PART III — NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

AeroGrow International, Inc. (the "Company") was not able to timely file its Annual Report on Form 10-K (the "Form 10-K") for the fiscal year ended March 31, 2011, by June 29, 2011, the prescribed due date, because of recent developments related to the matter discussed below that the Company is in the process of addressing and which have diverted necessary resources from the completion of the Form 10-K.

On April 12, 2011, the Company entered into a Transaction Agreement with Cyrano Partners, LLC (“Cyrano”) and AG Worldwide, LLC (“AG Worldwide”), a wholly owned subsidiary of Cyrano. The Transaction Agreement sets forth the agreement of the parties to execute the definitive agreements necessary to consummate a transaction whereby AG Worldwide will become a joint venture between AeroGrow, Cyrano and other parties (the “AG Worldwide Transaction”), subject to the satisfaction of certain conditions precedent relating to the consent of the Company’s creditors and shareholders, and the acquisition of the funding necessary to consummate the AG Worldwide Transaction (the “Conditions Precedent”). The efforts to satisfy the Conditions Precedent have diverted necessary resources from the completion of the Company’s Form 10-K.

The Company expects that its Form 10-K will be filed within fifteen calendar days following the prescribed due date.

If answer is no, identify report(s).x Yeso No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof? x Yes o No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

For the fiscal year ended March 31, 2011 (“Fiscal 2011”), we expect to report net sales of \$11,313,212, a decrease of 34.4% from the fiscal year ended March 31, 2010 (“Fiscal 2010”).

We expect to report sales to retailer customers of \$2,157,211 in Fiscal 2011, a decline of 68.8% from Fiscal 2010, which also represents 80.3% of the overall sales decrease we experienced during Fiscal 2011. The reduction in sales to retailers reflected a combination of factors, but was principally caused by our decision to de-emphasize sales to retailers because of the higher risk and lower margins associated with these sales. As a result of our strategic decision to reduce our exposure to the retail channel, we reduced the number of retail store doors carrying our products, to an estimated 575 at March 31, 2011, from approximately 1,290 a year earlier, and 4,600 store doors as of December 31, 2009.

We also expect to report a 9.5% decline in direct-to-consumer sales to \$8,976,534, primarily due to a 32.9% decrease in our spending on revenue-generating advertising driven by our cash constraints, and our decision to implement a more targeted marketing program during the year. However, we did deliver a 34.8% year-over-year increase in the efficiency of our marketing efforts during Fiscal 2011, as measured by dollars of direct-to-consumer sales per dollar of advertising expense, which offset a large part of the impact on sales of the decline in advertising spending. We also expect to report a 55.8% decline in sales to international distributors in Fiscal 2011 to \$179,467, as we did not promote international sales, and our distributors’ inventory levels in existing markets were sufficient to meet most of our international consumer demand, thereby limiting re-orders.

We expect to report a gross margin for Fiscal 2011 of 37.3%, up from 31.3% in the prior year. The increase in percentage margin reflected a variety of factors during Fiscal 2011, including efficiencies achieved in our manufacturing and distribution operations, an increased mix of higher-margin direct-to-consumer and seed kit and accessory sales, and a comparison to the prior year in which a \$500,000 inventory obsolescence charge was recognized.

We expect to report operating expenses other than cost of revenue for Fiscal 2011 of \$7,063,914, 39.3% or \$4,578,216 lower than Fiscal 2010. This decrease reflected cost saving initiatives, staffing reductions, and reduced spending on advertising and promotion. We expect to report a \$2,344,452, or 38.4%, reduction in sales and marketing costs in Fiscal 2011, including a \$756,492, or 32.9%, reduction in advertising spending due in large part to the cash constraints we experienced throughout Fiscal 2011, as well as by planned reductions we implemented. We expect to report general and administrative expense of \$3,116,446 during Fiscal 2011, representing a \$1,996,201, or 39.0% reduction relative to Fiscal 2010. The lower general and administrative expense primarily reflected the impact of lower headcount, as well as spending reductions in all areas, including legal expenses, administration, and facility and office-related expenses. We expect to report research and development costs of \$187,178 during Fiscal 2011, a year-over-year decline of \$237,563, or 55.9%. The reduction in research and development expense primarily reflected the impact of lower headcount relative to the prior fiscal year.

We expect to report a loss from operations of \$2,842,046 for Fiscal 2011, as compared to a loss of \$6,237,182 in the prior year. The lower loss reflected the impact of margin improvements, cost savings initiatives and lower media spending which offset the impact of lower sales during Fiscal 2011.

We expect to report other expense for Fiscal 2011 of \$4,242,351 in Fiscal 2011, as compared to \$94,023 in Fiscal 2010. The net other expense in Fiscal 2011 included \$3,267,566 in non-cash expense related to: (i) the amortization of deferred financing costs, and (ii) the amortization of a calculated debt discount (including amounts accelerated because of the conversion of convertible debt into common stock during the period). Each of these charges related to convertible notes issued during Fiscal 2011. These notes were considered to have been issued at a discount because they had a conversion price lower than the market price of our stock at the time of issuance, and because the notes were issued with warrants to purchase our common stock. The resulting discount will be amortized to expense over the three-year life of the notes, as will the related financing costs. In addition, current year other expense included \$105,591 related to a revised vendor payment agreement. In a prior year period the vendor had discounted the amount owed in order to accelerate payment terms; however, we fell behind in the agreed accelerated payments and the vendor exercised its option to collect the original amount in full. In Fiscal 2010, other expense included the impact of approximately \$807,000 in gains recorded as a result of negotiated reductions in accounts payable amounts owed to certain vendors.

We expect to report a net loss for Fiscal 2011 of \$7,084,397, an increase of \$753,192 from the net loss of \$6,331,205 in Fiscal 2010, because: (i) the \$3,395,136 reduction in our operating loss was offset by approximately \$3.3 million in non-cash interest expense related to the convertible notes issued in Fiscal 2011; and (ii) the comparison to approximately \$807,000 in gains related to negotiated discounts on accounts payable obligations that we recognized in Fiscal 2010.
