To our valued Customers:

We are pleased to announce that NATCO will soon become a part of Cameron in a transaction announced last night subject to our shareholders favorable vote. The combination of NATCO and the product lines of Petreco, Cameron's Processing Systems division, will create industry-leading capabilities to deliver Production Process Technologies worldwide. NATCO has over 80 years of experience in the industry and brings a wealth of leading process solutions. Petreco's technologies, represented by names such as WEMCO and Krebs, have been part of high-value process solutions for years. Combining these two companies under the Cameron umbrella will establish a company with complementary capabilities in global fabrication, leading technologies, and experienced personnel that will meet your current production processing challenges. In addition, the ongoing development work of both companies in subsea processing will advance new technologies to meet your deepwater challenges in the future. During the next few weeks, we will be updating you on our progress. In the meantime, please contact your NATCO representative with any questions.

Such forward-looking statements include, but are not limited to, statements about the benefits of the business combination transaction involving Cameron and NATCO, including future financial and operating results, the new company's plans, objectives, expectations and intentions and other statements that are not historical facts.

The following additional factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: the ability to satisfy the closing conditions of the transaction, including obtaining regulatory approvals for the transaction and the approval of the merger agreement by the NATCO stockholders; the risk that the businesses will not be integrated successfully; the risk that the cost savings and any other synergies from the transaction may not be fully realized or may take longer to realize than expected; disruption from the transaction making it more difficult to maintain relationships with customers, employees or suppliers; the impact of other acquisitions that Cameron or NATCO have made or may make before the transaction; competition and its effect on pricing; and exploration and development spending by E&P operators. Additional factors that may affect future results are contained in Cameron's and NATCO's filings with the Securities and Exchange Commission (SEC), which are available at the SEC's web site <http://www.sec.gov>. Cameron and NATCO disclaim any obligation to update and revise statements contained in these materials based on new information or otherwise.
