Good (morning, afternoon, evening) my name is (AGENT S FULL NAME). May I please speak with (Mr. /Ms. / Mrs.) (SHAREHOLDER S FULL NAME)?

(Re-Greet If Necessary)

I am calling on a recorded line regarding a current investment with **MFS Funds**. I wanted to confirm that you have received the proxy material for the shareholder meeting scheduled for August 31, 2012. Have you received the information?

(Pause for response)

If Yes or positive response:

If you're not able to attend the meeting, I can record your voting instructions by phone. The Board of Trustees is recommending a vote in favor. Would you like to vote along with the Board's Recommendation?

(Pause for response)

If No or negative response:

I would be happy to review the meeting agenda and record your vote by phone. However, the Board of Trustees is recommending a vote in favor. Would you like to vote along with the Board's recommendation?

(Pause for response)

If proposal review requested:

I would be happy to review the meeting agenda and record your vote by phone.

As described in more detail below, the Board of Trustees of each Trust (each a Board) has approved amendments (the Amendments) to each Trust's Bylaws (as defined below) that would replace S&P with Fitch as one of the two rating agencies (along with Moody's Investors Service, Inc. (Moody's)) that provide credit ratings for the Trust's ARPS. The Board of each Trust has recommended that its Preferred Shareholders vote to approve the Amendments at their upcoming Meeting.

The Board of each Trust has approved the Amendments in connection with each Trust's intention to conduct an issuer tender offer (each a Tender Offer) for up to 100% of its ARPS and to replace the tendered ARPS and associated leverage with a new type of preferred shares that would be issued by the Trust, to be designated Variable Rate Municipal Term Preferred Shares (VMTP).

Each Trust's Tender Offer will be at a price equal to 95% of the ARPS per share liquidation preference of \$25,000 (\$23,750 per share) plus any unpaid dividends accrued through the expiration date of the Tender Offer. Each Trust's Tender Offer will be conditioned upon, among other conditions, a minimum of 70% of the Trust's outstanding ARPS being tendered and the successful private placement of VMTP. In addition, each Trust's Tender Offer will be conditioned upon approval of the Amendments by the Trust's Preferred Shareholders at their upcoming Meeting.

The full details of the ARPS Tender Offers are provided in documents filed by the Trusts with the Securities and Exchange Commission.

If less than 100% of a Trust's ARPS are tendered in the Tender Offers, the Trust would continue after its Tender Offer with both ARPS and VMTP outstanding. In that case, and in the absence of the Amendments and replacement of S&P with Fitch as a rating agency for ARPS for a Trust, the Trust would then have three separate rating agencies rating its outstanding preferred shares (*i.e.*, S&P and Moody's for ARPS and Fitch and Moody's for VMTP), each with ratings criteria and related requirements that differ in various respects. The Boards and MFS believe that having the same two rating agencies (Fitch and Moody's) rate both ARPS and VMTP would continue to provide adequate protections for remaining Preferred Shareholders, with the benefit of reducing expenses and administrative burdens to the Trusts that would be associated with ensuring compliance with three separate sets of ratings criteria for the Trusts' outstanding preferred shares. The Boards and MFS also believe that observance of three separate sets of ratings criteria could unduly burden and restrict the efficient management of the Trust's portfolios, with potential adverse effects on the Trusts' investment performance and returns for common shareholders.

The Boards took into account that Fitch is among the leading NRSROs in the industry, and currently provides ratings for preferred shares issued by approximately 215 U.S. registered closed-end investment companies representing approximately \$17 billion in preferred share assets. The Boards also took into account that Fitch substantially modified and updated its ratings criteria for closed-end fund preferred stock and debt in August 2009, with further updates in August 2011, as noted above.

In addition, the Boards and MFS took into account that, in August 2010, S&P issued a release requesting comments on proposed changes to its methodologies and assumptions for rating market value securities, including preferred shares issued by U.S. registered closed-end funds. Among other changes, S&P proposed more conservative criteria for stress testing of asset coverage for preferred shares, including greater market value haircuts and new industry concentration limits for fund holdings, and a six-month minimum liquidation period for certain asset types. S&P has not to date indicated publicly when it may adopt the proposed changes or how they might be modified from those summarized in the August 2010 release.

MFS' analysis of S&P's proposed changes in reference to the Trusts' current portfolios indicates that, if adopted as proposed, they would result in the ARPS of each Trust qualifying for a lower rating than their current AAA rating from S&P, in some cases qualifying for a BBB rating or lower. While it is unclear whether or when S&P might adopt the changes or, if so, whether or to what extent S&P would downgrade its ratings of any of the Trusts' ARPS based on current investment processes, any such downgrades (depending on the extent) could result in a Trust paying dividends at higher maximum rates to its Preferred Shareholders, thereby increasing the costs of leverage to the Trust and reducing returns to the Trust's common shareholders or require modifications to a Trust's investment processes.

¹ The maximum rate payable to the Trusts' ARPS, while the ARPS are rated AA3/AA- or higher is 110% of the higher of (i) the interest equivalent of a specified commercial paper rate or (ii) the taxable equivalent of a calculated short-term municipal bond rate. If the ARPS ratings are downgraded by S&P (or Moody's) to anywhere in the single A category, the 110% multiplier increases to 125%, and if downgraded to anywhere in the BBB category, the multiplier increases to 150%.

The Boards and MFS believe that, in light of the uncertainty regarding the S&P proposals, and potential ARPS downgrades by S&P and possible resulting increases to the Trusts' leverage expenses or changes to a Trust's investments, replacing S&P with Fitch as a rating agency of the ARPS would be in the best interests of the Trusts.

The Board of Trusts is recommending a vote in favor on all proposals. Would you like to vote along with the Board's Recommendation?

(Pause for response)

(If asked for more information regarding benefits to ARPS holders)

Amending each Fund's bylaws to replace S&P with Fitch (the Proposal) is being proposed to the ARPS holders in connection with providing a liquidity opportunity to the ARPS holders through tender offers.

Each Fund is currently conducting a tender offer for up to 100% of its ARPS. The tendered ARPS would be replaced with Variable Rate Municipal Term Preferred Shares (VMTP). Each Fund's tender offer is equal to 95% of the ARPS per share liquidation preference and is conditioned on, among other things, approval of the Proposal by the ARPS holders. The tender offers expire on September 7, 2012.

The Funds are under no legal obligation to redeem ARPS or to provide other liquidity alternatives for ARPS holders. The Board of each Fund has determined to provide this liquidity opportunity for ARPS holders at this time, but in doing so was obliged to consider and balance the interests of the Funds' common shareholders, who will be giving up the permanency of leverage provided by tendered ARPS for a term-limited alternative in the form of VMTP. In attempting to balance such interests, the Boards determined, among other features of the overall ARPS refinancing proposal, to offer to purchase the ARPS at a discount in the tender offers and also to propose the replacement of S&P with Fitch as an ARPS rating agency. As summarized in detail in the proxy statement, the Boards believe that replacing S&P with Fitch pursuant to the Proposal would benefit the Funds by providing operational efficiencies of having the same two rating agencies rate both the ARPS and VMTP (rather than three in total) and potentially avoiding higher leverage costs for the Funds if and when S&P changes its ratings criteria as it proposed in 2010. Also, the Boards recognized that Fitch is among the leading NRSROs that recently substantially modified and updated its preferred share ratings criteria and should provide adequate protections for ARPS holders and holders of the VMTP.

Consequently, it is in the best interest of ARPS holders who want to tender to vote in favor of the Proposal since the approval by ARPS holders of the Proposal is a condition to each tender offer.
