Item 1.01. Entry into a Material Definitive Agreement

On December 6, 2012, Amarin Corporation plc (the Company) and a subsidiary (collectively with the Company, Amarin) entered into a financing agreement with Biopharma Secured Debt Fund II Holdings Cayman LP, a Cayman Islands exempted limited partnership (Biopharma) providing for the purchase of a hybrid debt-like instrument (the Transaction). Under the agreement, Amarin will receive \$100 million at closing, which is subject to customary closing conditions and expected to close no later than December 27, 2012. In return, Amarin is obligated to make quarterly payments to Biopharma that are scheduled to increase yearly until the total amount due under the agreement is paid. The first payment is scheduled in November 2013 and will be no more than \$2.5 million. The final payment could be as early as May 2017. Based on various conditions specified in the agreement and operating assumptions, quarterly payments could be reduced and the repayment period could be longer resulting in an estimated effective compounded interest rate to Amarin of approximately 12% to 14%.

To secure its obligations in connection with the agreement, Amarin granted Biopharma a security interest in its patents, trademarks, copyrights, know-how and regulatory filings, submissions and approvals related to Amarin's lead product, Vascepa® (collectively, the Collateral). If Amarin (i) fails to deliver a payment when due and does not remedy that failure within a cure period, (ii) fails to deliver certain reports when due and does not remedy that failure within a cure period, (iii) incurs certain forms of indebtedness above specified limits, (iv) fails to maintain a first-priority perfected security interest in the Collateral and does not remedy that failure within a cure period or (v) becomes subject to an event of bankruptcy, then Biopharma may attempt to recover its unpaid scheduled payments.

Pursuant to the agreement, Amarin may not (i) incur indebtedness greater than a specified amount; (ii) pay a dividend or other cash distribution on its capital stock, unless it has cash and cash equivalents in excess of a specified amount; (iii) amend or restate its certificate of incorporation or bylaws unless such amendments or restatements do not affect Biopharma's interests under the agreement; (iv) encumber the Collateral; or (v) abandon certain patent rights, in each case without the consent of Biopharma.

Upon an Amarin change of control transaction, as defined in the agreement, Biopharma will be entitled to receive a specified amount less than the then unpaid scheduled payments if such change of control transaction occurs on or before December 31, 2013, and an amount equal to up to the unpaid scheduled payments if such change of control transaction occurs after December 31, 2013.

The foregoing description of the terms of the agreement is qualified in its entirety by reference to the provisions of the agreement, which will be filed as an exhibit to Amarin's Annual Report on Form 10-K for the year ending December 31, 2012.
