Dear Stockholder:

You are cordially invited to attend the 2015 Annual Meeting of Stockholders of TechTarget, Inc., which will be held at 2:00 p.m., local time, on Friday, June 19, 2015, at our corporate headquarters at 275 Grove Street, Newton, MA 02466.

This year, we are pleased to be using the U.S. Securities and Exchange Commission rule that allows companies to furnish their proxy materials over the Internet. As a result, we are mailing to our stockholders a Notice of Internet Availability of Proxy Materials instead of a paper copy of this Proxy Statement and our annual report on Form 10-K. The Notice will contain instructions on how to access those documents and vote online. The Notice will also contain instructions on how each stockholder can receive a paper copy of our proxy materials, including this Proxy Statement and our annual report on Form 10-K and form of proxy. Using this distribution process conserves natural resources and reduces the costs of printing and distributing our proxy materials.

We hope you will be able to attend and participate in the Annual Meeting.

Whether or not you plan to attend, it is important that your shares be represented and voted at the Annual Meeting. As a stockholder of record, you may vote your shares by telephone, over the Internet or by proxy card.

On behalf of your Board of Directors, I would like to thank you for your continued support and interest in TechTarget, Inc.

Sincerely,

Greg Strakosch

Chief Executive Officer

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of TechTarget, Inc., also referred to in this Proxy Statement as the Company, TechTarget, we or us, of proxies to be voted at our 2015 Annual Meeting of Stockholders, or the Annual Meeting, to be held on Friday, June 19, 2015 at our corporate headquarters at 275 Grove Street, Newton, MA 02466 at 2:00 p.m., Eastern Time, or at any adjournment or adjournments thereof. Stockholders of record of our common stock, \$0.001 par value per share, as of the close of business on April 22, 2015 will be entitled to notice of, and to vote at, the Annual Meeting and any adjournment or adjournments thereof. As of that date, there were 33,084,563 shares of our common stock issued and outstanding and entitled to vote. Each share of common stock is entitled to one vote on any matter presented at the Annual Meeting. Directions to the Company's corporate headquarters are available at: www.techtarget.com/html/about_contact_directions.html

If proxies in the accompanying form are properly executed and returned, the shares of common stock represented thereby will be voted in the manner specified therein. If not otherwise specified, the shares of common stock represented by the proxies will be voted: (i) FOR the election of directors (Agenda Item No. 1), (ii) FOR the ratification of BDO USA, LLP as our independent registered public accounting firm (Agenda Item No. 2; and (iii) in the discretion of the person named in the Company's form of proxy, on any other proposals which may properly come before the Annual Meeting or any adjournment or adjournments thereof. Any stockholder who has voted or otherwise submitted a proxy may revoke it at any time before it is voted by written notice addressed to and received by our Corporate Secretary, by submitting a duly executed proxy bearing a later date, by voting again over the telephone or the Internet prior to 1:00 a.m., Eastern Time on June 19, 2015, or by electing to vote in person at the Annual Meeting. The mere presence at the Annual Meeting of the person appointing a proxy does not, however, revoke the appointment.

Voting Procedures

Q: What shares owned by me may be voted?

A: You may only vote the shares of our common stock owned by you as of the close of business on April 22, 2015, which is the record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting. These shares include the following:

shares of common stock held directly in your name as the stockholder of record; and

shares of common stock held for you, as the beneficial owner, through a broker, bank or other nominee.

Q: What is the difference between holding shares as a stockholder of record and as a beneficial owner?

A: Many of our stockholders hold their shares through a broker, bank or other nominee, rather than directly in their own names. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

If your shares are registered directly in your name with our transfer agent, Computershare, you are considered, with respect to those shares, the stockholder of record. As the stockholder of record, you have the right to grant your voting proxy to the persons specified on the form of proxy or to vote in person at the Annual Meeting. The persons named in the form of proxy will vote the shares you own in accordance with your instructions on the proxy card you mail or submit online or by telephone. If you return the proxy card, but do not give any instructions on a particular matter described in this Proxy Statement, the persons named in the proxy card will vote the shares you own in accordance with the recommendations of our Board of Directors. Alternatively, you may vote through the Internet or by telephone as indicated on the website and the proxy card.

If your shares are held in a brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and the proxy materials are being supplied to you by your broker or nominee who is considered, with respect to those shares, the stockholder of record. As the beneficial owner, you have the right to direct your broker or nominee how to vote. You are also invited to attend the Annual Meeting, but since you are not the stockholder of record, you may not vote these shares in person at the Annual Meeting unless you receive a proxy from your broker or nominee. Your broker or nominee should have supplied a voting instruction card or link to online voting for you to use. If you wish to attend the Annual Meeting and vote in person, please mark the box on the voting instruction card received from your broker or nominee and return it to the broker or nominee so that you receive a legal proxy to present at the Annual Meeting.

Q: How may I vote my shares?

A: You may vote your shares in person by attending the Annual Meeting, by using the Internet or telephone, or (if you received hard copies of the proxy materials) by completing and returning the form of proxy by mail.

Voting in Person by Attending the Annual Meeting:

You may vote shares held directly in your name as the stockholder of record in person at the Annual Meeting. If you choose to vote in person at the Annual Meeting, please bring the proxy card and proof of identification with you to the Annual Meeting. You may vote shares that you beneficially own if you receive and present at the Annual Meeting a proxy from your broker or nominee, together with proof of identification. Even if you plan to attend the Annual Meeting, we recommend that you also submit your proxy as described below so that your vote will be counted if you later decide not to attend the Annual Meeting.

Voting Without Attending the Annual Meeting:

Whether you hold shares directly as the stockholder of record or as the beneficial owner in street name, you may direct your vote without attending the Annual Meeting. You may also do so by granting a proxy or, for shares held in street name, by submitting voting instructions to your broker or nominee. In most instances, you will be able to do this over the Internet, by telephone or by mail.

Please note that if you received a Notice of Internet Availability of Proxy Materials, you may not vote your shares by filling out and returning the Notice. You must follow the instructions on the Notice to view materials and vote by using the Internet or telephone, or by requesting hard copy materials and a proxy card.

If you choose to vote by proxy, the named proxies will vote your shares according to the directions you provide in the proxy, by the Internet or by telephone. **If no instructions are indicated, except as otherwise indicated in this Proxy Statement, the shares will be voted FOR approval of the proposals listed on the proxy card.** Discretionary authority is provided in the proxy as to any matters not specifically referred to in the proxy. Our Board of Directors is not aware of any other matters that are likely to be brought before the Annual Meeting. If other matters are properly brought before the Annual Meeting, including a proposal to adjourn the Annual Meeting to permit the solicitation of additional proxies in the event that one or more proposals have not been approved by a sufficient number of votes at the time of the Annual Meeting, the persons named in the proxy will vote on such matters in their own discretion.

If you are a beneficial owner of common stock, please refer to the voting instruction card included by your broker or nominee for applicable voting procedures.

Q: How may I revoke a proxy or an Internet or telephone vote?

A: A proxy may be revoked by executing a later-dated proxy card, by voting again over the telephone or the Internet prior to 1:00 a.m., Eastern Time on June 19, 2015, by attending the Annual Meeting and voting in person, or by giving written notice revoking the proxy to our Corporate Secretary before it is exercised. Attendance at the Annual Meeting will not automatically revoke a stockholder's proxy. All written notices of revocation or other communications with respect to revocation of proxies should be addressed to TechTarget, Inc., 275 Grove Street, Newton, MA 02466, Attention: Corporate Secretary. If you own your shares in street name your bank or brokerage firm should provide you with appropriate instructions for changing your vote.

Q: What is the quorum required for the Annual Meeting?

A: Holders of record of the common stock on April 22, 2015 are entitled to notice of, and to vote at, the Annual Meeting or any adjournment or postponement of the Annual Meeting. As of the record date, 33,084,563 shares of common stock were outstanding. The presence in person or by proxy of the holders of a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting will constitute a quorum for the transaction of business at the Annual Meeting.

Q: How are votes counted?

- A: Each holder of common stock is entitled to one vote at the Annual Meeting on each matter to come before the Annual Meeting, including the election of directors, for each share held by such stockholder as of the record date. Votes cast in person at the Annual Meeting or by proxy, Internet vote or telephone vote will be tabulated by the inspector of election appointed for the Annual Meeting, who will determine whether a quorum is present.

Q: What vote is required to ratify the election of directors (Agenda Item No. 1)?

A: Individual director nominees are elected by a plurality of the votes cast at the Annual Meeting. Accordingly, the directorships to be filled at the Annual Meeting will be filled by the nominees receiving the highest number of votes. In the election of directors, votes may be cast for or withheld with respect to the nominee. Abstentions and broker non-votes (described below) will have no effect on the outcome of this proposal.

If you hold shares through a broker, bank or other representative, generally the broker, bank or representative may under certain circumstances vote your shares if you do not return your proxy. Brokerage firms have discretionary authority to vote customers' unvoted shares on routine matters. If you do not return a proxy to your brokerage firm to vote your shares, your brokerage firm may, on routine matters, either vote your shares or leave your shares unvoted. However, your brokerage firm cannot vote your shares on any matter that is not considered routine. If your representative cannot vote your shares on a particular matter because it does not have discretionary voting authority, this is a broker non-vote on that matter. Agenda Item No. 1, electing the nominees to the Board of Directors, is not considered a routine matter for this meeting.

Q: What vote is required to ratify the appointment of BDO USA, LLP as our independent registered public accounting firm (Agenda Item No. 2)?

A: The appointment of BDO USA, LLP as our independent registered public accounting firm will be ratified if we receive the affirmative vote of a majority of the votes cast at the Annual Meeting. Abstentions and broker non-votes will have no effect on the outcome of this proposal. Agenda Item No. 2, ratification of the appointment of BDO USA, LLP as our independent registered public accounting firm for fiscal 2015, is a routine matter for this meeting.

Q: What does it mean if I receive more than one Notice of Internet Availability of Proxy Materials or voting instruction card?

A: This means your shares are registered differently or are in more than one account. Please provide voting instructions for all of your shares.

Q: Where can I find the voting results of the Annual Meeting?

A: We will announce preliminary voting results at the Annual Meeting and file a current report on Form 8-K within four business days after the Annual Meeting.

Q: Is my vote confidential?

A: Proxy cards, ballots and voting tabulations that identify individual stockholders are submitted, mailed or returned to us and handled in a manner intended to protect your voting privacy. Your vote will not be disclosed except: (1) as needed to permit us to tabulate and certify the vote; (2) as required by law; or (3) in limited

circumstances, such as a proxy contest in opposition to the director candidate nominated by the Board of Directors. In addition, all comments written on the proxy card or elsewhere will be forwarded to management, but your identity will be kept confidential unless you ask that your name be disclosed.

Jay C. Hoag has served as a director since May 2004. Since June 1995, Mr. Hoag has served as a founding General Partner at Technology Crossover Ventures, a private equity and venture capital firm and greater than 5% holder in the Company. Mr. Hoag holds an M.B.A. from the University of Michigan and a B.A. from Northwestern University. He has evaluated, invested in and served as a board member of numerous companies, both public and private, and is familiar with a full range of corporate and board functions. His many years of experience in helping companies shape and implement strategy provide the Board with unique perspectives on matters such as risk management, corporate governance, talent selection and management.

Roger M. Marino has served as a director since 2000. Mr. Marino is an active private investor in numerous technology start-up companies. In 2001, Mr. Marino founded RMM Group LLC, a film production company, and RMM-P, an investment company. Prior to founding RMM Group, Mr. Marino founded EMC Corporation and

retired as its president in 1992. Mr. Marino holds a B.S. from Northeastern University and is a member (Emeritus) of Northeastern's Board of Trustees. He also serves on two private company boards. Mr. Marino's extraordinary experience as an entrepreneur who co-founded and then served in various executive positions in a market-leading technology company provides the Company with both executive and sales experience from the perspective of the market in which all of our customers operate.

Greg Strakosch has served as our Chief Executive Officer and a director since our incorporation in September of 1999 and as our Chairman since 2007. Prior to co-founding TechTarget, Mr. Strakosch was the President of the Technology Division of UCG, a business information publisher. Mr. Strakosch joined UCG in 1992 when the company acquired Reliability Ratings, an IT publishing company that he founded in 1989. Before Reliability Ratings, Mr. Strakosch spent six years at EMC Corporation, a provider of enterprise information storage systems. Mr. Strakosch holds a B.A. from Boston College. As one of the Company's two co-founders and our Chief Executive Officer, Mr. Strakosch is uniquely positioned to lead our management team and provide essential insight and guidance to the Board of Directors from an inside perspective, along with experience and comprehensive knowledge of the IT advertising business.

Board Leadership Structure

Our Chief Executive Officer also serves as the Chairman of our Board of Directors. The Board believes that the Company's Chief Executive Officer is best situated to serve as Chairman because he is the director most familiar with the Company's business and industry, and most capable of effectively identifying strategic priorities and leading the discussion and execution of strategy. Independent directors and management have different perspectives and roles in strategy development. The Company's independent directors bring experience, oversight and expertise from outside the Company and, in some cases, our industry, while the Chief Executive Officer brings Company-specific experience and expertise. The Board believes that the combined role of Chairman and Chief Executive Officer promotes strategy development and execution, and facilitates the flow of information between management and the Board, which are critical for effective governance. Given the relative size of our Company and our Board, and the proximity of the Chairman and Chief Executive Officer to the day to day operations of the Company, the Chairman and Chief Executive Officer is particularly well positioned to gather and convey such information to the Board. One of the key responsibilities of the Board is to develop strategic direction and hold management accountable for the execution of strategy once it is developed. The Board believes the combined role of Chairman and Chief Executive Officer, together with a Lead Independent Director having the duties described below, is in the best interest of stockholders because it provides the appropriate balance between strategy development and independent oversight of management.

To strengthen independent oversight, the Board has adopted a number of governance practices, including:

- a clearly defined lead independent director role (as detailed below); and
- executive sessions of the independent directors after every Board meeting.

However, the Board recognizes that no single leadership model is right for all companies and at all times. The Board recognizes that, depending on the circumstances, other leadership models, such as a separate independent chairman of the board, might be appropriate. Accordingly, the Board periodically reviews its leadership structure.

Lead Independent Director

Jay C. Hoag, an independent director who serves as Chair of both the Compensation and Nominating and Corporate Governance Committees, was selected by the Board in May 2007 to serve as the Lead Independent Director. The Lead Independent Director has the responsibility of presiding at all executive sessions of the Board, consulting with the Chairman and Chief Executive Officer on Board and committee meeting agendas, acting as a liaison between

management and the non-management directors, including maintaining frequent contact with the Chairman and Chief Executive Officer and advising him on the efficacy of the Board meetings, and facilitating teamwork and communication between the non-management directors and management, as well as any additional ancillary responsibilities.

INFORMATION ABOUT CORPORATE GOVERNANCE

Our Board of Directors believes that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders. This section describes the key corporate governance guidelines and practices that we have adopted. The charters governing the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee, the Code of Business Conduct and Ethics, as well as our Corporate Governance Guidelines, are posted on the corporate governance page of our website at www.techtarget.com. You may also obtain a copy of any of these documents without charge by writing to TechTarget, Inc., 275 Grove Street, Newton, MA 02466 Attention: Corporate Secretary.

Corporate Governance Guidelines

Our Board of Directors has adopted Corporate Governance Guidelines to assist in the exercise of its duties and responsibilities and to serve our best interests and those of our stockholders. The Corporate Governance Guidelines, which provide a framework for the conduct of the business of the Board, provide, among other things, that:

- our business and affairs are managed by, or under the direction of, our Board of Directors, acting on behalf of the stockholders. Our Board of Directors has delegated to our officers the authority and responsibility for managing the Company's everyday affairs. Our Board of Directors has an oversight role and is not expected to perform or duplicate the tasks of our Chief Executive Officer or senior management;
- the Board, through the Nominating and Corporate Governance Committee, shall consider criteria for prospective Board members and identify nominees;
- a majority of the members of our directors shall meet the independence standards of the NASDAQ Stock Market, Inc.;
- the expectations for attendance and participation at board meetings;
- the structure of the Board;
- a process by which stockholders may communicate with the Board; and
- the independent members of our Board of Directors regularly meet in executive session.

These and other matters are described in more detail below and in the Guidelines themselves.

Board Determination of Independence

Under applicable NASDAQ standards, a director will only qualify as an independent director if the director can satisfy certain bright line tests set forth in such standards. In addition, the Board must determine that the director does not have a relationship that would interfere with the exercise of independent judgment in carrying out his responsibilities of a director. Our Board has determined that none of Messrs. Burke, Forman, Hoag, Levenson or Marino has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is independent as that term is defined by NASDAQ standards.

Board Meetings and Attendance

Each director is expected to attend regularly scheduled board meetings and to participate in special or other board meetings. Our Board of Directors held 8 meetings in 2014. During 2014, each director attended at least 75% of the aggregate of the total number of meetings of the Board and committees thereof of which each director was a member.

Director Attendance at Annual Meeting of Stockholders

Our Corporate Governance Guidelines provide that directors are encouraged to attend our Annual Meeting. In 2014, all of our directors participated in the Annual Meeting either in person or by telephone.

Board Committees

Our Board of Directors has established Audit, Compensation Nominating and Corporate Governance Committees. Each committee operates under a separate charter adopted by our Board of Directors. The committee charters are posted on the corporate governance page of our website at www.techtarget.com. Our Compensation Committee met 5 times in 2014. The processes and procedures followed by our Compensation Committee in considering and determining executive and director compensation are described below under the headings Executive Compensation and Director Compensation .

Nominating and Corporate Governance Committee. During 2014, our Nominating and Corporate Governance Committee was comprised of Jay C. Hoag, the Chair of the Committee, Leonard P. Forman and Roger M. and

The Nominating and Corporate Governance Committee met 3 times in 2014.

The processes and procedures followed by our Nominating and Corporate Governance Committee in identifying and evaluating director candidates are described below under the heading Director Nomination Process .

Director Nomination Process

The process followed by the Nominating and Corporate Governance Committee to identify and evaluate director candidates includes meetings from time to time to evaluate biographical information and background material relating to potential candidates, interviews of selected candidates by members of the Committee and our Board of Directors and recommending prospective candidates for the Board's consideration and review.

In identifying prospective director candidates, the Committee may consider all facts and circumstances that it deems appropriate or advisable, including, among other things, the skills of the prospective director candidate, his or her

depth and breadth of business experience or other background characteristics, his or her independence and the needs of our

Board. Certain criteria are set forth in our Corporate Governance Guidelines and include the candidate's integrity, business acumen, knowledge of the Company's business and industry, and experience. The Committee does not assign specific weights to particular criteria, although it does consider the following minimum qualifications:

Directors must be of the highest ethical character and share the values of the Company as reflected in the Company's Code of Business Conduct and Ethics;

Directors must have reputations, both personal and professional, consistent with the image and reputation of the Company;

Directors must have the ability to exercise sound business judgment; and

Directors must have substantial business or professional experience and be able to offer meaningful advice and guidance to the Company's management based on that experience.

The Board may also consider other qualities such as an understanding of or experience in online media, finance and/or marketing as well as leadership experience within public companies. Our Board of Directors believes that the backgrounds and qualifications of its directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow our Board of Directors to fulfill its responsibilities.

In addition to the foregoing factors, the Committee may also consider diversity in its evaluation of candidates for Board membership. The Board believes that diversity with respect to viewpoint, skills and experience should be an important factor in Board composition. The Committee ensures that diversity considerations are discussed in connection with each potential nominee, as well as on a periodic basis in connection with the composition of the Board as a whole.

Stockholders may recommend individuals to the Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of our common stock for at least a year as of the date such recommendation is made, to TechTarget, Inc., 275 Grove Street, Newton, MA 02466, Attn: Corporate Secretary. Assuming that appropriate biographical and background material has been provided on a timely basis, the Committee will evaluate stockholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others.

If the Board determines to nominate a stockholder-recommended candidate and recommends his or her election, then his or her name will be included in the Company's proxy for the next annual meeting assuming the nominee consents to such inclusion.

Communications with the Independent Directors

Our Board of Directors will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. The Chairman of the Board of Directors is primarily responsible for monitoring and responding to communications from stockholders and other interested parties and for providing copies to our Board of Directors or to the individual director so designated on a periodic basis, as he considers appropriate.

Unless any communication is marked confidential and is addressed to a particular Board member, the Chairman of the Board of Directors, prior to forwarding any correspondence, will review such correspondence and, in his discretion, will not forward items if they are deemed to be of a commercial, irrelevant or frivolous nature or otherwise inappropriate for consideration by our Board of Directors.

Interested parties may send written communications to our Board of Directors at the following address: TechTarget, Inc., 275 Grove Street, Newton, MA 02466; Attention: Chairman of the Board of Directors; or to the attention of an individual director.

The Board's Role in Risk Oversight

The Board of Directors is primarily responsible for oversight of the Company's risk management. As such, it regularly reviews issues that present particular risks to the Company, including those involving competition, customer demands, economic conditions, planning, strategy, finance, sales and marketing, products, information technology, facilities and operations, legal and regulatory compliance issues. Additionally, the Board relies on the Audit Committee to oversee issues related to financial risks and exposures, particularly financial reporting, tax, accounting, financial disclosures, internal control over financial reporting, financial policies, investment guidelines and credit and liquidity matters. The Board believes that this approach provides appropriate checks and balances against undue risk taking.

Compensation Risks. The Board relies on the Compensation Committee to evaluate the Company's compensation programs to ensure that they do not create undue risk-taking in the performance of Company goals. To assist the Compensation Committee in its evaluation, management conducted a risk analysis of the structure of the Company's compensation policies and practices, including the design and metrics of its performance-based compensation programs, and reported the results to the Compensation Committee. Management analyzed each plan generally as well as each performance goal under each plan, in conjunction with the business process or processes involved in attaining the performance goal. Management considered any mitigating factors, including internal controls designed to prevent fraud or manipulation of business processes and operations, in its evaluation. For example, there is an inherent risk of manipulation in the recognition of revenue and the pricing and processing of orders in the Company's business. In order to mitigate these risks, the Company has established numerous processes and controls regarding pricing, revenue recognition, accounts receivable, order processing, and expenses, including independent reviews of the various components of revenue and expense, and a multidisciplinary contracts management process that has multiple approval and signatory levels, and seeks to prevent any deviation from or circumvention of the processes. In addition to the numerous internal controls which require multidisciplinary review, BDO, the Company's independent auditor, also reviews all components of quarterly and annual financial reporting and audits the Company's annual financial statements. Management presented its analysis to the Compensation Committee in April 2015. Based on the analysis, the Committee concluded that the Company's performance-based compensation plans did not create risks that would be reasonably likely to have a material adverse effect on the Company.

Code of Business Conduct and Ethics

We have adopted a written Code of Business Conduct and Ethics that applies to our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. We have posted the Code of Business Conduct and Ethics on our website, which is located at www.techtarget.com. In addition, we will disclose on our website, if any, all amendments to, or waivers from, any provision of the Code of Business Conduct and Ethics.

DIRECTOR COMPENSATION

Directors who are also employees will continue to receive no compensation for their service as a director. However, since January 1, 2007, all non-employee directors:

have been paid a base annual retainer of \$20,000;

have been paid a fee of \$1,500 for attendance at each Board meeting and were reimbursed for any actual out-of-pocket expenses incurred in attending any such meeting;

have been paid a fee of \$1,000 for attendance at each committee meeting and were reimbursed for actual out-of-pocket expenses incurred in attending any such meeting; and

received an annual grant of options to purchase, at the fair market value at the time of issuance, 2,500 shares of our common stock, which options were immediately exercisable.

In addition, each non-employee director is paid, on an annual basis, the following amounts for service as follows: each member of the Audit Committee: \$5,000; each member of the Compensation Committee: \$2,500; and each member of the Nominating and Corporate Governance Committee: \$2,500. Also, each committee chairperson will receive the following additional annual cash payments: Chair of the Audit Committee: \$10,000; Chair of the Compensation Committee: \$5,000; and Chair of the Nominating and Corporate Governance Committee: \$5,000.

In accordance with the terms of our non-employee director compensation program described above, which is reviewed and approved annually by the Compensation Committee, directors receive fully-vested restricted stock units in lieu of receiving cash payments for their retainers and meeting attendance fees under our 2007 Stock Option and Incentive Plan.

2014 Director Compensation

The following table details the compensation earned during 2014 by our non-employee directors:

Name	Stock Awards (1)(\$)	Option Awards (2)(\$)	Total (1)(2)
Robert D. Burke	50,500	18,058	68,558
Leonard Forman	67,000	18,058	85,058
Jay C. Hoag	56,000	18,058	74,058
Roger M. Marino	46,000	18,058	64,058

- (1) The amounts in the Stock Awards column reflect the aggregate grant date fair value of the stock awards granted to each director during 2014, computed in accordance with the Financial Accounting Standards Board Accounting Standards Codification Topic 718, or FASB ASC 718. For the assumptions used to calculate the fair value of the equity awards granted, see Note 10 to our 2014 audited financial statements in our annual report on Form 10-K.

- (2) The amounts in the Options Awards column reflect the aggregate grant date fair value of the option awards granted to each director during 2014, computed in accordance with FASB ASC 718. We use the Black-Scholes option pricing model to determine the fair value of option awards. For the assumptions used to calculate the fair value of the option awards granted, see Note 10 to our 2014 audited financial statements in our annual report filed on Form 10-K.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview and Compensation Philosophy

The primary objectives of our Compensation Committee and our Board of Directors with respect to executive compensation are to attract, retain and motivate executives who make important contributions to the achievement of our business goals, and to align the incentives of our executives with the creation of long-term value for our stockholders. The Compensation Committee implements and maintains compensation plans in order to enhance the likelihood that we may achieve these objectives. Our executive compensation program is designed to attract and retain those individuals with the skills necessary for us to achieve our long-term business goals, to motivate and reward individuals who perform at or above the levels that we expect, and to link a portion of each executive officer's compensation to the achievement of our business objectives. It is also designed to reinforce a sense of ownership, urgency and overall entrepreneurial spirit. Further, our executive compensation program is designed in a manner that we believe aligns the interests of our executive officers with those of our stockholders by providing a portion of our executive officers' compensation through equity-based awards.

Compensation Committee

Our current executive compensation policies and objectives were developed and implemented by our Compensation Committee which, during 2014, consisted of three independent directors (Mr. Levenson joined the Committee in February 2015). The Compensation Committee reviews and approves compensation for our executive officers with input from our Chief Executive Officer. Mr. Strakosch typically makes recommendations to the Committee regarding the compensation of the executive officers, based in part upon the periodic benchmarking exercise described on page 20. Mr. Strakosch plays no role in determining his own salary, bonus or equity compensation.

Our Compensation Committee annually reviews our executive compensation program to assess whether such program provides adequate incentives and motivation to our executive officers, and whether it adequately compensates our executive officers. In 2014, the Committee looked at our executive compensation relative to comparable executive officers employed by other private and public companies with which we believe we compete for executives. In addition to addressing cash compensation matters for our executive officers, which include base salary and annual bonus plan and targets, our Compensation Committee reviews and approves equity grants to executive officers and employees who are not executive officers.

Elements of Executive Compensation

Executive compensation consists of the following elements:

base salary;

annual bonus;

equity incentive compensation; and

employee benefit plans.

We view these elements of compensation as related but distinct. Although our Compensation Committee reviews total compensation, we generally do not believe that significant compensation derived from one element of compensation should necessarily negate or reduce compensation from other elements. We assess the appropriate level for each compensation component based on our view of internal fairness and consistency and other considerations we deem relevant, such as the executives' equity ownership position. We may also from time to time review executive compensation levels at other companies with which we compete; we engaged in a competitive benchmarking exercise in 2014. For 2014, our overall mix of executive compensation continued to include a balance of cash and non-cash compensation, taking into consideration existing long-term equity awards.

Base Salary. Base salaries are used to recognize the experience, skills, knowledge and responsibilities required of all our employees, including our executives. Base salaries for our executives typically have been set in our offer letter to the executive at the outset of employment. None of our executives is currently party to an employment agreement that provides for automatic or scheduled increases in base salary. We determine base salary compensation for our executive officers at a level we believe enables us to retain and motivate and, as needed, hire individuals in a competitive environment, so that such executive officers will contribute to our overall business goals. We may from time to time also take into account the base salary compensation that is payable by companies that we believe to be our competitors and by other comparable private and public companies with which we believe we generally compete for executives, and did so in 2014. Base salaries are reviewed periodically and adjusted from time to time as appropriate after taking into account an individual's responsibilities, performance, skills specific to our business and industry experience. For 2014, the annual base salary for each of our named executive officers remained unchanged from the annual base salary for 2013.

Executive Incentive Bonus Plan

Plan Performance Metrics and Individual Goals. We designed our executive bonus plan in a manner we believe will focus and motivate our management on achieving key company financial objectives and reward our management for achievement of these true measures of operating performance. In December 2013, our Board of Directors approved the Executive Incentive Bonus Plan, or Bonus Plan, goals for 2014. As in past years beginning in 2011, the Compensation Committee concluded that Revenue (as defined by Generally Accepted Accounting Principles, or GAAP) and Adjusted Earnings Before Income Taxes, Depreciation and Amortization, or Adjusted EBITDA, were the appropriate measurements of our performance with respect to the Bonus Plan. In 2014, the Compensation Committee once again determined that each of Revenue and Adjusted EBITDA were of equal importance and assigned an equal weighting to each metric.

Adjusted EBITDA is non-GAAP financial measure defined as EBITDA (which is defined as net income (loss) before interest and other expense (income) net, provision for (benefit from) income taxes, depreciation and amortization), as further adjusted to exclude stock-based compensation, secondary offering costs and restructuring charges. For a detailed discussion of Adjusted EBITDA, you should refer to our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

In establishing the relevant Revenue and Adjusted EBITDA targets used in the Bonus Plan for fiscal 2014, the Compensation Committee reviewed the Company's 2014 budget. The Committee determined that the financial targets should, as in past years, be based on the Company's 2014 budget. The Committee also took into consideration the Company's actual performance against its 2013 budget. Based on those two factors, the Committee increased the 2014 targets against the prior year period.

After the Compensation Committee established the Bonus Plan goals, it assigned a target bonus amount to each executive officer based on a recommendation by Mr. Strakosch and various factors noted above. Mr. Strakosch's target bonus amount was determined by the Compensation Committee based on the various factors noted above without input from Mr. Strakosch. The Compensation Committee approved the following target bonus amounts for Messrs. Strakosch, Cotoia, Beam and Hawk and Ms. Kelliher for 2014: \$145,000, \$110,000, \$110,000, \$70,000 and \$50,000, respectively.

Plan Operation. In order for our executive officers to earn a bonus under the Bonus Plan, the minimum threshold of 90% of the Adjusted EBITDA and/or Revenue (as applicable) bonus target must be achieved. The targets for each metric were measured on a quarterly basis. If the applicable 90% threshold is achieved, then each of our executive officers earns 50% of that quarter's portion of the applicable metric's allocation (50%) of their targeted bonus amount. Furthermore, each of our executive officers could earn an additional 5% within each metric for each additional 1% of the Adjusted EBITDA and/or Revenue (as applicable) bonus target achieved over 90%, until 100% of the Adjusted

EBITDA and/or Revenue bonus target (as applicable) for that quarter, or cumulative

quarters, is achieved. In the event that both Adjusted EBITDA and Revenue for 2014 was greater than 100%, then the executive could earn more than his or her respective target bonus, and the portion of the bonus in excess of each executive's target would be payable in common stock of the Company.

The Bonus Plan provided for quarterly payments to the named executive officers based on the portion of the annual financial metrics allocated to each quarter under the Bonus Plan. The Bonus Plan provided that such quarterly payments made to the named executive officers, if any, could be recovered by the Company for subsequent quarterly performance (the "claw-back"), and that the named executive officers could receive the payment (or a portion thereof) applicable to a prior quarter for which the applicable metrics were not achieved in the event that the aggregate amount of the metrics, on a cumulative basis, were achieved over multiple quarters. With respect to the claw-back, the Bonus Plan provided that, at the end of fiscal 2014, if the aggregate amount of quarterly payments resulted in an overpayment (that would not have been made if the payments had been made on a one-time basis at the end of fiscal 2014), the named executive officers would be required to repay the Company in the amount of the overpayment. Such repayment would be made over a six-month period in the form of offsets to other compensation payments owed to the named executive officer; provided, that in the event that the employment of a named executive officer terminated for any reason, then the full amount of any overpayment amount then due and owing to the Company would become immediately due and payable.

The Bonus Plan also provided that no quarterly payment could exceed twenty-five percent of the applicable named executive officer's target bonus amount and that any payments in excess of such targeted bonus amount would only be paid in the event that the annual financial metrics were exceeded. All other material terms of the Bonus Plan remained the same as in 2013, which terms are consistent with the terms of annual performance bonus plans that have been in place for our executive officers since 2002.

2014 Plan Performance. In 2014, the Company produced Adjusted EBITDA and Revenue, respectively, in the following percentages of the applicable quarterly and annual targets:

Quarter	Adjusted EBITDA	Revenue
Q1	269.1%	104.8%
Q2	123.9%	100.7%
Q3	135.7%	104.5%
Q4	102.0%	102.7%
2014	126.2%	103.1%

This performance against company targets resulted in payouts to our executive officers in the following amounts:

Name and Position	Target	Actual(1)
Greg Strakosch, CEO	\$145,000	\$557,622
Michael Cotoia, Chief Operating Officer	110,000	423,024
Kevin Beam, President	110,000	423,024
Don Hawk, Executive Director	70,000	269,197
Janice Kelliher, Chief Financial Officer	50,000	192,284

(1) Amounts in excess of the target bonus for each executive officer were paid in shares of the Company's common stock. See the Summary Compensation Table on page 21 for share amounts and values. In the five prior fiscal years, we paid out the following percentages of the named executive officers' target annual bonus amounts: 0%, 237%, 50%, 112% and 86%, respectively. All bonus amounts earned are accounted for in accordance with GAAP throughout the applicable fiscal year.

Equity Incentive Compensation. We grant restricted stock units, or RSUs, to attract, motivate and retain employees. We believe that RSUs and other equity awards are an important component of an executive's overall compensation package, which can be effective in rewarding the long-term performance of our executives. We believe that this compensation philosophy, in turn, may contribute to long-term value for our stockholders. All of our executive officers and a majority of our key employees have received stock option grants under our 1999 Stock Option Plan and stock options and/or RSU grants under our 2007 Stock Option Plan. We believe that the vesting feature of our equity grants increases executive retention by providing an incentive to remain in our employ during the vesting period, which is typically multi-year.

To date, we have typically made an initial equity award to new executives in connection with the start of their employment. We do not routinely grant each named executive officer or key employee an RSU award each year; instead, we may grant RSU awards to selected executives or employees in certain years. We typically grant RSU awards once per year, other than when an executive begins employment with the Company, and generally grant awards only during open trading windows. Grants of equity awards to executives are all approved by the Compensation Committee. Stock options have been granted using the fair market value of our common stock on the date of grant. To date, in most cases, stock options and restricted stock units vest 25% on the first anniversary of the grant date then 6.25% per month for the 12 quarters thereafter.

In determining equity awards, our Compensation Committee considers the Company's business and financial performance, the executive's performance and future potential, the award value relative to other executives' awards, and the value of previous awards and amount of outstanding unvested equity awards. The Committee also considers the recommendations of our CEO and, from time to time, the external data described in the *Benchmarking of Compensation and Equity* section below.

2014 Equity Grants. In August 2014, the Compensation Committee granted Mr. Cotoia 225,000 RSUs which vest one-third per year over three years. The Committee made this award to Mr. Cotoia in recognition of his performance and contributions to the Company as well as his expected future contributions. Based on the Company's and Committee's philosophy that each executive officer should not receive an RSU grant each year, there were no other equity awards made to executive officers during 2014.

Employee Benefit Plans. Our employees, including our executive officers, are entitled to the following employee benefits: medical, dental and vision care plans; supplemental vision care plan; flexible spending accounts for healthcare and dependent care; pretax transportation account; life, accidental death and dismemberment and disability insurance; and a 401(k) plan with pre-tax and Roth options. Under our 401(k) plan, we may provide a discretionary matching contribution to all employees after they meet all eligibility requirements. Currently, we match fifty cents of each dollar of compensation contributed by the participant up to a maximum of \$2,000 per year. The employer contributions vest over a four-year period commencing on the employee's hire date.

Advisory Vote on Executive Compensation. At our 2011 Annual Meeting of Stockholders, a majority of stockholder votes were cast for a say-on-pay vote once every three years. The Compensation Committee considered this stockholder vote and determined to hold stockholder advisory votes on our executive compensation program once every three years. At the 2014 Annual Meeting of Stockholders, a majority of stockholders votes were cast for the compensation of the named executive officers as disclosed in the 2014 Proxy Statement. The Compensation Committee noted the affirmative vote on the Company's executive compensation program as it affirmed executive officer compensation for 2015. We will next conduct an advisory vote on the frequency of the say-on-pay vote, as well as the advisory vote on executive compensation, at the 2017 Annual Meeting of Stockholders.

Employment Agreements

Each of the named executive officers is party to an employment agreement with the Company which provides for certain benefits while employed at the Company, including base salary, bonus, treatment of equity in the event of a termination of employment under certain circumstances or a change of control. These terms are described in

more detail under the heading *Employment Agreements and Potential Payments Upon Termination or Change of Control*. The Company believes that retention of its senior executives is critical to the operation of the Company and has made the decision to provide these benefits in the employment agreements. In consideration of these benefits, the executive in each instance has agreed not to (i) compete with the Company, (ii) employ or solicit any employee of the Company, or (iii) solicit or encourage a customer or supplier of the Company to terminate or modify adversely its relationship with the Company. The non-compete and non-solicit obligations extend for one year post-termination for Mr. Strakosch and nine months post-termination for the other named executive officers.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our Chief Executive Officer and our three other most highly paid executive officers (other than our CEO and CFO). Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We generally intend to structure the performance-based portion of our executive compensation, when feasible, to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. However, our Compensation Committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

Benchmarking of Compensation and Equity

The Committee believes that using peer company compensation information in its executive compensation determinations may sometimes be appropriate and can be a meaningful factor in determining cash and equity compensation. The Committee also believes that reviewing such external data may not always be relevant and also relies on other factors, including company performance and the Committee's own substantial business and industry experience, in setting executive compensation.

From time to time, including in early 2014, the Committee reviewed peer company information and data compiled by Company officers from publicly available information regarding the following companies: WebMD, QuinnStreet, DemandMedia, Dice Holdings, BankRate, The Knot, TheStreet.com and TripAdvisor. This group of peer companies was determined to have been appropriate by the Committee because of their characteristics and industry focus that are similar to ours. With regard to our CEO and CFO, given that we believe the role and responsibilities for those positions are generally consistent from company to company, we review from time to time the compensation of those titled positions as detailed in public company filings and certain private company data for companies with similar financial and operational characteristics, including market capitalization (where applicable), revenue, profitability, headcount, industry and geography. Additionally, for the other three members of our executive management team, whose positions are more distinct and may not be as readily benchmarked by title, when we benchmark their compensation, we attempt to find analogous positions in other public and private companies in our industry with similar financial and operational characteristics by function and responsibilities.

The Compensation Committee took this information into consideration when setting compensation for our executive officers in 2014. The Committee also considered additional individual factors that contribute to the executive's value to our Company, such as length of service and specific skills that make an executive officer uniquely key to our success. Based on the Committee's review of the compensation data available on the executives in the Company's peer group, the Committee determined that the base salary and target bonus for each executive officer for 2014 would remain unchanged from 2013.

Neither the Committee nor the Company has retained a compensation consultant. The Committee for 2014 was comprised of Leonard Forman, Jay C. Hoag and Robert Burke. Mr. Levenson joined the Committee in February 2015. Mr. Hoag, either personally or on behalf of his respective funds, represented substantial stockholders of our Company.

The Compensation Committee members reviewed and approved the compensation of our executive officers, relying in part on their substantial business experience.

Based on this review and discussion, the Compensation Committee has recommended to the Board of Directors that such section be included in this Proxy Statement and incorporated by reference in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Non-Equity Incentive Plans

We describe the material terms of our Executive Incentive Bonus Plan in the Compensation Discussion and Analysis section of this Proxy Statement.

Equity Compensation Plans

1999 Stock Option Plan. Our 1999 Stock Option Plan, as amended, was adopted by our Board of Directors and approved by our stockholders in September of 1999 and most recently amended on September 27, 2006. Our 1999 Stock Option Plan is administered by our Compensation Committee, which has full authority and discretion to interpret and apply the provisions of the 1999 Stock Option Plan. The 1999 Stock Option Plan provides for the grant of incentive stock options, non-qualified stock options, restricted stock and other stock based awards. Our employees, officers, directors, consultants and advisors are eligible to receive awards under the 1999 Stock Option Plan. In connection with the adoption of our 2007 Stock Option Plan, our Board of Directors determined not to make any further grants under the 1999 Stock Option Plan.

2007 Stock Option and Incentive Plan. Our 2007 Stock Option and Incentive Plan, or 2007 Stock Plan, upon recommendation by the Compensation Committee, was adopted by our Board of Directors and approved by our stockholders in April 2007 and became effective on May 15, 2007. Our 2007 Stock Plan permits us to make grants of incentive stock options, non-qualified stock options, stock appreciation rights, deferred stock awards, restricted stock awards and other awards to employees, officers, directors, consultants and advisors. Our 2007 Stock Plan provides that the number of shares reserved and available for issuance under the plan will automatically increase each year, beginning on January 1, 2008, by the lesser of (a) 2% of the outstanding number of shares of common stock on a fully diluted basis on the immediately preceding December 31 and (b) such lower number of shares as may be determined by our Compensation Committee. Generally, shares that

are forfeited or canceled from awards under our 2007 Stock Plan also will be available for future awards. In addition, stock options returned to our 1999 Stock Option Plan as a result of their expiration, cancellation or termination, are automatically made available for issuance under our 2007 Stock Plan. In December 2014, the Compensation Committee allowed for the automatic two percent increase of the number of shares reserved and available for issuance under our 2007 Stock Plan. As a result of this allowance and the forfeiture and termination of awards under our 1999 Stock Option Plan and our 2007 Stock Plan, as of December 31, 2014, there were 1,731,936 shares reserved and available for issuance under our 2007 Stock Plan.

Our 2007 Stock Plan is administered by our Compensation Committee. Our Compensation Committee has full power and authority to select the participants to whom awards will be granted, to make any combination of awards to participants, to accelerate the exercisability or vesting of any award and to determine the specific terms and conditions of each award, subject to the provisions of the 2007 Stock Plan. All full-time and part-time officers, employees, directors and other key persons (including consultants and prospective employees) are eligible to participate in our 2007 Stock Plan.

The exercise price of stock options awarded under our 2007 Stock Plan may not be less than the fair market value of the common stock on the date of the option grant. Our Compensation Committee will determine at what time or times each option may be exercised (provided that in no event may it exceed ten years from the date of grant) and, subject to the provisions of our 2007 Stock Plan, the period of time, if any, after retirement, death, disability or other termination of employment during which options may be exercised. The stock options granted to our executives typically vest as follows: 25% of the number of shares covered by the option on the first anniversary of the date of grant and 6.25% of the number of shares covered by the option for the twelve quarters thereafter. The term of the options is between six and ten years. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights and the right to receive dividends or dividend equivalents.

Restricted stock and deferred stock awards may also be granted under our 2007 Stock Plan. Restricted stock awards are shares of our common stock that vest in accordance with terms and conditions established by our Compensation Committee. The Compensation Committee may impose whatever conditions to vesting it determines to be appropriate. Shares of restricted stock that do not vest are subject to our right of repurchase or forfeiture. Deferred stock awards are units entitling the recipient to receive shares of stock paid out on a deferred basis, and subject to such restrictions and conditions, as the Compensation Committee shall determine. Our Compensation Committee will determine the number of shares of restricted stock or deferred stock awards granted to any employee. Our 2007 Stock Plan also gives the Compensation Committee discretion to grant stock awards free of any restrictions.

RSU awards entitle the recipient to receive shares of common stock to be delivered at the time the RSUs vest subject to any deferral plan that a named executive officer may elect to put in place. RSU awards to our named executive officers generally vest in annual installments over four years, subject to the specific grant terms detailed above. Upon termination of employment, except as provided under the respective executive's employment agreement as specified below, unvested RSUs automatically terminate and will be forfeited. Until shares of common stock are delivered, generally at the time the RSUs vest (unless delivery thereof is deferred), the holder has no rights as a stockholder with respect to the shares subject to such RSUs, including voting rights and the right to receive dividends or dividend equivalents. The rights and interests in the RSUs may not be sold, assigned, encumbered or otherwise transferred except, in the event of death, by will or by the laws of descent and distribution. In the event the executive's employment with us is terminated by reason of death or disability or by us for a reason other than cause (as defined in the applicable named executive officer's employment agreement), then the number of RSUs which will be vested will be determined in accordance with the applicable executive's employment agreement (as summarized below).

Our Compensation Committee also may grant awards under our 2007 Stock Plan that are intended to be qualified performance-based compensation under Section 162(m) of the Internal Revenue Code.

No awards may be granted under the 2007 Stock Plan after the tenth anniversary of the effective date of the 2007 Stock Plan and, in the case of incentive stock options, after April 20, 2017. In addition, our Board of Directors may amend or discontinue the 2007 Stock Plan at any time and our Compensation Committee may amend or cancel any outstanding award for the purpose of satisfying changes in law or for any other lawful purpose. No such amendment may adversely affect the rights under any outstanding award without the holder's consent. Other than in the event of a necessary adjustment in connection with a change in our stock or a merger or similar transaction, our Compensation Committee may not reprice or otherwise reduce the exercise price of outstanding stock options. Unless our Compensation Committee provides otherwise, our 2007 Stock Plan does not generally allow for the transfer of awards and only the recipient of an award may exercise an award during his or her lifetime.

See **Potential Payments Upon Termination or Change in Control** for a description of the effect of a termination of employment and/or change in control on the vesting schedules of stock options and RSUs granted to our executive officers.

Employment Agreements and Potential Payments Upon Termination or Change of Control

We have entered into employment agreements with our named executive officers that would require us to make certain payments and/or provide certain benefits to them in the event of a termination of employment under certain circumstances or a change of control of the Company. The following narrative and tabular disclosure summarizes the material terms of the employment agreements and the payments that would be made to each named executive officer assuming that one of the events described below occurs.

Material Terms of Executive Employment Agreements Termination of Employment

Our employment agreements entitle each executive officer to severance benefits if the Company terminates the executive officer's employment in certain situations as follows: (i) without cause; (ii) if the executive officer terminates his or her employment for good reason; (iii) death; or (iv) disability. For purposes of the employment agreements, cause means: (a) any act of fraud or gross misconduct; (b) commission of a felony or a misdemeanor involving moral turpitude, deceit, dishonesty or fraud; or (c) gross negligence or willful misconduct. Under the employment agreements, good reason means: (I) a material reduction of the executive's salary and/or target bonus

other than a reduction that is similar to the reduction made to the salary and/or target bonus of all other senior executives; (II) a change in the executive's responsibilities and/or duties which constitutes a demotion; (III) relocation of the offices at which the executive is principally employed to a location more than 50 miles from such offices which relocation is not approved by the executive; (IV) our failure to pay amounts due under the employment agreement; or (V) the failure of any successor in interest to the business of the Company to assume our obligations under the employment agreement.

In the event of a termination of the executive without cause, by the executive officer for good reason, as a result of the executive's death or disability, or as a result of the failure by the Company to renew the term of the employment agreement following its expiration, the executive is entitled to a payment, in the case of Mr. Strakosch, equal to his annual salary, and in the case of Ms. Kelliher and Messrs. Beam, Cotoia and Hawk, equal to nine months of their respective annual salaries, and payment by the Company for continuation of health plan benefits for the post-employment period of the salary payments. Additionally, each executive is entitled to a payment of a portion of their annual targeted bonus, pro-rated for the period of salary continuance, equal to the greater of (i) 50% of such targeted amount and (ii) a pro-rated amount based on the number of months that have passed in the applicable fiscal period. The executive is also entitled to acceleration of unvested stock options and RSU grants in an amount equal to 10% for each year of service, with Mr. Cotoia and Ms. Kelliher entitled to receive a minimum of 50% vesting of stock options and RSUs and the remaining executive officers entitled to receive 100% acceleration of vesting based on such measure.

In the event that the executive officer is terminated for cause or terminates his or her employment other than for good reason, the executive officer is not entitled to any of the foregoing severance benefits.

Material Terms of Executive Employment Agreements – Change of Control

In the event of a change of control, all unvested stock options and all unvested RSU grants will vest and become fully exercisable. Under the terms of the named executive officers' employment agreements, a change of control is defined as: (i) a merger or consolidation of the Company with or into any other corporation or other business entity (except one in which the holders of our capital stock immediately prior to such merger or consolidation continue to hold at least a majority of the outstanding securities having the right to vote in an election of our Board of Directors, which we refer to as voting stock, of the surviving corporation); (ii) a sale, lease, exchange or other transfer (in one transaction or a related series of transactions) of all or substantially all of our assets; (iii) the acquisition by any person or any group of persons (other than us, any of our direct or indirect subsidiaries, or any trustee, fiduciary or other person or entity holding securities under any employee benefit plan or trust of us or any of our direct or indirect subsidiaries) acting together in any transaction or related series of transactions, of such number of shares of the voting stock as causes such person, or group of persons, to own beneficially, directly or indirectly, as of the time immediately after such transaction or series of transactions, more than 50% of the combined voting power of the voting stock other than as a result of an acquisition of securities directly from us, or solely as a result of an acquisition of securities by us, which by reducing the number of shares of the voting stock outstanding increases the proportionate voting power represented by the voting stock owned by any such person to more than 50% of the combined voting power of such voting stock; (iv) a change in the composition of our Board of Directors following a tender offer or proxy contest, as a result of which persons who, immediately prior to such tender offer or proxy contest, constituted our Board of Directors shall cease to constitute at least a majority of the members of our Board of Directors; and (v) any liquidation, reorganization in bankruptcy, dissolution or winding up of us (whether voluntary or involuntary).

Potential Payments upon a Triggering Event

The following tables set forth information regarding the amounts payable by us pursuant to the terms of the employment agreements described above to each named executive officer in the event that (i) such named executive officer is terminated by us without cause, such named executive officer terminates his or her employment for good reason, or as a result of such named executive officer's death or disability, or (ii) there is an effective change of control of the Company. For purposes of the potential payments below, we have used December 31, 2014 as the date of termination or change of control, as the case may be.

Messrs. Strakosch, Cotoia, Beam and Hawk have worked for the Company for more than ten years and would be eligible for 100% vesting of all unvested awards; Ms. Kelliher has worked for the Company for less than ten years and would be eligible for 50% minimum vesting per the terms of her employment agreement.
- (4) For each of the named executive officers, amount represents the Company-paid premium for any health or benefit plans in which the executive participates, in the case of Mr. Strakosch, at 100%, and in the case of the other executives, at 75% in accordance with their respective employment agreement severance benefit.

Potential Payments Upon Change of Control

In the event of a change of control, as described above, Messrs. Strakosch, Cotoia, Beam and Hawk would be eligible to receive the amounts shown in the "Stock Options and RSUs" column in the table above. Ms. Kelliher would be eligible to receive \$454,800, representing the vesting of 100% of her unvested RSUs.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who own more than 10% of a registered class of our equity securities, to file with the SEC initial reports of ownership and reports in changes in ownership of our common stock and other of our equity securities. Specific due dates for these reports have been established, and we are required to disclose any failure to file by these dates during 2014. Our officers, directors and greater than 10% stockholders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

During 2014, we performed an audit of all Section 16 filings for all of our executive officers and directors. As a result of such audit, we discovered numerous instances of filings that were incorrect when made as well as certain filings that should have been made but were inadvertently missed. All of these issues were corrected during early 2015 by amendments to previously filed Forms 4 or, in the cases where a filing was not made but should have been, a late Form 4. Specifically, we filed late Forms 4 on behalf of our executive officers as follows:

- Ms. Kelliher: We filed two late Forms 4 to report an RSU grant and an open market sale.
- Mr. Beam: We filed one late Form 4 to report an RSU grant and related vestings.
- Mr. Cotoia: We filed five late Forms 4 to report an RSU grant and four open market sales.

Mr. Hawk: We filed five late Forms 4 to report an RSU grant, three RSU vestings and one open market sale.

Other than as described above, to our knowledge, based solely on reports furnished and written representations that no other reports were required, during the year ended December 31, 2014, all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% beneficial owners were complied with.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Our Board of Directors has adopted a related party transactions policy. The policy defines a related party transaction as any transaction, arrangement or relationship in which we are a participant, the amount involved exceeds \$120,000, and one of our executive officers, directors, director nominees or 5% stockholders (or their immediate family members), each of whom we refer to as a related person, has a direct or indirect material interest.

If a related person proposes to enter into a related party transaction, the related person must report the proposed related party transaction to our general counsel who then reviews it with our Audit Committee who must approve it. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the Audit Committee will review, and, in its discretion, may ratify the transaction. The policy also permits the Chairman of the Audit Committee to review and, if deemed appropriate, approve proposed transactions that arise between Audit Committee meetings, subject to ratification by the Audit Committee at its next meeting. Any transactions that are ongoing in nature will be reviewed annually by the Audit Committee.

A transaction reviewed under the policy will be considered approved or ratified if it is authorized by the audit committee after full disclosure of the related person's interest in the transaction. As appropriate for the circumstances, the Audit Committee will review and consider:

the related person's interest in the transaction;

the approximate dollar value of the amount involved in the transaction;

the approximate dollar value of the amount of the related person's interest in the transaction without regard to the amount of any profit or loss;

whether the transaction was undertaken in the ordinary course of our business;

whether the terms of the transaction are no less favorable to us than terms that could have been reached with an unrelated third party;

the purpose of, and the potential benefits to us of, the transaction; and

any other information regarding the transaction or the related person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee may approve or ratify the transaction only if the Audit Committee determines that, under all of the circumstances, the transaction is in, or not inconsistent with, our best interests. The Audit Committee may impose

any conditions on the transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the SEC's related person transaction disclosure rule, our Board of Directors has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

interests arising solely from the related person's position as an executive officer of another entity (whether or not the person is also a director of that entity), that is a participant in the transaction, where (a) the related person and all other related persons own in the aggregate less than a 10%

equity interest in the entity, (b) the related person and his or her immediate family members are not involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction and (c) the amount involved in the transaction equals less than the greater of \$200,000 or 5% of the annual gross revenues of the company receiving payment under the transaction; and

a transaction that is specifically contemplated by provisions of our Charter or By-Laws. The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee in the manner specified in its Charter.

Related Party Transactions

During 2014, the Audit Committee reviewed and approved one related party transaction. The Audit Committee approved the entry by the Company into a Purchase Agreement with TCV V, L.P. (TCV V) and TCV Member Fund, L.P. (TCV Member Fund) and collectively with TCV V, TCV) dated as of December 9, 2014, pursuant to which the Company agreed to repurchase from TCV 1,000,000 shares of the Company's common stock for an aggregate price of \$9,797,000. The purchase price per share of common stock was equal to 97% of the closing price of the common stock on the NASDAQ Global Market on December 8, 2014. Jay Hoag, a member of the Company's Board of Directors, is also a member of the general partner of TCV, which holds more than 5% of the voting securities of the Company.

During 2014, other than as disclosed above, we have not been a party to any transaction or series of similar transactions in which the amount involved exceeded or will exceed \$120,000 and in which any current director, executive officer, holder of more than 5% of our common stock, or any member of the immediate family of any of the foregoing, had or will have a direct or indirect material interest, other than in connection with the compensation of our directors and executive officers, employment agreements and other agreements described above under Director Compensation , Employment Agreements and Potential Payments Upon Termination or Change-in-Control and Executive Compensation .

HOUSEHOLDING OF ANNUAL

MEETING MATERIALS

The SEC has adopted rules that allow us to deliver one set of disclosure documents to stockholders sharing the same address, which enables us to reduce the volume of duplicative information that you may receive and helps us reduce expenses. We expect to rely on this rule anytime we are mailing disclosure documents to you if you hold your shares through a bank, a broker or other nominee. This means that only one copy of the Notice of Internet Availability of Proxy Materials may have been sent to multiple stockholders in your household unless your bank, broker or other nominee has received contrary instructions from one or more of the stockholders. We will promptly deliver a separate copy of Notice of Internet Availability of Proxy Materials, the Proxy Statement or annual report to you if you write to us at 275 Grove Street, Newton, MA 02466, Attention: Corporate Secretary, or call us at (888) 274-4111. If you want to receive separate copies of our Notice of Internet Availability of Proxy Materials, Proxy Statement or annual report to stockholders in the future, or if you are receiving multiple copies and would like to receive only one copy per household, you should contact your bank, broker, or other nominee record holder.

OTHER MATTERS

Our Board of Directors is not aware of any other matters that are likely to be brought before the Annual Meeting. If other matters are properly brought before the Annual Meeting, including a proposal to adjourn the Annual Meeting to permit the solicitation of additional proxies in the event that one or more proposals have not been approved by a sufficient number of votes at the time of the Annual Meeting, the persons named in the Company's proxy will vote on such matters in their own discretion.

GENERAL

The matters in this Proxy Statement are solicited by and on behalf of our Board of Directors. The entire cost of such solicitation will be borne directly by us.

In addition to the use of the mails, proxies may be solicited by personal interview, telephone or by other means of communication by directors, officers and our other employees who will not be specially compensated for these services. We will also request that brokers, nominees, custodians and other fiduciaries forward soliciting materials to the beneficial owners of shares held of record by such brokers, nominees, custodians and other fiduciaries. We will reimburse such persons for their reasonable expenses in connection therewith.

Certain information contained in this Proxy Statement relating to the occupations and security holdings of our directors and officers is based upon information received from the individual directors and officers.

WE WILL FURNISH, WITHOUT CHARGE, A COPY OF OUR ANNUAL REPORT ON FORM 10-K FOR THE FISCAL YEAR ENDED DECEMBER 31, 2014, INCLUDING FINANCIAL STATEMENTS AND SCHEDULES THERETO BUT NOT INCLUDING EXHIBITS, TO EACH OF OUR STOCKHOLDERS OF RECORD ON APRIL 22, 2015, AND TO EACH BENEFICIAL STOCKHOLDER ON THAT DATE UPON WRITTEN REQUEST MADE TO CORPORATE SECRETARY, TECHTARGET, INC., 275 GROVE STREET, NEWTON, MA 02466.
