Financial Statements for the

Three Months Ended March 31, 2012 and 2011 and

Independent Accountants' Review Report

INDEPENDENT ACCOUNTANTS REVIEW REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have reviewed the accompanying balance sheets of Taiwan Semiconductor Manufacturing Company Limited as of March 31, 2012 and 2011, and the related statements of income and cash flows for the three months then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our reviews.

We conducted our reviews in accordance with Statement on Auditing Standards No. 36, Review of Financial Statements, issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China.

We have also reviewed, in accordance with Statement on Auditing Standards No. 36, the consolidated financial statements of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of and for the three months ended March 31, 2012 and 2011 on which we have issued an unqualified review report.

April 24, 2012

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the accountants' review report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language accountants' review report and financial statements shall prevail.

Taiwan Semiconductor Manufacturing Company Limited

NOTES TO FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2012 AND 2011

(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

(Reviewed, Not Audited)

1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (the Company or TSMC), a Republic of China (R.O.C.) corporation, was incorporated on February 21, 1987. The Company is a dedicated foundry in the semiconductor industry which engages mainly in the manufacturing, selling, packaging, testing and computer-aided design of integrated circuits and other semiconductor devices and the manufacturing of masks. Beginning in 2010, the Company also engages in the researching, developing, designing, manufacturing and selling of solid state lighting devices and related applications products and systems, and renewable energy and efficiency related technologies and products. In August 2011, the Company transferred its solid state lighting and solar businesses into its wholly-owned, newly incorporated subsidiaries, TSMC Solid State Lighting Ltd. (TSMC SSL) and TSMC Solar Ltd. (TSMC Solar), respectively.

On September 5, 1994, its shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

As of March 31, 2012 and 2011, the Company had 30,053 and 30,283 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, Business Accounting Law, Guidelines Governing Business Accounting, and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

Significant accounting policies are summarized as follows:

Foreign-currency Transactions

Foreign-currency transactions other than derivative contracts are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

Use of Estimates

The preparation of financial statements in conformity with the aforementioned guidelines, law and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management's estimates.

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Repurchase agreements collateralized by corporate bonds and government bonds acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value due to their short term nature.

Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

Available-for-sale Financial Assets

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

The fair value of overseas publicly traded stock is determined using the closing prices at the end of the period. The fair value of debt securities is determined using the average of bid and asked prices at the end of the period.

Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Debt securities for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Financial Assets Carried at Cost

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares.

Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectability of receivables. The Company assesses the collectability of receivables by performing the account aging analysis and examining current trends in the credit quality of its customers.

The Company's provision was originally set at 1% of the amount of outstanding receivables. On January 1, 2011, the Company adopted the third revision of Statement of Financial Accounting Standards (SFAS) No. 34, Financial Instruments: Recognition and Measurement (SFAS No. 34). One of the main revisions is that the impairment of receivables originated by the Company is subject to the provisions of SFAS No. 34. Accordingly, the Company evaluates for indication of impairment of accounts receivable based on an individual and collective basis at the end of each reporting period. When objective evidence indicates that the estimated future cash flow of accounts receivable decreases as a result of one or more events that occurred after the initial recognition of the accounts receivable, such accounts receivable are deemed to be impaired.

Because of the Company's short average collection period, the amount of the impairment loss recognized is the difference between the carrying amount of accounts receivable and estimated future cash flows without considering the discounting effect. Changes in the carrying amount of the allowance account are recognized as bad debt expense which is recorded in the operating expenses - general and administrative. When accounts receivable are considered uncollectable, the amount is written off against the allowance account.

Inventories

Inventories are recorded at standard cost and adjusted to approximate weighted-average cost on the balance sheet date.

Inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made on an item-by-item basis, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and necessary selling costs.

Investments Accounted for Using Equity Method

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company's share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. The cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee's shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company's share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus. Cash dividends received from an investee shall reduce the carrying amount of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income.

Gains or losses on sales from the Company to equity method investees are deferred in proportion to the Company's ownership percentages in the investees until such gains or losses are realized through transactions with third parties. The entire amount of the gains or losses on sales to investees over which the Company has a controlling interest is deferred until such gains or losses are realized through subsequent sales of the related products to third parties. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties. Gains or losses on sales between equity method investees over each of which the Company has control are deferred in proportion to the Company's weighted-average ownership percentage in the investee which records gains or losses. In transactions between equity method investees over either or both of which the Company has no control, gains or losses on sales are deferred in proportion to the multiplication of the Company's weighted-average ownership percentages in the investees. Such gains or losses are deferred until they are realized through transactions with third parties.

If an investee's functional currency is a foreign currency, differences will result from the translation of the investee's financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders' equity.

Property, Plant and Equipment, Assets Leased to Others and Idle Assets

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight-line method over the following estimated service lives: buildings - 10 to 20 years; machinery and equipment - 5 years; and office equipment - 3 to 5 years.

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

When property, plant and equipment are determined to be idle or useless, they are transferred to idle assets at the lower of the net realizable value or carrying amount. Depreciation on the idle assets is provided continuously, and the idle assets are tested for impairment on a periodical basis.

Intangible Assets

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Goodwill is no longer amortized and instead is tested for impairment annually, or more frequently if events or changes in circumstances suggest that the carrying amount may not be recoverable. If an event occurs or circumstances change which indicate that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Deferred charges consist of technology license fees, software and system design costs and patent and others. The amounts are amortized over the following periods: Technology license fees - the estimated life of the technology or the term of the technology transfer contract; software and system design costs - 3 years; patent and others - the economic life or contract period. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of amortization, as if no impairment loss had been recognized.

Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expense when incurred.

Pension Costs

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

Income Tax

The Company applies an inter-period allocation for its income tax whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery and equipment, research and development expenditures and personnel training expenditures are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current period's tax provision.

Income tax on unappropriated earnings at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated.

Stock-based Compensation

Employee stock options that were granted or modified in the period from January 1, 2004 to December 31, 2007 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period. Employee stock option plans that were granted or modified after December 31, 2007 are accounted for using fair value method in accordance with SFAS No. 39, Accounting for Share-based Payment. The Company did not grant or modify any employee stock options since January 1, 2008.

Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer, price is fixed or determinable, and collectability is reasonably assured. Provisions for estimated sales returns and other allowances are recorded in the period the related revenue is recognized, based on historical experience, management's judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectable within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Spin-off

In accordance with the Company's organization realignment, the Company contributed net assets, including cash, to the newly formed subsidiaries in exchange for all of the shares of those subsidiaries. The net assets transferred are reflected at their net book value without recognizing any gain or loss.

3. ACCOUNTING CHANGES

On January 1, 2011, the Company prospectively adopted the newly revised SFAS No. 34, Financial Instruments: Recognition and Measurement. The main revisions include (1) finance lease receivables are now covered by SFAS No. 34; (2) the scope of the applicability of SFAS No. 34 to insurance contracts is amended; (3) loans and receivables originated by the Company are now covered by SFAS No. 34; (4) additional guidelines on impairment testing of financial assets carried at amortized cost when the debtor has financial difficulties and the terms of obligations have been modified; and (5) accounting treatment by a debtor for modifications in the terms of obligations. This accounting change did not have a significant effect on the Company's financial statements as of and for the three months ended March 31, 2011.

On January 1, 2011, the Company adopted the newly issued SFAS No. 41, Operating Segments. The statement requires identification and disclosure of operating segments on the basis of how the Company's chief operating decision maker regularly reviews information in order to allocate resources and assess performance. This statement supersedes SFAS No. 20, Segment Reporting and it only changes the disclosure of segment reporting due to the adoption. The Company has conformed to the disclosure requirement and provided the operating segments disclosure in the consolidated financial statements.

4. CASH AND CASH EQUIVALENTS

	2012	March 31 2011
Cash and deposits in banks	\$ 109,392,852	\$ 91,709,652
Repurchase agreements collateralized by corporate bonds	1,913,846	
Repurchase agreements collateralized by government bonds	837,115	1,627,216
	\$ 112,143,813	\$ 93,336,868

5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	2012	March 31 2011
<u>Trading financial assets</u>		
Forward exchange contracts	\$	\$ 11,605
<u>Trading financial liabilities</u>		
Forward exchange contracts	\$ 47,930	\$ 15,028

The Company entered into derivative contracts during the three months ended March 31, 2012 and 2011 to manage exposures due to fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting. Therefore, the Company did not apply hedge accounting treatment for its derivative contracts.

Outstanding forward exchange contracts consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
<u>March 31, 2012</u>		
Sell NT\$/Buy JPY	April 2012	NT\$847,282/JPY2,300,000
Sell US\$/Buy JPY	April 2012	US\$39,743/JPY3,190,365
<u>March 31, 2011</u>		
Sell NT\$/Buy JPY	April 2011	NT\$1,173,256/JPY3,268,300
Sell NT\$/Buy EUR	April 2011	NT\$83,800/EUR2,000
Sell EUR/Buy NT\$	April 2011	EUR59,550/NT\$2,494,130

Net losses on derivative financial instruments for the three months ended March 31, 2012 and 2011 were NT\$221,272 thousand and NT\$256,988 thousand, respectively.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	March 31	
	2012	2011
Overseas publicly traded stock	\$ 2,618,029	\$ 4,069,307
Corporate bonds		1,036,044
	2,618,029	5,105,351
Current portion	(2,618,029)	(4,069,307)
	\$	\$ 1,036,044

7. HELD-TO-MATURITY FINANCIAL ASSETS

	March 31	
	2012	2011
Corporate bonds	\$ 1,402,856	\$ 6,198,107
Current portion	(700,849)	(4,792,967)
	\$ 702,007	\$ 1,405,140

8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

As of March 31, 2012 and 2011, the balance of the allowance for doubtful receivables was NT\$485,120 thousand and NT\$488,000 thousand, respectively. There was no additions or deductions of allowances for doubtful receivables for the three months ended March 31, 2012 and 2011.

Movements of the allowance for sales returns and others were as follows:

	Three Months Ended March 31	
	2012	2011
Balance, beginning of period	\$ 4,887,879	\$ 7,341,444
Provision	1,325,101	1,391,829
Write-off	(973,775)	(1,961,618)
Balance, end of period	\$ 5,239,205	\$ 6,771,655

9. INVENTORIES

	March 31	
	2012	2011
Finished goods	\$ 4,242,403	\$ 6,988,136
Work in process	18,281,729	18,111,238

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Raw materials	2,095,010	2,566,796
Supplies and spare parts	957,433	1,227,358
	\$ 25,576,575	\$ 28,893,528

Write-down of inventories to net realizable value in the amount of NT\$680,850 thousand and NT\$650,892 thousand, respectively, were included in the cost of sales for the three months ended March 31, 2012 and 2011.

In January 2012, the Company invested NT\$100,000 thousand and established a wholly-owned subsidiary, TSMC GN, which engages mainly in investment activities. In February 2012, the Company participated directly or through TSMC GN in the issuance of new shares by TSMC SSL and TSMC Solar for cash. As a portion of the shares were reserved for TSMC GN and the employees of TSMC SSL and TSMC Solar to subscribe, the Company did not subscribe to the shares at a percentage consistent with its pre-existing ownership. As a result, the Company's percentage of ownership in TSMC SSL and TSMC Solar decreased to 95% and 99%, respectively.

For the three months ended March 31, 2012 and 2011, equity in earnings of equity method investees was a net gain of NT\$984,787 thousand and NT\$1,577,135 thousand, respectively.

As of March 31, 2012 and 2011, the quoted market price of publicly traded stocks in unrestricted investments accounted for using the equity method (VIS and GUC) were NT\$13,192,202 thousand and NT\$13,160,444 thousand, respectively.

Movements of the difference between the cost of investments and the Company's share in investees' net assets allocated to depreciable assets were as follows:

	Three Months Ended March 31	
	2012	2011
Balance, beginning of period	\$ 275,584	\$ 2,504,496
Amortizations	(63,410)	(238,356)
Balance, end of period	\$ 212,174	\$ 2,266,140

As of March 31, 2012 and 2011, balance of the aforementioned difference allocated to goodwill was NT\$1,061,885 thousand and NT\$1,415,565 thousand, respectively. There was no acquisition or impairment in goodwill for the three months ended March 31, 2012 and 2011.

11. FINANCIAL ASSETS CARRIED AT COST

	March 31	
	2012	2011
Non-publicly traded stocks	\$ 338,584	\$ 338,584
Mutual funds	159,251	159,251

16. PENSION PLANS

The pension mechanism under the Labor Pension Act (the Act) is deemed a defined contribution plan. Pursuant to the Act, the Company has made monthly contributions equal to 6% of each employee's monthly salary to employees' pension accounts and recognized pension costs of NT\$280,701 thousand and NT\$281,631 thousand for the three months ended March 31, 2012 and 2011, respectively.

The Company has a defined benefit plan under the Labor Standards Law that provides benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. The Company contributes an amount equal to 2% of salaries paid each month to a pension fund (the Fund), which is administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the Committee's name in the Bank of Taiwan. The Company recognized pension costs of NT\$70,905 thousand and NT\$75,423 thousand for the three months ended March 31, 2012 and 2011, respectively.

Movements of the Fund and accrued pension cost under the defined benefit plan were summarized as follows:

	Three Months Ended March 31	
	2012	2011
The Fund		
Balance, beginning of period	\$ 3,017,351	\$ 2,835,231
Contributions	72,010	71,165
Interest	26,304	27,083
Payments	(4,886)	(3,495)
Balance, end of period	\$ 3,110,779	\$ 2,929,984
Accrued pension cost		
Balance, beginning of period	\$ 3,860,898	\$ 3,824,601
Accruals (deductions)	(3,748)	5,736
Balance, end of period	\$ 3,857,150	\$ 3,830,337

17. INCOME TAX

- a. A reconciliation of income tax expense based on income before income tax at the statutory rates and income tax currently payable was as follows:

	Three Months Ended March 31	
	2012	2011
Income tax expense based on income before income tax at statutory rate (17%)	\$ 6,073,638	\$ 6,814,147
Tax effect of the following:		
Tax-exempt income	(1,870,035)	(3,478,506)
Temporary and permanent differences	(485,734)	(561,554)
Income tax credits used	(950,630)	
Income tax currently payable	\$ 2,767,239	\$ 2,774,087

- b. Income tax expense consisted of the following:

	Three Months Ended March 31	
	2012	2011
Income tax currently payable	\$ 2,767,239	\$ 2,774,087
Other income tax adjustments	29,128	20,131
Net change in deferred income tax assets		
Investment tax credits	361,473	(486,686)
Temporary differences	187,562	166,629
Valuation allowance	(1,092,307)	1,331,282

Income tax expense	\$ 2,253,095	\$ 3,805,443
--------------------	--------------	--------------

- 19 -

c. Net deferred income tax assets consisted of the following:

	March 31	
	2012	2011
Current deferred income tax assets		
Investment tax credits	\$ 5,563,872	\$ 4,182,893
Temporary differences		
Allowance for sales returns and others	523,921	575,591
Unrealized gain/loss on financial instruments	308,777	62,060
Others	132,258	44,359
	\$ 6,528,828	\$ 4,864,903
Noncurrent deferred income tax assets		
Investment tax credits	\$ 14,254,615	\$ 18,279,007
Temporary differences		
Depreciation	1,737,772	1,891,415
Others	269,057	199,860
Valuation allowance	(9,245,784)	(13,984,044)
	\$ 7,015,660	\$ 6,386,238

Under Article 10 of the Statute for Industrial Innovation (SII) legislated and effective in May 2010, a profit-seeking enterprise may deduct up to 15% of its research and development expenditures from its income tax payable for the period in which these expenditures are incurred, but this deduction should not exceed 30% of the income tax payable for that period. This incentive is retroactive to January 1, 2010 and effective until December 31, 2019.

d. Integrated income tax information:

The balance of the imputation credit account as of March 31, 2012 and 2011 was NT\$4,003,228 thousand and NT\$1,669,533 thousand, respectively.

The estimated and actual creditable ratios for distribution of earnings of 2011 and 2010 were 6.67% and 4.96%, respectively.

The imputation credit allocated to shareholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of the imputation credit is made.

e. All earnings generated prior to December 31, 1997 have been appropriated.

f. As of March 31, 2012, investment tax credits consisted of the following:

Law/Statute	Item	Total Creditable Amount	Remaining	Expiry
			Creditable Amount	Year
Statute for Upgrading Industries	Purchase of machinery and equipment	\$ 1,165,765	\$ 804,292	2012
		6,513,605	6,513,605	2013

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

	7,006,655	7,006,655	2014
	482,351	482,351	2015
	\$ 15,168,376	\$ 14,806,903	

(Continued)

Law/Statute	Item	Total Creditable Amount	Remaining	
			Creditable Amount	Expiry Year
Statute for Upgrading Industries	Research and development expenditures	\$ 4,994,463	\$ 4,994,463	2013
Statute for Upgrading Industries	Personnel training expenditures	\$ 17,121	\$ 17,121	2013
Statute for Industrial Innovation	Research and development expenditures	\$ 589,157	\$	2012

(Concluded)

- g. The profits generated from the following projects are exempt from income tax for a five-year period:

	Tax-exemption Period
Construction and expansion of 2004	2008 to 2012
Construction and expansion of 2005	2010 to 2014
Construction and expansion of 2006	2011 to 2015

- h. The tax authorities have examined income tax returns of the Company through 2008. All investment tax credit adjustments assessed by the tax authorities have been recognized accordingly.

18. LABOR COST, DEPRECIATION AND AMORTIZATION

	Three Months Ended March 31, 2012		
	Classified as Cost of Sales	Classified as Operating Expenses	Total
Labor cost			
Salary and bonus	\$ 5,797,911	\$ 4,368,584	\$ 10,166,495
Labor and health insurance	297,921	194,107	492,028

Amortization	\$ 324,635	\$ 196,211	\$ 520,846

19. SHAREHOLDERS EQUITY

As of March 31, 2012, 1,091,849 thousand ADSs of the Company were traded on the NYSE. The number of common shares represented by the ADSs was 5,459,243 thousand (one ADS represents five common shares).

Capital surplus can be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of the Company's paid-in capital. In addition, the capital surplus from long-term investments may not be used for any purpose. However, according to the revised Company Law, effective January 2012, the aforementioned capital surplus generated from donations and the excess of the issuance price over the par value of capital stock can also be used to distribute cash in proportion to original shareholders' holding.

Capital surplus consisted of the following:

	March 31	
	2012	2011
Additional paid-in capital	\$ 23,866,634	\$ 23,715,050
From merger	22,804,510	22,805,390
From convertible bonds	8,892,847	8,893,190
From long-term investments	444,328	367,797
Donations	55	55
	\$ 56,008,374	\$ 55,781,482

The Company's Articles of Incorporation provide that, when allocating the net profits for each fiscal year, the Company shall first offset its losses in previous years and then set aside the following items accordingly:

- a. Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve equals the Company's paid-in capital;

- b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;
- c. Bonus to directors and profit sharing to employees of the Company of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of the Company are not entitled to receive the bonus to directors. The Company may issue profit sharing to employees in stock of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;
- d. Any balance left over shall be allocated according to the resolution of the shareholders' meeting.

The Company's Articles of Incorporation also provide that profits of the Company may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are subject to shareholders' approval in the following year.

The Company accrued profit sharing to employees based on certain percentage of net income during the period, which amounted to NT\$2,236,553 thousand and NT\$2,443,687 thousand for the three months ended March 2012 and 2011, respectively. Bonuses to directors were expensed based on estimated amount of payment. If the actual amounts subsequently resolved by the shareholders differ from the estimated amounts, the differences are recorded in the year of shareholders' resolution as a change in accounting estimate. If profit sharing is resolved to be distributed to employees in stock, the number of shares is determined by dividing the amount of profit sharing by the closing price (after considering the effect of dividends) of the shares on the day preceding the shareholders' meeting.

The Company no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

According to the revised Company Law, effective January 2012, the appropriation for legal capital reserve shall be made until the reserve equals the Company's paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends in cash or stocks for the portion in excess of 25% of the paid-in capital if the Company incurs no loss.

A special capital reserve equivalent to the net debit balance of the other components of shareholders' equity (for example, cumulative translation adjustments and unrealized loss on financial instruments, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2011 and 2010 had been approved in a Board of Directors' meeting held on February 14, 2012 and a shareholders' meeting held on June 9, 2011, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	For Fiscal Year 2011	For Fiscal Year 2010	For Fiscal Year 2011	For Fiscal Year 2010
Legal capital reserve	\$ 13,420,128	\$ 16,160,501		
Special capital reserve	1,172,350	5,120,827		
Cash dividends to shareholders	77,748,668	77,730,236	\$ 3.00	\$ 3.00
	\$ 92,341,146	\$ 99,011,564		

The Board of Directors also resolved on February 14, 2012 to appropriate profit sharing to employees and bonus to directors in the amounts of NT\$8,990,026 thousand and NT\$62,324 thousand in cash for 2011, respectively. There is no significant difference between the aforementioned resolved amounts and the amounts charged against earnings of 2011.

The appropriations of earnings, profit sharing to employees and bonus to directors for 2011 are to be resolved in the shareholders' meeting held on June 12, 2012 (expected).

The Company's profit sharing to employees and bonus to directors in the amounts of NT\$10,908,338 thousand and NT\$51,131 thousand in cash for 2010, respectively, had been approved in the shareholders' meeting held on June 9, 2011. The resolved amounts of the profit sharing to employees and bonus to directors were consistent with the resolutions of meeting of the Board of Directors held on February 15, 2011 and same amount had been charged against earnings of 2010.

The information about the appropriations of profit sharing to employees and bonus to directors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by the Company on earnings generated since January 1, 1998.

20. STOCK-BASED COMPENSATION PLANS

The Company's Employee Stock Option Plans, consisting of the 2004 Plan, 2003 Plan and 2002 Plan, were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the 2004 Plan, 2003 Plan and 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share when exercised. The options may be granted to qualified employees of the Company or any of its domestic or foreign subsidiaries, in which the Company's shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of the Company's common shares listed on the TSE on the grant date.

Options of the plans that had never been granted or had been granted but subsequently canceled had expired as of March 31, 2012.

Information about outstanding options for the three months ended March 31, 2012 and 2011 was as follows:

	Number of Options	Weighted-average Exercise Price
	(In Thousands)	(NT\$)
<u>Three months ended March 31, 2012</u>		
Balance, beginning of period	14,293	\$ 32.1
Options exercised	(4,382)	31.1
Balance, end of period	9,911	32.6

(Continued)

	Number of Options	Weighted-average Exercise Price
	(In Thousands)	(NT\$)
Three months ended March 31, 2011		
Balance, beginning of period	21,437	\$ 32.3
Options exercised	(4,115)	30.9
Balance, end of period	17,322	32.6

(Concluded)

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings in accordance with the plans.

As of March 31, 2012, information about outstanding options was as follows:

Range of Exercise Price	Number of Options	Options Outstanding	
		Remaining	Weighted-average
(NT\$)	(In Thousands)	Contractual Life	Exercise Price
		(Years)	(NT\$)
\$20.9-\$29.3	6,972	1.1	\$ 27.0
38.0- 50.1	2,939	2.7	45.7
	9,911	1.6	32.6

As of March 31, 2012, all of the above outstanding options were exercisable.

No compensation cost was recognized under the intrinsic value method for the three months ended March 31, 2012 and 2011. Had the Company used the fair value based method to evaluate the options using the Black-Scholes model, the valuation assumptions at the various grant dates and pro forma results of the Company for the three months ended March 31, 2012 and 2011 would have been as follows:

Valuation assumptions:	
Expected dividend yield	1.00%-3.44%
Expected volatility	43.77%-46.15%
Risk free interest rate	3.07%-3.85%
Expected life	5 years

	Three Months Ended March 31	
	2012	2011
Net income:		
Net income as reported	\$ 33,474,187	\$ 36,277,773
Pro forma net income	33,402,682	36,273,711
Earnings per share (EPS) - after income tax (NT\$):		

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Basic EPS as reported	\$	1.29	\$	1.40
Pro forma basic EPS		1.29		1.40
Diluted EPS as reported		1.29		1.40
Pro forma diluted EPS		1.29		1.40

- 25 -

21. EARNINGS PER SHARE

EPS is computed as follows:

	Amounts (Numerator)		Number of Shares (Denominator) (In Thousands)	EPS (NT\$)	
	Before	After		Before	After
	Income Tax	Income Tax		Income Tax	Income Tax
Three months ended March 31, 2012					
Basic EPS					
Earnings available to common shareholders	\$ 35,727,282	\$ 33,474,187	25,917,646	\$ 1.38	\$ 1.29
Effect of dilutive potential common shares			8,800		
Diluted EPS					
Earnings available to common shareholders (including effect of dilutive potential common shares)	\$ 35,727,282	\$ 33,474,187	25,926,446	\$ 1.38	\$ 1.29
Three months ended March 31, 2011					
Basic EPS					
Earnings available to common shareholders	\$ 40,083,216	\$ 36,277,773	25,912,506	\$ 1.55	\$ 1.40
Effect of dilutive potential common shares			11,060		
Diluted EPS					
Earnings available to common shareholders (including effect of dilutive potential common shares)	\$ 40,083,216	\$ 36,277,773	25,923,566	\$ 1.55	\$ 1.40

If the Company may settle the obligation by cash, by issuing shares, or in combination of both cash and shares, profit sharing to employees which will be settled in shares should be included in the weighted average number of shares outstanding in calculation of diluted EPS, if the shares have a dilutive effect. The number of shares is estimated by dividing the amount of profit sharing to employees in stock by the closing price (after considering the dilutive effect of dividends) of the common shares on the balance sheet date. Such dilutive effect of the potential shares needs to be included in the calculation of diluted EPS until the shares of profit sharing to employees are resolved in the shareholders meeting in the following year.

The average number of shares outstanding for EPS calculation has been considered for the effect of retrospective adjustments. This adjustment caused each of the basic and diluted after income tax EPS for the three months ended March 31, 2011 to remain at NT\$1.40.

22. DISCLOSURES FOR FINANCIAL INSTRUMENTS

a. Fair values of financial instruments were as follows:

	2012		March 31		2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets						
Financial assets at fair value through profit or loss	\$	\$	\$ 11,605	\$	\$ 11,605	
Available-for-sale financial assets	2,618,029	2,618,029	5,105,351		5,105,351	
Held-to-maturity financial assets	1,402,856	1,422,299	6,198,107		6,253,752	
Financial assets carried at cost	497,835		497,835			
Liabilities						
Financial liabilities at fair value through profit or loss	47,930	47,930	15,028		15,028	
Bonds payable (including current portion)	35,000,000	35,248,224	4,500,000		4,542,890	
Other long-term payables (including current portion)			912,591		912,591	

b. Methods and assumptions used in the estimation of fair values of financial instruments

- 1) The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, refundable deposits, short-term loans, payables and guarantee deposits. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
- 2) Except for derivatives, available-for-sale and held-to-maturity financial assets were based on their quoted market prices.
- 3) The fair values of those derivatives are determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
- 4) Financial assets carried at cost have no quoted prices in an active market and entail an unreasonably high cost to obtain verifiable fair values. Therefore, no fair value is presented.
- 5) Fair value of bonds payable was based on their quoted market price.
- 6) Fair value of other long-term payables was based on the present value of expected cash flows, which approximates their carrying amount.

c. Valuation gains (losses) arising from changes in fair value of derivatives contracts determined using valuation techniques were recognized as net losses of NT\$47,930 thousand and NT\$3,423 thousand for the three months ended March 31, 2012 and 2011, respectively.

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

- d. As of March 31, 2012 and 2011, financial assets exposed to fair value interest rate risk were NT\$1,402,856 thousand and NT\$7,245,756 thousand, respectively, financial liabilities exposed to fair value interest rate risk were NT\$69,735,646 thousand and NT\$38,691,396 thousand, respectively.

- 27 -

- e. Movements of the unrealized gains or losses on financial instruments for the three months ended March 31, 2012 and 2011 were as follows:

	Three Months Ended March 31, 2012		
	From		
	Available-		
	for-sale	Equity-method	
	Financial Assets	Investments	Total
Balance, beginning of period	\$ (1,511,599)	\$ 338,744	\$ (1,172,855)
Recognized directly in shareholders' equity	743	288,865	289,608
Balance, end of period	\$ (1,510,856)	\$ 627,609	\$ (883,247)

	Three Months Ended March 31, 2011		
	From		
	Available-		
	for-sale	Equity-method	
	Financial Assets	Investments	Total
Balance, beginning of period	\$ (395,306)	\$ 504,595	\$ 109,289
Recognized directly in shareholders' equity	128,353	(192,769)	(64,416)
Balance, end of period	\$ (266,953)	\$ 311,826	\$ 44,873

- f. Information about financial risks

- 1) Market risk. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the market exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market exchange rate risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets and held-to-maturity financial assets held by the Company are mainly fixed-interest-rate debt securities and overseas publicly traded stock; therefore, the fluctuations in market interest rates and market prices will result in changes in fair values of these debt securities.
- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The Company evaluated whether the financial instruments for any possible counter-parties or third-parties are reputable financial institutions, business enterprises, and government agencies and accordingly, the Company believed that the Company's exposure to credit risk was not significant.
- 3) Liquidity risk. The Company has sufficient operating capital and bank facilities to meet cash needs upon settlement of derivative financial instruments and bonds payable. Therefore, the liquidity risk is low.
- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates.

23. RELATED PARTY TRANSACTIONS

The Company engages in business transactions with the following related parties:

a. Subsidiaries

TSMC North America

TSMC China

TSMC Europe

TSMC Japan

b. Investees

Xintec (holding a controlling financial interest)

SSMC (accounted for using the equity method)

VIS (accounted for using the equity method)

c. Indirect subsidiaries

WaferTech, LLC (WaferTech)

TSMC Technology, Inc. (TSMC Technology)

TSMC Design Technology Canada, Inc. (TSMC Canada)

d. Indirect investee

VisEra Technology Company, Ltd. (VisEra), an indirect investee accounted for using the equity method.

e. Others

Related parties over which the Company has control or exercises significant influence but with which the Company had no material transactions.

Transactions with the aforementioned parties, other than those disclosed in other notes, are summarized as follows:

The sales prices and payment terms to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices and terms were determined in accordance with mutual agreements.

The Company leased certain buildings, facilities, and machinery and equipment from Xintec. The lease terms and prices were determined in accordance with mutual agreements. The rental expense was paid monthly and the related expenses were classified under manufacturing expenses. The lease expired in June 2011.

The Company leased certain office space and facilities from VIS. The lease terms and prices were determined in accordance with mutual agreements. The rental expense was paid monthly and the related expenses were classified under research and development expenses and manufacturing expenses. The lease expired in April 2011.

The Company deferred the disposal gains/losses (classified under other assets and deferred credits) derived from sales of property, plant and equipment and other assets to TSMC China and VisEra, and then recognized such gains/losses (classified under non-operating gains and losses) over the depreciable lives of the disposed assets.

24. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land from the Science Park Administration. These operating leases expire on various dates from December 2012 to January 2032 and can be renewed upon expiration.

As of March 31, 2012, future lease payments were as follows:

Year	Amount
2012 (2 nd to 4 th quarter)	\$ 347,649
2013	439,841
2014	425,328
2015	415,008
2016	404,844
2017 and thereafter	3,400,454
	\$ 5,433,124

25. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Significant commitments and contingencies of the Company as of March 31, 2012, excluding those disclosed in other notes, were as follows:

- a. Under a technical cooperation agreement with Industrial Technology Research Institute, the R.O.C. Government or its designee approved by the Company can use up to 35% of the Company's capacity if the Company's outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice.
- b. Under several foundry agreements, the Company shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with the Company. As of March 31, 2012, the Company had a total of US\$11,330 thousand of guarantee deposits.
- c. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. The Company's equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. The Company and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, the Company and NXP B.V. currently own approximately 39% and 61% of the SSMC shares respectively. The Company and Philips (now NXP B.V.) are required, in the aggregate, to purchase at least 70% of SSMC's capacity, but the Company alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC fall below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.
- d. In August 2006, TSMC filed a lawsuit against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referred to as SMIC) in the Superior Court of California for Alameda County for breach of a 2005 agreement that settled an earlier trade secret misappropriation and patent infringement litigation between the parties, as well as for trade secret misappropriation, seeking injunctive relief and monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC in the same court alleging breach of settlement agreement, implied covenant of good faith and fair dealing. SMIC also filed a civil action against TSMC in November 2006 with the Beijing People's High Court alleging defamation and breach of good faith. On June 10, 2009, the Beijing People's High Court ruled in favor of TSMC and dismissed SMIC's lawsuit. On November 4, 2009, after a two-month trial, a jury in the California action found SMIC to have both

breached the 2005 settlement agreement and misappropriated TSMC's trade secrets. TSMC has subsequently settled both lawsuits with SMIC. Pursuant to the new settlement agreement, the parties have agreed to the entry of a stipulated judgment in favor of TSMC in the California action, and to the dismissal of SMIC's appeal against the Beijing High Court's finding in favor of TSMC. Under the new settlement agreement and the related stipulated judgment, SMIC has agreed to make cash payments by installments to TSMC totaling US\$200 million, which are in addition to the US\$135 million previously paid to TSMC under the 2005 settlement agreement, and, conditional upon relevant government regulatory approvals, to issue to TSMC a total of 1,789,493,218 common shares of Semiconductor Manufacturing International Corporation and a three-year warrant to purchase 695,914,030 common shares (subject to adjustment) of Semiconductor Manufacturing International Corporation at HK\$1.30 per share (subject to adjustment). TSMC has received the approval from the Investment Commission of Ministry of Economic Affairs and acquired the above mentioned common shares in July 2010, which are recorded within available for sale financial assets, and obtained the subsequent cash settlement income in accordance with the agreement.

- e. In June 2010, Keranos, LLC. filed a lawsuit in the U.S. District Court for the Eastern District of Texas alleging that TSMC, TSMC North America, and several other leading technology companies infringe three expired U.S. patents. In response, TSMC, TSMC North America, and several co-defendants in the Texas case filed a lawsuit against Keranos in the U.S. District Court for the Northern District of California in November 2010, seeking a judgment declaring that they did not infringe the asserted patents, and that those patents are invalid. These two litigations have been consolidated into a single case in the U.S. District Court for the Eastern District of Texas. The outcome cannot be determined at this time.
- f. In December 2010, Ziptronix, Inc. filed a complaint in the U.S. District Court for the Northern District of California accusing TSMC, TSMC North America and one other company of allegedly infringing six U.S. patents. This litigation is in its very early stages and therefore the outcome of the case cannot be determined at this time.

26. EXCHANGE RATE INFORMATION OF FOREIGN-CURRENCY FINANCIAL ASSETS AND LIABILITIES

The significant financial assets and liabilities denominated in foreign currencies were as follows:

	2012		March 31		2011

(Concluded)

Note: Exchange rate represents the number of N.T. dollars for which one foreign currency could be exchanged.

27. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for the Company and its investees:

- a. Financings provided: Please see Table 1 attached;
- b. Endorsement/guarantee provided: None;
- c. Marketable securities held: Please see Table 2 attached;
- d. Marketable securities acquired or disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;
- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None;
- g. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- h. Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 6 attached;
- i. Names, locations, and related information of investees over which the Company exercises significant influence: Please see Table 7 attached;

j. Information about derivatives of investees over which the Company has a controlling interest:
Do not meet the criteria for hedge accounting

1) TSMC China

TSMC China entered into forward exchange contracts during the three months ended March 31, 2012 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contract as of March 31, 2012 consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
Sell US\$/Buy EUR	April 2012	US\$1,565/EUR1,200
Sell US\$/Buy JPY	April 2012	US\$2,584/JPY213,257

For the three months ended March 31, 2012, net gains arising from forward exchange contracts of TSMC China amounted to NT\$2,855 thousand.

2) Xintec

Xintec entered into forward exchange contracts during the three months ended March 31, 2012 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts as of March 31, 2012 consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
Sell US\$/Buy NT\$	April 2012 to May 2012	US\$10,800/NT\$318,434

For the three months ended March 31, 2012, net gains arising from forward exchange contracts of Xintec amounted to NT\$10,057 thousand.

3) TSMC Partners

TSMC Partners entered into forward exchange contracts during the three months ended March 31, 2012 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts as of March 31, 2012 consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
Sell RMB/Buy US\$	April 2012	RMB1,230,782/US\$195,000

For the three months ended March 31, 2012, net losses arising from forward exchange contracts of TSMC Partners amounted to NT\$14,647 thousand.

4) TSMC Solar

TSMC Solar entered into derivative contracts during the three months ended March 31, 2012 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts as of March 31, 2012 consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
Sell NT\$/Buy US\$	April 2012	NT\$128,180/US\$4,340
Sell NT\$/Buy JPY	April 2012	NT\$9,441/JPY26,000

Outstanding cross currency swap contracts as of March 31, 2012 consisted of the following:

Maturity Date	Contract Amount (In Thousands)	Range of Interest Rates Paid	Range of Interest Rates Received
April 2012	NT\$604,165/US\$20,450	0.00%	0.07%-0.20%

For the three months ended March 31, 2012, net losses arising from derivative financial instruments of TSMC Solar amounted to NT\$14,747 thousand.

5) TSMC SSL

TSMC SSL entered into forward exchange contracts during the three months ended March 31, 2012 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts as of March 31, 2012 consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
Sell NT\$/Buy US\$	April 2012 to May 2012	NT\$59,240/US\$2,010
Sell NT\$/Buy JPY	April 2012	NT\$13,068/JPY36,000

For the three months ended March 31, 2012, net losses arising from forward exchange contracts of TSMC SSL amounted to NT\$7,251 thousand.

Meet the criteria for hedge accounting

Xintec monitors and manages the financial risk through the analysis of business environment and evaluation of entity's financial risks. Further, Xintec seeks to reduce the effects of future cash flow related interest rate exposures by primarily using derivative financial instruments.

Xintec is exposed to interest rate risk because its long-term bank loans bear floating interest rates. Accordingly, Xintec enters into interest rate swap contract to hedge such a cash flow interest rate risk. As of March 31, 2012, the outstanding interest rate swap contract of Xintec consisted of the following:

Hedged Item	Hedging Financial Instrument	Fair Value March 31, 2012	Expected Cash Flow Generated Period	Expected Timing for the Recognition of Gains or Losses from Hedge
-------------	---------------------------------	------------------------------	---	---

Long-term bank loans	Interest rate swap contract	\$	(135)	2011 to 2012	2011 to 2012
----------------------	-----------------------------	----	-------	--------------	--------------

- 36 -

For the three months ended March 31, 2012, the adjustment for current period to shareholder's equity amounted to a loss of NT\$1 thousand for the above Xintec's interest rate swap contract. The amount removed from shareholder's equity and recognized as a loss amounted to NT\$98 thousand.

k. Information on investment in Mainland China

- 1) The name of the investee in Mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 8 attached.
- 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in Mainland China on financial reports: Please see Note 23.

28. OPERATING SEGMENTS INFORMATION

The Company has provided the operating segments disclosure in the consolidated financial statements.

29. THE AUTHORIZATION OF FINANCIAL STATEMENTS

The financial statements were approved by the management on April 24, 2012.

TABLE 1**Taiwan Semiconductor Manufacturing Company Limited and Investees****FINANCINGS PROVIDED****FOR THE THREE MONTHS ENDED MARCH 31, 2012****(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)**

Company Limited and Subsidiaries

Consolidated Financial Statements for the

Three Months Ended March 31, 2012 and 2011 and

Independent Accountants' Review Report

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have reviewed the accompanying consolidated balance sheets of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of March 31, 2012 and 2011, and the related consolidated statements of income and cash flows for the three months then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these consolidated financial statements based on our reviews.

We conducted our reviews in accordance with Statement on Auditing Standards No. 36, "Review of Financial Statements," issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

April 24, 2012

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the accountants' review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language accountants' review report and consolidated financial statements shall prevail.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2012 AND 2011

(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

(Reviewed, Not Audited)

1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (TSMC), a Republic of China (R.O.C.) corporation, was incorporated on February 21, 1987. TSMC is a dedicated foundry in the semiconductor industry which engages mainly in the manufacturing, selling, packaging, testing and computer-aided design of integrated circuits and other semiconductor devices and the manufacturing of masks. Beginning in 2010, TSMC also engages in the researching, developing, designing, manufacturing and selling of solid state lighting devices and related applications products and systems, and renewable energy and efficiency related technologies and products. In August 2011, TSMC transferred its solid state lighting and solar businesses into its wholly-owned, newly incorporated subsidiaries, TSMC Solid State Lighting Ltd. (TSMC SSL) and TSMC Solar Ltd. (TSMC Solar), respectively.

On September 5, 1994, TSMC's shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

As of March 31, 2012 and 2011, TSMC and its subsidiaries had 35,594 and 35,665 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language consolidated financial statements shall prevail.

Significant accounting policies are summarized as follows:

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of TSMC, and the accounts of investees in which TSMC's ownership percentage is less than 50% but over which TSMC has a controlling interest. All significant intercompany balances and transactions are eliminated upon consolidation.

(Concluded)

Note 1: In August 2011, TSMC adjusted its investment structure by transferring TSMC Lighting NA to TSMC SSL and transferring TSMC Solar Europe, TSMC Solar NA and part of VTAF III to TSMC Solar.

Note 2: Since July 2011, TSMC is no longer deemed to be a controlling entity of GUC and its subsidiaries due to the termination of a Shareholders Agreement. As a result, GUC and its subsidiaries are no longer consolidated and are accounted for using the equity method.

The following diagram presents information regarding the relationship and ownership percentages between TSMC and its consolidated investees as of March 31, 2012:

Since July 2011, TSMC is no longer deemed to be a controlling entity of GUC and its subsidiaries due to the termination of a Shareholders Agreement. As a result, GUC and its subsidiaries are no longer consolidated and are accounted for using the equity method.

TSMC North America is engaged in selling and marketing of integrated circuits and semiconductor devices. TSMC Japan, TSMC Korea and TSMC Europe are engaged mainly in marketing or customer service, engineering and technical supporting activities. TSMC Partners is engaged in investment in companies involved in the design, manufacture, and other related business in the semiconductor industry. TSMC Global, TSMC Development and TSMC GN are engaged in investing activities. TSMC China is engaged in the manufacturing and selling of integrated circuits pursuant to the orders from and product design specifications provided by customers. Emerging Alliance, VTAF II, VTAF III, VTA Holdings, ISDF, ISDF II and Growth Fund are engaged in investing in new start-up technology companies. TSMC Canada and TSMC Technology are engaged mainly in engineering support activities. WaferTech is engaged in the manufacturing, selling, testing and computer-aided designing of integrated circuits and other semiconductor devices. Xintec is engaged in the provision of wafer packaging service. TSMC SSL is engaged in researching, developing, designing, manufacturing and selling solid state lighting devices and related applications products and systems. TSMC Lighting NA is engaged in selling and marketing of solid state lighting related products. TSMC Solar is engaged in researching, developing, designing, manufacturing and selling renewable energy and energy saving related technologies and products. TSMC Solar NA is engaged in selling and marketing of solar related products. TSMC Solar Europe

is engaged in investing activities of solar related business. TSMC Solar Europe GmbH is engaged in the selling and customer service of solar cell modules and related products. Mutual-Pak is engaged in the manufacturing and selling of electronic parts and researching, developing and testing of RFID.

To foster a stronger sense of corporate entrepreneurship and facilitate business specializations in order to strengthen overall profitability and operational efficiency, TSMC transferred its solid state lighting and solar businesses into its wholly-owned, newly incorporated subsidiaries, TSMC SSL and TSMC Solar, in August 2011. In February 2012, TSMC SSL and TSMC Solar issued new shares for cash, in which a portion of shares were subscribed by their employees and TSMC GN. As a result, the Company's percentage of ownership in TSMC SSL and TSMC Solar decreased to 96% and 99%, respectively.

TSMC together with its subsidiaries are hereinafter referred to collectively as the Company.

Minority interests in the aforementioned subsidiaries are presented as a separate component of shareholders' equity.

Foreign-currency Transactions and Translation of Foreign-currency Financial Statements

Foreign-currency transactions other than derivative contracts are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign subsidiaries are translated into New Taiwan dollars at the following exchange rates: Assets and liabilities - spot rates at period-end; shareholders' equity - historical rates; income and expenses - average rates during the period. The resulting translation adjustments are recorded as a separate component of shareholders' equity.

Use of Estimates

The preparation of consolidated financial statements in conformity with the aforementioned guidelines and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management's estimates.

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Repurchase agreements collateralized by corporate bonds and government bonds, corporate bonds, and agency bonds acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value due to their short term nature.

Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

Available-for-sale Financial Assets

Investments designated as available-for-sale financial assets include debt securities and equity securities. Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is determined as follows: Open-end mutual funds and money market funds - net asset values at the end of the period; publicly traded stocks - closing prices at the end of the period; and other debt securities - average of bid and asked prices at the end of the period.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares.

Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Debt securities for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Hedging Derivative Financial Instruments

Hedge derivatives are mainly derivatives instruments that are for cash flow hedge purposes and determined to be an effective hedge. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognized in shareholders' equity. The amount recognized in shareholders' equity is recognized in profit or loss in the same period or period during which the hedged forecast transaction or an asset or liability arising from the hedged forecast transaction affects profit or loss. However, if all or a portion of a loss recognized in shareholders' equity is not expected to be recovered in the future, the amount that is not expected to be recovered is reclassified into profit or loss.

Financial Assets Carried at Cost

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash and stock dividends arising from available-for-sale financial assets.

Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectability of receivables. The Company assesses the collectability of receivables by performing the account aging analysis and examining current trends in the credit quality of its customers.

TSMC's provision was originally set at 1% of the amount of outstanding receivables. On January 1, 2011, the Company adopted the third revision of Statement of Financial Accounting Standards (SFAS) No. 34, Financial Instruments: Recognition and Measurement (SFAS No. 34). One of the main revisions is that the impairment of receivables originated by the Company is subject to the provisions of SFAS No. 34. Accordingly, the Company evaluates for indication of impairment of accounts receivable based on an individual and collective basis at the end of each reporting period. When objective evidence indicates that the estimated future cash flow of accounts receivable decreases as a result of one or more events that occurred after the initial recognition of the accounts receivable, such accounts receivable are deemed to be impaired.

Because of the Company's short average collection period, the amount of the impairment loss recognized is the difference between the carrying amount of accounts receivable and estimated future cash flows without considering the discounting effect. Changes in the carrying amount of the allowance account are recognized as bad debt expense which is recorded in the operating expenses - general and administrative. When accounts receivable are considered uncollectable, the amount is written off against the allowance account.

Inventories

Inventories are recorded at standard cost and adjusted to approximate weighted-average cost on the balance sheet date.

Inventories are stated at the lower of cost or net realizable value. Inventory write-downs are made on an item-by-item basis, except where it may be appropriate to group similar or related items. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and necessary selling costs.

Investments Accounted for Using Equity Method

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company's share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. The cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee's shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company's share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus. Cash dividends received from an investee shall reduce the carrying amount of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income.

Gains or losses on sales from the Company to equity method investees or from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until such gains or losses are realized through transactions with third parties.

If an investee's functional currency is a foreign currency, differences will result from the translation of the investee's financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders' equity.

Property, Plant and Equipment, Assets Leased to Others and Idle Assets

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. Properties covered by agreements qualifying as capital leases are carried at the lower of the leased equipment's market value or the present value of the minimum lease payments at the inception date of the lease, with the corresponding amount recorded as obligations under capital leases. Borrowing costs directly attributable to the acquisition or construction of property, plant and equipment are capitalized as part of the cost of those assets. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight-line method over the following estimated service lives: land improvements - 20 years; buildings - 10 to 20 years; machinery and equipment - 3 to 5 years; office equipment - 3 to 15 years; and leased assets - 20 years.

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

When property, plant and equipment are determined to be idle or useless, they are transferred to idle assets at the lower of the net realizable value or carrying amount. Depreciation on the idle assets is provided continuously, and the idle assets are tested for impairment on a periodical basis.

Intangible Assets

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Goodwill is no longer amortized and instead is tested for impairment annually, or more frequently if events or changes in circumstances suggest that the carrying amount may not be recoverable. If an event occurs or circumstances change which indicate that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Deferred charges consist of technology license fees, software and system design costs and patent and others. The amounts are amortized over the following periods: Technology license fees - the estimated life of the technology or the term of the technology transfer contract; software and system design costs - 2 to 5 years; patent and others - the economic life or contract period. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of amortization, as if no impairment loss had been recognized.

Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expense when incurred.

Pension Costs

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

Income Tax

The Company applies an inter-period allocation for its income tax whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences, net operating loss carryforwards and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery and equipment, research and development expenditures and personnel training expenditures are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current period's tax provision.

Income tax on unappropriated earnings (excluding earnings from foreign consolidated subsidiaries) at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated.

Stock-based Compensation

Employee stock options that were granted or modified in the period from January 1, 2004 to December 31, 2007 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period. Employee stock option plans that were granted or modified after December 31, 2007 are accounted for using fair value method in accordance with SFAS No. 39, Accounting for Share-based Payment. Under the statement, the value of the stock options granted, which is equal to the best available estimate of the number of stock options

expected to vest multiplied by the grant-date fair value, is expensed on a straight-line basis over the vesting period, with a corresponding adjustment to capital surplus - employee stock options. The estimate is revised if subsequent information indicates that the number of stock options expected to vest differs from previous estimates.

Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer, price is fixed or determinable, and collectability is reasonably assured. Provisions for estimated sales returns and other allowances are recorded in the period the related revenue is recognized, based on historical experience, management's judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

3. ACCOUNTING CHANGES

On January 1, 2011, the Company prospectively adopted the newly revised SFAS No. 34, Financial Instruments: Recognition and Measurement. The main revisions include (1) finance lease receivables are now covered by SFAS No. 34; (2) the scope of the applicability of SFAS No. 34 to insurance contracts is amended; (3) loans and receivables originated by the Company are now covered by SFAS No. 34; (4) additional guidelines on impairment testing of financial assets carried at amortized cost when the debtor has financial difficulties and the terms of obligations have been modified; and (5) accounting treatment by a debtor for modifications in the terms of obligations. This accounting change did not have a significant effect on the Company's consolidated financial statements as of and for the three months ended March 31, 2011.

On January 1, 2011, the Company adopted the newly issued SFAS No. 41, Operating Segments. The statement requires identification and disclosure of operating segments on the basis of how the Company's chief operating decision maker regularly reviews information in order to allocate resources and assess performance. This statement supersedes SFAS No. 20, Segment Reporting and the Company conformed to the disclosure requirement and provided the operating segments disclosure in the consolidated financial statements accordingly.

4. CASH AND CASH EQUIVALENTS

	March 31	
	2012	2011
Cash and deposits in banks	\$ 168,044,810	\$ 127,349,258
Repurchase agreements collateralized by corporate bonds	1,938,014	
Repurchase agreements collateralized by government bonds	837,115	1,627,216
Corporate bonds		383,092
Agency bonds		85,434
	\$ 170,819,939	\$ 129,445,000

5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	March 31	
	2012	2011
<u>Trading financial assets</u>		
Forward exchange contracts	\$ 1,376	\$ 12,283
Cross currency swap contracts	282	
	\$ 1,658	\$ 12,283
<u>Trading financial liabilities</u>		
Forward exchange contracts	\$ 60,207	\$ 48,850
Cross currency swap contracts	831	
	\$ 61,038	\$ 48,850

The Company entered into derivative contracts during the three months ended March 31, 2012 and 2011 to manage exposures due to fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting. Therefore, the Company did not apply hedge accounting treatment for derivative contracts.

Outstanding forward exchange contracts consisted of the following:

	Maturity Date	Contract Amount (In Thousands)
<u>March 31, 2012</u>		
Sell NT\$/Buy JPY	April 2012	NT\$869,791/JPY2,362,000
Sell NT\$/Buy US\$	April 2012 to May 2012	NT\$ 187,420/US\$6,350
Sell US\$/Buy JPY	April 2012	US\$42,327/JPY3,403,622
Sell US\$/Buy EUR	April 2012	US\$ 1,565/EUR1,200
Sell US\$/Buy NT\$	April 2012 to May 2012	US\$10,800/NT\$318,434
Sell RMB/Buy US\$	April 2012	RMB1,230,782/US\$195,000
<u>March 31, 2011</u>		
Sell NT\$/Buy JPY	April 2011	NT\$1,173,256/JPY3,268,300
Sell NT\$/Buy EUR	April 2011	NT\$ 83,800/EUR2,000
Sell EUR/Buy NT\$	April 2011	EUR59,550/NT\$2,494,130
Sell NT\$/Buy US\$	April 2011	NT\$ 53,267/US\$1,800
Sell RMB/Buy US\$	April 2011 to June 2011	RMB925,865/US\$140,500
Sell US\$/Buy JPY	April 2011	US\$1,531/JPY 124,092
Sell US\$/Buy NT\$	April 2011 to May 2011	US\$ 9,000/NT\$265,008

Outstanding cross currency swap contracts consisted of the following:

Maturity Date	Contract Amount (In Thousands)	Range of Interest Rates Paid	Range of Interest Rates Received
<u>March 31, 2012</u>			
April 2012	NT\$ 604,165/US\$20,450	0.00%	0.07%-0.20%

Net losses on derivative financial instruments for the three months ended March 31, 2012 and 2011 were NT\$245,005 thousand and NT\$282,237 thousand, respectively.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	March 31	
	2012	2011
Publicly traded stocks	\$ 3,573,873	\$ 4,567,080
Money market funds	3,928	145,015
Corporate bonds		16,650,404
Agency bonds		6,931,552
Government bonds		916,160
Open-end mutual funds		390,351
	3,577,801	29,600,562
Current portion	(3,577,801)	(28,564,518)
	\$	\$ 1,036,044

7. HELD-TO-MATURITY FINANCIAL ASSETS

	March 31	
	2012	2011
Corporate bonds	\$ 7,841,495	\$ 12,639,303
Government bonds	442,935	442,020
	8,284,430	13,081,323
Current portion	(6,253,618)	(5,388,732)
	\$ 2,030,812	\$ 7,692,591

8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

Movements of the allowance for doubtful receivables were as follows:

	Three Months Ended	
	March 31	
	2012	2011
Balance, beginning of period	\$ 490,952	\$ 504,029
Reversal	(3)	(855)
Effect of exchange rate changes	(67)	(81)
Balance, end of period	\$ 490,882	\$ 503,093

Movements of the allowance for sales returns and others were as follows:

	Three Months Ended March 31	
	2012	2011
Balance, beginning of period	\$ 5,068,263	\$ 7,546,264
Provision	1,369,394	1,458,262
Write-off	(1,005,591)	(2,044,133)
Effect of exchange rate changes	(3,656)	(4,465)
Balance, end of period	\$ 5,428,410	\$ 6,955,928

9. INVENTORIES

	March 31	
	2012	2011
Finished goods	\$ 4,381,500	\$ 7,600,064
Work in process	19,414,011	19,320,917
Raw materials	2,270,363	2,853,159
Supplies and spare parts	1,693,276	2,013,099
	\$ 27,759,150	\$ 31,787,239

Write-down of inventories to net realizable value in the amount of NT\$642,307 thousand and NT\$672,567 thousand, respectively, were included in the cost of sales for the three months ended March 31, 2012 and 2011.

10. INVESTMENTS ACCOUNTED FOR USING EQUITY METHOD

	March 31			
	2012		2011	
	Carrying Amount	% of Ownership	Carrying Amount	% of Ownership
Vanguard International Semiconductor Corporation (VIS)	\$ 8,986,165	41	\$ 9,456,221	38
Systems on Silicon Manufacturing Company Pte Ltd. (SSMC)	5,388,363	39	7,256,841	39
Motech Industries Inc. (Motech)	5,219,263	20	6,770,069	20
VisEra Holding Company (VisEra Holding)	2,847,918	49	2,512,421	49
GUC	1,191,165	35		
Mcube Inc. (Mcube)		25		26
	\$ 23,632,874		\$ 25,995,552	

Since July 2011, TSMC is no longer deemed to be a controlling entity of GUC and its subsidiaries due to the termination of a Shareholders Agreement. As a result, GUC and its subsidiaries are no longer consolidated and are accounted for using the equity method.

For the three months ended March 31, 2012 and 2011, equity in earnings of equity method investees was a net gain of NT\$20,952 thousand and NT\$520,109 thousand, respectively.

The quoted market price of publicly traded stocks in unrestricted investments accounted for using the equity method was NT\$13,192,202 thousand (VIS and GUC) as of March 31, 2012 and NT\$8,795,129 thousand (VIS) as of March 31, 2011.

Movements of the difference between the cost of investments and the Company's share in investees' net assets allocated to depreciable assets were as follows:

	Three Months Ended March 31	
	2012	2011
Balance, beginning of period	\$ 1,645,810	\$ 2,491,891
Amortization	(145,731)	(244,977)
Balance, end of period	\$ 1,500,079	\$ 2,246,914

As of March 31, 2012 and 2011, balance of the aforementioned difference allocated to goodwill was NT\$1,415,565 thousand. There was no acquisition or impairment in goodwill for the three months ended March 31, 2012 and 2011.

11. HEDGING DERIVATIVE FINANCIAL INSTRUMENTS

	March 31	
	2012	2011
<u>Hedging derivative financial liabilities</u>		
Interest rate swap contract	\$ 135	\$ 676

The Company's long-term bank loans bear floating interest rates; therefore, changes in the market interest rate may cause future cash flows to be volatile. Accordingly, the Company entered into an interest rate swap contract in order to hedge cash flow risk caused by floating interest rates. The outstanding interest rate swap contract consisted of the following:

Contract Amount (In Thousands)	Maturity Date	Range of Interest Rates Paid	Range of Interest Rates Received
<u>March 31, 2012</u>			
NT\$68,000	August 31, 2012	1.38%	0.86%
<u>March 31, 2011</u>			
NT\$116,000	August 31, 2012	1.38%	0.66%-0.68%

For the three months ended March 31, 2012 and 2011, the adjustment for the current period to shareholders' equity amounted to net losses of NT\$1 thousand and NT\$676 thousand, respectively; and the amount removed from shareholders' equity and recognized as a loss from the above interest rate swap contract amounted to NT\$98 thousand and NT\$226 thousand, respectively.

12. FINANCIAL ASSETS CARRIED AT COST

	March 31	
	2012	2011
Non-publicly traded stocks	\$ 3,873,289	\$ 4,050,346
Mutual funds	306,896	159,251
	\$ 4,180,185	\$ 4,209,597

The common stock of InvenSense, Inc. was listed on the NYSE in November 2011. Thus, the Company reclassified the aforementioned investments from financial assets carried at cost to available-for-sale financial assets.

For the three months ended March 31, 2012 and 2011, the Company recognized impairment on financial assets carried at cost of NT\$4,390 thousand and NT\$58,537 thousand, respectively.

13. PROPERTY, PLANT AND EQUIPMENT

	Balance, Beginning of Period	Three Months Ended March 31, 2012				Balance, End of Period
		Additions (Deductions)	Disposals	Reclassification	Effect of Exchange Rate Changes	
Cost						
Land and land improvements	\$ 1,541,128	\$ 14,470	\$	\$	\$ (19,737)	\$ 1,535,861
Buildings	172,872,550	14,567,591	(12,594)		(520,257)	186,907,290
Machinery and equipment	1,057,588,736	90,006,940	(358,689)	(760,386)	(1,622,050)	1,144,854,551
Office equipment	16,969,266	1,361,503	(290,826)		(57,232)	17,982,711
Leased asset	791,480				(19,746)	771,734
	1,249,763,160	\$ 105,950,504	\$ (662,109)	\$ (760,386)	\$ (2,239,022)	1,352,052,147
Accumulated depreciation						
Land and land improvements	355,555	\$ 6,775	\$	\$	\$ (8,951)	353,379
Buildings	101,004,047	2,665,331	(11,327)		(264,163)	103,393,888
Machinery and equipment	762,774,355	24,384,987	(354,753)	(318,074)	(1,383,961)	785,102,554
Office equipment	11,820,728	407,695	(290,379)		(47,032)	11,891,012

The Company entered into agreements to lease buildings that qualify as capital leases. The term of the leases is from December 2003 to December 2018.

As of March 31, 2012, future lease payments were as follows:

Year	Amount
2012 (2 nd to 4 th quarter)	\$ 27,216
2013	27,216
2014	27,216
2015	27,216
2016	27,216
2017 and thereafter	761,477
	\$ 897,557

During the three months ended March 31, 2012, the Company capitalized the borrowing costs directly attributable to the acquisition or construction of property, plant and equipment. Information about capitalized interest was as follows:

	Three Months Ended March 31, 2012
Capitalized interest	\$ 3,174
Capitalization rates	1.08%-1.20%

Issued in September 2011 and repayable in September 2018, 1.63% interest payable annually	7,500,000	
Issued in January 2012 and repayable in January 2017, 1.29% interest payable annually	10,000,000	
Issued in January 2012 and repayable in January 2019, 1.46% interest payable annually	7,000,000	
Issued in January 2002 and repayable in January 2012, 3.00% interest payable annually		4,500,000
	35,000,000	4,500,000
Current portion		(4,500,000)
	\$ 35,000,000	\$

17. LONG-TERM BANK LOANS

	2012	March 31 2011
Bank loans for working capital:		
Repayable in full in one lump sum payment in June 2016, annual interest at 1.08%	\$ 650,000	\$
Repayable in full in one lump sum payment in March 2014, annual interest at 1.16% in 2012 and 1.02%-1.04% in 2011	500,000	500,000
Repayable from July 2012 in 16 quarterly installments, annual interest at 1.21% in 2012	300,000	
Repayable from September 2012 in 16 quarterly installments, annual interest at 1.21%	200,000	
Repayable from September 2012 in 6 installments before March 2015, annual interest at 1.14%, repayable in full in one lump sum payment in June 2011		300,000
Secured loans:		
Repayable from August 2009 in 17 quarterly installments, annual interest at 0.69%-1.30% in 2011, repayable in full in one lump sum payment in June 2011		481,321
	1,650,000	1,281,321
Current portion	(93,750)	(240,759)
	\$ 1,556,250	\$ 1,040,562

Pursuant to the loan agreements, financial ratios calculated based on semi-annual and annual financial statements of Xintec must comply with predetermined financial covenants.

As of March 31, 2012, future principal repayments for the long-term bank loans were as follows:

Year of Repayment	Amount
2012 (2 nd to 4 th quarter)	\$ 62,500
2013	125,000
2014	625,000
2015	125,000
2016	712,500
	\$ 1,650,000

18. OTHER LONG-TERM PAYABLES

	March 31	
	2012	2011
Payables for acquisition of property, plant and equipment (Note 29g)	\$ 1,762,363	\$ 6,942,466
Payables for technology transfer	147,645	
Payables for royalties		1,041,830
	1,910,008	7,984,296
Current portion (classified under accrued expenses and other current liabilities)	(1,850,950)	(4,134,622)
	\$ 59,058	\$ 3,849,674

The payables for royalties were primarily attributable to several license arrangements that the Company entered into for certain semiconductor-related patents.

As of March 31, 2012, future repayments for other long-term payable were as follows:

Year of Repayment	Amount
2012 (2 nd to 4 th quarter)	\$ 1,850,950
2013	29,529
2014	29,529
	\$ 1,910,008

19. PENSION PLANS

The pension mechanism under the Labor Pension Act (the Act) is deemed a defined contribution plan. Pursuant to the Act, TSMC, GUC, Xintec, Mutual-Pak, TSMC SSL and TSMC Solar have made monthly contributions equal to 6% of each employee's monthly salary to employees' pension accounts. Furthermore, TSMC North America, TSMC China, TSMC Europe, TSMC Canada, TSMC Solar NA and TSMC Solar Europe GmbH are required by local regulations to make monthly contributions at certain percentages of the basic salary of their employees. Pursuant to the aforementioned Act and local regulations, the Company recognized pension costs of NT\$330,541 thousand and NT\$323,975 thousand for the three months ended March 31, 2012 and 2011, respectively.

TSMC, GUC, Xintec, TSMC SSL and TSMC Solar have defined benefit plans under the Labor Standards Law that provide benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. The aforementioned companies contribute an amount equal to 2% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the Committee's name in the Bank of Taiwan. The Company recognized pension costs of NT\$72,757 thousand and NT\$76,010 thousand for the three months ended March 31, 2012 and 2011, respectively.

Movements in the Funds and accrued pension cost under the defined benefit plans were summarized as follows:

	Three Months Ended March 31	
	2012	2011
The Funds		
Balance, beginning of period	\$ 3,098,039	\$ 2,888,852
Contributions	74,987	72,122
Interest	26,304	27,246
Payments	(4,886)	(3,495)
Balance, end of period	\$ 3,194,444	\$ 2,984,725
Accrued pension cost		
Balance, beginning of period	\$ 3,908,508	\$ 3,812,351
Accruals (deductions)	(4,874)	5,366
Balance, end of period	\$ 3,903,634	\$ 3,817,717

20. INCOME TAX

- a. A reconciliation of income tax expense based on income before income tax at the statutory rates and income tax currently payable was as follows:

	Three Months Ended March 31	
	2012	2011
Income tax expense based on income before income tax at statutory rates	\$ 6,340,599	\$ 7,186,305

Others	442,348	332,930
Valuation allowance	(150,600)	(150,639)
	\$ 6,736,065	\$ 5,099,667
Noncurrent deferred income tax assets		
Investment tax credits	\$ 14,362,586	\$ 18,844,684
Net operating loss carryforwards	2,570,085	2,537,753
Temporary differences		
Depreciation	1,893,192	2,087,167
Others	686,233	574,518
Valuation allowance	(12,266,895)	(17,444,947)
	\$ 7,245,201	\$ 6,599,175

Under the Article 10 of the Statute for Industrial Innovation (SII) legislated, effective in May 2010, a profit-seeking enterprise may deduct up to 15% of its research and development expenditures from its income tax payable for the year in which these expenditures are incurred, but this deduction should not exceed 30% of the income tax payable for that year. This incentive is retroactive to January 1, 2010 and effective until December 31, 2019.

As of March 31, 2012, the net operating loss carryforwards generated by WaferTech, TSMC Development, Mutual-Pak, TSMC SSL and TSMC Solar would expire on various dates through 2023.

d. Integrated income tax information:

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

The balance of the imputation credit account of TSMC as of March 31, 2012 and 2011 was NT\$4,003,228 thousand and NT\$1,669,533 thousand, respectively.

The estimated and actual creditable ratios for distribution of TSMC s earnings of 2011 and 2010 were 6.67% and 4.96%, respectively.

The imputation credit allocated to shareholders is based on its balance as of the date of the dividend distribution. The estimated creditable ratio may change when the actual distribution of the imputation credit is made.

e. All of TSMC's earnings generated prior to December 31, 1997 have been appropriated.

f. As of March 31, 2012, investment tax credits of TSMC, Xintec and Mutual-Pak and TSMC SSL consisted of the following:

Law/Statute	Item	Total Creditable Amount	Remaining Creditable Amount	Expiry Year
Statute for Upgrading Industries	Purchase of machinery and equipment	\$ 1,172,726	\$ 811,253	2012
		6,524,655	6,524,655	2013
		7,041,416	7,041,416	2014
		509,388	509,388	2015
		\$ 15,248,185	\$ 14,886,712	
Statute for Upgrading Industries	Research and development expenditures	\$ 31,434	\$ 31,434	2012
		5,020,041	5,020,041	2013
		\$ 5,051,475	\$ 5,051,475	
Statute for Upgrading Industries	Personnel training expenditures	\$ 15	\$ 15	2012
		17,121	17,121	2013
		\$ 17,136	\$ 17,136	
Statute for Industrial Innovation	Research and development expenditures	\$ 589,157	\$	2012

g. The profits generated from the following projects of TSMC and Xintec are exempt from income tax for a five-year period:

	Tax-exemption Period
Construction and expansion of 2004 by TSMC	2008 to 2012
Construction and expansion of 2005 by TSMC	2010 to 2014
Construction and expansion of 2006 by TSMC	2011 to 2015
Construction and expansion of 2002, 2003 and 2006 by Xintec	2010 to 2014

h. The tax authorities have examined income tax returns of TSMC through 2008. All investment tax credit adjustments assessed by the tax authorities have been recognized accordingly.

21. LABOR COST, DEPRECIATION AND AMORTIZATION

	Three Months Ended March 31, 2012

Amortization	\$ 342,059	\$ 242,751	\$ 584,810

22. SHAREHOLDERS EQUITY

As of March 31, 2012, 1,091,849 thousand ADSs of TSMC were traded on the NYSE. The number of common shares represented by the ADSs was 5,459,243 thousand (one ADS represents five common shares).

Capital surplus can be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of TSMC's paid-in capital. In addition, the capital surplus from long-term investments may not be used for any purpose. However, according to the revised Company Law, effective January 2012, the aforementioned capital surplus generated from donations and the excess of the issuance price over the par value of capital stock can also be used to distribute cash in proportion to original shareholders' holding.

Capital surplus consisted of the following:

	March 31	
	2012	2011
Additional paid-in capital	\$ 23,866,634	\$ 23,715,050
From merger	22,804,510	22,805,390
From convertible bonds	8,892,847	8,893,190
From long-term investments	444,328	367,797
Donations	55	55
	\$ 56,008,374	\$ 55,781,482

TSMC's Articles of Incorporation provide that, when allocating the net profits for each fiscal year, TSMC shall first offset its losses in previous years and then set aside the following items accordingly:

- a. Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve equals TSMC's paid-in capital;
- b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;
- c. Bonus to directors and profit sharing to employees of TSMC of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of TSMC are not entitled to receive the bonus to directors. TSMC may issue profit sharing to employees in stock of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;
- d. Any balance left over shall be allocated according to the resolution of the shareholders' meeting.

TSMC's Articles of Incorporation also provide that profits of TSMC may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are subject to shareholders' approval in the following year.

TSMC accrued profit sharing to employees based on certain percentage of net income during the period, which amounted to NT\$2,236,553 thousand and NT\$2,443,687 thousand for the three months ended March 31, 2012 and 2011, respectively. Bonuses to directors were expensed based on estimated amount of payment. If the actual amounts subsequently resolved by the shareholders differ from the estimated amounts, the differences are recorded in the year of shareholders' resolution as a change in accounting estimate. If profit sharing is resolved to be distributed to employees in stock, the number of shares is determined by dividing the amount of profit sharing by the closing price (after considering the effect of dividends) of the shares on the day preceding the shareholders' meeting.

TSMC no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

According to the revised Company Law, effective January 2012, the appropriation for legal capital reserve shall be made until the reserve equals the Company's paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends in cash or stocks for the portion in excess of 25% of the paid-in capital if the Company incurs no loss.

A special capital reserve equivalent to the net debit balance of the other components of shareholders' equity (for example, cumulative translation adjustments and unrealized loss on financial instruments, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2011 and 2010 had been approved in TSMC's Board of Directors' meeting held on February 14, 2012 and TSMC's shareholders' meeting held on June 9, 2011, respectively. The appropriations and dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	For Fiscal Year 2011	For Fiscal Year 2010	For Fiscal Year 2011	For Fiscal Year 2010
Legal capital reserve	\$ 13,420,128	\$ 16,160,501		
Special capital reserve	1,172,350	5,120,827		
Cash dividends to shareholders	77,748,668	77,730,236	\$ 3.00	\$ 3.00
	\$ 92,341,146	\$ 99,011,564		

TSMC's Board of Directors also resolved on February 14, 2012 to appropriate profit sharing to employees and bonus to directors in the amounts of NT\$8,990,026 thousand and NT\$62,324 thousand in cash for 2011, respectively. There is no significant difference between the aforementioned resolved amounts and the amounts charged against earnings of 2011.

The appropriations of earnings, profit sharing to employees and bonus to directors for 2011 are to be resolved in the TSMC's shareholders' meeting held on June 12, 2012 (expected).

TSMC's profit sharing to employees and bonus to directors in the amounts of NT\$10,908,338 thousand and NT\$51,131 thousand in cash for 2010, respectively, had been approved in the shareholders' meeting held on June 9, 2011. The resolved amounts of the profit sharing to employees and bonus to directors were consistent with the resolutions of meeting of the Board of Directors held on February 15, 2011 and same amount had been charged against earnings of 2010.

The information about the appropriations of TSMC's profit sharing to employees and bonus to directors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, the R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by TSMC on earnings generated since January 1, 1998.

23. STOCK-BASED COMPENSATION PLANS

TSMC's Employee Stock Option Plans, consisting of the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan, were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share of TSMC when exercised. The options may be granted to qualified employees of TSMC or any of its domestic or foreign subsidiaries, in which TSMC's shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of TSMC's common shares listed on the TSE on the grant date.

Options of the plans that had never been granted or had been granted but subsequently canceled had expired as of March 31, 2012.

Information about TSMC's outstanding options for the three months ended March 31, 2012 and 2011 was as follows:

	Number of Options (In Thousands)	Weighted- average Exercise Price (NT\$)
Three months ended March 31, 2012		
Balance, beginning of period	14,293	\$ 32.1
Options exercised	(4,382)	31.1
Balance, end of period	9,911	32.6
Three months ended March 31, 2011		
Balance, beginning of period	21,437	\$ 32.3
Options exercised	(4,115)	30.9
Balance, end of period	17,322	32.6

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings by TSMC in accordance with the plans.

As of March 31, 2012, information about TSMC's outstanding options was as follows:

Range of Exercise Price (NT\$)	Number of Options (In Thousands)	Options Outstanding Weighted-average Remaining Contractual Life (Years)	Weighted-average Exercise Price (NT\$)
\$20.9-\$29.3	6,972	1.1	\$ 27.0
38.0- 50.1	2,939	2.7	45.7
	9,911	1.6	32.6

As of March 31, 2012, all of the above outstanding options were exercisable.

Xintec's Employee Stock Option Plans, consisting of the Xintec 2007 Plan and Xintec 2006 Plan, were approved by the SFB on June 26, 2007 and July 3, 2006, respectively. The maximum number of options authorized to be granted under the Xintec 2007 Plan and Xintec 2006 Plan was 6,000 thousand each, with each option eligible to subscribe for one common share of Xintec when exercised. The options may be granted to qualified employees of Xintec or any of its subsidiaries. The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

Information about Xintec's outstanding options for the three months ended March 31, 2012 and 2011 was as follows:

	Number of Options (In Thousands)	Weighted- average Exercise Price (NT\$)
Three months ended March 31, 2012		
Balance, beginning of period	825	\$ 15.1
Options exercised	(203)	17.6
Balance, end of period	622	14.3
Three months ended March 31, 2011		
Balance, beginning of period	1,832	\$ 15.1
Options exercised	(642)	14.3
Options canceled	(18)	17.7
Balance, end of period	1,172	15.6

The exercise prices have been adjusted to reflect the distribution of earnings by Xintec in accordance with the plans.

As of March 31, 2012, information about Xintec's outstanding and exercisable options was as follows:

Range of Exercise Price (NT\$)	Options Outstanding			Options Exercisable	
	Number of Options (In Thousands)	Weighted- average Remaining Contractual Life (Years)	Weighted- average Exercise Price (NT\$)	Number of Options (In Thousands)	Weighted- average Exercise Price (NT\$)
\$10.9-\$12.7	227	4.5	\$ 11.0	221	\$ 11.0
14.9- 18.8	395	5.4	16.2	390	16.2
	622	5.1	14.3	611	14.3

No compensation cost was recognized under the intrinsic value method for the three months ended March 31, 2012 and 2011. Had the Company used the fair value based method to evaluate the options using the Black-Scholes model, the valuation assumptions at the various grant dates and pro forma results of the Company for the three months ended March 31, 2012 and 2011 would have been as follows:

	TSMC	Xintec
Valuation assumptions:		
Expected dividend yield	1.00%-3.44%	0.80%
Expected volatility	43.77%-46.15%	31.79%-47.42%
Risk free interest rate	3.07%-3.85%	1.88%-2.45%
Expected life	5 years	3 years

	Three Months Ended March 31	
	2012	2011
Net income attributable to shareholders of the parent:		
As reported	\$ 33,474,187	\$ 36,277,773
Pro forma	33,402,682	36,273,711
Earnings per share (EPS) - after income tax (NT\$):		
Basic EPS as reported	\$ 1.29	\$ 1.40
Pro forma basic EPS	1.29	1.40
Diluted EPS as reported	1.29	1.40
Pro forma diluted EPS	1.29	1.40

The Board of Directors of TSMC SSL and TSMC Solar resolved on November 21, 2011 to issue new shares for cash and reserved 17,175 thousand shares and 12,341 thousand shares, respectively, for their employees to subscribe to, according to the Company Law. The aforementioned shares were fully vested on the grant date.

Information about TSMC SSL's and TSMC Solar's employee stock options related to the aforementioned new shares issued was as follows:

	TSMC SSL		TSMC Solar	
	Number of Options (In Thousands)	Weighted- average Exercise Price (NT\$)	Number of Options (In Thousands)	Weighted- average Exercise Price (NT\$)
<u>Three months ended March 31, 2012</u>				
Balance, beginning of period		\$		\$
Options granted	17,175	10.0	12,341	10.0
Options exercised	(17,175)	10.0	(12,341)	10.0
Balance, end of period				

The grant date of aforementioned stock options was January 9, 2012. TSMC SSL and TSMC Solar used the Black-Scholes model to determine the fair value of the options. The valuation assumptions were as follows:

	TSMC SSL	TSMC Solar
Valuation assumptions:		
Stock price on grant date (NT\$/share)	\$ 8.9	\$ 9.0
Exercise price (NT\$/share)	\$ 10.0	\$ 10.0
Expected volatility	40.32%	40.32%
Expected life	40 days	40 days
Risk free interest rate	0.76%	0.76%

The stock price on grant date was determined based on the cost approach. The expected volatility was calculated using the historical rate of return based on the TSE Optoelectronic Index.

The fair value of the aforementioned stock option was close to nil, and accordingly, no compensation cost was recognized.

24. EARNINGS PER SHARE

EPS is computed as follows:

	Amounts (Numerator)		Number of Shares (Denominator) (In Thousands)	EPS (NT\$)	
	Before Income Tax	After Income Tax		Before Income Tax	After Income Tax
Three months ended March 31, 2012					
Basic EPS					
Earnings available to common shareholders of the parent	\$ 35,776,923	\$ 33,474,187	25,917,646	\$ 1.38	\$ 1.29
Effect of dilutive potential common shares			8,800		
Diluted EPS					
Earnings available to common shareholders of the parent (including effect of dilutive potential common shares)	\$ 35,776,923	\$ 33,474,187	25,926,446	\$ 1.38	\$ 1.29
Three months ended March 31, 2011					
Basic EPS					
Earnings available to common shareholders of the parent	\$ 40,139,062	\$ 36,277,773	25,912,506	\$ 1.55	\$ 1.40
Effect of dilutive potential common shares			11,060		
Diluted EPS					
Earnings available to common shareholders of the parent (including effect of dilutive potential common shares)	\$ 40,139,062	\$ 36,277,773	25,923,566	\$ 1.55	\$ 1.40

If the Company may settle the obligation by cash, by issuing shares, or in combination of both cash and shares, profit sharing to employees which will be settled in shares should be included in the weighted average number of shares outstanding in calculation of diluted EPS, if the shares have a dilutive effect. The number of shares is estimated by dividing the amount of profit sharing to employees in stock by the closing price (after considering the dilutive effect of dividends) of the common shares on the balance sheet date. Such dilutive effect of the potential shares needs to be included in the calculation of diluted EPS until the shares of profit sharing to employees are resolved in the shareholders meeting in the following year.

The average number of shares outstanding for EPS calculation has been considered for the effect of retrospective adjustments. This adjustment caused each of the basic and diluted after income tax EPS for the three months ended March 31, 2011 to remain at NT\$1.40.

25. DISCLOSURES FOR FINANCIAL INSTRUMENTS

- a. Fair values of financial instruments were as follows:

	Carrying Amount	March 31		Carrying Amount	Fair Value
		2012 Fair Value	2011 Fair Value		
Assets					
Financial assets at fair value through profit or loss	\$ 1,658	\$ 1,658	\$ 12,283	\$ 12,283	

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

Available-for-sale financial assets	3,577,801	3,577,801	29,600,562	29,600,562
Held-to-maturity financial assets	8,284,430	8,328,272	13,081,323	13,206,182
Financial assets carried at cost	4,180,185		4,209,597	

(Continued)

	March 31			
	2012			2011
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Liabilities				
Financial liabilities at fair value through profit or loss	\$ 61,038	\$ 61,038	\$ 48,850	\$ 48,850
Hedging derivative financial liabilities	135	135	676	676
Bonds payable (including current portion)	35,000,000	35,248,224	4,500,000	4,542,890
Long-term bank loans (including current portion)	1,650,000	1,650,000	1,281,321	1,281,321
Other long-term payables (including current portion)	1,910,008	1,910,008	7,984,296	7,984,296
Obligations under capital leases (including current portion)	772,414	772,414	678,403	678,403
				(Concluded)

b. Methods and assumptions used in the estimation of fair values of financial instruments

- 1) The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, refundable deposits, short-term loans, payables and guarantee deposits. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
- 2) Except for derivatives, available-for-sale and held-to-maturity financial assets were based on their quoted market prices.
- 3) The fair values of those derivatives are determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
- 4) Financial assets carried at cost have no quoted prices in an active market and entail an unreasonably high cost to obtain verifiable fair values. Therefore, no fair value is presented.
- 5) Fair value of bonds payable was based on their quoted market price.
- 6) Fair values of long-term bank loans, other long-term payables and obligations under capital leases were based on the present value of expected cash flows, which approximate their carrying amounts.

c. Valuation gains (losses) arising from changes in fair value of derivatives contracts determined using valuation techniques were recognized as a net loss of NT\$59,380 thousand and NT\$36,567 thousand for the three months ended March 31, 2012 and 2011, respectively.

d. As of March 31, 2012 and 2011, financial assets exposed to fair value interest rate risk were NT\$8,290,016 thousand and NT\$38,127,088 thousand, respectively; financial liabilities exposed to fair value interest rate risk were NT\$72,283,531 thousand and NT\$46,346,763 thousand, respectively; and financial liabilities exposed to cash flow interest rate risk were NT\$1,650,135 thousand and NT\$1,281,321 thousand, respectively.

- e. Movements of the unrealized gains or losses on financial instruments for the three months ended March 31, 2012 and 2011 were as follows:

	Three Months Ended March 31, 2012			
	From Available- for-sale Financial Assets	Equity Method Investments	Gain (Loss) on Cash Flow Hedges	Total
Balance, beginning of period	\$ (1,155,091)	\$ (17,671)	\$ (93)	\$ (1,172,855)
Recognized directly in shareholders equity	354,534	15,012		369,546
Removed from shareholders equity and recognized in earnings	(79,977)		39	(79,938)
Balance, end of period	\$ (880,534)	\$ (2,659)	\$ (54)	\$ (883,247)

	Three Months Ended March 31, 2011			
	From Available- for-sale Financial Assets	Equity Method Investments	Gain (Loss) on Cash Flow Hedges	Total
Balance, beginning of period	\$ 86,158	\$ 23,462	\$ (331)	\$ 109,289
Recognized directly in shareholders equity	56,915	(13,204)	57	43,768
Removed from shareholders equity and recognized in earnings	(108,184)			(108,184)
Balance, end of period	\$ 34,889	\$ 10,258	\$ (274)	\$ 44,873

- f. Information about financial risks

- 1) Market risk. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the market exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market exchange rate risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets and held-to-maturity financial assets held by the Company are mainly fixed-interest-rate debt securities and publicly traded stocks; therefore, the fluctuations in market interest rates and market prices will result in changes in fair values of these debt securities.
- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The Company evaluated whether the financial instruments for any possible counter-parties or third-parties are reputable financial institutions, business enterprises and government agencies and accordingly, the Company believed that the Company's exposure to credit risk was not significant.

- 3) Liquidity risk. The Company has sufficient operating capital and bank facilities to meet cash needs upon settlement of derivative financial instruments, bonds payable and bank loans. Therefore, the liquidity risk is low.
- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates. The long-term bank loans were floating-rate loans; therefore, changes in the market interest rates will result in changes in the interest rate of the long-term bank loans, which will affect future cash flows.
- g. The Company seeks to reduce the effects of future cash flow related interest rate changes by primarily using derivative financial instruments.

The Company's long-term bank loans bear floating interest rates; therefore, changes in the market interest rate may cause future cash flows to be volatile. Accordingly, the Company entered into an interest rate swap contract in order to hedge cash flow risk caused by floating interest rates. Information about outstanding interest rate swap contract consisted of the following:

Hedged Item	Hedging Financial		Expected Cash Flow Generated Period	Expected Timing for the Recognition of Gains or Losses from Hedge
	Instrument	Fair Value		
<u>March 31, 2012</u>				
Long-term bank loans	Interest rate swap contract	\$ (135)	2011 to 2012	2011 to 2012
<u>March 31, 2011</u>				
Long-term bank loans	Interest rate swap contract	(676)	2010 to 2012	2010 to 2012

26. RELATED PARTY TRANSACTIONS

Except as disclosed in the consolidated financial statements and other notes, the following is a summary of significant related party transactions:

a. Investees of TSMC

GUC (prior to July 2011, GUC was a subsidiary. Since July 2011, GUC is accounted for using the equity method.)

VIS (accounted for using the equity method)

SSMC (accounted for using the equity method)

b. Indirect investee

VisEra Technology Company, Ltd. (VisEra), an indirect investee accounted for using the equity method by TSMC.

Mcube, an indirect investee accounted for using the equity method by TSMC.

c. Others

Related parties over which the Company has significant influence but with which the Company had no material transactions.

	2012		2011	
	Amount	%	Amount	%

The sales prices and payment terms to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices and terms were determined in accordance with mutual agreements.

The Company leased certain office space and facilities from VIS. The lease terms and prices were determined in accordance with mutual agreements. The rental expense was paid monthly and the related expenses were classified under research and development expenses and manufacturing expenses. The lease expired in April 2011.

27. PLEDGED OR MORTGAGED ASSETS

The Company provided certain assets as collateral mainly for long-term bank loans, land lease agreements and customs duty guarantee, which were as follows:

	March 31	
	2012	2011
Other financial assets	\$ 118,296	\$ 118,418
Property, plant and equipment, net		1,048,102
Other assets		20,000
	\$ 118,296	\$ 1,186,520

28. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land, factory and office premises from the Science Park Administration and Jhongli Industrial Park Service Center. These operating leases expire on various dates from April 2012 to January 2032 and can be renewed upon expiration.

The Company entered into lease agreements for its office premises and certain office equipment located in the United States, Japan, Shanghai and Taiwan. These operating leases expire between 2012 and 2020 and can be renewed upon expiration.

As of March 31, 2012, future lease payments were as follows:

Year	Amount
2012 (2 nd to 4 th quarter)	\$ 478,646
2013	602,305
2014	575,138
2015	564,884
2016	553,294
2017 and thereafter	4,023,254
	\$ 6,797,521

29. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Significant commitments and contingencies of the Company as of March 31, 2012, excluding those disclosed in other notes, were as follows:

- a. Under a technical cooperation agreement with Industrial Technology Research Institute, the R.O.C. Government or its designee approved by TSMC can use up to 35% of TSMC's capacity if TSMC's outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice.
- b. Under several foundry agreements, TSMC shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with TSMC. As of March 31, 2012, TSMC had a total of US\$11,330 thousand of guarantee deposits.
- c. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. TSMC's equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. TSMC and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, TSMC and NXP B.V. currently own approximately 39% and 61% of the SSMC's capacity, but TSMC and Philips (now NXP B.V.) are required, in the aggregate, to purchase at least 70% of SSMC's capacity, but TSMC alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC fall below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.
- d. In August 2006, TSMC filed a lawsuit against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referred to as SMIC) in the Superior Court of California for Alameda County for breach of a 2005 agreement that settled an earlier trade secret misappropriation and patent infringement litigation between the parties, as well as for trade secret misappropriation, seeking injunctive relief and monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC in the same court alleging breach of settlement agreement, implied covenant of good faith and fair dealing. SMIC also filed a civil action against TSMC in November 2006 with the Beijing People's High Court alleging defamation and breach of good faith. On June 10, 2009, the Beijing People's High Court ruled in favor of TSMC and dismissed SMIC's lawsuit. On November 4, 2009, after a two-month trial, a jury in the California action found SMIC to have both breached the 2005 settlement agreement and misappropriated TSMC's trade secrets. TSMC has subsequently settled both lawsuits with SMIC. Pursuant to the new settlement agreement, the parties have agreed to the entry of a stipulated judgment in favor of TSMC in the California action, and to the dismissal of SMIC's appeal against the Beijing High Court's finding in favor of TSMC. Under the new settlement agreement and the related stipulated judgment, SMIC has agreed to make cash payments by installments to TSMC totaling US\$200 million, which

are in addition to the US\$135 million previously paid to TSMC under the 2005 settlement agreement, and, conditional upon relevant government regulatory approvals, to issue to TSMC a total of 1,789,493,218 common shares of Semiconductor Manufacturing International Corporation and a three-year warrant to purchase 695,914,030 common shares (subject to adjustment) of Semiconductor Manufacturing International Corporation at HK\$1.30 per share (subject to adjustment). TSMC has received the approval from the Investment Commission of Ministry of Economic Affairs and acquired the above mentioned common shares in July 2010, which are recorded within available for sale financial assets, and obtained the subsequent cash settlement income in accordance with the agreement.

- e. In June 2010, Keranos, LLC. filed a lawsuit in the U.S. District Court for the Eastern District of Texas alleging that TSMC, TSMC North America, and several other leading technology companies infringe three expired U.S. patents. In response, TSMC, TSMC North America, and several co-defendants in the Texas case filed a lawsuit against Keranos in the U.S. District Court for the Northern District of California in November 2010, seeking a judgment declaring that they did not infringe the asserted patents, and that those patents are invalid. These two litigations have been consolidated into a single case in the U.S. District Court for the Eastern District of Texas. The outcome cannot be determined at this time.
- f. In December 2010, Ziptronix, Inc. filed a complaint in the U.S. District Court for the Northern District of California accusing TSMC, TSMC North America and one other company of allegedly infringing six U.S. patents. This litigation is in its very early stages and therefore the outcome of the case cannot be determined at this time.
- g. TSMC entered into an agreement with a counterparty in 2003 whereby TSMC China is obligated to purchase certain property, plant and equipment at the agreed-upon price within the contract period. If the purchase is not completed, TSMC China is obligated to compensate the counterparty for the loss incurred. The property, plant and equipment have been in use by TSMC China since 2004 and are being depreciated over their estimated service lives. The related obligation totaled NT\$1,762,363 thousand and NT\$6,942,466 thousand as of March 31, 2012 and 2011, respectively, which is included in other long-term payables.
- h. Amounts available under unused letters of credit as of March 31, 2012 were NT\$95,244 thousand.

30. EXCHANGE RATE INFORMATION OF FOREIGN-CURRENCY FINANCIAL ASSETS AND LIABILITIES

The significant financial assets and liabilities denominated in foreign currencies were as follows:

	March 31			
	2012		2011	
	Foreign Currencies	Exchange Rate	Foreign Currencies	Exchange Rate
	(In Thousands)	(Note)	(In Thousands)	(Note)
Financial assets				
Monetary items

31. PRE-DISCLOSURE OF THE ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS

According to the Rule No. 0990004943 issued by the Financial Supervisory Commission (FSC) on February 2, 2010, the Company is required to provide pre-disclosure regarding the adoption of the International Financial Reporting Standards (IFRSs) in the consolidated financial statements as follows.

- a. On May 14, 2009, the FSC announced the roadmap of IFRSs adoption for R.O.C. companies. Accordingly, starting 2013, companies with shares listed on the TSE or traded on the Taiwan GreTai Securities Market or Emerging Stock Market should prepare the consolidated financial statements in accordance with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the IFRSs, International Accounting Standards (IASs), interpretations as well as related guidance translated by Accounting Research and Development Foundation (ARDF) and issued by the FSC. To comply with the aforementioned amendments, the Company established a taskforce to monitor and execute the IFRSs adoption plan. The important plan items, responsible divisions and plan progress are listed as follows.

Plan Item	Responsible Division	Plan Progress
1) Establish the IFRSs taskforce	Accounting division	Finished
2) Complete the identification of GAAP differences and impact	Accounting division, finance division and employee benefit and payroll section	Finished

(Continued)

Plan Item	Responsible Division	Plan Progress
3) Complete the identification of consolidated entities under IFRSs	Accounting division	Finished
4) Evaluate potential effect to business operations	Accounting division, finance division, employee benefit and payroll section and business system integration division	Finished
5) Complete the preliminary evaluation of resources and budget needed for IFRSs adoption	Accounting division and business system integration division	Finished
6) Set up a work plan for IFRSs adoption	Accounting division and business system integration division	Finished
7) Personnel training	Accounting division	Finished
8) Determine IFRSs accounting policies	Accounting division, finance division and employee benefit and payroll section	Finished
9) Develop financial statement template under IFRSs	Accounting division and finance division	Finished
10) Complete evaluation, configuration and testing of the IT systems	Accounting division and business system integration division	Finished
11) Communicate with related departments on the impact of IFRSs adoption	Accounting division	Finished
12) Complete the preparation of opening balance sheet under IFRSs	Accounting division	Finished
13) Complete modification to the relevant internal controls	Accounting division and internal audit division	In progress according to the plan
14) Prepare comparative financial information under IFRSs for 2012	Accounting division and finance division	In progress according to the plan

(Concluded)

b. Exemptions from IFRS 1

IFRS 1, First-time Adoption of International Financial Reporting Standards, establishes the procedures for the Company's first consolidated financial statements prepared in accordance with IFRSs. According to IFRS 1, the Company is required to determine the accounting policies under IFRSs and retrospectively apply to those accounting policies in its opening balance sheet at the date of transition to IFRSs (January 1, 2012; the transition date); except for optional exemptions and mandatory exceptions to such retrospective application provided under IFRS 1. The main optional exemptions the Company adopted are summarized as follows:

- 1) Business combinations. The Company elected not to apply IFRS 3, Business Combinations, retrospectively to business combinations occurred before January 1, 2012. Therefore, in the opening balance sheet, the amount of goodwill generated from past business combinations remains the same compared with the one under R.O.C. GAAP as of December 31, 2011.
- 2) Employee benefits. The Company elected to recognize all cumulative actuarial gains and losses in retained earnings as of January 1, 2012. In addition, the Company elected to apply the exemption disclosure requirement provided by IFRS 1, in which the amounts of present value of defined benefit obligations, the fair value of plan assets, the surplus or deficit in the plan and the experience adjustments are determined for each accounting period prospectively from the transition date.
- 3) Share-based payment. The Company elected to take the optional exemption from applying IFRS 2, Share-based Payment, retrospectively for the share-based payment transactions granted and vested before January 1, 2012.

c. As of March 31, 2012, based on the Company's assessment, the significant differences between the Company's current accounting policies under R.O.C. GAAP and the ones under IFRSs are stated as follows:

- 1) Reconciliation of consolidated balance sheet as of January 1, 2012

R.O.C. GAAP Item	Amount	Effect of Transition to IFRSs		Amount	IFRSs Item	Note

4) Notes to the reconciliation of the significant differences:

a) Allowance for sales returns and others

Under R.O.C. GAAP, provisions for estimated sales returns and others are recognized as a reduction in revenue in the period the related revenue is recognized based on historical experience. Allowance for sales returns and others is recorded as a deduction in accounts receivable. Under IFRSs, the allowance for sales returns and others is a present obligation with uncertain timing and an amount that arises from past events and is therefore reclassified as provisions (classified under current liabilities) in accordance with IAS No 37, Provisions, Contingent Liabilities and Contingent Assets.

As of March 31, 2012 and January 1, 2012, the amounts reclassified from allowance for sales returns and others to provisions were NT\$5,428,410 thousand and NT\$5,068,263 thousand, respectively.

b) Classifications of deferred income tax asset/liability and valuation allowance

Under R.O.C. GAAP, a deferred tax asset and liability is classified as current or non-current in accordance with the classification of its related asset or liability. However, if a deferred income tax asset or liability does not relate to an asset or liability in the financial statements, it is classified as either current or non-current based on the expected length of time before it is realized or settled. Under IFRSs, a deferred tax asset and liability is classified as non-current asset or liability.

In addition, under R.O.C. GAAP, valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. In accordance with IAS No 12, Income Taxes, deferred tax assets are only recognized to the extent that it is probable that there will be sufficient taxable profits and the valuation allowance account is no longer used.

As of March 31, 2012 and January 1, 2012, the amounts reclassified from deferred income tax assets to non-current assets were NT\$6,736,065 thousand and NT\$5,936,490 thousand, respectively.

c) The classification of leased assets and idle assets

Under R.O.C. GAAP, leased assets and idle assets are classified under other assets. Under IFRSs, the aforementioned items are classified as property, plant and equipment according to their nature. Leased assets are mainly dormitories leased to employees and factories leased to suppliers. In accordance with IAS No 40, Investment Property, the dormitories leased to employees are not classified as investment properties; factories leased to suppliers are not considered as investment properties since they cannot be sold separately and comprise only an insignificant portion of the plant.

As of March 31, 2012 and January 1, 2012, the amounts reclassified from leased assets and idle assets to property, plant and equipment were NT\$37,042 thousand and NT\$47,237 thousand, respectively.

d) Employee benefits

The Company had previously applied an actuarial valuation on its defined benefit obligation and recognized the related pension cost and retirement benefit obligation in conformity with R.O.C. GAAP. Under IFRSs, the Company should carry out actuarial valuation on defined benefit obligation in accordance with IAS No. 19, Employee Benefits.

In addition, under R.O.C. GAAP, it is not allowed to recognize actuarial gains and losses from defined benefit plans directly to equity; instead, actuarial gains and losses should be accounted for under the corridor approach which resulted in the deferral of gains and losses. When using the corridor approach, actuarial gains and losses should be amortized over the expected average remaining working lives of the participating employees.

Under IAS No. 19, Employee Benefits, the Company elects to recognize actuarial gains and losses immediately in full in the period in which they occur, as other comprehensive income. The subsequent reclassification to earnings is not permitted.

At the transition date, the Company performed the actuarial valuation under IAS No. 19, Employee Benefits, and recognized the valuation difference directly to retained earnings under the requirement of IFRS 1. As of March 31, 2012 and January 1, 2012, accrued pension cost was adjusted for an increase of NT\$2,314,418 thousand and NT\$2,332,516 thousand, respectively; deferred income tax assets were adjusted for an increase of NT\$229,265 thousand and NT\$231,011 thousand, respectively. Pension cost and income tax expense for the three months ended March 31, 2012 were also adjusted for a decrease of NT\$18,098 thousand and an increase of NT\$1,746 thousand, respectively.

e) Investments accounted for using the equity method

The Company has evaluated significant differences between current accounting policies and IFRSs for the Company's associates and joint ventures accounted for using the equity method. The significant difference is mainly due to the adjustment to employee benefits.

In addition, if the investing company subscribes for additional investee's shares at a percentage different from its existing ownership percentage that results in a decrease in the investing company's holding percentage in the investee, the resulting carrying amount of the investment in the investee differs from the amount of its share in the investee's equity. Under R.O.C. GAAP, the investing company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus. Under IFRSs, such transaction is deemed a disposal and aforementioned difference is recognized in earnings accordingly.

As of March 31, 2012 and January 1, 2012, as a result of the differences mentioned above, investment accounted for using the equity method was adjusted for a decrease of NT\$52,765 thousand and NT\$13,401 thousand, respectively; cumulative translation adjustments was adjusted for an increase of NT\$16 thousand and NT\$5 thousand, respectively; capital surplus was adjusted for a decrease of NT\$415,322 thousand and NT\$374,695 thousand, respectively. In addition, equity in earnings of equity method investees was adjusted for an increase of NT\$1,252 thousand for the three months ended March 31, 2012.

f) The reclassification of line items in the consolidated statement of comprehensive income

In accordance with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers before its amendment due to the adoption of IFRSs, income from operations in the consolidated income statement only includes net sales, cost of sales and operating expenses. Under IFRSs, based on the nature of operating transactions, technical service income is reclassified under net sales; rental revenue, depreciation of rental assets, net loss on disposal of property, plant and equipment and other assets, and impairment loss on idle assets, are reclassified under other operating gains and losses, which are reflected in income from operations.

Under IFRSs, based on the nature of operating transactions, the Company reclassified technical service income of NT\$107,156 thousand for the three months ended March 31, 2012 to net sales, rental revenue of NT\$254 thousand, net loss on disposal of property, plant and equipment and other assets of NT\$1,495 thousand, depreciation of rental assets of NT\$2,356 thousand and impairment loss on idle assets of NT\$442,312 thousand to other operating gains and losses. In addition, interest income of NT\$501,236 thousand was also reclassified to other income; net gain of settlement and disposal of financial assets of NT\$73,591 thousand, others of NT\$67,038 thousand (under non-operating income and gains), net valuation loss on financial instruments of NT\$245,005 thousand, impairment of financial assets of NT\$4,390 thousand as well as others of NT\$70,985 thousand (under non-operating expenses and losses) were reclassified to other gains and losses for the three months ended March 31, 2012.

- d. The Company's aforementioned assessment is based on the 2010 version of IFRSs translated by ARDF and the Guidelines Governing the Preparation of Financial Reports by Securities Issuers issued by FSC on December 22, 2011. However, the assessment result may be impacted as FSC may issue new rules governing the adoption of IFRSs, and as other laws and regulations may be amended to comply with the adoption of IFRSs. Actual results may differ from these assessments.

32. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for TSMC and its investees in which all significant intercompany balances and transactions are eliminated upon consolidation:

- a. Financings provided: Please see Table 1 attached;
- b. Endorsement/guarantee provided: None;
- c. Marketable securities held: Please see Table 2 attached;
- d. Marketable securities acquired or disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;
- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None;
- g. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- h. Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 6 attached;
- i. Names, locations, and related information of investees over which TSMC exercises significant influence: Please see Table 7 attached;
- j. Information on investment in Mainland China

Edgar Filing: TAIWAN SEMICONDUCTOR MANUFACTURING CO LTD - Form 6-K

- 1) The name of the investee in Mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 8 attached.

- 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in Mainland China on financial reports: Please see Table 9 attached.

k. Intercompany relationships and significant intercompany transactions: Please see Table 9 attached.

33. OPERATING SEGMENT INFORMATION

The Company's only reportable segment is the foundry segment. The foundry segment engages mainly in the manufacturing, selling, packaging, testing and computer-aided design of integrated circuits and other semiconductor devices and the manufacturing of masks. The Company also had other operating segments that did not exceed the quantitative threshold. These segments mainly engage in the researching, developing, and providing SoC (System on Chip) design and also engage in the researching, developing, designing, manufacturing and selling of solid state lighting devices and renewable energy and efficiency related technologies and products.

The Company uses the operating profit as the measurement for segment profit and the basis of performance assessment. There was no material inconsistency between the accounting policies of the operating segment and the accounting policies described in Note 2.

The Company's operating segment information was as follows:

	Foundry	Others	Elimination	Total
<u>Three months ended March 31, 2012</u>				
Sales from external customers	\$ 105,461,676	\$ 45,999	\$	\$ 105,507,675
Sales among intersegments				
Operating profit (loss)	35,979,165	(541,197)		35,437,968
<u>Three months ended March 31, 2011</u>				
Sales from external customers	103,290,219	2,087,276		105,377,495
Sales among intersegments	703,023	6,224	(709,247)	
Operating profit (loss)	39,370,261	(207,281)		39,162,980

34. THE AUTHORIZATION OF FINANCIAL STATEMENTS

The financial statements were approved by the management on April 24, 2012.

TABLE 1**Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries****FINANCINGS PROVIDED****FOR THE THREE MONTHS ENDED MARCH 31, 2012****(Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise)**
