Certain information and footnote disclosure normally included in the financial statements prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP) have been condensed or omitted from this report as is permitted by SEC rules and regulations. However, the Company believes that the disclosures are adequate to make the information presented not misleading. This report should be read in conjunction with the audited consolidated financial statements and notes for the year ended December 31, 2009 in the Company's annual report on Form 10-K.

The unaudited condensed consolidated financial statements contain all normal and recurring adjustments that, in the opinion of management, are necessary for a fair presentation of the condensed consolidated statements of financial condition, the condensed consolidated statements of operations, the condensed consolidated statements of cash flows, and the condensed consolidated statements of changes in equity of the Company for the interim periods presented. Recently Adopted Accounting Pronouncements:

In June 2009, the Financial Accounting Standards Board (FASB) issued guidance that addresses the effects of eliminating the Qualified Special Purpose Entity (QSPE) concept from existing accounting guidance and clarifies and amends certain key provisions, including the transparency of an enterprise's involvement with variable interest entities (VIEs). The key changes resulting from this new FASB guidance are the requirement of a qualitative rather than a quantitative analysis to determine the primary beneficiary of a VIE, the requirement of continuous assessments as to whether an enterprise is the primary beneficiary of a VIE, amendments to certain existing guidance related to the determination as to which entities are deemed VIEs, and the amendment of existing consideration of related party relationships in the determination of the primary beneficiary of a VIE. This FASB guidance also requires enhanced disclosures to provide more transparent information regarding an enterprise's involvement with a VIE. This FASB guidance became effective with the first reporting period that began after November 15, 2009 and was adopted by the Company on January 1, 2010. The adoption of this FASB guidance did not have a material effect on the Company's unaudited condensed consolidated financial statements.

In January 2010, the FASB issued guidance on *Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements*. This guidance provides amendments to existing FASB guidance that require new disclosures including the amounts of and reasons for transfers in and out of Levels 1 and 2 fair value measurements and reporting activity in the reconciliation of Level 3 fair value measurements on a gross basis. This guidance provides amendments that clarify existing disclosures regarding the level of disaggregation for providing fair value measurement disclosures for each class of assets and liabilities. In addition, it clarifies existing disclosures about inputs and valuation techniques used to measure fair value for both recurring and nonrecurring fair value measurements that are required for either Level 2 or Level 3. This guidance was effective for interim and annual reporting periods ending after December 15, 2009 except for the disclosures about the roll forward of activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 31, 2010 and for interim periods within those fiscal years. The adoption of this guidance did not have a material impact on the Company's unaudited

condensed consolidated financial statements and the adoption of this guidance with respect to disclosures of the roll forward of activity in Level 3 fair value measurements is not expected to have a material impact on the Company's unaudited condensed consolidated financial statements.

2. Limited Partnership Interests in BGC Holdings

BGC Holdings, L.P. (BGC Holdings) is a consolidated subsidiary of the Company for which the Company is the general partner. The Company and BGC Holdings jointly own BGC Partners, L.P. (BGC US) and BGC Global Holdings L.P. (BGC Global), the two operating partnerships. Listed below are the limited partnership interests in BGC Holdings. The founding/working partner units, limited partnership units and Cantor units, each as defined below, make up all of the limited partnership interests in BGC Holdings .

Founding/working partner units

Founding/working partners have a limited partnership interest in our consolidated subsidiary, BGC Holdings. The Company accounts for founding/working partner interests outside of permanent capital, as Redeemable partnership interest , in the unaudited condensed consolidated statements of financial condition. This classification is in accordance with FASB guidance, *Classification and Measurement of Redeemable Securities*, which requires that preferred securities, or other equity instruments, including common stock, derivative instruments, and share-based payment arrangements that are classified as equity and that are redeemable for cash or other assets, are to be classified outside of permanent equity if they are redeemable (1) at a fixed or determinable price on a fixed or determinable date, (2) at the option of the holder, or (3) upon the occurrence of an event that is not solely within the control of the issuer. This guidance is applicable to founding/working partner units because founding/working partner units are redeemable upon termination of a partner, which includes the termination of employment, which can be at the option of the partner and not within the control of the issuer.

Founding/working partner units are held by limited partners who are employees and that generally receive quarterly allocations of net income based on their weighted average pro rata share of economic ownership of the operating subsidiaries. Upon termination of employment or otherwise ceasing to provide substantive services, the founding/working partner units are redeemed, and the unit holders are no longer entitled to participate in the quarterly (cash distributed) allocations of net income. Since these allocations of net income are cash distributed on a quarterly basis and are contingent upon services being provided by the unit holder, they are reflected as a separate component of compensation expense under Allocation of net income to limited partnership interests in BGC Holdings in the Company s unaudited condensed consolidated statements of operations.

Limited Partnership Units

REUs, RPUs, PSUs and PSIs are limited partnership interests in our consolidated subsidiary, BGC Holdings (the limited partnership units), that are held by employees. Generally such units receive quarterly allocations of net income based on their weighted average pro rata share of economic ownership of our operating subsidiaries. These allocations are cash distributed on a quarterly basis and are generally contingent upon services being provided by the unit holders. As prescribed in FASB guidance, the quarterly allocations of net income on such limited partnership units are reflected as a separate component of compensation expense under Allocation of net income to limited partnership interests in BGC Holdings in our unaudited condensed consolidated statements of operations.

Certain of these limited partnership units entitle the holders to receive post-termination payments equal to the notional amount in four equal yearly installments after the holder s termination. These limited partnership units are accounted for as liability awards, and in accordance with FASB guidance the Company records compensation expense for the liability awards based on the change in fair value at each reporting date.

Cantor Units

Cantor s limited partnership interest (Cantor units) in BGC Holdings as a result of its contribution of the BGC Division is reflected as a component of Noncontrolling interest in subsidiaries in the Company s unaudited condensed consolidated statements of financial condition. Cantor receives allocations of net income based on its weighted average pro rata share of economic ownership for each quarterly period. This allocation is reflected as a component of Net income (loss) attributable to noncontrolling interest in subsidiaries in the Company s condensed consolidated statements of operations. In quarterly periods in which the Company has a net loss, the amount reflected as a component of Net income (loss) attributable to noncontrolling interest in subsidiaries represents the loss allocation for founding/working partner units, limited partnership units and Cantor units.

Table of Contents

Certain of the limited partnership interests, described above, have been granted exchangeability into Class A common stock on a one-for-one basis; additional limited partnership interests may become exchangeable for Class A common stock on a one-for-one basis. As all limited partnership interests are already included in fully diluted share count, any conversion of limited partnership interests to Class A common shares would be non dilutive. Because these interests generally receive quarterly allocations of net income, such conversion would have no significant impact on the cash flow or equity of the Company.

3. Earnings Per Share

FASB guidance on *Earnings Per Share* (EPS) establishes standards for computing and presenting EPS. This guidance requires the dual presentation of basic and fully diluted EPS on the face of the Company's unaudited condensed consolidated statements of operations and requires a reconciliation of numerators (net income) and denominators (weighted-average shares of common stock outstanding) for both basic and fully diluted EPS in the footnotes. Basic EPS excludes dilution and is computed by dividing net income available to common stockholders by the weighted-average shares of common stock outstanding. Net income is allocated to each of the economic ownership classes described above in Note 2, Limited Partnership Interests in BGC Holdings and the Company's outstanding common stock, based on each class's pro rata economic ownership.

The Company's earnings for the three and six months ended June 30, 2010 and 2009 were allocated as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Allocation of net income to limited partnership interests in BGC Holdings	\$ 11,924	\$ 13,052	\$ 5,109	\$ 24,864
Net income available to common stockholders	\$ 7,398	\$ 8,068	\$ 3,187	\$ 16,148

The following is the calculation of the Company's basic earnings per share (in thousands, except per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
<i>Basic earnings per share:</i>				
Net income available to common stockholders	\$ 7,398	\$ 8,068	\$ 3,187	\$ 16,148
Basic weighted average shares of common stock outstanding	84,473	78,929	83,667	79,745
Basic earnings per share	\$ 0.09	\$ 0.10	\$ 0.04	\$ 0.20

Fully diluted earnings per share is calculated utilizing net income available for common stockholders plus net income allocations to the limited partnership interests in BGC Holdings, adjustments related to the interest expense on the convertible notes and expense related to dividend equivalents for RSUs as the numerator. The denominator is comprised of the weighted average number of limited partnership interests in BGC Holdings, the Company's weighted average outstanding shares of common stock, and the potential dilution that could occur if securities or other contracts to issue shares of common stock, including convertible notes, options, RSUs and warrants, were exercised, resulting in the issuance of shares of common stock that would then share in earnings in the Company's net income available to common stockholders. The limited partnership interests in BGC Holdings are potentially exchangeable into Class A shares of the Company's common stock, as a result they are included in the fully diluted EPS computation to the extent that the effect would not be anti-dilutive.

The following is the calculation of the Company's fully diluted earnings (loss) per share (in thousands, except per share data):

Clearing Agreement

Following the merger on April 1, 2008, the Company received regulatory approval from FINRA for self-clearing its own securities transactions, and began self-clearing transactions in mortgage-backed securities, equities, corporate and other DTC-eligible bonds and repurchase agreements. However, the Company does not clear its own transactions in U.S. Treasury and Agency securities.

Accordingly, since the closing of the merger, the Company has continued to receive certain clearing services from Cantor in the U.S. pursuant to its pre-existing clearing agreement (Clearing Services). These Clearing Services have been provided since April 1, 2008 in exchange for payment by the Company of third-party clearing costs and allocated costs.

On November 5, 2008, the Company entered into an Agreement (the Agreement) with Cantor. Pursuant to the terms of the Agreement, so long as Cantor is providing Clearing Services to the Company, Cantor shall be entitled to request from the Company, and the Company shall post as soon as practicable, clearing capital in the form of cash or other property, acceptable to Cantor, in the amount reasonably requested by Cantor under the Agreement. The amounts requested shall reflect Cantor's reasonable determination of its or its affiliates' required capital requirements in connection with the Clearing Services and/or potential additional funds which may be required to replace Cantor funds being otherwise utilized to post capital requirements for the benefit of the Company.

The Agreement shall not require the Company to provide cash or property which is required to be maintained by the Company to meet the capital requirements of its regulated entities or the needs of the ordinary operation of its businesses. Cantor shall not be required to pay interest on the amounts provided by the Company.

The Agreement is terminable by either party on 90 days' notice. The Company shall be entitled to withdraw a portion of the provided assets from time to time with mutual agreement by Cantor that such funds are in excess of the amounts reasonably required by Cantor. As soon as practicable following termination of the Agreement by either party, Cantor has agreed to return the provided assets to the Company. To date, no amounts have been requested by Cantor.

The Company has agreed to pay Cantor to clear its securities transactions at Cantor's cost, which shall include all direct and third-party costs which are paid directly by the Company, as well as allocated costs, which are included in Fees to related parties in the Company's unaudited condensed consolidated statements of operations.

Edgar Filing: BGC Partners, Inc. - Form 10-Q

The Company relies upon Cantor to provide Clearing Services and, in the absence of the Agreement, the Company would have to secure an alternative third-party clearing arrangement to provide such Clearing Services, which might be at higher rates or on less favorable terms.

The Company intends to continue this relationship with Cantor. Accordingly, the Company expects that Cantor will continue to post clearing capital on our behalf, and the Company will post clearing capital with Cantor as requested under the Agreement. To date, no amounts have been requested by Cantor pursuant to the Agreement. BGC Partners considers its clearing relationship with Cantor as a strong asset and competitive advantage. In the absence of such an arrangement, BGC Partners may be required to raise additional capital, borrow funds or take other action to meet the capital requirements in connection with the clearing of these transactions. The increased capital requirements required in connection with the clearing of the Company's securities transactions could have a material adverse impact on BGC Partners' ability to make distributions, repurchase its stock and limited partnership interests or affect strategic acquisitions or other opportunities. However, the Company believes that the Agreement with Cantor, or, in the alternative, a clearing agreement with an additional third-party clearing agent, will not preclude it from meeting its cash needs in the near term.

We are cooperating in the investigation, which has been inactive for over a year. Our management believes that, based on the currently available information, the final outcome of the investigation will not have a material adverse effect on our consolidated financial condition, results of operations or cash flows.

In August 2004, Trading Technologies International, Inc. (TT) commenced an action in the United States District Court, Northern District of Illinois, Eastern Division, against us. In its complaint, TT alleged that we infringed U.S. Patent No. 6,766,304, which issued on July 20, 2004, and U.S. Patent 6,772,132, which issued on August 3, 2004. TT later added eSpeed International Ltd., ECCO LLC and ECCO Ware LLC as defendants in a second amended complaint. On October 31, 2006, the Court issued a ruling on claim construction, providing the meanings of the various terms in dispute in the asserted patents. In that ruling, the Court found that we correctly defined several of the patents' key terms. On June 20, 2007, the Court granted eSpeed's motion for partial summary judgment on TT's claims of infringement covering the Dual Dynamic, eSpeedometer and modified eSpeedometer versions of eSpeed's and ECCO's products. As a result, the remaining products at issue in the case were the versions of the eSpeed and ECCO products that have not been on the market in the U.S. since around the end of 2004. The trial began on September 10, 2007 and ended on October 4, 2007. On October 10, 2007 a jury rendered a verdict that eSpeed and ECCO willfully infringed. The jury awarded TT damages in the amount of \$3.5 million.

On January 3, 2008, the Court granted eSpeed's motion for directed verdict on willfulness, finding that eSpeed's infringement was not willful as a matter of law, and denied eSpeed's general motions for directed verdict and for a new trial. On February 6, 2008, eSpeed's remittitur motion was conditionally granted, and on February 12, 2008 TT indicated by letter that it accepted the remittitur, which would reduce the principal amount of the verdict to \$2,539,468. Although ultimately the Court's Final Judgment in a Civil Case contained no provision for monetary damages, TT's motion for pre-judgment interest was granted, and interest was set at the prime rate, compounded monthly. On May 23, 2008, the Court granted TT's motion for a permanent injunction, and on June 13, 2008 denied its motion for attorneys' fees. On July 16, 2008, TT's costs were assessed by the Court clerk in the amount of \$3,321,776 against eSpeed. eSpeed filed a motion to strike many of these costs, which remains pending.

Both parties appealed to the United States Court of Appeals for the Federal Circuit, which heard arguments in the case on August 4, 2009 and issued an opinion on February 25, 2010, affirming the District Court on all issues presented on appeal. The mandate of the Court of Appeals was issued on April 28, 2010.

On June 9, 2010, TT filed in the District Court a Motion to Enforce the Money Judgment. We have opposed this motion on the ground that no money judgment was entered prior to the taking of the appeal by TT. We may be required to pay TT damages and/or certain costs. We have accrued the amount of the District Court jury's verdict as remitted plus interest and a portion of the preliminarily assessed costs that we believe would cover the amount if any were actually awarded.

On February 3, 2010, TT filed another civil action against the Company in the Northern District of Illinois, alleging infringement of three additional patents, U.S. Patents Nos. 7,533,056, 7,587,357, and 7,613,651, and by later amendment to the complaint No. 7,676,411, by the eSpeedometer product. On June 24, 2010, TT filed a second amended complaint to add certain of our affiliates. The Company is making a motion to dismiss the action on jurisdictional grounds.

On August 25, 2009, Tullett Liberty Securities LLC (Tullett Liberty) informed BGC Partners that it had filed a claim with FINRA dispute resolution (the FINRA Arbitration) in New York, New York against BGC Financial, L.P., an affiliate of BGC Partners (BGC Financial), one of BGC Financial s officers, and certain persons formerly or currently employed by Tullett Liberty subsidiaries. On January 22, 2010, Tullett Liberty filed an Amended Statement of Claim in the FINRA Arbitration, adding Tullett Prebon Americas Corp. (Tullett Americas, together with Tullett Liberty, the Tullett Subsidiaries) as a claimant, and adding 35 individual employees, who were formerly employed by the Tullett Subsidiaries, as respondents. In the FINRA Arbitration, the Tullett Subsidiaries allege that BGC Financial harmed their inter-dealer brokerage business by hiring 79 of their employees, and that BGC Financial aided and abetted various alleged wrongs by the employees, engaged in unfair competition, misappropriated trade secrets and confidential information, tortiously interfered with contract and economic relationships, and violated FINRA Rules of Conduct. The Tullett Subsidiaries also alleged certain breaches of contract and duties of loyalty and fiduciary duties against the employees. BGC Financial has generally agreed to indemnify the employees. The Tullett Subsidiaries claim compensatory damages of not less than \$779 million and exemplary damages of not less than \$500 million. The Tullett Subsidiaries also seek costs and permanent injunctions against the defendants.

On April 5, 2010, the parties submitted a stipulation agreeing to consolidate the FINRA Arbitration with five other related arbitrations (FINRA Case Nos. 09-04807, 09-04842, 09-06377, 10-00139 and 10-01265) two arbitrations previously commenced against Tullett Liberty by certain of its former brokers now employed by BGC Financial, as well as three arbitrations commenced against BGC Financial by brokers who were previously employed by BGC Financial before returning to Tullett Liberty. FINRA informed the parties by letter dated April 20, 2010 that the arbitrations had been consolidated. BGC Partners and the employee filed their Statement of Answer and BGC s Statement of Counterclaim on April 30, 2010. Tullett Liberty responded to BGC s Counterclaim on June 16, 2010.

On October 22, 2009, Tullett Prebon plc (Tullett) filed a complaint in the United States District Court for the District of New Jersey against BGC Partners captioned Tullett Prebon plc vs. BGC Partners, Inc. (the New Jersey Action). In the New Jersey Action, Tullett asserted claims relating to decisions made by approximately 81 brokers to terminate their employment with the Tullett Subsidiaries and join BGC Partners affiliates. In its complaint, Tullett made a number of allegations against BGC Partners related to raiding, unfair competition, New Jersey RICO, and other claims arising from the brokers current or prospective employment by BGC Partners affiliates. Tullett claimed compensatory damages against BGC Partners in excess of \$1 billion for various alleged injuries as well as exemplary damages. It also sought costs and an injunction against additional hirings.

On December 21, 2009, BGC Partners moved to dismiss the complaint in the New Jersey Action. Rather than contest the motion, Tullett filed its First Amended Complaint on January 11, 2010 (the Amended New Jersey Complaint), which largely repeats the allegations of injury and the claims asserted in the initial complaint. The Amended New Jersey Complaint incorporates the damages sought in the FINRA Arbitration, repeats many of the allegations raised in the FINRA Arbitration and also references hiring of employees of Tullett affiliates by BGC Partners or BGC Partners affiliates overseas, for which Tullett and/or the Tullett Subsidiaries have filed suit outside of the United States, including one currently pending in the High Court in London and another commenced by a Tullett affiliate against seven of our brokers in Hong Kong, on which we may have certain indemnity obligations. In the London action, the High Court found liability for certain of BGC Partners actions, has granted us leave to appeal some of its findings (which appeal is expected to be heard in the first quarter of 2011) and will hold a damages hearing thereafter. On February 11, 2010, BGC Partners filed a motion to dismiss the Amended New Jersey Complaint, or in the alternative, to stay the action pending the resolution of the FINRA Arbitration. In that motion, BGC Partners argued that Tullett lacked standing to pursue its claims, that the court lacked subject matter jurisdiction and that each of the causes of action in the Amended New Jersey Complaint failed to state a legally sufficient claim. On June 18, 2010, the District Court ordered that the First Amended Complaint be dismissed with prejudice.

BGC and its affiliates intend to vigorously defend against and seek appropriate affirmative relief in the FINRA Arbitration and the other actions, and believe that they have substantial defenses to the claims asserted against them in those proceedings, believe that the damages and injunctive relief sought against them in those proceedings are unwarranted and unprecedented, and believe that Tullett Liberty, Tullett and the Tullett Subsidiaries are attempting to use the judicial and industry dispute resolution mechanisms in an effort to shift blame to BGC Partners for their own failures. However, no assurance can be given as to whether Tullett, Tullett Liberty or any of the Tullett Subsidiaries may actually succeed against either BGC Partners or any of its affiliates.

In addition to the matters discussed above, we are a party to several pending legal proceedings and claims that have arisen during the ordinary course of business. The outcome of such matters cannot be determined with certainty; therefore, we cannot predict what the eventual loss or range of losses related to such matters will be. Management believes that, based on currently available information, the final outcome of such matters will not have a material effect on our financial condition, results of operations or cash flows.

Legal reserves are established in accordance with FASB guidance on *Accounting for Contingencies*, when a material legal liability is both probable and reasonably estimable. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change. The outcome of such items cannot be determined with certainty; therefore, we cannot predict what the eventual loss related to such matters will be. Our management believes that, based on currently available information, the final outcome of these current pending

matters will not have a material adverse effect on our financial position, results of operations, or cash flows.

Letter of Credit Agreements

The Company has irrevocable uncollateralized letters of credit with various banks, where the beneficiaries are clearing organizations through which we transact, that are used in lieu of margin and deposits with those clearing organizations. As of June 30, 2010, the Company was contingently liable for \$51.3 million under these letters of credit.

Risk and Uncertainties

The Company generates revenues by providing financial intermediary and securities trading and brokerage activities to institutional customers and by executing and, in some cases, clearing transactions for institutional counterparties. Revenues for these services are transaction-based. As a result, revenues could vary based on the transaction volume of global financial markets. Additionally, financing is sensitive to interest rate fluctuations, which could have an impact on our overall profitability.

Guarantees

The Company provides guarantees to securities clearing houses and exchanges which meet the definition of a guarantee under FASB interpretations. Under these standard securities clearing house and exchange membership agreements, members are required to guarantee, collectively, the performance of other members and, accordingly, if another member becomes unable to satisfy its obligations to the clearing house or exchange, all other members would be required to meet the shortfall. In the opinion of management, the Company's liability under these agreements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential of being required to make payments under these arrangements is remote. Accordingly, no contingent liability was recorded in the Company's condensed consolidated statements of financial condition for these agreements.

17. Income Taxes

eSpeed was a U.S. corporation and reported and paid U.S. federal income taxes as well as taxes to other jurisdictions in which it or its subsidiaries conducted business. Historically, much of BGC Partners, LLC had operated through entities that were treated as partnerships for U.S. federal income tax purposes. As such, much of the income was not subject to U.S. federal and state income taxes because taxes related to income earned by partnerships represent obligations of the individual partners. BGC Partners, LLC did have certain companies that were incorporated and subject to U.S. federal, state and local income tax and they did report and pay U.S. federal, state and local income taxes. Outside the United States, BGC Partners, LLC had operated principally through subsidiary corporations subject to local income taxes. Prior to April 1, 2008, income taxes reported in the condensed consolidated financial statements for BGC Partners, LLC were primarily attributable to taxes incurred by its incorporated U.S. entities and by non-U.S. entities. Subsequent to the merger, the condensed consolidated financial statements of the Company include U.S. federal, state and local income taxes on its allocable share of the U.S. results of operations, giving effect to the post-merger structure, as well as taxes payable to jurisdictions outside the U.S. Income taxes are accounted for using the asset and liability method, as prescribed in FASB guidance, *Accounting for Income Taxes*. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Certain of the Company's entities are taxed as U.S. partnerships and are subject to the Unincorporated Business Tax (UBT) in the City of New York. Therefore, the tax liability or benefit related to the partnership income or loss except for UBT rests with the partners, rather than the partnership entity. As such, the partners' liability or benefit is not reflected in the Company's condensed consolidated financial statements. The tax related assets, liabilities, provisions or benefits included in the Company's condensed consolidated financial statements also reflect the results of the entities that are taxed as corporations, either in the U.S. or in foreign jurisdictions. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded against deferred tax assets if it is more likely than not those assets will not be realized. No deferred U.S. federal income taxes have been provided for the undistributed foreign corporate earnings since they have been permanently reinvested in the Company's foreign operations. It is not practical to determine the amount of additional tax that may be payable in the event these earnings are repatriated. Effective January 1, 2007, the Company adopted FASB guidance *Accounting For Uncertainty in Income Taxes*. It is the Company's policy to provide for uncertain tax positions and the related interest and penalties based upon management's assessment of whether a tax benefit is more likely than not to be sustained upon examination by tax authorities. As of June 30, 2010, the Company had \$4.5 million of unrecognized tax benefits all of which would affect the Company's effective tax rate if recognized. During the three and six months ended June 30, 2010, the Company did not have any material changes with respect to interest and penalties. The Company does not anticipate any significant change in the total amount of unrecognized benefits (excluding interest and penalties) over the next twelve months.

18. Regulatory Requirements

Many of the Company's businesses are subject to regulatory restrictions and minimum capital requirements. These regulatory capital requirements may restrict the Company's ability to withdraw capital from its subsidiaries.

Certain U.S. subsidiaries are registered as U.S. broker-dealers or Futures Commission Merchants subject to Rule 15c3-1 of the SEC and Rule 1.17 of the Commodity Futures Trading Commission, which specify uniform minimum net capital requirements, as defined, for their registrants, and also require a significant part of the registrants' assets be kept in relatively liquid form. As of June 30, 2010, the U.S. subsidiaries had net capital in excess of their minimum capital requirements.

Certain European subsidiaries of the Company are regulated by the Financial Services Authority (FSA) and must maintain financial resources (as defined by the FSA) in excess of the total financial resources requirement of the FSA. As of June 30, 2010, the European subsidiaries had financial resources in excess of their requirements.

Certain other subsidiaries are subject to regulatory and other requirements of the jurisdictions in which they operate.

The regulatory requirements referred to above may restrict the Company's ability to withdraw capital from its regulated subsidiaries. As of June 30, 2010, \$244.6 million of net assets were held by regulated subsidiaries. These subsidiaries had aggregate regulatory net capital, as defined, in excess of the aggregate regulatory requirements, as defined, of \$148.1 million.

Edgar Filing: BGC Partners, Inc. - Form 10-Q

Registration Statement is to enable such retained and founding partners of Cantor to have an opportunity to register certain distribution rights shares which they have a right to acquire from Cantor at certain times following the merger on April 1, 2008. While Cantor is nominally listed as a selling stockholder, it will not sell shares for its own account under the Registration Statement.

Banking Arrangement

On August 2, 2010, the Company was authorized to engage Cantor Fitzgerald & Co. (CF&CO) and its affiliates to act as financial advisor in connection with one or more third-party transactions with or involving one or more targets as requested by the Company on behalf of its affiliates from time to time on specified terms, conditions and fees.

Exchange of Founding Partner Units

On August 9, 2010, a founding partner of BGC Holdings agreed to donate an aggregate of 400,000 shares of Class A common stock to The Cantor Fitzgerald Relief Fund. The founding partner's donation covers a portion of the net proceeds raised by employees of the Company on its annual September 11, 2009 Charity Day.

The 400,000 shares of Class A common stock to be donated by the founding partner of BGC Holdings were issued to him by the Company upon exchange of Founding Partner Units that he received in connection with the separation and merger on April 1, 2008. In connection with the founding partner's charitable donation of these shares, Cantor will accelerate the exercisability of the exchange rights of 400,000 exchangeable Founding Partner Units of the partner, which exchange rights would have otherwise become exercisable on the third anniversary of the merger. In addition, the Company, as the general partner of BGC Holdings, has agreed to remove the contractual transfer restrictions on the 400,000 shares in order to permit such founding partner to donate such shares to The Cantor Fitzgerald Relief Fund. Cantor further agreed to accelerate the exchangeability of the exchange rights of an additional 200,000 exchangeable Founding Partner Units of the partner and to the sale by such founding partner of such 200,000 Founding Partner Units received by such partner on April 1, 2008 to a Cantor partner.

The Company's issuance of 400,000 shares to one founding partner upon the accelerated exercisability of exchangeable Founding Partner Units will be in fulfillment of the exchange rights to acquire such shares issued by the Company to such person on April 1, 2008. The 400,000 shares donated by the partner to The Cantor Fitzgerald Relief Fund are expected to be registered for resale by The Cantor Fitzgerald Relief Fund or otherwise sold in connection with applicable law.

Overview

BGC Partners is a leading global financial intermediary to the wholesale financial markets, specializing in the brokering of a broad range of financial products globally, including fixed income securities, interest rate swaps, foreign exchange, equities, equity derivatives, credit derivatives, commodities, futures, structured products and other instruments. BGC Partners also provides a full range of services, including trade execution, broker-dealer services, clearing, processing, information, and other back office services to a broad range of financial and non-financial institutions. Through its eSpeed and BGCantor Market Data brands, BGC Partners also offers financial technology solutions and market data and analytics related to select financial instruments and markets. BGC Partners' customers include many of the world's largest banks, broker-dealers, investment banks, trading firms, hedge funds, governments and investment firms. BGC Partners' integrated platform is designed to provide flexibility to customers with regard to price discovery, execution and processing of transactions, and enables them to use voice, hybrid, or, where available, fully electronic brokerage services in connection with transactions executed either over the counter (OTC) or through an exchange. BGC Partners has offices in New York and London, as well as in Beijing, Chicago, Copenhagen, Hong Kong, Istanbul, Johannesburg, Mexico City, Moscow, Nyon, Paris, Rio de Janeiro, São Paulo, Sarasota, Seoul, Singapore, Sydney, Tokyo and Toronto.

Prior to the events of September 11, 2001, BGC Partners' brokerage business was widely recognized as one of the leading full-service wholesale inter-dealer brokers in the world. After September 11, 2001 and the loss of the majority of its U.S.-based employees, its brokerage business operated primarily in Europe. In August 2004, Cantor announced the restructuring of its inter-dealer brokerage business, renaming it BGC, in honor of B. Gerald Cantor, Cantor's co-founder and a pioneer in screen brokerage services and fixed income market data products. Over the past several years, BGC Partners has re-established its U.S. presence and has continued to expand its global presence through the acquisition and integration of established brokerage companies and the hiring of experienced brokers. Through these actions, BGC Partners has been able to expand its presence in key markets and position its business for sustained growth.

On April 1, 2008, BGC Partners, LLC merged with and into eSpeed Inc. to form BGC Partners. eSpeed is a leader in developing and deploying electronic marketplaces and related trading technology that offers traders access to some of the most liquid, efficient and neutral financial markets in the world. eSpeed is an innovator in its core electronic marketplaces, the government bond markets of the world. The merger combined eSpeed's electronic marketplaces and related electronic trading technology expertise in the government bond and its other markets with BGC Partners' traditional inter-dealer brokerage businesses. Management believes this combination will position BGC Partners as one of the few financial intermediaries with hybrid capabilities and technology, thus allowing it to offer superior execution to its clients and drive higher trading volumes. Prior to the merger, BGC Partners and eSpeed had a strong relationship through a Joint Services Agreement (JSA) under which revenues for certain services were shared. Management believes that the merger has helped drive efficiencies and align the interests of both firms so that they can better focus eSpeed's technology on supporting BGC Partners' brokerage services.

Business Environment

The financial intermediary sector has been a competitive area that has had strong revenue growth over the past decade due to several factors. One factor is the increasing use of derivatives to manage risk or to take advantage of the anticipated direction of a market by allowing holders to guard against gains or losses in the price of underlying assets without having to buy or sell the underlying assets. Derivatives are often used to mitigate the risks associated with interest rate movements, equity ownership, changes in the value of foreign currency, credit defaults by corporate and sovereign debtors and changes in the prices of commodity products. Over the past decade, demand from financial institutions, financial services intermediaries and large corporations have increased volumes in the wholesale derivatives market, thereby increasing the business opportunity for financial intermediaries.

Table of Contents

Another key factor in the growth of the financial intermediary sector over the past decade has been the increase in the number of new products. As market participants and their customers strive to mitigate risk, new types of equity and fixed income securities, futures, options and other financial instruments are developed. These new securities and derivatives are not immediately ready for more liquid and standardized electronic markets, and generally increase the need for trading and require broker-assisted execution.

From the second half of 2008, and through the first three quarters of 2009, the continuing credit crisis and ensuing global economic slowdown resulted in an industry-wide slowdown in growth or outright decline in the volumes for many of the OTC and listed products we broker. Beginning in December 2009, and continuing into the first two quarters of 2010, industry wide volumes for many of the products we broker once again increased year-over-year. These industry volumes are often good proxies for the volumes in our Rates, Foreign Exchange, and Equities and Other Asset Classes brokerage businesses.

As a result of this improvement in market conditions, the business environment for BGC Partners, has improved. We continue to expect that the governments of the U.S. and other countries will continue to have relatively large budget deficits and debts, and these debts and deficits should continue to provide a favorable environment for our Rates, and to a lesser extent, Credit businesses. We cannot be certain how long these more favorable business conditions will persist, however.

In addition, regulators and legislators in the U.S. and E.U. continue to craft new laws and regulations for the global OTC derivatives markets, including, most recently, the Dodd - Frank Wall Street Reform and Consumer Protection Act. The new rules and proposals for rules have mainly called for additional transparency, position limits and collateral or capital requirements, as well as for central clearing of most standardized derivatives. We believe that uncertainty around the final form such new rules might take, may have negatively impacted trading volumes in certain markets in which we broker. However, based on the main laws enacted and proposals passed or discussed so far, we believe that the overall impact on revenues and profitability for the largest IDBs, including BGC, will be positive.

BGC Partners has invested significantly to capitalize on the current business environment through acquisitions, technology spending and the hiring of new brokers. The business climate for these acquisitions has been competitive and it is expected that these conditions will persist for the foreseeable future. BGC Partners has been able to attract businesses and brokers to its platform as it believes they recognize that BGC Partners has the scale, technology, experience and expertise to succeed in the current business environment.

Financial Highlights

Total revenues were \$335.7 million and \$292.1 million for the three months ended June 30, 2010 and 2009, respectively, representing a 14.9 % increase. Total revenues were \$682.9 million and \$576.1 million for the six months ended June 30, 2010 and 2009, respectively, representing an 18.5 % increase. The main factors contributing to these increases were:

An overall increase in volumes in many of the markets in which we provide brokerage services.

An increase in brokerage revenues associated with rates products which was primarily attributable to strong sovereign debt issuance and the resulting industry wide increases in the volumes of both interest rate swaps and government bonds.

A global rebound in foreign exchange volumes as the credit crisis abated.

An increase in our front-office personnel from 1,444 at June 30, 2009 to 1,612 at June 30, 2010.

Continued selective expansion into the global markets, including new offices in Brazil and Moscow.

A continued focus on, and investment in, growing areas that complement our existing brokerage services, equities and other asset classes, particularly equity derivatives and cash equities, which are the primary contributors to our Equities and Other Asset Classes

Edgar Filing: BGC Partners, Inc. - Form 10-Q

product group, for which revenues increased to \$50.3 million for the three months ended June 30, 2010 as compared to \$32.2 million for the three months ended June 30, 2009.

Revenues related to fully electronic trading increased 40.0% to \$31.6 million for the three months ended June 30, 2010 as compared to \$22.5 million for the three months ended June 30, 2009. This increase is primarily driven by significant increases in fully electronic revenues from foreign exchange and credit brokerage.

Table of Contents

These factors were partially offset by the following:

Overall credit revenues decreased slightly year-on-year, primarily due to an industry-wide decline in credit derivative trading and corporate bond issuance, partially offset by strength in sovereign credit defaults swap activity and the aforementioned fully electronic credit growth.

Our results for the six months ended June 30, 2010 were impacted by our global redemption and compensation restructuring program. During the first quarter of 2010, we began a program to enhance our employment arrangements by leveraging our unique partnership structure. Participating partners generally agreed to extend the lengths of their employment agreements and to other contractual modifications sought by the Company. These partners also generally agreed to accept a larger portion of their compensation in partnership units. As part of this program, for the six months ended June 30, 2010, BGC Partners redeemed approximately 7.5 million limited partnership units for approximately \$44.4 million in cash. Redeeming units for cash provides employees with liquidity while minimizing transaction costs and potential market disruption, and gives us another mechanism to reduce fully diluted share count. In addition, during the first quarter of 2010, we completed our global compensation restructuring program related to the modification of pre-merger employee contractual arrangements. As a result of these programs, the Company incurred additional compensation expenses. (See Note 15, Compensation, in the unaudited condensed consolidated statement of operations for more information regarding these expenses).

We believe the overall performance of the Company will continue to improve as we increase revenues generated from fully electronic trading, extend our employment agreements, and increase the percentage of compensation partners receive in the form of partnership units. As a result, we expect to increase the amount of cash available for dividends and share repurchases. Taken together, we believe that these developments will further improve BGC's competitive position in the marketplace and improve employee retention.

For the three months ended June 30, 2010, we had net income of \$7.4 million compared to \$8.1 million for the three months ended June 30, 2009. For the six months ended June 30, 2010, we had net income of \$3.2 million compared to \$16.1 million for the six months ended June 30, 2009. Compensation and employee benefits expense increased by \$25.9 million, or 13.9 %, for the three months ended June 30, 2010 as compared to the three months ended June 30, 2009. Compensation and employee benefits expense increased by \$116.7 million, or 31.7%, for the six months ended June 30, 2010 as compared to the six months ended June 30, 2009.

The increase in compensation and employee benefits expense arose primarily from the completion in the first quarter of 2010 of a global compensation restructuring program related to the modification of pre-merger employee contractual arrangements which resulted in a \$41.3 million one-time, non-recurring charge recorded in the first quarter, and a \$39.4 million charge recorded in the six months ended June 30, 2010 relating to the granting of exchangeability of certain limited partnership units as part of our global redemption and compensation restructuring program. Also contributing to this increase in compensation expense was our year-on-year growth in brokerage revenues, which increased \$104.3 million to \$638.6 million for the six months ended June 30, 2010.

Foreign exchange revenues increased by \$16.5 million due primarily to a continuing rebound in global volumes, particularly as credit issues have eased for customers of the Company's Emerging Markets desks.

Seasonality

The IDB business is affected by seasonality. Summer vacations across the trading community, especially in August, generally reduce volumes in the third quarter. Thanksgiving in the U.S., as well as the Christmas and New Years Holidays, tend to constrain volumes in the fourth quarter. BGC does not believe that seasonality impacts any one product category more than any other. However, overall market volumes and volatility changes and fluctuations in major currencies against the U.S. dollar, quarter-to-quarter, can magnify or offset seasonality.

Liquidity and Capital Resources

Balance Sheet

Our balance sheet and business model are not capital intensive. We maintain minimal securities inventory; our assets consist largely of cash, collateralized and uncollateralized short-dated receivables and less liquid assets needed to support our business. Longer term funding (equity and long term debt) is held to support the less liquid assets. Total assets at June 30, 2010 were \$1.6 billion, an increase of 6.9% as compared to December 31, 2009. The growth in total assets was driven primarily by increases in receivables from brokers, dealers and clearing organizations, and accrued commissions receivable. We maintain a comparatively large portion of our assets in cash, with cash and cash equivalents at June 30, 2010 at \$344.0 million.

Funding

Our funding base consists of longer term capital (equity, notes payable and collateralized borrowings) and shorter-term liabilities/accruals that are a natural outgrowth of specific assets and/or the business model, such as matched fails and accrued commission compensation. We have limited need for and use of short-term unsecured funding. Contingent liquidity needs are largely limited to unsecured letters of credit used to meet clearinghouse/exchange margins. Capital expenditures tend to be cash neutral and approximately in line with depreciation. Current cash balances substantially exceed unsecured letters of credit and the amortization of our term debt. The principal and interest on our \$19.0 million secured loan arrangement is repayable in thirty six consecutive monthly installments with the final payment due in September 2012. All of the cash on the balance sheet, some of which is held at regulated broker-dealer subsidiaries, would not necessarily be available to meet potential liquidity needs. However, cash in and available to the specific regulated entity supported by the unsecured letter of credit exceeds the letter of credit amount.

We anticipate that our existing cash resources and prospective cash generation will be sufficient to meet our anticipated liquidity needs for at least the next 12 months. We expect our operating activities going forward to generate adequate cash flows to fund normal operations, including any dividends issued pursuant to our dividend policy. However, we believe that there are a significant number of relatively more capital intensive opportunities for us to maximize our growth and strategic position, including, among other things, acquisitions, strategic alliances and joint ventures potentially involving all types and combinations of equity, debt and acquisition alternatives. As a result, we may need to raise additional funds to:

increase the regulatory net capital necessary to support operations;

support continued growth in our business;

effect acquisitions;

develop new or enhanced services and markets;

respond to competitive pressures; and

clear our securities transactions.

We cannot guarantee that we will be able to obtain additional financing when needed on terms that are acceptable to us, if at all.

On April 1, 2010, BGC effectively refinanced \$150.0 million in senior notes payable via issuance of Convertible Senior Notes to Cantor. The details of this are provided in the *Notes Payable and Collateralized Borrowings* section below. On May 6, 2010, we filed a \$100.0 million Shelf Registration Statement on Form S-3 with the SEC. We intend to use the net proceeds of any shares of Class A common stock sold for general corporate purposes, including potential acquisitions, and repurchases of shares of Class A common stock or redemptions of founding/working

Edgar Filing: BGC Partners, Inc. - Form 10-Q

partner units and limited partnership units in BGC Holdings or other equity interests in our subsidiaries from partners, executive officers and other employees of ours or our subsidiaries and of Cantor and its affiliates. Certain of such partners will be expected to use the proceeds from such sales to repay outstanding loans issued by, or credit enhanced by, Cantor or BGC Holdings. Besides general corporate purposes, this registration along with our share buy-back authorization is designed as a planning device in order to facilitate the redemption process. Going forward, we may redeem units for cash and reduce our fully diluted share count under our repurchase authorization or later sell Class A shares under the Registration.

To the extent available, from time to time, we may also contribute a portion of the net proceeds to us from the sale of Class A shares to BGC U.S. and/or BGC Global in exchange for BGC U.S. limited partnership interests and/or BGC Global limited partnership interests, in each case on a one-for-one basis (subject to customary anti-dilution adjustments). BGC U.S. and BGC Global intend to use the net proceeds they receive from us, if any, for various purposes, including for general partnership purposes, including potential strategic alliances, acquisitions, joint ventures or broker hires. In addition, from time to time, we have evaluated and we expect to continue to evaluate and potentially pursue possible strategic alliances, acquisitions, joint ventures or broker hires.

Table of Contents

We may raise additional funds from time to time through equity or debt financing, including borrowings under existing uncommitted credit lines and public and private sales of debt securities, to finance our business, operations and possible acquisitions.

Credit Ratings

In November 2009, in connection with a potential issuance of debt securities in a public or Rule 144A offering, we obtained public long-term credit ratings. As described below under Notes Payable and Collateralized Borrowings, on April 1, 2010 BGC Holdings ultimately issued to Cantor an aggregate of \$150.0 million principal amount of 8.75% Convertible Senior Notes due 2015, and we did not use the public long-term credit ratings in connection with this debt offering.

Our public long-term credit ratings and associated outlook are as follows:

	Rating	Outlook
Moody's Investor Service	Ba1	Stable
Standard & Poor's	BBB-	Stable
Fitch Ratings Inc.	BBB	Stable

Credit ratings and associated outlook are influenced by a number of variable factors, including but not limited to: earnings and profitability trends, the prudence of funding and liquidity management practices, balance sheet size/composition and resultant leverage, cash flow coverage of interest, composition and size of the capital base, available liquidity and the firm's competitive position in the industry. A credit rating and/or the associated outlook can be revised upward or downward at any time by a rating agency if such rating agency decides that circumstances warrant such a change. Any reduction in our credit ratings and/or the associated outlook could adversely affect the availability of debt financing on terms acceptable to us, as well as the cost and other terms upon which we are able to obtain any such financing. In addition, credit ratings and associated outlook may be important to customers or counterparties when we compete in certain markets and when we seek to engage in certain transactions. In connection with certain trading agreements, we may be required to provide additional collateral in the event of a credit ratings downgrade.

Cash Flows

Net cash used in operating activities was \$30.9 million for the six months ended June 30, 2010, compared to net cash provided by operating activities of \$211.0 million for the six months ended June 30, 2009, a decrease of \$241.9 million.

This decrease was primarily due to a decrease in consolidated net income of \$27.1 million, an increase in non-cash adjustments to net income of \$7.8 million, and a decrease in cash provided from changes in operating assets and liabilities in the amount of \$222.6 million. The latter decrease resulted primarily from a reduction in reverse repurchase agreement with related parties in the amount of \$125.2 million in the first six months of 2009 and a decrease in net payables to related parties in the amount of \$72.6 million.

Net cash used in investing activities was \$32.3 million for the six months ended June 30, 2010, compared to net cash used in investing activities of \$30.1 million for the six months ended June 30, 2009, an increase of \$2.2 million. This increase was primarily due to a \$7.4 million increase in the purchase of capitalized assets in the six months ended June 30, 2010 when compared to the six months ended June 30, 2009, the purchase of marketable securities in the amount of \$3.0 million in the six months ended June 30, 2010, partially offset by the acquisition of Liquidez in the six months ended June 30, 2009 for \$5.1 million, net of cash acquired, and a decrease of \$3.1 million in investments in unconsolidated entities in the six months ended June 30, 2010 when compared to the six months ended June 30, 2009.

Net cash used in financing activities was \$57.9 million for the six months ended June 30, 2010, compared to net cash used in financing activities of \$35.4 million for the six months ended June 30, 2009, an increase of \$22.5 million. During the six months ended June 30, 2010, the net cash used in financing activities was primarily comprised of \$17.8 million in proceeds, net of underwriting fees, from the Sales Agreement offering of Class A common stock, offset by the redemptions of limited partnership units and founding partner units in the amount of \$28.9 million, earnings distributions to limited partnership interests in BGC Holdings of \$8.1 million, dividends of \$16.6 million, and repurchases of Class A Common Stock in the amount of \$17.4 million. During the six months ended June 30, 2009, the net cash used in financing activities was primarily comprised of repurchases of Class A Common Stock in the amount of \$7.9 million, earnings distributions to limited partnership interests in BGC Holdings of \$17.1 million and paid dividends of \$10.4 million.

Notes Payable and Collateralized Borrowings

Edgar Filing: BGC Partners, Inc. - Form 10-Q

On March 31, 2008, the Company entered into a Note Purchase Agreement pursuant to which it issued \$150.0 million principal amount of its Senior Notes to a number of investors. The Senior Notes incurred interest semiannually at the rate of 5.19% per annum (plus 2.31% per annum paid to Cantor for the guarantee provision as discussed in Note 10, Related Party Transactions). The Senior Notes matured on April 1, 2010.

On April 1, 2010 BGC Holding issued an aggregate of \$150.0 million principal amount of 8.75% Convertible Senior Notes due 2015 (the Notes) to Cantor. The Company used the proceeds to repay at maturity \$150.0 million aggregate principal amount of Senior Notes due April 1, 2010.

Table of Contents

The Notes are senior unsecured obligations and rank equally and ratably with all existing and future senior unsecured obligations of the Company. The Notes bear an annual interest rate of 8.75%, which will be payable semi-annually in arrears on April 15 and October 15 of each year, beginning on October 15, 2010, and are convertible into 21.5 million shares of Class A common stock. The Notes will mature on April 15, 2015, unless earlier repurchased, exchanged or converted.

On September 25, 2009, BGC Partners, L.P. entered into a secured loan arrangement with General Electric Capital Corporation, under which it pledged certain fixed assets including furniture, computers and telecommunications equipment to General Electric Capital Corporation in exchange for a loan of \$19.0 million. The principal and interest on this secured loan arrangement is repayable in thirty six consecutive monthly installments at a fixed rate of 8.09% per annum. The outstanding balance of the loan was \$14.7 million as of June 30, 2010. The loan is guaranteed by BGC Partners, Inc.

Clearing Capital

Following the merger, Cantor has continued to clear U.S. Treasury and U.S. Government Agency securities transactions on our behalf. In November 2008, we entered into a clearing capital agreement with Cantor. Pursuant to the terms of this agreement, so long as Cantor is providing Clearing Services to us, Cantor shall be entitled to request from us, and we shall post as soon as practicable, cash or other property acceptable to Cantor in the amount reasonably requested by Cantor under the clearing capital agreement.

We intend to continue this relationship with Cantor. Accordingly, we expect that Cantor will continue to post clearing capital on our behalf and we will post clearing capital with Cantor as requested under the clearing capital agreement. To date, no amounts had been requested by Cantor pursuant to the clearing capital agreement. In the absence of such an arrangement, BGC Partners may be required to raise additional capital, borrow funds or take other action to meet the capital requirements in connection with the clearing of these transactions. The increased capital requirements required in connection with the clearing of our securities transactions could have a material adverse impact on BGC Partners ability to make distributions, repurchase its stock or affect strategic acquisitions or other opportunities. However, we believe that the agreement with Cantor, or, in the alternative, a clearing agreement with an additional third-party clearing agent, will not preclude us from meeting our cash needs in the near term.

Regulatory Requirements

Our liquidity and available cash resources are restricted by regulatory requirements of our operating subsidiaries. Many of these regulators, including U.S. and non-U.S. government agencies and self-regulatory organizations, as well as state securities commissions in the United States, are empowered to conduct administrative proceedings that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer. In addition, self-regulatory organizations such as the FINRA and the NFA along with statutory bodies such as the FSA and the SEC require strict compliance with their rules and regulations. The requirements imposed by regulators are designed to ensure the integrity of the financial markets and to protect customers and other third parties who deal with broker-dealers and are not designed to specifically protect stockholders. These regulations often serve to limit our activities, including through net capital, customer protection and market conduct requirements.

As of June 30, 2010, \$244.6 million of net assets were held by regulated subsidiaries. As of June 30, 2010, these subsidiaries had aggregate regulatory net capital, as defined, in excess of the aggregate regulatory requirements, as defined, of \$148.1 million.

A portion of these shares had been donated to The Cantor Fitzgerald Relief Fund by certain founding partners in connection with the 2008 Charity Day.

Table of Contents

Reported volumes and transaction counts include transactions by our brokers that participate in certain of our marketplaces by posting quotations for their accounts and by acting as principal on trades. While the principal participation may vary widely from product to product and may be significant for any given product or period, in no case does the principal participation by our brokers exceed 10% of any of the reported volume or transaction counts, except as otherwise noted. Such activity is intended, among other things, to assist our brokers in managing their proprietary positions, and to facilitate transactions, add liquidity, increase commissions and attract additional order flow to the eSpeed system.

All trades executed on the eSpeed platform settle for clearing purposes against Cantor Fitzgerald & Co. (CFC), a BGC affiliate. CFC is a member of FINRA (formerly NASD) and the Fixed Income Clearing Corporation, a subsidiary of the Depository Trust & Clearing Corporation. CFC, BGC, and other affiliates participate in U.S. Treasuries as well as other markets by posting quotations for their account and by acting as principal on trades with platform users. - (2) Notes Payable and collateralized obligations reflects the issuance of \$150.0 million of Senior Notes and \$14.7 million of a secured loan arrangement with General Electric Capital Corporation. See Note 14, Notes Payable and Collateralized Borrowings, in BGC Partners Inc.'s condensed consolidated financial statements as of June 30, 2010 for more information regarding these obligations, including timing of payments and compliance with debt covenants.

Off-Balance Sheet Arrangements

As of June 30, 2010, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK*****Credit Risk***

Credit risk arises from potential non-performance by counterparties and customers. BGC Partners has established policies and procedures to manage its exposure to credit risk. BGC Partners maintains a thorough credit approval process to limit exposure to counterparty risk and employs stringent monitoring to control the counterparty risk from its matched principal and agency businesses. BGC Partners' account opening and counterparty approval process includes verification of key customer identification, anti-money laundering verification checks and a credit review of financial and operating data. The credit review process includes establishing an internal credit rating and any other information deemed necessary to make an informed credit decision, including correspondence, due diligence calls and a visit to the entity's premises, as necessary.

Credit approval is granted subject to certain trading limits and may be subject to additional conditions, such as the receipt of collateral or other credit support. On-going credit monitoring procedures include reviewing periodic financial statements and publicly available information on the client and collecting data from credit rating agencies, where available, to assess the on-going financial condition of the client. For transactions conducted through the eSpeed and BGC Trader electronic trading platform, BGC Partners has developed and utilizes an electronic credit monitoring system which measures and controls credit usage, including the ability to prohibit execution of trades that would exceed risk limits and permit only risk reducing trades.

Principal Transaction Risk

Through its subsidiaries, BGC Partners executes matched principal transactions in which it acts as a middleman by serving as counterparty to both a buyer and a seller in matching back-to-back trades. These transactions are then settled through a recognized settlement system or third-party clearing organization. Settlement typically occurs within one to three business days after the trade date. Cash settlement of the transaction occurs upon receipt or delivery of the underlying instrument that was traded. BGC Partners generally avoids settlement of principal transactions on a free-of-payment basis or by physical delivery of the underlying instrument. However, free-of-payment transactions may occur on a very limited basis.

The number of matched principal trades BGC Partners executes has continued to grow as compared to prior years. Receivables from brokers, dealers and clearing organizations and payables to brokers, dealers and clearing organizations on the Company's unaudited condensed consolidated statements of financial condition primarily represent the simultaneous purchase and sale of the securities associated with those matched principal transactions that have not settled as of their stated settlement dates. BGC Partners' experience has been that substantially all of these transactions ultimately settle at the contracted amounts.

Market Risk

Market risk refers to the risk that a change in the level of one or more market prices, rates, indices or other factors will result in losses for a specified position. BGC Partners may allow certain of its desks to enter into unmatched principal transactions in the ordinary course of business and hold long and short inventory positions. These transactions are primarily for the purpose of facilitating clients' execution needs, adding liquidity to a market or attracting additional order flow. As a result, BGC Partners may have market risk exposure on these transactions. BGC Partners' exposure varies based on the size of its overall positions, the risk characteristics of the instruments held and the amount of time the positions are held before they are disposed of. BGC Partners has limited ability to track its exposure to market risk and unmatched positions on an intra-day basis; however, it attempts to mitigate its market risk on these positions by strict risk limits, extremely limited holding periods and hedging its exposure. These positions are intended to be held short term to facilitate customer transactions. However, due to a number of factors, including the nature of the position and access to the market on which it trades, BGC Partners may not be able to unwind the position and it may be forced to hold the position for a longer period than anticipated. All positions held longer than intra-day are marked to market.

Our risk management procedures and strict limits are designed to monitor and limit the risk of unintended loss and have been effective in the past. However, there is no assurance that these procedures and limits will be effective at limiting unanticipated losses in the future. Adverse movements in the securities positions or a downturn or disruption in the markets for these positions could result in a substantial loss. In addition, principal gains and losses resulting from these positions could on occasion have a disproportionate effect, positive or negative, on BGC Partners' unaudited condensed consolidated financial condition and results of operations for any particular reporting period.

Operational Risk

Our businesses are highly dependent on our ability to process a large number of transactions across numerous and diverse markets in many currencies on a daily basis. If any of our data processing systems do not operate properly or are disabled or if there are other shortcomings or

failures in our internal processes, people or systems, we could suffer impairment to our liquidity, financial loss, a disruption of our businesses, liability to clients, regulatory intervention or reputational damage. These systems may fail to operate properly or become disabled as a result of events that are wholly or partially beyond our control, including a disruption of electrical or communications services or our inability to occupy one or more of our buildings. The inability of our systems to accommodate an increasing volume of transactions could also constrain our ability to expand our businesses.

In addition, despite our contingency plans, our ability to conduct business may be adversely impacted by a disruption in the infrastructure that supports our businesses and the communities in which they are located. This may include a disruption involving electrical, communications, transportation or other services used by us or third parties with whom we conduct business.

Foreign Currency Risk

BGC Partners is exposed to risks associated with changes in foreign exchange rates. Changes in foreign currency rates create volatility in the U.S. dollar equivalent of the Company's revenues and expenses in particular with regard to British Pounds and Euros. In addition changes in the remeasurement of BGC Partners' foreign currency denominated net assets are recorded as part of its results of operations and fluctuate with changes in foreign currency rates. BGC monitors the net exposure in foreign currencies on a daily basis and hedges its exposure as deemed appropriate with highly rated major financial institutions.

Interest Rate Risk

BGC Partners had \$164.7 million in fixed-rate debt outstanding as of June 30, 2010. These debt obligations are not currently subject to fluctuations in interest rates, although in the event of refinancing or issuance of new debt, such debt could be subject to changes in interest rates.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

BGC Partners maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by BGC Partners is recorded, processed, summarized, accumulated and communicated to its management, including its Chairman and Chief Executive Officer and its Chief Financial Officer, to allow timely decisions regarding required disclosure, and reported within the time periods specified in the SEC's rules and forms. The Chairman and Chief Executive Officer and the Chief Financial Officer have performed an evaluation of the effectiveness of the design and operation of BGC Partners disclosure controls and procedures as of June 30, 2010. Based on that evaluation, the Chairman and Chief Executive Officer and the Chief Financial Officer concluded that BGC Partners' disclosure controls and procedures were effective as of June 30, 2010.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the six months ended June 30, 2010 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See the description of legal proceedings in Note 16 Commitments, Contingencies and Guarantees to the unaudited condensed consolidated financial statements included in Item 1 of Part I this Quarterly Report on Form 10-Q, which is incorporated by reference herein.

ITEM 1A. RISK FACTORS

Set forth below are updates to certain of our risk factors. For additional risk factors, see Risk Factors in Part I, Item 1A of our Form 10-K for the year ended December 31, 2009, and in Part II, Item 1A of our Form 10-Q for the quarter ended March 31, 2010.

We are controlled by Cantor, which in turn controls its wholly owned subsidiary, Cantor Fitzgerald & Co., which is acting as our sales agent in our controlled equity offering. In addition, we have retained Cantor and its affiliates to provide us with additional investment banking services.

We are controlled by Cantor, which in turn controls its wholly owned subsidiary, Cantor Fitzgerald & Co., which is acting as our sales agent pursuant to the Sales Agreement under which we may issue and sell from time to time up to 5.5 million shares of our Class A common stock (subject to a maximum aggregate gross sales price of \$100.0 million) in a controlled equity offering. As of July 31, 2010, we have issued and sold an aggregate of approximately 4.1 million shares of Class A common stock under the Sales Agreement. In addition, Cantor, Cantor Fitzgerald & Co. and their affiliates have provided investment banking services to us and our affiliates in the past and may be expected to do so in the future. They receive customary fees and commissions for these services. In addition, they may also receive brokerage services and market data and analytics products from us and our respective affiliates.

Our general policy and that of our audit committee is that all transactions with a related party are subject to prior review and approval by our audit committee. Accordingly, our audit committee considered and approved the terms of the Sales Agreement and the retention of Cantor and its affiliates to provide us with additional investment banking services. We believe that the compensation paid and to be paid to Cantor, Cantor Fitzgerald & Co. and their affiliates will not be greater than the typical compensation that would be charged by them to a third party issuer on an arm's-length basis for similar types of services.

Cantor Fitzgerald & Co. has retained independent legal advisors in connection with its role as sales agent under the Sales Agreement, but for the reasons described below it may not be in a position to provide us with independent financial input in connection with the offering of shares of our Class A common stock pursuant to the Sales Agreement. We are not required to, and have not engaged, an independent investment banking firm to act as a qualified independent underwriter or to otherwise provide us with independent input in our controlled equity offering.

While our board of directors and audit committee will be involved with any future decision by us to terminate the Sales Agreement or to enter into new sales agreements with Cantor Fitzgerald & Co., our management has been delegated the authority to determine, and to so instruct Cantor Fitzgerald & Co. with respect to, matters involving the manner, timing, number of shares, and minimum prices per share or proceeds for sales of our shares, or the suspension thereof, in our controlled equity offering pursuant to the Sales Agreement. Our management may be expected to consult with appropriate personnel from Cantor Fitzgerald & Co. in making such determinations, but given the overlap between our senior management and that of Cantor and its wholly owned subsidiary, Cantor Fitzgerald & Co., it may be expected that any joint determinations by our senior management and that of Cantor Fitzgerald & Co. with respect to our controlled equity offering will involve the same individuals. In making such joint determinations, our audit committee has instructed our senior management to act in the best interests of us and our stockholders. Nevertheless, in making such determinations, such individuals will not have the benefit of input from an independent investment banking firm that is able to make its own determinations with respect to our controlled equity offering, including, but not limited to, whether to suspend sales under the Sales Agreement or to terminate the Sales Agreement.

For further information about our relationship with Cantor, Cantor Fitzgerald & Co. and their affiliates, including Cantor, see the section entitled Certain Relationships and Related Transactions in our Form 10-K for the year ended December 31, 2009 and Note 10, Related Party Transactions, to the unaudited condensed consolidated financial statements in Part I, Item I of this Quarterly Report on Form 10-Q.

Purchasers, as well as existing stockholders, may experience significant dilution as a result of offerings of our shares of Class A common stock.

Edgar Filing: BGC Partners, Inc. - Form 10-Q

We currently have in place an effective equity shelf Registration Statement on Form S-3 (the "Form S-3") with respect to the issuance and sale up to \$100.0 million of shares of our Class A common stock from time to time on a delayed or continuous basis. As

Table of Contents

of July 31, 2010, we have issued and sold an aggregate of approximately 4.1 million shares of Class A common stock under the Form S-3 pursuant to the Sales Agreement. In addition to the approximately 1.4 million shares of Class A common stock that remain available for issuance and sale under the Sales Agreement, we may in the future sell additional shares of Class A common stock under the Form S-3 pursuant to new sales agreements or otherwise.

Because the sales of shares of our Class A common stock under the Sales Agreement have been made, and any other future sales of our Class A common stock under the Form S-3 may be made, in privately negotiated transactions or directly into the market at prevailing market prices or at prices related to such prevailing market prices, the prices at which these shares have been sold and may be sold in the future will vary, and these variations may be significant. Purchasers of these shares may suffer significant dilution if the price they pay is higher than the price paid by other purchasers of shares of our Class A common stock under the Sales Agreement and any future offerings of our shares of Class A common stock.

In selling shares of our Class A common stock under the Sales Agreement, we may determine to instruct Cantor Fitzgerald & Co. not to sell our shares at less than a minimum price per share designated by us. Alternatively, we may instruct Cantor Fitzgerald & Co. to sell our shares so as to seek to realize a designated minimum price per share for all shares sold over a designated time period, or so as to seek to raise a designated minimum dollar amount of gross proceeds from sales of all such shares over a designated time period. These approaches may result in some purchasers of our shares paying a significantly higher price per share than other purchasers, depending upon the number of shares sold, the market prices for our shares, and the liquidity and depth of our market. In particular, this could be the case near the end of any designated sales period, especially if we determine at that time to authorize Cantor Fitzgerald & Co. to seek to sell our shares in privately negotiated transactions at a discount to prevailing market prices.

In addition, the sale by us of any shares of our Class A common stock may have the following effects:

our existing Class A common stockholders' proportionate ownership interest in us will decrease;

our existing Class A common stockholders may suffer significant dilution;

the amount of cash available per share for dividends payable on shares of our Class A common stock may decrease;

the relative voting strength of each previously outstanding share of our Class A common stock may be diminished; and

the market price of our Class A common stock may decline.

Because we intend to use the net proceeds from the sale of shares of Class A common stock under the Sales Agreement, and may use the net proceeds from future offerings, for general corporate purposes, which, among other things, are expected to include principally repurchases of shares of our Class A common stock and purchases of BGC Holdings units or other equity interests in us or in our subsidiaries from Cantor, our executive officers, other employees, partners, and others, and/or to replenish cash used to effect such repurchases and purchases, investors should be aware that such net proceeds will not be available for other corporate purposes, and that, depending upon the timing and prices of such repurchases of shares and purchases of units and of the sales of our shares under the Sales Agreement and the liquidity and depth of our market, we may sell a greater aggregate number of shares, at a lower average price per share, under the Sales Agreement than the number of shares or units repurchased or purchased, thereby increasing the aggregate number of shares and units outstanding and decreasing our fully diluted earnings per share.

We intend to use the net proceeds of the sale of shares of Class A common stock under the Sales Agreement, and may use the net proceeds from future offerings, for general corporate purposes, which among other things, are expected to include principally repurchases of shares of our Class A common stock and purchases of BGC Holdings units or other equity interests in us or in our subsidiaries from Cantor, our executive officers, other employees, partners, and others, and/or to replenish cash used to effect such repurchases and purchases. During the six months ended June 30, 2010, we repurchased approximately 2.9 million shares of Class A common stock at an aggregate purchase price of approximately \$17.4 million, at an average repurchase price of \$5.93 per share. Since April 30, 2010, we have not repurchased for cash any shares of our Class A common stock. In addition, during the six months ended June 30, 2010, we purchased for cash approximately 7.5 million

Edgar Filing: BGC Partners, Inc. - Form 10-Q

partnership units, at an aggregate purchase price of approximately \$44.4 million, for an average purchase price of \$5.96 per unit. In July 2010, we purchased for cash approximately 0.9 million partnership units, at an aggregate purchase price of approximately \$4.4 million, for an average purchase price of \$5.13 per unit pursuant to the program. In the future we expect to continue to repurchase shares of our Class A common stock and purchase BGC Holdings units from Cantor, our executive officers, other employees, partners, and others, and these repurchases and purchases may be significant, particularly as we continue our redemption and compensation restructuring program.

As of July 31, 2010, we have issued and sold under our the Sales Agreement an aggregate of approximately 4.1 million shares of Class A common stock, for an average price per share of \$5.48, net of commissions.

Table of Contents

To the extent that we continue to use the net proceeds of the sale of shares of our Class A common stock to fund repurchases of shares and purchases of units, or to replenish cash used to effect repurchases and purchases, net proceeds will not be available for other corporate purposes. In addition, to the extent that we seek to sell shares of our Class A common stock to raise net proceeds for repurchases of shares and purchases of units, depending upon the timing and prices of the repurchases of shares and purchases of units and of the sales of our shares and the liquidity and depth of our market, we may in fact sell a greater aggregate number of shares of our Class A common stock, at a lower average price per share, in our offerings than the aggregate number of shares repurchased and units purchased by us and the average price per share or unit that we are paying in such repurchases and purchases. Thus, our strategy may result in an increase in the number of our shares and units outstanding and a decrease in our earnings per share on both a basic and a fully diluted basis. Nevertheless, our management believes that selling our shares, and using the net proceeds of such sales to repurchase shares and purchase units, is in our best interest and that of our stockholders. While we believe that we can successfully manage our strategy, and that our share price may in fact increase as we increase the amount of cash available for dividends and share repurchases and unit purchases by increasing the percentage of compensation our partners receive in the form of restricted partnership units, gradually lowering our compensation expenses for purposes of distributable earnings, and lowering our long-term effective tax rate for distributable earnings, there can be no assurance that our strategy will be successful or that we can achieve any or all of such objectives.

The market price of our Class A common stock has fluctuated significantly and may continue to do so. In addition, future sales of shares of Class A common stock could adversely affect the market price of our Class A common stock.

The market price of our Class A common stock has fluctuated widely since eSpeed's initial public offering in December 1999, and the market price of our Class A common stock may continue to do so depending upon many factors, including our actual results of operations and perceived prospects, the prospects of our competition and of the financial marketplaces in general, differences between our actual financial and operating results and those expected by investors and analysts, changes in analysts' recommendations or projections, seasonality, changes in general valuations for companies in our business segment, changes in general economic or market conditions and broad market fluctuations.

Future sales of our shares also could adversely affect the market price of our Class A common stock. If our existing stockholders sell a large number of shares, or if we issue a large number of shares of our common stock in connection with public offerings, future acquisitions, strategic alliances, third-party investments and private placements or otherwise, the market price of common stock could decline significantly. In addition, our stockholders could be diluted by such future sales.

Recent events which could have such an effect include the sales of shares of Class A common stock under the Sales Agreement, and future sales of our shares, described above, as well as the following:

On April 1, 2010, BGC Holdings issued an aggregate of \$150.0 million principal amount of 8.75% Convertible Senior Notes due 2015 (the "BGC Holdings Notes") in a private placement transaction to Cantor. On April 1, 2010, BGC Holdings lent the proceeds from the issuance of the BGC Holdings Notes to us in exchange for \$150.0 million principal amount of 8.75% Convertible Senior Notes due 2015 (the "convertible notes") on substantially the same economic terms as the BGC Holdings Notes. These notes are exchangeable and convertible as follows: The BGC Holdings Notes held by Cantor are (i) exchangeable for a like principal amount of convertible notes held by BGC Holdings, or (ii) convertible into an aggregate of 21,530,793 BGC Holdings exchangeable limited partnership units. The BGC Holdings exchangeable limited partnership units are themselves exchangeable on a one-for-one basis for shares of Class A common stock. The convertible notes are convertible into an aggregate of 21,530,793 shares of Class A common stock. In connection with the issuance of the convertible notes, we entered into a registration rights agreement with Cantor, dated April 1, 2010, pursuant to which holders of the convertibles notes and the shares of Class A Common Stock issuable upon conversion of the convertible notes have registration rights.

On May 28, 2010, Cantor exchanged 3.5 million Cantor units of BGC Holdings for 3.5 million shares of our Class A common stock. In connection therewith, on July 2, 2010, we filed a resale Registration Statement on Form S-3 with respect to the 3.5 million shares of Class A common stock which may be sold by Cantor for the account of certain retained and founding partners and/or by such retained and founding partners, as distributees of shares of Class A common stock from Cantor, from time to time on a delayed or continuous basis.

(i) The distribution by Cantor of shares of Class A common stock to satisfy certain of its distribution rights obligations to certain current and former partners of Cantor, (ii) the granting of exchangeability of certain BGC Holdings units into shares of

Edgar Filing: BGC Partners, Inc. - Form 10-Q

our Class A common stock in connection with our partnership redemption and compensation restructuring program, (iii) the issuance of shares of Class A common stock to founding/working partners of BGC Holdings upon exchange of their exchangeable founding partner units and (iv) the conversion by Cantor of 600,000 shares of its Class B common stock into 600,000 shares of Class A common stock.

In addition, the sale of shares of our Class A common stock issuable in connection with (i) the exchange of Cantor's exchangeable limited partnership interests, (ii) BGC Holdings founding/working partner units (if exchangeable), (iii) incentive compensation, including RSUs, (iv) potential business combination transactions and (v) BGC Holdings limited partnership units or other partnership units (if exchangeable), could adversely affect the market price of our Class A common stock.

Despite our current consolidated debt levels, we may still incur substantially more debt or take other actions which would intensify the risks discussed herein.

Despite our current consolidated debt levels, we and our subsidiaries may be able to incur substantial additional debt in the future, subject to the restrictions contained in our debt instruments, some of which may be secured debt. We are not restricted under the terms of the indenture governing our convertible notes (the Indenture) or our secured loan arrangement with General Electric Capital Corporation from incurring additional debt, securing existing or future debt (except to the extent already secured), recapitalizing our debt or taking a number of other actions that are not limited by the terms of our debt instruments that could have the effect of diminishing our ability to make payments on our debt when due.

Increased debt levels could have other important consequences, including:

limiting our flexibility in planning for, or reacting to, changes in our operations or business;

we may be more highly leveraged than some of our competitors, which may place us at a competitive disadvantage;

making us more vulnerable to downturns in our business or the economy;

there would be a material adverse effect on our business, financial condition and results of operations if we were unable to service our debt or obtain additional debt financing or refinance our existing debt as needed; and

causing a reduction in our credit ratings and/or the associated outlook that could (i) adversely affect the availability of debt financing on terms acceptable to us, as well as the cost and other terms upon which we are able to obtain any such financing, (ii) adversely affect our ability to compete in certain markets or engage in certain transactions and (iii) require us to provide additional collateral.

We may not have the ability to raise the funds necessary to settle conversions of our convertible notes or to repurchase the convertible notes upon a fundamental change, and our future debt may contain limitations on our ability to pay cash upon conversion or repurchase of the notes.

Pursuant to the Indenture, if we undergo a fundamental change (as defined in the Indenture), holders of our convertible notes may elect to have all or a portion of the convertible notes repurchased for cash at a price equal to 100% of the principal amount of the convertible notes, plus any accrued and unpaid interest. However, we may not have enough available cash or be able to obtain financing at the time we are required to make repurchases of convertible notes surrendered therefor. In addition, our ability to repurchase the convertible notes may be limited by law, by regulatory authority or by agreements governing any of our future indebtedness. Our failure to repurchase the convertible notes at a time when the repurchase is required by the Indenture would constitute a default under the Indenture. A default under the Indenture or the fundamental change itself could also lead to a default under agreements governing our future indebtedness. If the repayment of the related indebtedness were to be accelerated after any applicable notice or grace periods, we may not have sufficient funds to repay the indebtedness and repurchase the convertible notes or make cash payments upon conversions thereof.

The fundamental change provisions in our convertible notes may delay or prevent an otherwise beneficial takeover attempt of us and, to the extent that Cantor or its affiliates continue to hold the convertible notes, these provisions may enhance Cantor's control of us.

Pursuant to the terms of our convertible notes, holders of our convertible notes will have the right to require us to repurchase all or a portion such notes upon the occurrence of a fundamental change at 100% of their principal amount, plus any accrued and unpaid interest. In addition, if a make-whole fundamental change occurs (as defined in the Indenture) prior to maturity of the convertible notes, under certain circumstances, we will increase the number of shares of our Class A common stock issuable upon conversion of the convertible notes converted in connection with such make-whole fundamental change. The fundamental change purchase rights and the provisions requiring an increase to the conversion rate for conversions in connection with make-whole fundamental changes may in certain circumstances delay or prevent a takeover of us and/or the removal of incumbent management that might otherwise be beneficial to investors. To the extent that Cantor or its affiliates continue to hold

Edgar Filing: BGC Partners, Inc. - Form 10-Q

the convertible notes, these provisions may enhance Cantor's control of us even if Cantor were to reduce its voting power in us by, among other things, converting shares of our Class B common stock held by it into shares of our Class A common stock or selling or distributing shares of our Class A common stock.
