Enclosure: Partner Communications will enter the Television Services Market in the first half of 2017

PARTNER COMMUNICATIONS WILL ENTER THE TELEVISION SERVICES MARKET IN THE FIRST HALF OF 2017

ROSH HA'AYIN, Israel, September 12, 2016 - Partner Communications Company Ltd. ("Partner" or "the Company") (NASDAQ and TASE: PTNR), a leading Israeli communications operator, announced today that further to the Company's previous reports, the Company plans to enter the television services market in the first half of 2017, and is finalizing arrangements for that objective.

The provision of the television services is in line with the Company's strategy to be a comprehensive telecommunications company that provides its customers with a wide range of telecommunication services.

The Company anticipates that the Anti-Trust Authority, the Ministry of Communications and the Ministry of Finance will increase their efforts to remove the existing barriers in the broadcasting market in order to encourage competition that will benefit the Israeli consumer.

Forward-Looking Statements

This press release includes forward-looking statements, as this term is defined in Section 27A of the US Securities Act of 1933, as amended, Section 21E of the US Securities Exchange Act of 1934, as amended, and the safe-harbor provisions of the US Private Securities Litigation Reform Act of 1995. Words such as "will", "believe", "anticipate", "expect", "intend", "strive", "seek", "plan", "could", "may", "foresee", "target", "objective", "goal", declensions thereof and similar expressions typically convey forward-looking statements, but these words are not the only words that convey these statements. We have based these forward-looking statements on our current knowledge and our present beliefs and projections regarding possible future events. These forward-looking statements include: (i) the Company's intention to enter the television services market in the first half of 2017; and (ii) the Company's anticipation that the regulators will increase their efforts to remove existing barriers in the broadcasting market and insofar as the Company's expectations will not be realized, this may have an adverse effect on the Company's business and the business results of its activities as well as on the competition in the television broadcast market. These statements are subject to risks, uncertainties and assumptions, including: (i) the Company's ability to finalize arrangements within the expected timeframe; and (ii) whether the regulators will implement effectively anti-trust measures regulating the television broadcast market, including with respect to the 'must sell' requirement for sports content and linear broadcast channels over the internet and insofar as these events will not occur, this might have an adverse effect on the Company's entrance into the television broadcast market and its ability to open the market for competition and reduce prices for consumers.

About Partner Communications
