Page 6

BHP Billiton and Rio Tinto:

Creating a minerals industry super-major

BHP Billiton approached Rio Tinto on November 1 with a proposal to combine the two companies

Rio Tinto has not agreed to engage in discussions

The proposal sets out a unique opportunity to unlock value for shareholders

Optimising mineral basin asset positions and infrastructure utilisation

Enhancing the platform for future growth

Delivery of synergy and combination benefits

Attractive value proposition for all shareholders

Benefits for customers and communities

Importantly, BHP Billiton believes that the proposal is deliverable

This combination unlocks a very material and unique pool of value

More production, faster and lower cost; enhanced future growth options;
traditional synergies

Quantifiable
value;
incremental
EBITDA
impact
growing
to
estimated
\$3.7B

The core consideration of the proposal is how this value would be shared

All
share

shareholders
benefit

Rio Tinto shareholders: an increased share by way of the premium

BHP Billiton shareholders: a fair proportion of the value pool

Consistent with our strategy and investment proposition

Our strategy

Large, low-cost assets which are consistently profitable through the cycle

Focus on the extraction of upstream natural resources

Portfolio diversified by commodity, customer and geography reducing the volatility of cash flows

Deep inventory of growth options

Focus on globally traded products

Overriding commitment to ethics, safety, environmental practice and community engagement

Employer of choice, and a preferred partner for countries and customers

Our investment proposition

Strong cashflows through the cycle

Volume and value growth
