Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

announcing 1st Quarter Results released on 8 November 2002

Exhibit 1

8 November 2002

BRITISH SKY BROADCASTING GROUP PLC
Results for the three months ended 30 September 2002
Sky reports 69% increase in operating profit

- Highest first quarter DTH subscriber growth for 9 years of 217,000
- Total DTH subscribers of 6,318,000
- Churn falls to 9.6%
- ARPU up 10% to GBP348
- SAC down 11% to GBP212
- DTH revenue increases by 23% to GBP538 million
- Advertising revenue increases by 12% to GBP60 million
- Operating profit before goodwill increases by a record 69% to GBP75 million
- Profit before tax and goodwill of GBP43 million

Tony Ball, Chief Executive of British Sky Broadcasting Group plc, said:

"This has been a record breaking quarter for Sky. The highest first quarter subscriber growth for 9 years, the lowest churn since the launch of Sky digital and falling subscriber acquisition costs, have delivered a 69% increase in operating profit. These results provide the foundation for continued strong profit growth this year."

A conference call for UK and European analysts will be held at 8.30 a.m. (GMT) today. To register for this, please contact Diane Barnes at Portland PR on +44 20 7404 5351. A live webcast of this call will be available on Sky's corporate website (www.sky.com/corporate) and available to replay.

There will be a separate conference call for US analysts at 9.30 a.m. (EST) today. Details of this call have been sent to US institutions and can be obtained from Nikki Sheridan at Taylor Rafferty on +1 212 889 4350.

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

OPERATING REVIEW

At 30 September 2002 the total number of direct-to-home (DTH) digital satellite subscribers in the UK and Ireland was 6,318,000. The net increase of 217,000 subscribers in the three months to 30 September 2002 (the quarter), represents record first quarter growth since the launch of Sky digital in October 1998 and puts Sky comfortably on track to achieve its target of 7 million DTH subscribers by the end of the calendar year 2003.

Digital churn for the quarter (annualised) fell from 10.5% in the three months to June 2002, to 9.6%. This is the lowest level of total churn recorded since the launch of Sky digital, reflecting the early benefits being realised of Sky's significant recent investment in its customer relationship management centres.

The quarterly annualised average revenue per DTH subscriber (ARPU) in the quarter was GBP348, an increase of 10% over the three months ended 30 September 2001 (the comparable period) and in line with ARPU reported for the quarter to 30 June 2002. ARPU remains firmly on track to reach Sky's target of GBP400 in 2005. All subscribers are now subject to the price rise introduced in January 2002 and the recently announced price rises for the UK, which take effect from January 2003, will be reflected in ARPU from the third quarter of this financial year.

At 30 September 2002, there were 75,000 subscribers to the Extra Digibox and 38,000 subscribers to Sky+, representing an increase of 41% and 37% respectively in the quarter. The continued growth of these new products will be supported by the recent launch of a promotion to encourage take-up of a dual Sky+ and Extra Digibox subscription and the launch of a low cost Extra Digibox option.

Sky's channels continue to increase their viewing share across UK television homes and consistently deliver the best programmes to their viewers. Dinotopia, a new series this September on Sky One, generated over one million viewers for each episode. Sky Sports is as popular as ever. During the quarter, it achieved record audiences for both the Super League and The Ryder Cup and the Nationwide League season has experienced a strong start. In multi-channel homes, Gillette Soccer Saturday is now the football results magazine programme of choice, consistently out-rating the BBC's Grandstand and ITV's Goal Rush. Coming up this month is exclusive live coverage of the England Rugby Union internationals against New Zealand, Australia and South Africa, with eight-screen interactivity offered for the first time in this sport and the current Ashes cricket tour with every Test and One-day International exclusively live on Sky Sports.

On 24 September 2002, Sky's bid was accepted for the rights to certain UEFA Champions League football matches from the 2003/4 season to the end of the 2005/6 season, subject to agreeing long form documentation. Sky will have exclusive live coverage of six matches on Tuesdays, eight matches and a full highlights programme on Wednesdays and rights to simulcast the Final live. In total, 102 Champions League matches will be shown exclusively live on Sky each season, allowing viewers to choose between games using the unique interactive features of Sky Sports Active.

Freeview, the new free-to-air digital terrestrial television (DTT) offering, was launched on 30 October 2002. Sky is supplying three channels on DTT - Sky News, Sky Sports News and Sky Travel - increasing the awareness of the Sky brand and delivering on the Company's vision to distribute Sky content to every UK home.

FINANCIAL REVIEW

The operating gearing inherent in Sky's business model is now delivering accelerating profit growth. Operating profit before goodwill for the quarter increased to GBP75 million, an increase of 69% on the comparable period. The

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

Group made a profit before tax of GBP14 million, compared to a loss of GBP89 million in the comparable period.

Total revenues increased by 13% to GBP726 million, driven principally by strong performances in both DTH and advertising revenues.

DTH revenues increased by 23% to GBP538 million as a result of the 13% increase in the average number of DTH subscribers, and a 10% increase in core ARPU to GBP334.

The Group's advertising revenue increased by 12% on the comparable period to GBP60 million, reflecting growth in the total UK advertising market, growth in Sky's viewing share and the agency commissions earned on the sale of airtime on the third party channels which have appointed Sky Sales to represent their airtime sales during the last year.

As anticipated at the time of ITV Digital's closure, wholesale revenues declined by 36% on the comparable period to GBP49 million. Excluding the one-off effect of the closure of ITV Digital, the decline in cable revenues was 20%. This reduction is the direct consequence of the well-publicised loss of subscribers by both NTL and Telewest over the last six months and the continued deterioration in the take up of premium channels amongst the remaining cable subscribers. At the same time, the number of cable subscribers taking Sky's basic channels, Sky News and Sky One, has increased, and these channels are now distributed to over 90% of cable homes.

Interactive revenues were GBP44 million for the quarter, a decline of GBP3 million on the comparable period. Growth in Sky Active revenues was offset by a reduction in gross betting revenues to GBP22 million, principally as a result of the scaling back of the low-margin telephone-based betting service at SkyBet, Sky's wholly owned bookmaker. By contrast, the proportion of higher-margin interactive television betting revenues continued to grow strongly in the quarter, with the total volume of bets placed via the remote control some 54% higher than in the comparable period. Sky Active revenues increased to GBP22 million, largely driven by the increased usage of the Sky Gamestar portal, which achieved an average weekly reach of 1.3 million individuals in the quarter. Interactive ARPU, which includes only the net margin on betting rather than the gross revenue, was GBP14, an increase of 8% on the comparable period.

Programming costs for the period increased by GBP52 million to GBP354 million, principally as a result of volume-related increases in third party channel costs, the increased proportion of "hit" movies shown and contractual increases in sports rights costs, including the return of the Nationwide Football League to Sky this season.

Other operating costs before goodwill for the quarter were broadly consistent with the comparable period at GBP297 million. Included within these costs are marketing costs of GBP102 million, broadly consistent with the comparable period despite a record quarter for net subscriber additions. Subscriber acquisition cost (SAC) has fallen by GBP25 from GBP237 for the comparable period to GBP212 for the quarter, principally as a result of the start of new set top box supply arrangements. Sky expects to achieve its target of GBP210 for the financial year 2002/03 during the second quarter.

EBITDA for the quarter increased by 51% from GBP65 million to GBP97 million.

The Group's share of the operating losses of joint ventures fell to GBP1 million in the quarter, a reduction of GBP30 million over the comparable period, reflecting the cessation of equity accounting for the Group's share of losses incurred by KirchPayTV from 8 February 2002.

After goodwill and its share of the results of joint ventures, the Group made a

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

profit before taxation of GBP14 million.

The tax charge for the quarter of GBP14 million is based upon the standard rate (30%) of UK mainstream corporation tax (MCT), notwithstanding the presence of significant unrecognised tax losses. Whilst the Group ultimately expects that it will be able to utilise these tax losses in full in due course, differences between the group entities in which profits arise and in which past losses have accrued may lead to a liability to MCT arising in the current year before these losses have been fully utilised. This liability to MCT has therefore currently been provided for in full.

At 30 September 2002, the Group had GBP18 million of Advanced Corporation Tax (ACT) recoverable, which is expected to be used in the current year to reduce any MCT payable, and GBP67 million of ACT recoverable in the 2003/04 financial year.

The Group's operating cash inflow was GBP97 million in the quarter, compared to an operating cash outflow of GBP47 million in the comparable period. This represented the conversion of 129% of operating profit before goodwill to operating cash inflow. Despite substantial working capital outflows in the quarter relating to payments for sporting rights, including payments totalling over GBP200 million to the FA Premier League and the FA, Sky reduced its net debt in the first quarter by GBP24 million to GBP1,504 million, from GBP1,528 million at 30 June 2002. The ratio of net debt to annualised EBITDA now stands at 3.9, the lowest level since 1999. Sky continues to expect net debt to fall at each balance sheet date.

CORPORATE

On 30 September 2002, Telewest announced that it had reached a non-binding preliminary agreement relating to a restructuring with a committee representing a significant proportion of its bonds. Telewest also announced that it will defer payments of interest on certain of its obligations, resulting in defaults under bank facilities and other financing arrangements, and this has led a creditor to file a petition for its winding up. Telewest has stated that it will deal with this claim as part of the overall restructuring and that it will continue to meet its obligations to suppliers.

As set out more fully in the circular sent to shareholders on 8 October 2002, resolutions are being proposed at today's Annual General Meeting for, inter alia, the appointment of Jacques Nasser and Gail Rebeck as independent non-executive Directors of the Company. Jacques Nasser served as a Member of the Board of Directors, and as President and Chief Executive Officer of Ford Motor Company, from 1998-2001. Gail Rebeck is Chairman and Chief Executive of The Random House Group Ltd, the UK's largest trade publishing company.

On 7 November 2002 the Company filed its Annual Report on Form 20-F for the financial year ended 30 June 2002 with the US Securities and Exchange Commission. A copy of the Form 20-F has been submitted to the UK Listing Authority and will be available at the UK Listing Authority's Document Viewing Facility (which is situated at 25 The North Colonnade, Canary Wharf, London E14 5HS).

Appendix 1

Subscribers to Sky Channels

Prior Year	Prior Quarter
Q1 2001/02	Q4 2001/02

Edgar Filing: BRITISH SKY BROADCASTING GROUP PLC - Form 6-K

	as at 30/09/01	as at 30/06/02
