Item 8.01. OTHER EVENTS.

The following information is being furnished pursuant to Item 8.01 Other Events of Form 8-K.

MBIA Inc. has learned that a series of class action lawsuits has been filed in the United States District Court for the Southern District of New York against MBIA Inc. and certain of its officers. MBIA Inc. expects that additional lawsuits may be filed. No time currently is set for MBIA Inc. to respond to the complaints.

Although the individual lawsuits vary, the allegations include, among other things, violations of the federal securities laws arising out of the defendants' failure to disclose or indicate the following: (1) that MBIA, during the Class Period, overleveraged itself, deeply under-reserved against possible credit defaults, and overly exposed to guaranteeing risky structured financings; (2) that MBIA accelerated its recognition of current income by classifying many of its upfront guarantee fees as advisory fees taken at closing, rather than accounted for over the life of the bonds insured; (3) that MBIA improperly booked a \$70 million payment received from Converium Re (then called Zurich Reinsurance North America) in 1998, which at the time was depicted as a loss-reducing reinsurance recovery for MBIA, but was, in substance, a loan; (4) that as result, MBIA financial statements were materially overstated by \$60 million; (5) that MBIA artificially inflated premium income and portfolio credit quality by insuring bonds in the secondary market that were attracting prices lower than their stale credit ratings would dictate; (6) that MBIA's low loss ratios resulted from the Company's practice to defer recognizing problems rather than providing layers of excess collateral, other underwriting protection, and its self-proclaimed prowess at restructurings; (7) that MBIA set forth an illegal scheme of covering the loss, from the failed Allegheny Health, Education and Research Foundation (Aherf) bond issuance, with a retroactive reinsurance policy, giving it a reinsurance recovery of \$170 million to cover the present value of the future Aherf interest and principal payments, which resulted in MBIA showing a better than 40% jump in pretax income that year \$565 million over what the income figure would have been without resort to the reinsurance; (8) that MBIA was dumping on Channel Reinsurance Ltd., a Bermuda reinsurer where MBIA owns a 17.4% interest, performing but troubled policies from its existing portfolio, with the proviso that it could make up any quality problems later so that MBIA could buy time by getting potential workout loans off its balance sheet in order to make its financial results appear better; and (9) that the Company lacked adequate internal controls and was therefore unable to ascertain the true financial condition of the Company.
