Table of Contents**NEOGEN CORPORATION AND SUBSIDIARIES****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****1. BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (generally accepted accounting principles) for interim financial information and with the instructions to Form 10-Q and Article 10 Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the three month and six month periods ended November 30, 2006 are not necessarily indicative of the results to be expected for the fiscal year ending May 31, 2007. For more complete financial information, these consolidated financial statements should be read in conjunction with the May 31, 2006 audited consolidated financial statements and the notes thereto included in the Company's annual report on Form 10-K for the year ended May 31, 2006.

2. INVENTORIES

Inventories are stated at the lower of cost, determined on the first-in, first-out method, or market. The components of inventories follow:

	November 30, 2006	May 31, 2006
	<i>(In thousands)</i>	
Raw materials	\$ 7,587	\$ 8,033
Work-in-process	745	411
Finished goods	9,993	9,182
	\$ 18,325	\$ 17,626

3. NET INCOME PER SHARE

The calculation of net income per share follows:

Net income per share:				
Basic	\$.26	\$.23	\$.53	\$.48
Diluted	\$.26	\$.23	\$.52	\$.47

Table of Contents**4. STOCK REPURCHASE**

The Company's Board of Directors has authorized the purchase of up to 1,250,000 shares of the Company's Common Stock. As of November 30, 2006, the Company has cumulatively purchased 893,000 shares in negotiated and open market transactions. No shares were purchased in the first six months of fiscal year 2007. Shares purchased under this buy-back program were retired.

5. SEGMENT INFORMATION

The Company has two reportable segments: Food Safety and Animal Safety. The Food Safety segment produces and markets diagnostic test kits and related products used by food producers and processors to detect harmful natural toxins, drug residues, foodborne bacteria, food allergens, pesticide residues, disease infections and levels of general sanitation. The Animal Safety segment is primarily engaged in the production and marketing of products dedicated to animal health, including veterinary instruments and a complete line of consumable products marketed to veterinarians and animal health product distributors. Additionally the Animal Safety segment produces and markets a line of rodenticides to assist in the control of rodents in and around agricultural, food production and other facilities.

These segments are managed separately because they represent strategic business units that offer different products and require different marketing strategies. The Company evaluates performance based on total sales and operating income of the respective segments.

Segment information for the three months ended November 30, 2006 and 2005 follows:

	Food Safety	Animal Safety	Corporate and Eliminations (1) (Restated) (In thousands)	Total
Fiscal 2007				
Net sales to external customers	\$ 11,691	\$ 10,498	\$	\$ 22,189
Operating income (reduction)	2,362	1,670	(336)	3,696
Total assets	\$ 54,008	\$ 39,165	\$ 4,914	\$ 98,087
Fiscal 2006				
Net sales to external customers	\$ 7,813	\$ 10,443	\$	\$ 18,256
Operating income (reduction)	1,412	2,058	(513)	2,957
Total assets	\$ 30,700	\$ 37,072	\$ 2,303	\$ 70,075

Segment information for the six months ended November 30, 2006 and 2005 follows:

	Food Safety	Animal Safety	Corporate and Eliminations (1) (Restated) (In thousands)	Total
Fiscal 2007				
Net sales to external customers	\$ 23,082	\$ 19,327	\$	\$ 42,409
Operating income (reduction)	4,964	2,816	(506)	7,274
Fiscal 2006				
Net sales to external customers	\$ 15,495	\$ 19,539	\$	\$ 35,034
Operating income (reduction)	2,941	3,883	(994)	5,830

(1)

Edgar Filing: NEOGEN CORP - Form 10-Q

Includes corporate assets, consisting principally of marketable securities, deferred assets and overhead expenses not allocated to specific business segments. Also includes the elimination of intersegment transactions and minority interests.

Table of Contents**6. EQUITY COMPENSATION PLANS**

Effective June 1, 2006, the Company adopted the provisions of FASB Statement No. 123 (R) (the Statement). The Statement supersedes Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related implementation guidance. Under Opinion No. 25, no compensation expense was recognized for the cost of stock options granted pursuant to the Company's employee and director stock option plan because the exercise price of the Company's stock options was equal to the market price of the underlying stock on the date of grant. The Statement requires companies to recognize the cost of stock options based on the grant-date fair value determined under their employee stock option plan over the vesting period. The Company adopted the provisions of the Statement using the modified-retrospective transition method. Under this method, the Company restated all prior periods presented on a consistent basis. Calculations made in preparation for adoption of the Statement resulted in cumulative net income difference of less than \$100,000 as compared to that reported on the pro forma basis since 1996. The revised net expense is believed to accurately reflect expense under the provisions of the Statement and have been reflected as such in the restated financial statements.

As a result of the adoption of the Statement, the Company's operating income for the three months ended November 30, 2006 and 2005 was reduced by \$326,000 and \$392,000, respectively and by \$596,000 and \$622,000, respectively for the six months ended November 30, 2006 and 2005. The Company's net income for the three months ended November 30, 2006 and 2005 was reduced by \$247,000 and \$277,000 respectively and by \$425,000 and \$430,000 respectively, for the six months ended November 30, 2006 and 2005. Diluted net income per share was reduced by \$.03 in the three months ended November 30, 2006 and 2005, and \$.05 in the six months ended November 30, 2006 and 2005. In addition, prior period balance sheets have been adjusted to reflect the cumulative impact of stock option compensation expense and stock option exercise activity as required by the modified-retrospective transition method. The balance sheet at May 31, 2006 was adjusted to reflect decreases in retained earnings of \$5,548,000 and increases in the balances of additional paid-capital and noncurrent deferred income tax assets of \$6,425,000 and \$877,000 respectively.

Prior to the adoption of the Statement, the Company presented all of the income tax benefits resulting from the exercise of stock options as cash flows provided by operating activities in the condensed consolidated statements of cash flows. The Statement requires the income tax benefit from deductions resulting from the exercise of stock options in excess of the compensation cost recognized (excess income tax benefit) to be classified as cash flows provided by financing activities. Excess income tax benefits from exercise of stock options reported as cash flows provided by financing activities in the amounts of \$257,000 and \$123,000 for the period of six months ended November 30, 2006 and 2005, respectively, would have been classified as cash flows provided by operating activities if the Company had not adopted the provisions of the revised Statement.

The Company has an employee and director stock option plan under which options are granted at an exercise price not less than the fair market value of the underlying common stock at the date of grant. The options are granted for periods of up to 10 years and become exercisable in varying installments. A summary of stock option activity follows:

	Shares	Weighted-Average Exercise Price
Options outstanding at June 1, 2006	1,233,614	\$14.00
Granted	215,000	20.30
Exercised	(290,634)	10.73
Expired and cancelled	(6,625)	11.38
Options outstanding at November 30, 2006	1,151,355	16.02
Exercisable at November 30, 2006	567,923	13.49

Options outstanding at November 30, 2006 had a weighted-average remaining contractual term of 4.2 years. At November 30, 2006 and 2005, the aggregate intrinsic values of options outstanding and options exercisable were \$3,888,000 and \$5,849,000, respectively.

Table of Contents

The aggregate intrinsic value of options exercised during the six month periods ended November 30, 2006 and 2005 was \$4,722,000 and \$1,286,000, respectively. Options reserved for future grants were 595,800 at November 30, 2006 and 804,175 at May 31, 2006. Exercise prices for options outstanding as of November 30, 2006 ranged from \$5.00 to \$20.45. At November 30, 2006 there was \$2,460,000 of unrecognized compensation cost related to nonvested stock option compensation arrangements granted under the plan. That cost is expected to be recognized over a weighted-average period of 3.0 years.

The grant date fair value of options granted during the six months ended November 30, 2006 using the Black-Scholes option pricing model was \$8.53 and was estimated using the following weighted-average assumptions:

Risk-free interest rate	4.72%
Expected dividend yield	0%
Expected stock price volatility	46.64%
Expected option life	4 years

The risk-free rate reflects the expected life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Expected volatilities are based on historical volatility of the Company's stock. The Company uses historical data related to option exercises and employee terminations to determine the expected option life.

The Company has issued 56,375 warrants that are exercisable for common stock. The warrants have lives of 5 years and are expensed at fair value upon issuance.

The Company has an Employee Stock Purchase plan that provides for employee stock purchases at a 5% discount to market as defined. The discount is expensed as of the date of purchase.

7. LEGAL PROCEEDINGS

The Company is involved in litigation both as a plaintiff and as a defendant with respect to certain patents related to its detectable needles. While the cases are at an early stage and management and legal council are confident that the Company will prevail, the outcome is not predictable at the current time. In addition, the Company is subject to certain other legal and other proceedings in the normal course of business. In the opinion of management the outcome of the legal matters, including the detectable needle cases, will not have a material effect on its future results of operations or financial position.

8. BUSINESS AND PRODUCT LINE ACQUISITIONS

During the second quarter of fiscal 2006 a secondary payment in the amount of \$183,000 was paid to the former owners of Adgen Ltd. (now Neogen Europe, Ltd.). No additional amounts are contractually due under terms of the Asset Purchase Agreement.

On December 19, 2005, Neogen Corporation purchased certain assets of the dairy antibiotics business of UCB FD Bioproducts, a division of Belgium based UCB Group. Consideration for the sale, including transaction costs of \$500,000, was \$17,100,000 in cash, and post closing adjustments and potential secondary payments of up to \$2,400,000. The preliminary allocation of the purchase price, subject to finalization of asset valuations, included \$1,000,000 of accounts receivable, \$2,900,000 of inventory, \$1,200,000 of fixed assets, \$7,600,000 of goodwill and \$4,400,000 of other amortizable intangibles. Other amortizable intangibles have primarily been assigned 10 year lives. The dairy antibiotic business is believed to be a strong synergistic fit into Neogen's overall strategy of providing food and animal safety solutions. Intangible assets in this transaction are expected to be deducted for tax purposes as amortized.

Table of Contents

Unaudited pro forma financial information, as if the acquisition of the dairy antibiotics business had taken place on June 1, 2005 is as follows:

	Three Months Ended	Six Months Ended
	November 30, 2005 (Restated)	November 30, 2005 (Restated)
	(In thousands except per share amounts)	
Revenue	\$ 20,462	\$ 39,428
Net Income	\$ 2,439	\$ 4,923
Diluted net income per share	\$.29	\$.59

On February 17, 2006, Neogen Corporation purchased the common stock of Centrus International, Inc., a wholly owned subsidiary of Eastman Chemical Company, of Kingsport, Tennessee. Consideration consisted of \$3,300,000 in cash. The preliminary allocation of the purchase price included accounts receivable of \$280,000, inventory of \$270,000, fixed assets of \$180,000, goodwill of \$2,600,000 and deferred tax assets of \$300,000 related to net operating loss carryforwards and assumed liabilities of \$430,000. Centrus produces Soleris, a user-friendly, rapid optical testing system that accurately detects microbial contamination and represents a synergistic fit with Neogen's Food Safety solutions. Centrus unaudited sales in the 12 month period ended December 31, 2005 (prior to the acquisition) were \$2,800,000. Intangible assets in this transaction are not expected to be deducted for tax purposes as amortized.

9. LONG TERM DEBT

The Company maintains a financing agreement with a bank (no amounts drawn at November 30, 2006 and \$9,955,000 drawn at May 31, 2006) providing for an unsecured revolving line of credit of \$10,000,000. The interest rate is LIBOR plus 95 basis points (rate under terms of the agreement was 6.272% at November 30, 2006). Financial covenants include maintaining specified funded debt to EBITDA and debt service ratios as well as specified levels of tangible net worth, all of which are complied with at November 30, 2006.

10. GRANT FROM INGHAM COUNTY

The Company has a \$500,000 grant from Ingham County that is restricted for the purchase of machinery and equipment at its location in Lansing, Michigan. The grant is repayable in cash plus interest to the extent not offset by allowances for new employees hired in Lansing over a period of 6 years. Grant monies received from the County for eligible purchases were initially recognized as a long-term liability. The liability is reduced and other income is recognized for the allowances granted as eligible new employees are hired. The Company recognized other income of \$40,000 and \$200,000 related to the grant in the three and six month periods ended November 30, 2005. The grant was realized and earned as of May 31, 2006.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information in this Management's Discussion and Analysis of Financial Condition and Results of Operations contains both historical financial information and forward-looking statements. Neogen does not provide forecasts of future performance. While management is optimistic about the Company's long-term prospects, historical financial information may not be indicative of future financial performance.

Safe Harbor and Forward-Looking Statements

Forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, are made throughout this Quarterly Report on Form 10-Q. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects," "seeks," "estimates," and similar expressions are intended to identify forward-looking statements. There are a number of important factors, including competition, recruitment and dependence on key employees, impact of weather on agriculture and food production, identification and integration of acquisitions, research and development risks, patent and trade secret protection, government regulation and other risks detailed from time to time in the Company's reports on file at the Securities and Exchange Commission, that could cause Neogen Corporation's results to differ materially from those indicated by such forward-looking statements, including those detailed in this Management's Discussion and Analysis of Financial Condition and Results of Operations.

In addition, any forward-looking statements represent management's views only as of the day this Quarterly Report on Form 10-Q was first filed with the Securities and Exchange Commission and should not be relied upon as representing management's views as of any subsequent date. While management may elect to update forward-looking statements at some point in the future, it specifically disclaims any obligation to do so, even if its views change.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The discussion and analysis of the Company's financial condition and results of operations are based on the consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires that management make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, management evaluates the estimates, including those related to receivable allowances, inventories and intangible assets. These estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The following critical accounting policies and estimates reflect management's more significant judgments and estimates used in the preparation of the consolidated financial statements.

Revenue Recognition

Revenue from sales of products is recognized at the time title of goods passes to the buyer and the buyer assumes the risks and rewards of ownership, which is generally at the time of shipment. Where right of return exists, allowances are made at the time of sale to reflect expected returns based on historical experience.

Accounts Receivable Allowance

Management attempts to minimize credit risk by reviewing customers' credit history before extending credit and by monitoring credit exposure on a regular basis. An allowance for possible losses on accounts receivable is established based upon factors surrounding the credit risk of specific customers, historical trends and other information, such as changes in overall changes in customer credit and general credit conditions. Actual collections can differ from historical experience, and if economic or business conditions deteriorate significantly, adjustments to these reserves could be required.

Table of Contents

Inventory

A reserve for obsolescence is established based on an analysis of the inventory taking into account the current condition of the asset as well as other known facts and future plans. The amount of reserve required to record inventory at lower of cost or market may be adjusted as conditions change. Product obsolescence may be caused by shelf life expiration, discontinuation of a product line, or replacement products in the marketplace or other competitive situations.

Valuation of Intangible Assets and Goodwill

Management assesses goodwill and other non-amortizable intangible assets for possible impairment on no less often than an annual basis. This test was performed in the fourth quarter of fiscal 2006 and it was determined that no impairment exists. In the event of changes in circumstances that indicate the carrying value of these assets may not be recoverable, management will make an assessment at any time. Factors that could cause an impairment review to take place would include:

Significant underperformance relative to expected historical or projected future operating results.

Significant changes in the use of acquired assets or strategy of the Company.

Significant negative industry or economic trends.

When management determines that the carrying value of intangible assets may not be recoverable based on the existence of one or more of the above indicators of impairment, the carrying value of the reporting unit's net assets is compared to the projected discounted cash flows of the reporting unit using a discount rate commensurate with the risk inherent in the Company's current business model. If the carrying amounts of these assets are not recoverable based upon a discounted cash flow analysis, such assets are reduced by the estimated shortfall of fair value to recorded value. Changes to the discount rate or projected cash flows used in the analysis can have a significant impact on the results of the impairment test.

RESULTS OF OPERATIONS

Executive Overview

Neogen Corporation's second quarter FY-07 revenues increased 22% to \$22.2 million as compared to Second Quarter FY-06 revenues of \$18.3 million. On a six-month basis revenues increased 21% to \$42.4 million in FY-07 from \$35.0 million in FY-06. These increases were aided by a 5% increase in the quarter and 4% on a year-to-date basis in revenues from sales of established products. Sales of products from the dairy antibiotics business and Centrus International were responsible for \$3.0 million of revenues in the current quarter and \$6.0 million year-to-date. Both businesses were acquired in the third quarter of FY-06. Operating income increased \$739,000 or 25% during the current quarter and \$1,444,000 or 25% year-to-date with increased sales translating to operating income increases as a result of cost control measures and better facility utilization, partially offset by unfavorable product mix. Net income increased 25% and 23% to \$2,426 and \$4,832 in the FY-07 three and six month periods.

Table of Contents**Three Months and Six Months Ended November 30, 2006 Compared to Three Months and Six Months Ended November 30, 2005**

	Three Months Ended November 30 Increase			
	2006	2005	(Decrease)	%
(Dollars in thousands)				
Food Safety				
Natural Toxins, Allergens & Drug Residues	\$ 6,294	\$ 3,412	\$ 2,882	84%

Veterinary Instruments & Other	9,191	9,161	30	
	19,327	19,539	(212)	(1)%
Total Sales	\$ 42,409	\$ 35,034	\$ 7,375	21%

Food Safety sales from established products increased by 11% and in the FY-07 quarter and six month periods, with strong contributions from a 24% and 26% increase in the quarter and year-to-date sales from the Company's European subsidiary and a 11% and 18% increase in sales of natural toxin testing products for the same periods. Increases of European sales came from increased market penetration and the sale of testing products to the British Government. Natural toxin revenues have been positively affected by combination of enhanced market penetration and normal year-to-year fluctuations of market demand.

Overall Food Safety sales increased 50% or \$3.9 million in the quarter and 49% or \$7.6 million year-to-date primarily as a result of the new products from dairy antibiotics and Centrus International. Dairy antibiotic sales included in the natural toxin product group were up 13% in the quarter and 16% year-to-date from those recognized by the former owner during the comparable period of the prior year. Centrus sales were comparable to sales reported by the prior owner but added significantly to the bacteria and general sanitation product group sales that

Edgar Filing: NEOGEN CORP - Form 10-Q

experienced a 34% increase in the quarter and 25% increase in the six month period in comparison with FY-06.

Animal Safety sales were up 1% to \$10.5 million in the FY-07 quarter and down 1% to \$19.3 million in the six month period principally as the result of difficult comparisons with sales in the prior year of certain rodenticide lines used for a large outbreak of voles in the northwest United States and large 2006 shipments of one of the Company's wound care products following FDA approval. A number of Animal Safety products had increases during the quarter. Sales of diagnostic test kits and vaccine products increased 6% in the quarter and 1% on a year-to-date basis as the company increased its sales of vaccine products through

Table of Contents

distributors. Neogen's Hacco Rodenticide products increased of 4% in comparison with the prior year but remained behind the prior year six-month period by 4%, as in the first quarter of FY-06 the Company experienced significant product sales due to the northwest United States vole outbreak previously mentioned. In addition, veterinary instruments continued their growth with an increase of 26% in the quarter and 15% on a six month basis.

Operating income increased \$739,000 in the quarter and \$1,444,000 in the six month period or by 25% as compared to FY-06 periods. As a percentage of sales, operating income improved from 16.2% in the FY-06 to 16.7% in FY-07. On a year-to-date basis, operating income increased from 16.6% to 17.2%. In general, operating expenses were maintained on a percentage basis at comparable levels to FY-06 periods. Gross margins as a percentage of sales increased 80 basis points in the current quarter but decreased 40 basis points for the six month period principally as a result of product mix. As a percentage of sales, sales and marketing expense declined by 30 basis points in comparison with the prior year second quarter and declined 70 basis points in the six month period and general and administrative expenses increased 40 and 30 basis points in comparison with the prior three and six month periods in the prior years. The decrease in sales and marketing in part reflects the reduced distribution costs of the dairy antibiotics product line as compared to costs of distribution of existing products. Increased general and administrative resulted from increased amortization related to the FY-06 acquisitions and legal expenses in regards to litigation, including detectable needle patent issues.

Effective June 1, 2006, the Company implemented the provisions of FAS No. 123(R) using the modified retrospective method whereby prior periods were restated as if the implementation was completed prior to the earliest period presented. As such FY-06 operations were restated by increasing administrative expense by \$392,000 in the second quarter and \$622,000 in the six month period. \$326,000 of compensation expense related to options was reflected as expense in the second quarter of FY-07 and \$596,000 in the six months. The net income per share effect was \$.03 and \$.05 in both the second quarter and six month period of FY-06 and FY-07 respectively. Total compensation cost related to nonvested awards not yet recognized of \$2.5 million will be recognized over 3 years.

Financial Condition and Liquidity

Net cash proceeds of \$14.2 million were realized from the sale of 650,000 shares of stock and the exercise of 290,634 options during the six months ended November 30, 2006. In addition, \$2.6 million of cash was provided by operations. \$10 million of this cash was used to repay bank debt and \$2.5 million was used to fund amounts due the seller for inventory purchases during transition and in connection with the dairy antibiotics acquisition. Cash generated from operations in FY-07 was reduced from the payment of the amounts due the seller of the dairy antibiotics business and increases in accounts receivable that resulted principally from the timing of sales to the dairy antibiotics products distributor.

Inflation and changing prices are not expected to have a material effect on operations.

Management believes that the Company's existing cash balances at November 30, 2006, along with available borrowings under its credit facility and cash expected to be generated from future operations, will be sufficient to fund activities for the foreseeable future. However, existing cash and borrowing capacity may not be sufficient to meet the Company's cash requirements to commercialize products currently under development or its plans to acquire other organizations, technologies or products that fit within the Company's mission statement. Accordingly, the Company may be required to issue equity securities or enter into other financing arrangements for a portion of the Company's future financing needs.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company has minimal interest rate and foreign exchange rate risk exposure and no long-term fixed rate investments or borrowings. The Company's primary interest rate risk is due to potential fluctuations of interest rates for variable rate borrowings.

Because Neogen markets and sells its products throughout the world, it could be significantly affected by weak economic conditions in foreign markets that could reduce demand for its products. Sales in certain foreign countries as well as certain expenses related to those sales are transacted in currencies other than the U.S. dollar. The Company's operating results are primarily exposed to changes in exchange rates between the U.S. dollar and the British Pound and Euro. When the U.S. dollar weakens against foreign currencies, the dollar value of sales denominated in foreign currencies increases. When the U.S. dollar strengthens, the opposite situation occurs.

Neogen has assets, liabilities and operations outside of the United States that are located primarily in Ayr, Scotland where the function currency is the British Pound. The Company's investment in its foreign subsidiary is considered long-term, accordingly, it does not hedge the net investment or engage in other foreign currency hedging activities due to the insignificance of these balances to the Company as a whole.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures - An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of November 30, 2006 was carried out under the supervision and with the participation of the Company's management, including the Chairman and Chief Executive Officer and the Vice President and Chief Financial Officer (the Certifying Officers). Based on that evaluation, the Certifying Officers concluded that the Company's disclosure controls and procedures are effective to bring to the attention of the Company's management the relevant information necessary to permit an assessment of the need to disclose material developments and risks pertaining to the Company's business in its periodic filings with the Securities and Exchange Commission. There was no change to the Company's internal control over financial reporting during the six months ended November 30, 2006 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is involved in litigation both as a plaintiff and as a defendant with respect to certain patents related to its detectable needles. While the cases are at an early stage and management and legal council are confident that the Company will prevail, the outcome is not predictable at the current time. In addition, the Company is subject to certain other legal and other proceedings in the normal course of business. In the opinion of management the outcome of the legal matters, including the detectable needle cases, will not have a material effect on its future results of operations or financial position.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The annual meeting of the Company was held on October 12, 2006. The matter voted on and the results follows:

Election of Directors	For
Lon M. Bohannon	8,225,731
A. Charles Fischer	8,071,751
Gordon Guyer	8,067,176

Items 1A, 2, 3, and 5 are not applicable and have been omitted.

ITEM 6. EXHIBITS

(a) Exhibit Index

31.1 Certification of Chief Executive Officer pursuant to Rule 13a 14 (a).

31.2 Certification of Chief Financial Officer pursuant to Rule 13 a 14 (a).

32. Certification pursuant to 18 U.S.C. section 1350.
