Note 1 - Nature of Operations and Continuance of Business

The unaudited interim financial statements included herein have been prepared by Soul and Vibe Interactive Inc. (“**SVI**”) and its wholly owned subsidiary Soul and Vibe Entertainment, Inc., a Nevada corporation (“**Soul**,” and collectively with SVI, the “**Company**”) in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (the “**SEC**”). These interim financial statements should be read in conjunction with the audited financial statements and notes thereto included in our Form 10-K for the year ended December 31, 2012, as filed with the SEC. We believe that all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein and that the disclosures made are adequate to make the information not misleading. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year as reported in Form 10-K have been omitted.

Note 2 - Going Concern

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. This basis of accounting contemplates the recovery of the Company's assets and the satisfaction of its liabilities in the normal course of business. Through June 30, 2013, the Company had incurred cumulative losses of $466,432 since inception. Additionally, the Company has accumulated significant losses, has negative working capital, and a deficit in stockholders' equity. All of these items raise substantial doubt about its ability to continue as a going concern. In view of the matters described in the preceding paragraph, recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital and generate revenues from its operations. The financial statements include any adjustments relating to the discontinued operations of the previous company but do not include classification of recorded asset amounts or amounts and classification of liabilities that might be necessary, should the Company be unable to continue as a going concern.

Management has taken the following steps to revise its operating and financial requirements, which it believes are sufficient to provide the Company with the ability to continue as a going concern. Management devoted considerable effort during the period ended June 30, 2013, towards (i) obtaining additional equity financing and (ii) evaluation of its distribution and marketing methods.

Management's plans with respect to alleviating the adverse financial conditions that caused the Company’s independent auditors to express substantial doubt about the Company's ability to continue as a going concern are as follows:

Management requires $2.5M to $3M in capitalization in order to begin execution of its business plan and to continue operations. This capital will be utilized over a twelve-month period. The capitalization will cover the acquisition of pick-ups (depending on the value of the capitalization, also the development of a proprietary IP product) along with the release of the games as well as the marketing and PR expenses associated with bringing them to market on a variety of hardware platforms that include: video game consoles, mobiles devices, and personal computers. The anticipated number of pick-ups is two. The capitalization will also cover general and administrative expenses, operational expenses and will allow the Company to secure an initial number of premium full-time employees. The Company is currently evaluating capitalization opportunities that are compatible with its growth plans and business model. Additional capitalization (beyond the identified $2.5m to $3M; cumulatively of $5M) will allow the Company to pursue development of multiple projects “from scratch” and publish them in a “staggered” release, as per its current three-year business plan.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Future Financings

We will continue to rely on the issuance of debt and equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund planned acquisitions and exploration activities.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of disclosure controls and procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined) in Exchange Act Rules 13a 15(c) and 15d 15(e)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were not effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended (the "**Exchange Act**") is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our principal executive officer and principal financial officer does not expect that our disclosure controls will prevent all error and all fraud. Although our disclosure controls and procedures were designed to provide reasonable assurance of achieving their objectives and our principal executive officer and principal financial officer has determined that our disclosure controls and procedures are effective at doing so, a control system, no matter how well conceived and operated, can provide only reasonable, not absolute assurance that the objectives of the system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented if there exists in an individual a desire to do so. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Changes in Internal Control over Financial Reporting

There has been no change in the Company’s internal control over financial reporting during the three months ended June 30, 2013, that materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.
