PROXY STATEMENT

FOR ANNUAL MEETING OF STOCKHOLDERS

To be held on April 23, 2010

This proxy statement is furnished to the stockholders of record of Dice Holdings, Inc., a Delaware corporation, in connection with the solicitation by the Company's Board of Directors of proxies for the 2010 Annual Meeting of Stockholders of the Company (the "Annual Meeting") to be held at the Grand Hyatt New York, Park Avenue at Grand Central, New York, New York 10017 on Friday, April 23, 2010, at 9:00 a.m., local time, and at any adjournments or postponements thereof, for the purpose of considering and acting upon the matters set forth in the accompanying Notice of Annual Meeting of Stockholders. In this proxy statement, we refer to Dice Holdings, Inc. as the "Company," "we" or "us."

This proxy statement and accompanying proxy and voting instructions are first being mailed on or about March 19, 2010 to holders of the Company's common stock, par value \$0.01 (the "Common Stock"), entitled to vote at the Annual Meeting. The presence in person or by proxy of the holders of a majority of the total number of shares of Common Stock entitled to vote at the Annual Meeting shall constitute a quorum for the transaction of any business at the Annual Meeting. Each owner of record of the Common Stock on the record date is entitled to one vote for each share. The record date for determining the stockholders entitled to notice of, and to vote at, the Annual Meeting, is March 17, 2010. At the close of business on March 11, 2010, there were outstanding and entitled to vote 62,418,859 shares of the Common Stock. The shares of Common Stock are publicly traded on the New York Stock Exchange (the "NYSE") under the symbol "DHX."

At the Annual Meeting, three directors (the "Class III Directors") will be elected by a plurality of the votes cast in person or by proxy and eligible to vote at the Annual Meeting. The ratification of the selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm will require the affirmative vote of a majority in voting power of shares of Common Stock present in person or by proxy and entitled to vote at the Annual Meeting. Our principal stockholders, which consist of certain affiliates of General Atlantic LLC (the "General Atlantic Stockholders") and certain affiliates of Quadrangle Group LLC (the "Quadrangle Stockholders," and together with the General Atlantic Stockholders, the "Principal Stockholders"), control approximately 72% of the Common Stock outstanding, and as a result, the Principal Stockholders have the ability to cause the election of all nominees for the Class III Directors and the ratification of the selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010. The Company expects the Principal Stockholders will vote **FOR** the election of the Class III Directors and the ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm, thereby ensuring the approval of the election of all nominees for the Class III Directors and the ratification of the selection of Deloitte & Touche LLP.

Broker non-votes and shares with respect to which a stockholder abstains are included in determining whether a quorum is present. An abstention is not deemed to be a vote cast with respect to the election of directors, but will be considered a vote cast with respect to any proposal requiring the approval of the affirmative vote of a majority in voting power. Broker non-votes will not be considered votes cast. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power on that item and has not received instructions from the beneficial owner. Under NYSE rules, proposals to elect directors are not considered discretionary items but proposals to approve the appointment of the independent registered public accounting firm are considered discretionary items, which means that brokerage firms may vote in their discretion on the ratification of the appointment of the independent registered public accounting firm on behalf of clients who have not furnished voting instructions. Under Delaware law, an abstention or a broker non-vote will have no legal effect on the election of directors, and an abstention, but not a broker non-vote, will have the same legal effect as a vote against the proposal to ratify the appointment of the independent registered public accounting firm.

Table of Contents

All shares entitled to vote and represented by properly executed proxies received prior to the Annual Meeting, and not revoked, will be voted as instructed on those proxies. If no instructions are indicated, the shares will be voted as recommended by the Board of Directors. If any other matters are properly presented at the Annual Meeting for consideration, the persons named in the enclosed form of proxy will have discretion to vote on those matters in accordance with their own judgment to the same extent as the person signing the proxy would be entitled to vote.

Stockholders will have the option to submit their proxies or voting instructions electronically through the Internet, by telephone or by using a traditional proxy card. Stockholders should check their proxy card or voting instructions forwarded by their broker, bank or other holder of record to see which options are available. The deadline for voting via the Internet or by telephone is 11:59 P.M., Eastern Daylight Time, on April 22, 2010. Stockholders submitting proxies or voting instructions via the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies that would be borne by the stockholder.

Any stockholder of record may revoke a proxy at any time before it is voted by filing with the Corporate Secretary, at or before the taking of the vote at the Annual Meeting, a written notice of revocation or duly executed proxy, in either case dated later than the prior proxy relating to the same shares, or by attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not by itself revoke a proxy).

Any written notice of revocation or subsequent proxy should be delivered to Dice Holdings, Inc., 1040 Avenue of the Americas, 16th Floor, New York, New York Attention: Corporate Secretary, or hand delivered to the Corporate Secretary, before the taking of the vote at the Annual Meeting. To revoke a proxy previously submitted via the Internet or by telephone, a stockholder may simply submit a new proxy (including by means of the Internet or by telephone) at a later date before the taking of the vote at the Annual Meeting, in which case, the later submitted proxy will be recorded and the earlier proxy will be revoked.

Table of Contents**DIRECTORS AND CORPORATE GOVERNANCE****Board Structure*****Composition of our Board of Directors***

Our board of directors currently consists of eight directors. The board met seven times during fiscal 2009. Each director attended at least 70% of all of the meetings of the board and committees on which he served. Under the Company's Corporate Governance Guidelines, each director is expected to dedicate sufficient time, energy and attention to ensure the diligent performance of his or her duties, including by attending annual and special meetings of the stockholders of the Company and meetings of the board and committees of which he is a member.

Our amended and restated by-laws provide that our board of directors will consist of no less than five or more than 20 persons. The exact number of members on our board of directors will be determined from time to time by resolution of a majority of our full board of directors; however, our shareholders agreement among us, our Principal Stockholders and certain management stockholders (the Management Stockholders) dated July 23, 2007 (the Institutional Shareholder Agreement) requires that the board consist of at least eight directors, one of whom must be our Chief Executive Officer. Our board is divided into three classes, with each director serving a three-year term and one class being elected at each year's annual meeting of stockholders. Messrs. Barter, Melland and Wyman are currently serving as Class III directors (with a term expiring at the 2010 Annual Meeting) and have been nominated for reelection. Messrs. Ezersky, Gordon and Hodgson are currently serving as Class I directors (with a term expiring at the 2011 Annual Meeting). Mr. Bingham and Ms. Siegel, who joined the Board in July and October, respectively, are currently serving as Class II directors (with a term expiring at the 2012 Annual Meeting).

Under the Institutional Shareholder Agreement, each of the Principal Stockholders has the right to designate up to (1) three members of our board of directors if such Principal Stockholder owns 17.5% or more of our Common Stock, (2) two members of our board of directors if it owns less than 17.5% but at least 10% of our Common Stock and (3) one member of our board of directors if it owns less than 10% but at least 5% of our Common Stock. Each Principal Stockholder has agreed to vote its shares in favor of the directors designated by the other Principal Stockholder in accordance with the terms of the Institutional Shareholder Agreement. Initially, the Principal Stockholders each only designated two members to our board of directors. Currently, Mr. Ezersky and Ms. Siegel have been designated as members of our board of directors by the Quadrangle Stockholders and Messrs. Bingham and Hodgson have been designated as members of our board of directors by the General Atlantic Stockholders.

Table of Contents

He graduated from Colgate University in 1959, served in the United States Navy from 1959 to 1963, and graduated from the Harvard Business School in 1965. Mr. Wyman was appointed to serve on our board based on his significant experience serving in management roles at other operating companies and his service on the board of other publicly-traded companies. Mr. Wyman's management consulting expertise plays a key role in board discussions of our business strategy and was a key factor in his being selected to serve as Chairman of the Compensation Committee.

Director Independence

We have determined that Messrs. Barter, Bingham, Ezersky, Gordon, Hodgson, and Wyman and Ms. Siegel are independent as such term is defined by the applicable rules and regulations of the NYSE for purposes of serving on our board of directors. Additionally, each of these directors meets the categorical standards for independence established by our board, as set forth in our Corporate Governance Guidelines, which is posted on our website.

Board Leadership Structure

Mr. Melland serves as both our Chief Executive Officer and the Chairman of our board of directors. We believe that combining the role of Chairman and CEO is appropriate for our Company because Mr. Melland is most familiar with our business strategy and our industry. We also believe that the combined role of Chairman and CEO facilitates the flow of information between the board and management and helps promote effective corporate governance. We also have independent board members that bring experience, oversight and expertise from outside the Company and our industry, as well as board members affiliated with our Principal Stockholders who bring extensive knowledge and experience from managing portfolio companies both within and outside our industry. The board meets as necessary in executive sessions of the non-management directors. At any such executive session, the non-management directors take turns serving as the presiding director as provided in the Company's Corporate Governance Guidelines. As a controlled company for purposes of the NYSE rules (as defined below), we believe our board structure provides the appropriate balance of management oversight and non-management oversight.

Corporate Governance

Controlled Company

The Common Stock is listed on the NYSE. For purposes of the NYSE rules, we are a controlled company. Controlled companies under those rules are companies of which more than 50% of the voting power is held by an individual, a group or another company. Together, our Principal Stockholders control more than 50% of the voting power of our Common Stock and are able to elect our entire board of directors and ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm. Accordingly, we are eligible to take advantage of certain exemptions from NYSE governance requirements provided in the NYSE rules. Specifically, as a controlled company under NYSE rules, we are not required to have (1) a majority of independent directors, (2) a Nominating and Corporate Governance Committee composed entirely of independent directors or (3) a Compensation Committee composed entirely of independent directors. For instance, our Chief Executive Officer is a member of our Nominating and Corporate Governance Committee. Additionally, the Institutional Shareholder Agreement requires us to take advantage of the controlled company exemption to the extent it remains available.

Required Certifications

The Company has filed with the Securities and Exchange Commission (the Commission), as an exhibit to its Annual Report on Form 10-K, the certifications required by its Chief Executive Officer and Chief Financial Officer under Section 302 of the Sarbanes-Oxley Act of 2002. The Company has also timely submitted to the NYSE the Section 303A Annual CEO Certification for 2009, and such certification was submitted without any qualifications.

Table of Contents

Committees of the Board

Our board of directors has three standing committees: an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The following is a brief description of our committees.

Audit Committee

The members of the Audit Committee are:

John W. Barter (Chair)
David S. Gordon
William W. Wyman

The Audit Committee met nine times during fiscal 2009. Our Audit Committee assists the board in monitoring the audit of our financial statements, our independent registered public accounting firm's qualifications and independence, the performance of our audit function and independent registered public accounting firm, and our compliance with legal and regulatory requirements. The Audit Committee has direct responsibility for the appointment, compensation, retention (including termination) and oversight of our independent registered public accounting firm, and our independent registered public accounting firm reports directly to the Audit Committee. The Audit Committee also reviews and approves related-party transactions as required by the rules of the NYSE. The authority and responsibility of the Audit Committee is further set forth in its charter, which is available under the Investor Relations section of our website and in print to any stockholder who requests a copy from the Corporate Secretary.

Messrs. Barter, Gordon and Wyman qualify as audit committee financial experts under the rules of the Commission implementing Section 407 of the Sarbanes-Oxley Act of 2002. Messrs. Barter, Gordon and Wyman meet the independence and the experience requirements of the NYSE and the federal securities laws.

Audit Committee Report

The charter of the Audit Committee, which is available under the Investor Relations section of our website, specifies that the purpose of the Audit Committee is to assist the board in its oversight of:

the accounting and financial reporting processes of the Company, including the integrity of the financial statements and other financial information provided by the Company to its stockholders, the public, any stock exchange and others;

the Company's compliance with legal and regulatory requirements;

the Company's independent registered public accounting firm's qualifications and independence;

the audit of the Company's financial statements; and

the performance of the Company's internal audit function and independent registered public accounting firm, and such other matters as shall be mandated under applicable laws, rules and regulations as well as listing standards of the NYSE.

In carrying out these responsibilities, the Audit Committee, among other things:

Edgar Filing: DICE HOLDINGS, INC. - Form DEF 14A

monitors preparation of quarterly and annual financial reports by the Company's management;

supervises the relationship between the Company and its independent registered public accounting firm, including having direct responsibility for their appointment, compensation and retention; reviewing the scope of their audit services; approving audit and non-audit services; and confirming the independence of the independent registered public accounting firm; and

oversees management's implementation and maintenance of effective systems of internal and disclosure controls, including review of the Company's policies relating to legal and regulatory compliance, ethics and conflicts of interests and review of the Company's internal auditing program.

The Audit Committee schedules its meetings with a view to ensuring that it devotes appropriate attention to all of its tasks. The Audit Committee's meetings include, whenever appropriate, executive sessions in which the Audit Committee meets separately with the Company's independent registered public accounting firm, the Company's internal auditors, the Company's Chief Financial Officer and the Company's General Counsel.

Management is responsible for the Company's financial reporting process, including the Company's internal control over financial reporting, and for the preparation of the Company's consolidated financial statements in accordance with generally accepted accounting principles. Deloitte & Touche LLP, as the Company's independent registered public accounting firm, is responsible for auditing those financial statements and expressing its opinion as to the fairness of the financial statement presentation in accordance with generally accepted accounting principles. Our responsibility is to oversee and review this process. We are not, however, professionally engaged in the practice of accounting or auditing and do not provide any expert or other special assurance as to such financial statements concerning compliance with laws, regulations or generally accepted accounting principles or as to auditor independence. We rely, without independent verification, on the information provided to us and on the representations made by management and the independent registered public accounting firm.

As part of its oversight of the preparation of the Company's financial statements, the Audit Committee reviews and discusses with both management and the Company's independent registered public accounting firm all annual and quarterly financial statements prior to their issuance. During fiscal 2009, management advised the Audit Committee that each set of financial statements reviewed had been prepared in accordance with generally accepted accounting principles, and reviewed significant accounting and disclosure issues with the Audit Committee. These reviews included discussion with the independent registered public accounting firm of matters required to be discussed pursuant to Statement on Auditing Standards No. 114 (Communication with Audit Committees), including the quality of the Company's accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Committee also discussed with Deloitte & Touche LLP matters relating to its independence, including a review of audit and non-audit fees and the written disclosures and letter from Deloitte & Touche LLP to the Audit Committee required by applicable requirements of the Public Company Accounting Oversight Board.

In addition, the Audit Committee reviewed key initiatives and programs aimed at maintaining the effectiveness of the Company's internal and disclosure control structure. As part of this process, the Audit Committee continued to monitor the scope and adequacy of the Company's internal auditing program, reviewing internal audit department staffing levels and steps taken to maintain the effectiveness of internal procedures and controls.

Taking all of these reviews and discussions into account, the undersigned Audit Committee members recommended to the board that the board approve the inclusion of the Company's audited financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009, for filing with the Commission.

Table of Contents

The Nominating and Corporate Governance Committee met four times in 2009 and has also met twice in 2010 in preparation for the Annual Meeting. The Nominating and Corporate Governance Committee selects, or recommends that the board select, candidates for election to our board of directors, develops and recommends to the board of directors corporate governance guidelines that are applicable to us and oversees board of directors and management evaluations. The authority and responsibility of the Nominating and Corporate Governance Committee is further set forth in its charter, which is available under the Investor Relations section of our website and in print to any stockholder who requests a copy from the Corporate Secretary.

With respect to director nominees, the Nominating and Corporate Governance Committee, which the Chief Executive chairs, (i) identifies individuals qualified to become members of the board (consistent with criteria approved by the board), (ii) reviews the qualifications of any such person submitted to be considered as a member of the board by any stockholder or otherwise, (iii) conducts background checks of individuals the Nominating and Corporate Governance Committee intends to recommend to the board as director nominees and (iv) selects, or recommends that the board select, the director nominees for the next annual meeting of stockholders or to fill in vacancies on the board. In identifying and reviewing qualifications of candidates for membership on the board, the Nominating and Corporate Governance Committee evaluates all factors which it deems appropriate, including the requirements of the Company's Corporate Governance Guidelines and the other criteria approved by the board.

Pursuant to the Company's Corporate Governance Guidelines, the Nominating and Corporate Governance Committee will seek members from diverse professional and personal backgrounds who combine a broad spectrum of experience and expertise with a reputation for integrity. The assessment of candidates for the board includes an individual's independence, as well as consideration of diversity, age, skills and experience in the context of the needs of the board. The Nominating and Corporate Governance Committee also takes into account the Company's obligations with respect to board composition set forth in the Institutional Shareholder Agreement. The Nominating and Corporate Governance Committee assesses the effectiveness of its diversity policy set forth in the Corporate Governance Guidelines annually in connection with the nomination of directors for election at the annual meeting of stockholders. The composition of the current board reflects diversity in business and professional experience, skills, age and gender.

The Institutional Shareholder Agreement requires that our Nominating and Corporate Governance Committee consist of three members, including one director designated by the Quadrangle Stockholders, one director designated by the General Atlantic Stockholders and one director designated by the board (upon the recommendation of the Nominating and Corporate Governance Committee). Messrs. Ezersky and Hodgson were appointed to the Nominating and Corporate Governance Committee as the Quadrangle Stockholders' designee and the General Atlantic Stockholders' designee, respectively, under the Institutional Shareholder Agreement.

The Institutional Shareholder Agreement requires that our Compensation Committee consist of three members, including one director designated by the Quadrangle Stockholders, one director designated by the General Atlantic Stockholders and one independent director designated by the board (upon the recommendation of the Nominating and Corporate Governance Committee). Messrs. Bingham and Ezersky were appointed to the Compensation Committee as the General Atlantic Stockholders designee and the Quadrangle Stockholders designee, respectively, under the Institutional Shareholder Agreement (succeeding Anton Levy and Jeffrey Nordhaus who resigned from our Board in July 2009 and October 2009, respectively).

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers who serve on our board of directors or Compensation Committee.

Corporate Governance Guidelines and Code of Conduct and Ethics

The board of directors has adopted Corporate Governance Guidelines, which set forth a flexible framework within which the board, assisted by its committees, directs the affairs of the Company. The Corporate Governance Guidelines address, among other things, the composition and functions of the board of directors, director independence, stock ownership by directors and compensation of directors, management succession and review, board committees and selection of new directors. A copy of the Company's Corporate Governance Guidelines is available under the Investor Relations section of our website and in print to any stockholder who requests a copy from the Corporate Secretary.

The Company has also adopted a Code of Conduct and Ethics, which is applicable to all directors, officers and employees of the Company, including the principal executive officer, the principal financial officer and the principal accounting officer. A copy of the Company's Code of Conduct and Ethics is available under the Investor Relations section of our website and in print to any stockholder who requests a copy from the Corporate Secretary. If the Company amends or waives the Code of Conduct and Ethics with respect to the directors, Chief Executive Officer, Chief Financial Officer or principal accounting officer, it will post the amendment or waiver at the same location on its website.

Risk Management

The board has an active role in overseeing the Company's risk management. The board regularly reviews information presented by management regarding the Company's business and operational risks, including relating to security, privacy, credit and liquidity. The board committees also play an active role in managing the Company's risk. The Audit Committee reviews and discusses with management the Company's major financial risk exposures and the steps management has taken to monitor, control and manage such exposures. The Audit Committee reviews and discusses at least annually the Company's code of ethics and procedures in place to enforce the code of ethics and, if there are any amendment or waiver requests relating to the Company's code of ethics for the chief executive officer or senior financial officers, would review and make a determination on such requests. In addition, the Audit Committee reviews related party transactions and potential conflicts of interest related thereto. The Compensation Committee reviews the Company's overall compensation program and its effectiveness at linking both executive pay to performance and aligning the interests of our executives and our stockholders. The Nominating and Corporate Governance Committee manages risks associated with director independence. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire board of directors is regularly informed through committee reports about such risks.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

The Company has adopted a written Related Person Transaction Policy (the "policy"), which sets forth our policy with respect to the review, approval, ratification and disclosure of all related person transactions by our Audit Committee. In accordance with the policy, our Audit Committee has overall responsibility for the implementation and compliance with this policy.

For the purposes of the policy, a "related person transaction" is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we were, are or will be a participant and in which any related person (as defined in the policy) had, has or will have a direct or indirect material interest. A "related person transaction" does not include any employment relationship or transaction involving an executive officer and any related compensation resulting solely from that employment relationship which has been reviewed and approved by our board of directors or Compensation Committee.

Our policy requires that notice of a proposed related person transaction be provided to our legal department prior to entering into such transaction. If our legal department determines that such transaction is a related person transaction, the proposed transaction will be submitted to our Audit Committee for consideration at its next meeting. Under the policy, our Audit Committee may only approve those related person transactions that are in, or not inconsistent with, our best interests. In the event we become aware of a related person transaction that has not been previously reviewed, approved or ratified under our policy and that is ongoing or is completed, the transaction will be submitted to the Audit Committee so that it may determine whether to ratify, rescind or terminate the related person transaction.

Our policy also provides that the Audit Committee review certain previously approved or ratified related person transactions that are ongoing to determine whether the related person transaction remains in our best interests and the best interests of our stockholders. Additionally, we will also make periodic inquiries of directors and executive officers with respect to any potential related person transaction of which they may be a party or of which they may be aware.

Stockholder Agreement

The Institutional Shareholder Agreement contains restrictions on the ability of the Principal Stockholders and certain of our executive officers, including Messrs. Melland, Durney, Silver, Campbell and Melde and Ms. Melrose, who are "Management Stockholders" under the Institutional Shareholder Agreement, to transfer shares of our Common Stock and provisions related to registration rights granted to such stockholders.

In addition, the Institutional Shareholder Agreement contains provisions related to the composition of our board of directors and the committees of our board of directors and our corporate governance, which are more fully discussed under "*Directors and Corporate Governance*" *Board Structure* and "*Directors and Corporate Governance*" *Corporate Governance*. If both Principal Stockholders hold less than 5% of our Common Stock, these provisions terminate.

Restrictions on Transfer

Under the Institutional Shareholder Agreement, neither of the Principal Stockholders may sell or transfer shares of our capital stock (except for transfers to certain permitted transferees or certain block sale transfers) without the consent of the other Principal Stockholder. A Management Stockholder may transfer all of his or her holdings.

Additionally, the Principal Stockholders and the Management Stockholders have agreed not to sell any shares during the period beginning 14 days prior to the effective date of a registration statement filed in connection with the exercise of demand or piggyback registration rights by any stockholder until the earlier of

Table of Contents

(1) 90 days after any public offering and (2) the expiration of the underwriters lock-up period for the applicable offering, provided that the Principal Stockholders and Management Stockholders have agreed that notwithstanding this provision, they will remain subject to the terms of any underwriter lock-up agreement for the applicable offering.

Other Provisions

Under the Institutional Shareholder Agreement, we have agreed that the doctrine of corporate opportunity will not apply against our Principal Stockholders in a manner that would prohibit them from investing in competing businesses or doing business with our clients and customers.

The Institutional Shareholder Agreement requires us to deliver to each stockholder who is a party to the agreement and owns 5% or more of our Common Stock in the aggregate certain monthly financial statements as soon as practicable after they are available, subject to customary confidentiality provisions. Additionally, except to the extent available on the Commission's EDGAR system, we are required to deliver to each stockholder who is a party to the agreement and owns 5% or more of our Common Stock copies of all financial statements, reports, notices and proxy statements and all regular and periodic reports, and registration statements or prospectuses filed by us with the Commission.

Registration Rights

Under the Institutional Shareholder Agreement, each of the Principal Stockholders is entitled to certain demand registration rights, including the right to require us to effect a shelf registration if we are eligible to file registration statements on Form S-3.

Under the Institutional Shareholder Agreement, in a demand registration, the non-requesting Principal Stockholder and the Management Stockholders are entitled to piggyback registration rights with respect to any registration request made by a Principal Stockholder, subject to limited exceptions. If the registration requested by a Principal Stockholder is in the form of an underwritten offering, and if the managing underwriter of the offering determines that the number of securities proposed to be offered would have an adverse affect on the offering, the number of shares included in the offering will be determined as follows:

first, shares offered by the Principal Stockholders and the Management Stockholders (but only to the extent such shares were not acquired pursuant to the exercise of options) (pro rata, based on the number of their respective shares requested to be included in such offering);

second, shares offered by any other stockholders (pro rata, based on the number of their respective shares requested to be included in such offering); and

third, shares offered by us for our own account.

The Institutional Shareholder Agreement also provides that each Principal Stockholder and Management Stockholder is entitled to piggyback registration rights with respect to any registration initiated by us, subject to certain limited exceptions. If we initiate a registration in the form of an underwritten offering, and if the managing underwriter of the offering determines that the number of securities proposed to be offered would have an adverse affect on the offering, then the number of shares included in the offering shall be determined as follows:

first, shares offered by us for our own account;

second, shares requested to be included by the Principal Stockholders and the Management Stockholders (pro rata, based on the number of their respective shares requested to be included in such offering);

third, shares offered by any other stockholders (pro rata, based on the number of their respective shares requested to be included in such offering).

Table of Contents

In any piggyback registration, including our initial public offering, we have agreed to indemnify the participating Principal Stockholders and Management Stockholders and to pay all registration expenses (other than underwriting discounts and commissions and certain legal expenses of the selling stockholders).

Block Sales

Under the Institutional Shareholder Agreement, a Principal Stockholder may request to sell Common Stock in a block sale, provided that the Principal Stockholder gives written notice to us and the other Principal Stockholder. The other Principal Stockholder will then have the right to participate in the block sale on a proportional basis with the requesting Principal Stockholder. Each Principal Stockholder may make up to two block sales in any one year period, and each block sale must recognize proceeds of at least \$20 million. These provisions terminate with respect to a Principal Stockholder if it owns less than 10% of our Common Stock.

Compensation Discussion and Analysis

2009 Overview

During 2009, along with conducting its normal oversight responsibilities, the Compensation Committee again reviewed the Company's compensation practices in light of the Company's performance, stock market valuation and the difficult business environment. Using the peer group information and recommendations from Frederick W. Cook & Company (as described in more detail below), the Committee reviewed and confirmed, with minor adjustments, its policies governing senior management compensation including plans for annual salaries, incentive compensation and long-term equity compensation. The Committee reviewed 2009 performance company-wide and for individual members of senior management and awarded bonuses as more fully described below. The Committee reviewed the parameters for annual management equity awards and approved an annual option grant effective February 9, 2009.

Compensation Program Philosophy and Objectives

Our primary objective with respect to executive compensation is to provide competitive compensation and benefits to attract, retain, motivate and reward the highest quality executive officers, while supporting our core values and strategic initiatives. A further key objective is to create a pay-for-performance culture such that a substantial portion of each executive officer's compensation is contingent on, and variable with, achievement of objective corporate and individual performance goals and other objective measures of success.

In addition, we aim to establish compensation plans that align the performance of our executive officers with our business plan and strategic objectives and promote the interests of stockholders by focusing management on achieving strong short-term (annual) performance in a manner that supports and ensures our long-term success and profitability.

Finally, it is a key objective to ensure that compensation provided to executive officers remains reasonable and responsible yet competitive relative to the compensation paid to similarly situated executives at comparable companies. It is essential that our overall compensation levels be sufficiently competitive to attract talented leaders and motivate those leaders to achieve superior results. At the same time, our executive compensation programs are intended to be consistent with our focus on controlling costs.

In addition to rewarding corporate and individual performance, our compensation program is designed to reward the level of responsibility of, and the position undertaken by, an executive. Total compensation and accountability should generally increase with position and responsibility. As a result, total compensation is higher for individuals with greater responsibility and greater ability to influence our achievement of targeted results and strategic initiatives. Additionally, as position and responsibility increases, a greater portion of the executive officer's total compensation is performance-based pay contingent on the achievement of performance

Table of Contents

objectives. In the same way, equity-based compensation is higher for persons with higher levels of responsibility, making a significant portion of their total compensation dependent on long-term stock appreciation.

The Process of Setting Executive Compensation

Our Compensation Committee meets throughout the year, including in executive session, to evaluate the performance of our named executive officers, to determine their bonuses for the prior fiscal year, to establish the individual and corporate performance objectives for each executive for the current fiscal year, to set their base salaries for the next fiscal year, to determine the portion of total compensation that will be contingent, performance-based pay, and to consider and approve any grants of equity incentive compensation. Our Compensation Committee also reviews the appropriateness of the financial measures used in incentive plans and the degree of difficulty in achieving specific performance targets. Our Compensation Committee engages in an active dialogue with our Chief Executive Officer concerning strategic objectives and performance targets.

Our Compensation Committee establishes, together with the performance objectives, targeted annual cash compensation levels (i.e. maximum achievable compensation) for each of the named executive officers by determining each named executive officer's base salary and amount of bonus compensation upon achievement of performance targets. In preparing the target amounts, the size of one individual element of compensation does, in some respects, affect the Compensation Committee's determination of what the targeted amount of other components of compensation should be. For example, each executive's base pay is used as a basis for calculating a target contribution percentage for purposes of establishing the bonus pool. As a general proposition, the Compensation Committee attempts to determine the overall best mix of fixed and incentive compensation. In making this determination, the Compensation Committee is guided by the compensation philosophy described above. The Compensation Committee also considers historical compensation levels, the relative compensation levels among our senior executive officers and the competitive pay practices at other companies using third-party compensation studies and surveys performed by independent organizations. We use these third-party compensation studies as a basis for comparing and setting individual elements of executive compensation for the named executive officers because they provide compensation information for companies in our industry and also provide comprehensive compensation information not obtainable from public sources. The Compensation Committee may also consider industry conditions, corporate performance versus a peer group of companies and the overall effectiveness of our compensation program in achieving desired performance levels. In 2007, the Compensation Committee, in consultation with Frederic W. Cook & Company, a compensation consulting firm retained by the Compensation Committee, identified the following peer group of companies based on size and business focus: Bankrate, Inc., Blue Nile, Inc., ComScore, Inc., drugstore.com, inc., Greenfield Online Inc., Kenexa Corporation, Limelight Networks, Inc., Liquidity Services, Inc., LoopNet, Inc., Shutterfly, Inc., TechTarget, Inc., The Knot, Inc., VistaPrint Limited, WebMD Health Corp. and Websense, Inc. We continued to use data from this peer group for comparison purposes in 2009, although not all the companies in the group continued to operate as independent public companies.

We believe that internal pay equity is an important factor to be considered in establishing compensation for our officers. The Compensation Committee has not established a policy regarding the ratio of total compensation of the Chief Executive Officer to that of the other officers, but it does review compensation levels to ensure that appropriate pay equity exists, which is determined in the Compensation Committee's discretion based on our Compensation Committee members' experience with, and knowledge of, other companies' practices. The Compensation Committee intends to continue to review internal compensation equity and may adopt a formal policy in the future if we deem such a policy to be appropriate.

Benchmarking

The Compensation Committee does not believe that it is appropriate to establish compensation levels primarily based on benchmarking. While we recognize that our compensation practices must be competitive in the marketplace, such marketplace information is one of the many factors that we consider in assessing the reasonableness of compensation. When a named executive officer is scheduled to receive his or her annual raise,

Table of Contents

the Compensation Committee sometimes reviews independent compensation studies in order to compare the compensation received by comparable executives in similar-sized companies to ensure that the compensation we award is competitive in the market place, as detailed in the section *The Process of Setting Executive Compensation* above. In September 2007, Frederic W. Cook & Company conducted a comprehensive review of our then-existing compensation programs for executive officers. The purpose of the review was to assess the design and competitive positioning of our compensation programs and to make recommendations for change, if appropriate, to be implemented as part of our compensation program going forward. For 2009, the Compensation Committee used the Frederick W. Cook & Company analysis in part to evaluate and determine the compensation for Mr. Melland, Mr. Durney, Mr. Silver and Mr. Campbell. Frederick W. Cook & Company is currently working with the Compensation Committee to update this analysis to assist with executive compensation decisions for 2010. Frederick W. Cook & Company also continues to advise the Compensation Committee from time to time on our compensation program and related executive compensation matters.

Management's Role in the Compensation-Setting Process

Our Chief Executive Officer, Mr. Melland, plays a significant role in the compensation-setting process. Mr. Melland evaluates the performance of the other named executive officers, recommends business performance targets and objectives for the other named executive officers and recommends salary and bonus levels and option awards for other executive officers. Mr. Durney recommends salary and bonus levels and option awards for Mr. Campbell. All recommendations of Mr. Melland and Mr. Durney are subject to Compensation Committee approval. The Compensation Committee discusses the recommendations with Mr. Melland or Mr. Durney, as appropriate, and then makes its decisions in its sole discretion. Similarly, Mr. Melland's compensation, performance targets and objectives are discussed among the members of the Compensation Committee and the Compensation Committee sets Mr. Melland's compensation. Mr. Melland may ask the Compensation Committee for the right to exercise discretion in awarding executive compensation in exceptional circumstances, but our general practice is that all decisions of the Compensation Committee are considered final.

Mr. Melland helps the Compensation Committee set its agenda for meetings and participates in committee meetings at the committee's request. He provides background information regarding our strategic objectives, evaluates the performance of the senior executive officers, and makes compensation recommendations for senior executive officers. Other executives also prepare information for each Compensation Committee meeting.

Elements of Executive Compensation

Base Salary

Base pay provides executives with a base level of regular income. In determining a named executive officer's base salary, we consider the executive's qualifications, experience and industry knowledge, the quality and effectiveness of their leadership at our company, the scope of their responsibilities and future potential, the goals and objectives established for the executive, the executive's past performance, the base salary paid to officers in comparable positions at companies who are reflected in independent studies, internal pay equity and other factors as deemed appropriate. In addition, we consider the other components of executive compensation and the mix of performance pay to total compensation. The Compensation Committee does not apply any specific weighting to these factors.

Annually, the Compensation Committee reviews each executive's past salary and performance, and general economic conditions in our industry, and decides whether or not to adjust the salary. Adjustments, if any, are implemented effective as of January 1 in the case of Messrs. Melland, Durney and Benson, and effective typically on anniversary dates in the case of Messrs. Silver and Campbell. Subject to the limitations found in each executive's employment agreement we entered into with each of the executives, the Compensation Committee can increase or decrease an executive's base salary at its discretion.

Table of Contents

In light of the challenging economic environment, Mr. Melland and Mr. Durney recommended against salary increases during 2009 for the named executive officers who report to them and the Compensation Committee agreed with those recommendations. Accordingly, base salaries remained flat for Mr. Melland (\$440,000); Mr. Durney (\$355,000); Mr. Campbell (\$277,000); and Mr. Benson (approximately \$216,346 (reflecting £137,800 converted at US\$1.57 for each £1)). Mr. Silver's base salary also remained flat (\$308,000) until the time of his promotion to Senior Vice President, North America in September 2009. At that time, Mr. Melland recommended a salary increase for Mr. Silver to \$325,000, which was approved by the Compensation Committee. Base salaries also remained flat for the majority of senior management within the Company.

Senior Bonus Plan

We award annual cash bonuses under our Senior Bonus Plan for achievement of specified performance objectives with a time horizon of one year or less. We make awards from an established bonus pool. The Compensation Committee determines the total size of our bonus pool by taking into account our qualitative and financial performance. Within the parameters of the overall pool, there are separate sub-pools allocated to the performance of the individual operating units. The Compensation Committee determines the size of an award that we make to a particular executive by considering his or her individual performance as measured against pre-set performance targets and objectives and his or her individual impact on our overall performance. Each of those pieces is equally weighted. We believe this pool-based bonus system helps to foster teamwork and ensures that all executives work together as one in the interest of our performance. The current structure of the plan has been in place since 2004.

In determining the annual cash bonuses awarded to each named executive officer under our Senior Bonus Plan, the Company takes into account many of the same factors that it considers when determining base salaries, with particular focus on the Committee's evaluation of the named executive officer's performance in the preceding fiscal year. Similar to the determinations with respect to base salary and equity incentives, the Committee considers all relevant factors taken as a whole in setting the applicable annual cash bonus award for the fiscal year.

The revenue target and the Adjusted EBITDA target for bonus pool purposes are set on an annual basis. In December 2008, our proposed 2009 bonus plan was presented to the board and the final plan was approved in February 2009. For purposes of funding the senior bonus pool for 2009, the Compensation Committee established a target for revenue of \$109.6 million and a target for Adjusted EBITDA of \$47.4 million. For purposes of Mr. Benson's participation in the Senior Bonus Plan, the target for revenue and the target for Adjusted EBITDA (as converted from British Pounds to U.S. Dollars at an exchange rate of US\$1.57 for each £1) was approximately \$29.2 million and approximately \$10.6 million, respectively, representing the goals for the worldwide eFinancialCareers business. The revenue target for purposes of the Senior Bonus Plan was not intended to be in accordance with U.S. GAAP and includes various adjustments that cause the measurement amount to differ from our actual results. Likewise, the Adjusted EBITDA target includes various adjustments, such as the exclusion of stock based compensation and the exclusion of the accrual for the senior bonus. Additionally, the actual revenue and Adjusted EBITDA results are adjusted to use foreign exchange rates that were assumed when the target amounts were determined, therefore eliminating the impact of changes in exchange rates. We calculate our total bonus pool by taking a percentage of each executive's base compensation and contributing that amount to the total bonus pool for our executives. In 2009, this target contribution percentage was 75% for Mr. Melland as Chief Executive Officer, 60% for Mr. Durney as Chief Financial Officer, 53% for Mr. Silver as Senior Vice President (reflecting a prorated combination of his 50% target prior to his promotion in September 2009 and 60% after his promotion), 50% for Mr. Benson as Chief Executive Officer of eFinancialCareers and 35% for Mr. Campbell as Vice President and General Counsel. We multiply this percentage by the executive's annual base compensation to obtain each executive's targeted pay contribution to the pool.

Table of Contents

The total bonus pool available for the named executive officers and other senior executives designated by the Compensation Committee is funded in the following way:

30% of the pool is funded automatically;

35% is funded according to the percentage of the revenue target achieved; and

35% is funded according to the percentage of the Adjusted EBITDA target achieved.

For 2009, if our actual results are lower than 85% of the revenue target or the Adjusted EBITDA target, the 35% of the bonus pool to be funded upon achieving the applicable target is not funded. If 85% of the applicable target is achieved, 50% of the 35% to be funded with respect to the applicable target is funded. If our actual revenue or Adjusted EBITDA falls between 85% and 100% of the applicable target, the amount to be funded for each target to the bonus pool increases from 50% to 100% of the applicable 35% portion of the bonus pool on a pro-rata basis. Further, for 2009, the size of our bonus pool would increase by 6.25% for each 1% that our actual revenue exceeds our revenue target (the revenue multiplier), provided that actual Adjusted EBITDA is also equal to or greater than the sum of (1) the Adjusted EBITDA target plus (2) 50% of the amount by which actual revenue exceeds our revenue target. (If actual Adjusted EBITDA exceeds our Adjusted EBITDA target but actual revenue does not exceed our revenue target, the bonus pool does not increase.) The Compensation Committee reduced the revenue multiplier from 12.5% in 2008 to 6.25% in 2009 to reflect the lower aggregate revenue target in the plan.

If our actual revenue exceeds our target amount, and our actual Adjusted EBITDA performance is sufficient such that the bonus pool is increased as described above, then the contribution we make to the bonus pool in respect of each executive's base compensation can be increased so that each individual's base compensation contribution to the bonus pool can be as much as two times their targeted base compensation contribution.

In 2009, for purposes of the bonus pool, the actual revenue was \$107.2 million and the actual Adjusted EBITDA amount was \$50.4 million. For the worldwide eFinancialCareers business, the actual revenue and the Adjusted EBITDA (as converted from British Pounds to U.S. Dollars at an exchange rate of US\$1.57 for each £1) was approximately \$26.7 million and approximately \$10.1 million, respectively. Because our actual revenues for bonus pool purposes were below our budget targets, the bonus pool funding was decreased by 3% (16% in the case of Mr. Benson) and, accordingly, we multiplied each executive officer's targeted base compensation contribution amount by 97% (except that for Mr. Benson the multiplier was 84%) to determine how much would be contributed to the bonus pool with respect to his or her base compensation. As a result, the total bonus pool for the Senior Bonus Plan for 2009 was \$1.7 million. The five named executive officers plus 18 other members of senior management participated in the Senior Bonus Plan and were eligible for bonuses out of the total bonus pool.

The Compensation Committee then reviews each executive's performance against his individual performance objectives (set forth below) and may further increase or decrease the percentage for any particular executive if that executive has had a significant impact in helping us achieve superior company performance. We believe this ensures that executives whose performance is outstanding receive proportionately larger bonuses as a reward. It is possible that any single participant may be allocated a bonus from the bonus pool in an amount up to a maximum of two times his or her targeted base compensation contribution to the bonus pool, if his or her performance warrants such a payout based on the Compensation Committee's qualitative assessment of the executive's performance against his or her goals and objectives. Similarly, it is also possible that any participant in the Senior Bonus Plan may be allocated less than his or her targeted base compensation contribution to the bonus pool, based on his or her performance against his or her goals and objectives.

The 2009 individual performance goals and objectives for Mr. Melland included:

achieving 2009 financial and operating targets, including revenue, EBITDA, and operating cash flow;

Table of Contents

Based on input received from Mr. Melland and Mr. Durney with respect to each of their direct reports, the Compensation Committee determines in its sole discretion the extent to which such individuals' goals and objectives are achieved. For 2009, the Compensation Committee did not make any adjustments to the bonus pool allocations as a result of individual performance for Messrs. Melland, Durney, Silver and Campbell and each of them was awarded a bonus equal to 100% of his basic bonus allocation (which represented 97% of his respective targeted base compensation contribution amount) based on meeting his performance goals and objectives and due to the overall management of the business in a difficult environment during 2009. For 2009, the Compensation Committee awarded Mr. Benson a bonus equal to 87% of his basic bonus pool allocation (which represented 73% of his base compensation contribution amount) due to the lower financial performance of the eFinancialCareers business unit and slower than expected progress on certain global operating goals.

Equity Incentives

We believe that equity compensation is the most effective means of creating a long-term link between the compensation provided to executives and gains realized by our stockholders, as the value of stock-based compensation is dependent upon long-term appreciation in stock price. Accordingly, we believe stock options should be a significant part of the total mix of executive compensation. Under our 2005 Omnibus Stock Plan and our 2007 Equity Award Plan, all stock options incorporate the following features:

the term of the grant does not exceed 10 years;

the grant price is not less than the fair market value of our Common Stock on the date of grant; and

options typically vest over four years, with the first 25% typically vesting on the first anniversary of the vesting commencement date, and 6.25% vesting quarterly thereafter.

We continue to use stock options as a long-term incentive vehicle because:

Stock options align the interests of executives with those of the stockholders, support a pay-for-performance culture, foster employee stock ownership, and focus the management team on increasing value for the stockholders.

Stock options are performance based: all the value received by the recipient from a stock option is based on the growth of the stock price above the option price.

Stock options help to provide a balance to the overall compensation program: while salary and cash bonuses focus on the achievement of annual performance targets, the four year vesting for stock options creates incentive for increases in stockholder value over a longer term.

The vesting period encourages executive retention and the preservation of stockholder value.

In determining the number of options to be granted to each named executive officer, the Compensation Committee takes into account (1) the individual's position, scope of responsibility, and ability to affect company performance and stockholder value; (2) the Compensation Committee's evaluation of the named executive officer's performance in preceding fiscal years; (3) the extent to which the long-term equity award grant value is competitive with our peer group companies for long-term equity award grants for comparable positions in the Company's industry; (4) any extraordinary changes that have occurred (such as a significant change in responsibilities or a promotion); and (5) the value and potential value for the executive of the other elements of the Company's compensation program and the value of stock options in relation to such other elements of total compensation.

In addition, the Committee considers the following material factors that have particular relevance to long-term equity grants: (1) the Company-wide equity budget (which is the aggregate grant values of all long-term equity awards available for grant to Company employees,

Edgar Filing: DICE HOLDINGS, INC. - Form DEF 14A

expressed as a percentage of the Company's market capitalization), which is taken into account in determining the relative size of awards granted to the named executive officers to ensure there is sufficient value available for grant to the other eligible employees of the

Table of Contents

Company; and (2) the named executive officer's unrealized value from previous grants, including the number of options currently held by him or her and the level of options granted in prior years (with an emphasis on the extent to which outstanding equity grants are still unvested and thus continue to represent substantial retentive value). As with the determinations with respect to other elements of compensation, the Committee considers all relevant factors taken as a whole in setting the applicable equity grant for the fiscal year.

In February 2009, the Compensation Committee approved an option grant to key members of our management team, including Messrs. Melland, Durney, Silver, Benson and Campbell. This was part of an annual option grant and part of our overall compensation program. In October 2009, Mr. Silver received an additional option grant in connection with his promotion to Senior Vice President, North America. In determining the size of these grants for our named executive officers, the Compensation Committee took into account the material factors set forth above, in conjunction with the Frederick W. Cook & Company analysis. As part of its overall review of the Company's compensation program, the Compensation Committee set a seven year term for the stock options, consistent with the 2008 option grant.

In 2010, while we will continue to grant stock options to our named executive officers subject to similar vesting criteria as in previous years, we may grant a portion of each annual equity award in the form of shares of restricted stock to assist in retention of key executives.

Employee Benefits

Executive officers participate in other employee benefit plans generally available to all employees on the same terms, such as a 401(k) plan with a Company matching contribution. In addition, certain executive officers participate in a Supplemental Disability Plan.

Severance and Change-in-Control Arrangements

Each named executive officer is entitled to receive severance benefits under the terms of his or her employment agreement upon either termination by us without cause or resignation by the executive for good reason. For details on our change of control severance plan, see *Potential Post-Employment Payments Upon Termination or Change in Control*. We award severance payments in the event of a termination related to a change of control to ensure that each executive is focused on our best interests, even if that means working himself or herself out of a job.

Reasonableness of Compensation

After considering all components of the compensation paid to the named executive officers in respect of 2009, we considered the total compensation reasonable because:

Management and the Company performed well in a challenging economic environment in 2009;

The total compensation levels for the named executive officers are comparable with those of similarly situated executives in comparable companies.

Tax and Accounting Considerations

We generally seek to maximize the deductibility for tax purposes of all elements of compensation. For example, we have consistently issued nonqualified stock options that will result in a tax deduction to us upon exercise. Section 162(m) of the Internal Revenue Code (the "Code") generally disallows a tax deduction to public corporations for non-qualifying compensation in excess of \$1.0 million paid to our named executive officers (other than our Chief Financial Officer) in any fiscal year. Since the date of our initial public offering in 2007, we have not been subject to the provisions of Section 162(m) because of a transitional relief exception that applies to newly public companies. The Compensation Committee reviews compensation plans in light of applicable tax

Table of Contents

provisions, including Section 162(m), and may revise compensation plans from time to time to maximize deductibility. However, the Compensation Committee may approve compensation that does not qualify for deductibility when we deem it to be in our best interests.

The following table sets forth the cash and non-cash compensation paid by us or incurred on our behalf to our named executive officers during each of our last three completed fiscal years.

the consummation of a reorganization, merger or consolidation or sale or disposition of all or substantially all our assets or the acquisition of assets or stock of another corporation or other business combination, unless following such business combination (1) all or substantially all of the beneficial owners of our securities before the business combination beneficially own more than 60% of the voting securities of the resulting corporation in substantially the same proportions as their ownership before the transaction; (2) no person owns 20% or more of the voting securities of the resulting corporation except to the extent that such ownership existed before the business combination; and (3) the members of our board of directors prior to such business combination constitute at least a majority of the board of directors of the resulting corporation; or

Under each named executive officer's employment agreement, the executive may become entitled to certain Severance Payments upon termination of employment without cause or by the employee for good reason after a change in control. These Severance Payments are described more specifically below, but generally include a lump sum payment tied to salary and bonus level and accelerated vesting of stock options. In the event that any Severance Payments would be subject to the excise tax imposed by Section 4999 of the Code, we will gross up, on an after-tax basis, the executive officer's compensation so as to put him in the same after-tax position he would have enjoyed had the Section 4999 excise tax not applied to the Severance Payments. These make-whole provisions include certain computational assumptions and conventions, for example: (1) any other payments or benefits received in connection with a change in ownership or control will be treated as parachute payments, and all excess parachute payments are treated as subject to the excise tax, both as defined by Section 280G of the Code, and (2) the amount of the severance payments which will be treated as subject to the excise tax will be the lesser of the total amount of the severance payments or the amount of the excess parachute payments.

Upon any termination, each named executive officer, his or her spouse and eligible dependents will be entitled to continued medical and dental benefits at active-employee rates for a period of 12 months following termination, and such benefits will not be reduced by benefits obtained from a subsequent employer.

Any named executive officer who voluntarily resigns for any reason other than good reason during the 12 month period following a change of control will not be entitled to any severance payment or acceleration of the vesting of any unvested stock options.

Employment Agreement for Mr. Benson

The employment of Mr. Benson may be terminated by eFinancialCareers or by Mr. Benson at any time, with or without cause, subject to the provisions of his employment agreement (which generally requires six months advance notice of termination). However, eFinancialCareers may terminate Mr. Benson's employment at any time if he has been unable to perform his duties by reason of ill health or injury for 30 days in any period of 52 consecutive weeks; if he becomes of unsound mind or a patient for the purpose of any mental health statute, or bankrupt; if he is convicted of a crime other than one that in the opinion of the board of directors of eFinancialCareers does not affect his position as an employee of eFinancialCareers; or if he is guilty of any serious default or misconduct in connection with or affecting the business of eFinancialCareers, commits any serious or repeated breach of his obligations under his employment, is guilty of serious neglect or negligence in the performance of his duties or behaves in a manner which is likely to bring eFinancialCareers into disrepute or which seriously impairs his ability to perform his duties.

Equity Award Provisions

According to the terms of each named executive officer's Nonqualified Stock Option Agreements, if their employment is terminated due to their death or disability or for any other reason except by us for cause, the unvested portion of their stock option will expire on the date they are terminated. The vested portion will remain exercisable until the earlier of either the expiration of the option period or 12 months after such termination in the case of termination due to death or disability, or 90 days after any other termination other than termination by us for cause.

If we terminate any named executive officer's employment for cause, both the unvested and vested portions of the stock option will terminate on the same date their employment is terminated.

Scot W. Melland

If Mr. Melland's employment is terminated by us without cause prior to a change of control, he will be entitled to a lump sum severance payment of one times the sum of his then current annual salary plus his then current target bonus, and accelerated vesting of 25% of his then unvested stock options.

If Mr. Melland's employment is terminated following a change of control, either by us without cause or by him for good reason, he will be entitled to a lump sum severance payment of 117% of his then current annual salary plus his then current target bonus, and all of his outstanding stock options will immediately become vested and exercisable.

Mr. Melland will be entitled to an additional lump sum payment equal to 50% of his then current annual salary if, within 60 days after any termination, he enters into a written separation agreement containing a covenant not to engage in any business that competes with us, solicit our employees, or disparage us for a period of 18 months following such termination. Mr. Melland will also be entitled to this lump sum payment if we do not negotiate such a separation agreement with him within 60 days following his termination.

In accordance with the terms of the Nonqualified Stock Option Agreements entered into by Mr. Melland, the stock options granted to him will immediately become fully vested and exercisable on the date of any change of control and will remain exercisable until expiration of the relevant option periods.

Michael P. Durney

If Mr. Durney's employment is terminated by us without cause prior to a change of control, we will provide him with a severance payment in an amount equal to his then current annual salary, provided he executes and delivers a release form prepared by us. In the event of such termination, all of Mr. Durney's outstanding options will immediately become vested and exercisable.

If Mr. Durney's employment is terminated either by us without cause or by him for good reason within 12 months following a change of control, he will be entitled to a lump sum severance payment of one times the sum of his then current annual salary plus his then current target bonus (or, if higher, the amount of bonus attributable to a calendar year's service paid to the executive immediately prior to the change of control), and all outstanding stock options will immediately become vested and exercisable.

Thomas M. Silver

If Mr. Silver's employment is terminated by us without cause prior to a change of control, he will be entitled to a lump sum severance payment of one times his then current annual base salary, and accelerated vesting of 25% of his then unvested stock options.

If Mr. Silver's employment is terminated either by us without cause or by him for good reason following a change of control, he will be entitled to a lump sum severance payment of one times the sum of his then current annual salary plus his then current target bonus, and all outstanding stock options will immediately become vested and exercisable.

Table of Contents*Brian P. Campbell*

If Mr. Campbell's employment is terminated by us without cause before a change of control, he will be entitled to a lump sum severance payment of 75% of his then current annual salary.

If Mr. Campbell's employment is terminated either by us without cause or by him for good reason within 12 months following a change of control, he will be entitled to receive a lump sum severance payment equal to one times his then current annual salary plus the amount of his most recently paid regular annual bonus, excluding special bonuses (or, if higher, the amount of bonus attributable to a calendar year's service paid to him immediately prior to the change of control), and all outstanding stock options will immediately become vested and exercisable.

John P.R. Benson

If Mr. Benson's employment is terminated by us because Mr. Benson is unable to perform his duties as a result of ill health or injury, he will be entitled, for so long as his employment continues, to his salary during any period of incapacity of not more than 30 days in any period of 52 consecutive weeks. With the exception of the six months advance written notice of termination of employment (other than for cause), Mr. Benson is not entitled to any severance payments upon the termination of his employment by us or to any acceleration of the vesting of his outstanding stock options.

Compensation Risks

The Compensation Committee has reviewed the Company's compensation policies and practices for all employees, including our executive officers, as they relate to risk management practices and risk-taking incentives and has determined that there are no risks arising from these policies and practices that are reasonably likely to have a material adverse effect on the Company. Frederick W. Cook & Company also concurs in this conclusion. The Compensation Committee considers that our compensation programs incorporate several features which promote the creation of long-term value and reduce the likelihood of excessive risk-taking by our employees. These features include: (i) a balanced mix of cash and equity, annual and longer-term incentives, and types of performance metrics, (ii) the ability of the Compensation Committee to exercise negative discretion over all incentive program payouts, (iii) performance targets for incentive compensation that include both objective Company performance targets (such as revenue and Adjusted EBITDA targets) and individual performance goals, (iv) time-based vesting of stock option awards that encourages long-term retention, (v) a bonus pool for the majority of non-executive employees that is capped at an amount equal to a small percentage of each employee's annual base salary, and (vi) internal controls on commissions paid to employees in the sales division.

Table of Contents

It is also our policy that the Compensation Committee will, to the extent permitted by governing law, have the sole and absolute authority to make retroactive adjustments to any cash or equity based incentive compensation paid to executive officers and certain other officers where the payment was predicated upon the achievement of certain financial results that were subsequently the subject of a restatement. Where applicable, we will seek to recover any amount determined to have been inappropriately received by the individual executive.

Table of Contents**ITEMS TO BE VOTED ON****Proposal 1: Election of Directors**

The current term of office of the Company's Class III Directors expires at the 2010 Annual Meeting. The Board proposes that the following nominees, all of whom are currently serving as directors, be re-elected for a new term of three years or until their successors are duly elected and qualified. Each of the nominees has consented to serve if elected. If any of them becomes unavailable to serve as a director before the Annual Meeting, the board may designate a substitute nominee. In that case, the persons named as proxies will vote for the substitute nominee designated by the board. See *Directors and Corporate Governance Board Structure Composition of our Board of Directors*, for a full biography of each nominee.

John W. Barter

Scot W. Melland

William W. Wyman

Directors are elected by a plurality of the votes cast at the Annual Meeting by the holders of shares present in person or represented by proxy at the meeting and entitled to vote in the election. Our Principal Stockholders control approximately 72% of the vote for the election of the Class III Directors. As a result of its shareholdings, the Principal Stockholders have the ability to cause the election of all Class III Directors. The Company expects the Principal Stockholders will vote **FOR** the approval of the nominees for the Class III Directors ensuring the election of the entire slate of Class III Directors nominated by the board.

THE BOARD RECOMMENDS A VOTE FOR EACH OF THE PERSONS NOMINATED BY THE BOARD.

Proposal 2: Ratification of Selection of Independent Registered Public Accounting Firm

The Audit Committee has selected Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010. Services provided to the Company and its subsidiaries by Deloitte & Touche LLP in fiscal 2009 are described below under *Principal Accounting Fees and Services*.

Deloitte & Touche LLP, an independent registered public accounting firm, has served as the Company's auditors since the Company's incorporation in 2005. Representatives of Deloitte & Touche LLP will be present at the Annual Meeting and will be given the opportunity to make a statement if they desire to do so and to respond to appropriate questions from stockholders.

Stockholder approval is not required for the selection of Deloitte & Touche LLP since the Audit Committee has the responsibility for the selection of auditors. However, the selection is being submitted for approval at the Annual Meeting. In the event the stockholders do not ratify the selection of Deloitte & Touche LLP as the independent registered public accounting firm for fiscal 2010, the selection will be reconsidered by the Audit Committee and the board. Even if the selection of Deloitte & Touche LLP is ratified by our stockholders, the Audit Committee, in its discretion, may select a different registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our stockholders.

The affirmative vote of a majority in voting power of shares of Common Stock present in person or represented by proxy and entitled to vote is needed to ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm. Our Principal Stockholders control approximately 72% of the vote for the ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm. As a result of its shareholdings, the Principal Stockholders have the ability to cause the ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010. The Company expects the Principal Stockholders will vote **FOR** the ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for fiscal 2010.
