Cautionary Statement Regarding Forward-Looking Statements

This annual report on Form 10-K includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. The forward looking statements include our current expectations, assumptions, estimates and projections about our business and our industry. They include statements relating to:

future revenues, expenses and profitability;

the future development and expected growth of our business;

projected capital expenditures;

attendance at movies generally or in any of the markets in which we operate;

the number or diversity of popular movies released and our ability to successfully license and exhibit popular films;

national and international growth in our industry;

competition from other exhibitors and alternative forms of entertainment; and

determinations in lawsuits in which we are defendants.

You can identify forward-looking statements by the use of words such as may, should, could, estimates, predicts, potential, continue, believes, plans, expects, future and intends and similar expressions which are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. In evaluating forward-looking statements, you should carefully consider the risks and uncertainties described in the Risk Factors section in Item 1A of this Form 10-K and elsewhere in this Form 10-K. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements and risk factors contained in this Form 10-K. Forward-looking statements contained in this Form 10-K reflect our view only as of the date of this Form 10-K. We undertake no obligation, other than as required by law, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 1. Business

Our Company

Cinemark Holdings, Inc. and subsidiaries, or the Company, is a leader in the motion picture exhibition industry, with theatres in the United States, or U.S., Brazil, Mexico, Argentina, Chile, Colombia, Peru, Ecuador, Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala. We also managed additional theatres in the U.S., Brazil and Colombia during the year ended December 31, 2011.

As of December 31, 2011, we managed our business under two reportable operating segments U.S. markets and international markets. See Note 23 to the consolidated financial statements.

Cinemark Holdings, Inc. is a Delaware corporation incorporated on August 2, 2006. Our principal executive offices are at 3900 Dallas Parkway, Suite 500, Plano, Texas 75093. Our telephone number is (972) 665-1000. We maintain a corporate Web site at www.cinemark.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K, and any amendments, are available on our Web site free of charge under the heading Investor Relations SEC Filings as soon as practicable after such reports are filed or furnished electronically to the Securities and Exchange Commission.

Description of Business

We are a leader in the motion picture exhibition industry in terms of both attendance and the number of screens in operation. As of December 31, 2011, we operated 456 theatres and 5,152 screens in the U.S. and Latin America and approximately 247.4 million patrons attended our theatres worldwide during the year ended December 31, 2011. Our circuit is the third largest in the U.S. with 297 theatres and 3,878 screens in 39 states. We are the most geographically diverse circuit in Latin America with 159 theatres and 1,274 screens in 13 countries. Our modern theatre circuit features stadium seating in approximately 87% of our first-run auditoriums.

We selectively build or acquire new theatres in markets where we can establish and maintain a strong market position. We believe our portfolio of modern theatres provides a preferred destination for moviegoers and contributes to our solid cash flows from operating activities. Our significant presence in the U.S. and Latin America has made us an important distribution channel for movie studios, particularly as they look to capitalize on the expanding worldwide box office. Our market leadership is attributable in large part to our senior executives, whose years of industry experience range from 15 to 53 years and who have successfully navigated us through many industry and economic cycles.

Revenues, operating income and net income attributable to Cinemark Holdings, Inc. for the year ended December 31, 2011, were \$2,279.6 million, \$308.6 million and \$130.6 million, respectively. At December 31, 2011 we had cash and cash equivalents of \$521.4 million and long-term debt of \$1,572.2 million. Approximately \$285.3 million, or 18%, of our long-term debt accrues interest at variable rates and approximately \$12.1 million of our long-term debt matures in 2012.

During 2009, we began converting our circuit from film based to digital projection technology. Digital projection technology gives us greater flexibility in programming and facilitates the exhibition of live and pre-recorded alternative entertainment. As of December 31, 2011, 100% of our first run domestic theatres are fully digital and we continue to convert our international theatres to digital. We also developed a premium experience auditorium concept utilizing large screens and the latest in digital projection and sound technologies, which we call our Cinemark XD Extreme Digital Cinema, or XD. The XD experience includes wall-to-wall and ceiling-to-floor screens, wrap-around sound and a maximum comfort entertainment environment for an intense sensory experience. We charge a premium price for the XD experience. The XD technology does not require special format movie prints, which allows us the flexibility to play any available digital print we choose, including 3-D content, in the XD auditorium. We currently have 81 XD auditoriums in our circuit and have plans to install 20 to 30 more XD auditoriums during 2012.

Table of Contents

During 2010, we introduced our NextGen concept, which features wall-to-wall and ceiling-to-floor screens and the latest digital projection and sound technologies in all of the auditoriums of a complex. These theatres generally also have an XD auditorium, which offers the wall-to-wall and ceiling-to-floor screen in a larger auditorium with enhanced sound and seating. Most of our future domestic theatres will incorporate this NextGen concept. As of December 31, 2011 five theatres with 55 screens have the NextGen concept.

During 2011, we converted our six existing film-based IMAX screens to digital projection technology and installed two additional digital IMAX systems.

Motion Picture Exhibition Industry Overview

The motion picture exhibition industry began its transition to digital projection technology during 2009. Digital projection technology allows filmmakers the ability to showcase imaginative works of art exactly as they were intended, with incredible realism and detail and in a range of up to 35 trillion colors. Because digital features aren't susceptible to scratching and fading, digital presentations will always remain clear and sharp every time they are shown. A digitally produced or digitally converted movie can be distributed to theatres via satellite, physical media, or fiber optic networks. The digitized movie is stored on a computer/server which serves it to a digital projector for each screening of the movie and due to its format, it enables us to more efficiently move films between auditoriums within a theatre as demand increases or decreases for each film. In addition, the transition to digital technology may reduce production and distribution costs as it will eliminate the need to produce and transport multiple film reels.

Further, digital projection allows the presentation of 3-D content and alternative entertainment such as live and pre-recorded sports programs, concert events, the opera and special live documentaries. Thirty-five films released wide during 2011 were available in 3-D format and at least 35 3-D films are currently expected to be released during 2012. Three-dimensional technology offers a premium experience with crisp, bright, ultra-realistic images that immerse the patron into a film. A premium is generally charged for a 3-D presentation. In addition, digital projection systems are a more eco-friendly technology since the hard drives require less materials to manufacture and can be used more than once, unlike 35 millimeter film reels.

Domestic Markets

The U.S. motion picture exhibition industry has a track record of long-term growth, with box office revenues growing at an estimated CAGR of 3.6% from 2000 to 2010. Against this background of steady long-term growth, the exhibition industry has experienced periodic short-term increases and decreases in attendance, and consequently box office revenues. While 2011 industry statistics have not yet been published, industry sources estimate that 2011 U.S. box office revenues were approximately \$10.2 billion.

The following table represents the results of a survey by Motion Picture Association of America, or MPAA, published during February 2011, outlining the historical trends in U.S. box office performance for the ten year period from 2001 to 2010:

Year	U.S. Box	Attendance	Average Ticket
	Office Revenues (\$ in billions)	(in billions)	Price
2001	\$ 8.1	1.43	\$ 5.66
2002	\$ 9.1	1.57	\$ 5.81
2003	\$ 9.2	1.52	\$ 6.03
2004	\$ 9.3	1.50	\$ 6.21
2005	\$ 8.8	1.38	\$ 6.41
2006	\$ 9.2	1.40	\$ 6.55
2007	\$ 9.6	1.40	\$ 6.88
2008	\$ 9.6	1.34	\$ 7.18
2009	\$ 10.6	1.42	\$ 7.50
2010	\$ 10.6	1.34	\$ 7.89

Table of Contents

Films leading the box office during the year ended December 31, 2011 included *Rio*, *Fast Five*, *Thor*, *Pirates of the Caribbean: On Stranger Tides*, *The Hangover Part II*, *Kung Fu Panda 2: The Kaboom of Doom*, *Cars 2*, *X Men: First Class*, *Super 8*, *Bridesmaids*, *Transformers: Dark of the Moon*, *Harry Potter and the Deathly Hallows: Part 2*, *Captain America: The First Avenger*, *Twilight: Breaking Dawn Part One*, *Paranormal Activity 3*, *Mission: Impossible – Ghost Protocol*, *Sherlock Holmes: A Game of Shadows*, *The Adventures of Tintin*, *The Girl with the Dragon Tattoo*, *War Horse* and *Alvin and the Chipmunks: Chipwrecked*, among other films.

The film slate for 2012 currently includes sequels such as *Men in Black 3*, *Madagascar 3: Europe's Most Wanted*, *Ice Age: Continental Drift*, *The Dark Knight Rises*, *The Bourne Legacy*, *Wrath of the Titans*, and *The Twilight Saga: Breaking Dawn Part 2* and original titles such as *Dr. Suess' The Lorax*, *The Hunger Games*, *The Avengers*, *The Hobbit: An Unexpected Journey*, *World War Z*, and *Life of Pi*, among other films.

International Markets

International box office revenue continues to grow. According to MPAA, international box office revenues were \$21.2 billion for the year ended December 31, 2010, which is a result of strong economies, ticket price increases and new theatre construction. According to MPAA, Latin American box office revenues were \$2.1 billion for the year ended December 31, 2010, representing a 25% increase from 2009. (As of the date of this report, 2011 industry data was not yet available.)

Growth in Latin America is expected to continue to be fueled by a combination of robust economies, growing populations, attractive demographics (i.e., a significant teenage population), substantial retail development, and quality product from Hollywood, including an increasing number of 3-D films. In many Latin American countries, particularly Mexico and Brazil, successful local film product can also provide incremental growth opportunities.

We believe many international markets for theatrical exhibition have historically been underserved and that certain of these markets, especially those in Latin America, will continue to experience growth as additional modern stadium-styled theatres are introduced, film product offerings continue to expand and the local economies continue to grow, resulting in the expansion of the middle class.

Drivers of Continued Industry Success

We believe the following market trends will drive the continued growth and strength of our industry:

Importance of Theatrical Success in Establishing Movie Brands and Subsequent Markets. Theatrical exhibition is the primary distribution channel for new motion picture releases. A successful theatrical release which brands a film is one of the major factors in determining its success in downstream markets, such as DVDs, network and syndicated television, video on-demand, pay-per-view television and the Internet.

Increased Importance of International Markets for Box Office Success. International markets continue to be an increasingly important component of the overall box office revenues generated by Hollywood films, accounting for \$21.2 billion, or approximately 67% of 2010 total worldwide box office revenues according to MPAA. (As of the date of this report, 2011 industry data was not yet available.) With the continued growth of the international motion picture exhibition industry, we believe the relative contribution of markets outside North America will become even more significant. Many of the top U.S. films released recently also performed exceptionally well in international markets. Such films included *Harry Potter and the Deathly Hallows: Part 2*, which grossed approximately \$947.1 million in international markets, *Pirates of the Caribbean: On Stranger Tides*, which grossed approximately \$800.0 million in international markets and *Transformers: Dark of the Moon*, which grossed approximately \$765.0 million in international markets.

Table of Contents

Stable Long-Term Attendance Trends. We believe that long-term trends in motion picture attendance in the U.S. will continue to benefit the industry. Even during the recent recessionary period, attendance levels remained stable as consumers selected the theatre as a preferred value for their discretionary income. With the motion picture exhibition industry's transition to digital projection technology, the products offered by motion picture exhibitors continue to expand, attracting a broader base of patrons.

Convenient and Affordable Form of Out-Of-Home Entertainment. Movie going continues to be one of the most convenient and affordable forms of out-of-home entertainment, with an estimated average ticket price in the U.S. of \$7.89 in 2010. Average prices in 2010 for other forms of out-of-home entertainment in the U.S., including sporting events and theme parks, range from approximately \$25.00 to \$77.00 per ticket according to MPAA. (As of the date of this report, 2011 industry data was not yet available.)

Innovation with Digital Technology. Our industry began its conversion to digital projection technology during 2009, which has allowed exhibitors to expand their product offerings. Digital projection allows the presentation of 3-D content and alternative entertainment such as live and pre-recorded sports programs, concert events, the opera and special live documentaries. These additional programming alternatives may expand the industry's customer base and increase patronage for exhibitors.

Competitive Strengths

We believe the following strengths allow us to compete effectively:

Disciplined Operating Philosophy. We generated operating income and net income attributable to Cinemark Holdings, Inc. of \$308.6 million and \$130.6 million, respectively, for the year ended December 31, 2011. Our solid operating performance is a result of our disciplined operating philosophy that centers on building high quality assets, while negotiating favorable theatre level economics, controlling operating costs and effectively reacting to economic and market changes.

Leading Position in Our U.S. Markets. We have a leading market share in the U.S. metropolitan and suburban markets we serve. For the year ended December 31, 2011, we ranked either first or second based on box office revenues in 24 out of our top 30 U.S. markets, including the San Francisco Bay Area, Dallas, Houston and Salt Lake City.

Strategically Located in Heavily Populated Latin American Markets. Since 1993, we have invested throughout Latin America in response to the continued growth of the region. We currently operate 159 theatres and 1,274 screens in 13 countries. Our international screens generated revenues of \$696.1 million, or 30.5% of our total revenue, for the year ended December 31, 2011. We have successfully established a significant presence in major cities in the region, with theatres in twelve of the fifteen largest metropolitan areas. We are the largest exhibitor in Brazil, Argentina and Chile. With a geographically diverse circuit, we are an important distribution channel to the movie studios. Approximately 87% of our international screens offer stadium seating. We are well-positioned with our modern, large-format theatres to take advantage of these factors for further growth and diversification of our revenues.

State-of-the-Art Theatre Circuit. We offer state-of-the-art theatres, which we believe makes our theatres a preferred destination for moviegoers in our markets. We feature stadium seating in approximately 87% of our first run auditoriums. During 2011, we increased the size of our circuit by adding 249 state-of-the-art screens worldwide. We currently have commitments to open 246 additional new screens over the next three years. We have installed digital projection technology in 100% of our first run U.S. auditoriums and plan to install digital projection technology in 100% of our international auditoriums. Approximately 48% of our U.S. screens are 3-D compatible and 37% of our international screens are 3-D compatible. We also converted our six existing film-based IMAX screens to digital projection technology and installed two additional digital IMAX systems during 2011. We currently have 81 XD auditoriums in our theatres and have plans to install 20 to 30 more XD

Table of Contents

auditoriums during 2012. Our new NextGen theatre concept provides further credence to our commitment to provide a continuing state-of-the-art movie-viewing experience to our patrons.

Solid Balance Sheet with Significant Cash Flow from Operating Activities. We generate significant cash flow from operating activities as a result of several factors, including a geographically diverse and modern theatre circuit and management's ability to control costs and effectively react to economic and market changes. Additionally, owning land and buildings for 41 of our theatres is a strategic advantage that enhances our cash flows. We believe our expected level of cash flow generation will provide us with the financial flexibility to continue to pursue growth opportunities, support our debt payments and continue to make dividend payments to our stockholders. In addition, as of December 31, 2011, we owned approximately 17.5 million shares of National CineMedia and approximately 1.2 million shares in RealD, both of which offer us an additional source of cash flows. As of December 31, 2011, we had cash and cash equivalents of \$521.4 million.

Experienced Management. Led by Chairman and founder Lee Roy Mitchell, Chief Executive Officer, President and Chief Operating Officer Tim Warner, Chief Financial Officer Robert Copple and President-International Valmir Fernandes, our management team has many years of theatre operating experience, ranging from 15 to 53 years, executing a focused strategy that has led to consistent operating results. This management team has successfully navigated us through many industry and economic cycles.

Our Strategy

We believe our disciplined operating philosophy and experienced management team will enable us to continue to enhance our leading position in the motion picture exhibition industry. Key components of our strategy include:

Establish and Maintain Leading Market Positions. We will continue to seek growth opportunities by building or acquiring modern theatres that meet our strategic, financial and demographic criteria. We focus on establishing and maintaining a leading position in the markets we currently serve. We also monitor economic and market trends to ensure we offer a broad range of products and prices that satisfy our patrons.

Continue to Focus on Operational Excellence. We will continue to focus on achieving operational excellence by controlling theatre operating costs and adequately training our staff while continuing to provide leading customer service. Our margins reflect our track record of operating efficiency.

Selectively Build in Profitable, Strategic Latin American Markets. Our continued international expansion will remain focused primarily on Latin America through construction of modern, state-of-the-art theatres in growing urban markets. We have commitments to build six new theatres with 43 screens during 2012 and three new theatres with 22 screens subsequent to 2012, investing an additional \$72 million in our Latin American markets. We also plan to install digital projection technology in all of our international auditoriums, which allows us to present 3-D and alternative content in these markets. Approximately 37% of our international auditoriums are 3-D compatible. We have also installed 26 of our proprietary XD auditoriums in our international theatres and have plans to install approximately 15 additional XD auditoriums internationally during 2012.

Commitment to Digital Innovation. Our commitment to technological innovation has resulted in us having 3,530 digital auditoriums in the U.S. as of December 31, 2011, 1,844 of which are 3-D compatible. We also had 477 digital auditoriums in our international markets as of December 31, 2011, all of which are 3-D compatible. See further discussion of our digital expansion at [Conversion to Digital Projection Technology](#). We are planning to convert 100% of our worldwide circuit to digital projection technology, approximately 40-50% of which will be 3-D compatible. We also plan to expand our XD auditorium footprint in various markets throughout the U.S. and in select international markets, which offers our patrons a premium movie-viewing experience.

Table of Contents**Theatre Operations**

As of December 31, 2011, we operated 456 theatres and 5,152 screens in 39 states and 13 Latin American countries. Our theatres in the U.S. are primarily located in mid-sized U.S. markets, including suburbs of major metropolitan areas. We believe these markets are generally less competitive and generate high, stable margins. Our theatres in Latin America are primarily located in major metropolitan markets, which we believe are generally underscreened. The following tables summarize the geographic locations of our theatre circuit as of December 31, 2011.

We first entered Latin America when we began operating movie theatres in Chile in 1993 and Mexico in 1994. Since then, through our focused international strategy, we have developed into the most geographically diverse theatre circuit in the region. We have balanced our risk through a diversified international portfolio, currently operating theatres in twelve of the fifteen largest metropolitan areas in Latin America. In addition, we have achieved significant scale in Brazil, where we are the largest exhibitor, and Mexico, the two largest Latin American economies, with 434 screens in Brazil and 294 screens in Mexico as of December 31, 2011. We are also the largest exhibitor in Argentina and Chile.

We believe that certain markets within Latin America continue to be underserved as penetration of movie screens per capita in Latin American markets is substantially lower than in the U.S. and European markets. We will continue to build and expand our presence in underserved international markets, with emphasis on Latin America, and fund our expansion primarily with cash flow generated in those markets. We are able to mitigate cash flow exposure to currency fluctuations by using local currencies to collect a majority of our revenues and fund a majority of the costs of our international operations. Our geographic diversity throughout Latin America has allowed us to maintain consistent revenue growth, notwithstanding currency and economic fluctuations that may affect any particular market. Our international revenues were approximately \$696.1 million during 2011 compared to \$564.2 million during 2010.

Film Licensing

In the domestic marketplace, the Company's film department negotiates with film distributors, which are made up of the traditional major film companies, specialized and art divisions of some of these major film companies, and many other independent film distributors. The film distributors are responsible for determining film release dates, the related marketing campaigns and the expenditures related to marketing materials, television spots and other advertising outlets. The marketing campaign of each movie may include tours of the actors in the movies and coordination of articles and features about each movie. The Company is responsible for booking the films in negotiated film zones, which are either free zones or competitive zones. In free zones, movies can be booked without regard to the location of another exhibitor within that area. In competitive zones, the distributor allocates their movies to the exhibitors located in that area generally based on demographics and grossing potential of that particular area. We are the sole exhibitor in approximately 91% of the 229 film zones in which our first run U.S. theatres operate. In film zones where there is no direct competition from other theatres, we select those films that we believe will be the most successful from those offered to us by film distributors.

Internationally, our local film personnel negotiate with local offices of major film distributors as well as local film distributors to license films for our international theatres. In the international marketplace, films are not allocated to a single theatre in a geographic film zone, but played by competitive theatres simultaneously.

Table of Contents

Our theatre personnel focus on providing excellent customer service, and we provide a modern facility with the most up-to-date sound systems, comfortable stadium style seating and other amenities typical of modern American-style multiplexes, which we believe gives us a competitive advantage in markets where competing theatres play the same films. Of the 1,274 screens we operate in international markets, approximately 79% have no direct competition from other theatres.

Our film rental fees in the U.S. are generally based on a film's box office receipts and either mutually agreed upon firm terms, a sliding scale formula, or a mutually agreed upon settlement, subject to the film licensing agreement. Under a firm terms formula, we pay the distributor a mutually agreed upon specified percentage of box office receipts. Under a sliding scale formula, we pay a percentage of box office revenues using a pre-determined matrix that is based upon box office performance of the film. The settlement process allows for negotiation of film rental fees upon the conclusion of the film run based upon how the film performs. Internationally, our film rental fees are primarily based on mutually agreed upon firm terms that are based upon a specified percentage of box office receipts.

We regularly play art and independent films at many of our U.S. theatres, providing a variety of film choices to our patrons. Bringing art and independent films to our theatres allows us to benefit from the growth in the art and independent market driven by the more mature patron and increased interest in art, foreign and documentary films. High profile film festivals, such as the Sundance Film Festival, have contributed to interest in this genre. The performance of films such as *Midnight in Paris*, *The Descendants*, and *The Iron Lady* have demonstrated the box office potential of art and independent films.

Food, Beverages and Amusements

Concession sales are our second largest revenue source, representing approximately 30% of total revenues for each of the years ended December 31, 2009, 2010 and 2011. Concession sales have a much higher margin than admissions sales. We have devoted considerable management effort to increase concession sales and improve operating margins. These efforts include implementation of the following strategies:

Optimization of product mix. We offer concession products that primarily include various sizes and types of popcorn, soft drinks, coffees, juices, candy and quickly-prepared food, such as hot dogs, nachos and ice cream. Different varieties and flavors of candy and drinks are offered at theatres based on preferences in that particular market. Our point of sale system allows us to monitor product sales and make changes to product mix when necessary, which also allows us to quickly take advantage of national as well as regional product launches. Specially priced combos and promotions are introduced on a regular basis to increase average concession purchases as well as to attract new buyers. We periodically offer our loyal patrons opportunities to receive a discount on certain products by offering reusable popcorn tubs and soft drink cups that can be refilled at a discount off the regular price.

Staff training. Employees are continually trained in proper sales techniques. Consumer promotions conducted at the concession stand usually include a motivational element that rewards theatre staff for exceptional sales of certain promotional items.

Theatre design. Our theatres are designed to optimize efficiencies at the concession stands, which include multiple service stations throughout a theatre to facilitate serving more customers more quickly. We strategically place large concession stands within theatres to heighten visibility, reduce the length of concession lines, and improve traffic flow around the concession stands. We have self-service concession areas in many of our domestic theatres, which allow customers to select their own refreshments and proceed to the cash register when they are ready. This design allows for efficient service, enhanced choices and superior visibility of concession items. Concession designs in many of our new domestic theatres have incorporated the self-service model.

Cost control. We negotiate prices for concession supplies directly with concession vendors and manufacturers to obtain volume rates. Concession supplies are distributed through a national distribution network. The concession distributor supplies and distributes inventory to the theatres, who

Table of Contents

place orders directly with the vendors to replenish stock. We conduct a weekly inventory of all concession products at each theatre to ensure proper stock levels are maintained for business.

Pre-Feature Screen Advertising

In our domestic markets, our theatres are part of the in-theatre digital network operated by National CineMedia, LLC, or NCM. NCM's primary activities that impact our theatres include: advertising through its branded *First Look* pre-feature entertainment program, lobby promotions and displays; live and pre-recorded networked and single-site meetings and events; and live and pre-recorded concerts, sporting events and other non-film entertainment programming. We believe that the reach, scope and digital delivery capability of NCM's network provides an effective platform for national, regional and local advertisers to reach an engaged audience. We receive a monthly theatre access fee for participation in the NCM network. In addition, we are entitled to receive mandatory quarterly distributions of excess cash from NCM. As of December 31, 2011, we had an approximate 16% ownership interest in NCM. See Note 6 to the consolidated financial statements.

In certain of our international markets, we outsource our screen advertising to local companies who have established relationships with local advertisers that provide similar benefits as NCM. The terms of our international screen advertising contracts vary by country. In some of these locations, we earn a percentage of the screen advertising revenues collected by our partners and in other locations we are paid a fixed annual fee for access to our screens, while at our other locations, our in-house marketing personnel handle screen advertising. We recently took the screen advertising function in-house in Brazil, which is being handled by a newly formed wholly-owned subsidiary Flix Media Publicidade e Entretenimento, Ltda., or Flix Media. Our Flix Media marketing personnel work directly with local advertisers to generate screen advertising.

Conversion to Digital Projection Technology

The motion picture exhibition industry began its conversion to digital projection technology during 2009.

Participation in Digital Cinema Implementation Partners

During 2007, we, AMC Entertainment Inc., or AMC, and Regal Entertainment Group, or Regal, entered into a joint venture known as Digital Cinema Implementation Partners LLC, or DCIP, to facilitate the implementation of digital cinema in our U.S. theatres and to establish agreements with major motion picture studios for the financing of digital cinema. Digital cinema developments are managed by DCIP, subject to certain approvals by us, AMC and Regal with each of us having an equal voting interest in DCIP. DCIP's wholly-owned subsidiary Kasima executed long-term deployment agreements with all of the major motion picture studios, under which Kasima receives a virtual print fee from such studios for each digital presentation. In accordance with these agreements, the digital projection systems deployed by Kasima comply with the technology and security specifications developed by the Digital Cinema Initiatives studio consortium. Kasima leases digital projection systems to us, AMC and Regal under master lease agreements that have an initial term of 12 years.

On March 10, 2010, we signed a master lease agreement and other related agreements (collectively the agreements) with Kasima. Upon signing these agreements, we contributed cash and the majority of our existing U.S. digital projection systems to DCIP. Subsequently during 2010 and 2011, we sold additional U.S. digital projection systems to DCIP. As of December 31, 2011, we had a 33% voting interest in DCIP and a 24.3% economic interest in DCIP. As of December 31, 2011, we had 3,530 digital auditoriums in the U.S., 3,460 of which are leased from Kasima and 1,844 of which are capable of exhibiting 3-D content.

International Markets

In our international markets, we continue to convert our auditoriums to digital projection technology. The digital projection systems we deploy are generally funded with operating cash flows generated by each

Table of Contents

international country. As of December 31, 2011, we had 477 digital auditoriums in our international markets, all of which are capable of exhibiting 3-D content. Similar to our domestic markets, we expect to install digital projection systems in all of our international auditoriums.

Marketing

In the U.S., we rely on Internet advertising and also newspaper directory film schedules. Radio and television advertising spots are used to promote certain motion pictures and special events. We exhibit previews of coming attractions and films we are currently playing as part of our pre-feature program. We offer patrons access to movie times, the ability to buy and print their tickets at home and purchase gift cards at our Web site www.cinemark.com. Customers subscribing to our weekly email receive targeted information about current and upcoming films at their preferred Cinemark theatre(s), including details about advanced tickets, special events, concerts and live broadcasts; as well as contests, promotions, and exclusive coupons for concession savings. We partner with film distributors to use monthly web contests to drive traffic to our Web site and to ensure that customers visit often. In addition, we work with all of the film distributors on a regular basis to promote their films with local, regional and national programs that are exclusive to our theatres. These programs may involve customer contests, cross-promotions with the media and third parties and other means to increase patronage for a particular film showing at one of our theatres. We also have an iPhone application in the U.S. that allows patrons to find theatres, check showtimes and purchase tickets.

Internationally, we exhibit upcoming and current film previews on screen, we partner with film distributors for certain promotions and advertise our new locations through various forms of media and events. We partner with large multi-national corporations in the large metropolitan areas in which we have theatres to promote our brand, our image and to increase attendance levels at our theatres. Our customers are encouraged to register on our Web site to receive weekly information by email for showtime information, invitations to special screenings, sponsored events and promotional information. In addition, our customers can request to receive showtime information on their cell phones. We also have loyalty programs in some of our international markets that allow customers to pay a nominal fee for a membership card that provides them with certain admissions and concession discounts. In addition, the Company has introduced an iPhone application in Brazil. The application allows consumers to check showtimes and purchase tickets for our Brazil theatres.

Our domestic and international marketing departments also focus on maximizing ancillary revenue, which includes the sale of our gift cards and our SuperSaver discount tickets. We market these programs to such business representatives as realtors, human resource managers, incentive program managers and hospital and pharmaceutical personnel. Gift cards can be purchased for certain of our locations at our theatres or online through our Web site, www.cinemark.com. SuperSavers are also sold online at www.cinemark.com or via phone, fax or email by our local corporate offices and are also available at certain retailers in the U.S.

Online and Mobile Sales

Our patrons may purchase advance tickets for all of our domestic screens and a majority of our international screens by accessing our corporate Web site at www.cinemark.com. Advance tickets may also be purchased for our domestic screens at www.fandango.com. Our mobile phone and tablet applications offer patrons the ability to purchase tickets. Our Internet initiatives help improve customer satisfaction, allowing patrons who purchase tickets over the Internet to bypass lines at the box office by printing their tickets at home, picking up their tickets at kiosks located at the theatre, or scanning a barcode confirmation from their mobile device at the usher stand.

Point of Sale Systems

We have developed our own proprietary point of sale system to enhance our ability to maximize revenues, control costs and efficiently manage operations. The system is currently installed in all of our U.S. theatres. The point of sale system provides corporate management with real-time admissions and concession revenues data and

Table of Contents

reports to allow for timely changes to movie schedules, including extending film runs, increasing the number of screens on which successful movies are being played, or substituting films when gross receipts do not meet expectations. Real-time seating, as well as reserved seating, and box office information is available to box office personnel, preventing overselling of a particular film and providing faster and more accurate responses to customer inquiries regarding showtimes and available seating. The system tracks concession sales by product, provides in-theatre inventory reports for efficient inventory management and control, offers numerous ticket pricing options, connects with digital concession signage for real-time pricing modifications, integrates Internet ticket sales and processes credit card transactions. Barcode scanners, pole displays, touch screens, credit card readers and other equipment are integrated with the system to enhance its functions and provide print-at-home and mobile ticketing. In our international locations, we currently use other point of sale systems that have been developed by third parties, which have been certified as compliant with applicable governmental regulations and provide generally the same capabilities as our proprietary point of sale system.

Competition

We are a leader in the motion picture exhibition industry in terms of both attendance and the number of screens in operation. We compete against local, regional, national and international exhibitors with respect to attracting patrons, licensing films and developing new theatre sites. Our domestic competitors include Regal, AMC and Carmike Cinemas, Inc. and our international competitors, which vary by country, include Cinépolis, Cinemex and National Amusements.

We are the sole exhibitor in approximately 91% of the 229 film zones in which our first run U.S. theatres operate. In film zones where there is no direct competition from other theatres, we select those films that we believe will be the most successful from those offered to us by film distributors. Where there is competition, the distributor allocates their movies to the exhibitors located in that area generally based on demographics, the conditions, capacity and grossing potential of each theatre, and licensing terms. Of the 1,274 screens we operate outside of the U.S., approximately 79% of those screens have no direct competition from other theatres. In areas where we face direct competition, our success in attracting patrons depends on location, theatre capacity, quality of projection and sound equipment, film showtime availability, customer service quality, and ticket prices.

We compete for new theatre sites with other movie theatre exhibitors as well as other entertainment venues, with securing a potential site being dependent upon factors such as committed investment and resources, theatre design and capacity, revenue and patron potential, and financial stability.

We also face competition from a number of other motion picture exhibition delivery systems, such as DVDs, network and syndicated television, video on-demand, pay-per-view television and the Internet. We also face competition from other forms of entertainment competing for the public's leisure time and disposable income, such as concerts, theme parks and sporting events.

Corporate Operations

Our corporate headquarters is located in Plano, Texas. Personnel at our corporate headquarters provide oversight for our domestic and international theatres. Domestic personnel at our corporate headquarters include our executive team and department heads in charge of film licensing, concessions, theatre operations, theatre construction and maintenance, real estate, human resources, marketing, legal, finance and accounting, audit and information systems support. Our U.S. operations are divided into sixteen regions, primarily organized geographically, each of which is headed by a region leader.

International personnel at our corporate headquarters include our President of Cinemark International, L.L.C. and department heads in charge of film licensing, marketing, theatre operations, theatre construction,

Table of Contents

legal, audit, accounting and information systems. We have eight regional offices in Latin America responsible for the local management of theatres in thirteen individual countries (Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala are operated out of one Central American regional office). Each regional office is headed by a general manager and includes personnel in film licensing, marketing, human resources, information systems, operations and accounting. We have a chief financial officer in Brazil, Mexico and Argentina, which are our three largest international markets. The regional offices are staffed with experienced personnel from the region to mitigate cultural and operational barriers.

Employees

We have approximately 14,000 employees in the U.S., approximately 10% of whom are full time employees and 90% of whom are part time employees. We have approximately 8,000 employees in our international markets, approximately 51% of whom are full time employees and approximately 49% of whom are part time employees. Some of our international locations are subject to union regulations. We regard our relations with our employees to be satisfactory.

Regulations

The distribution of motion pictures is largely regulated by federal and state antitrust laws and has been the subject of numerous antitrust cases. The manner in which we can license films from certain major film distributors is subject to consent decrees resulting from these cases. Consent decrees bind certain major film distributors and require the films of such distributors to be offered and licensed to exhibitors, including us, on a theatre-by-theatre and film-by-film basis. Consequently, exhibitors cannot enter into long-term arrangements with major distributors, but must negotiate for licenses on a theatre-by-theatre and film-by-film basis.

We are subject to various general regulations applicable to our operations including the Americans with Disabilities Act of 1990, or the ADA. We develop new theatres to be accessible to the disabled and we believe we are substantially compliant with current regulations relating to accommodating the disabled. Although we believe that our theatres comply with the ADA, we have been a party to lawsuits which claim that our handicapped seating arrangements do not comply with the ADA or that we are required to provide captioning for patrons who are deaf or are severely hearing impaired.

Our theatre operations are also subject to federal, state and local laws governing such matters as wages, working conditions, citizenship, health and sanitation requirements and licensing.

Financial Information About Geographic Areas

We currently have operations in the U.S., Brazil, Mexico, Argentina, Chile, Colombia, Peru, Ecuador, Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala, which are reflected in the consolidated financial statements. See Note 23 to the consolidated financial statements for segment information and financial information by geographic area.

Item 1A. Risk Factors

Our business depends on film production and performance.

Our business depends on both the availability of suitable films for exhibition in our theatres and the success of those films in our markets. Poor performance of films, the disruption in the production of films due to events such as a strike by directors, writers or actors, a reduction in financing options for the film distributors, or a reduction in the marketing efforts of the film distributors to promote their films could have an adverse effect on our business by resulting in fewer patrons and reduced revenues.

Table of Contents

A deterioration in relationships with film distributors could adversely affect our ability to obtain commercially successful films.

We rely on the film distributors to supply the films shown in our theatres. The film distribution business is highly concentrated, with six major film distributors accounting for approximately 83% of U.S. box office revenues and 46 of the top 50 grossing films during 2011. Numerous antitrust cases and consent decrees resulting from these antitrust cases impact the distribution of films. The consent decrees bind certain major film distributors to license films to exhibitors on a theatre-by-theatre and film-by-film basis. Consequently, we cannot guarantee a supply of films by entering into long-term arrangements with major distributors. We are therefore required to negotiate licenses for each film and for each theatre. A deterioration in our relationship with any of the six major film distributors could adversely affect our ability to obtain commercially successful films and to negotiate favorable licensing terms for such films, both of which could adversely affect our business and operating results.

Our results of operations vary from period to period based upon the quantity and quality of the motion pictures that we show in our theatres.

Our results of operations vary from period to period based upon the quantity and quality of the motion pictures that we show in our theatres. The major film distributors generally release the films they anticipate will be most successful during the summer and holiday seasons. Consequently, we typically generate higher revenues during these periods. Due to the dependency on the success of films released from one period to the next, results of operations for one period may not be indicative of the results for the following period or the same period in the following year.

We face intense competition for patrons and films which may adversely affect our business.

The motion picture industry is highly competitive. We compete against local, regional, national and international exhibitors. We compete for both patrons and licensing of films. The competition for patrons is dependent upon such factors as location, theatre capacity, quality of projection and sound equipment, film showtime availability, customer service quality, and ticket prices. The principal competitive factors with respect to film licensing include the theatre's location and its demographics, the condition, capacity and revenue potential of each theatre and licensing terms. If we are unable to attract patrons or to license successful films, our business may be adversely affected.

An increase in the use of alternative or downstream film distribution channels and other competing forms of entertainment may reduce movie theatre attendance and limit revenue growth.

We face competition for patrons from a number of alternative film distribution channels, such as DVDs, network and syndicated television, video on-demand, pay-per-view television and the Internet. We also compete with other forms of entertainment, such as concerts, theme parks and sporting events, for our patrons' leisure time and disposable income. A significant increase in popularity of these alternative film distribution channels or competing forms of entertainment could have an adverse effect on our business and results of operations.

Our results of operations may be impacted by shrinking video release windows.

Over the last decade, the average video release window, which represents the time that elapses from the date of a film's theatrical release to the date a film is available on DVD, an important downstream market, has decreased from approximately six months to approximately three to four months. If patrons choose to wait for a DVD release rather than attend a theatre for viewing the film, it may adversely impact our business and results of operations, financial condition and cash flows. Film studios have started to offer consumers a premium video on demand option for certain films 60 days following the theatrical release, which caused the release window to shrink further for certain films. We cannot assure you that these release windows, which are determined by the film studios, will not shrink further or be eliminated altogether, which could have an adverse impact on our business and results of operations.

Table of Contents

We have substantial long-term lease and debt obligations, which may restrict our ability to fund current and future operations and that restrict our ability to enter into certain transactions.

We have, and will continue to have, significant long-term debt service obligations and long-term lease obligations. As of December 31, 2011, we had \$1,572.2 million in long-term debt obligations, \$141.2 million in capital lease obligations and \$1,904.0 million in long-term operating lease obligations. We incurred interest expense of \$123.1 million for the year ended December 31, 2011. We incurred \$276.3 million of facility lease expense under operating leases for the year ended December 31, 2011 (the terms under these operating leases, excluding optional renewal periods, range from one to 25 years). Our substantial lease and debt obligations pose risk to you by:

making it more difficult for us to satisfy our obligations;

requiring us to dedicate a substantial portion of our cash flows to payments on our lease and debt obligations, thereby reducing the availability of our cash flows from operations to fund working capital, capital expenditures, acquisitions and other corporate requirements and to pay dividends;

impeding our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions and general corporate purposes;

subjecting us to the risk of increased sensitivity to interest rate increases on our variable rate debt, including our borrowings under our senior secured credit facility; and

making us more vulnerable to a downturn in our business and competitive pressures and limiting our flexibility to plan for, or react to, changes in our industry or the economy.

Our ability to make scheduled payments of principal and interest with respect to our indebtedness will depend on our ability to generate positive cash flows and on our future financial results. Our ability to generate positive cash flows is subject to general economic, financial, competitive, regulatory and other factors that are beyond our control. We cannot assure you that we will continue to generate cash flows at current levels, or that future borrowings will be available under our senior secured credit facility, in an amount sufficient to enable us to pay our indebtedness. If our cash flows and capital resources are insufficient to fund our lease and debt service obligations, we may be forced to reduce or delay capital expenditures, sell assets or operations, seek additional capital or restructure or refinance our indebtedness. We may not be able to take any of these actions, and these actions may not be successful or permit us to meet our scheduled debt service obligations and these actions may be restricted under the terms of our existing or future debt agreements, including our senior secured credit facility. The senior secured credit facility restricts our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or the proceeds may not be adequate to meet our debt service obligations.

If we fail to make any required payment under the agreements governing our leases and indebtedness or fail to comply with the financial and operating covenants contained in them, we would be in default, and as a result, our debt holders would have the ability to require that we immediately repay our outstanding indebtedness and the lenders under our senior secured credit facility could terminate their commitments to lend us money and foreclose against the assets securing their borrowings. We could be forced into bankruptcy or liquidation, which could result in the loss of your investment. The acceleration of our indebtedness under one agreement may permit acceleration of indebtedness under other agreements that contain cross-default and cross-acceleration provisions. If our indebtedness is accelerated, we may not be able to repay our indebtedness or borrow sufficient funds to refinance it. Even if we are able to obtain new financing, it may not be on commercially reasonable terms or on terms that are acceptable to us. If our debt holders require immediate payment, we may not have sufficient assets to satisfy our obligations under our indebtedness.

General political, social and economic conditions can adversely affect our attendance.

Our results of operations are dependent on general political, social and economic conditions, and the impact of such conditions on our theatre operating costs and on the willingness of consumers to spend money at movie

Table of Contents

theatres. If consumers' discretionary income declines as a result of an economic downturn, our operations could be adversely affected. If theatre operating costs, such as utility costs, increase due to political or economic changes, our results of operations could be adversely affected. Political events, such as terrorist attacks, and health-related epidemics, such as flu outbreaks, could cause people to avoid our theatres or other public places where large crowds are in attendance. In addition, a natural disaster, such as a hurricane or an earthquake, could impact our ability to operate certain of our theatres, which could adversely affect our results of operations.

Our foreign operations are subject to adverse regulations, economic instability and currency exchange risk.

We have 159 theatres with 1,274 screens in thirteen countries in Latin America. Brazil represented approximately 15.7% of our consolidated 2011 revenues. Governmental regulation of the motion picture industry in foreign markets differs from that in the United States. Changes in regulations affecting prices, quota systems requiring the exhibition of locally-produced films and restrictions on ownership of property may adversely affect our international operations. Our international operations are subject to certain political, economic and other uncertainties not encountered by our domestic operations, including risks of severe economic downturns and high inflation. We also face risks of currency fluctuations, hard currency shortages and controls of foreign currency exchange and transfers abroad, all of which could have an adverse effect on the results of our international operations.

We may not be able to generate additional revenues or continue to realize value from our investment in NCM.

In 2005, we joined Regal and AMC as founding members of NCM, a provider of digital advertising content and digital non-film event content. As of December 31, 2011, we had an ownership interest in NCM of approximately 16%. We receive a monthly theatre access fee under our Exhibitor Services Agreement with NCM and we are entitled to receive mandatory quarterly distributions of excess cash from NCM. During the years ended December 31, 2010 and 2011, the Company received approximately \$5.0 million and \$5.9 million in other revenues from NCM, respectively, and \$23.4 million and \$24.2 million in cash distributions in excess of our investment in NCM, respectively. Cinema advertising is a small component of the U.S. advertising market and therefore, NCM competes with larger, established and well known media platforms such as broadcast radio and television, cable and satellite television, outdoor advertising and Internet portals. NCM also competes with other cinema advertising companies and with hotels, conference centers, arenas, restaurants and convention facilities for its non-film related events to be shown or held in our auditoriums. In-theatre advertising may not continue to attract advertisers or NCM's in-theatre advertising format may not continue to be received favorably by theatre patrons. If NCM is unable to continue to generate consistent advertising revenues, its results of operations may be adversely affected and our investment in and distributions and revenues from NCM may be adversely impacted.

We are subject to uncertainties related to digital cinema, including insufficient financing to obtain digital projectors and insufficient supply of digital projectors for our international locations.

We began a roll-out of digital projection equipment in our international theatres during 2009 which has been funded by operating cash flows. There is no local financing available to finance the deployment of digital projectors for our international theatres. Accordingly, the cost of digital projection systems and manufacturer limitations may delay our international deployment.

We are subject to uncertainties relating to future expansion plans, including our ability to identify suitable acquisition candidates or site locations, and to obtain financing for such activities on favorable terms or at all.

We have greatly expanded our operations over the last decade through targeted worldwide theatre development and acquisitions. We will continue to pursue a strategy of expansion that will involve the

Table of Contents

development of new theatres and may involve acquisitions of existing theatres and theatre circuits both in the U.S. and internationally. There is significant competition for new site locations and for existing theatre and theatre circuit acquisition opportunities. As a result of such competition, we may not be able to acquire attractive site locations, existing theatres or theatre circuits on terms we consider acceptable. Acquisitions and expansion opportunities may divert a significant amount of management's time away from the operation of our business. Growth by acquisition also involves risks relating to difficulties in integrating the operations and personnel of acquired companies and the potential loss of key employees of acquired companies. We cannot assure you that our expansion strategy will result in improvements to our business, financial condition, profitability, or cash flows. Further, our expansion programs may require financing above our existing borrowing capacity and operating cash flows. We cannot assure you that we will be able to obtain such financing or that such financing will be available to us on acceptable terms or at all.

If we do not comply with the Americans with Disabilities Act of 1990 and the safe harbor framework included in the consent order we entered into with the Department of Justice, or the DOJ, we could be subject to further litigation.

Our theatres must comply with Title III of the ADA and analogous state and local laws. Compliance with the ADA requires among other things that public facilities reasonably accommodate individuals with disabilities and that new construction or alterations made to commercial facilities conform to accessibility guidelines unless structurally impracticable for new construction or technically infeasible for alterations. On November 15, 2004, we and the Department of Justice, or DOJ, entered into a consent order, which was filed with the U.S. District Court for the Northern District of Ohio, Eastern Division. Under the consent order, the DOJ approved a safe harbor framework for us to construct all of our future stadium-style movie theatres. The DOJ has stipulated that all theatres built in compliance with the consent order will comply with the wheelchair seating requirements of the ADA. If we fail to comply with the ADA, remedies could include imposition of injunctive relief, fines, awards for damages to private litigants and additional capital expenditures to remedy non-compliance. Imposition of significant fines, damage awards or capital expenditures to cure non-compliance could adversely affect our business and operating results.

We depend on key personnel for our current and future performance.

Our current and future performance depends to a significant degree upon the continued contributions of our senior management team and other key personnel. The loss or unavailability to us of any member of our senior management team or a key employee could significantly harm us. We cannot assure you that we would be able to locate or employ qualified replacements for senior management or key employees on acceptable terms.

We are subject to impairment losses due to potential declines in the fair value of our assets.

We review long-lived assets for impairment indicators on a quarterly basis or whenever events or changes in circumstances indicate the carrying amount of the assets may not be fully recoverable. We assess many factors when determining whether to impair individual theatre assets, including actual theatre level cash flows, future years budgeted theatre level cash flows, theatre property and equipment carrying values, amortizing intangible asset carrying values, the age of a recently built theatre, competitive theatres in the marketplace, the impact of recent ticket price changes, available lease renewal options and other factors considered relevant in our assessment of impairment of individual theatre assets. Long-lived assets are evaluated for impairment on an individual theatre basis, which we believe is the lowest applicable level for which there are identifiable cash flows. When estimated fair value is determined to be lower than the carrying value of the theatre assets, the theatre assets are written down to their estimated fair value. Fair value is determined based on a multiple of cash flows, which was six and a half times for the evaluations performed during 2009, 2010 and 2011. Significant judgment is involved in estimating cash flows and fair value. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC, Topic 820-10-35, are based on historical and projected operating

Table of Contents

performance, recent market transactions and current industry trading multiples. Since we evaluate long-lived assets for impairment at the theatre level, if a theatre is directly and individually impacted by increased competition, adverse changes in market demographics or adverse changes in the development or condition of the areas surrounding the theatre, we may record impairment charges to reflect the decline in estimated fair value of that theatre.

We have a significant amount of goodwill. We evaluate goodwill for impairment at the reporting unit level at least annually during the fourth quarter or whenever events or changes in circumstances indicate the carrying value of goodwill may not be fully recoverable. Goodwill is evaluated for impairment using a two-step approach under which we compute the fair value of a reporting unit and compare it with its carrying value. If the carrying value of the reporting unit exceeds its fair value, a second step would be performed to measure the potential goodwill impairment. Fair values are determined based on a multiple of cash flows, which was six and a half times for the evaluations performed during 2009 and 2010 and seven and a half times for the evaluation performed during 2011. Significant judgment is involved in estimating cash flows and fair value. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35, are based on historical and projected operating performance, recent market transactions and current industry trading multiples. Declines in our stock price or market capitalization, declines in our attendance due to increased competition in certain regions and/or countries or economic factors that lead to a decline in attendance in any given region or country could negatively affect our estimated fair values and could result in further impairments of goodwill. As of December 31, 2011, the fair value of goodwill for all of our reporting units exceeded their estimated carrying values by at least 10%.

We also have a significant amount of tradename intangible assets. Tradename intangible assets are tested for impairment at least annually during the fourth quarter or whenever events or changes in circumstances indicate the carrying value may not be fully recoverable. We estimate the fair value of our tradenames by applying an estimated market royalty rate that could be charged for the use of our tradename to forecasted future revenues, with an adjustment for the present value of such royalties. If the estimated fair value is less than the carrying value, the tradename intangible asset is written down to its estimated fair value. Significant judgment is involved in estimating market royalty rates and long-term revenue forecasts. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35, are based on historical and projected revenue performance and industry trends. As of December 31, 2011, the fair value of our tradename intangible assets exceeded their estimated carrying values by at least 10%.

We recorded asset impairment charges, including goodwill and intangible asset impairment charges, of \$11.8 million, \$12.5 million and \$7.0 million for the years ended December 31, 2009, 2010 and 2011, respectively. We cannot assure you that additional impairment charges will not be required in the future, and such charges may have an adverse effect on our financial condition and results of operations. See Management's Discussion and Analysis of Financial Condition and Results of Operations and Notes 10 and 11 to the consolidated financial statements.

A failure to adapt to future technological innovations could impact our ability to compete effectively and could adversely affect our results of operations.

While we are continuing to transition our theatres to digital projection technology, new technological innovations continue to impact our industry. If we are unable to respond to or invest in changes in technology and the technological preferences of our customers, we may not be able to compete with other exhibitors or other entertainment venues, which could adversely affect our results of operations.

The impairment or insolvency of other financial institutions could adversely affect us.

We have exposure to different counterparties with regard to our interest rate swap agreements. These transactions expose us to credit risk in the event of a default by one or more of our counterparties to such

Table of Contents

agreements. We also have exposure to financial institutions used as depositories of our corporate cash balances. If our counterparties or financial institutions become impaired or insolvent, this could have an adverse impact on our results of operations or impair our ability to access our cash.

A credit market crisis may adversely affect our ability to raise capital and may materially impact our operations.

Severe dislocations and liquidity disruptions in the credit markets could materially impact our ability to obtain debt financing on reasonable terms or at all. The inability to access debt financing on reasonable terms could materially impact our ability to make acquisitions or significantly expand our business in the future.

We may be subject to liability under environmental laws and regulations.

We own and operate a large number of theatres and other properties within the United States and internationally, which may be subject to various foreign, federal, state and local laws and regulations relating to the protection of the environment or human health. Such environmental laws and regulations include those that impose liability for the investigation and remediation of spills or releases of hazardous materials. We may incur such liability, including for any currently or formerly owned, leased or operated property, or for any site, to which we may have disposed, or arranged for the disposal of, hazardous materials or wastes. Certain of these laws and regulations may impose liability, including on a joint and several liability, which can result in a liable party being obliged to pay for greater than its share, regardless of fault or the legality of the original disposal. Environmental conditions relating to our properties or operations could have an adverse effect on our business and results of operations and cash flows.

Our ability to pay dividends may be limited or otherwise restricted.

Our ability to pay dividends is limited by our status as a holding company and the terms of our senior notes indenture, our senior subordinated notes indenture, and our senior secured credit facility, which restrict our ability to pay dividends and the ability of certain of our subsidiaries to pay dividends, directly or indirectly, to us. Under our debt instruments, we may pay a cash dividend up to a specified amount, provided we have satisfied certain financial covenants in, and are not in default under, our debt instruments. The declaration of future dividends on our common stock, par value \$0.001 per share, or Common Stock, will be at the discretion of our board of directors and will depend upon many factors, including our results of operations, financial condition, earnings, capital requirements, limitations in our debt agreements and legal requirements.

Provisions in our corporate documents and certain agreements, as well as Delaware law, may hinder a change of control.

Provisions in our amended and restated certificate of incorporation and bylaws, as well as provisions of the Delaware General Corporation Law, could discourage unsolicited proposals to acquire us, even though such proposals may be beneficial to you. These provisions include:

authorization of our board of directors to issue shares of preferred stock without stockholder approval;

a board of directors classified into three classes of directors with the directors of each class having staggered, three-year terms;

provisions regulating the ability of our stockholders to nominate directors for election or to bring matters for action at annual meetings of our stockholders; and

provisions of Delaware law that restrict many business combinations and provide that directors serving on classified boards of directors, such as ours, may be removed only for cause.

Certain provisions of our 8.625% senior notes indenture, our 7.375% senior subordinated notes indenture and our senior secured credit facility may have the effect of delaying or preventing future transactions involving

Table of Contents

a change of control. A change of control would require us to make an offer to the holders of our 8.625% senior notes to repurchase all of the outstanding notes at a purchase price equal to 101% of the aggregate principal amount outstanding plus accrued unpaid interest to the date of the purchase. A change of control, as defined in the senior subordinated notes indenture, would require us to make an offer to repurchase the senior subordinated notes at a price equal to 101% of the aggregate principal amount outstanding plus accrued and unpaid interest, if any, through the date of repurchase. A change of control would also be an event of default under our senior secured credit facility.

The market price of our Common Stock may be volatile.

There can be no assurance that an active trading market for our Common Stock will continue. The securities markets have experienced extreme price and volume fluctuations in recent years and the market prices of the securities of companies have been particularly volatile. This market volatility, as well as general economic or political conditions, could reduce the market price of our Common Stock regardless of our operating performance. In addition, our operating results could be below the expectations of investment analysts and investors and, in response, the market price of our Common Stock may decrease significantly and prevent investors from reselling their shares of our Common Stock at or above a market price that is favorable to other stockholders. In the past, companies that have experienced volatility in the market price of their stock have been the subject of securities class action litigation. If we were the subject of securities class action litigation, it could result in substantial costs, liabilities and a diversion of management's attention and resources.

Future sales of our Common Stock may adversely affect the prevailing market price.

If a large number of shares of our Common Stock is sold in the open market, or if there is a perception that such sales will occur, the trading price of our Common Stock could decrease. In addition, the sale of these shares could impair our ability to raise capital through the sale of additional Common Stock. As of December 31, 2011, we had an aggregate of 181,286,739 shares of our Common Stock authorized but unissued and not reserved for specific purposes. In general, we may issue all of these shares without any action or approval by our stockholders. We may issue shares of our Common Stock in connection with acquisitions.

As of December 31, 2011, we had 114,201,737 shares of our Common Stock outstanding. Of these shares, approximately 102,447,116 shares were freely tradable. The remaining shares of our Common Stock were restricted securities as that term is defined in Rule 144 under the Securities Act. Restricted securities may not be resold in a public distribution except in compliance with the registration requirements of the Securities Act or pursuant to an exemption therefrom, including the exemptions provided by Regulation S and Rule 144 promulgated under the Securities Act.

We cannot predict whether substantial amounts of our Common Stock will be sold in the open market in anticipation of, or following, any divestiture by any of our existing stockholders, our directors or executive officers of their shares of Common Stock.

As of December 31, 2011, there were 9,214,191 shares of our Common Stock reserved for issuance under our Amended and Restated 2006 Long Term Incentive Plan, of which 82,166 shares of Common Stock were issuable upon exercise of options outstanding as of December 31, 2011. The sale of shares issued upon the exercise of stock options could further dilute your investment in our Common Stock and adversely affect our stock price.

Legislative or regulatory initiatives related to global warming/climate change concerns may negatively impact our business.

Recently, there has been an increasing focus and continuous debate on global climate change including increased attention from regulatory agencies and legislative bodies. This increased focus may lead to new initiatives directed at regulating an as yet unspecified array of environmental matters. Legislative, regulatory or

Table of Contents

other efforts in the United States to combat climate change could result in future increases in the cost of raw materials, taxes, transportation and utilities for our vendors and for us which would result in higher operating costs for the Company. Also, compliance of our theatres and accompanying real estate with new and revised environmental, zoning, land-use or building codes, laws, rules or regulations, could have a material and adverse effect on our business. However, we are unable to predict at this time, the potential effects, if any, that any future environmental initiatives may have on our business.

Item 2. Properties

United States

As of December 31, 2011, in the U.S., we operated 256 theatres with 3,291 screens pursuant to leases and own the land and building for 41 theatres with 587 screens. Our leases are generally entered into on a long-term basis with terms, including optional renewal periods, generally ranging from 20 to 45 years. As of December 31, 2011, approximately 8% of our theatre leases in the U.S., covering 20 theatres with 142 screens, have remaining terms, including optional renewal periods, of less than six years. Approximately 12% of our theatre leases in the U.S., covering 31 theatres with 260 screens, have remaining terms, including optional renewal periods, of between six and 15 years and approximately 80% of our theatre leases in the U.S., covering 205 theatres with 2,889 screens, have remaining terms, including optional renewal periods, of more than 15 years. The leases generally provide for a fixed monthly minimum rent payment, with certain leases also subject to additional percentage rent if a target annual revenue level is achieved. We lease an office building in Plano, Texas for our corporate headquarters. We also lease office space in Frisco, Texas for our theatre support group.

International

As of December 31, 2011, internationally, we operated 159 theatres with 1,274 screens, all of which are leased. Our international leases are generally entered into on a long term basis with terms, including optional renewal periods, generally ranging from 5 to 40 years. The leases generally provide for contingent rental based upon operating results with an annual minimum. As of December 31, 2011, approximately 4% of our international theatre leases, covering 7 theatres with 59 screens, have remaining terms, including optional renewal periods, of less than six years. Approximately 43% of our international theatre leases, covering 68 theatres and 560 screens, have remaining terms, including optional renewal periods, of between six and 15 years and approximately 53% of our international theatre leases, covering 84 theatres and 655 screens, have remaining terms, including optional renewal periods, of more than 15 years. We also lease office space in eight regions in Latin America for our local management.

See Note 22 to the consolidated financial statements for information regarding our minimum lease commitments. We periodically review the profitability of each of our theatres, particularly those whose lease terms are nearing expiration, to determine whether to continue its operations.

Item 3. Legal Proceedings

From time to time, we are involved in other various legal proceedings arising from the ordinary course of our business operations, such as personal injury claims, employment matters, landlord-tenant disputes, patent claims and contractual disputes, some of which are covered by insurance or by indemnification from vendors. We believe our potential liability, with respect to these types of proceedings currently pending, is not material, individually or in the aggregate, to our financial position, results of operations and cash flows.

- (1) Beginning with the dividend declared on November 2, 2010, our board of directors raised the quarterly dividend to \$0.21 per common share.
- (2) Includes amounts related to restricted stock unit awards that will not be paid until such awards vest.
- We, at the discretion of the board of directors and subject to applicable law, anticipate paying regular quarterly dividends on our common stock. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, loan agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors. See Item 7. *Management's Discussion and Analysis of Financial Condition and Results of Operation* *Liquidity and Capital Resources* *Financing Activities* for a discussion of dividend restrictions under our debt agreements.

- (1) For the purposes of calculating the ratio of earnings to fixed charges, earnings consist of income (loss) from continuing operations before taxes plus fixed charges excluding capitalized interest. Fixed charges consist of interest expense, capitalized interest, amortization of debt issue costs and that portion of rental expense which we believe to be representative of the interest factor. For the year ended December 31, 2008, earnings were insufficient to cover fixed charges by \$27.1 million.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the financial statements and accompanying notes included in this report. This discussion contains forward-looking statements. See Cautionary Statement Regarding Forward-Looking Statements and Risk Factors for a discussion of the uncertainties and risk associated with these statements.

Overview

We are a leader in the motion picture exhibition industry, with theatres in the U.S., Brazil, Mexico, Argentina, Chile, Colombia, Ecuador, Peru, Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala. As of December 31, 2011, we managed our business under two reportable operating segments—U.S. markets and international markets. See Note 23 to the consolidated financial statements.

Revenues and Expenses

We generate revenues primarily from box office receipts and concession sales with additional revenues from screen advertising sales and other revenue streams, such as vendor marketing promotions and electronic video games located in some of our theatres. Our contracts with NCM have assisted us in expanding our offerings to domestic advertisers and broadening ancillary revenue sources such as digital video monitor advertising, third party branding, and the use of our domestic theatres for alternative entertainment, such as live and pre-recorded sports programs, concert events, the opera, special live documentaries and other cultural events. Films leading the box office during the year ended December 31, 2011 included *Rio*, *Fast Five*, *Thor*, *Pirates of the Caribbean: On Stranger Tides*, *The Hangover Part II*, *Kung Fu Panda 2: The Kaboom of Doom*, *Cars 2*, *X Men: First Class*, *Super 8*, *Bridesmaids*, *Transformers: Dark of the Moon*, *Harry Potter and the Deathly Hallows: Part 2*, *Captain America: The First Avenger*, *Twilight: Breaking Dawn Part One*, *Paranormal Activity 3*, *Mission: Impossible—Ghost Protocol*, *Sherlock Holmes: A Game of Shadows*, *The Adventures of Tintin*, *The Girl with the Dragon Tattoo*, *War Horse*, and *Alvin and the Chipmunks: Chipwrecked*, among other films. Our revenues are affected by changes in attendance and concession revenues per patron. Attendance is primarily affected by the quality and quantity of films released by motion picture studios. Films currently scheduled for release in 2012 include sequels such as *Men in Black 3*, *Madagascar 3: Europe's Most Wanted*, *Ice Age: Continental Drift*, *The Dark Knight Rises*, *The Bourne Legacy*, *Wrath of the Titans*, and *The Twilight Saga: Breaking Dawn Part 2* and original titles such as *Dr. Seuss' The Lorax*, *The Hunger Games*, *The Avengers*, *The Hobbit: An Unexpected Journey*, *World War Z*, and *Life of Pi*, among other films.

Film rental costs are variable in nature and fluctuate with our admissions revenues. Film rental costs as a percentage of revenues are generally higher for periods in which more blockbuster films are released. Film rental costs can also vary based on the length of a film's run. Film rental rates are generally negotiated on a film-by-film and theatre-by-theatre basis. Advertising costs, which are expensed as incurred, are primarily fixed at the theatre level as daily movie directories placed in newspapers represent the largest component of advertising costs. The monthly cost of these advertisements is based on, among other things, the size of the directory and the frequency and size of the newspaper's circulation.

Concession supplies expense is variable in nature and fluctuates with our concession revenues. We purchase concession supplies to replace units sold. We negotiate prices for concession supplies directly with concession vendors and manufacturers to obtain volume rates.

Although salaries and wages include a fixed cost component (i.e. the minimum staffing costs to operate a theatre facility during non-peak periods), salaries and wages move in relation to revenues as theatre staffing is adjusted to respond to changes in attendance.

Facility lease expense is primarily a fixed cost at the theatre level as most of our facility leases require a fixed monthly minimum rent payment. Certain of our leases are subject to percentage rent only while others are

Table of Contents

subject to percentage rent in addition to their fixed monthly rent if a target annual revenue level is achieved. Facility lease expense as a percentage of revenues is also affected by the number of theatres under operating leases, the number of theatres under capital leases and the number of fee-owned theatres.

Utilities and other costs include certain costs that have both fixed and variable components such as utilities, property taxes, janitorial costs, repairs and maintenance and security services.

Critical Accounting Policies

We prepare our consolidated financial statements in conformity with U.S. GAAP. As such, we are required to make certain estimates and assumptions that we believe are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. The significant accounting policies, which we believe are the most critical to aid in fully understanding and evaluating our reported consolidated financial results, include the following:

Revenue and Expense Recognition

Revenues are recognized when admissions and concession sales are received at the box office. Other revenues primarily consist of screen advertising. Screen advertising revenues are recognized over the period that the related advertising is delivered on-screen or in-theatre. We record proceeds from the sale of gift cards and other advanced sale-type certificates in current liabilities and recognize admissions or concession revenue when a holder redeems the card or certificate. We recognize unredeemed gift cards and other advanced sale-type certificates as revenue only after such a period of time indicates, based on historical experience, the likelihood of redemption is remote, and based on applicable laws and regulations. In evaluating the likelihood of redemption, we consider the period outstanding, the level and frequency of activity, and the period of inactivity.

Film rental costs are accrued based on the applicable box office receipts and either mutually agreed upon firm terms or a sliding scale formula, which are generally established prior to the opening of the film, or estimates of the final mutually agreed upon settlement, which occurs at the conclusion of the film run, subject to the film licensing arrangement. Under a firm terms formula, we pay the distributor a mutually agreed upon specified percentage of box office receipts, which reflects either a mutually agreed upon aggregate rate for the life of the film or rates that decline over the term of the run. Under a sliding scale formula, we pay a percentage of box office revenues using a pre-determined matrix that is based upon box office performance of the film. The settlement process allows for negotiation of film rental fees upon the conclusion of the film run based upon how the film performs. Estimates are based on the expected success of a film. The success of a film can typically be determined a few weeks after a film is released when initial box office performance of the film is known. Accordingly, final settlements typically approximate estimates since box office receipts are known at the time the estimate is made and the expected success of a film can typically be estimated early in the film's run. If actual settlements are different than those estimates, film rental costs are adjusted at that time. Our advertising costs are expensed as incurred.

Facility lease expense is primarily a fixed cost at the theatre level as most of our facility leases require a fixed monthly minimum rent payment. Certain of our leases are subject to monthly percentage rent only, which is accrued each month based on actual revenues. Certain of our other theatres require payment of percentage rent in addition to fixed monthly rent if an annual target revenue level is achieved. Percentage rent expense is estimated and recorded for these theatres on a monthly basis if the theatre's historical performance or forecasted performance indicates that the annual target revenue level will be reached. Once annual revenues are known, which is generally at the end of the year, the percentage rent expense is adjusted at that time. We record the fixed minimum rent payments on a straight-line basis over the lease term.

Theatre properties and equipment are depreciated using the straight-line method over their estimated useful lives. In estimating the useful lives of our theatre properties and equipment, we have relied upon our experience with such assets and our historical replacement period. We periodically evaluate these estimates and assumptions

Table of Contents

and adjust them as necessary. Adjustments to the expected lives of assets are accounted for on a prospective basis through depreciation expense. Leasehold improvements for which we pay and to which we have title are amortized over the lease term.

Impairment of Long-Lived Assets

We review long-lived assets for impairment indicators on a quarterly basis or whenever events or changes in circumstances indicate the carrying amount of the assets may not be fully recoverable. We assess many factors including the following to determine whether to impair individual theatre assets:

actual theatre level cash flows;

future years budgeted theatre level cash flows;

theatre property and equipment carrying values;

amortizing intangible asset carrying values;

the age of a recently built theatre;

competitive theatres in the marketplace;

the impact of recent ticket price changes;

available lease renewal options; and

other factors considered relevant in our assessment of impairment of individual theatre assets.

Long-lived assets are evaluated for impairment on an individual theatre basis, which we believe is the lowest applicable level for which there are identifiable cash flows. The impairment evaluation is based on the estimated undiscounted cash flows from continuing use through the remainder of the theatre's useful life. The remainder of the theatre's useful life correlates with the available remaining lease period, which includes the probability of renewal periods for leased properties and a period of approximately twenty years for fee owned properties. If the estimated undiscounted cash flows are not sufficient to recover a long-lived asset's carrying value, we then compare the carrying value of the asset group (theatre) with its estimated fair value. When estimated fair value is determined to be lower than the carrying value of the asset group (theatre), the asset group (theatre) is written down to its estimated fair value. Significant judgment is involved in estimating cash flows and fair value. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35, are based on historical and projected operating performance, recent market transactions and current industry trading multiples. Fair value is determined based on a multiple of cash flows, which was six and a half times for the evaluations performed during 2009, 2010 and 2011. The long-lived asset impairment charges related to theatre properties recorded during each of the periods presented are specific to theatres that were directly and individually impacted by increased competition, adverse changes in market demographics, or adverse changes in the development or the conditions of the areas surrounding the theatre.

Impairment of Goodwill and Intangible Assets

Edgar Filing: Cinemark Holdings, Inc. - Form 10-K

We evaluate goodwill for impairment annually during the fourth quarter or whenever events or changes in circumstances indicate the carrying value of the goodwill may not be fully recoverable. We evaluate goodwill for impairment at the reporting unit level and have allocated goodwill to the reporting unit based on an estimate of its relative fair value. Management considers the reporting unit to be each of our sixteen regions in the U.S. and each of our eight international countries (Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala are considered one reporting unit). The evaluation is a two-step approach requiring us to compute the fair value of a reporting unit and compare it with its carrying value. If the carrying value of the reporting unit exceeds its estimated fair value, a second step is performed to measure the potential goodwill impairment. Significant judgment is involved in estimating cash flows and fair value. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35, are based on historical and

Table of Contents

projected operating performance, recent market transactions and current industry trading multiples. Fair value is determined based on a multiple of cash flows, which was six and a half times for the evaluations performed during 2009 and 2010 and seven and a half times for the evaluation performed during 2011. As of December 31, 2011, the fair value of goodwill for all of our reporting units exceeded their carrying value by at least 10%.

Tradenam e intangible assets are tested for impairment at least annually during the fourth quarter or whenever events or changes in circumstances indicate the carrying value may not be fully recoverable. We estimate the fair value of our tradenam es by applying an estimated market royalty rate that could be charged for the use of our tradenam e to forecasted future revenues, with an adjustment for the present value of such royalties. If the estimated fair value is less than the carrying value, the tradenam e intangible asset is written down to its estimated fair value. Significant judgment is involved in estimating market royalty rates and long-term revenue forecasts. Management 's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35, are based on historical and projected revenue performance and industry trends. As of December 31, 2011, the fair value of our tradenam e intangible assets exceeded their carrying values by at least 10%.

Income Taxes

We use an asset and liability approach to financial accounting and reporting for income taxes. Deferred income taxes are provided when tax laws and financial accounting standards differ with respect to the amount of income for a year and the basis of assets and liabilities. A valuation allowance is recorded to reduce the carrying amount of deferred tax assets unless it is more likely than not that such assets will be realized. Income taxes are provided on unremitted earnings from foreign subsidiaries unless such earnings are expected to be indefinitely reinvested. Income taxes have also been provided for potential tax assessments. The evaluation of an uncertain tax position is a two-step process. The first step is recognition: We determine whether it is more likely than not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. In evaluating whether a tax position has met the more-likely-than-not recognition threshold, we presume that the position would be examined by the appropriate taxing authority that would have full knowledge of all relevant information. The second step is measurement: A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Differences between tax positions taken in a tax return and amounts recognized in the financial statements result in (1) a change in a liability for income taxes payable or (2) a change in an income tax refund receivable, a deferred tax asset or a deferred tax liability or both (1) and (2). We accrue interest and penalties on uncertain tax positions.

Accounting for Investment in National CineMedia, LLC and Related Agreements

We have an investment in National CineMedia, LLC (NCM). NCM operates a digital in-theatre network in the U.S. for providing cinema advertising and non-film events. Upon joining NCM, the Company and NCM entered into an Exhibitor Services Agreement, pursuant to which NCM provides advertising, promotion and event services to the Company 's theatres. On February 13, 2007, National CineMedia, Inc., or NCM Inc. , a newly formed entity that serves as a member and the sole manager of NCM, completed an initial public offering of its common stock. In connection with the NCM Inc. initial public offering, the Company amended its operating agreement and the Exhibitor Services Agreement (ESA) with NCM and received proceeds related to the modification of the ESA and the Company 's sale of certain of its shares in NCM. The ESA modification reflected a shift from circuit share expense under the prior Exhibitor Services Agreement, which obligated NCM to pay the Company a percentage of revenue, to a monthly theatre access fee, which significantly reduced the contractual amounts paid to the Company by NCM. The Company recorded the proceeds related to the ESA modification as deferred revenue, which is being amortized into other revenues over the life of the agreement using the units of revenue method. As a result of the proceeds received as part of the NCM, Inc. initial public offering, the Company had a negative basis in its original membership units in NCM (referred to herein as its

Table of Contents

Tranche 1 Investment). The Company does not recognize undistributed equity in the earnings on its Tranche 1 Investment until NCM's future net earnings, less distributions received, surpass the amount of the excess distribution. The Company recognizes equity in earnings on its Tranche 1 Investment only to the extent it receives cash distributions from NCM. The Company believes that the accounting model provided by ASC 323-10-35-22 for recognition of equity investee losses in excess of an investor's basis is analogous to the accounting for equity income subsequent to recognizing an excess distribution.

Pursuant to a Common Unit Adjustment Agreement dated as of February 13, 2007 between NCM, Inc. and Cinemark, AMC and Regal, collectively referred to as its Founding Members, annual adjustments to the common membership units are made primarily based on increases or decreases in the number of theatre screens operated and theatre attendance generated by each Founding Member. To account for the receipt of additional common units under the Common Unit Adjustment Agreement, the Company follows the guidance in ASC 323-10-35-29 (formerly EITF 02-18, *Accounting for Subsequent Investments in an Investee after Suspension of Equity Loss Recognition*) by analogy, which also refers to AICPA Technical Practice Aid 2220.14, which indicates that if a subsequent investment is made in an equity method investee that has experienced significant losses, the investor must determine if the subsequent investment constitutes funding of prior losses. The Company concluded that the construction or acquisition of new theatres that has led to the common unit adjustments equates to making additional investments in National CineMedia. The Company evaluated the receipt of the additional common units in National CineMedia and the assets exchanged for these additional units and has determined that the right to use its incremental new screens would not be considered funding of prior losses. The Company accounts for these additional common units (referred to herein as its Tranche 2 Investment) as a separate investment than its Tranche 1 Investment. The common units received are recorded at fair value as an increase in the Company's investment in NCM with an offset to deferred revenue. The deferred revenue is amortized over the remaining term of the ESA. The Tranche 2 Investment is accounted for following the equity method, with undistributed equity earnings related to its Tranche 2 Investment included as a component of equity in income (loss) of affiliates and distributions received related to its Tranche 2 Investment are recorded as a reduction of its investment basis.

Recent Developments

Dividend Declaration

On February 3, 2012 our board of directors declared a cash dividend for the fourth quarter of 2011 of \$0.21 per common share payable to stockholders of record on March 2, 2012. The dividend will be paid on March 16, 2012.

Table of Contents**Results of Operations**

The following table sets forth, for the periods indicated, the percentage of revenues represented by certain items reflected in our consolidated statements of income. On August 25, 2011, we purchased ten theatres with 95 screens in Argentina. The results of operations for these theatres are included in our results beginning on the date of acquisition.

⁽²⁾ U.S. operating segment revenues include eliminations of intercompany transactions with the international operating segment. See Note 23 of our consolidated financial statements.

Consolidated. The increase in admissions revenues of \$66.2 million was primarily attributable to a 2.6% increase in attendance and a 2.1% increase in average ticket price from \$5.83 for 2010 to \$5.95 for 2011. The increase in concession revenues of \$54.5 million was primarily attributable to the 2.6% increase in attendance and a 6.0% increase in concession revenues per patron from \$2.66 for 2010 to \$2.82 for 2011. The increase in average ticket price was primarily due to incremental 3-D and premium pricing and other price increases and the favorable impact of exchange rates in certain countries in which we operate. The increase in concession revenues per patron was primarily due to price increases and the favorable impact of exchange rates in certain countries in which we operate. The 19.1% increase in other revenues was primarily due to increases in international ancillary revenue.

U.S. The decrease in admissions revenues of \$11.1 million was primarily attributable to a 1.7% decrease in attendance for 2011, partially offset by a 0.6% increase in average ticket price from \$6.48 for 2010 to \$6.52 for 2011. The increase in concession revenues of \$15.5 million was primarily attributable to a 5.0% increase in concession revenues per patron from \$3.03 for 2010 to \$3.18 for 2011, partially offset by the 1.7% decrease in attendance for 2011. The increase in average ticket price was primarily due to incremental 3-D and premium pricing and other price increases, and the increase in concession revenues per patron was primarily due to incremental sales and price increases.

International. The increase in admissions revenues of \$77.3 million was primarily attributable to an 11.1% increase in attendance and a 9.3% increase in average ticket price from \$4.51 for 2010 to \$4.93 for 2011. The increase in concession revenues of \$39.0 million was primarily attributable to the 11.1% increase in attendance and a 13.0% increase in concession revenues per patron from \$1.93 for 2010 to \$2.18 for 2011. The increase in average ticket price was primarily due to incremental 3-D and premium pricing and other price increases and the favorable impact of exchange rates in certain countries in which we operate. The increase in concession revenues per patron was primarily due to price increases and the favorable impact of exchange rates in certain countries in which we operate. The 31.8% increase in other revenues was primarily due to increases in ancillary revenue.

Utilities and other	174.5	161.5	85.2	78.0	259.7	239.5

Consolidated. Film rentals and advertising costs were \$798.6 million, or 54.3% of admissions revenues, for 2011 compared to \$769.7 million, or 54.8% of admissions revenues, for 2010. The increase in film rentals and advertising costs of \$28.9 million was primarily due to the \$66.2 million increase in admissions revenues, partially offset by the decrease in our film rentals and advertising rate. The decrease in the film rentals and advertising rate was primarily due to lower film rental rates in the U.S. segment. Concession supplies expense was \$112.1 million, or 16.1% of concession revenues, for 2011 compared to \$97.5 million, or 15.2% of concession revenues, for 2010. The increase in the concession supplies rate was primarily due to increases in inventory procurement costs and the increased weighting of our international segment, which generally has higher procurement costs.

Salaries and wages increased to \$226.5 million for 2011 from \$221.2 million for 2010 primarily due to increases in our international segment. Facility lease expense increased to \$276.3 million for 2011 from \$255.7 million for 2010 primarily due to new theatres, increased percentage rent related to the 6.5% increase in revenues and the impact of exchange rates in certain countries in which we operate. Utilities and other costs increased to \$259.7 million for 2011 from \$239.5 million for 2010 primarily due to new theatres, increased expenses related to digital and 3-D equipment, increased utility expenses and the impact of exchange rates in certain countries in which we operate.

U.S. Film rentals and advertising costs were \$574.2 million, or 55.6% of admissions revenues, for 2011 compared to \$586.6 million, or 56.2% of admissions revenues, for 2010. The decrease in film rentals and advertising costs of \$12.4 million was primarily due to the \$11.1 million decrease in admissions revenues and a decrease in the film rentals and advertising rate primarily due to fewer blockbuster films released in 2011. Concession supplies expense was \$64.0 million, or 12.7% of concession revenues, for 2011, compared to \$59.1 million, or 12.1% of concession revenues, for 2010. The increase in the concession supplies rate was primarily due to increases in inventory procurement costs.

Salaries and wages decreased to \$167.5 million for 2011 from \$174.1 million for 2010 primarily due to the 1.7% decline in attendance and operating efficiencies achieved with reduced staffing levels. Facility lease expense increased to \$185.8 million for 2011 from \$181.9 million for 2010 primarily due to new theatres. Utilities and other costs increased to \$174.5 million for 2011 from \$161.5 million for 2010 primarily due to new theatres and increased expenses related to digital and 3-D equipment.

International. Film rentals and advertising costs were \$224.4 million, or 51.2% of admissions revenues, for 2011 compared to \$183.1 million, or 50.8% of admissions revenues, for 2010. The increase in film rentals and advertising costs of \$41.3 million was primarily due to the \$77.3 million increase in admissions revenues and an increase in our film rentals and advertising rate. Concession supplies expense was \$48.1 million for 2011 compared to \$38.4 million for 2010, both of which represented 24.9% of concession revenues.

Salaries and wages increased to \$59.0 million for 2011 from \$47.1 million for 2010 primarily due to new theatres, increased wage rates, increased staffing levels to support the 11.1% increase in attendance and the impact of exchange rates in certain countries in which we operate. Facility lease expense increased to \$90.5

Table of Contents

million for 2011 from \$73.8 million for 2010 primarily due to new theatres, increased percentage rent due to the 23.4% increase in revenues and the impact of exchange rates in certain countries in which we operate. Utilities and other costs increased to \$85.2 million for 2011 from \$78.0 million for 2010 primarily due to new theatres, increased expenses related to 3-D equipment and the impact of exchange rates in certain countries in which we operate.

General and Administrative Expenses. General and administrative expenses increased to \$127.6 million for 2011 from \$109.1 million for 2010. The increase was primarily due to increased salaries and incentive compensation expense of \$5.0 million, increased share based awards compensation expense of \$1.3 million, increased professional fees of \$2.1 million, increased service charges of \$1.0 million related to increased credit card activity and the impact of exchange rates in certain countries in which we operate.

Depreciation and Amortization. Depreciation and amortization expense, including amortization of favorable/ unfavorable leases, was \$154.4 million for 2011 compared to \$143.5 million for 2010. The increase was primarily due to new theatres, the impact of accelerated depreciation taken on our domestic 35 millimeter projection systems that were replaced with digital projection systems and the impact of exchange rates in certain countries in which we operate. We recorded approximately \$10.6 million of depreciation expense related to our domestic 35 millimeter projection systems during 2011. Our domestic 35 millimeter projection systems have been fully depreciated as of December 31, 2011.

Impairment of Long-Lived Assets. We recorded asset impairment charges on assets held and used of \$7.0 million for 2011 compared to \$12.5 million for 2010. Impairment charges for 2011 were related to theatre properties, impacting fourteen of our twenty-four reporting units. Impairment charges for 2010 consisted of \$10.8 million of theatre properties and \$1.5 million of intangible assets, impacting eighteen of our twenty-four reporting units, and \$0.2 million related to an equity investment that was written down to its estimated fair value. The long-lived asset impairment charges recorded during each of the periods presented were specific to theatres that were directly and individually impacted by increased competition, adverse changes in market demographics, or adverse changes in the development or the conditions of the areas surrounding the theatre. See Notes 10 and 11 to our consolidated financial statements.

(Gain) Loss on Sale of Assets and Other. We recorded a loss on sale of assets and other of \$8.8 million during 2011 compared to a gain on sale of assets and other of \$0.4 million during 2010. The loss recorded during 2011 included a loss of \$2.3 million related to a settlement for a previously terminated interest rate swap agreement, a loss of \$1.0 million related to the sale of digital projection systems to DCIP and the write-off of theatre properties and equipment primarily as a result of theatre remodels. The gain recorded during 2010 included a gain of \$7.0 million related to the sale of a theatre in Canada and a gain of \$8.5 million related to the sale of our interest in a profit sharing agreement related to another previously sold property in Canada, which were partially offset by a loss of \$5.8 million for the write-off of an intangible asset associated with a vendor contract in Mexico that was terminated, a loss of \$2.3 million for the write-off of intangible assets associated with our original IMAX license agreement that was terminated, a loss of \$2.0 million that was recorded upon the contribution and sale of digital projection systems to DCIP and a loss of \$0.9 million related to storm damage to a U.S. theatre. See Note 7 to our consolidated financial statements for discussion of DCIP.

Interest Expense. Interest costs incurred, including amortization of debt issue costs, were \$123.1 million for 2011 compared to \$112.4 million for 2010. The increase was primarily due to increases in interest rates on our variable rate debt related to the amendment and extension of our senior secured credit facility in March 2010 and the refinancing in June 2011 of the unextended portion of our term loan debt outstanding with 7.375% senior subordinated notes due 2021. See Note 13 to our consolidated financial statements for further discussion of our long-term debt.

Loss on Early Retirement of Debt. We recorded a loss on early retirement of debt of \$4.9 million during 2011 related to the prepayment of approximately \$157.2 million of the unextended portion of our term loan debt. The loss included the write-off of \$2.2 million of unamortized debt issue costs related to the portion of the term

Table of Contents

loan debt that was prepaid and the reclassification of \$2.7 million from accumulated other comprehensive loss to earnings as a result of our determination that quarterly interest payments hedged by certain of our interest rate swap agreements are no longer probable to occur. See Note 13 to our consolidated financial statements.

Distributions from NCM. We recorded distributions received from NCM of \$24.2 million during 2011 and \$23.4 million during 2010, which were in excess of the carrying value of our Tranche 1 Investment. See Note 6 to our consolidated financial statements.

Loss on Marketable Securities - RealD. We recorded a loss on our investment in RealD of \$12.6 million due to an other-than-temporary impairment of our investment. The loss recorded represented the cumulative net unrealized holding losses we had previously recorded in accumulated other comprehensive income (loss). These cumulative net unrealized holding losses were recognized as a loss during 2011 due to the length of time and extent to which RealD's stock price had been below our basis in the stock. See Note 8 to our consolidated financial statements.

Equity in Income (Loss) of Affiliates. We recorded equity in income of affiliates of \$5.7 million during 2011 compared to a loss of \$3.4 million during 2010. The equity in income of affiliates recorded during 2011 primarily included approximately \$5.4 million of income related to our equity investment in NCM (see Note 6 to our consolidated financial statements) and approximately \$0.5 million of income related to our equity investment in DCIP (see Note 7 to our consolidated financial statements). The equity in loss of affiliates recorded during 2010 primarily included a loss of approximately \$7.9 million related to our equity investment in DCIP (see Note 7 to our consolidated financial statements), offset by income of approximately \$4.5 million related to our equity investment in NCM (see Note 6 to our consolidated financial statements).

Income Taxes. Income tax expense of \$73.1 million was recorded for 2011 compared to \$57.8 million recorded for 2010. The effective tax rate for 2011 was 35.5%. The effective tax rate for 2010 was 27.9%. See Note 21 to our consolidated financial statements.

Comparison of Years Ended December 31, 2010 and December 31, 2009

Revenues. Total revenues increased \$164.6 million to \$2,141.1 million for 2010 from \$1,976.5 million for 2009, representing an 8.3% increase. The table below, presented by reportable operating segment, summarizes our year-over-year revenue performance and certain key performance indicators that impact our revenues.

⁽⁴⁾ U.S. operating segment revenues include eliminations of intercompany transactions with the international operating segment. See Note 23 of our consolidated financial statements.

Consolidated. The increase in admissions revenues of \$112.0 million was primarily attributable to a 1.9% increase in attendance and a 6.8% increase in average ticket price from \$5.46 for 2009 to \$5.83 for 2010. The increase in concession revenues of \$39.4 million was primarily attributable to the 1.9% increase in

attendance and a 4.3% increase in concession revenues per patron from \$2.55 for 2009 to \$2.66 for 2010. The increase in average ticket price was primarily due to incremental 3-D and premium pricing and other price increases and the favorable impact of exchange rates in certain countries in which we operate. The increase in concession revenues per patron was primarily due to price increases and the favorable impact of exchange rates in certain countries in which we operate. The 16.5% increase in other revenues was primarily due to increases in international ancillary revenue.

U.S. The increase in admissions revenues of \$18.8 million was primarily attributable to a 4.3% increase in average ticket price from \$6.21 for 2009 to \$6.48 for 2010, partially offset by a 2.4% decrease in attendance for 2010. The increase in concession revenues of \$2.7 million was primarily attributable to a 3.1% increase in concession revenues per patron from \$2.94 for 2009 to \$3.03 for 2010, partially offset by the 2.4% decrease in attendance for 2010. The increase in average ticket price was primarily due to incremental 3-D and premium pricing and other price increases, and the increase in concession revenues per patron was primarily due to price increases.

International. The increase in admissions revenues of \$93.2 million was primarily attributable to an 11.7% increase in attendance and a 20.6% increase in average ticket price from \$3.74 for 2009 to \$4.51 for 2010. The increase in concession revenues of \$36.7 million was primarily attributable to the 11.7% increase in attendance and a 17.7% increase in concession revenues per patron from \$1.64 for 2009 to \$1.93 for 2010. The increase in average ticket price was primarily due to incremental 3-D and premium pricing and other price increases and the favorable impact of exchange rates in certain countries in which we operate. The increase in concession revenues per patron was primarily due to price increases and the favorable impact of exchange rates in certain countries in which we operate. The 34.2% increase in other revenues was primarily due to increases in ancillary revenue.

Cost of Operations. The table below summarizes certain of our theatre operating costs by reportable operating segment (in millions).

	U.S. Operating Segment		International Operating Segment		Consolidated	
	Year Ended December 31,		Year Ended December 31,		Year Ended December 31,	
	2010	2009	2010	2009	2010	2009
Film rentals and advertising	\$ 586.6	\$ 572.3	\$ 183.1	\$ 135.9	\$ 769.7	\$ 708.2

Utilities and other	161.5	163.5	78.0	59.2	239.5	222.7

Consolidated. Film rentals and advertising costs were \$769.7 million for 2010 compared to \$708.2 million for 2009, both of which represented 54.8% of admissions revenues. The increase in film rentals and advertising costs of \$61.5 million was primarily due to the \$112.0 million increase in admissions revenues. Concession supplies expense was \$97.5 million for 2010 compared to \$91.9 million for 2009, both of which represented 15.2% of concession revenues. The increase in concession supplies expense of \$5.6 million was primarily due to the \$39.4 million increase in concession revenues.

Salaries and wages increased to \$221.2 million for 2010 from \$203.4 million for 2009 primarily due to increased minimum wages in both our U.S. and international segments, increased staffing levels to support the 1.9% increase in attendance, new theatre openings and the impact of exchange rates in certain countries in which we operate. Facility lease expense increased to \$255.7 million for 2010 from \$238.8 million for 2009 primarily due to new theatres, increased percentage rent related to the 8.3% increase in revenues and the impact of exchange rates in certain countries in which we operate. Utilities and other costs increased to \$239.5 million for 2010 from \$222.7 million for 2009 primarily due to increased variable costs related to the 1.9% increase in attendance, increased costs related to new theatres, increased 3-D equipment rental fees and the impact of exchange rates in certain countries in which we operate.

Table of Contents

U.S. Film rentals and advertising costs were \$586.6 million, or 56.2% of admissions revenues, for 2010 compared to \$572.3 million, or 55.8% of admissions revenues, for 2009. The increase in film rentals and advertising costs of \$14.3 million was primarily due to the \$18.8 million increase in admissions revenues and an increase in our film rentals and advertising rate. The increase in the film rentals and advertising rate was primarily due to higher film rental rates associated with certain blockbuster films released in 2010, including the carryover of *Avatar*. Concession supplies expense was \$59.1 million, or 12.1% of concession revenues, for 2010, compared to \$61.9 million, or 12.8% of concession revenues, for 2009. The decrease in concession supplies expense was primarily due to a decrease in the concession supplies rate due to favorable inventory procurement costs along with the successful implementation of sales price increases. Salaries and wages increased to \$174.1 million for 2010 from \$168.8 million for 2009 primarily due to increased minimum wage rates and new theatre openings. Facility lease expense increased to \$181.9 million for 2010 from \$178.8 million for 2009 primarily due to new theatres. Utilities and other costs decreased to \$161.5 million for 2010 from \$163.5 million for 2009 primarily due to lower utility costs and property taxes, offset by increased 3-D equipment rental fees.

International. Film rentals and advertising costs were \$183.1 million for 2010 compared to \$135.9 million for 2009, both of which represented 50.8% of admissions revenues. The increase in film rentals and advertising costs of \$47.2 million was primarily due to the \$93.2 million increase in admissions revenues. Concession supplies expense was \$38.4 million, or 24.9% of concession revenues, for 2010 compared to \$30.0 million, or 25.5% of concession revenues, for 2009. The increase in concession supplies expense of \$8.4 million was primarily due to the \$36.7 million increase in concession revenues, partially offset by a lower concession supplies rate. Salaries and wages increased to \$47.1 million for 2010 from \$34.6 million for 2009 primarily due to increased staffing levels to support the 11.7% increase in attendance, increased minimum wage rates, new theatre openings and the impact of exchange rates in certain countries in which we operate. Facility lease expense increased to \$73.8 million for 2010 from \$60.0 million for 2009 primarily due to new theatres, increased percentage rent related to the 33.8% increase in revenues and the impact of exchange rates in certain countries in which we operate. Utilities and other costs increased to \$78.0 million for 2010 from \$59.2 million for 2009 primarily due to increased variable costs related to the 11.7% increase in attendance, increased costs related to new theatres, increased 3-D equipment rental fees and the impact of exchange rates in certain countries in which we operate.

General and Administrative Expenses. General and administrative expenses increased to \$109.1 million for 2010 from \$96.5 million for 2009. The increase was primarily due to increased service charges of \$4.1 million related to increased credit card activity, increased share based awards compensation expense of \$4.1 million, increased professional fees of \$2.2 million and the impact of exchange rates in certain countries in which we operate.

Depreciation and Amortization. Depreciation and amortization expense, including amortization of favorable/ unfavorable leases, was \$143.5 million for 2010 compared to \$149.5 million for 2009. The decrease was primarily due to a significant amount of the equipment acquired in the Century Acquisition becoming fully depreciated during the fourth quarter of 2009, partially offset by the impact of accelerated depreciation taken on our domestic 35 millimeter projection systems that will be replaced with digital projection systems. We recorded approximately \$9.4 million of depreciation expense related to these 35 millimeter projection systems during 2010.

Impairment of Long-Lived Assets. We recorded asset impairment charges on assets held and used of \$12.5 million for 2010 compared to \$11.8 million for 2009. Impairment charges for 2010 consisted of \$10.8 million of theatre properties and \$1.5 million of intangible assets, impacting eighteen of our twenty-four reporting units, and \$0.2 million related to an equity investment that was written down to its estimated fair value. Impairment charges for 2009 consisted of \$11.4 million of theatre properties and \$0.3 million of intangible assets associated

Table of Contents

with theatre properties, impacting nineteen of our twenty-four reporting units, and \$0.1 million related to an equity investment that was written down to its estimated fair value. The long-lived asset impairment charges recorded during each of the periods presented were specific to theatres that were directly and individually impacted by increased competition, adverse changes in market demographics, or adverse changes in the development or the conditions of the areas surrounding the theatre. See Notes 10 and 11 to our consolidated financial statements.

(Gain) Loss on Sale of Assets and Other. We recorded a gain on sale of assets and other of \$0.4 million during 2010 compared to a loss on sale of assets and other of \$3.2 million during 2009. The gain recorded during 2010 included a gain of \$7.0 million related to the sale of a theatre in Canada and a gain of \$8.5 million related to the sale of our interest in a profit sharing agreement related to another previously sold property in Canada, which were partially offset by a loss of \$5.8 million for the write-off of an intangible asset associated with a vendor contract in Mexico that was terminated, a loss of \$2.3 million for the write-off of intangible assets associated with our original IMAX license agreement that was terminated, a loss of \$2.0 million that was recorded upon the contribution and sale of digital projection systems to DCIP and a loss of \$0.9 million related to storm damage to a U.S. theatre. See Note 7 to our consolidated financial statements for discussion of DCIP. The loss recorded during 2009 was primarily related to the write-off of theatre equipment that was replaced.

Interest Expense. Interest costs incurred, including amortization of debt issue costs, were \$112.4 million for 2010 compared to \$102.5 million for 2009. The increase was primarily due to increases in interest rates on our variable rate debt related to the amendment and extension of our senior secured credit facility. See Note 13 to our consolidated financial statements for further discussion of our long-term debt.

Interest Income. We recorded interest income of \$6.1 million during 2010 compared to interest income of \$4.9 million during 2009. The increase in interest income was primarily due to higher interest rates earned on our cash investments.

Loss on Early Retirement of Debt. During 2009, we recorded a loss on early retirement of debt of \$27.9 million as a result of the tender and call premiums paid and other fees related to the repurchase of approximately \$419.4 million aggregate principal amount at maturity of Cinemark, Inc.'s 9.75% senior discount notes and the write-off of unamortized debt issue costs associated with these notes. See Note 13 to our consolidated financial statements.

Distributions from NCM. We recorded distributions received from NCM of \$23.4 million during 2010 and \$20.8 million during 2009, which were in excess of the carrying value of our Tranche 1 Investment. See Note 6 to our consolidated financial statements.

Equity in Loss of Affiliates. We recorded equity in loss of affiliates of \$3.4 million during 2010 compared to \$0.9 million during 2009. The equity in loss of affiliates recorded during 2010 included a loss of approximately \$7.9 million related to our equity investment in DCIP (see Note 7 to our consolidated financial statements) offset by income of approximately \$4.5 million related to our equity investment in NCM (see Note 6 to our consolidated financial statements). The equity in loss of affiliates recorded during 2009 included a loss of approximately \$2.8 million related to our equity investment in DCIP offset by income of approximately \$1.9 million related to our equity investment in NCM.

Income Taxes. Income tax expense of \$57.8 million was recorded for 2010 compared to \$44.8 million recorded for 2009. The effective tax rate for 2010 was 27.9%. The effective tax rate for 2009 was 30.8%. See Note 21 to our consolidated financial statements.

Liquidity and Capital Resources

Operating Activities

We primarily collect our revenues in cash, mainly through box office receipts and the sale of concessions. In addition, a majority of our theatres provide the patron a choice of using a credit card or debit card in place of cash. Because our revenues are received in cash prior to the payment of related expenses, we have an operating float and historically have not required traditional working capital financing. Cash provided by operating activities amounted to \$176.8 million, \$264.8 million and \$391.2 million for the years ended December 31, 2009, 2010 and 2011, respectively. Cash provided by operating activities for the year ended December 31, 2009 was lower due to the repurchase of approximately \$419.4 million of our 9³/₄% senior discount notes, which included payment of \$158.3 million of interest that had accreted on the senior discount notes since issuance during 2004. The principal portion of the repurchase is reflected as a financing activity. Cash provided by operating activities for the year ended December 31, 2010 is also lower due to a higher film rental liability at December 31, 2009 attributable to the record-breaking domestic box office performance during the latter part of December 2009 when *Avatar* was released.

Investing Activities

Our investing activities have been principally related to the development and acquisition of theatres. New theatre openings and acquisitions historically have been financed with internally generated cash and by debt financing, including borrowings under our senior secured credit facility. Cash used for investing activities amounted to \$183.1 million, \$136.1 million and \$247.1 million for the years ended December 31, 2009, 2010 and 2011, respectively. Cash used for investing activities for the year ended December 31, 2009 included the acquisition of four theatres in the U.S. for approximately \$49.0 million (see Note 5 to the consolidated financial statements) and the acquisition of one theatre in Brazil for approximately \$9.1 million. Cash used for investing activities for the year ended December 31, 2011 included the acquisition of ten theatres in Argentina for approximately \$67.0 million (see Note 5 to the consolidated financial statements) and a higher level of capital expenditures.

Capital expenditures for the years ended December 31, 2009, 2010 and 2011 were as follows (in millions):

Period	New Theatres	Existing Theatres	Total
Year Ended December 31, 2009	\$ 36.5	\$ 88.3	\$ 124.8
Year Ended December 31, 2010	\$ 54.5	\$ 101.6	\$ 156.1
Year Ended December 31, 2011	\$ 73.5	\$ 111.3	\$ 184.8

We continue to invest in our U.S. theatre circuit. We built five new theatres and 63 screens, acquired two theatres with 13 screens and closed three theatres with 30 screens during the year ended December 31, 2011, bringing our total domestic screen count to 3,878. At December 31, 2011, we had signed commitments to open five new theatres and 74 screens in domestic markets during 2012 and open eight new theatres with 107 screens subsequent to 2012. We estimate the remaining capital expenditures for the development of these 181 domestic screens will be approximately \$110 million. Actual expenditures for continued theatre development and acquisitions are subject to change based upon the availability of attractive opportunities.

We also continue to invest in our international theatre circuit. We built 12 new theatres and 72 screens, acquired eleven theatres with 101 screens and closed one theatre and 12 screens during the year ended December 31, 2011, bringing our total international screen count to 1,274. At December 31, 2011, we had signed commitments to open six new theatres with 43 screens in international markets during 2012 and open three new theatres with 22 screens subsequent to 2012. We estimate the remaining capital expenditures for the development of these 65 international screens will be approximately \$72 million. Actual expenditures for continued theatre development and acquisitions are subject to change based upon the availability of attractive opportunities.

Table of Contents

We plan to fund capital expenditures for our continued development with cash flow from operations, borrowings under our senior secured credit facility, and proceeds from debt issuances, sale leaseback transactions and/or sales of excess real estate.

Financing Activities

Cash provided by (used for) financing activities was \$78.3 million, \$(106.7) million and \$(78.4) million during the years ended December 31, 2009, 2010 and 2011, respectively. Cash provided by financing activities for the year ended December 31, 2009 includes the net proceeds of \$458.5 million from the issuance of our \$470 million 8.625% senior notes, partially offset by \$261.1 million used for the repurchase of the principal portion of our \$419.4 million 9.75% senior discount notes. The accreted interest portion of the repurchase of \$158.3 million is reflected as an operating activity.

The contractual obligations table excludes the long-term portion of our liability for uncertain tax positions of \$22.4 million because we cannot make a reliable estimate of the timing of the related cash payments.

Table of Contents*Cinemark USA, Inc. Senior Secured Credit Facility*

On October 5, 2006, in connection with the Century Acquisition, Cinemark USA, Inc. entered into a senior secured credit facility that provided for a \$1.12 billion term loan and a \$150 million revolving credit line. On March 2, 2010, Cinemark USA, Inc. completed an amendment and extension to the senior secured credit facility to primarily extend the maturities of the facility and make certain other modifications. Approximately \$924.4 million of Cinemark USA, Inc.'s then remaining outstanding \$1,083.6 million term loan debt was extended from an original maturity date of October 2013 to a maturity date of April 2016. The then remaining term loan debt of \$159.2 million that was not extended continued to have a maturity date of October 2013. On June 3, 2011, Cinemark USA, Inc. prepaid the remaining \$157.2 million of its unextended term loan debt utilizing a portion of the proceeds from the issuance of the Cinemark USA, Inc. 7.375% senior subordinated notes discussed below. There were no prepayment penalties incurred upon the prepayment of the term loan debt. Subsequent to the prepayment, the quarterly payments due on the term loan are approximately \$2.3 million per quarter through March 2016 with the remaining principal amount of approximately \$866.6 million due April 30, 2016. The prepayment did not impact the interest rate applicable to the remaining portion of the term loan debt, which accrues interest at Cinemark USA, Inc.'s option at: (A) the base rate equal to the higher of (1) the prime lending rate as set forth on the British Banking Association Telerate page 5, or (2) the federal funds effective rate from time to time plus 0.50%, plus a 2.25% margin per annum, or (B) a eurodollar rate plus a 3.25% margin per annum.

The prepayment did not impact the interest rates applicable to or the maturity of Cinemark USA, Inc.'s revolving credit line. The maturity date of \$73.5 million of Cinemark USA, Inc.'s \$150.0 million revolving credit line was extended from October 2012 to March 2015. The maturity date of the remaining \$76.5 million of Cinemark USA, Inc.'s revolving credit line did not change and remains October 2012. The interest rate on the original revolving credit line accrues interest, at Cinemark USA, Inc.'s option, at: (A) a base rate equal to the higher of (1) the prime lending rate as set forth on the British Banking Association Telerate page 5 and (2) the federal funds effective rate from time to time plus 0.50%, plus a margin that ranges from 0.50% to 1.00% per annum, or (B) a eurodollar rate plus a margin that ranges from 1.50% to 2.00% per annum. The interest rate on the extended revolving credit line accrues interest, at Cinemark USA, Inc.'s option at: (A) the base rate equal to the higher of (1) the prime lending rate as set forth on the British Banking Association Telerate page 5, or (2) the federal funds effective rate from time to time plus 0.50%, plus a margin that ranges from 1.75% to 2.0% per annum, or (B) a eurodollar rate plus a margin that ranges from 2.75% to 3.0% per annum. The margin of the revolving credit line is determined by the consolidated net senior secured leverage ratio as defined in the credit agreement.

At December 31, 2011, there was \$905.9 million outstanding under the term loan and no borrowings outstanding under the revolving credit line. Cinemark USA, Inc. had \$150.0 million in available borrowing capacity on the revolving credit line. The average interest rate on outstanding term loan borrowings under the senior secured credit facility at December 31, 2011 was approximately 5.0% per annum.

Cinemark USA, Inc.'s obligations under the senior secured credit facility are guaranteed by Cinemark Holdings, Inc., and certain of Cinemark USA, Inc.'s domestic subsidiaries and are secured by mortgages on certain fee and leasehold properties and security interests in substantially all of Cinemark USA, Inc.'s and the guarantors' personal property, including, without limitation, pledges of all of Cinemark USA, Inc.'s capital stock, all of the capital stock of certain of Cinemark USA, Inc.'s domestic subsidiaries and 65% of the voting stock of certain of its foreign subsidiaries.

The senior secured credit facility contains usual and customary negative covenants for agreements of this type, including, but not limited to, restrictions on Cinemark USA, Inc.'s ability, and in certain instances, its subsidiaries' and Cinemark Holdings, Inc.'s ability, to consolidate or merge or liquidate, wind up or dissolve; substantially change the nature of its business; sell, transfer or dispose of assets; create or incur indebtedness; create liens; pay dividends and repurchase stock; and make capital expenditures and investments. If Cinemark

USA, Inc. has borrowings outstanding on the revolving credit line, it is required to satisfy a consolidated net senior secured leverage ratio covenant as determined in accordance with the senior secured credit facility.

The dividend restriction contained in the senior secured credit facility prevents us and any of our subsidiaries from paying a dividend or otherwise distributing cash to its stockholders unless (1) we are not in default, and the distribution would not cause us to be in default, under the senior secured credit facility; and (2) the aggregate amount of certain dividends, distributions, investments, redemptions and capital expenditures made since October 5, 2006, including dividends declared by the board of directors, is less than the sum of (a) the aggregate amount of cash and cash equivalents received by Cinemark Holdings, Inc. or Cinemark USA, Inc. as common equity since October 5, 2006, (b) Cinemark USA, Inc.'s consolidated EBITDA minus 1.75 times its consolidated interest expense, each as defined in the senior secured credit facility, since October 1, 2006, (c) \$150 million and (d) certain other amounts specified in the senior secured credit facility, subject to certain adjustments specified in the senior secured credit facility. The dividend restriction is subject to certain exceptions specified in the senior secured credit facility.

The senior secured credit facility also includes customary events of default, including, among other things, payment default, covenant default, breach of representation or warranty, bankruptcy, cross-default, material ERISA events, certain types of change of control, material money judgments and failure to maintain subsidiary guarantees. If an event of default occurs, all commitments under the senior secured credit facility may be terminated and all obligations under the senior secured credit facility could be accelerated by the lenders, causing all loans outstanding (including accrued interest and fees payable thereunder) to be declared immediately due and payable.

See discussion of interest rate swap agreements under Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Cinemark USA, Inc. 8.625% Senior Notes

On June 29, 2009, Cinemark USA, Inc. issued \$470.0 million aggregate principal amount of 8.625% senior notes due 2019 with an original issue discount of approximately \$11.5 million, resulting in proceeds of approximately \$458.5 million. The proceeds were primarily used to fund the repurchase of the remaining \$419.4 million aggregate principal amount at maturity of Cinemark, Inc.'s 9.75% senior discount notes discussed below. Interest is payable on June 15 and December 15 of each year. The senior notes mature on June 15, 2019. As of December 31, 2011, the carrying value of the senior notes was approximately \$460.5 million.

Cinemark USA, Inc. filed a registration statement with the Securities and Exchange Commission on September 24, 2009 pursuant to which it offered to exchange the senior notes for substantially similar registered senior notes. The registration statement became effective on December 17, 2009. The exchanged registered senior notes do not have transfer restrictions.

The senior notes are fully and unconditionally guaranteed on a joint and several senior unsecured basis by certain of our subsidiaries that guarantee, assume or become liable with respect to any of our or our guarantor's debt. The senior notes and the guarantees are senior unsecured obligations and rank equally in right of payment with all of our and our guarantor's existing and future senior unsecured debt and senior in right of payment to all of our and our guarantor's existing and future subordinated debt. The senior notes and the guarantees are effectively subordinated to all of our and our guarantor's existing and future secured debt to the extent of the value of the assets securing such debt, including all borrowings under our senior secured credit facility. The senior notes and the guarantees are structurally subordinated to all existing and future debt and other liabilities of our subsidiaries that do not guarantee the senior notes.

The indenture to the senior notes contains covenants that limit, among other things, the ability of Cinemark USA, Inc. and certain of its subsidiaries to (1) consummate specified asset sales, (2) make investments or other restricted payments, including paying dividends, making other distributions or repurchasing subordinated debt or

equity, (3) incur additional indebtedness and issue preferred stock, (4) enter into transactions with affiliates, (5) enter new lines of business, (6) merge or consolidate with, or sell all or substantially all of its assets to another person and (7) create liens. Upon a change of control of Cinemark Holdings, Inc. or Cinemark USA, Inc., Cinemark USA, Inc. would be required to make an offer to repurchase the senior notes at a price equal to 101% of the aggregate principal amount outstanding plus accrued and unpaid interest through the date of repurchase. Certain asset dispositions are considered triggering events that may require Cinemark USA, Inc. to use the proceeds from those asset dispositions to make an offer to purchase the notes at 100% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase if such proceeds are not otherwise used within 365 days as described in the indenture. The indenture governing the senior notes allows Cinemark USA, Inc. to incur additional indebtedness if we satisfy the coverage ratio specified in the indenture, after giving effect to the incurrence of the additional indebtedness, and in certain other circumstances. The required minimum coverage ratio is 2 to 1 and our actual ratio as of December 31, 2011 was 5.1 to 1.

Prior to June 15, 2014, Cinemark USA, Inc. may redeem all or any part of the senior notes at its option at 100% of the principal amount plus a make-whole premium. After June 15, 2014, Cinemark USA, Inc. may redeem the senior notes in whole or in part at redemption prices described in the senior notes. In addition, Cinemark USA, Inc. may redeem up to 35% of the aggregate principal amount of the senior notes from the net proceeds of certain equity offerings at the redemption price set forth in the senior notes.

Cinemark USA, Inc. 7.375% Senior Subordinated Notes

On June 3, 2011, Cinemark USA, Inc. issued \$200 million aggregate principal amount of 7.375% senior subordinated notes due 2021, at par value. The proceeds, after payment of fees, were primarily used to fund the prepayment of the remaining \$157.2 million of Cinemark USA's unextended portion of term loan debt under its senior secured credit facility. Interest on the senior subordinated notes is payable on June 15 and December 15 of each year beginning on December 15, 2011. The senior subordinated notes mature on June 15, 2021.

The senior subordinated notes are fully and unconditionally guaranteed on a joint and several senior subordinated unsecured basis by certain of Cinemark USA, Inc.'s subsidiaries that guarantee, assume or become liable with respect to any of Cinemark USA, Inc.'s or a guarantor's other debt. The senior subordinated notes and the guarantees are senior subordinated unsecured obligations and rank equally in right of payment with all of Cinemark USA, Inc.'s and a guarantor's future senior subordinated indebtedness; are subordinate in right of payment to all of Cinemark USA, Inc.'s and a guarantor's existing and future senior indebtedness, whether secured or unsecured, including Cinemark USA, Inc.'s obligations under its senior secured credit facility and its 8.625% senior notes; and structurally subordinate to all existing and future indebtedness and other liabilities of Cinemark USA, Inc.'s non-guarantor subsidiaries.

The indenture to the senior subordinated notes contains covenants that limit, among other things, the ability of Cinemark USA, Inc. and certain of its subsidiaries to (1) make investments or other restricted payments, including paying dividends, making other distributions or repurchasing subordinated debt or equity, (2) incur additional indebtedness and issue preferred stock, (3) enter into transactions with affiliates, (4) enter new lines of business, (5) merge or consolidate with, or sell all or substantially all of its assets to, another person and (6) create liens. Upon a change of control, as defined in the Indenture, Cinemark USA, Inc. would be required to make an offer to repurchase the senior subordinated notes at a price equal to 101% of the aggregate principal amount outstanding plus accrued and unpaid interest, if any, through the date of repurchase. The indenture governing the senior subordinated notes allows Cinemark USA, Inc. to incur additional indebtedness if we satisfy the coverage ratio specified in the indenture, after giving effect to the incurrence of the additional indebtedness, and in certain other circumstances. The required minimum coverage ratio is 2 to 1, and our actual ratio as of December 31, 2011 was 5.1 to 1.

Prior to June 15, 2016, Cinemark USA, Inc. may redeem all or any part of the senior subordinated notes at its option at 100% of the principal amount plus a make-whole premium plus accrued and unpaid interest on the senior subordinated notes to the date of redemption. After June 15, 2016, Cinemark USA, Inc. may redeem the

senior subordinated notes in whole or in part at redemption prices specified in the indenture. In addition, prior to June 15, 2014, Cinemark USA, Inc. may redeem up to 35% of the aggregate principal amount of the senior subordinated notes from the net proceeds of certain equity offerings at the redemption price set forth in the indenture.

Cinemark USA, Inc. and its guarantor subsidiaries filed a registration statement with the Securities and Exchange Commission (the Commission) on July 27, 2011 pursuant to which Cinemark USA, Inc. offered to exchange the senior subordinated notes for substantially similar registered senior subordinated notes. The registration statement became effective August 4, 2011 and approximately \$199.5 million of the notes were exchanged on September 7, 2011. The registered senior subordinated notes, issued in the exchange, do not have transfer restrictions. Approximately \$0.5 million of the notes were not exchanged as of December 31, 2011.

Cinemark, Inc. 9.75% Senior Discount Notes

On March 31, 2004, Cinemark, Inc. issued approximately \$577.2 million aggregate principal amount at maturity of 9.75% senior discount notes due 2014. Interest on the notes accreted until March 15, 2009 up to their aggregate principal amount. Subsequently, cash interest accrued and was payable semi-annually in arrears on March 15 and September 15, commencing on September 15, 2009.

Prior to 2009, Cinemark, Inc. repurchased on the open market approximately \$157.8 million aggregate principal amount at maturity of its 9.75% senior discount notes for approximately \$138.9 million including accreted interest of approximately \$37.3 million and net cash premiums of approximately \$2.8 million. Cinemark, Inc. funded these repurchases with proceeds from our initial public offering and available cash from operations.

On June 15, 2009, Cinemark, Inc. commenced a cash tender offer for any and all of its 9.75% senior discount notes due 2014, of which approximately \$419.4 million aggregate principal amount at maturity remained outstanding. In connection with the tender offer, Cinemark, Inc. solicited consents to adopt proposed amendments to the indenture to eliminate substantially all restrictive covenants and certain events of default provisions. On June 29, 2009, approximately \$402.5 million aggregate principal amount at maturity of the 9.75% senior discount notes were tendered and repurchased by Cinemark, Inc. for approximately \$433.4 million, including accrued interest of approximately \$11.3 million and tender premiums paid of approximately \$19.6 million. Cinemark, Inc. funded the repurchase with the proceeds from the issuance of the Cinemark USA, Inc. senior notes discussed above. On August 3, 2009, Cinemark, Inc. delivered to the Bank of New York Trust Company N.A., as trustee, a notice to redeem the \$16.9 million aggregate principal amount at maturity of its 9.75% senior discount notes remaining outstanding. The notice specified September 8, 2009 as the redemption date, at which time Cinemark, Inc. paid approximately \$18.6 million, consisting of a redemption price of 104.875% of the face amount of the discount notes remaining outstanding plus accrued and unpaid interest to, but not including, the redemption date. Cinemark, Inc. funded the redemption with proceeds from the issuance of the Cinemark USA, Inc. senior notes discussed above.

Cinemark USA, Inc. 9% Senior Subordinated Notes

On February 11, 2003, Cinemark USA, Inc. issued \$150 million aggregate principal amount of 9% senior subordinated notes due 2013 and on May 7, 2003, Cinemark USA, Inc. issued an additional \$210 million aggregate principal amount of 9% senior subordinated notes due 2013, collectively referred to as the 9% senior subordinated notes. Interest was payable on February 1 and August 1 of each year.

Prior to 2009, Cinemark USA, Inc. repurchased a total of \$359.8 million aggregate principal amount of its 9% senior subordinated notes. The transactions were funded by Cinemark USA, Inc. with proceeds from its sale of a portion of its investment in NCM during 2007 and available cash from operations. Cinemark USA, Inc. also executed a supplemental indenture removing substantially all of the restrictive covenants and certain events of default.

Table of Contents

On October 14, 2010, Cinemark USA, Inc. redeemed the \$0.2 million remaining outstanding 9% senior subordinated notes.

Covenant Compliance

As of December 31, 2011, we believe we were in full compliance with all agreements, including all related covenants, governing our outstanding debt.

Ratings

We are rated by nationally recognized rating agencies. The significance of individual ratings varies from agency to agency. However, companies assigned ratings at the top end of the range have, in the opinion of certain rating agencies, the strongest capacity for repayment of debt or payment of claims, while companies at the bottom end of the range have the weakest capability. Ratings are always subject to change and there can be no assurance that our current ratings will continue for any given period of time. A downgrade of our debt ratings, depending on the extent, could increase the cost to borrow funds. Below are our latest ratings per category, which were current as of February 24, 2012.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU No. 2011-04). ASU No. 2011-04 provides guidance which is expected to result in common fair value measurement and disclosure requirements between U.S. GAAP and IFRS. It changes the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. It is not intended for this update to result in a change in the application of the requirements in Topic 820. The amendments in ASU No. 2011-04 are to be applied prospectively. ASU No. 2011-04 is effective for public companies for interim and annual periods beginning after December 15, 2011. Early application is not permitted. This update is not expected to have a material impact on our consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income (ASU No. 2011-05). In ASU No. 2011-05, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. The amendments in ASU No. 2011-05 do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. They also do not change the presentation of related tax effects or the portrayal or calculation of earnings per share. The amendments in ASU No. 2011-05 should be applied retrospectively. The amendment is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted, because compliance with the amendments is already permitted. ASU No. 2011-05 also required an entity to present on the face of the financial statements adjustments for items that are reclassified from accumulated other comprehensive income to net income, however, in December 2011 the FASB issued ASU No. 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU No. 2011-05*. The update defers the specific

Table of Contents

requirement to present items that are reclassified from accumulated other comprehensive income to net income separately with their respective components of net income and other comprehensive income. We elected to adopt ASU No. 2011-05 and ASU No. 2011-12 for our fiscal 2011 and amendments have been applied retrospectively for all prior periods presented. The amendments do not require any transition disclosures.

In September 2011, the FASB issued ASU No. 2011-08, *Intangibles – Goodwill and Other (Topic 350)* (ASU No. 2011-08). In ASU No. 2011-08, an entity is permitted to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If an entity concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it would not be required to perform the two-step impairment test for that reporting unit. The ASU's objective is to simplify how an entity tests goodwill for impairment. The amendments in ASU No. 2011-08 are effective for annual and interim goodwill and impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if an entity's financial statements for the most recent annual or interim period have not yet been issued. The adoption of ASU No. 2011-08 is not expected to have a material impact on our consolidated financial statements.

Seasonality

Our revenues have historically been seasonal, coinciding with the timing of releases of motion pictures by the major distributors. Generally, the most successful motion pictures have been released during the summer, extending from May to mid-August, and during the holiday season, extending from early November through year-end. The unexpected emergence of a hit film during other periods can alter this seasonality trend. The timing of such film releases can have a significant effect on our results of operations, and the results of one quarter are not necessarily indicative of results for the next quarter or for the same period in the following year.

Table of Contents**Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

We have exposure to financial market risks, including changes in interest rates and foreign currency exchange rates.

Interest Rate Risk

We are currently party to variable rate debt facilities. An increase or decrease in interest rates would affect our interest expense relating to our variable rate debt facilities. At December 31, 2011, there was an aggregate of approximately \$285.3 million of variable rate debt outstanding under these facilities, which excludes \$620.6 million of Cinemark USA, Inc.'s term loan debt that is hedged with the Company's interest rate swap agreements as discussed below. Based on the interest rates in effect on the variable rate debt outstanding at December 31, 2011, a 100 basis point increase in market interest rates would increase our annual interest expense by approximately \$2.9 million.

A majority of our current interest rate swap agreements qualify for cash flow hedge accounting. The fair values of the interest rate swaps are recorded on our consolidated balance sheet as an asset or liability with the effective portion of the interest rate swaps' gains or losses reported as a component of accumulated other comprehensive income (loss) and the ineffective portion reported in earnings.

Below is a summary of our interest rate swap agreements as of December 31, 2011:

Nominal Amount (in millions)	Amount Designated as a Hedge (in millions)	Effective Date	Pay Rate	Receive Rate	Expiration Date
\$125.0	\$106.6	August 2007	4.9220%	3-month LIBOR	August 2012
\$ 75.0	\$ 64.0	November 2008	3.6300%	1-month LIBOR	November 2012

\$100.0	\$100.0	November 2011	1.7150%	1-month LIBOR	April 2016
\$650.0	\$620.6				

The table below provides information about our fixed rate and variable rate long-term debt agreements as of December 31, 2011:

Expected Maturity for the Twelve-Month Periods Ending December 31,

(1) Includes \$620.6 million of the Cinemark USA, Inc. term loan, which represents the debt currently hedged with the Company's interest rate swap agreements.

(2) Includes the 8.625% senior notes in the aggregate principal amount of \$470.0 million, excluding the discount of \$9.5 million.

Foreign Currency Exchange Rate Risk

Edgar Filing: Cinemark Holdings, Inc. - Form 10-K

We are also exposed to market risk arising from changes in foreign currency exchange rates as a result of our international operations. Generally, we export from the U.S. certain of the equipment and construction interior finish items and other operating supplies used by our international subsidiaries. A majority of the revenues and operating

Table of Contents

expenses of our international subsidiaries are transacted in the country's local currency. Generally accepted accounting principles in the U.S., or U.S. GAAP, require that our subsidiaries use the currency of the primary economic environment in which they operate as their functional currency. If our subsidiaries operate in a highly inflationary economy, U.S. GAAP requires that the U.S. dollar be used as the functional currency for the subsidiary. Currency fluctuations in the countries in which we operate result in us reporting exchange gains (losses) or foreign currency translation adjustments. Based upon our equity ownership in our international subsidiaries as of December 31, 2011, holding everything else constant, a 10% immediate, simultaneous, unfavorable change in all of the foreign currency exchange rates to which we are exposed, would decrease the aggregate net book value of our investments in our international subsidiaries by approximately \$50 million and would decrease the aggregate net income of our international subsidiaries for the years ended December 31, 2010 and 2011 by approximately \$8 million and \$9 million, respectively.

Item 9A. Controls and Procedures

Evaluation of the Effectiveness of Disclosure Controls and Procedures

As of December 31, 2011, under the supervision and with the participation of our principal executive officer and principal financial officer, we carried out an evaluation required by the Exchange Act of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of December 31, 2011, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and were effective to provide reasonable assurance that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosures.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) of the Exchange Act. The Company's internal control framework and processes are designed to provide reasonable assurance to management and the board of directors regarding the reliability of financial reporting and the preparation of the Company's consolidated financial statements in accordance with the accounting principles generally accepted in the U.S. Management has assessed the effectiveness of our internal control over financial reporting as of December 31, 2011 based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission, or COSO, in *Internal Control - Integrated Framework*. As a result of this assessment, management concluded that, as of December 31, 2011, our internal control over financial reporting was effective.

Certifications of our Chief Executive Officer and our Chief Financial Officer, which are required in accordance with Rule 13a-14 of the Exchange Act, are attached as exhibits to this Annual Report. This Controls and Procedures section includes the information concerning the controls evaluation referred to in the certifications, and it should be read in conjunction with the certifications for a more complete understanding of the topics presented.

The Company's independent registered public accounting firm, Deloitte & Touche LLP, with direct access to the Company's board of directors through its Audit Committee, have audited the consolidated financial statements prepared by the Company. Their report on the consolidated financial statements is included in Part II, Item 8. Financial Statements and Supplementary Data. Deloitte & Touche LLP has issued an attestation report on the Company's internal control over financial reporting. Deloitte & Touche LLP's report on the Company's internal control over financial reporting is included herein.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 that occurred during the quarter ended December 31, 2011 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Controls

Management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all errors or fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of

Cinemark Holdings, Inc.

Plano, Texas

We have audited the internal control over financial reporting of Cinemark Holdings, Inc. and subsidiaries (the Company) as of December 31, 2011, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying management's report on internal control over financial reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2011 of the Company and our report dated February 28, 2012 expressed an unqualified opinion on those financial statements and financial statement schedule and included an explanatory paragraph regarding the Company's adoption of FASB Accounting Standards Update No. 2011-05, *Presentation of Comprehensive Income*.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of

Cinemark Holdings, Inc.

Plano, Texas

We have audited the accompanying consolidated balance sheets of Cinemark Holdings, Inc. and subsidiaries (the Company) as of December 31, 2010 and 2011, and the related consolidated statements of income, comprehensive income, equity, and cash flows for each of the three years in the period ended December 31, 2011. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Cinemark Holdings, Inc. and subsidiaries as of December 31, 2010 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 2 to the consolidated financial statements, the Company has changed its method of presenting comprehensive income in 2011 due to the adoption of FASB Accounting Standards Update No. 2011-05, *Presentation of Comprehensive Income*. The change in presentation has been applied retrospectively to all periods presented.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2011, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 28, 2012 expressed an unqualified opinion on the Company's internal control over financial reporting.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Cinemark Holdings, Inc. and subsidiaries (the Company) is a leader in the motion picture exhibition industry, with theatres in the United States (U.S.), Brazil, Mexico, Argentina, Chile, Colombia, Peru, Ecuador, Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala. The Company also managed additional theatres in the U.S., Brazil, and Colombia during the year ended December 31, 2011 ..

Basis of Presentation On August 2, 2006, Cinemark Holdings, Inc. was formed as the Delaware holding company of Cinemark, Inc. On April 24, 2007, Cinemark Holdings, Inc. completed an initial public offering of its common stock. Effective December 11, 2009, Cinemark, Inc. was merged into Cinemark Holdings, Inc. and Cinemark Holdings, Inc. became the holding company of Cinemark USA, Inc.

Principles of Consolidation The consolidated financial statements include the accounts of Cinemark Holdings, Inc., its subsidiaries and its affiliates. Majority-owned subsidiaries that the Company has control of are consolidated while those affiliates of which the Company owns between 20% and 50% and does not control are accounted for under the equity method. Those affiliates of which the Company owns less than 20% are generally accounted for under the cost method, unless the Company is deemed to have the ability to exercise significant influence over the affiliate, in which case the Company would account for its investment under the equity method. The results of these subsidiaries and affiliates are included in the consolidated financial statements effective with their formation or from their dates of acquisition. Intercompany balances and transactions are eliminated in consolidation.

Cash and Cash Equivalents Cash and cash equivalents consist of operating funds held in financial institutions, petty cash held by the theatres and highly liquid investments with maturities of three months or less when purchased. At December 31, 2011, cash investments were primarily in money market funds or other similar funds.

Inventories Concession and theatre supplies inventories are stated at the lower of cost (first-in, first-out method) or market.

Theatre Properties and Equipment Theatre properties and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is provided using the straight-line method over the estimated useful lives of the assets as follows:

Category	Useful Life
Buildings on owned land	40 years
Buildings on leased land	Lesser of lease term or useful life
Buildings under capital lease	Lesser of lease term or useful life
Theatre furniture and equipment	5 to 15 years
Leasehold improvements	Lesser of lease term or useful life

The Company reviews long-lived assets for impairment indicators on a quarterly basis or whenever events or changes in circumstances indicate the carrying amount of the assets may not be fully recoverable.

The Company considers actual theatre level cash flows, future years budgeted theatre level cash flows, theatre property and equipment carrying values, amortizing intangible asset carrying values, the age of a recently built theatre, competitive theatres in the marketplace, the impact of recent ticket price changes, available lease renewal options and other factors considered relevant in its assessment of impairment of individual theatre assets.

Long-lived assets are evaluated for impairment on an individual theatre basis, which the Company believes is the lowest applicable level for which there are identifiable cash flows. The impairment evaluation is based on the estimated undiscounted cash flows from continuing use through the remainder of the theatre's useful life. The remainder of the theatre's useful life correlates with the available remaining lease period, which includes the probability of renewal periods for leased properties and a period of approximately twenty years for fee owned properties. If the estimated undiscounted cash flows are not sufficient to recover a long-lived asset's carrying value, the Company then compares the carrying value of the asset group (theatre) with its estimated fair value. When estimated fair value is determined to be lower than the carrying value of the asset group (theatre), the asset group (theatre) is written down to its estimated fair value. Significant judgment is involved in estimating cash flows and fair value. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820-10-35, are based on historical and projected operating performance, recent market transactions and current industry trading multiples. Fair value is determined based on a multiple of cash flows, which was six and a half times for the evaluations performed during 2009, 2010 and 2011. The long-lived asset impairment charges recorded during each of the periods presented are specific to theatres that were directly and individually impacted by increased competition, adverse changes in market demographics, or adverse changes in the development or the conditions of the areas surrounding the theatre. See Note 11.

Goodwill and Other Intangible Assets Goodwill is the excess of cost over fair value of theatre businesses acquired. Goodwill is evaluated for impairment on an annual basis during the fourth quarter or whenever events or changes in circumstances indicate the carrying value of goodwill may not be fully recoverable. The Company evaluates goodwill for impairment at the reporting unit level and has allocated goodwill to the reporting unit based on an estimate of its relative fair value. Management considers the reporting unit to be each of its sixteen regions in the U.S. and each of its eight international countries (Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala are considered one reporting unit). Goodwill impairment is evaluated using a two-step approach requiring the Company to compute the fair value of a reporting unit and compare it with its carrying value. If the carrying value of the reporting unit exceeds its estimated fair value, a second step is performed to measure the potential goodwill impairment. Significant judgment is involved in estimating cash flows and fair value. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35, are based on historical and projected operating performance, recent market transactions, and current industry trading multiples. Fair value is determined based on a multiple of cash flows, which was six and a half times for the evaluations performed during 2009 and 2010 and seven and a half times for the evaluation performed during 2011.

Tradename intangible assets are tested for impairment at least annually during the fourth quarter or whenever events or changes in circumstances indicate the carrying value may not be fully recoverable. The Company estimates the fair value of its tradenames by applying an estimated market royalty rate that could be charged for the use of the Company's tradename to forecasted future revenues, with an adjustment for the present value of such royalties. If the estimated fair value is less than the carrying value, the tradename intangible asset is written down to its estimated fair value. Significant judgment is involved in estimating market royalty rates and long-term revenue forecasts. Management's estimates, which fall under Level 3 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35, are based on historical and projected revenue performance and industry trends.

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data**

The table below summarizes the Company's intangible assets and the amortization method used for each type of intangible asset:

Intangible Asset	Amortization Method
Goodwill	Indefinite-lived
Tradename	Indefinite-lived
Vendor contracts	Straight-line method over the terms of the underlying contracts. The remaining terms of the underlying contracts range from 1 to 11 years.
Favorable/unfavorable leases	Based on the pattern in which the economic benefits are realized over the terms of the lease agreements. The remaining terms of the lease agreements range from 1 to 25 years.
Other intangible assets	Straight-line method over the terms of the underlying agreement or the expected useful life of the intangible asset. The remaining useful lives of these intangible assets range from 2 to 8 years.

Deferred Charges and Other Assets Deferred charges and other assets consist of debt issue costs, long-term prepaid rents, interest rate swap assets, construction related deposits, lease deposits, equipment to be placed in service, and other assets of a long-term nature. Debt issue costs are amortized using the straight-line method (which approximates the effective interest method) over the primary financing terms of the related debt agreement. Long-term prepaid rents represent prepayments of rent on operating leases. These payments are recognized to facility lease expense over the period for which the rent was paid in advance as outlined in the lease agreements. The amortization periods generally range from 1 to 10 years. See Note 14 for discussion of interest rate swap agreements.

Lease Accounting The Company evaluates each lease for classification as either a capital lease or an operating lease. If substantially all of the benefits and risks of ownership have been transferred to the lessee, the Company records the lease as a capital lease at its inception. The Company performs this evaluation at the inception of the lease and when a modification is made to a lease. If the lease agreement calls for a scheduled rent increase during the lease term, the Company recognizes the lease expense on a straight-line basis over the lease term. The Company determines the straight-line rent expense impact of an operating lease upon inception of the lease. The landlord is typically responsible for constructing a theatre using guidelines and specifications agreed to by the Company and assumes substantially all of the risk of construction. If the Company concludes that it has substantially all of the construction period risks, it records a construction asset and related liability for the amount of total project costs incurred during the construction period. At the end of the construction period, the Company determines if the transaction qualifies for sale-leaseback accounting treatment in regards to lease classification.

Deferred Revenues Advances collected on long-term screen advertising, concession and other contracts are recorded as deferred revenues. In accordance with the terms of the agreements, the advances collected on such contracts are recognized during the period in which the advances are earned, which may differ from the period in which the advances are collected. Revenues related to these advances are recognized on either a straight-line basis over the term of the contracts or as such revenues are earned in accordance with the terms of the contracts.

Casualty Insurance The Company is self-insured for general liability claims subject to an annual cap. For the year ended December 31, 2011, claims were capped at \$250 per occurrence with an annual cap of approximately \$2,650. The company is also self-insured for medical claims up to \$125 per occurrence. The Company is fully insured for workers compensation claims. As of December 31, 2010 and 2011, the Company's insurance reserves were \$7,447 and \$7,600, respectively, and are reflected in accrued other current liabilities in the consolidated balance sheets.

Revenue and Expense Recognition Revenues are recognized when admissions and concession sales are received at the box office. Other revenues primarily consist of screen advertising. Screen advertising revenues are recognized over the period that the related advertising is delivered on-screen or in-theatre. The Company records proceeds from the sale of gift cards and other advanced sale-type certificates in current liabilities and recognizes admissions or concession revenue when a holder redeems the card or certificate. The Company recognizes unredeemed gift cards and other advanced sale-type certificates as revenue only after such a period of time indicates, based on historical experience, the likelihood of redemption is remote, and based on applicable laws and regulations. In evaluating the likelihood of redemption, the Company considers the period outstanding, the level and frequency of activity, and the period of inactivity. The Company recognized unredeemed gift cards and other advanced sale-type certificates as revenues in the amount of \$7,162, \$7,073 and \$7,846 during the years ended December 31, 2009, 2010 and 2011, respectively.

Film rental costs are accrued based on the applicable box office receipts and either mutually agreed upon firm terms or a sliding scale formula, which are generally established prior to the opening of the film, or estimates of the final mutually agreed upon settlement, which occurs at the conclusion of the film run, subject to the film licensing arrangement. Under a firm terms formula, the Company pays the distributor a mutually agreed upon specified percentage of box office receipts, which reflects either a mutually agreed upon aggregate rate for the life of the film or rates that decline over the term of the run. Under a sliding scale formula, film rental is paid as a percentage of box office revenues using a pre-determined matrix based upon box office performance of the film. The settlement process allows for negotiation of film rental fees upon the conclusion of the film run based upon how the film performs. Estimates are based on the expected success of a film. The success of a film can typically be determined a few weeks after a film is released when initial box office performance of the film is known. Accordingly, final settlements typically approximate estimates since box office receipts are known at the time the estimate is made and the expected success of a film can typically be estimated early in the film's run. If actual settlements are different than those estimates, film rental costs are adjusted at that time. Advertising costs are expensed as incurred and the Company expensed \$15,104, \$16,147 and \$18,052, respectively for the years ended December 31, 2009, 2010 and 2011.

Accounting for Share Based Awards The Company measures the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award on the date of the grant. The grant date fair value is estimated using either an option-pricing model, consistent with the terms of the award, or a market observed price, if such a price exists. Such costs are recognized over the period during which an employee is required to provide service in exchange for the award (which is usually the vesting period). The Company also estimates the number of instruments that will ultimately be forfeited, rather than accounting for forfeitures as they occur. See Note 19 for discussion of the Company's share based awards and related compensation expense.

Income Taxes The Company uses an asset and liability approach to financial accounting and reporting for income taxes. Deferred income taxes are provided when tax laws and financial accounting standards differ with respect to the amount of income for a year and the basis of assets and liabilities. A valuation allowance is recorded to reduce the carrying amount of deferred tax assets unless it is more likely than not that such assets will

In thousands, except share and per share data

be realized. Income taxes are provided on unremitted earnings from foreign subsidiaries unless such earnings are expected to be indefinitely reinvested. Income taxes have also been provided for potential tax assessments. The evaluation of an uncertain tax position is a two-step process. The first step is recognition: The Company determines whether it is more likely than not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. In evaluating whether a tax position has met the more-likely-than-not recognition threshold, the Company should presume that the position would be examined by the appropriate taxing authority that would have full knowledge of all relevant information. The second step is measurement: A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. Differences between tax positions taken in a tax return and amounts recognized in the financial statements result in (1) a change in a liability for income taxes payable or (2) a change in an income tax refund receivable, a deferred tax asset or a deferred tax liability or both (1) and (2). The Company accrues interest and penalties on its uncertain tax positions.

Segments For the years ended December 31, 2009, 2010 and 2011, the Company managed its business under two reportable operating segments, U.S. markets and international markets. See Note 23.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. The Company's consolidated financial statements include amounts that are based on management's best estimates and judgments. Actual results could differ from those estimates.

Foreign Currency Translations The assets and liabilities of the Company's foreign subsidiaries are translated into U.S. dollars at current exchange rates as of the balance sheet date, and revenues and expenses are translated at average monthly exchange rates. The resulting translation adjustments are recorded in the consolidated balance sheets in accumulated other comprehensive income (loss). The Company recognizes foreign currency transaction gains and losses when changes in exchange rates impact transactions, other than intercompany transactions of a long-term investment nature, that have been denominated in a currency other than the functional currency.

Fair Value Measurements The Company has interest rate swap agreements that are adjusted to fair value on a recurring basis (quarterly). The Company uses the income approach to determine the fair value of its interest rate swap agreements and under this approach, the Company uses projected future interest rates as provided by the counterparties to the interest rate swap agreements and the fixed rates that the Company is obligated to pay under these agreements. According to authoritative guidance, inputs used in fair value measurements fall into three different categories; Level 1, Level 2 and Level 3. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Therefore, the Company's measurements use significant unobservable inputs, which fall in Level 3. There were no changes in valuation techniques during the period and no transfers in or out of Level 3. See Note 14 for further discussion of the Company's interest rate swap agreements and Note 15 for further discussion of the Company's fair value measurements.

Acquisitions The Company accounts for acquisitions under the acquisition method of accounting. The acquisition method requires that the acquired assets and liabilities, including contingencies, be recorded at fair

value determined on the acquisition date and changes thereafter reflected in income. For significant acquisitions, the Company obtains independent third party valuation studies for certain of the assets acquired and liabilities assumed to assist the Company in determining fair value. The estimation of the fair values of the assets acquired and liabilities assumed involves a number of estimates and assumptions that could differ materially from the actual amounts recorded. The Company provides the assumptions, including both quantitative and qualitative information, about the specified asset or liability to the third party valuation firms. The Company primarily utilizes the third parties to accumulate comparative data from multiple sources and assemble a report that summarizes the information obtained. The Company then uses the information to record estimated fair value. The third party valuation firms are supervised by Company personnel who are knowledgeable about valuations and fair value. The Company evaluates the appropriateness of the valuation methodology utilized by the third party valuation firm.

2. NEW ACCOUNTING PRONOUNCEMENTS

In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS (ASU No. 2011-04). ASU No. 2011-04 provides guidance which is expected to result in common fair value measurement and disclosure requirements between U.S. GAAP and IFRS. It changes the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. It is not intended for this update to result in a change in the application of the requirements in Topic 820. The amendments in ASU No. 2011-04 are to be applied prospectively. ASU No. 2011-04 is effective for public companies for interim and annual periods beginning after December 15, 2011. Early application is not permitted. This update is not expected to have a material impact on the Company's consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income (ASU No. 2011-05). In ASU No. 2011-05, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. The amendments in ASU No. 2011-05 do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. They also do not change the presentation of related tax effects or the portrayal or calculation of earnings per share. The amendments in ASU No. 2011-05 should be applied retrospectively. The amendment is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted, because compliance with the amendments is already permitted. ASU No. 2011-05 also required an entity to present on the face of the financial statements adjustments for items that are reclassified from accumulated other comprehensive income to net income, however, in December 2011 the FASB issued ASU No. 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU No. 2011-05. The update defers the specific requirement to present items that are reclassified from accumulated other comprehensive income to net income separately with their respective components of net income and other comprehensive income. The Company elected to adopt ASU No. 2011-05 and ASU No. 2011-12 for its fiscal 2011 and amendments have been applied retrospectively for all prior periods presented. The amendments do not require any transition disclosures.

In September 2011, the FASB issued ASU No. 2011-08, Intangibles—Goodwill and Other (Topic 350) (ASU No. 2011-08). In ASU No. 2011-08, an entity is permitted to make a qualitative assessment of whether it

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data**

is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If an entity concludes that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, it would not be required to perform the two-step impairment test for that reporting unit. The ASU's objective is to simplify how an entity tests goodwill for impairment. The amendments in ASU No. 2011-08 are effective for annual and interim goodwill and impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if an entity's financial statements for the most recent annual or interim period have not yet been issued. The Company does not expect the adoption of ASU No. 2011-08 to have a material impact on its consolidated financial statements.

3. EARNINGS PER SHARE

The Company considers its unvested share based payment awards, which contain non-forfeitable rights to dividends, participating securities, and includes such participating securities in its computation of earnings per share pursuant to the two-class method. Basic earnings per share for the two classes of stock (common stock and unvested restricted stock) is calculated by dividing net income by the weighted average number of shares of common stock and unvested restricted stock outstanding during the reporting period. Diluted earnings per share is calculated using the weighted average number of shares of common stock and unvested restricted stock plus the potentially dilutive effect of common equivalent shares outstanding determined under both the two class method and the treasury stock method.

The following table presents computations of basic and diluted earnings per share under the two class method:

5. ACQUISITIONS AND DISPOSITIONS*Acquisition of Theatres in the U.S.*

On March 18, 2009, the Company acquired four theatres with 82 screens from Muvico Entertainment L.L.C. in an asset purchase for \$48,950 in cash. The acquisition resulted in an expansion of the Company's U.S. theatre base, as three of the theatres are located in Florida and one theatre is located in Maryland. The Company incurred approximately \$113 in transaction costs, which are reflected in general and administrative expenses on the consolidated statement of income for the year ended December 31, 2009. The transaction was accounted for by applying the acquisition method. The following table represents the fair value of the identifiable assets acquired and liabilities assumed as of the acquisition date:

The brandname and noncompete agreement are presented as intangible assets and the unfavorable lease is presented as other long-term liabilities on the Company's consolidated balance sheets. Goodwill represents excess of the costs of acquiring these theatres over amounts assigned to assets acquired, including intangible assets, and liabilities assumed.

Acquisition of Theatres in Argentina

On August 25, 2011, the Company acquired ten theatres with 95 screens from Hoyts General Cinema South America, Inc. in a stock purchase for approximately \$66,958 in cash. The acquisition resulted in an expansion of the Company's international theatre base. The Company incurred approximately \$200 in transaction costs, which are reflected in general and administrative expenses on the consolidated statement of income for year ended December 31, 2011. The transaction was accounted for by applying the acquisition method. The following table represents the fair value of the identifiable assets acquired and liabilities assumed as of the acquisition date:

Theatre properties and equipment	\$ 24,098
Tradename	10,032
Favorable leases	3,919
Other intangible assets	884

Long-term debt	(5,993)
Deferred tax liability	(7,240)
Other liabilities, net of other assets	(1,760)
Total	\$ 66,958

The weighted average amortization period for the intangible assets acquired is approximately seven years. The acquisition is subject to review by the Argentina Comisión Nacional de Defensa de la Competencia (CNDC).

Dispositions

During November 2010, the Company sold its one theatre in Canada for approximately \$6,320 in cash proceeds and recorded a gain on sale of assets and other of approximately \$7,025, which also reflected the write-off of a deferred rent liability related to the theatre.

During November 2010, the Company also sold its interest in a profit sharing agreement related to a previously sold Canadian property. The Company received proceeds of approximately \$8,493 and recorded a gain on sale of assets and other.

6. INVESTMENT IN NATIONAL CINEMEDIA LLC

The Company has an investment in National CineMedia, LLC (NCM). NCM operates a digital in-theatre network in the U.S. for providing cinema advertising and non-film events. Upon joining NCM, the Company entered into an Exhibitor Services Agreement, or the ESA, with NCM, pursuant to which NCM provides advertising, promotion and event services to our theatres. On February 13, 2007, National CineMedia, Inc. (NCMI), an entity that serves as the sole manager of NCM, completed an IPO of its common stock. In connection with the NCMI initial public offering, the Company amended its operating agreement and the ESA with NCMI. The ESA modification reflected a shift from circuit share expense under the prior ESA, which

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data**

obligated NCM to pay the Company a percentage of revenue, to a monthly theatre access fee, which significantly reduced the contractual amounts paid to us by NCM. The Company recorded the proceeds related to the ESA modification as deferred revenue, which is being amortized into other revenues over the life of the agreement using the units of revenue method. In consideration for NCM's exclusive access to the Company's theatre attendees for on-screen advertising and use of off-screen areas within the Company's theatres for lobby entertainment and lobby promotions, the Company receives a monthly theatre access fee under the modified ESA. The theatre access fee is composed of a fixed payment per patron, initially seven cents, and a fixed payment per digital screen, which may be adjusted for certain reasons outlined in the modified ESA. The payment per theatre patron increases by 8% every five years, with the first such increase taking effect after the end of fiscal 2011, and the payment per digital screen, initially eight hundred dollars per digital screen per year, increases annually by 5%. For 2009, 2010 and 2011, the annual payment per digital screen was eight hundred eighty-two dollars, nine hundred twenty-six dollars and nine hundred seventy-two dollars, respectively. The theatre access fee paid in the aggregate to Regal, AMC and the Company will not be less than 12% of NCM's Aggregate Advertising Revenue (as defined in the modified ESA), or it will be adjusted upward to reach this minimum payment. Additionally, with respect to any on-screen advertising time provided to the Company's beverage concessionaire, the Company is required to purchase such time from NCM at a negotiated rate. The modified ESA has, except with respect to certain limited services, a remaining term of approximately 25 years.

As a result of the application of a portion of the proceeds it received from the NCMI initial public offering, the Company had a negative basis in its original membership units in NCM, which is referred to herein as the Company's Tranche 1 Investment. Following the NCM, Inc. IPO, the Company does not recognize undistributed equity in the earnings on its Tranche 1 Investment until NCM's future net earnings, less distributions received, surpass the amount of the excess distribution. The Company recognizes equity in earnings on its Tranche 1 Investment only to the extent it receives cash distributions from NCM. The Company recognizes cash distributions it receives from NCM on its Tranche 1 Investment as a component of earnings as Distributions from NCM. The Company believes that the accounting model provided by ASC 323-10-35-22 for recognition of equity investee losses in excess of an investor's basis is analogous to the accounting for equity income subsequent to recognizing an excess distribution.

Common Unit Adjustments

Pursuant to a Common Unit Adjustment Agreement dated as of February 13, 2007 between NCMI and the Company, AMC Entertainment, Inc. (AMC) and Regal Entertainment Group (Regal), which we refer to collectively as the Founding Members, annual adjustments to the common membership units are made primarily based on increases or decreases in the number of theatre screens operated and theatre attendance generated by each Founding Member. To account for the receipt of additional common units under the Common Unit Adjustment Agreement, we follow the guidance in FASB ASC 323-10-35-29 (formerly EITF 02-18, Accounting for Subsequent Investments in an Investee after Suspension of Equity Loss Recognition) by analogy, which also refers to AICPA Technical Practice Aid 2220.14, which indicates that if a subsequent investment is made in an equity method investee that has experienced significant losses, the investor must determine if the subsequent investment constitutes funding of prior losses. We concluded that the construction or acquisition of new theatres that has led to the common unit adjustments equates to making additional investments in NCM. We evaluated the receipt of the additional common units in NCM and the assets exchanged for these additional units and have determined that the right to use our incremental new screens would not be considered funding of prior losses. We account for these additional common units, which we refer to herein as our Tranche 2 Investment, as a separate investment than our Tranche 1 Investment. The common units received are recorded at fair value as an increase in our investment in NCM with an offset to deferred revenue. The deferred revenue is amortized over the remaining term of the ESA. Our Tranche 2 Investment is accounted for following the equity

method, with undistributed equity earnings related to our Tranche 2 Investment included as a component of earnings in equity in income (loss) of affiliates and distributions received related to our Tranche 2 Investment are recorded as a reduction of our investment basis. In the event that a common unit adjustment is determined to be a negative number, the Founding Member can elect to either transfer and surrender to NCM the number of common units equal to all or part of such Founding Member's common unit adjustment or to pay to NCM an amount equal to such Founding Member's common unit adjustment calculated in accordance with the Common Unit Adjustment Agreement. If the Company then elects to surrender common units as part of a negative common unit adjustment, the Company would record a reduction to deferred revenue at the then fair value of the common units surrendered and a reduction of the Company's Tranche 2 Investment at an amount equal to the weighted average cost for Tranche 2 common units, with the difference between the two values recorded as a gain or loss on sale of assets and other.

During March 2009, NCM performed its annual common unit adjustment calculation under the Common Unit Adjustment Agreement. As a result of the calculation, the Company received an additional 1,197,303 common units of NCM, each of which is convertible into one share of NCM, Inc. common stock. The Company recorded the additional common units received at fair value as part of its Tranche 2 Investment with a corresponding adjustment to deferred revenue of \$15,536.

During March 2010, NCM performed its annual common unit adjustment calculation under the Common Unit Adjustment Agreement. As a result of the calculation, the Company received an additional 1,757,548 common units of NCM, each of which is convertible into one share of NCM, Inc. common stock. The Company recorded the additional common units received at fair value as part of its Tranche 2 Investment with a corresponding adjustment to deferred revenue of \$30,683. Subsequent to the annual common unit adjustment discussed above, in May 2010, one of NCM's other founding members completed an acquisition of another theatre circuit that required an extraordinary common unit adjustment calculation by NCM in accordance with the Common Unit Adjustment Agreement. As a result of this extraordinary common unit adjustment, the founding member was granted additional common units of NCM, which resulted in dilution of the Company's ownership interest in NCM. The Company recognized a change of interest gain of approximately \$271 during the year ended December 31, 2010 as a result of this extraordinary common unit adjustment, which is reflected in (gain) loss on sale of assets and other on the consolidated statement of income.

During March 2011, NCM performed its annual common unit adjustment calculation under the Common Unit Adjustment Agreement. As a result of the calculation, the Company received an additional 549,417 common units of NCM, each of which is convertible into one share of NCM, Inc. common stock. The Company recorded the additional common units received at fair value as part of its Tranche 2 Investment with a corresponding adjustment to deferred revenue of approximately \$9,302.

As of December 31, 2011, the Company owned a total of 17,495,920 common units of NCM, which represented an approximate 16% interest.

7. INVESTMENT IN DIGITAL CINEMA IMPLEMENTATION PARTNERS

On February 12, 2007, the Company, AMC and Regal entered into a joint venture known as Digital Cinema Implementation Partners LLC (DCIP) to facilitate the implementation of digital cinema in the Company's theatres and to establish agreements with major motion picture studios for the financing of digital cinema.

On March 10, 2010, the Company signed a master equipment lease agreement and other related agreements (collectively the Agreements) with Kasima LLC (Kasima), which is an indirect subsidiary of DCIP and a related party to the Company. Upon signing the Agreements, the Company contributed the majority of its U.S. digital projection systems at a fair value of \$16,380 to DCIP, which DCIP then contributed to Kasima. The net book value of the contributed equipment was approximately \$18,090, and as a result, the Company recorded a loss of approximately \$1,710, which is reflected in (gain) loss on sale of assets and other on the consolidated statement of income for the year ended December 31, 2010. During April 2010, the Company sold additional U.S. digital projection systems with a net book value of approximately \$1,520 to Kasima for approximately \$1,197, resulting in an additional loss of approximately \$323, which is reflected in (gain) loss on sale of assets and other on the consolidated statement of income for the year ended December 31, 2010. During 2011, the Company sold additional U.S. digital projection systems with a net book value of approximately \$3,777 to DCIP for approximately \$2,739, resulting in a loss of approximately \$1,038, which is reflected in (gain) loss on sale of assets and other on the consolidated statement of income for the year ended December 31, 2011.

The Company has a variable interest in Kasima through the terms of its master equipment lease agreement; however, the Company has determined that it is not the primary beneficiary of Kasima, as the Company does not have the ability to direct the activities of Kasima that most significantly impact Kasima's economic performance.

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data**

As of December 31, 2011, the Company had a 33% voting interest in DCIP and a 24.3% economic interest in DCIP. The Company accounts for its investment in DCIP and its subsidiaries under the equity method of accounting. Below is a rollforward of our investment in DCIP from January 1, 2009 through December 31, 2011:

Balance as of January 1, 2009	\$ 1,017
Cash contributions to DCIP	2,500
Equity in losses	(2,877)
Balance as of December 31, 2009	\$ 640
Cash contributions to DCIP	2,813
Equipment contributions to DCIP, at fair value	16,380
Distributions received from DCIP	(1,068)
Equity in losses	(7,927)
Balance as of December 31, 2010	\$ 10,838
Cash contributions to DCIP	1,471
Equity in income	489
Balance as of December 31, 2011	\$ 12,798

As a result of the Agreements, the Company has installed digital projection systems to a majority of its first run U.S. theatres. The digital projection systems are being leased from Kasima under an operating lease with an initial term of twelve years that contains ten one-year fair value renewal options. The equipment lease agreement also contains a fair value purchase option. Under the equipment lease agreement, the Company pays minimum annual rent of one thousand dollars per digital projection system for the first six and a half years from the effective date of the agreement and minimum annual rent of three thousand dollars per digital projection system beginning at six and a half years from the effective date through the end of the lease term. The Company may also be subject to various types of other rent if such digital projection systems do not meet minimum performance requirements as outlined in the agreements. Certain of the other rent payments are subject to either a monthly or an annual maximum. As of December 31, 2011, the Company had 3,460 digital projection systems being leased under the master equipment lease agreement with Kasima. The Company recorded equipment lease expense of approximately \$1,354 and \$5,332 during the years ended December 31, 2010 and 2011, respectively, which is included in utilities and other costs on the consolidated statements of income.

The digital projection systems leased from Kasima replaced a majority of the Company's existing 35 millimeter projection systems in its U.S. theatres. Therefore, upon signing the agreements, the Company began accelerating the depreciation of these existing 35 millimeter projection systems. The Company recorded depreciation expense of approximately \$9,423 and \$10,604 on its domestic 35 millimeter projection systems during the years ended December 31, 2010 and 2011, respectively. The Company's domestic 35 millimeter projection systems have been fully depreciated as of December 31, 2011.

8. INVESTMENT IN REALD

The Company licenses 3-D systems from RealD. Under its license agreement with RealD, the Company earned options to purchase shares of RealD common stock as it installed a certain number of 3-D systems as outlined in the license agreement. During 2010, the Company earned a total of 1,085,828 options to purchase shares of common stock in RealD. Upon vesting in these options, the Company recorded a total investment in RealD of approximately \$18,909, which represented the estimated aggregate fair value of the options, with an offset to deferred lease incentive liability. The fair value measurements used to estimate the fair value of RealD

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data**

options in which the company vested during the year ended December 31, 2010, as discussed above, fell under Level 2 of the U.S. GAAP fair value hierarchy as defined by ASC Topic 820-10-35. The fair value measurement for the Company's investment in RealD transferred from Level 2 to Level 1 during the year ended December 31, 2011. Previous fair value estimates for the investment were based on RealD's quoted stock price, discounted to reflect the impact of a lock-up period to which the Company was subject. The lock-up period expired during January 2011; therefore, the fair value estimates for the investment subsequent to January 2011 were based on RealD's stock price with no adjustments.

During the year ended December 31, 2011, the Company vested in an additional 136,952 RealD options by reaching the final target level, as outlined in the license agreement. Upon vesting in these additional options, the Company recorded an increase in its investment in RealD and its deferred lease incentive liability of approximately \$3,402, which represented the estimated fair value of the RealD options. The fair value measurements were based upon RealD's quoted stock prices on the dates of vesting. These fair value measurements fall under Level 1 of the U.S. GAAP fair value hierarchy as defined by ASC Topic 820-10-35. The deferred lease incentive liability, which is reflected in other long-term liabilities on the consolidated balance sheets, is being amortized over the term of the license agreement, which is approximately seven and one-half years.

During March 2011, the Company exercised all of its options to purchase shares of common stock in RealD for \$0.00667 per share. The Company accounts for its investment in RealD as a marketable security. The Company has determined that its RealD shares are available-for-sale securities in accordance with ASC Topic 320-10-35-1, therefore unrealized holding gains and losses are reported as a component of accumulated other comprehensive income (loss) until realized.

As of December 31, 2011, the Company owned 1,222,780 shares in RealD, with an estimated fair value of \$9,709. The fair value of the RealD shares as of December 31, 2011 was determined based upon the quoted price of RealD's common stock on December 30, 2011, which falls under Level 1 of the U.S. GAAP fair value hierarchy as defined by ASC Topic 820-10-35. During the year ended December 31, 2011, the Company recorded an unrealized holding loss of approximately \$21,694, before taxes, as a component of accumulated other comprehensive income (loss).

During the year ended December 31, 2011, the Company recognized an other-than-temporary impairment on its investment in RealD due to the length of time and extent to which RealD's quoted stock price has been below the Company's basis in the stock. As a result of the other-than-temporary impairment, the Company reclassified approximately \$12,610, which represented cumulative net unrealized holding losses, from accumulated other comprehensive income (loss) to earnings.

Below is a rollforward of the Company's investment in RealD from January 2010 through December 31, 2011:

Balance as of January 1, 2010	\$
Fair value of options earned	18,909
Unrealized holding gain	9,084
Balance as of December 31, 2010	\$ 27,993
Fair value of options earned	3,402
Exercise of options at \$0.00667 per share	8
Unrealized holding loss	(21,694)
Balance as of December 31, 2011	\$ 9,709

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data****9. SHARE EXCHANGES WITH AND PURCHASES OF NONCONTROLLING INTERESTS**

During April 2010, the Company's partners in Colombia (the Colombian Partners) exercised an option available to them under an Exchange Option Agreement dated April 9, 2007 between the Company and the Colombian Partners. Under this option, which was contingent upon completion of an initial public offering of common stock by the Company, the Colombian Partners were entitled to exchange their shares in Cinemark Colombia S.A. for shares of the Company's common stock (the Colombia Share Exchange). The number of shares to be exchanged was determined based on the Company's equity value and the equity value of the Colombian Partners' interest in Cinemark Colombia S.A., both of which are defined in the Exchange Option Agreement. As a result of the Colombia Share Exchange, on June 14, 2010, the Company issued 1,112,723 shares of its common stock to the Colombian Partners. The increase in the Company's ownership interest in its Colombian subsidiary was accounted for as an equity transaction. The Company recorded an increase in common stock and additional-paid-in-capital of approximately \$6,951, which represented the book value of the Colombian partners' noncontrolling interest account of approximately \$5,865 plus the Colombian partners' share of accumulated other comprehensive loss of approximately \$1,086. As a result of this transaction, the Company owns 100% of the shares in Cinemark Colombia S.A.

During November 2010, the Company purchased its noncontrolling interests' 20% share of Cinemark Panama S.A. (Cinemark Panama) for approximately \$888 in cash. The transaction was accounted for as an equity transaction in accordance with ASC Topic 810-10-45-23. The book value of Cinemark Panama's noncontrolling interest was approximately \$498, therefore the Company recorded an adjustment to additional paid-in-capital of approximately \$390. As a result of the transaction, the Company owns 100% of the shares in Cinemark Panama.

During May 2011, the Company purchased its Chilean partners' 2.6% share of Cinemark Chile S.A. (Cinemark Chile) for approximately \$1,443 in cash. The increase in the Company's ownership interest in its Chilean subsidiary was accounted for as an equity transaction in accordance with ASC Topic 810-10-45-23. The Company recorded a decrease in additional paid-in-capital of approximately \$1,402, which represented the difference between the cash paid and the book value of the Chilean partners' noncontrolling interest account of approximately \$917, plus the Chilean partners' share of accumulated other comprehensive loss of approximately \$485. As a result of this transaction, the Company owns 100% of the shares in Cinemark Chile.

Senior Secured Credit Facility

On October 5, 2006, in connection with the Century Acquisition, Cinemark USA, Inc. entered into a senior secured credit facility that provided for a \$1,120,000 term loan and a \$150,000 revolving credit line. On March 2, 2010, the Company completed an amendment and extension to its existing senior secured credit facility to primarily extend the maturities of the facility and make certain other modifications. Approximately \$924,375 of the Company's then remaining outstanding \$1,083,600 term loan debt was extended from an original maturity date of October 2013 to a maturity date of April 2016. The then remaining term loan debt of \$159,225 that was not extended continued to have a maturity date of October 2013. On June 3, 2011, the Company prepaid the remaining \$157,235 of its unextended term loan debt utilizing a portion of the proceeds from the issuance of the Cinemark USA, Inc. 7.375% senior subordinated notes discussed below. There were no prepayment penalties incurred upon the prepayment of the term loan debt. Subsequent to the prepayment, the quarterly payments due on the term loan are approximately \$2,311 per quarter through March 2016 with the remaining principal amount of approximately \$866,602 due April 30, 2016. The prepayment did not impact the interest rate applicable to the remaining portion of the term loan debt, which accrues interest at Cinemark USA, Inc.'s option at: (A) the base rate equal to the higher of (1) the prime lending rate as set forth on the British Banking Association Telerate page 5, or (2) the federal funds effective rate from time to time plus 0.50%, plus a 2.25% margin per annum, or (B) a eurodollar rate plus a 3.25% margin per annum.

The prepayment did not impact the interest rate applicable to or the maturity of the Company's revolving credit line. The maturity date of \$73,500 of Cinemark USA, Inc.'s \$150,000 revolving credit line has been extended from October 2012 to March 2015. The maturity date of the remaining \$76,500 of Cinemark USA, Inc.'s revolving credit line did not change and remains October 2012. The interest rate on the original revolving credit line accrues interest, at Cinemark USA, Inc.'s option, at: (A) a base rate equal to the higher of (1) the prime lending rate as set forth on the British Banking Association Telerate page 5 and (2) the federal funds effective rate from time to time plus 0.50%, plus a margin that ranges from 0.50% to 1.00% per annum, or (B) a eurodollar rate plus a margin that ranges from 1.50% to 2.00% per annum. The interest rate on the extended revolving credit line accrues interest, at Cinemark USA, Inc.'s option at: (A) the base rate equal to the higher of (1) the prime lending rate as set forth on the British Banking Association Telerate page 5, or (2) the federal funds effective rate from time to time plus 0.50%, plus a margin that ranges from 1.75% to 2.0% per annum, or (B) a eurodollar rate plus a margin that ranges from 2.75% to 3.0% per annum. The

margin of the revolving credit line is determined by the consolidated net senior secured leverage ratio as defined in the credit agreement.

The Company incurred debt issue costs of approximately \$8,858 during the year ended December 31, 2010 related to the amendment and extension of its senior secured credit facility. These costs are being amortized over the remaining term of the facility.

As a result of the prepayment, the Company wrote-off approximately \$2,183 in unamortized debt issue costs related to the unextended portion of term loan debt that was prepaid. In addition, the Company determined that a portion of the quarterly interest payments hedged by two of its current interest rate swap agreements under cash flow hedges and the quarterly interest payments related to its previously terminated interest rate swap agreement were probable not to occur and therefore reclassified approximately \$2,760 of its accumulated other comprehensive loss related to these cash flow hedges to earnings, as a component of loss on early retirement of debt. The Company also paid fees of \$2, which are reflected in loss on early retirement of debt for the year ended December 31, 2011.

As of December 31, 2011, there was approximately \$905,887 outstanding under the term loan and no borrowings outstanding under the revolving credit line. The weighted average interest rate on outstanding term loan borrowings under the senior secured credit facility at December 31, 2011 was approximately 5.0% per annum.

Cinemark USA, Inc.'s obligations under the senior secured credit facility are guaranteed by Cinemark Holdings, Inc. and certain of Cinemark USA, Inc.'s domestic subsidiaries and are secured by mortgages on certain fee and leasehold properties and security interests in substantially all of Cinemark USA, Inc.'s and the guarantors' personal property, including, without limitation, pledges of all of Cinemark USA, Inc.'s capital stock, all of the capital stock of certain of Cinemark USA, Inc.'s domestic subsidiaries and 65% of the voting stock of certain of its foreign subsidiaries.

The senior secured credit facility contains usual and customary negative covenants for agreements of this type, including, but not limited to, restrictions on Cinemark USA, Inc.'s ability, and in certain instances, its subsidiaries' and Cinemark Holdings, Inc.'s ability, to consolidate or merge or liquidate, wind up or dissolve; substantially change the nature of its business; sell, transfer or dispose of assets; create or incur indebtedness; create liens; pay dividends, and repurchase stock; and make capital expenditures and investments. If Cinemark USA, Inc. has borrowings outstanding on the revolving credit line, it is required to satisfy a consolidated net senior secured leverage ratio covenant as determined in accordance with the senior secured credit facility.

The dividend restriction contained in the senior secured credit facility prevents the Company and any of its subsidiaries from paying a dividend or otherwise distributing cash to its stockholders unless (1) the Company is not in default, and the distribution would not cause the Company to be in default, under the senior secured credit facility; and (2) the aggregate amount of certain dividends, distributions, investments, redemptions and capital expenditures made since October 5, 2006, including dividends declared by the board of directors, is less than the sum of (a) the aggregate amount of cash and cash equivalents received by Cinemark Holdings, Inc. or Cinemark USA, Inc. as common equity since October 5, 2006, (b) Cinemark USA, Inc.'s consolidated EBITDA minus 1.75 times its consolidated interest expense, each as defined in the senior secured credit facility, since October 1, 2006, (c) \$150 million and (d) certain other amounts specified in the senior secured credit facility, subject to certain adjustments specified in the senior secured credit facility. The dividend restriction is subject to certain exceptions specified in the senior secured credit facility.

The senior secured credit facility also includes customary events of default, including, among other things, payment default, covenant default, breach of representation or warranty, bankruptcy, cross-default, material ERISA events, certain types of change of control, material money judgments and failure to maintain subsidiary

If an event of default occurs, all commitments under the senior secured credit facility may be terminated and all obligations under the senior secured credit facility could be accelerated by the lenders, causing all loans outstanding (including accrued interest and fees payable thereunder) to be declared immediately due and payable.

Senior Notes

On June 29, 2009, Cinemark USA, Inc. issued \$470,000 aggregate principal amount of 8.625% senior notes due 2019 with an original issue discount of \$11,468, resulting in proceeds of approximately \$458,532. The proceeds were primarily used to fund the repurchase of the remaining \$419,403 aggregate principal amount at maturity of Cinemark, Inc.'s 9.75% senior discount notes discussed below. Interest is payable on June 15 and December 15 of each year. The senior notes mature on June 15, 2019. The original issue discount is being amortized on the effective interest method over the term of the senior notes. The Company incurred debt issue costs of \$12,722 in connection with the issuance during the year ended December 31, 2009. As of December 31, 2011, the carrying value of the senior notes was \$460,530.

Cinemark USA, Inc. filed a registration statement with the Securities and Exchange Commission on September 24, 2009 pursuant to which Cinemark USA, Inc. offered to exchange the senior notes for substantially similar registered senior notes. The registration statement became effective and the notes were exchanged on December 17, 2009. The exchanged registered senior notes do not have transfer restrictions.

The senior notes are fully and unconditionally guaranteed on a joint and several senior unsecured basis by certain of Cinemark USA, Inc.'s subsidiaries that guarantee, assume or become liable with respect to any of Cinemark USA, Inc.'s or a guarantor's debt. The senior notes and the guarantees are senior unsecured obligations and rank equally in right of payment with all of Cinemark USA, Inc.'s and its guarantor's existing and future senior unsecured debt and senior in right of payment to all of Cinemark USA, Inc.'s and its guarantor's existing and future subordinated debt. The senior notes and the guarantees are effectively subordinated to all of Cinemark USA, Inc.'s and its guarantor's existing and future secured debt to the extent of the value of the assets securing such debt, including all borrowings under Cinemark USA, Inc.'s senior secured credit facility. The senior notes and the guarantees are structurally subordinated to all existing and future debt and other liabilities of Cinemark USA, Inc.'s subsidiaries that do not guarantee the senior notes.

The indenture to the senior notes contains covenants that limit, among other things, the ability of Cinemark USA, Inc. and certain of its subsidiaries to (1) consummate specified asset sales, (2) make investments or other restricted payments, including paying dividends, making other distributions or repurchasing subordinated debt or equity, (3) incur additional indebtedness and issue preferred stock, (4) enter into transactions with affiliates, (5) enter new lines of business, (6) merge or consolidate with, or sell all or substantially all of its assets to, another person and (7) create liens. Upon a change of control of Cinemark Holdings, Inc. or Cinemark USA, Inc., Cinemark USA, Inc. would be required to make an offer to repurchase the senior notes at a price equal to 101% of the aggregate principal amount outstanding plus accrued and unpaid interest, if any, through the date of repurchase. Certain asset dispositions are considered triggering events that may require Cinemark USA, Inc. to use the proceeds from those asset dispositions to make an offer to purchase the notes at 100% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase if such proceeds are not otherwise used within 365 days as described in the indenture. The indenture governing the senior notes allows Cinemark USA, Inc. to incur additional indebtedness if it satisfies the coverage ratio specified in the indenture, after giving effect to the incurrence of the additional indebtedness, and in certain other circumstances. The required minimum coverage ratio is 2 to 1 and our actual ratio as of December 31, 2011 was 5.1 to 1.

Senior Subordinated Notes

On June 3, 2011, Cinemark USA, Inc. issued \$200,000 aggregate principal amount of 7.375% senior subordinated notes due 2021, at par value. The proceeds, after payment of fees, were primarily used to fund the prepayment of the remaining \$157,235 of the Company's unextended portion of term loan debt under its senior secured credit facility. Interest on the senior subordinated notes is payable on June 15 and December 15 of each year beginning on December 15, 2011. The senior subordinated notes mature on June 15, 2021. The Company incurred debt issue costs of approximately \$4,427 in connection with the issuance.

The senior subordinated notes are fully and unconditionally guaranteed on a joint and several senior subordinated unsecured basis by certain of the Company's subsidiaries that guarantee, assume or become liable with respect to any of the Company's or a guarantor's other debt. The senior subordinated notes and the guarantees are senior subordinated unsecured obligations and rank equally in right of payment with all of the Company's and a guarantor's future senior subordinated indebtedness; are subordinate in right of payment to all of the Company's and a guarantor's existing and future senior indebtedness, whether secured or unsecured, including the Company's obligations under its senior secured credit facility and its 8.625% senior notes; and structurally subordinate to all existing and future indebtedness and other liabilities of the Company's non-guarantor subsidiaries.

The indenture to the senior subordinated notes contains covenants that limit, among other things, the ability of Cinemark USA, Inc. and certain of its subsidiaries to (1) make investments or other restricted payments, including paying dividends, making other distributions or repurchasing subordinated debt or equity, (2) incur additional indebtedness and issue preferred stock, (3) enter into transactions with affiliates, (4) enter new lines of business, (5) merge or consolidate with, or sell all or substantially all of its assets to, another person and (6) create liens. Upon a change of control, as defined in the Indenture, the Company would be required to make an offer to repurchase the senior subordinated notes at a price equal to 101% of the aggregate principal amount outstanding plus accrued and unpaid interest, if any, through the date of repurchase. The indenture governing the senior subordinated notes allows Cinemark USA, Inc. to incur additional indebtedness if we satisfy the coverage ratio specified in the indenture, after giving effect to the incurrence of the additional indebtedness, and in certain other circumstances. The required minimum coverage ratio is 2 to 1, and our actual ratio as of December 31, 2011 was 5.1 to 1.

Prior to June 15, 2016, Cinemark USA, Inc. may redeem all or any part of the senior subordinated notes at its option at 100% of the principal amount plus a make-whole premium plus accrued and unpaid interest on the senior subordinated notes to the date of redemption. After June 15, 2016, Cinemark USA, Inc. may redeem the senior subordinated notes in whole or in part at redemption prices specified in the indenture. In addition, prior to June 15, 2014, Cinemark USA, Inc. may redeem up to 35% of the aggregate principal amount of the senior subordinated notes from the net proceeds of certain equity offerings at the redemption price set forth in the indenture.

Cinemark USA, Inc. and its guarantor subsidiaries filed a registration statement with the Securities and Exchange Commission (the Commission) on July 27, 2011 pursuant to which Cinemark USA, Inc. offered to exchange the senior subordinated notes for substantially similar registered senior subordinated notes. registration statement became effective August 4, 2011, and approximately \$199,500 of the notes were exchanged on September 7, 2011. The registered senior subordinated notes, issued in the exchange, do not have transfer restrictions. Approximately \$500 of the notes were not exchanged as of December 31, 2011.

Senior Discount Notes

On March 31, 2004, Cinemark, Inc. issued approximately \$577,173 aggregate principal amount at maturity of 9.75% senior discount notes due 2014. Interest on the notes accreted until March 15, 2009 up to their aggregate principal amount. Subsequently, cash interest accrued and was payable semi-annually in arrears on March 15 and September 15, commencing on September 15, 2009.

Prior to 2009, Cinemark, Inc. repurchased on the open market \$157,770 aggregate principal amount at maturity of its 9.75% senior discount notes for approximately \$138,949 including accreted interest of \$37,333 and net cash premiums of \$2,843. Cinemark, Inc. funded these repurchases with proceeds from the Company's initial public offering and available cash from operations.

On June 15, 2009, Cinemark, Inc. commenced a cash tender offer for any and all of its 9.75% senior discount notes due 2014, of which \$419,403 aggregate principal amount at maturity remained outstanding. In connection with the tender offer, Cinemark, Inc. solicited consents to adopt proposed amendments to the indenture to eliminate substantially all restrictive covenants and certain events of default provisions. On June 29, 2009, approximately \$402,459 aggregate principal amount at maturity of the 9.75% senior discount notes were tendered and repurchased by the Company for approximately \$433,415, including accrued interest of \$11,336 and tender premiums paid of \$19,620. The Company funded the repurchase with the proceeds from the issuance of the Cinemark USA, Inc. senior notes discussed above. On August 3, 2009, Cinemark, Inc. delivered to the Bank of New York Trust Company N.A., as trustee, a notice to redeem the \$16,944 aggregate principal amount at maturity of the Company's 9.75% senior discount notes remaining outstanding. The notice specified September 8, 2009 as the redemption date, at which time the Company paid approximately \$18,564, consisting of a redemption price of 104.875% of the face amount of the discount notes remaining outstanding plus accrued and unpaid interest to, but not including, the redemption date. The Company funded the redemption with proceeds from the issuance of the Cinemark USA, Inc. senior notes discussed above. The Company recorded a loss on early retirement of debt of approximately \$27,878 during the year ended December 31, 2009, which included tender and call premiums paid, other fees and the write-off of unamortized debt issue costs.

Former Senior Subordinated Notes

On February 11, 2003, Cinemark USA, Inc. issued \$150,000 aggregate principal amount of 9% senior subordinated notes due 2013 and on May 7, 2003, Cinemark USA, Inc. issued an additional \$210,000 aggregate principal amount of 9% senior subordinated notes due 2013, collectively referred to as the 9% senior subordinated notes. Interest was payable on February 1 and August 1 of each year.

Prior to 2009, Cinemark USA, Inc. repurchased a total of \$359,819 aggregate principal amount of its 9% senior subordinated notes. The transactions were funded by Cinemark USA, Inc. with the proceeds from its sale of a portion of its investment in NCM during 2007 and available cash from its operations. Cinemark USA, Inc. also executed a supplemental indenture removing substantially all of the restrictive covenants and certain events of default.

On October 14, 2010, Cinemark USA, Inc. redeemed the \$181 remaining outstanding 9% senior subordinated notes. The Company recorded a loss on early retirement of debt of approximately \$3 during the year ended December 31, 2010, consisting of premiums paid.

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data*****Fair Value of Long Term Debt***

The Company estimates the fair value of its long-term debt primarily using quoted market prices, which fall under Level 2 of the U.S. GAAP fair value hierarchy as defined by FASB ASC Topic 820-10-35. The carrying value of the Company's long term debt was \$1,572,221 and \$1,532,441 as of December 31, 2011 and 2010, respectively. The fair value of the Company's long term debt was \$1,622,286 and \$1,581,963 as of December 31, 2011 and 2010, respectively.

Covenant Compliance and Debt Maturity

As of December 31, 2011, the Company believes it was in full compliance with all agreements, including related covenants, governing its outstanding debt. The Company's long-term debt at December 31, 2011 matures as follows:

2012	\$ 12,145
2013	12,145
2014	9,244
2015	9,244
2016	868,913

⁽¹⁾ Reflects the aggregate principal amount at maturity of the 8.625% senior notes before the original issue discount of \$9,470.

14. INTEREST RATE SWAP AGREEMENTS

The Company is currently a party to five interest rate swap agreements that qualify for cash flow hedge accounting. No premium or discount was incurred upon the Company entering into any of its interest rate swap agreements because the pay rates and receive rates on the interest rate swap agreements represented prevailing rates for each counterparty at the time each of the interest rate swap agreements was consummated. The fair values of the interest rate swaps are recorded on the Company's consolidated balance sheet as an asset or liability with the effective portion of the interest rate swaps' gains or losses reported as a component of accumulated other comprehensive income (loss) and the ineffective portion reported in earnings. The changes in fair values are reclassified from accumulated other comprehensive income (loss) into earnings in the same period that the hedged items affect earnings. For the years ended December 31, 2009, 2010 and 2011, the Company reclassified \$10,395, \$11,771 and \$15,929, respectively, from accumulated other comprehensive income (loss) into earnings.

The valuation technique used to determine fair value is the income approach and under this approach, the Company uses projected future interest rates as provided by counterparties to the interest rate swap agreements and the fixed rates that the Company is obligated to pay under these agreements. Therefore, the Company's measurements use significant unobservable inputs, which fall in Level 3 of the U.S. GAAP hierarchy as defined by FASB ASC Topic 820-10-35.

(2) Included in other long-term liabilities on the consolidated balance sheet as of December 31, 2011.

(3) An additional \$18,368 of this original \$125,000 swap is no longer designated as a hedge as a result of the prepayment of the unextended portion of the Company's term loan debt.

(4) An additional \$11,017 of this original \$75,000 swap is no longer designated as a hedge as a result of the prepayment of the unextended portion of the Company's term loan debt.

During June 2011, the Company prepaid the remaining unextended portion of its term loan debt under its senior secured credit facility (see Note 13). As a result, the Company determined that a portion of the quarterly interest payments hedged by two of its current interest rate swap agreements and the quarterly interest payments related to its previously terminated interest rate swap agreement were probable not to occur and therefore reclassified approximately \$2,760 of its accumulated other comprehensive loss related to these cash flow hedges to earnings, as a component of loss on early retirement of debt, during the year ended December 31, 2011.

The Company was previously a party to an interest rate swap agreement that was effective during 2007 with a counterparty that filed for bankruptcy during September 2008 and whose credit rating was downgraded as a result. Prior to the counterparty's credit rating downgrade, the change in fair value of the interest rate swap was recorded as a component of accumulated other comprehensive income (loss). Subsequent to the counterparty's credit rating downgrade, the change in fair value of the interest rate swap was recorded in earnings as a component of interest expense. The Company terminated the interest rate swap agreement during October 2008. The Company determined that the forecasted transactions hedged by this interest rate swap are still probable to occur, thus the total amount previously reported in accumulated other comprehensive income (loss) related to this interest rate swap agreement of \$18,147 is being amortized on a straight-line basis to interest expense over the period during which the forecasted transactions are expected to occur, which is September 15, 2008 through August 13, 2012. The Company amortized approximately \$4,633, \$4,633 and \$4,236 to interest expense during the years ended December 31, 2009, 2010 and 2011, respectively. The Company will amortize approximately \$3,953 to interest expense over the next twelve months.

See Note 15 for additional information about the Company's fair value measurements related to its interest rate swap agreements.

The Company determines fair value measurements in accordance with FASB ASC Topic 820, which establishes a fair value hierarchy under which an asset or liability is categorized based on the lowest level of input significant to its fair value measurement. The levels of input defined by FASB ASC Topic 820 are as follows:

- Level 1 quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date;
- Level 2 other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 unobservable and should be used to measure fair value to the extent that observable inputs are not available.

Below is a summary of assets and liabilities measured at fair value on a recurring basis by the Company under FASB ASC Topic 820 as of December 31, 2011:

Description	Carrying Value	Fair Value		
		Level 1	Level 2	Level 3
Interest rate swap liabilities current (see Note 14)	\$ (9,979)	\$	\$	\$ (9,979)
Interest rate swap liabilities long term (see Note 14)	\$ (6,597)	\$	\$	\$ (6,597)
Investment in RealD (see Note 8)	\$ 9,709	\$ 9,709	\$	\$

Below is a summary of assets and liabilities measured at fair value on a recurring basis by the Company under FASB ASC Topic 820 as of December 31, 2010:

There were no changes in valuation techniques during the period. The fair value measurement for the Company's investment in RealD transferred from Level 2 to Level 1 during the year ended December 31, 2011. Previous fair value estimates for the investment were based on RealD's quoted stock price, discounted to reflect

the impact of a lock-up period to which the Company was subject. The lock-up period expired during January 2011; therefore, the fair value estimates for the investment subsequent to January 2011 were based on RealD's stock price with no adjustments. See Note 8 for more information on the Company's investment in RealD. There were no transfers in or out of Level 3 during the year ended December 31, 2011.

16. FOREIGN CURRENCY TRANSLATION

The accumulated other comprehensive income (loss) account in stockholders' equity of \$28,181 and \$(23,682) at December 31, 2010 and December 31, 2011, respectively, includes the cumulative foreign currency gains (losses) of \$34,248 and \$(11,325), respectively, from translating the financial statements of the Company's international subsidiaries, the change in fair values of the Company's interest rate swap agreements that are designated as hedges and the change in fair value of the Company's available-for-sale securities.

In 2010 and 2011, all foreign countries where the Company has operations were deemed non-highly inflationary and the local currency is the same as the functional currency in all of the locations. Thus, any fluctuation in the currency results in a cumulative foreign currency translation adjustment recorded to accumulated other comprehensive income (loss).

On December 31, 2011, the exchange rate for the Brazilian real was 1.87 reals to the U.S. dollar (the exchange rate was 1.67 reals to the U.S. dollar at December 31, 2010). As a result, the effect of translating the December 31, 2011 Brazilian financial statements into U.S. dollars is reflected as a foreign currency translation adjustment to the accumulated other comprehensive income (loss) account as a decrease in stockholders' equity of \$28,000. At December 31, 2011, the total assets of the Company's Brazilian subsidiaries were U.S. \$327,679.

On December 31, 2011, the exchange rate for the Mexican peso was 14.00 pesos to the U.S. dollar (the exchange rate was 12.39 pesos to the U.S. dollar at December 31, 2010). As a result, the effect of translating the December 31, 2011 Mexican financial statements into U.S. dollars is reflected as a foreign currency translation adjustment to the accumulated other comprehensive income (loss) account as a decrease in stockholders' equity of \$11,818. At December 31, 2011, the total assets of the Company's Mexican subsidiaries were U.S. \$121,935.

On December 31, 2011, the exchange rate for the Argentinean peso was 4.31 pesos to the U.S. dollar (the exchange rate was 3.98 pesos to the U.S. dollar at December 31, 2010). As a result, the effect of translating the December 31, 2011 Argentinean financial statements into U.S. dollars is reflected as a foreign currency translation adjustment to the accumulated other comprehensive income (loss) account as a decrease in stockholders' equity of \$4,196. At December 31, 2011, the total assets of the Company's Argentinean subsidiaries were U.S. \$128,524.

On December 31, 2011, the exchange rate for the Chilean peso was 520.70 pesos to the U.S. dollar (the exchange rate was 473.20 pesos to the U.S. dollar at December 31, 2010). As a result, the effect of translating the December 31, 2011 Chilean financial statements into U.S. dollars is reflected as a foreign currency translation adjustment to the accumulated other comprehensive income (loss) account as a decrease in stockholders' equity of \$3,324. At December 31, 2011, the total assets of the Company's Chilean subsidiaries were U.S. \$40,084.

The effect of translating the December 31, 2011 financial statements of the Company's other international subsidiaries, with local currencies other than the U.S. dollar, is reflected as a foreign currency translation adjustment to the accumulated other comprehensive income (loss) account as an increase in stockholders' equity of \$1,280.

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data**

During May 2011, the Company's ownership in its Chilean subsidiary increased from 97.4% to 100% as a result of the Company's purchase of the noncontrolling interests' shares of Cinemark Chile. As part of this transaction, the Company recorded the amount of accumulated other comprehensive loss previously allocated to the noncontrolling interest of \$485, related to the translation of the Chilean financial statements into U.S. dollars, as an increase to accumulated other comprehensive income (loss) with an offsetting decrease to additional paid-in-capital. See Note 9.

Common Stock Common stockholders are entitled to vote on all matters submitted to a vote of the Company's stockholders. Subject to the rights of holders of any then outstanding shares of the Company's preferred stock, the Company's common stockholders are entitled to any dividends that may be declared by the board of directors. The shares of the Company's common stock are not subject to any redemption provisions. The Company has no issued and outstanding shares of preferred stock.

The Company's ability to pay dividends is effectively limited by its status as a holding company and the terms of its indentures and its subsidiary's senior secured credit facility, which also significantly restrict the ability of certain of the Company's subsidiaries to pay dividends directly or indirectly to the Company. Furthermore, certain of the Company's foreign subsidiaries currently have a deficit in retained earnings which prevents the Company from declaring and paying dividends from those subsidiaries.

During April 2010, the Company's partners in Colombia (the Colombian Partners) exercised an option available to them under an Exchange Option Agreement dated April 9, 2007 between the Company and the Colombian Partners. Under this option, which was contingent upon completion of an initial public offering of common stock by the Company, the Colombian Partners were entitled to exchange their shares in Cinemark Colombia S.A. for shares of the Company's common stock. The number of shares to be exchanged was determined based on the Company's equity value and the equity value of the Colombian Partners' interest in Cinemark Colombia S.A., both of which are defined in the Exchange Option Agreement. As a result of this exchange, on June 14, 2010, the Company issued 1,112,723 shares of its common stock to the Colombian Partners. See Note 9.

Treasury Stock Treasury stock represents shares of common stock repurchased by the Company and not yet retired. The Company has applied the cost method in recording its treasury shares.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In thousands, except share and per share data

During the year ended December 31, 2011, the Company granted 424,436 shares of restricted stock to directors and employees of the Company. The fair values of the restricted stock granted were determined based on the market values of the Company's common stock on the dates of grant, which ranged from \$19.35 to \$20.71 per share. The Company assumed forfeiture rates ranging from 0% to 5% for the restricted stock awards. The restricted stock granted to directors vests over one year based on continued service. The restricted stock granted to employees vests over four years based on continued service. The recipients of restricted stock are entitled to receive dividends and to vote their respective shares, however the sale and transfer of the restricted shares is prohibited during the restriction period.

The Company recorded total compensation expense of \$2,393, \$4,928 and \$6,591 related to restricted stock awards during the years ended December 31, 2009, 2010 and 2011, respectively. As of December 31, 2011, the remaining unrecognized compensation expense related to these restricted stock awards was approximately \$13,688 and the weighted average period over which this remaining compensation expense will be recognized is approximately two years. Upon vesting, the Company receives an income tax deduction. The total fair value of shares vested during the years ended December 31, 2009, 2010 and 2011 was \$762, \$3,272 and \$5,658, respectively. The Company recognized tax benefits of approximately \$287, \$1,087 and \$2,188 related to shares that vested during the years ended December 2009, 2010 and 2011, respectively. The recipients of restricted stock are entitled to receive dividends and to vote their respective shares, however the sale and transfer of the restricted shares is prohibited during the restriction period.

Restricted Stock Units During the years ended December 31, 2009, 2010 and 2011, the Company granted restricted stock units representing 303,168, 396,429 and 153,727 hypothetical shares of common stock, respectively, under the Restated Incentive Plan. The restricted stock units vest based on a combination of financial performance factors and continued service. The financial performance factors are based on an implied equity value concept that determines an internal rate of return (IRR) during a three fiscal year period based on a formula utilizing a multiple of Adjusted EBITDA subject to certain specified adjustments (as defined in the restricted stock unit award agreement). The financial performance factors for the restricted stock units have a threshold, target and maximum level of payment opportunity. If the IRR for the three year period is at least 8.5%, which is the threshold, one-third of the restricted stock units vest. If the IRR for the three year period is at least 10.5%, which is the target, two-thirds of the restricted stock units vest. If the IRR for the three year period is at least 12.5%, which is the maximum, 100% of the restricted stock units vest. All payouts of restricted stock units that vest will be subject to an additional one year service requirement and will be paid in the form of common stock if the participant continues to provide services through the fourth anniversary of the grant date. At the time of each of the 2009, 2010 and 2011 restricted stock unit grants, the Company was not able to determine which IRR level would be reached for the respective three year performance period, therefore the Company assumed the mid-point IRR level for these grants in determining the amount of compensation expense to record for such grants. The fair values of the restricted stock unit awards granted were determined based on the market values of the Company's common stock on the dates of grant, which ranged from \$19.35 to \$20.71 per share. The Company assumed forfeiture rates ranging from 0% to 5% for the restricted stock unit awards. Restricted stock unit award participants are eligible to receive dividend equivalent payments if and at the time the restricted stock unit awards vest.

Table of Contents**CINEMARK HOLDINGS, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****In thousands, except share and per share data**

Below is a table summarizing the potential number of shares that could vest under restricted stock unit awards granted during the years ended December 31, 2009, 2010 and 2011 at each of the three levels of financial performance (excluding forfeitures):

	Granted During the Year Ended December 31,					
	2009		2010		2011	
	Number of		Number of		Number of	
	Shares Vesting	Value at Grant	Shares Vesting	Value at Grant	Shares Vesting	Value at Grant
at IRR of at least 8.5%	101,051	\$ 963	132,144	\$ 2,423	51,239	\$ 991
at IRR of at least 10.5%	202,117	\$ 1,927	264,288	\$ 4,847	102,488	\$ 1,983
at IRR of at least 12.5%	303,168	\$ 2,891	396,429	\$ 7,271	153,727	\$ 2,975

During the year ended December 31, 2010, the Compensation Committee of the Company's board of directors approved a modification of restricted stock unit awards granted to employees during 2008. The Compensation Committee also approved the cancellation and replacement of restricted stock unit awards granted to the Company's top five executive officers during 2008. Both the modification and the cancellation and replacement were accounted for as modifications of share based awards. As a result of these modifications, the Company recorded incremental compensation expense of approximately \$435 during the year ended December 31, 2010, which represented the difference between the grant date fair value and the modification date fair value of these awards for the portion of the service period that had been satisfied at the time of the modification. The service period for the modified awards did not change.

During the year ended December 31, 2010, based upon additional information, the Company determined that the 12.5% IRR level would be reached for the 2008 grant and recorded incremental compensation expense of approximately \$823 during the year ended December 31, 2010. During the year ended December 31, 2010, the Company also determined that the 12.5% IRR level was expected to be reached for the 2009 grant and recorded incremental compensation expense of \$377 during the year ended December 31, 2010.

As of December 31, 2011, no restricted stock unit awards had vested. There were no forfeitures of restricted stock unit awards during the year ended December 31, 2011. The Company recorded total compensation expense of \$759, \$3,424, including the incremental compensation expense discussed above, and \$3,101 related to these restricted stock unit awards during the years ended December 31, 2009, 2010 and 2011, respectively. As of December 31, 2011, the Company had restricted stock units outstanding that represented a total of 1,037,770 hypothetical shares of common stock, net of actual cumulative forfeitures of 19,918 units, assuming the maximum IRR of at least 12.5% is achieved for all of the grants. As of December 31, 2011, the remaining unrecognized compensation expense related to the outstanding restricted stock unit awards was \$5,213, which assumes the high-point IRR level has been achieved for the 2008 and 2009 grants and the mid-point IRR level will be achieved for the 2010 and 2011 grants. The weighted average period over which this remaining compensation expense will be recognized is approximately two years.

The Company reinvests the undistributed earnings of its foreign subsidiaries, with the exception of its subsidiary in Ecuador. Accordingly, deferred U.S. federal and state income taxes are provided only on the undistributed earnings of the Company's Ecuador subsidiary. As of December 31, 2011, the cumulative amount of undistributed earnings of the foreign subsidiaries on which the Company has not recognized income taxes was approximately \$293,000. Determination of the amount of any unrecognized deferred income tax liability on this temporary difference is not practicable because of the complexities of the hypothetical calculation.

The following is a reconciliation of the total amounts of unrecognized tax benefits excluding interest and penalties, for the years ended December 31, 2009, 2010 and 2011:

	Year Ended December 31,		
	2009	2010	2011
Balance at January 1,	\$ 13,976	\$ 23,857	\$ 15,197

Foreign currency translation adjustments	384	177	(319)
Balance at December 31,	\$ 23,857	\$ 15,197	\$ 18,660

The Company had \$19,788 and \$22,411 of gross unrecognized tax benefits, including interest and penalties, as of December 31, 2010 and December 31, 2011, respectively. Of these amounts, \$14,339 and \$16,274 represent the amount of unrecognized tax benefits that if recognized would impact the effective income tax rate for the years ended December 31, 2010 and 2011, respectively. The Company had \$4,591 and \$3,751 accrued for interest and penalties as of December 31, 2010 and 2011, respectively.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and multiple state and foreign jurisdictions, and the Company is routinely under audit by many different tax authorities. The Company believes that its accrual for tax liabilities is adequate for all open audit years based on its assessment of many factors including past experience and interpretations of tax law. This assessment relies on estimates and assumptions and may involve a series of complex judgments about future events. The Company is no longer subject to income tax audits from the Internal Revenue Service for years before 2007. The Company is no longer subject to state income tax examinations by tax authorities in its major state jurisdictions for years before 2007. Certain state returns were amended as a result of the Internal Revenue Service examination closures for 2002 through 2006, and the statutes remain open for those amendments. The Company is no longer subject to non-U.S. income tax examinations by tax authorities in its major non-U.S. tax jurisdictions for years before 2004.

The Company is currently under examination by the Internal Revenue Service for the 2007, 2008 and 2009 tax years. We do not believe that these audits will be completed within the next twelve months.

Leases The Company conducts a significant part of its theatre operations in leased properties under noncancelable operating and capital leases with terms generally ranging from 10 to 25 years. In addition to the minimum annual lease payments, some of the leases provide for contingent rentals based on operating results of the theatre and most require the payment of taxes, insurance and other costs applicable to the property. The Company can renew, at its option, a substantial portion of the leases at defined or then market rental rates for various periods. Some leases also provide for escalating rent payments throughout the lease term. A liability for deferred lease expenses of \$30,454 and \$34,466 at December 31, 2010 and 2011, respectively, has been provided to account for lease expenses on a straight-line basis, where lease payments are not made on such a basis. Rent expense was as follows:

	Year Ended December 31,		
	2009	2010	2011
Fixed rent expense	\$ 181,075	\$ 186,893	\$ 200,006
Contingent rent expense	57,704	68,824	76,272
Total facility lease expense	\$ 238,779	\$ 255,717	\$ 276,278

Future minimum lease payments under noncancelable operating and capital leases that have initial or remaining terms in excess of one year at December 31, 2011 are due as follows:

	Operating Leases	Capital Leases
2012	\$ 219,650	\$ 23,264
2013	220,027	23,119

Employment Agreements The Company has employment agreements with Lee Roy Mitchell, Alan W. Stock, Timothy Warner, Robert Copple, Michael Cavalier and Rob Carmony. These employment agreements have an initial term of three years subject to an automatic extension for a one-year period, unless the employment agreements are terminated. Effective May 25, 2009, the Company entered into an employment agreement with Steve Bunnell that has an initial term of two years subject to an extension for a one year period, unless the agreement is terminated. Effective February 15, 2010, the Company entered into an employment agreement with Valmir Fernandes, that has an initial term of

Edgar Filing: Cinemark Holdings, Inc. - Form 10-K

three years. The base salaries stipulated in the employment agreements are subject to review during the term of the agreements for increase (but not decrease) each year by the Company's Compensation Committee. Management personnel subject to these employment agreements are eligible to receive annual cash incentive bonuses upon the Company meeting certain performance targets established by its Compensation Committee. On February 15, 2012, Mr. Stock retired from the Company and as a result, his employment agreement was terminated. See Note 28.

Retirement Savings Plan The Company has a 401(k) retirement savings plan for the benefit of all employees and makes contributions as determined annually by the board of directors. Contribution payments of \$2,081 and \$2,311 were made in 2010 (for plan year 2009) and 2011 (for plan year 2010), respectively. A liability of approximately \$2,443 has been recorded at December 31, 2011 for contribution payments to be made in 2012 (for plan year 2011).

Litigation and Litigation Settlements From time to time, the Company is involved in other various legal proceedings arising from the ordinary course of its business operations, such as personal injury claims, employment matters, landlord-tenant disputes, patent claims and contractual disputes, some of which are covered by insurance or by indemnification from vendors. The Company believes its potential liability with respect to these types of proceedings currently pending is not material, individually or in the aggregate, to the Company's financial position, results of operations and cash flows.

23. SEGMENTS

The Company manages its international market and its U.S. market as separate reportable operating segments. The international segment consists of operations in Brazil, Mexico, Argentina, Chile, Colombia, Peru, Ecuador, Honduras, El Salvador, Nicaragua, Costa Rica, Panama and Guatemala. The U.S. segment includes U.S. and Canada operations. (Note that the Company's only Canadian theatre was sold during November 2010). Each segment's revenue is derived from admissions and concession sales and other ancillary revenues, primarily screen advertising. The measure of segment profit and loss the Company uses to evaluate performance and allocate its resources is Adjusted EBITDA, as defined in the reconciliation table below. The Company does not report asset information by segment because that information is not used to evaluate the performance or allocate resources between segments.

24. RELATED PARTY TRANSACTIONS

Prior to March 2010, the Company leased one theatre from Plitt Plaza Joint Venture (Plitt Plaza) on a month-to-month basis. Plitt Plaza is indirectly owned by Lee Roy Mitchell, the Company's Chairman of the Board, who directly and indirectly owns approximately 9% of the Company's issued and outstanding shares of common stock. The Company closed this theatre during March 2010. The Company recorded \$118 and \$30 of facility lease and other operating expenses payable to Plitt Plaza joint venture during the years ended December 31, 2009 and 2010, respectively. During the year ended December 31, 2010, the Company recorded approximately \$111 related to the termination of the lease, which is reflected in (gain) loss on sale of assets and other on the consolidated statement of income.

The Company manages theatres for Laredo Theatre, Ltd. (Laredo). The Company is the sole general partner and owns 75% of the limited partnership interests of Laredo. Lone Star Theatres, Inc. owns the remaining 25% of the limited partnership interests in Laredo and is 100% owned by Mr. David Roberts, Lee Roy Mitchell's son-in-law. Under the agreement, management fees are paid by Laredo to the Company at a rate of 5% of annual theatre revenues up to \$50,000 and 3% of annual theatre revenues in excess of \$50,000. The Company recorded \$102, \$105 and \$476 of management fee revenues during the years ended December 31, 2009, 2010 and 2011, respectively. All such amounts are included in the Company's consolidated financial statements with the intercompany amounts eliminated in consolidation.

The Company has an Aircraft Time Sharing Agreement with Copper Beech Capital, LLC to use, on occasion, a private aircraft owned by Copper Beech Capital, LLC. Copper Beech Capital, LLC is owned by Mr. Mitchell and his wife, Tandy Mitchell. The private aircraft is used by Mr. Mitchell and other executives who accompany Mr. Mitchell to business meetings for the Company. The Company reimburses Copper Beech Capital, LLC the actual costs of fuel usage and the expenses of the pilots, landing fees, storage fees and similar expenses incurred during the trip. For the years ended December 31, 2009, 2010 and 2011, the aggregate amounts paid to Copper Beech Capital, LLC for the use of the aircraft was approximately \$64, \$73 and \$86, respectively.

The Company leases 20 theatres and one parking facility from Syufy Enterprises, LP (Syufy) or affiliates of Syufy. Raymond Syufy is one of the Company's directors and is an officer of the general partner of Syufy. Certain of these leases have fixed minimum annual rent and others have just percentage rent with no minimum annual rent. For the years ended December 31, 2009, 2010 and 2011, the Company paid total rent of approximately \$18,614, \$18,058 and \$18,881, respectively, to Syufy.
