Item 1.01 Entry into a Material Definitive Agreement.

On July 18, 2014, Ascent Solar Technologies, Inc., a Delaware corporation (the Company), entered into a securities purchase agreement (the Purchase Agreement) with a group of institutional and accredited investors (the Investors). Pursuant to the terms of the Purchase Agreement, the Company will sell to the Investors an aggregate of \$32,000,000 original principal amount of senior secured convertible notes (the Notes) and warrants (the Warrants) to purchase up to 26,685,729 shares of the Company's common stock, par value \$0.0001 per share (the Common Stock). At the closing of the sale of the Notes and the Warrants (the Financing), the Company will enter into (i) a registration rights agreement (the Registration Rights Agreement) with the Investors, (ii) a security and pledge agreement (the Security and Pledge Agreement) in favor of the collateral agent for the Investors, and (iii) certain account control agreements with several banks with respect to restricted control accounts described in the Notes and Purchase Agreement. The Financing is expected to close on or before July 25, 2014 (the Closing Date), subject to the satisfaction of certain customary closing conditions.

The Company expects to receive gross proceeds of approximately \$7 million on the Closing Date. The remaining \$25 million of gross proceeds from the Financing will be deposited on the Closing Date by the Investors into restricted control accounts. These restricted proceeds will be released to the Company in increments in accordance with the terms of the Notes, as described further below.

In connection with the Financing, the Company will pay WestPark Capital, Inc., the placement agent (the Placement Agent), an aggregate cash fee equal to \$1.35 million, paid ratably over time as the gross proceeds of the Financing become unrestricted and available to the Company, as well as reimbursement of certain expenses. The Company will also issue shares of Common Stock (the Placement Agent Shares) in an amount equal to \$600,000 divided by the closing bid price of a share of Common Stock on July 21, 2014.

The Purchase Agreement provides that, subject to certain exceptions, the Company will not issue any securities from the Closing Date until the date immediately following the 90th trading day of the earlier of (A) the date that a resale registration statement for the resale of a portion of the Common Stock underlying the Notes and Warrants becomes effective or (B) the date that the Common Stock underlying the Notes and Warrants are eligible for resale under Rule 144. Under the Purchase Agreement, the Company will not enter into any new variable rate securities transactions so long as any Notes remain outstanding. For so long as any Notes remain outstanding, the Investors have the right to participate in the purchase of their respective pro rata portion of 50% of the securities offered by the Company in any future financing transactions.

In connection with the Purchase Agreement, TFG Radiant Investment Group Ltd. (TFG Radiant), the Company's largest stockholder, entered into a Voting Agreement with the Company. Pursuant to the Voting Agreement, TFG Radiant has agreed to vote all of the shares of Common Stock that it owns in favor of the stock issuances related to the Notes and Warrants and certain other stockholder proposals. The Company intends to seek stockholder approval for these matters at a special stockholders meeting to be held in August or September 2014.

Description of the Notes

Ranking

The Notes will rank senior to the Company's outstanding and future indebtedness, except for certain existing permitted indebtedness of the Company. The Notes are secured by a first priority perfected security interest in all of the Company's and its subsidiaries' current and future assets (including a pledge of the stock of the Company's subsidiaries), other than those assets which already secure the Company's existing permitted indebtedness. So long as any Notes remain outstanding, the Company and its subsidiaries will not incur any new indebtedness, except for permitted indebtedness under the Notes, or create any new encumbrances on the Company's or its subsidiaries' assets, except for permitted liens under the Notes. Under certain circumstances, subsidiaries of the Company will be required

to guarantee the Company's obligations under the Notes.

Maturity Date

Unless earlier converted or redeemed, the Notes will mature on the fifth anniversary of the Closing Date (Maturity Date), subject to the right of the Investors to extend the date under certain circumstances.

Interest

The Notes bear interest at a rate of 8% per annum, subject to increase to 15% per annum upon the occurrence and continuance of an event of default (as described below). Interest on the Notes is payable monthly in shares of Common Stock or cash, at the Company's option. Interest on the Notes is computed on the basis of a 360-day year and twelve 30-day months and is payable in arrears monthly and is compounded monthly.

Conversion

All amounts due under the Notes are convertible at any time, in whole or in part, at the option of the holders into shares of Common Stock at a fixed conversion price, which is subject to adjustment for stock splits, stock dividends, combinations or similar events. The Notes are convertible into shares of Common Stock at the initial price of \$0.5246 per share (the Conversion Price). If and whenever on or after the Closing Date, the Company issues or sells any shares of Common Stock for a consideration per share (the New Issuance Price) less than a price equal to the Conversion Price in effect immediately prior to such issuance or sale (a Dilutive Issuance), then, immediately after such Dilutive Issuance, the Conversion Price then in effect shall be reduced to an amount equal to the New Issuance Price.

Payment of Principal and Interest

The Company has agreed to make amortization payments with respect to the principal amount of the Notes in shares of its Common Stock, subject to the satisfaction of certain equity conditions, or at the Company's option, in cash or a combination of shares of Common Stock and cash, in equal installments payable once every month. The first installment will be two months after the Closing Date. On each of the installment dates, the Company's scheduled amortization payment will be an amount equal to approximately \$667,000.

For amortization payments paid in shares of Common Stock, the number of shares of Common Stock that shall be issued as an installment conversion amount shall be determined based on an installment conversion price (the Installment Conversion Price) of the lowest of (i) the Conversion Price then in effect, (ii) 85% of the volume-weighted average price of the Common Stock as of the trading day immediately preceding the applicable installment date and (iii) 85% of the quotient of (A) the sum of the volume-weighted average price of the Common Stock for each of the five lowest trading days during the 20 consecutive trading day period ending and including the trading day immediately prior to the applicable installment date, divided by five.

Any holder of Notes may elect to defer the payment of the installment amount due on any installment dates, in whole or in part, to another installment date, in which case the amount deferred will become part of such subsequent installment date and will continue to accrue interest.

During an installment period, any holder of Notes may elect to accelerate the amortization of the Notes at the Installment Conversion Price of the current installment date if, in the aggregate, all such accelerations in such period do not exceed five times the installment amount. Such accelerated amounts shall be payable in the Company's common stock.

Optional Redemption by the Company

Edgar Filing: Ascent Solar Technologies, Inc. - Form 8-K

The Company may redeem all, but not less than all, of the Notes at any time after 30 calendar days after the earlier of (A) the date that a resale registration statement for the resale of a portion of the Common Stock underlying the Notes and Warrants becomes effective or (B) the date that the Common Stock underlying the Notes and Warrants are eligible for resale under Rule 144, provided that the Company meets certain equity conditions. In the case of an optional redemption of Notes by the Company, the Notes shall be redeemed in cash at a price with a redemption premium of 120% calculated by the formula specified in the Notes. The Company is required to provide holders of the Notes with at least 90 trading days prior notice of its election to redeem the Notes.

Events of Default

The Notes contain standard and customary events of default including but not limited to: (i) failure to make payments when due under the Notes; (ii) bankruptcy or insolvency of the Company; and (iii) certain failures to comply with the requirements under the Registration Rights Agreement as described below.

If there is an event of default, a holder of the Notes may require the Company to redeem all or any portion of the Notes (including all accrued and unpaid interest and all interest that would have accrued through the Maturity Date), in cash, at a price equal to the greater of: (i) up to 125% of the amount being redeemed, depending on the nature of the default, and (ii) the product of (A) the conversion rate in effect at such time multiplied by (B) the product of (1) up to 125%, depending on the nature of the default, multiplied by (2) the highest closing sale price of the Common Stock on any trading day during the period beginning on the date immediately before the event of default and ending on the date of redemption.

Change of Control

The Notes prohibit the Company from entering into transactions involving a change of control, unless the successor entity is a publicly traded corporation that assumes all of the Company's obligations under the Notes in a written agreement approved by holders of the Notes.

In the event of transactions involving a change of control, the holder of a Note will have the right to require the Company to redeem all or any portion of the Note it holds (including all accrued and unpaid interest thereon and any interest that would have accrued through the Maturity Date), in cash, at a price with a redemption premium of 125% calculated by the formula specified in the Notes.

19.99% Cap

The Company is prohibited from issuing shares of Common Stock pursuant to the Notes and the Warrants in excess of 19.99% of the issued and outstanding shares of Common Stock immediately prior to the transaction unless stockholder approval of such issuance of securities is obtained as required by applicable NASDAQ rules. The Company intends to seek stockholder approval shares issuances in excess of such 19.99% limit at a special stockholders meeting to be held in August or September 2014.

Limitations on Conversion and Issuance

A Note may not be converted and shares of Common Stock may not be issued under the Notes if, after giving effect to the conversion or issuance, the holder together with its affiliates would beneficially own in excess of 4.99% or 9.99%, at the election of the holder made as of the Closing Date, of the outstanding shares of Common Stock. At each holder's option, the cap may be raised or lowered to any other percentage not in excess of 9.99%, except that any increase will only be effective upon 61-days' prior notice to the Company.

Dividend and Distribution Participation Rights

The holders of the Notes are entitled to receive any dividends paid or distributions made to the holders of Common Stock on an as if converted to Common Stock basis.

Control Accounts

On the Closing Date, the Company expects to receive cash proceeds of \$7 million and a deposit of an additional \$25 million into restricted control accounts. \$1 million shall be released to the Company three trading days after a resale

registration statement for the resale of a portion of the Common Stock underlying the Notes and Warrants becomes effective. Additional funds from the control accounts shall be released to the Company (i) in connection with certain conversions of the Notes, and (ii) \$1 million monthly commencing on the first installment date, increasing to \$1.7 million monthly following the date that the Common Stock underlying the Notes and Warrants are eligible for resale under Rule 144, provided that the Company meets certain equity conditions.

Description of the Warrants

The Warrants entitle the holders of the Warrants to purchase, in the aggregate, up to 26,685,729 shares of Common Stock. The Warrants will be exercisable on the issuance date through the fifth anniversary of the issuance date.

The Warrants will be exercisable at an initial exercise price equal to \$0.5246 per share. The exercise price of the Warrants is subject to adjustment for stock splits, stock dividends, combinations or similar events. In addition, the exercise price is also subject to a full ratchet anti-dilution adjustment, subject to customary exceptions, in the event that the Company issues securities at a price lower than the then applicable exercise price. The Warrants may be exercised for cash or on a cashless basis.

19.99% Cap

The Company is prohibited from issuing shares of Common Stock pursuant to the Notes and the Warrants in excess of 19.99% of the issued and outstanding shares of Common Stock immediately prior to the transaction unless stockholder approval of such issuance of securities is obtained as required by applicable NASDAQ rules. The Company intends to seek stockholder approval shares issuances in excess of such 19.99% limit at a special stockholders meeting to be held in August or September 2014.

Limitations on Exercise

The Warrants may not be exercised if, after giving effect to the exercise, the holder of the Warrant together with its affiliates would beneficially own in excess of 4.99% or 9.99%, at the election of the holder as of the Closing Date, of the outstanding shares of Common Stock. At a holder's option, the cap applicable to the exercise of the Warrants may be raised or lowered to any other percentage not in excess of 9.99%, except that any increase will only be effective upon 61-days prior notice to the Company.

Change of Control

The Warrants prohibit the Company from entering into transactions involving a change of control, unless the successor entity is a publicly traded corporation that assumes all of the Company's obligations under the Warrants in a written agreement approved by holders of the Warrants.

Upon the occurrence of change of control, a holder of a Warrant will have the right to require the Company to repurchase the holder's Warrant for a purchase price in cash equal to the Black Scholes value, as calculated under the Warrants, of the then unexercised portion of the Warrant.

Events of Default

Upon the occurrence of an event of default (as defined in the Notes), a holder of a Warrant will have the right to require the Company to repurchase the holder's Warrant for a purchase price in cash equal to the Black Scholes value, as calculated under the Warrants, of the then unexercised portion of the Warrant.

Registration Rights Agreement

In connection with the Purchase Agreement, the Company entered into the Registration Rights Agreement, pursuant to which the Company agrees (i) to register 24 million shares issuable in connection with the Notes in an initial registration statement filed with the Securities and Exchange Commission and (ii) under certain circumstances to register in an additional registration statement 150% of the sum of (A) the maximum number of shares of Common Stock issuable pursuant to the Notes and (B) the maximum number of shares of Common Stock issuable upon

exercise of the Warrants. Pursuant to the Registration Rights Agreement, the Company is required to file the initial registration statement no later than 20 days after the Closing Date and to have such registration statement declared effective within 60 days after the Closing Date. If the Company is unable to meet its obligations under the Registration Rights Agreement, it may be required to pay certain cash damages to holders of the Notes and Warrants.
