These are agreements to provide credit or to support the credit of others, as long as conditions established in the contracts are met, and usually have expiration dates. Commitments may expire without being used. Off-balance-sheet risk to credit loss exists up to the face amount of these instruments, although material losses are not anticipated. The same credit policies are used to make such commitments as are used for loans, including obtaining collateral at exercise of the commitment.

A summary of the notional or contractual amounts of financial instruments with off-balance-sheet risk at the indicated dates is as follows:

	Ν	March 31, 2011		cember 31, 2010		
	(U	(Unaudited)				
	(In thousands)					
Commitments to extend credit	\$	12,453	\$	12,858		
Commitment to originate loans		4,500		9,200		
Overdraft program and ready reserve lines		29,137		29,189		
Standby letters of credit		897		897

Note 6:

Fair Value Measurements

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company also utilizes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices

2 in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level Unobservable inputs that are supported by little or no market activity and that are significant to the fair valueof the assets or liabilities

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Available-for-sale Securities

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. The Company's equity securities are classified within Level 1 of the hierarchy. If quoted market prices are not available, the Company generally relies on prices obtained from independent pricing services or brokers. Securities measured with this valuation technique are generally classified as Level 2 of the hierarchy, and their fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows using significant inputs observable in the market. Examples of Level 2 securities include U.S. government agency bonds, mortgage-backed securities and state and political subdivision bonds. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Company has no securities classified as Level 3 of the hierarchy.

United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

The following table presents the fair value measurements of assets recognized in the accompanying consolidated balance sheets measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at March 31, 2011 and December 31, 2010:

			Fair Value Measurements Using Quoted Prices						
	F	air Value	i M I	n Active arkets for dentical Assets Level 1) (In thou	0 (	ignificant Other bservable Inputs Level 2) s)	Uno	gnificant bservable Inputs Level 3)	
March 31, 2011				× ·		,			
U.S. government agencies	\$	75,365	\$		\$	75,365	\$		
State and political subdivisions		25,304				25,304			
Equity securities		14		14				—	
December 31, 2010									
U.S. government agencies	\$	61,233	\$		\$	61,233	\$		
State and political subdivisions		25,295				25,295			
Government sponsored entities									
mortgage-backed securities		9,614				9,614			
Equity securities		13		13					

Following is a description of the valuation methodologies used for assets measured at fair value on a nonrecurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of such instruments pursuant to the valuation hierarchy.

#### Impaired Loans (Collateral Dependent)

Collateral dependent impaired loans consisted primarily of loans secured by nonresidential real estate. Management has determined fair value measurements on impaired loans primarily through evaluations of appraisals performed. Due to the nature of the valuation inputs, impaired loans are classified within Level 3 of the hierarchy.

United Bancorp, Inc. Notes to Condensed Consolidated Financial Statements For the Three Months Ended March 31, 2011 and 2010

Mortgage Servicing Rights

Mortgage servicing rights, which are included in other assets, do not trade in an active, open market with readily observable prices. Accordingly, fair value is estimated using discounted cash flow models. Due to the nature of the valuation inputs, mortgage servicing rights are classified within Level 3 of the hierarchy.

Foreclosed Assets Held for Sale

Assets acquired through, or in lieu of, loan foreclosure are held for sale and are initially recorded at fair value (based on current appraised value) at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less cost to sell. Management has determined fair value measurements on other real estate owned primarily through evaluations of appraisals performed, and current and past offers for the other real estate under evaluation. Due to the nature of the valuation inputs, foreclosed assets held for sale are classified within Level 3 of the hierarchy.

The following table presents the fair value measurements of assets recognized in the accompanying consolidated balance sheets measured at fair value on a nonrecurring basis and the level within the fair value hierarchy in which the fair value measurements fall at March 31, 2011 and December 31, 2010.

			Fair Value Measurements Using Quoted Prices						
	F	air Value	in Active Markets for Identical Assets (Level 1) (In thou		Significant Other Observable Inputs (Level 2) usands)		Un	ignificant observable Inputs Level 3)	
March 31, 2011				,		,			
Impaired loans	\$	3,105	\$		\$		\$	1,810	
Foreclosed assets held for sale		213						213	
December 31, 2010									
Impaired loans	\$	3,595	\$		\$		\$	3,595	
Mortgage servicing rights		215						215	
Foreclosed assets held for sale		238						238	

The following table presents estimated fair values of the Company's financial instruments. The fair values of certain of these instruments were calculated by discounting expected cash flows, which involves significant judgments by management and uncertainties. Fair value is the estimated amount at which financial assets or liabilities could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Because no market exists for certain of these financial instruments and because management does not intend to sell these financial instruments, the Company does not know whether the fair values shown below represent values at which the respective financial instruments could be sold individually or in the aggregate.

	March 31, 2011					December	31, 2	2010
