Gold Frost - a designer, developer and distributor of branded kosher dairy food products, and its subsidiary - the dairy distributor based in Denmark, the Company's global kosher trade and export joint venture with the Baron family and Shamir Salads - an Israeli distributor and manufacturer of Mediterranean style salads.

Revenues for the first quarter of 2009 decreased 10.2% to NIS 95.6 million (US\$22.8 million) compared to revenues of NIS 106.4 million (US\$25.4 million) in the first quarter of 2008. This decrease was mainly due to the cessation of the operations of of Laish Israeli - the Company's U.S. subsidiary during July 2008, as reported by the Company on July 14, 2008.

Gross profit for the first quarter of 2009 decreased by 28.2% to NIS 21.8 million (US\$5.2 million) compared to gross profit of NIS 30.4 million (US\$7.2 million) in the first quarter of 2008. First quarter gross margin was 22.8% compared to gross margin of 28.5% for the same period in 2008. As previously announced by the Company on December 29, 2008, and on March 12, 2009, during the fourth quarter of 2008, the global purchase prices of food products sharply decreased, resulting in the sharp decrease in the selling prices of the Company's products as well. Because the Company's commitments to purchase food products were based on higher prices from its vendors, the immediate consequence was a decline in the gross margin in the fourth quarter of 2008 and further decline in the first quarter of 2009. The company anticipates that its 2009 second quarter results will not be affected by the abovementioned decrease in global purchase prices of food products, as the Company has completed the sale of the inventory in the orders from vendors backlog acquired at the higher prices. The decrease in 2009 first quarter gross margin compared to the gross margin in the first quarter of 2008 was due to the decrease of global purchase prices of food products compounded with the strengthening of the U.S. dollar versus the NIS (a depreciation of more than 11% of the value of the NIS in the fourth quarter of 2008 and a further 10% depreciation in the first quarter of 2009) and the general effects of the global economic recession.

Willi-Food's operating income for the first quarter of 2009 decreased by 42.6% to NIS 8.5 million (US \$2.0 million) compared to NIS 14.8 million (US \$3.5 million) reported in the comparable quarter of last year. Selling expenses as a percentage of revenues decreased in the first quarter of 2009 to 8.3% compared to 8.8% in the first quarter of 2008. General and administrative expenses as a percentage of revenue decreased in the first quarter of 2009 to 5.7% from 5.8% in the first quarter of 2008. The decrease in selling and general and administrative expenses is attributed to the actions taken by the Company's management during the first quarter of 2009 to reduce the Company's expenses by, among other things, a temporary 5% decrease in management's salaries.

Willi-Food's income before taxes for the first quarter of 2009 decreased by 35.5% to NIS 8.5 million (US \$2.0 million) compared to NIS 13.1 million (US \$3.1 million) recorded in the first quarter of 2008. Willi Food's net income in the first quarter of 2009 decreased by 30.0% to NIS 6.8 million (US \$1.6 million) compared to NIS 9.7 million (US \$2.3 million) recorded in the first quarter of 2008. Willi Food's net income related to Company Shareholders in the first quarter of 2009 decreased by 28.1% to NIS 6.2 million (US \$1.5 million), or NIS 0.60 (US \$0.14) per share compared to NIS 8.6 million (US \$2.1 million), or NIS 0.84 (US \$0.20) per share, recorded in the first quarter of 2008.

Willi-Food ended the quarter with \$19.3 million in cash and securities and \$4.8 million in short-term debt.

Mr. Zwi Williger, President and COO of Willi-Food commented, "We are very

## Edgar Filing: G WILLI FOOD INTERNATIONAL LTD - Form 6-K

pleased with our first quarter 2009 results in the current challenging environment. Willi-Food's first quarter results were affected by the sharp decrease in global purchase prices, the depreciation of the NIS versus the U.S. dollar, the continued environment of uncertainty in the global financial markets, and the recession that began in our home market. Despite the economic situation and the recession that has affected our customers and the global markets, Willi Food has achieved net income of NIS 6.8 million in the first quarter of 2009 - margin of 7.1% of revenues. Willi Food has taken the appropriate measures to position the Company for a stronger fiscal 2009 and we remain focused on maximizing long-term profitability."

Mr. Williger concluded, "We continue to work to expand the footprint and brand recognition of Willi-Food globally while diversifying our product base in order to hedge against any single event impacting our results. We are looking for improved Willi-Food's results in 2009 as compared to our 2008 results."

### SHAMIR SALADS

The Company announced that, on May 14, 2009 it had received a notice from the minority shareholders of Shamir Salads (the "SELLERS"), with whom the Company had entered into a January 2, 2008 agreement to purchase approximately 51% of the shares of Shamir Salads (the "SHAMIR AGREEMENT"), cancelling the Shamir Agreement due to an alleged violation of the Agreement by the Company. In addition, on May 18, 2009, the Sellers notified the Company that the board of directors and the shareholders of Shamir Salads had convened without the Company's board and shareholder representatives and resolved to cancel the Shamir Agreement, change Shamir Salads' board composition and signatory rights, and replace the articles of association of Shamir Salads depriving the Company of its board representation and signatory rights in Shamir Salads.

The Company's position is that the Seller's actions referred to above are illegal, violate the Shamir Agreement and Shamir Salads' articles of association and were not properly authorized by Shamir Salads. The Company believes that the actions taken by the Sellers are in response to the claim by the Company that the Sellers return a portion of the advance payment made by the Company to the selling shareholders in connection the acquisition of shares in Shamir. The Company has claimed that the Sellers made false representations to the Company as to the 2008 financial results of Shamir, inflating the amount of the advance payment made by the Company, and the Sellers have not responded to this claim.

The Company has submitted an urgent application to the district court in Tel Aviv requesting, among other things, a declaratory judgement that the Shamir Agreement is in full force and effect and various injunctions against the Sellers. The court held a hearing on the case on May 25, 2009, and the Company is awaiting the court's decision.
