PROPOSAL NO. 1 ELECTION OF DIRECTORS

Nominees. Set forth below for each nominee for election as a director is a brief statement, including the age, principal occupation and business experience for at least the past five years, and any directorships held with public companies.

The members of the Corporate Governance and Nominating Committee of the Board (Governance Committee) have recommended, and the independent members of the Board of Directors have nominated, the persons listed below as nominees for the Board of Directors, all of whom presently are directors of the Company. Upon recommendation of the Governance Committee, the Board determined to reduce the size of the Board to nine directors from ten directors. As a result of this reduction, the Board determined not to re-nominate Daniel R. Lee. On March 13, 2015, Mr. Lee submitted a letter to the Board tendering his resignation, which was accepted.

The Governance Committee reviews and evaluates individuals for nomination to stand for election as a director who are recommended to the Governance Committee in writing by any of our shareholders pursuant to the procedure outlined below in the section titled Shareholder Nominations of Director Candidates on the same basis as candidates who are suggested by our current or past directors, executive officers, or other sources, which may, from time-to-time, include professional search firms retained by the Governance Committee. In March 2011, the Governance Committee adopted Board Member Recruiting Guidelines that outline the process for the Governance Committee to recruit and evaluate potential director candidates. These guidelines are available on the Corporate Governance page accessed from the Investor Relations page of the Company s website at www.myersind.com. In considering these potential candidates for nomination to stand for election, the Governance Committee will consider: (1) the current composition of the Board and how it functions as a group; (2) the talents, personalities, strengths, and weaknesses of current directors; (3) the value of contributions made by individual directors; (4) the need for a person with specific skills, experiences or background to be added to the Board; (5) any anticipated vacancies due to retirement or other reasons; and (6) other factors which may enter into the nomination decision. The Governance Committee endeavors to select nominees that contribute unique skills and professional experiences in order to advance the performance of the Board of Directors and establish a well-rounded Board with diverse views that reflect the interests of our shareholders. The Governance Committee considers diversity as one of a number of factors in identifying nominees for directors, however, there is no formal policy in this regard. The Governance Committee views diversity broadly to include diversity of experience, skills and viewpoint, in addition to traditional concepts of diversity such as race and gender.

When considering an individual candidate s suitability for the Board, the Governance Committee will evaluate each individual on a case-by-case basis. The Governance Committee does not prescribe minimum qualifications or standards for directors, however, the Governance Committee looks for directors who have personal characteristics, educational backgrounds and relevant experience that would be expected to help further the goals of both the Board and the Company. In addition, the Governance Committee will review the extent of the candidate s demonstrated excellence and success in his or her chosen business, profession, or other career and the skills and talents that the candidate would be expected to add to the Board. The Governance Committee may choose, in individual cases, to conduct interviews with the candidate and/or contact references, business associates, other members of boards on which the candidate serves or other appropriate persons to obtain additional information. The Governance Committee will make its determinations on whether to nominate an individual candidate based on the Board s then-current needs, the merits of that candidate and the qualifications of other available candidates. The Governance Committee believes that each of the nominees possess certain key attributes that the Governance Committee believes to be important for an effective Board.

Each of the below nominees has consented (i) to serve as a nominee, (ii) to being named as a nominee in this Proxy Statement and (iii) to serve as a director if elected. If any nominee should become unavailable for any reason, it is intended that votes will be cast for a substitute nominee designated by the Board. There is no reason to believe that the nominees named will be unable to serve if elected.

Proxies cannot be voted for a greater number of nominees than the number named in this Proxy Statement.

In addition, Mr. Stefanko's extensive experience with boards and compensation and audit committees gives him valuable knowledge and insight that he brings to the Company.

Each of the foregoing nominees was recommended by the Governance Committee. There are, and during the past ten years there have been, no legal proceedings material to an evaluation of the ability of any director, nominee, or executive officer of Myers to act in such capacity or concerning his integrity. There are no family relationships among any of the directors and executive officers.

The Board recommends that you vote FOR each of the director nominees listed above.

Notice of Other Potential Nominees. On February 19, 2015, we received a notice from one of our shareholders, GAMCO Asset Management Inc. (GAMCO), that it intends to nominate three directors to our Board: Bruce M. Lisman, Philip T. Blazek, and F. Jack Liebau, Jr. The notice received from GAMCO was in accordance with the requirements of our Amended and Restated Code of Regulations.

Every year since 2009, with the sole exception of 2014, GAMCO has waged a costly proxy contest against Myers. Ranging from nominations of one director to four directors, each year, the methods have been the same. GAMCO never adequately articulated its reasons for its pursuit of nominees, or how the current directors were failing Myers' shareholders. GAMCO's nominees were unsuccessful in each year. In 2013, in an effort to avoid the distraction and cost of a proxy contest, we agreed to increase the size of the Board to ten directors and accept the one nominee GAMCO nominated that year, Daniel R. Lee.

This year, the Board has again determined that none of the candidates nominated by GAMCO are more qualified than any of the nominees included in the Company's slate. GAMCO's nominees have no particular skills or experience that make them able to contribute to the Company in a meaningful way. None of GAMCO's nominees have experience in our industries. In reaching this conclusion, it is the Board's judgment that the GAMCO nominees for director have no relevant manufacturing, distribution or operational experience to create shareholder value.

Despite several efforts to engage in productive discussions with GAMCO throughout the year, it remains unclear why GAMCO has nominated these individuals. Other than general comments about capital allocation, GAMCO has not identified any deficiency in our Board's conduct or governance. In 2014, we formed a Capital Allocation Committee, chaired by Mr. Lee, to evaluate our allocation of capital, particularly following the receipt of the proceeds from the sale of our Lawn and Garden business. That Committee, after reviewing an analysis by an independent financial advisor engaged by the Board, unanimously recommended that the proceeds be used to repay debt. The Board unanimously agreed with the Committee's recommendation and the proceeds of the sale of the Lawn and Garden business were immediately applied to repay debt. Our Board also notes that in the last four years, the Company has returned an aggregate of \$135,500,000 to our shareholders through dividends and share repurchases, while at the same time investing in the long term strategic objectives of the Company. Our Board is resolved not to let activism or short-termism interfere with prudent reinvestment in capital projects, innovation and real value-creating initiatives. It is our Board's view that the Company should maintain its balanced approach to capital allocation and continue to execute its strategy to create long term value for our shareholders.

If GAMCO proceeds with the solicitation of proxies or nominates Messrs. Lisman, Blazek, and Liebau for election as directors at the Annual Meeting, you will receive an opposing proxy statement and proxy card or other proxy solicitation materials from GAMCO. We are not responsible for the accuracy of any information provided by or related to GAMCO contained in any proxy solicitation materials filed or disseminated by, or on behalf of, GAMCO or any other statements they otherwise may make.

The Board believes that the Company's nominees best understand Myers' strategy to focus our business on two primary segments that we have been executing over the last several years. We think the risk to introducing new directors with no knowledge or understanding of our business will potentially delay achievement of the fruits of our strategic investments over these last few years. We believe our shareholders want us to see those investments and the execution of our strategy through for their benefit. As a result, we strongly urge our shareholders NOT to sign or return any proxy card sent to you by or on behalf of GAMCO. Voting against GAMCO's nominees on its proxy card is not the same as voting for the Board of Directors' nominees, and a vote on GAMCO's proxy card, even against its nominees, will revoke any WHITE proxy card previously submitted by you.

According to the information provided by GAMCO in a letter dated March 4, 2015, for which the Company disclaims any responsibility, it is the beneficial owner of 4,710,392 shares of our Common Stock as of March 2, 2015. However, according to GAMCO's most recent Schedule 13D/A filed with the SEC on February 19, 2015, for which the Company disclaims any responsibility, it is part of a group of stockholders that together beneficially owned 6,607,410 shares of our Common Stock as of February 19, 2015. In its letter, GAMCO indicated that it intends to be present at the Annual Meeting in person or by proxy to nominate these individuals to serve as directors of the Company.

OUR BOARD RECOMMENDS THAT YOU VOTE FOR EACH OF VINCENT C. BYRD, SARAH R. COFFIN, JOHN B. CROWE, WILLIAM A. FOLEY, ROBERT B. HEISLER, JR., RICHARD P. JOHNSTON, EDWARD W. KISSEL, JOHN C. ORR, AND ROBERT A. STEFANKO BY EXECUTING AND RETURNING THE WHITE PROXY CARD OR BY FOLLOWING THE INSTRUCTIONS TO VOTE BY TELEPHONE OR INTERNET. PROXIES SOLICITED BY THE COMPANY, THE CURRENT DIRECTORS, AND THE NOMINEES FOR ELECTION AS DIRECTOR WILL BE SO VOTED UNLESS SHAREHOLDERS SPECIFY OTHERWISE.

Director Independence. The Board has determined that each of the following current directors and nominees are independent and that each of these nominees has no material relationship with us that would impact their independence: Vincent C. Byrd, Sarah R. Coffin, John B. Crowe, William A. Foley, Robert B. Heisler, Jr., Richard P. Johnston, Edward W. Kissel, and Robert A. Stefanko. Daniel R. Lee was an independent director prior to his resignation on March 13, 2015. The determination of whether a director is independent is based upon the Board's review of the relationships between each director and the Company, if any, under the Company's Board of Directors Independence Criteria policy adopted by the Board on April 20, 2004, as amended, and the corporate governance listing standards of the New York Stock Exchange (NYSE). In connection with the Board's determination regarding the independence of each non-management director, the Board considered any transactions, relationships and arrangements as required by our independence guidelines. In particular, the Board considered the following relationships: (1) the relationship between A. Schulman, Inc. (A. Schulman) and the Company in connection with its independence determination of Robert A. Stefanko and concluded Mr. Stefanko met the independence requirement; and (2) the relationship between FirstEnergy Corp. (FirstEnergy) and the Company in connection with its independence determination of Robert B. Heisler, Jr. and concluded Mr. Heisler met the independence requirement. Mr. Stefanko is a stockholder of A. Schulman, holding less than 1% of A. Schulman's shares of stock. In 2014, the Company purchased \$229,964.46 of materials from A. Schulman during the ordinary course of operations, which is less than 1% of the annual revenues of both companies. Mr. Heisler is a shareholder and director of FirstEnergy, holding less than 1% of FirstEnergy's shares of stock. In 2014, we purchased \$4,465,124.88 of materials from FirstEnergy during the ordinary course of operations, which is less than 1% of the annual revenues of each company. All members of the Audit Committee, the Compensation Committee, and the Governance Committee were determined to be independent, and in addition, the Board determined that the members of the Audit Committee are also independent as defined in the SEC regulations.

Table of Contents

Committees of the Board. The Board has three standing committees, the Audit Committee, the Compensation Committee, and the Governance Committee, whose members were appointed in April 2014 following the Annual Meeting. Audit Committee. The Audit Committee is currently comprised of five independent directors: Robert A. Stefanko (Chairman and Presiding Director), Richard P. Johnston, Edward W. Kissel, Sarah R. Coffin and Robert B. Heisler, Jr. Daniel R. Lee was a member of the Audit Committee, however, as noted above, Mr. Lee resigned from the Board, and therefore the Audit Committee, on March 13, 2015. The functions of the Audit Committee, which met seven times in 2014, are to: (1) engage the independent registered public accounting firm, (2) approve all audit and related engagements (audit and non-audit), (3) review the results of the audit and interim reviews, (4) evaluate the independence of the independent registered public accounting firm, (5) review with the independent registered public accounting firm the financial results of the Company prior to their public release and filing of reports with the SEC, (6) direct and supervise special investigations and (7) oversee our accounting, internal accounting controls and auditing matters reporting hotline (discussed below) and our corporate compliance program. The Audit Committee also has oversight of our system of internal auditing functions and controls, as well as our internal control procedures. None of our Audit Committee members serve on more than two other public company audit committees.

The Board has identified Robert A. Stefanko and Robert B. Heisler, Jr. as the Audit Committee financial experts .

Compensation Committee. The Compensation Committee establishes and administers the Company's policies, programs and procedures for compensating its executive officers and directors. The Compensation Committee has the authority to retain outside consultants regarding executive compensation and other matters. The Compensation Committee, which met six times in 2014, is currently comprised of five independent directors: Vincent C. Byrd (Chairman and Presiding Director), Robert A. Stefanko, John B. Crowe, William A. Foley, and Sarah R. Coffin.

Corporate Governance and Nominating Committee. The Governance Committee is responsible for, among other things, evaluating new director candidates and incumbent directors, and recommending nominees to serve on the Board as well as members of the Board's committees to the independent directors of the Board. The Governance Committee is also responsible for recommending and monitoring participation in continuing education programs by the members of the Board. The Governance Committee, which met five times in 2014, is currently comprised of five independent directors: Edward W. Kissel (Chairman and Presiding Director), John B. Crowe, Richard P. Johnston, Robert B. Heisler, Jr., and William A. Foley.

Capital Allocation Committee. The Capital Allocation Committee is a special committee chartered by the Board to evaluate and consider capital allocation alternatives, strategies and priorities of the Company and to make recommendations to the Board regarding capital allocation. The Capital Allocation Committee, which met once in 2014, is currently comprised of three independent directors: Vincent C. Byrd, Robert B. Heisler, Jr., and William A. Foley. Mr. Lee was Chairman and Presiding Director of the Capital Allocation Committee, however, as noted above, Mr. Lee resigned from the Board, and therefore the Capital Allocation Committee, on March 13, 2015.

Committee Charters and Policies. The Board has adopted written charters for the Audit Committee, the Compensation Committee, Governance Committee, and the Capital Allocation Committee. Each Committee reviews and evaluates the adequacy of its charter at least annually and recommends any proposed changes to the Board for approval. Each of the written charters and policies of the Audit Committee, the Compensation Committee, and the Governance Committee are available on the Corporate Governance page accessed from the Investor Relations page of the Company's website at www.myersind.com.

Board Role in Risk Oversight. The Board annually reviews the Company's strategic plan, which addresses, among other things, the risks and opportunities facing the Company. The Board also has

overall responsibility for executive officer succession planning and reviews succession plans each year. Certain areas of oversight are delegated to the relevant Committees of the Board and the Committees regularly report back on their deliberations. This oversight is enabled by reporting processes that are designed to provide visibility to the Board about the identification, assessment, monitoring and management of enterprise-wide risks. In May 2014, management conducted its most recent enterprise-wide risk assessment of the Company and each of its business segments, and in August 2014 presented the assessment to the Board for review. The focus of this assessment included a review of strategic, financial, operational, compliance and technology objectives and risks for the Company. In addition, on an ongoing basis: (a) the Audit Committee maintains primary responsibility for oversight of risks and exposures pertaining to the accounting, auditing and financial reporting processes of the Company; (b) the Compensation Committee maintains primary responsibility for risks and exposures associated with oversight of the administration and implementation of our compensation policies; and (c) the Governance Committee maintains primary responsibility for risks and exposures associated with corporate governance and succession planning.

Board Attendance. There were a total of thirteen regularly scheduled and special meetings of the Board of Directors in 2014. During 2014, all directors attended at least 75% of the aggregate total number of the meetings of the Board and Committees on which they served. In 2014, all of our directors attended our Annual Meeting. Although we do not have a formal policy requiring directors to attend the Annual Meeting, our directors are encouraged to attend.

Interested Parties Communications with the Board of Directors. Our Board provides the following methods for interested parties and shareholders to send communications to a director, to a Committee of the Board, to the non-management directors, or to the Board:

Written Communication. Interested parties may send such communications by mail or courier delivery addressed as follows: Board of Directors (or Committee Chairman, Board Member or Non-Management Directors, as the case may be), c/o Gregory W. Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301. All communications directed to the Board of Directors or to the Non-Management Directors will be forwarded unopened to the Chairman of the Governance Committee. The Chairman of the Governance Committee in turn determines whether the communications should be forwarded to the appropriate members of the Board and, if so, forwards them accordingly. For communications addressed to a particular director or the Chairman of a particular Committee of the Board, however, the Corporate Secretary will forward those communications, unopened, directly to the person or Committee Chairman in question.

Toll Free Hotline. In 2003, the Audit Committee established a hotline for receiving, retaining and treating complaints from any interested party regarding accounting, internal accounting controls and auditing matters, and procedures for the anonymous submission of these concerns. The hotline is maintained by a company which is independent of Myers. Interested parties may also use this hotline to communicate with the Board. Any interested party may contact a director, a Committee of the Board, the non-management directors, or the Board through the toll free hotline at (877) 285-4145. The hotline is available worldwide, 24 hours a day, seven days a week. Note that all reports made through the hotline are directed to either or both the Chairman of the Audit Committee and the Corporate Secretary. We do not permit any retaliation of any kind against any person who submits a complaint or concern under these procedures.

Shareholder Nominations of Director Candidates.

Shareholder Recommendation Policy. The Governance Committee will consider individuals for nomination to stand for election as a director who are recommended to it in writing by any of our shareholders that strictly follow the procedures outlined in the next paragraph below and that send a signed letter of recommendation to the following address: Corporate Governance and Nominating Committee, c/o Mr. Gregory W. Branning, Chief Financial Officer, Senior Vice President and Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301.

Recommendation letters must certify that the person making the recommendation is a shareholder of the Company (including the number of shares held as of the date of the recommendation), and further state the full name and address of the proposed nominee as well as a biographical history setting forth past and present directorships, employment, occupations and civic activities for at least the past five years. Any such recommendation should be accompanied by a signed written statement from the proposed nominee consenting to be named as a candidate and, if nominated and elected, consenting to serve as a director. The letter must also include a signed written statement that the nominating shareholder and the candidate will make available to the Governance Committee all information reasonably requested in furtherance of the Governance Committee's evaluation. The letter must be received before the close of business on or before November 15th of the year prior to our next annual meeting of shareholders.

The Governance Committee reviews and evaluates individuals for nomination to stand for election as a director who are recommended to the Governance Committee in writing by any of our shareholders pursuant to the procedures outlined in the paragraph above on the same basis as candidates who are suggested by our current or past directors, executive officers, or other sources, which may, from time-to-time, include professional search firms retained by the Governance Committee. In considering individuals for nomination to stand for election, the Governance Committee will consider: (1) the current composition of the Board of Directors and how it functions as a group; (2) the talents, personalities, strengths, and weaknesses of current directors; (3) the value of contributions made by individual directors; (4) the need for a person with specific skills, experiences or background to be added to the Board; (5) any anticipated vacancies due to retirement or other reasons; and (6) other factors which may enter into the nomination decision.

When considering an individual candidate's suitability for the Board, the Governance Committee will evaluate each individual on a case-by-case basis. The Governance Committee does not prescribe minimum qualifications or standards for directors, however, the Governance Committee looks for directors who have personal characteristics, educational backgrounds and relevant experience that would be expected to help further the goals of both the Board and the Company. In addition, the Governance Committee will review the extent of the candidate's demonstrated excellence and success in his or her chosen business, profession, or other career and the skills and talents that the candidate would be expected to add to the Board. The Governance Committee may choose, in individual cases, to conduct interviews with the candidate and/or contact references, business associates, other members of boards on which the candidate serves or other appropriate persons to obtain additional information. The Governance Committee will make its determinations on whether to nominate an individual candidate based on the Board's then-current needs, the merits of that candidate and the qualifications of other available candidates.

Shareholder Nomination Policy. In accordance with our Amended and Restated Code of Regulations, a shareholder may directly nominate a candidate for election as a director of the Company only if written notice of such intention is received by the Corporate Secretary not less than sixty (60) days nor more than ninety (90) days prior to the date of such annual meeting of shareholders or special meeting of shareholders for the election of directors. In the event that the date of such meeting to elect directors is not publicly disclosed at least seventy (70) days prior to the date of such meeting, written notice of such shareholder's intent to nominate a candidate must be received by the Corporate Secretary not later than the close of business on the tenth (10th) day following the date on which notice of such meeting is first provided to the shareholders. A shareholder wishing to directly nominate an individual to serve as a director must follow the procedure outlined in Article I, Section 12 of our Amended and Restated Code of Regulations, titled "Advance Notice of Director Nomination" and then send a signed letter of nomination to the following address: Corporate Governance and Nominating Committee, c/o Mr. Gregory W. Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301. Our Amended and Restated Code of Regulations is available on the Corporate Governance page accessed from the Investor Relations page of the Company's website at www.myersind.com.

On February 19, 2015, GAMCO amended its Schedule 13D relating to the Company disclosing that it had sent a letter to the Company recommending three individuals, Philip T. Blazek, F. Jack Liebau, Jr., and Bruce M. Lisman, for nomination for election as directors of the Company at the Annual Meeting. GAMCO indicated that it intends to be present in person or by proxy at the Annual Meeting to nominate these individuals.

Corporate Governance Policies.

Implementation. The Board of Directors has implemented the corporate governance initiatives required by the NYSE rules and the Sarbanes-Oxley Act of 2002. These initiatives include, among others, Corporate Governance Guidelines and a Code of Business Conduct and Ethics for the Company's directors, officers and employees. These corporate governance policies and procedures are discussed in various places within this Proxy Statement. In March 2011, the Board incorporated a director resignation policy into its Corporate Governance Guidelines. Pursuant to this director resignation policy, in an uncontested election, any incumbent director who receives a greater number of votes Withheld or Against his or her election than votes For his or her election (and with respect to such incumbent director's election at least 25% of the Company's shares outstanding and entitled to vote thereon were Withheld or voted Against the election of such director) shall submit an offer of resignation to the Board of Directors. The Governance Committee will then recommend to the Board whether to accept or reject any tendered resignations, and the Board will decide whether to accept or reject such tendered resignations. The Board's decision will be publicly disclosed in a Current Report on Form 8-K filed with the SEC. If an incumbent director's tendered resignation is rejected, then he or she will continue to serve until his or her successor is elected, or until his or her earlier resignation, removal from office, or death. If an incumbent director's tendered resignation is accepted, then the Board will have the sole discretion to fill any resulting vacancy to the extent permitted by the Company's Amended and Restated Code of Regulations.

Availability of Corporate Governance Policies. Each of our corporate governance policies is available on the Corporate Governance page accessed from the Investor Relations page of our website at www.myersind.com.

Code of Ethics. We have a Code of Business Conduct and Ethics which incorporates a Code of Ethical Conduct for the Finance Officers and Finance Department Personnel, which embodies our commitment to ethical and legal business practices, as well as satisfying the NYSE requirements to implement and maintain such policies. The Board expects all of our officers, directors and other members of our workforce to act ethically at all times. This policy is available on our website at www.myersind.com on the Corporate Governance page accessed from the Investor Relations page.

Stock Ownership Guidelines. In 2010, we implemented, and in January of 2013 we amended, our Stock Ownership Guidelines whereby our executive officers and non-employee directors are expected to hold a specified amount of our Common Stock. The Chief Executive Officer is expected to hold an investment position in our Common Stock equal to five times his annual base salary. The Chief Financial Officer is expected to hold an investment position equal to three times his respective annual base salary. The non-employee Directors are expected to hold five times their annual cash Board retainer in our Common Stock. The executive officers and non-employee directors have five years from the effective date of the guidelines to attain the ownership requirement. These Stock Ownership Guidelines are available on the Corporate Governance page accessed from the Investor Relations page of the Company's website at www.myersind.com.

Board Member Recruiting Guidelines. In March 2011, the Governance Committee adopted Board Member Recruiting Guidelines that outline the process for existing Board members to nominate potential director candidates to the Governance Committee. These recruiting guidelines are available on the Corporate Governance page accessed from the Investor Relations page of the Company's website at www.myersind.com.

Executive Sessions of the Board. Effective in December 2002, the Board adopted a policy requiring the non-management directors, both as to the Board and in their respective Committees, to meet regu-

larly in executive session without any management personnel or employee directors present. During 2014, the Board and each Committee met regularly in executive session as follows: Board, seven times; Audit Committee, six times; Compensation Committee, four times; and the Governance Committee, four times. The Capital Allocation Committee did not meet in executive session during 2014.

Independent Chairman. Effective in October 2009, the Board appointed Richard P. Johnston independent Chairman of the Board. The Company believes this leadership structure is appropriate for the Company as it further aligns the interests of the Company and our shareholders by ensuring independent leadership of the Board. The independent Chairman serves as a liaison between our directors and our management and helps to maintain open communication and discussion by the Board. Duties of the Chairman are specified in the Charter of the Chairman of the Board of Directors, adopted October 28, 2009, and include serving in a presiding capacity, coordinating the activities of the Board, and such other duties and responsibilities as the Board may determine from time-to-time. This charter is available on our website at www.myersind.com on the Corporate Governance page accessed from the Investor Relations page.

Presiding Directors. The independent directors reported that in 2014 they selected Presiding Directors to preside during executive sessions. The Chairman of the Governance Committee acts as the Presiding Director for the executive sessions of the Board, and the Chairman of each Committee was selected as the Presiding Director for the executive sessions of the applicable Committee of the Board.

Anonymous Reporting. The Audit Committee maintains procedures, including a worldwide telephone hotline, which allows employees and interested parties to report any financial or other concerns anonymously as further detailed under Interested Parties Communications with the Board of Directors above.

Annual Board and Committee Self-Assessments. In 2004, the Board, through the Governance Committee, instituted annual self-assessments of the Board, as well as of the Audit Committee, the Compensation Committee, and the Governance Committee, to assist in determining whether the Board and its Committees are functioning effectively. In early 2014, the Board and each of its Committees conducted the self-evaluations and discussed the results of the self-evaluations.

Clawback Policy. In March 2015, the Company adopted a Clawback Policy which provides for the recoupment of certain incentive compensation in the event of an accounting restatement resulting from material noncompliance (whether or not based upon misconduct) with financial reporting requirements under the federal securities laws. The Clawback Policy is administered by the Compensation Committee and applies to current and former executive officers and such other employees who may from time to time be deemed subject to the policy by the Compensation Committee.

NYSE and SEC Certifications. In 2014, we submitted to the NYSE an unqualified Section 12(a) certification by our Chief Executive Officer. Further, each applicable filing with the SEC contained the Section 302 and 906 Certifications of both our Chief Executive Officer and Chief Financial Officer.

Director Compensation. Currently, the annual retainer for non-employee directors is \$40,000. In addition, Committee members receive \$10,000 per year per Committee of the Board. The Chairman of the Audit Committee and Chairman of the Compensation Committee each receive an additional \$8,000 per year. The Chairman of the Governance Committee receives an additional \$4,000 per year. The Chairman of the Board receives an additional annual retainer of \$20,000. Directors who are employees of the Company do not receive the annual retainer.

Under our 2008 Incentive Stock Plan, each non-employee director who holds such position on the date of the annual meeting of the shareholders and has been a director for the entire period since the annual meeting of shareholders of Myers that was held in the immediately preceding calendar year will be awarded annually, on the date of the annual meeting of shareholders, shares of our Common Stock valued at \$60,000 on such date. A director may elect to receive an equivalent number of stock units rather than shares of common stock, with payment to be made with respect to such stock unit when such director ceases to be a member of the Board.

Table of Contents

In 2014, the Compensation Committee engaged a compensation consultant who conducted an assessment of the market competitiveness of the Company's non-employee director compensation program. In conducting the assessment, the compensation consultant reviewed data from a comparable group of companies. The results of this assessment were considered by the Compensation Committee and reflected that the Company's non-employee director compensation was below market. In March 2015, based upon a recommendation by the Compensation Committee, the Board approved an increase in the annual retainer for non-employee directors to \$52,500 and a change in the annual retainer for the Chairman of the Board to \$60,000 (including committee fees). In addition, non-employee directors will now receive shares of our Common Stock valued at \$75,000 on the date of the annual meeting of shareholders as described above. These increases will go into effect on April 24, 2015.

Our Amended and Restated Code of Regulations provides that we will indemnify, to the fullest extent then permitted by law, any of our directors or former directors who was or is a party or is threatened to be made a party to any matter, whether civil or criminal, by reason of the fact that the individual is or was a director of the Company, or serving at our request as a director of another entity. We have entered into indemnity agreements with each of our directors contractually obligating us to provide such protection. We also currently have in effect director and officer insurance coverage.

The following table shows the compensation paid to each of the non-employee directors during fiscal 2014. Mr. Orr, who is our President and Chief Executive Officer, does not receive any additional compensation for his services as a director.

Risk Assessment of Compensation Practices. In establishing compensation policies and practices for all of our employees, we utilize a balanced mix of salary, bonus and, in some cases, equity-based compensation that supports the enhancement of revenue, earnings and cash performance of the Company for our shareholders without creating undue risk. Under our long term incentive program adopted in 2010 (the LTIP), we utilize a blend of stock options, service-based awards and performance-based awards with a greater emphasis on performance-based awards than service-based awards that we believe will further align the interests of our employees with those of our shareholders. Our risk oversight and overall compensation structure has features that guard against excessive risk taking, including:

Our Board's and its Committees' role in risk oversight, including internal control over financial reporting and other strategic, financial, operational, compliance and technology policies and practices (see the section titled Board's Role in Risk Oversight above for a complete description);

Diversified nature of our business segments with respect to industries and markets served, products and services sold, and geographic footprint;

Establishment and annual review of base salaries to be consistent with an employee's responsibilities;

Determination and award of incentive awards based on a review of a variety of indicators of performance that diversifies the risks associated with any single indicator of performance;

A mixture of fixed and variable, annual and long-term, and cash and equity compensation are provided to our employees to encourage strategy and actions that are in the long-term interests of the Company and our shareholders; and

Awards of incentive compensation with performance vesting criteria to reward employees for driving sustainable, profitable growth for shareholders.

EXECUTIVE COMPENSATION AND RELATED INFORMATION

Compensation Discussion and Analysis.

Executive Summary:

Our executive pay program is managed by the Compensation Committee. The role of the Compensation Committee is to oversee our executive pay plans and policies, administer our stock plans and annually review and make recommendations to the Board for all pay decisions relating to our executives, including the Named Executive Officers (NEOs):

John C. Orr, President and Chief Executive Officer

Greggory W. Branning, Chief Financial Officer, Senior Vice President and Corporate Secretary
Messrs. Orr and Branning are our only NEOs.

As shareholders consider the effectiveness of our executive pay program for our NEOs in the most recent year and their support of our executive pay program, they should take into account the following:

The Company's financial position remains solid, with a strong balance sheet and financial liquidity to pursue strategic goals which enhance shareholder value. In 2014, cash flow provided by continuing operations was \$51.8 million and as of December 31, 2014, there was \$158.6 million available for borrowing under our loan agreement.

The base salary for Mr. Orr was subject to an increase of approximately 3.2% and the base salary for Mr. Branning was subject to an increase of approximately 10%.

Table of Contents

We continue to utilize a long-term incentive portfolio of options, service-based restricted stock units, and long-term cash incentives tied to financial results to provide greater reward balance, more effectively manage share dilution and offer us greater flexibility to reward for long-term results.

We have several pay practices and policies that are in the best interests of our shareholders, including modest perquisites, limited executive retirement benefits, and stock ownership guidelines.

We concluded that our pay programs do not encourage excessive or unnecessary risk taking.

Finally, we believe the pay actually earned by our Chief Executive Officer has been aligned with the Company's total shareholder return performance. The realized pay of our Chief Executive Officer (salary, actual bonuses, long-term performance cash earned, options exercised, stock vested, and all other compensation) and unrealized pay (the value of outstanding equity awards and in-cycle cash performance awards at target) aligned closely with total shareholder return.

Process Used to Set Pay for 2014.

Interactions between multiple parties established our executive pay program for 2014:

Compensation Committee;

Senior management;

Independent compensation advisor; and

Outside advisors, including legal counsel.

Role of Compensation Committee:

Five independent directors comprise our Compensation Committee, which is responsible for establishing and administering our compensation policies, programs and procedures. In dispensing its duties, the Compensation Committee may request information from senior management regarding the Company's performance, pay and programs to assist it in its actions. Moreover, the Compensation Committee has the authority to retain outside advisors as needed to assist it in reviewing and modifying the Company's programs and providing competitive pay levels and terms. In arriving at its decision on executive compensation, the Compensation Committee takes into account the shareholder say-on-pay vote at the previous annual meeting of shareholders.

The Compensation Committee annually reviews and establishes the goals used for our incentive plans. In addition, it annually assesses the performance of the Company and the Chief Executive Officer. Based on this evaluation, the Compensation Committee then recommends the Chief Executive Officer's compensation for the next year to the Board for its consideration and approval. In addition, the

Table of Contents

Compensation Committee reviews the Chief Executive Officer's compensation recommendations for the Chief Financial Officer, providing appropriate input and approving final awards. Finally, the Compensation Committee provides guidance and final approval to the Chief Executive Officer with regard to the determination of the compensation of other key executives.

Role of Senior Management:

The Company's management serves in an advisory or support capacity as the Compensation Committee carries out its charter. Typically, the Company's Chief Executive Officer participates in meetings of the Compensation Committee. The Company's Chief Financial Officer may participate as necessary or at the Compensation Committee's request. The NEOs normally provide the Compensation Committee with information regarding the Company's performance as well as information regarding executives who participate in the Company's various plans. Such data is usually focused on the executives' historical pay and benefit levels, plan costs, context for how programs have changed over time and input regarding particular management issues that need to be addressed. In addition, management normally furnishes similar information to the Compensation Committee's independent compensation advisor.

Management provides input regarding the recommendations made by outside advisors or the Compensation Committee. Management implements, communicates and administers the programs approved by the Compensation Committee, reporting back to it any questions, concerns or issues.

The Chief Executive Officer annually evaluates the performance of the Company and the Chief Financial Officer. Based on his evaluation, he provides the Compensation Committee with his recommendations regarding the pay for the Chief Financial Officer for its consideration, input and approval. The Compensation Committee, in turn, authorizes the Chief Executive Officer to establish the pay for the Company's other executives based on terms consistent with those used to establish the pay of the NEOs. Members of management present at meetings when pay is discussed are recused from such discussions when the Compensation Committee focuses on their individual pay.

Role of Independent Compensation Advisor:

In 2014, the Compensation Committee engaged Exequity, LLP (Exequity) to assist the Compensation Committee. The Compensation Committee has the authority to retain Exequity or to engage other independent advisors and compensation consultants to assist in carrying out its responsibilities. Exequity's lead consultant reported directly to the Compensation Committee Chairman, who approved Exequity's work plan. In addition, the lead consultant interacted with management as needed to complete the work requested by the Compensation Committee. Exequity did not provide other services to the Company during 2014 and received no compensation other than with respect to the services provided to the Compensation Committee.

Table of Contents

To support the Compensation Committee's decisions with respect to NEO compensation in 2014, Exequity provided information regarding how other companies in a broader general industry survey peer group compensate its NEOs. The general industry companies were selected based on the following parameters (1) participant in the Equilar Top 25 Survey, (2) publicly-traded U.S.-based companies with a focus on manufacturing (and other asset-based companies), and (3) size appropriate companies with revenues with a range of roughly one-half to two times the Company's revenue with median revenues for the group near the Company's revenue. The general industry peer group was reviewed by management and approved by the Compensation Committee and included the following companies:

Apogee Enterprises, Inc.	Libbey Inc.
Barnes Group Inc.	Lululemon athletica inc.
Coherent, Inc.	Neenah Paper, Inc.
Deckers Outdoor Corporation	ResMed Inc.
ESCO Technologies Inc.	TriMas Corporation
Ethan Allen Interiors Inc.	West Pharmaceutical Services, Inc.
Graco Inc.	Zep Inc.
Integra LifeSciences Holdings Corporation	

Based on this information, Exequity offered its recommendations for the NEOs' pay program for 2014 and presented them in meetings and conference calls with the Compensation Committee. Exequity also reviewed the Company's 2014 proxy statement.

Myers believes its practices are consistent with the practices for other companies of its size, reflects best practices regarding the governance of executive pay programs and reflects the executive pay program's objectives of delivering competitive and appropriate pay aligned with our shareholders' interests.

The work of Exequity has not raised any conflicts of interest.

Elements of Pay for 2014.

The basic elements of our compensation package include:

Base salary;

Annual bonus opportunities;

Long-term incentives in the form of cash, options, and restricted stock units;

Retirement and other benefits generally available to all other Company employees; and

Modest executive perquisites.

Consistent with the objectives of our executive pay philosophy, we target total compensation to approximate the 50th percentile (or median) for executives in similar roles at companies of similar size and complexity. We believe targeting median pay levels is appropriate as it is sufficient to attract and retain key executives, but does not position our compensation costs out of line with other companies of similar size. Pay can vary from target levels to the degree the Company's performance or stock price increases or decreases, affecting the value our executives realize from Myers' annual bonus and long-term incentive awards.

Table of Contents

While we do not have a prescribed mix of pay, the following table indicates the percentage of each NEO's total target direct compensation that is attributable to base salary, target bonus, and long-term incentives:

Component of Pay	Mr. John C. Orr	Mr. Gregory W. Branning
Salary	21%	34%
Target Bonus	21%	23%
Long-Term Incentives	58%	43%

Base Salaries:

Base salaries are the guaranteed part of our executives' pay. We pay base salaries to recognize the skills, competencies, experience, and individual performance an executive brings to his or her role. As a result, changes in base salary result primarily from changes in the executive's responsibilities, an assessment of their annual performance, and our financial ability to pay base salaries and provide increases to them.

Salaries for our executives are based on the scope of their responsibilities and their relevant background, training and experience. Data on compensation practices of companies similar to ours is also considered in setting base salaries. The Compensation Committee targets base salaries at approximately the 50th percentile, but also considers an individual's time in position, experience, performance, future potential and external market conditions. Under the terms of our NEOs' severance agreements, their base salaries may not be materially decreased.

Based on external market conditions, company performance, and senior management's recommendations, the Compensation Committee decided to increase the base salary of Mr. Orr by 3.2% and the base salary of Mr. Branning by 10%. This positioned the base salary between approximately the 50th and 75th percentile of the peer group for both Mr. Orr and Mr. Branning.

Annual Bonuses:

In keeping with our policy of rewarding our executive officers for performance, executives, including our NEOs, were eligible to earn annual incentives under our annual incentive plan. Bonuses under the plan increase each executive's focus on specific short-term corporate operational goals. As a result, it balances the objectives of our other pay programs, which concentrate on individual performance (base salaries), long-term financial results, and stock price growth. Finally, annual bonuses allow us to manage fixed compensation costs, while still providing executives with competitive cash compensation consisting of salaries and bonuses.

Each year, the Compensation Committee approves a target bonus opportunity for each NEO. We intend for our target bonuses to be at least at median levels to place more emphasis on achieving annual operating results and to support more demanding annual performance objectives. For 2014, our target bonuses were 100% of salary for Mr. Orr and 70% of salary for Mr. Branning. Actual bonuses can range from 0% to 200% of target depending on actual performance, practices that are consistent with the range of annual bonus opportunities of peers and those of other companies our size. In this manner, we can reward our executives with higher levels of cash compensation for results that substantially exceed target results. Conversely, we pay relatively lower levels of cash compensation for results that fail to meet minimally acceptable standards.

Annual bonuses are based on results in two areas:

Earnings before interest, taxes, depreciation and amortization (EBITDA), as adjusted for special income and expenses approved by the Compensation Committee. In 2014, these adjustments, equaling \$3.1 million, were one-time non-recurring costs incurred by the Company that were not budgeted. EBITDA results determine 50% of an NEO's annual bonus.

Cash flow before capital expenditures, which determines the remaining 50% of an NEO's bonus.

Table of Contents

The use of EBITDA as a bonus metric focuses on our core operating profitability and is not influenced by accounting policies, significant non-operating results or other extraordinary items that can obscure our operating results. We believe consistent improvements in our operating results over time should produce value for our shareholders over the long-term. Cash flow balances the profitability focus of EBITDA by measuring our executives' ability to manage our working capital. Moreover, it focuses our management on generating discretionary cash that can be used to invest in assets, make acquisitions, retire debt, pay dividends and re-purchase our Common Stock without disrupting operations. Cash flow is measured before capital expenditures so as to balance sound decisions on long-term capital investments with achievement of cash flow goals. Both measures are weighted equally in order to balance near-term profitability with long-term growth.

Each year, the Compensation Committee approves annual performance targets for EBITDA and cash flow. These targets are based on the annual budget developed by our senior management through vigorous bottoms-up planning, evaluation of business expectations for each business segment, customer reviews, raw material availability and pricing evaluations, SG&A considerations and general economic conditions. The annual budget is vetted and approved by the Board. Targets are established based upon a reasonable level of expected return given our performance against the annual budget. Once targets are established, the Compensation Committee sets minimum and maximum goals to appropriately reward for results that exceed or fall short of target expectations.

Performance Objective	Bonus % Target Award⁽¹⁾	EBITDA (\$ Millions)	Cash Flow (\$ Millions)
Minimum	0%	\$53.56	\$26.33
Target	100%	\$72.98	\$43.92
Maximum	200%	\$80.33	\$64.50
2014 Actual Results		\$57.90	\$47.73
2014 Percentage Achievement for Each Component		22.4%	118.5%
Weighted Percentage		50%	50%
2014 Percentage Payout Weighted Bonus		70.4%	59.2%

⁽¹⁾ Bonuses for results in between performance objectives are interpolated

The range of performance associated with each measure is within the range of market practices. For 2014, actual EBITDA results were below target and while actual cash flow was above maximum, the weighted average payout percentage was below target. Based on this payout percentage and the executive's target bonus opportunity, Messrs. Orr and Branning received a bonus of \$563,563 and \$189,850, respectively, for 2014. Each of these cash bonuses was paid early in March of 2015.

Long-Term Incentives:

The 2008 Incentive Stock Plan provides us with flexibility to grant stock options, stock appreciation rights, performance awards, restricted stock, stock units, and other forms of equity-based awards. These awards are consistent with our goal of motivating and rewarding our executive officers for increasing shareholder value and promote our long-term interests by aiding the retention of high-quality executives. Our use of long-term incentives reflects the belief that a significant component of executive compensation should be at risk where the amount earned depends on achieving Company performance objectives designed to enhance shareholder value. Finally, long-term incentives in the form of stock help build executive stock ownership, consistent with our stock ownership objectives more fully described in the section titled "Stock Ownership Guidelines" and strengthen the alignment with our shareholders' interests.

Table of Contents

For long-term incentives, the Board awarded a blend of stock options, service-based restricted stock units, and performance-based long-term cash incentives. This approach provides reward balance with each element designed to meet specific reward objectives:

Stock options align our executives' interests with those of our shareholders because options only produce rewards to our executives if our stock price increases after options are granted. We believe options are performance-based awards, because the stock price appreciation that produces gains to the executive can only be achieved by improvements in the Company's operating and financial results. In addition, options help build executive ownership.

Service-based restricted stock unit grants help in attracting and retaining our key executives. Restricted stock units also tie our executives to the total returns earned by our investors through dividend equivalent rights as well as stock price appreciation.

Long-term cash incentives reward our executives for achieving financial goals over a multi-year period. Moreover, the use of cash helps us to more effectively manage the shares available for use under our 2008 Incentive Stock Plan, reduces dilution of our shareholders' interests and provides our executives competitive long-term incentive opportunities. In addition, the use of cash provides our executives a means to pay for taxes associated with their long-term awards, helping them retain more of the shares received as options and restricted units. Our long-term incentives target 50th percentile values for executives in similar roles at companies of similar size. Once target values are developed, awards for each long-term element are based on an individual's position, experience, future potential, organizational level, scope of responsibilities, their ties to long-term results, and any special attraction and retention needs. For the NEOs, the Compensation Committee aimed to strike a balance between the three elements while emphasizing performance-based elements (options and long-term cash incentives) over service-based ones (restricted stock units). For Messrs. Orr and Branning, 35% of their target value was delivered in the form of stock options, 35% in the form of target long-term cash incentives and 30% as service-based restricted stock units.

To strengthen the awards' long-term ties to performance as well as to help retain our executives, long-term incentives vest or are earned over several years. For example, stock options vest ratably on the first three anniversaries of the grant and are exercisable within ten years following their grant, consistent with our historical terms for option grants. Service-based restricted stock unit grants vest ratably over a three year period, are tied to continued service, and provide a strong device for retaining our executives. Finally, long-term cash incentives are based on the achievement of pre-established objectives over a three-year period.

Long-term cash incentives are based on our average return on invested capital (ROIC) for the three-year period beginning in 2014 and ending in 2016. ROIC equals our earnings before interest and taxes (EBIT) divided by our total invested capital (net long term debt and shareholders equity). In our view, ROIC holds our management accountable for all capital invested in the Company. Moreover, it represents an appropriate measure for a capital intensive business like ours. It also balances the measures used in our annual bonus plan. Finally, we believe that ROIC achievement is aligned with our stock price performance.

Table of Contents

For the three-year period ending in 2016, the Company established three-year average ROIC performance objectives and the method for determining their corresponding awards, which are as follows:

Return on Invested Capital (ROIC):	Calculation of Award (Percentage of Target Award):
Less than 8%	0%
8%	50%
8.01%-12.99%	The amount, expressed as a percentage, determined by dividing (x) the ROIC by (y) 10%
13%	100%
13.1%-17.99%	100%, plus the amount, expressed as a percentage, determined by dividing (x) the number of percentage points (not to exceed 5 percentage points) by which the ROIC exceeds 10% by (y) 5%
18% or more	200%

Target ROIC performance reflects the Compensation Committee's view of an appropriate benchmark based on the Company budget presented to the Committee by management. The Compensation Committee has raised the target in the preceding years in order to challenge management to continuously strive for improvement in order to reach certain award targets.

For the three-year period ending in 2014, the three-year average ROIC performance objectives and the method for determining their corresponding awards are as follows:

Return on Invested Capital (ROIC):	Calculation of Award (Percentage of Target Award):
Less than 5%	0%
5%	50%
5.01%-9.99%	The amount, expressed as a percentage, determined by dividing (x) the ROIC by (y) 10%
10%	100%
10.1%-14.99%	100%, plus the amount, expressed as a percentage, determined by dividing (x) the number of percentage points (not to exceed 5 percentage points) by which the ROIC exceeds 10% by (y) 5%
15% or more	200%

In 2012, the Compensation Committee approved a target award amount of \$420,000 for Mr. Orr. For the three-year period ending in 2014, the Company achieved a three-year average ROIC of 14.23%. The resulting payouts were adjusted to account for discontinued operations, to exclude the Company's 2014 acquisition of Scepter, and to account for special income and expenses approved by the Compensation Committee. Based on the ROIC and the adjustments, Mr. Orr received a long-term cash incentive of \$777,000, which was paid early in 2015.

Retirement and Other Benefits:

We also maintain qualified and nonqualified retirement programs to provide our executives and other employees basic life and income security needs and recognize individual contributions during their career with Myers. The NEOs participate in our qualified retirement plan (a tax-qualified 401(k) Plan, pursuant to which all participants are eligible to receive matching contributions from the Company) on the same terms as all of our other employees.

Table of Contents

NEOs also participate in our Supplemental Executive Retirement Plan (SERP). The SERP was adopted to replace retirement benefits lost because of regulatory limits associated with qualified plans, provide retirement benefits for our NEOs comparable to that of other employees who are not constrained by regulatory limits, offer more competitive benefits to newly appointed senior executives, and enhance the retention and recruitment of high-quality executives. The SERP provides additional pension benefits to a select group of management. The annual supplemental pension benefit is payable for ten years commencing at the earlier of retirement or termination. Credit for years of service under the SERP may also be awarded to a participant at the discretion of the Compensation Committee. As part of their respective employment arrangements, Messrs. Orr and Branning were provided with an annual SERP benefit up to \$325,000 and \$50,000, respectively, payable for ten years commencing at the earlier of retirement or termination.

NEOs also participate in broad-based benefit plans that are available to all employees, including health insurance and life and disability insurance. Executives' benefits are not tied to individual or Company performance, which is the same approach used for other employees. Moreover, changes to executives' benefits reflect the changes to the benefits of other employees.

Executive Perquisites:

The Company's executive perquisites are modest relative to the general practices of other companies. These rewards are not tied to individual or Company performance. While we believe these benefits are modest, they are highly valued by recipients, have limited cost, are part of a competitive reward program, and help in attracting and retaining the best executives.

In 2014, Mr. Orr received a Company provided car plus reimbursement for related expenses. NEOs also are able to use the Company's country club membership, but at their own expense. In addition, NEOs are eligible for an annual physical examination. NEOs are responsible for paying the income taxes associated with these benefits and are not grossed-up by the Company.

Other Policies and Practices.

Timing of Equity Grants and Grant Price. Option grants and other equity incentives are generally awarded during the first Compensation Committee meeting of the fiscal year, normally in late February or early March. This meeting is normally set more than a year in advance, limiting our ability to time the market for equity awards. The value of any such grants is determined by the closing price of our stock on the NYSE on the date that the Board approves such grants. In addition, from time-to-time during the year, the Compensation Committee may make grants to a new employee or, in rare circumstances, to a current employee. In such cases, the value of the grants is based on the closing price of our stock on the NYSE on the date such grants are approved by the Board.

Stock Ownership Guidelines: A key objective of our pay program in general and our long-term incentive awards in particular is to encourage and build stock ownership. As a result, we adopted stock ownership guidelines that are common at other companies. These guidelines were adopted in the fall of 2010 and amended in January 2013 and require Mr. Orr to own shares that are equal to five times his base salary. Mr. Branning is required to own shares equal to three times his base salary. NEOs have five years from the effective date of the guidelines to achieve their ownership targets. In determining stock ownership, we count shares owned outright, including shares owned jointly with a spouse or separately by a spouse and/or children that share the NEO's household, vested and unvested restricted stock and restricted stock unit awards, and vested stock options.

Accounting and Tax Considerations: We intend annual cash incentive amounts and our long term cash incentive amounts to be fully deductible for federal income tax purposes under Section 162(m). In order to achieve this we establish an annual Incentive Bonus Plan Pool against which payouts may be made. In 2013, our shareholders approved the Performance Bonus Plan which is designed to permit us to grant incentive awards that may qualify as qualified performance-based compensation for purposes of Section 162(m) of the Internal Revenue Code.

Pay Decisions for 2015.

In March 2015, the Compensation Committee met to approve the Company's executive incentive pay program for NEOs for 2015. The pay program reflects many of the same elements used in 2014, as described below.

Target bonus opportunities were unchanged;

Bonuses remained tied to achieving budgeted EBITDA and cash flow;

A revised mix of options, service-based stock units and long-term cash incentives for the NEOs to be delivered as follows: 30% in the form of stock options, 45% in the form of target long-term cash incentives and 25% as service-based restricted stock units;

Long-term cash incentives remained tied to three-year ROIC.

In arriving at its decisions on executive compensation, the Compensation Committee took into account the affirmative shareholder say-on-pay vote at the previous annual meeting of shareholders and continued to apply the same principles in determining the amounts and types of executive compensation. The Compensation Committee referenced the peer group as disclosed for 2014 to determine the competitive pay positioning of our NEOs' pay.

Compensation Committee Interlocks and Insider Participation.

The severance agreement became effective as of June 1, 2011 following the expiration of Mr. Orr's amended employment agreement. On March 5, 2015, the Board of Directors approved an amended and restated severance agreement between the Company and Mr. Orr, which was entered into on March 16, 2015. reinstated severance agreement is attached as Exhibit 10.1 to the Current Report on Form 8-K filed with the SEC on March 17, 2015. Mr. Orr's employment by the Company is employment-at-will.

Mr. Orr's severance agreement provides that if Mr. Orr is terminated other than for cause or if he terminates for good reason, including following a change in control, then he is entitled to: (1) two times Mr. Orr's annual base salary as in effect on the date of his termination in a lump sum within thirty (30) days after such termination; (2) an amount equal to the sum of (A) two times his annual bonus at the highest rate in effect during the prior two year period plus (B) a pro-rata portion of the current year target annual bonus within thirty (30) days after such termination; (3) health coverage for two years; (4) an automobile allowance for two years; (5) long term disability protection for two years; (6) life insurance protection for two years; and (7) outplacement services for one year.

PROPOSAL NO. 2 APPROVAL OF ADOPTION OF AMENDED AND RESTATED 2008 INCENTIVE STOCK PLAN

On April 30, 2009, Company shareholders adopted the 2008 Incentive Stock Plan, as amended and restated on March 6, 2009. On March 5, 2015, the Board approved, subject to receipt of shareholder approval at the Annual Meeting, the 2008 Incentive Stock Plan, as amended and restated (the Amended and Restated 2008 Incentive Stock Plan).

Key changes to and new features of the Amended and Restated 2008 Incentive Stock Plan include:

An increase in the number of shares of common stock available for grant under the plan by 1,000,000;

Extension of the expiration date of the plan to March 5, 2025;

Modification of the definition of Change of Control to provide that, except as provided in an agreement that is currently in effect, the Company will not accelerate the vesting of any outstanding awards unless either (i) such acceleration is conditioned on a subsequent termination of employment of a holder of an award, or (ii) any outstanding award is not assumed or replaced with a substitute award having substantially equal value and terms and conditions;

Increase in the threshold of required ownership of voting power of the Company from 20% to 30% for a Change of Control under the plan to occur;

Awards are subject to a minimum three-year vesting requirement (subject to limited exception described below);

Prohibits amending the terms of outstanding awards to reduce the exercise price of outstanding options or cancel outstanding options in exchange for cash or other awards or options with an exercise price that is less than the exercise price of the original options without stockholder approval, or in certain other limited circumstances; and

Awards are subject to the Company's recently adopted clawback policy.

The purpose of the Amended and Restated 2008 Incentive Stock Plan is to provide incentives to our key employees and non-management independent directors to acquire Common Stock in the Company and to further align their incentives with the long-term growth and profitability objectives of the Company along with assisting the Company in attracting and retaining key employees, directors and consultants.

Since 2009, the Company's weighted average diluted shares outstanding has been reduced through share repurchase by approximately 5,526,258 shares, from 35,266,939 to 32,704,013, more than offsetting the dilutive effect from the award of shares under the equity compensation plan over that time period.

As of December 31, 2014, a total of 633,871 shares remained available for future awards under the plan.

As of December 31, 2014, the Company had approximately 59 employees and non-employee directors who are eligible to be considered for awards under the Amended and Restated 2008 Incentive Stock Plan. The following table shows all compensation plans under which equity securities of the Company are authorized for issuance as of the end of fiscal 2014.

Summary of the Amended and Restated 2008 Incentive Stock Plan

The following summary description of the Amended and Restated 2008 Incentive Stock Plan is qualified in its entirety by reference to the full text of the Amended and Restated 2008 Incentive Stock Plan, which is attached to this Proxy Statement as Annex A and incorporated herein by reference. The Amended and Restated 2008 Incentive Stock Plan provides for the grant of awards to our directors, officers and key employees. The Compensation Committee has the ability to grant a number of types of stock awards such as stock options, stock appreciation rights, performance awards, restricted stock awards, restricted stock or restricted stock equivalents, or other forms of equity-based awards consistent with the purpose of the Amended and Restated 2008 Incentive Stock Plan. The purpose of the Amended and Restated 2008 Incentive Stock Plan is to provide incentives to our key employees and non-management independent directors to acquire Common Stock in the Company and to further align their incentives with the long-term growth and profitability objectives of the Company along with assisting the Company in attracting and retaining key employees, directors and consultants.

Administration of the Amended and Restated 2008 Incentive Stock Plan

The Amended and Restated 2008 Incentive Stock Plan is administered by the Compensation Committee of the Board or any other committee appointed by the Board. However, such other committee must consist of not less than two non-employee, independent directors of the Company. The Board has designated the Compensation Committee with the responsibility for the administration of the Amended and Restated 2008 Incentive Stock Plan. Subject to the provisions of the Amended and Restated 2008 Incentive Stock Plan, the Compensation Committee is authorized to grant awards, to interpret the plan and such awards, to prescribe, amend and rescind the rules and regulations relating to the Amended and Restated 2008 Incentive Stock Plan and the awards and to make other necessary or advisable determinations.

Eligibility and Participation

The Amended and Restated 2008 Incentive Stock Plan provides that directors, officers and key employees of, and consultants to, the Company and its subsidiaries who are selected by the Compensation Committee are eligible to receive awards. No incentive stock options may be granted to a participant

Table of Contents

who is not an employee of the Company or its subsidiaries. In determining participants to whom awards will be granted and the number of shares to be subject to such award, the Compensation Committee shall take into account the duties of the participants, their present and potential contributions and such other factors as the Compensation Committee deems relevant. In no event shall a participant receive an award to acquire more than 1,000,000 shares of common stock in any one calendar year. As of December 31, 2014, nine non-employee directors, and approximately two officers and 48 other employees were entitled to participate in the plan.

If the Amended and Restated 2008 Incentive Stock Plan is approved by the shareholders at the Annual Meeting, an additional 1,000,000 shares will be authorized to be issued under the plan. Shares that are subject to awards that are forfeited, terminated or cancelled will be available for future issuance.

Awards granted pursuant to the plan on or after the date the amendment and restatement becomes effective shall be subject to a minimum three (3) year vesting schedule, with one-third vesting to occur on each of the first three anniversaries of the date of the award agreement, provided however, that up to ten percent (10%) of the remaining shares authorized under the Amended and Restated 2008 Incentive Stock Plan shall not be subject to any minimum vesting requirement.

Option Awards

The Compensation Committee may grant incentive stock options, non-qualified stock options, or a combination of the two.

The exercise price of each option, whether it be an incentive stock option or non-qualified stock option, may not be less than the fair market value of the Common Stock at the date of grant. Under the plan, the fair market value is generally the closing price of the Common Stock on the NYSE (or other principal exchange) on the date of grant or if no sale takes place on such day on any exchange, the average of the last reported closing bid and asked price on such day. The exercise price of each incentive stock option granted to any participant possessing more than 10% of the combined voting power of all classes of capital stock of the Company, or, if applicable, a parent or subsidiary of the Company, on the date of grant must not be less than 110% of the fair market value on that date, and no such option may be exercisable more than five years after the date of grant.

Options (other than certain incentive stock options as described above) granted will be exercisable for a term of not more than ten years from the date of grant but shall be subject to earlier termination. In addition, no employee may be granted an incentive stock option to the extent the aggregate fair market value, as of the date of grant, of the Common Stock with respect to which incentive stock options (under the plan and all other equity plans of the Company and its subsidiaries) are first exercisable by such participant during any calendar year exceeds \$100,000.

Except in connection with certain corporate transactions, the terms of outstanding awards may not be amended to reduce the exercise price of outstanding options or cancel outstanding options in exchange for cash, or other awards or options with an exercise price that is less than the exercise price of the original options, without shareholder approval.

Restricted Stock Awards

Restricted stock awards are rights to receive shares of Common Stock subject to forfeiture and other restrictions determined by the Compensation Committee. Generally, the number of shares of Common Stock subject to the restricted stock award shall be issued in the recipient's name and the recipient shall be a shareholder and have all the rights of a shareholder with respect to such shares including the right to vote such shares and to receive dividends and other distributions; provided, however, that dividends on any shares subject to a restricted stock award that have not previously vested may be paid directly to the participant, withheld by the Company subject to vesting or reinvested in additional shares subject to a restricted stock award with similar vesting provisions as determined by the Compensation Committee. Until the restrictions with respect to any restricted stock award lapse, the

Table of Contents

shares will be held by the Company and may not be sold or otherwise transferred by the employee. Except as otherwise determined by the Compensation Committee, until the restrictions lapse, the shares will be forfeited if the employee's employment is terminated for any reason. Restricted stock awards may vest upon either the passage of time or the achievement of one or more performance goals approved in writing and administered in accordance with Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), which performance goals may be based on an increase in the fair market value of the common stock of the Company; total shareholder return; revenue, sales, settlements, market share, customer conversion, net income, share price and/or earnings per share; return on assets, net assets, and/or invested capital; economic value added; improvements in costs and/or expenses, EBIT, EBITDA, operating or gross profits, cash earnings or income from continuing operations, net cash from continuing operations or cash flow from operating activities, performance relative to a peer group, or any similar performance measure established by the Compensation Committee.

Stock Appreciation Rights (SARs)

An SAR is a right granted to a participant to receive shares of Common Stock or cash, or a combination thereof, in an amount equal to the excess of (a) the fair market value of a share of Common Stock on the date the SAR is exercised over (b) the fair market value of a share of Common Stock on the date the SAR was granted.

SARs granted on a stand-alone basis are exercisable for a term, not to exceed 10 years, to be determined by the Compensation Committee. SARs shall be subject to such other terms and conditions as the Compensation Committee, in its discretion, shall determine. The terms and conditions may include Compensation Committee approval of the exercise of the SAR, limitations on the time within which and the extent to which such SAR shall be exercisable, limitations, if any, on the amount of the appreciation in value which may be recognized with regard to such SAR, and specification of what portion, if any, of the amount payable to the participant upon exercise of such SAR shall be payable in cash and what portion, if any, shall be payable in shares of Common Stock.

Except in connection with certain corporate transactions, the terms of outstanding awards may not be amended to reduce the exercise price of outstanding SARs or cancel outstanding SARs in exchange for cash, or other awards or SARs with an exercise price that is less than the exercise price of the original SARs without stockholder approval.

Stock Unit Awards

Stock unit awards may be granted on such terms as the Compensation Committee may determine. A participant awarded stock units will not be deemed the beneficial owner of shares underlying the stock unit. Each stock unit will represent the right of the participant to receive an amount equal to the fair market value of a share of Common Stock on the date of payment of such stock unit. A holder of stock units will have no rights other than those of a general creditor of the Company. Payments made with respect to stock units may be made in the form of cash, shares or a combination of both and at such time as determined by the Compensation Committee at the time of the grant of the stock unit. Stock unit awards may vest either based on the passage of time or the achievement of one or more performance goals, and may provide for the payment of dividend equivalents.

Director Awards

Each non-employee director who is a director as of the date of the annual meeting of the Board with respect to any given year and has been a director for the entire period since the annual meeting of shareholders of the Company that was held in the immediately preceding calendar year will be granted a director award for a number of full shares determined by dividing the Applicable Director Amount by the fair market value of a share on the grant date, such grant to be made as of such meeting date without further action by the Compensation Committee (the Applicable Director Amount being the amount recommended by the Compensation Committee and approved by the full Board). A recipient

Table of Contents

director, upon receipt of the director award of shares, will be a shareholder with respect to all shares of Common Stock subject to the director award, including the right to vote such shares and to receive dividends and other distributions paid with respect to such shares. The Company has the right to grant stock units in lieu of shares, and a recipient director has the right to elect to receive stock units in lieu of shares.

Adjustments in Capitalization: Change In Control

Awards granted under the Amended and Restated 2008 Incentive Stock Plan will be subject to adjustment upon stock dividend, stock split, recapitalization, merger, consolidation, combination, or exchange of shares, separation, reorganization or liquidation event, or other similar events, or in the event of extraordinary cash or non-cash dividends, being declared with respect to the shares, or similar transactions or events. Upon the occurrence of a specified event, the number and class of shares available under the Amended and Restated 2008 Incentive Stock Plan in the aggregate and the number and class of shares subject to outstanding awards, applicable purchase prices and other applicable provisions, will be equitably adjusted by the Compensation Committee. Any adjustment to an incentive stock option shall be made in a manner consistent with Section 424 of the Code.

In the case of a Change of Control the Compensation Committee may, in its sole discretion, determine, on a case-by-case basis, that each award, other than an award of stock units, granted under the Amended and Restated 2008 Incentive Stock Plan shall terminate on the later of (i) the 30th day after the holder of the award receives written notice from the Company of its intention to terminate the award or (ii) the consummation of the Change of Control. Any holder of an option or SAR, in the event of such a termination, shall have the right, subject to any limitations on exercise contained in the award agreement, to exercise such option or SAR prior to the termination. A Change of Control includes: (i) the acquisition by any person of securities of the Company representing 30% of the voting power; (ii) during any one year period a majority of the Board has been changed; (iii) a merger or consolidation of the Company where securities representing more than 50% of the voting power are not held by the Company's existing shareholders after such merger or consolidation; or (vi) approval by the shareholders of a plan of complete liquidation or sale or disposition of more than 50% of the Company's assets.

Except as provided in an agreement that is currently in effect, the Company will not accelerate the vesting of any outstanding awards unless either (i) such acceleration is conditioned upon the subsequent termination of employment of a holder of an award or (ii) any such outstanding award is not assumed or replaced with a substituted award or right having a substantially equivalent economic value and substantially equivalent or better terms and conditions.

Valuation

The exercise price of each incentive stock option may not be less than the fair market value of the Common Stock at the date of grant. Under the Amended and Restated 2008 Incentive Stock Plan, the fair market value is generally the closing price of the Common Stock on the New York Stock Exchange on the date of grant if it is a business day (if the date of grant is not a business day, then fair market value is the closing price of the Common Stock on the last business day prior to the date of grant). Unless the Compensation Committee determines otherwise, the option price per share of any non-qualified stock option shall be the fair market value of the shares of Common Stock on the date the option is granted. The exercise price of each incentive stock option granted to any participant possessing more than 10% of the combined voting power of all classes of capital stock of the Company, or, if applicable, a parent or subsidiary of the Company, on the date of grant must not be less than 110% of the fair market value on that date, and no such option may be exercisable more than five years after the date of grant.

Amendment and Termination

The Amended and Restated 2008 Incentive Stock Plan will terminate on March 5, 2025, and awards will not be granted under the plan after that date although the terms of any award may be amended in

Table of Contents

accordance with the plan at any date prior to the end of the term of such award. Any awards outstanding at the time of termination of the plan will continue in full force and effect according to the terms and conditions of the award and the plan.

The plan may be amended by the Board of Directors, provided that shareholder approval will be necessary as required by applicable law, and provided further that no amendment may impair any rights of any holder of an award previously granted under the plan without the holder's consent.

Certain Federal Income Tax Consequences

Federal Income Tax Consequences- Non-Qualified Stock Options

A recipient of a non-qualified stock option will not generally recognize taxable income upon the grant of a non-qualified stock option. Upon the exercise of a non-qualified stock option, an option holder will generally recognize ordinary compensation income in an amount equal to the excess of (i) the fair market value of the shares received, over (ii) the exercise price paid therefor. An option holder will generally have tax basis in any shares received pursuant to the exercise of a non-qualified stock option that equals the fair market value of such shares on the date of exercise. Subject to the discussion under Tax Code Limitations on Deductibility, the Company will be entitled to a deduction for federal income tax purposes that corresponds as to timing and amount with the compensation income recognized by an option holder under the foregoing rules.

Federal Income Tax Consequences -Incentive Stock Options

A recipient of an incentive stock option will not recognize taxable income for regular tax purposes upon the grant or exercise of such an option. Upon exercise of an incentive stock option, the excess of the fair market value of the shares received over the exercise price will increase the alternative minimum taxable income of the option holder, which may cause such option holder to incur alternative minimum tax. The payment of any alternative minimum tax attributable to the exercise of an incentive stock option would be allowed as a credit against the option holder's regular tax liability in a later year to the extent the option holder's regular tax liability is in excess of an alternative minimum tax for that year. Upon the disposition of shares acquired upon exercise of an incentive stock option that have been held for the requisite holding period (two years from the date of grant and one year from the date of exercise of the incentive stock option) an option holder will generally recognize capital gain (or loss) equal to the excess (or shortfall) of the amount received in the disposition over the exercise price paid by the option holder for the shares. However, if an option holder disposes of shares that have not been held for the requisite holding period (a Disqualifying Disposition), the option holder will generally recognize ordinary compensation income in the year of the Disqualifying Disposition in an amount equal to the amount by which the fair market value of the shares at the time of exercise of the incentive stock option (or, if less, the amount realized in the case of an arms-length Disqualifying Disposition to an unrelated party) exceeds the exercise price paid by the option holder for such shares. An option holder would also recognize capital gain to the extent the amount realized in the Disqualifying Disposition exceeds the fair market value of the shares on the exercise date.

The Company will generally not be entitled to any federal income tax deduction upon the grant or exercise of an incentive stock option, unless an option holder subsequently makes a Disqualifying Disposition of the shares. If an option holder makes a Disqualifying Disposition, the Company (or a subsidiary) will then, subject to discussion below under Tax Code Limitations on Deductibility, be entitled to a tax deduction that corresponds as to timing and amount with the compensation income recognized by an option holder under the rules described in the preceding paragraph.

Federal Income Tax Consequences- Restricted Stock Awards and Director Awards

Generally, an employee or director to whom a restricted stock or director award is made will recognize ordinary income for federal income tax purposes in an amount equal to the excess of the fair market value of the shares of Common Stock received at the time the shares first become transferable

Table of Contents

or are no longer subject to forfeiture over the purchase price, if any, paid by the employee or director for such Common Stock, and such amount will then be deductible for federal income tax purposes by the Company. Alternatively, if the recipient of a restricted stock award so elects, the recipient will recognize ordinary income on the date of grant in an amount equal to the excess of the fair market value of the shares of Common Stock (without taking into account any lapse restrictions) on such date, over the purchase price, if any, paid by the recipient for such Common Stock, and such amount will then be deductible by the Company. In the event of the forfeiture of the Common Stock included in a restricted stock award, the employee will not be entitled to any deduction except to the extent the employee paid for such Common Stock. Upon a sale of the Common Stock included in the restricted stock award, the employee will recognize a capital gain or loss, which will be a long term capital gain or loss if held for more than one year, as the case may be, equal to the difference between the amount realized from such sale and the employee's tax basis for such shares of Common Stock.

Federal Income Tax Consequences-SARs and Stock Units

A recipient employee will not generally recognize taxable income upon the grant of an SAR or stock unit. The employee will generally recognize ordinary income for federal income tax purposes in an amount equal to the amount of cash and/or the then fair market value of the shares of common stock received upon exercise of the SAR or payment of the stock unit, in the tax year in which payment is made in respect of an SAR or stock unit, and, subject to the discussion under Tax Code Limitations on Deductibility, the Company will generally be entitled to a tax deduction for an equivalent amount for the same year.

Tax Code Limitations on Deductibility

In order for the amounts described above to be deductible by the Company, such amounts must constitute reasonable compensation for services rendered or to be rendered and must be ordinary and necessary business expenses. The ability of the Company to deduct the amounts described above could also in some circumstances be limited by the golden parachute payment rules of Section 280G of the Code, which prevent the deductibility of certain excess parachute payments made in connection with a change in control of a corporation. Finally, the ability of the Company (or a subsidiary) to obtain a deduction for amounts paid under the plan could be limited by Section 162(m) of the Code, which limits to \$1,000,000 per officer the deductibility for federal income tax purposes of most compensation paid during a taxable year to certain executive officers of the Company. However, an exception to this limitation applies in the case of certain performance-based compensation. The Amended and Restated 2008 Incentive Stock Plan is intended to satisfy the requirements for this exception for option grants and SARs and any other awards that vest based on the achievement of one or more performance goals.

The Amended and Restated 2008 Incentive Stock Plan is intended to comply with Section 409A of the Code and the regulations thereunder, to the extent applicable.

Tax Withholding

The Company is authorized to withhold from any award granted under the Amended and Restated 2008 Incentive Stock Plan any withholding taxes due in respect of the award or payment. Subject to Compensation Committee approval, a participant may elect to satisfy his or her obligations for the payment of withholding taxes by delivery of shares of Common Stock.

Participants may obtain additional information about the Amended and Restated 2008 Incentive Stock Plan by contacting the Company, Attention: Corporate Secretary, 1293 S. Main Street, Akron, Ohio 44301, (330) 253-5592.

Benefits Under the Amended and Restated 2008 Incentive Stock Plan

The awards under the Amended and Restated 2008 Incentive Stock Plan are subject to the discretion of the Compensation Committee and, therefore, are not determinable at this time. Similarly, the

benefits or amounts which would have been received by or allocated to executive officers and our other employees for the last completed fiscal year if the amendment had been in effect cannot be determined. PROPOSAL NO. 4 ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

Section 951 of the Dodd-Frank Wall Street Reform and Consumer Protection Act requires that the Company seek a non-binding advisory vote from its shareholders to approve the compensation as disclosed in the Compensation Discussion & Analysis (CD&A) and tabular disclosures of this Proxy Statement. Since the required vote is advisory, the result of the vote is not binding upon the Board.

As discussed in the CD&A section of this Proxy Statement, our executive compensation program is designed to motivate our executive officers to achieve short-term and long-term Company goals that will increase shareholder value; ensure that the actual compensation paid to our executive officers is aligned and correlated with financial performance and changes in shareholder value; motivate and reward executives whose knowledge, skills and performance are crucial to our success; and attract and retain talented and experienced executives and other key employees.

To meet our objectives, the Compensation Committee implemented the following policies:

Provide compensation packages that are within a range that is reasonably competitive in the market;

Provide short-term performance incentives by establishing goals for our executives through an annual bonus plan focused on operating performance and cash flow; and

Provide long-term performance incentives and reward executive management for achievement of long-term strategic initiatives through the use of restricted stock awards, option grants, other equity-based awards under our 2008 Incentive Stock Plan, and cash awards under the Performance Bonus Plan.

Our executive compensation program is designed to be consistent with the objectives set forth above. The basic elements of our compensation package include (i) base salary, (ii) annual bonus opportunities, (iii) long-term incentives, such as equity awards, (iv) retirement benefits, and (v) generally available health, welfare and other benefit programs and executive perquisites. Under our executive compensation program, we target total compensation to be within the median range of compensation paid to similarly situated executive officers at peer public companies and companies in our industry. We also monitor and assess the competitive retention and recruiting pressures for executive talent in our industries and our markets.

We are presenting the following proposal, which gives you as a shareholder the opportunity to endorse or not endorse our compensation program for our NEOs by voting for or against the following resolution. Because the vote on this proposal is advisory in nature, it will not affect any compensation already paid or awarded to any NEO and will not be binding on or overrule any decisions by the Board. The Compensation Committee will take into account the outcome of the vote when considering future compensation arrangements for our NEOs.

PROPOSAL NO. 5 SHAREHOLDER PROPOSAL

The following advisory shareholder proposal (the GAMCO Proposal) was submitted by GAMCO Asset Management, Inc., One Corporate Center, Rye, New York, 10580 (the Proponent). The Proponent claims to beneficially own approximately 4,710,392 shares of the Company's common stock.

RESOLVED, that the shareholders of Myers Industries, Inc. (the Company) request that the Board of Directors take the necessary steps to ensure that the Company does not engage in a transaction, either through acquisition of assets, stock or otherwise, by which the Company would acquire an operating business until the Company completes the sale of the Company's Lawn & Garden Segment and returns 50% of its cash flow to shareholders. The cash flow should be returned to shareholders within two years following the completion of the sale of the Company's Lawn & Garden Segment.

The Board has carefully considered this proposal, and for the reasons set forth herein, the Board has determined that this proposal would not enhance shareholder value and would not be in the best interests of the Company and its shareholders. **The Board therefore recommends that the shareholders vote AGAINST the GAMCO Proposal.** This proposal, which is advisory in nature, would constitute a recommendation to the Board if approved by shareholders. While there are aspects of this proposal with which the Board is in general agreement, the Board believes the proposal is too broad and inappropriately impinges on the fiduciary duties of the Board to the shareholders. In determining how to vote on the GAMCO Proposal, the Board asks that shareholders consider that the sale of the Lawn and Garden Segment was completed in February 2015 and that the net proceeds of the sale of the Lawn and Garden Segment were immediately applied to reduce the debt of the Company. Further, the Board identifies the Company's historically balanced approach to the allocation of capital, including the payment of dividends to shareholders, the repurchase of shares, investment in capital expenditures, repayment of debt, and investment in strategic opportunities. The Company returned \$70,600,000 to shareholders in 2014, \$17,200,000 to shareholders in 2013, \$17,200,000 to shareholders in 2012, and \$30,500,000 to shareholders in 2011. The Board believes that the prohibition on engaging in any transactions could interfere with the execution of the Company's strategy and may prevent the Board from acting in the best interests of shareholders.

Section 16(a) Beneficial Ownership Reporting Compliance. Section 16(a) of the Exchange Act requires Myers' directors, officers and persons who own more than ten percent of its Common Stock ("Section 16 Filers") to file reports of ownership and changes in ownership with the SEC and to furnish Myers with copies of all such forms they file. These reports can be viewed on the SEC's website at www.sec.gov. Based solely on our review of filings with the Securities and Exchange Commission and written representations that no other reports were required to be filed by the relevant persons, we believe that, during the fiscal year ended December 31, 2014, all officers and directors complied, on a timely basis, with the filing requirements applicable to them pursuant to Section 16 of the Exchange Act. Based solely on the Schedule 13D/A filed on February 19, 2015, by Gabelli Funds, LLC, GAMCO Asset Management Inc., MJG Associates, Inc., Gabelli Securities, Inc., Teton Advisors, Inc., GGCP, Inc., GAMCO Investors, Inc., and Mario J. Gabelli (collectively, the "Gamco Group"), for which the Company disclaims any responsibility, the Gamco Group beneficially owned 6,607,410 shares of our Common Stock as of February 19, 2015 representing 20.97% of our outstanding Common Stock, and Myers is unable to determine if the Gamco Group has a Section 16(a) beneficial ownership reporting obligation with which it has failed to comply.

Shareholder Proposal for Inclusion in Proxy Statement. Any shareholder who intends to present a proposal at the Company's next annual meeting to be held in April 2016 must deliver a signed letter of proposal to the following address: the Corporate Governance and Nominating Committee, c/o Mr. Gregory W. Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301:

not later than December 1, 2015, if the proposal is submitted for inclusion in the Company's proxy materials for the annual meeting pursuant to Rule 14a-8 under the Exchange Act, or

not earlier than January 22, 2016 and not later than February 21, 2016 (subject to announcement of the annual meeting date, as described below) if the proposal is submitted pursuant to the Company's Amended and Restated Code of Regulations.

In accordance with our Amended and Restated Code of Regulations, a shareholder may submit notice of a shareholder proposal that it intends to raise at our annual meeting (and not desiring to be included in the Company's proxy statement) only if advance written notice of such intention is received by the Corporate Secretary not less than sixty (60) days nor more than ninety (90) days prior to the date of such annual meeting of shareholders. In the event that the date of such meeting is not publicly disclosed at least seventy (70) days prior to the date of such meeting, written notice of such shareholder's intent to submit a proposal must be received by the Corporate Secretary not later than the close of business on the tenth (10th) day following the date on which notice of such meeting is first provided to the shareholders. A shareholder wishing to submit a shareholder proposal must follow the procedure outlined in Article I, Section 11 of our Amended and Restated Code of Regulations, titled "Advance Notice of Shareholder Proposals" and then send a signed letter of proposal to the following address: Corporate Governance and Nominating Committee, c/o Mr. Gregory W. Branning, Corporate Secretary, Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301. The Company disclosed the date of the 2015 annual meeting on February 11, 2015, and received no proposals satisfying this requirement prior to the February 23, 2015 deadline for this year's Annual Meeting (not including the GAMCO Proposal which was submitted pursuant to Rule 14a-8 under the Exchange Act).

The submission of such a notice does not ensure that a proposal can be raised at our Annual Meeting.

No Incorporation by Reference. The Compensation Committee Report and the Audit Committee Report (including reference to the independence of the Audit Committee members) are not deemed filed with the SEC or subject to the liabilities of Section 18 of the Exchange Act, and shall not be deemed incorporated by reference into any prior or future filings made by us under the Securities Act, or the Exchange Act, except to the extent that we specifically incorporate such information by refer-

ence. The section of this proxy entitled "Compensation Discussion and Analysis" is specifically incorporated by reference in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Cost of Proxy Solicitation. The accompanying proxy is solicited by and on behalf of the Board, whose notice of meeting is attached to this Proxy Statement, and the entire cost of such solicitation will be borne by Myers. In addition to the use of the mail, proxies may be solicited by personal interview, telephone and telegram by directors, officers and employees of Myers. Arrangements will be made with brokerage houses and other custodians, nominees and fiduciaries for the forwarding of solicitation material to the beneficial owners of stock held of record by such persons, and Myers will reimburse them for reasonable out-of-pocket expenses incurred by them in connection therewith. Myers has also retained Innisfree M&A Incorporated to assist in the distribution of proxy materials and the solicitation of proxies at an estimated cost of \$275,000 plus reimbursement for customary costs and expenses. Myers has also agreed to indemnify Innisfree M&A Incorporated and certain related persons against certain liabilities arising out of or in connection with the engagement. Myers estimates that the total expenditures relating to its proxy solicitation (other than salaries or wages of officers and employees, but including the cost of mailing, related legal and advisory fees and any litigation related to the solicitation) will be approximately \$400,000 of which approximately \$35,000 has been spent to date.

Copy of the Form 10-K. We will mail without charge, upon written request, a copy of our Annual report on Form 10-K for the year ended December 31, 2014, including the consolidated financial statements, schedules and list of exhibits, and any particular exhibit specifically requested. Requests should be sent to: Myers Industries, Inc., 1293 South Main Street, Akron, Ohio 44301, Attn: Investor Relations. The Annual Report on Form 10-K is also available at www.myersind.com and at the SEC's website at www.sec.gov.

Notice Regarding Delivery of Security Holder Documents. The SEC now permits companies to send a single set of annual disclosure documents to any household at which two or more shareholders reside, unless contrary instructions have been received, but only if the Company provides advance notice and follows certain procedures. In such cases, such shareholders continue to receive a separate notice of the meeting and proxy card. This householding process reduces the volume of duplicate information and reduces printing and mailing expenses. We have not instituted householding for shareholders of record; however, a number of brokerage firms may have instituted householding for beneficial owners of the Company's shares of Common Stock held through such brokerage firms. If your family has multiple accounts holding shares of Common Stock of the Company, you already may have received householding notification from your broker. Please contact your broker directly if you have any questions or require additional copies of the annual disclosure documents. The broker will arrange for delivery of a separate copy of this Proxy Statement or our Annual Report promptly upon your written or oral request. You may decide at any time to revoke your decision to household, and thereby receive multiple copies.
