-

Item 1.02 Termination of a Material Definitive Agreement

See Completion of Acquisition or Disposition of Assets in Item 2.01.

Item 2.01 Completion of Acquisition or Disposition of Assets

On May 15, 2007, Millennium Chemicals Inc. (Millennium Chemicals) completed the sale of its worldwide inorganic chemicals business to The National Titanium Dioxide Co. Ltd. (Cristal) pursuant to a previously filed Sale and Purchase Agreement (the Agreement). Millennium Chemicals inorganic chemicals business was conducted through two indirect subsidiaries of Millennium Chemicals, Millennium Worldwide Holdings I Inc. and Millennium US Op Co, LLC, and the business included nine titanium dioxide plants located in the United States, Australia, Brazil, France and the United Kingdom, and a mineral sands mine located in Brazil.

At the closing of the sale, Millennium Chemicals received \$1.143 billion in cash which is the base purchase price of \$1.05 billion from Cristal, in addition to the assumption by Cristal of specified liabilities, as adjusted pursuant to certain provisions in the Agreement to include estimated closing cash and estimated changes in net working capital and specified indebtedness of the inorganic chemicals business. Millennium Chemicals expects to realize estimated after-tax proceeds of approximately \$1.08 billion.

In connection with the completion of the sale, on May 15, 2007, Millennium Chemicals, Millennium America Inc. (Millennium America), and Millennium Inorganic Chemicals Ltd (MIC Ltd) terminated the Credit Agreement (the Credit Agreement) dated August 22, 2005, as amended, among Millennium Chemicals, Millennium America, MIC Ltd, the lenders party thereto including JPMorgan Chase Bank, N.A. as Administrative Agent and Collateral Agent. The Credit Agreement consisted of (1) a \$125,000,000 Senior Secured Revolving Credit Facility, with Millennium America as borrower, (2) a \$25,000,000 Senior Secured Revolving Credit Facility, with MIC Ltd as borrower and (3) a \$100,000,000 Senior Secured Term Loan, with MIC Ltd as borrower. In connection with the sale, MIC Ltd is no longer a subsidiary of Millennium Chemicals. Millennium America remains as a subsidiary of Millennium Chemicals.

Also in connection with the completion of the sale, on May 15, 2007, Millennium Inorganic Chemicals Limited, a United Kingdom former subsidiary of Millennium Chemicals, terminated its 60 million, five-year revolving credit facility with, among others, Bank of America, N.A. as agent, and certain banks and financial institutions as lenders thereto.

The press release regarding the completion of the sale is being filed with this Current Report on Form 8-K as Exhibit 99.1.

Item 8.01 Other Items

In addition, the risk factors from Millennium Chemicals Annual Report on Form 10-K for the year ended December 31, 2006 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2007 have been restated in their entirety, to reflect the sale of Millennium Chemicals worldwide inorganic chemicals business on May 15, 2007.

The press release regarding the completion of the sale is being filed with this Current Report on Form 8-K as Exhibit 99.1. The restated risk factors for Millennium Chemicals are being filed with this Current Report on Form 8-K as Exhibit 99.2.

Item 9.01 Financial Statements and Exhibits

(b) Pro Forma Financial Information

Unaudited Pro Forma Condensed Consolidated Financial Statements

On May 15, 2007, Millennium Chemicals Inc. (Millennium) completed the sale of its worldwide inorganic chemicals business to The National Titanium Dioxide Co. Ltd. (Cristal). Millennium's inorganic chemicals business included nine titanium dioxide plants located in the United States, Australia, Brazil, France and the United Kingdom, and a mineral sands mine located in Brazil. At the closing of the sale, Millennium received approximately \$1.143 billion in cash, in addition to the assumption by Cristal of specified liabilities.

The following unaudited pro forma condensed consolidated balance sheet and statements of income for Millennium are based on Millennium's historical consolidated financial statements as of March 31, 2007, and for the years ended December 31, 2006, 2005, and 2004. These statements are adjusted to reflect the pro forma effects of the sale of Millennium's inorganic chemicals business. The unaudited pro forma condensed consolidated balance sheet as of March 31, 2007 assumes the sale of the inorganic chemicals business occurred as of that date, and the unaudited pro forma condensed consolidated statements of income for the years ended December 31, 2006, 2005, and 2004 assume the sale occurred on January 1, 2004. Millennium's quarterly report on Form 10-Q dated March 31, 2007 presents the operations of the inorganic chemicals business as discontinued operations. Accordingly, a pro forma condensed statement of income for the three-month period ended March 31, 2007 is not presented as no adjustments would be necessary to reflect the transaction, other than the elimination of those discontinued operations.

The unaudited pro forma condensed consolidated balance sheet and statements of income should be read together with the consolidated financial statements of Millennium as of and for the periods ended March 31, 2007 and December 31, 2006 included in our quarterly and annual reports on Forms 10-Q and 10-K, respectively. These pro forma statements do not necessarily reflect the results of operations or financial position of Millennium that would have resulted had the transaction actually been consummated as of such dates, and are not necessarily indicative of the future results of operations or the future financial position of Millennium.

Note 1 Pro forma adjustments

- (a) To reflect receipt of cash proceeds from the sale of \$1.143 billion.
- (b) To reflect repayment of debt of \$101 million required to be repaid as a result of the sale.
- (c) To eliminate inorganic chemicals assets and liabilities held for sale at March 31, 2007, and related activity for the respective years. The pro forma statements of income do not reflect any benefit from the use of proceeds of the sale. The interest expense related to the debt required to be repaid as a result of the sale is eliminated as part of the activity of discontinued operations.
- (d) To reflect estimated income taxes of \$62 million payable as a result of the sale.
- (e) The net pro forma increase to stockholders' equity resulting from the sale of the inorganic chemicals business consists of the following components (in millions), which are not included in the pro forma condensed combined statements of income:

Proceeds of the sale	\$ 1,143
Net carrying value of inorganic chemicals business held for sale	(802)
	341
Pro forma loss related to accumulated other comprehensive income associated with discontinued operations	(6)
Pro forma pre-tax gain on sale	335
Pro forma income taxes resulting from sale	(62)
Pro forma net gain on sale	273
Accumulated other comprehensive income associated with discontinued operations reclassified to retained earnings within stockholders' equity	6
Pro forma net increase to stockholders' equity	\$ 279
