PROXY STATEMENT

January 24, 2003

Proxies in the form enclosed with this proxy statement are solicited by the Board of Directors of GreenMan Technologies, Inc. (the "Board of Directors") at GreenMan's expense for use at the Annual Meeting of Stockholders (the "Meeting") to be held on Thursday, February 20, 2003 in the Franklin Room at the Sheraton Colonial Hotel, One Audubon Road, Wakefield, Massachusetts, 01880.

Only stockholders of record as of December 31, 2002 will be entitled to vote at the Meeting and any adjournments thereof. As of that date, 15,698,214 shares of common stock, par value \$.01 per share (the "Common Stock"), of GreenMan were issued and outstanding. The holders of Common Stock are entitled to one vote per share on any proposal presented at the Meeting. Stockholders may vote in person or by proxy.

Execution of a proxy will not in any way affect a stockholder's right to attend the Meeting and vote in person. Any stockholder giving a proxy has the right to revoke it at any time before it is exercised by attending the Meeting and voting in person or filing with the Secretary of GreenMan either a written instrument revoking the proxy or another executed proxy bearing a later date.

All properly executed proxies returned in time to be counted at the Meeting will be voted. With respect to the election of the Board of Directors, shares represented by proxies will be voted as stated below under "Election of Directors." Any stockholder submitting a proxy has the right to withhold authority to vote for any individual nominee to the Board of Directors by writing that nominee's name on the space provided on the proxy. In addition to the election of Directors, the stockholders will consider and vote upon proposals: (i) to approve an amendment to the Company's Certificate of Incorporation to increase the number of authorized shares of the Company's Common Stock from 20,000,000 to 30,000,000 and (ii) to ratify the selection of Wolf & Company, P.C. as auditors, as further described in this proxy statement. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specification and will be voted FOR if no specification is made.

The representation in person or by proxy of a majority of the outstanding shares of Common Stock entitled to vote at the Meeting is necessary to establish a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum. A "non-vote" occurs

## Edgar Filing: GREENMAN TECHNOLOGIES INC - Form DEF 14A

when a broker holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the broker does not have discretionary voting power and has not received instructions from the beneficial owner. Directors are elected by a plurality of the votes cast by stockholders entitled to vote at the Meeting. The affirmative vote of the holders of a majority of the Common Stock issued and outstanding is required for approval of the proposed amendment to the Company's Certificate of Incorporation. All other matters being submitted to stockholders require the affirmative vote of the majority of shares present in person or represented by proxy at the Meeting. An automated system administered by the Company's transfer agent tabulates the votes. The vote on each matter submitted to stockholders is tabulated separately. Abstentions are included in the number of shares present or represented and voting on each matter.

The Board of Directors knows of no other matter to be presented at the Meeting. If any other matter should be presented at the Meeting upon which a vote properly may be taken, shares represented by all proxies received by GreenMan will be voted with respect thereto in accordance with the judgment of the persons named as attorneys in the proxies.

GreenMan's Annual Report, containing financial statements for fiscal year ended September 30, 2002, is being mailed contemporaneously with this proxy statement to all stockholders entitled to vote. This proxy statement and the form of proxy were first mailed to stockholders on or about January 24, 2003.

An additional \$50,000 of compensation was deferred in the first year. The agreement automatically renews for an additional three years

Based upon GreenMan's fiscal 2002 performance, Mr. Davis chose to accept a reduced bonus amount of \$23,000.

In June 1999, GreenMan entered into a two-year employment agreement with Mr. Coppa pursuant to which Mr. Coppa currently receives a salary of \$130,000 per annum. The agreement automatically renews for an additional two years upon each anniversary, unless notice of non-renewal is given by either party. Any increases or bonuses will be made at the discretion of the Board of Directors upon the recommendation of the Compensation Committee. The agreement provides for payment of twelve months salary as a severance payment for termination without cause.

### Stock Option Plan

GreenMan's 1993 Stock Option Plan was established to provide options to purchase shares of Common Stock to employees, officers, directors and consultants. In March 2001, GreenMan's stockholders approved an increase to the number of shares authorized under the 1993 Stock Option Plan to 3,000,000 shares.

Options granted under the 1993 Stock Option Plan may be either options intended to qualify as "incentive stock options" under Section 422 of the Internal Revenue Code of 1986, as amended; or non-qualified stock options. Incentive stock options may be granted under the 1993 Stock Option Plan to employees, including officers and directors who are employees. Non-qualified options may be granted to employees, directors and consultants of GreenMan.

The 1993 Stock Option Plan is administered by the Board of Directors, which has the authority to determine:

- o the persons to whom options will be granted;
- o the number of shares to be covered by each option;
- o whether the options granted are intended to be incentive stock options;
- o the manner of exercise; and
- o the time, manner and form of payment upon exercise of an option.

Incentive stock options granted under the 1993 Stock Option Plan may not be granted at a price less than the fair market value of the Common Stock on the date of grant (or less than 110% of fair market value in the case of persons holding 10% or more of the voting stock of GreenMan). Non-qualified stock options may be granted at an exercise price established by the Board which may not be less than 85% of fair market value of the shares on the date of grant.

## Edgar Filing: GREENMAN TECHNOLOGIES INC - Form DEF 14A

Incentive stock options granted under the 1993 Stock Option Plan must expire no more than ten years from the date of grant, and no more than five years from the date of grant in the case of incentive stock options granted to an employee holding 10% or more of the voting stock of GreenMan.

As of September 30, 2002, there were 2,113,000 options granted and outstanding under the 1993 Stock Option Plan of which 1,201,800 options were exercisable at prices ranging from \$0.38 to \$4.70.

### Non-Employee Director Stock Option Plan

GreenMan's 1996 Non-Employee Director Stock Option Plan is intended to promote the interests of GreenMan by providing an inducement to obtain and retain the services of qualified persons who are not officers or employees to serve as members of the Board of Directors. The Board of Directors has reserved 60,000 shares of Common Stock for issuance under the Non-Employee Director Stock Option Plan, of which, options to purchase 20,000 shares of Common Stock have been granted as of September 30, 2002.

Each person who was a member of the Board of Directors on January 24, 1996, and who was not an officer or employee, was automatically granted an option to purchase 2,000 shares of Common Stock. In addition, after an individual's initial election to the Board of Directors, any director who is not an officer or employee and who continues to serve as a director will automatically be granted on the date of the Annual Meeting of Stockholders an additional option to purchase 2,000 shares of Common Stock. The exercise price per share of options granted under the Non-Employee Director Stock Option Plan is 100% of the fair-market value of the Common Stock on the business day immediately prior to the date of the grant and each option is immediately exercisable for a period of ten years from the date of the grant.

### Employee Benefit Plan

In August 1999, GreenMan implemented a Section 401(k) plan for all eligible employees. Employees are permitted to make elective deferrals of up to 15% of employee compensation and employee contributions to the 401(k) plan are fully vested at all times. GreenMan may make discretionary contributions to the 401(k) plan which become vested over a period of five years. There were no corporate contributions to the 401(k) plan during the years ended September 30, 2002 and 2001.

### Related Party Transactions

In November 2000, Dr. Kahn loaned GreenMan \$200,000 under the terms of an unsecured promissory note which bears interest at 12% per annum with interest due monthly and the principal due in November 2001. In June 2001, Dr. Kahn agreed to extend the maturity date of the note until November 2002. In September 2002, Dr. Kahn again agreed to extend the maturity of the note until November 2004.

GreenMan rents several pieces of equipment on a monthly basis from Valley View Farms, Inc., a company co-owned by Mr. Maust. Rent expense associated with payments made to Valley View Farms for the years ended September 30, 2002 and 2001 was \$355,040 and \$328,012, respectively.

In July 2002, a subsidiary of GreenMan entered into a four-year equipment lease with Valley View Farms. Under the terms of the lease, the subsidiary is required to pay \$4,394 per month rental and has the ability to purchase the

## Edgar Filing: GREENMAN TECHNOLOGIES INC - Form DEF 14A

equipment at the end of the lease at approximately 40% of original value. The lease is classified as a capital lease at September 30, 2002 with an equipment value of \$146,670.

All transactions, including loans, between GreenMan and its officers, directors, principal stockholders and their affiliates are approved by a majority of the independent and disinterested outside directors on the Board of Directors, and are on terms no less favorable to GreenMan than could be obtained from unaffiliated third parties.

### SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires GreenMan's directors and officers, and persons who own more than 10% of a registered class of GreenMan's equity securities, to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission (the "SEC"). Such persons are required by SEC regulations to furnish GreenMan with copies of all Section 16(a) forms they file.

Based solely on the management's review of the copies of such forms received by it or written representations from certain reporting persons, management believes that all of the filing requirements applicable to its directors, executive officers and greater-than-10% beneficial owners have been met.

### PROPOSAL NO. 2

#### PROPOSAL TO INCREASE AUTHORIZED SHARES OF COMMON STOCK

The Board of Directors has resolved to recommend to the stockholders that the Company amend the Company's Certificate of Incorporation, as previously amended, to increase the number of authorized shares of Common Stock from 20,000,000 to 30,000,000 shares. The text of the proposed amendment is set forth in Exhibit I to this Proxy Statement.

As of December 31, 2002, 15,698,214 shares of Common Stock were issued and outstanding, and the Company had reserved approximately 5,514,980 additional shares for future issuance. These reserved shares relate to the following: 3,040,080 shares for issuance upon exercise of awards granted under the Company's 1993 Stock Option Plan and 1996 Non-Employee Director Stock Option Plan and 2,474,900 shares for issuance upon exercise of other stock options and stock purchase warrants. In addition, the Company is engaged in a private placement of Common Stock in an effort to raise up to \$3,000,000. As of December 31, 2002 the Company had sold shares of Common Stock for gross proceeds of approximately \$2,003,000. Based on the closing bid price of the Common Stock on the American Stock Exchange on December 31, 2002 of \$2.10 per share, the Company is authorized to issue up to 577,000 additional shares of Common Stock in this private placement.

The number of shares reserved by the Company for future issuance slightly exceeds the number of shares authorized for issuance. Although the Board believes that it is likely that the Company will have a sufficient number of authorized but unissued shares to satisfy all exercises of vested options and warrants granted to date, the Board believes that it will be severely constrained from making future grants under the 1993 Stock Option Plan and/or the 1996 Non-Employee Director Stock Option Plan, and that it will not have sufficient shares to complete its private placement, unless the Certificate of Incorporation is amended to authorize additional shares of Common Stock.

## Edgar Filing: GREENMAN TECHNOLOGIES INC - Form DEF 14A

If this proposal is approved, the Board of Directors will have the authority to issue approximately 8,500,000 additional shares of Common Stock (as of December 31, 2002, and not including shares already reserved for issuance, as described above), without further stockholder approval. The Board of Directors believes that the increase in the number of authorized shares of Common Stock is in the best interests of the Company and its stockholders. The Board of Directors believes that the authorized Common Stock should be increased to provide sufficient shares for such corporate purposes as may be determined by the Board of Directors. These purposes may include, among others, the issuance of Common Stock to facilitate potential mergers or acquisitions, raising capital or acquiring technology rights through the sale of stock, and/or attracting or retaining valuable employees by the issuance of stock options. Except as described above, the Company at present has no plans, understandings, commitments, agreements or undertakings concerning the issuance of any such additional shares. The Board of Directors, however, considers the authorization of additional shares of Common Stock advisable to ensure prompt availability of shares for issuance should the occasion arise.

Under the Delaware General Corporation Law, the Board of Directors generally may issue authorized but unissued shares of Common Stock without further stockholder approval. The Board of Directors does not currently intend to seek stockholder approval prior to any future issuance of additional shares of Common Stock, unless stockholder action is required in a specific case by applicable law, the rules of any exchange or market on which the Company's securities may then be listed or traded, or the Certificate of Incorporation or By-Laws of the Company then in effect. Frequently, opportunities arise that require prompt action, and the Company believes that delay necessitated for stockholder approval of a specific issuance could be detrimental to the Company and its stockholders.

The additional shares of Common Stock authorized for issuance pursuant to this proposal will have the rights and privileges which the presently outstanding shares of Common Stock possess under the Company's Certificate of Incorporation. Shares of the Company's Common Stock, including the additional shares proposed for authorization, do not have preemptive or similar rights. The increase in authorized shares would not affect the terms or rights of holders of existing shares of Common Stock. The voting, dividend and liquidation rights of the holders of Common Stock, however, may be subordinate to the rights of the holders of the any preferred stock which may be issued from time to time. All outstanding shares of Common Stock would continue to have one vote per share on all matters to be voted on by the stockholders, including the election of directors.

10

The issuance of any additional shares of Common Stock by the Company may, depending on the circumstances under which those shares are issued, reduce stockholders' equity per share and, unless additional shares are issued to all stockholders on a pro rata basis, will reduce the percentage ownership of Common Stock of existing stockholders. The Company expects, however, to receive consideration for any additional shares of Common Stock issued, thereby reducing or eliminating any adverse economic effect to each stockholder of such dilution.

The authorized but unissued shares of Common Stock could be used to make more difficult a change in control of the Company. For example, such shares could be sold to purchasers who might side with the Board of Directors in opposing a takeover bid that the Board determines not to be in the best interests of the Company and its stockholders. Such a sale could have the effect of discouraging an attempt by another person or entity, through the acquisition of a substantial number of shares of the Company's Common Stock, to acquire

## Edgar Filing: GREENMAN TECHNOLOGIES INC - Form DEF 14A

control of the Company since the issuance of new shares could be used to dilute the stock ownership of the acquirer. The Certificate of Incorporation and By-Laws of the Company contain certain provisions, including the grant of authority to the Board of Directors to issue up to 1,000,000 shares of preferred stock in one or more series (with such rights and preferences as the Board may determine), without the approval of stockholders, and certain provisions relating to the calling of stockholder meetings and the conduct of such meetings, that may be considered to have an anti-takeover effect. The Company is not aware of any pending or threatened efforts to obtain control of the Company, and the Board of Directors has no current intention to use the additional shares of Common Stock to impede a takeover attempt or to propose any additional anti-takeover measures in future proxy solicitations.

Approval of the amendment to increase the number of authorized shares of Common Stock will require the affirmative vote of the holders of a majority of the Common Stock issued and outstanding as of the record date. Abstentions will have the same effect as a vote against the proposal; broker non-votes will have no outcome on the vote.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 20,000,000 TO 30,000,000 SHARES.

### PROPOSAL NO. 3 RATIFICATION OF SELECTION OF AUDITORS

These requirements are separate and apart from and in addition to the requirements that a stockholder must meet in order to have a stockholder proposal included in GreenMan's Proxy Statement under Rule 14a-8 of the Exchange Act.
