- Sales increased 23.0% from first quarter of 2012 to NIS 90.6 million (US\$ 24.8 million)
- Gross profit increased 36.4% from first quarter of 2012 to NIS 21.4 million (US\$ 5.9 million), or 23.6% of sales
- Operating income increased 94.2% from first quarter of 2012 to NIS 9.2 million (US\$ 2.5 million), or 10.1% of sales
  - Net income increased 70.8% from first quarter of 2012 to NIS 8.3 million (US\$ 2.3 million), or 9.1% of sales
- Earning per share of NIS 0.64 (US\$ 0.18) compared to earning per share of NIS 0.37 (US\$ 0.10) in the first quarter of 2012
- Cash and securities balance (net of short-term bank debt) of NIS 196.5 million (US\$ 53.9 million) as of March 31, 2013

Willi-Food’s operating divisions include Willi-Food, a distributor of a broad variety of kosher foods, and its wholly-owned Gold Frost, a designer, developer and distributor of branded kosher innovative dairy food products.

### First Quarter Fiscal 2013 Summary

Sales for the first quarter of 2013 increased by 23.0% to NIS 90.6 million (US\$ 24.8 million) from NIS 73.7 million (US\$ 20.2 million) recorded in the first quarter of 2012. Sales increased in the first quarter of 2013 primarily due to the introduction of new products in recent quarters and increased sales and promotion activities initiated during the first quarter of 2013.

Gross profit for the first quarter of 2013 increased by 36.4% to NIS 21.4 million (US\$ 5.9 million) compared to NIS 15.7 million (US\$ 4.3 million) recorded in the first quarter of 2012. First quarter gross margin was 23.6% compared to gross margin of 21.3% for the same period in 2012. The increase in gross margin in the first quarter of 2013 was primarily due to the introduction of new higher-margin products in recent quarters, increased sales of existing higher-margin products and the strengthening of the NIS versus the U.S. dollar and Euro. In addition, gross margins in the first quarter of 2012 were affected by a national protest against the cost of food products that resulted in price reductions of certain products. There was no comparable price pressure in the first quarter of 2013.

Willi-Food’s operating income for the first quarter of 2013 increased by 94.2% to NIS 9.2 million (US\$ 2.5 million) compared to NIS 4.7 million (US\$ 1.3 million) recorded in the first quarter of 2012. Selling expenses increased by 9.4% from the comparable quarter of 2012, primarily due to an increase in promotion expenses as well as vehicles and transport expenses, which increased due to the incremental increase in sales. Selling expenses as a percentage of sales decreased in the first quarter of 2013 to 8.3% compared to 9.4% in the first quarter of 2012. General and administrative expenses increased by 13.4% from the first quarter of 2012, primarily due to an increase in management profit-related bonuses. General and administrative expenses as a percentage of sales decreased in the first

quarter of 2013 to 5.2% from 5.6% in the first quarter of 2012.

---

Willi-Food's income before taxes for the first quarter of 2013 increased by 66.7% to NIS 10.9 million (US\$ 3.0 million) compared to NIS 6.6 million (US\$ 1.8 million) recorded in the first quarter of 2012.

Willi-Food's net income in the first quarter of 2013 increased by 70.8% to NIS 8.3 million (US\$ 2.3 million), or NIS 0.64 (US\$ 0.18) per share, from NIS 4.8 million (US\$ 1.3 million), or NIS 0.37 (US\$ 0.10) per share, recorded in the first quarter of 2012.

Willi-Food ended the first quarter of 2013 with NIS 196.5 million (US\$ 53.9 million) in cash and securities net from short-term debt. Willi-Food's shareholders' equity at the end of March 2013 was NIS 342.1 million (US\$ 93.8 million).

#### Business Outlook

Mr. Zwi Williger, Chairman of Willi-Food commented, "We are very pleased to report another robust quarter with strong organic sales growth of 23 percent and operating income up 94 percent. We achieved these results by continuing to expand sales volume of our higher-margin products to new and existing customers. With sales increases in all of our business segments, we were able to achieve one of the highest quarterly sales and operating profit in the Company's history. As we see consumer demand for kosher foods continuing to increase, we believe that our strategy to introduce higher-margin products targeted to health-conscious and kosher consumers is paying off, and we look forward to additional growth and high margins for the remainder of 2013."

Mr. Williger continued, "The expansion of our kosher product line in recent quarters has included different kinds of cheeses (such as monchego, mozzarella, emmental, and iberico), a new line of ice-cream, frozen pizza, frozen pastries, freeze dried instant coffee and a new line of Del-Monte products. These and other new great-tasting, higher margin food products, developed together with our suppliers, have enabled us to deliver increased sales and improved margins. Moreover, we are able to differentiate our company through our success by becoming a high margin business in a low margin industry. We expect to launch additional new products in the remainder of 2013."

Mr. Williger added, "In addition, we have expanded our sales of existing products, many of which were introduced over the last few years, thanks in part to our continued promotion and hard sale activities, which we believe create broad consumer awareness of our new and existing products and expand our customer base. While increasing sales of both new and existing products, we have also controlled our SG&A expense growth, contributing to our profitability."

"We believe that our strategy has proven successful," concluded Mr. Williger. "Willi-Food is meeting the growing demand for innovative kosher products by both kosher and health-conscious consumers. We do not intend to rest on our success, however. Rather, we intend to reinvest in innovation in order to maximize our profitability and create additional long-term value for our shareholders."
